Rules of Procedure.

Fire Retarding Rules.

Appliances Approved.

Reserve Calendar.

Progress Report.

PUBLIC HEARINGS

Tuesdays, at 10 a. m. and 2 p. m.

Special meetings as published in this Bulletin.

Call of Clerk's Calendar, Tuesdays, at 2 p. m.

All hearings are held in Room 1013, Municipal Building, Manhattan.

HOURS FOR CONSULTATION OF THE

10 A. M. to 1 P. M.

Any person desiring to consult the chairman or the engineers, pertaining to the work of the board, will be seen only between the hours of ten in the morning and one in the afternoon—Saturdays excepted.

CALL OF CLERK'S CALENDAR

The Clerk's Calendar consists of applications under the Building Zone Resolution, and its object is to give interested property owners opportunity to file objections, if any, and will be called in Room 1013, Wednesday, January 4, 1928, at 2 o'clock. At this call each case is set for hearing on a definite day.

The next subsequent Call of the Calendar will be on Tuesday, January 10, 1928, at 2 o'clock.

The Clerk's Calendar is not to be confused with the calendar of cases that have been definitely set for hearing on fixed days.

NOTICE TO APPELLANTS AND PETITIONERS

No appeal, application or petition will be entertained in connection with which court proceedings are pending or in progress, nor accepted that are not filed within twenty days from the date of the action of the Administrative Official.

Any communication purporting to be an appeal, application or petition shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this board.

Upon receipt of any such communication the writer will be supplied with the official forms for presenting his appeal, application or petition, and if he fails to supply the data required thereon, within twenty days, his case may be dismissed for lack of prosecution.

At the time of filing an application, the appellant or petitioner shall forward a signed notice of appeal addressed to the administrative official (either superintendent of buildings or fire commissioner) and file with this board a duplicate of said notice.

Petitioners are advised that their plans must indicate the points of the compass so as to establish the true location and position of the property, the subject of the appeal.

Appeals, applications and petitions will be simplified and disposition of same expedited by conforming to these directions.

WILLIAM E. WALSH, Chairman.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Commissioners Connell, Holland and Guilfoyle..... 4
Negative 0
Absent: Chief Kenlon..... 1

THE RESOLUTION—

(817-27-A)

WHEREAS, Samuel Rosenblum, for Linro Building Company, owner, filed July 15, 1927, an appeal from the order of the fire commissioner, affecting premises 28-44 Lincoln road, Borough of Brooklyn, and

WHEREAS, the order of the fire commissioner, dated January 8, 1927 (Order No. 7545-LC), reads:

"1. Provide an approved standpipe line in accordance with plan No. 688-26 approved for fuel oil by the Fire department plans and specifications, in duplicate must be filed with and approved by this Department before the above work may be commenced.";

and

WHEREAS, the building is non-fireproof, 6 stories (62 ft.)

in height, 161 ft. 8½ in. by 87 ft. and 105 ft., irregular in depth, about 11,825 square feet in area; OCCUPIED as a tenement house, 14 apartments on each story; and

WHEREAS, the appellant claims that the standpipe order was issued as a result of an application to install a fuel oil system; the building is sub-divided into five floor areas by brick walls, the largest sub-divided area being 2,893 square feet; furthermore, the appellant contends that the building was erected under plans approved by the bureau of buildings and the tenement house department, and a certificate of occupancy has been issued by each department; and

WHEREAS, the premises involved have been completed in accordance with the tenement house law and certificates of occupancy from the tenement house department and the bureau of buildings have been issued and are in force, and

WHEREAS, the order of the fire commissioner is predicated on the installation of fuel oil burning equipment in substitution of coal heating apparatus,

Resolved, that the order of the fire commissioner be and it hereby is *modified* and the appeal be and it hereby is *granted on condition* that the fuel oil burning equipment shall be installed in strict accordance with the fuel oil rules of the board of standards and appeals and that the building shall comply with and be maintained strictly in accordance with the tenement house law and the building code in all respects.

731-27-A.

APPELLANT—Worth, Inc., lessee.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—43-45 West 34th street and 64 West 35th street, Manhattan.

APPEARANCES—

For Appellant: Frank S. Winston.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Commissioners Connell, Holland and Guilfoyle..... 4
Negative 0
Absent: Chief Kenlon..... 1

THE RESOLUTION—

(731-27-A)

WHEREAS, Worth, Inc., lessee, filed June 23, 1927, an appeal from an order of the fire commissioner affecting premises 43-45 West 34th street and 64 West 35th street, Borough of Manhattan, and

WHEREAS, the order of the fire commissioner, dated April 20, 1927 (Order No. 17894-E), reads:

"1. Provide iron shutters at all openings in the exterior wall above 1st story which are distant in a direct line less than 30' from any opening in any other building and not in the same plane with said openings and which are not more than 50' above a neighboring roof at east and west sides of building, or other approved protection, as per Sec. 375, Article 18, Chapter 5 of the Code of Ordinances.";

and

WHEREAS, the building is fireproof, 12 stories and pent-house in height, having a frontage of 50 ft. on West 34th street, 31 ft. on West 35th street and a depth of 200 ft.; OCCUPIED: 1st to 7th stories as department store sales-room for the sale of women's wearing apparel (10 persons being engaged at alterations upon same on the 3rd story, totalling approximately 200 persons; upper stories tenant factories designing women's clothes—approximately 35 persons per story; and

WHEREAS, there are 7 windows on each story above the first story, in the westerly wall of the building, within 50 feet of the roof of the 4-story extension roof of an adjoining 12-story fireproof building to the west, and four (4) windows on each story above the first story, in the

MINUTES

east wall (facing the court) of the building within 30 ft. of openings in or within 50 ft. of the roof of the 8-story extension of an adjoining 12-story fireproof building to the east or within 50 ft. of the roof of an adjoining 4-story fireproof building to the east (34th street front); and

WHEREAS, appellant contends that the building forming the exposures are of fireproof construction and that the openings therein are all provided with fireproof windows; and

WHEREAS, there are but four windows on the westerly wall (equipped with steel frames and sash), the size of the glass being the only item involved,

Resolved, that the order of the fire commissioner be and it hereby is *modified* and the appeal be and it hereby is *granted on condition* that these openings shall be glazed with 1/4-inch polished plate glass; that all windows on the course of any shaft, stairhall or corridor shall be equipped in accordance with the requirements of the law; and, *granted* only as long as conditions, occupancy and use and the adjoining exposures remain unchanged.

824-27-BZ.

APPLICANT—John J. Dunnigan, for Bronx Consumers Ice Co., owner.

SUBJECT—Application (re decision of superintendent of buildings), under sections 7e and 21 of the building zone resolution, to permit partly in a business district and partly in a residence district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles.

PREMISES AFFECTED—2846 Webster avenue, The Bronx.

APPEARANCES—

For Applicant: John J. Dunnigan.

For Opposition: M. V. Seligson and William Moskowitz.

ACTION OF BOARD—Application granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Commissioners Connell, Holland and Guilfoyle..... 4

Negative 0

Absent: Chief Kenlon..... 1

THE RESOLUTION—

(824-27-BZ)

WHEREAS, John J. Dunnigan, for Bronx Consumers Ice Co., owner, filed, July 18, 1927, an application, under the building zone resolution, to permit, partly in a business district and partly in a residence district, the erection and maintenance of a garage for the storage of more than five motor vehicles; premises 2846 Webster avenue, Borough of The Bronx; and

MINUTES

WHEREAS, a public hearing was held on this application by the board of standards and appeals, at its regular meeting, December 27, 1927, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Webster avenue, Oliver street and East 199th street are in a business district, the area 100 ft. back from Webster avenue and including the rear of the proposed garage is in a residence district; and

WHEREAS, the decision of the superintendent of buildings, rendered July 13, 1927 (N. B. 1580-27), reads:

"1. Erection of public garage for storage of more than five motor vehicles partly in business district and partly in a residence district is contrary to provisions of Building Zone Resolution.";

and

WHEREAS, the proposed building is of non-fireproof construction, two stories in height, with a frontage of 100 ft. and a depth of 141.62 ft. and 120 ft., irregular; to be occupied as a garage for the storage of more than five motor vehicles; and

WHEREAS, the board deemed that applicant substantiated his basis of appeal under section 7e and was entitled to consideration under section 21 of the building zone resolution.

Resolved, that the board of standards and appeals does hereby *make a variation* in the application of the building zone resolution, and that the application be and it hereby is *granted on condition* that the building shall be constructed fireproof throughout; that it shall not exceed a height of more than two stories above grade; that there shall be a rear yard not less than 10 ft. in depth for the entire width of the property at the second story floor level; that the gable walls and first story rear wall shall be unpierced throughout their entire height and length; that the windows in the second story, rear, if installed, shall be of fixed steel sash, glazed with wire glass, with one pivoted ventilator in each sash; that there shall be a louvre ventilator rigidly affixed to the rear wall throughout the entire width of building at second story floor level; that any ramp installed shall be located at the extreme northerly end of the premises, the grade of which shall start not less than 15 ft. inside the building; that the front elevation shall be finished with face brick with architectural terra cotta or stone trimming; that there shall be no roof signs erected or maintained; that any advertising on the street front shall be restricted to flat wall signs; that there shall be no portable gasoline tanks maintained or operated on the premises, and that all permits required shall be obtained within nine months and any work involved shall be completed within one year from the date of this action.

132-27-BZ.

APPLICANT—Emil Guterman, for America F. Rosasco, owner.

SUBJECT—Application (re decision of superintendent of buildings), under sections 7g and 21 of the building zone resolution, to permit partly in a business district and partly in a residence district the alteration and conversion of an existing building occupied as a five (5) car garage, motor vehicle repair shop and dwelling, into a garage for more than five (5) motor vehicles, a motor vehicle repair shop and dwelling.

PREMISES AFFECTED—149-151 Carroll street, Brooklyn.

APPEARANCES—

For Applicant: Emil Guterman.

For Opposition: John Barry, Caterena Pane and Martin F. Brady.

ACTION OF BOARD—Application granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Commissioners Connell, Holland and Guilfoyle..... 4

Negative 0

Absent: Chief Kenlon..... 1

THE RESOLUTION—

(132-27-BZ)

WHEREAS, Emil Guterman, for Americo F. Rosasco, owner, filed, February 8, 1927, an application, under the building zone resolution, to permit, partly in a business district and partly in a residence district, the alteration and conversion of occupancy of an existing building occupied as a five (5) car garage, motor vehicle repair shop and dwelling into a garage for the storage of more than five motor vehicles, a motor vehicle repair shop and dwelling; premises 149-151 Carroll street, Borough of Brooklyn; and

WHEREAS, a public hearing was held on this application by the board of standards and appeals, at its regular meeting, December 27, 1927, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Carroll street is in a residence district, Henry street is in a business district and President street is in a residence district; and

WHEREAS, the decision of the superintendent of buildings, rendered March 31, 1927 (re App. No. 545-1927), reads:

"Proposition contrary to the Zone Resolution, Art. II, Sec. 3 and Sec. 4-A, Sub-division 15.

"The extending of a building to be used as a garage for more than five motor vehicles partly in a business and partly in a residence district.

"Present occupancy stated 1st floor—garage for five cars and repair shop; 2nd floor—one family.";

and

WHEREAS, the plot in question is divided by the use district boundary line; the westerly portion of the plot (35 ft.) being within the business district and the easterly portion (17 ft.) is within the residence district; along the westerly side of the plot there is a 7-ft. wide open ramp leading down to the cellar of the existing building; the existing building is non-fireproof, two stories in height, 45 ft. front, 75 ft. deep and 25 ft. along the rear lot line; it is occupied at present: cellar, dead storage; 1st story, garage for five (5) cars and auto repair shop; 2nd story, dwelling; it is proposed to remove certain walls and to extend the existing building in the cellar and first stories so as to include the existing yard space at the northeast portion of the premises, said yard being 20 ft. by 50 ft. in area and to use the whole building as extended as a motor vehicle repair shop, garage for the storage of more than five motor vehicles and (the second story) as a dwelling of the owner; and

WHEREAS, the applicant, in compliance with the rules of exception, section 7, subdivision g, has filed 82 per cent consents of an area fixed by the board as deemed affected; and

WHEREAS, there exists on these premises at the present time a garage and motor vehicle repair shop, and it is proposed but to extend a one-story building at the rear, covering the existing vacant yard for garage use; and

WHEREAS, the board deems that applicant has substantiated his claim of hardship brought under section 21 of the building zone resolution.

Resolved, that the board of standards and appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted on condition* that the proposed addition shall be restricted to a building one story in height above grade; that the rear and easterly gable wall shall be unpierced throughout its entire height and length; that there shall be incorporated at the intersection of the extension roof with the rear wall of the existing second story a fire stop of approved masonry; that the ceiling of the garage shall be fire retarded throughout in accordance with the rules of the board of standards and appeals; that the motor vehicle repair work shall be re-

MINUTES

stricted to that of manual operation for repairs incidental to the conduct of the garage; that there shall be no open torch, forge or anvils operated on the premises; that not more than a one-half horse power electric punch or drill shall be used or installed; that there shall be no additional gasoline storage equipment permitted on these premises; that no portable gasoline tanks shall be operated on the premises outside the building line; that there shall be no advertising of any nature or description permitted on the front of the building; that there shall be no roof sign erected or maintained; that the stairs from the second story shall be carried direct to the street with opening on the street front and shall be enclosed throughout with material of fire-resisting construction in accordance with the rules of the board of standards and appeals; that the windows in the rear of the second story portion shall be equipped with fireproof frames and sash, glazed with wire glass or polished plate glass; that all permits required shall be obtained within six months and all work involved thereby completed within one year from the date of this action.

214-27-BZ

APPLICANT—William F. Doyle, for Irene E. Russik, owner.

SUBJECT—Application for reopening—extension of time in which to obtain permits—re application (decision of fire commissioner) under section 21 of the building zone resolution, to permit in a business district the erection and maintenance of a gasoline service station.

PREMISES AFFECTED—Southwest corner of Cedar avenue and West Fordham road, The Bronx.

APPEARANCES—

For Applicant: William F. Doyle.

For Opposition: None.

ACTION OF BOARD—Application reopened and time extended to six months to obtain permits and twelve months to complete work.

THE VOTE TO REOPEN AND EXTEND TIME—

Affirmative: Chairman Walsh, Commissioners Connell, Holland and Guilfoyle..... 4

Negative 0

Absent: Chief Kenlon..... 1

THE RESOLUTION—

(214-27-BZ)

WHEREAS, William F. Doyle, for Irene E. Russik, owner, filed, March 3, 1927, an application, under the building zone resolution, to permit in a business district the erection and maintenance of a gasoline service station; premises southwest corner of Cedar avenue and West Fordham road, Borough of The Bronx; and

WHEREAS, a public hearing was held on this application by the board of standards and appeals, at its regular meeting, June 7, 1927, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that West Fordham road is in a business district, Cedar avenue is in a residence and unrestricted district and Harlem River terrace is in a residence, business and unrestricted district; and

WHEREAS, the decision of the fire commissioner, rendered March 2, 1927 (Alt. No. 485-27), reads:

"1. A gasoline service station may not be permitted in a business district. Appeal may be taken to the Board of Standards and Appeals;"

and

WHEREAS, it is proposed to erect a one-story all-metal office, bury ten 550-gallon storage tanks, erect six pumps, also grease racks for the purpose of conducting a gasoline service station; and

WHEREAS, the board deemed that applicant was entitled to relief under section 21 of the building zone resolution on the ground of practical difficulty and unnecessary hardship; and

WHEREAS, this application was granted by the board at its meeting, May 31, 1927, on certain conditions and applicant requested a modification of the time limit imposed.

Resolved, that the board of standards and appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted on condition* that the premises be entirely enclosed at the rear or southerly property line and on the Cedar avenue frontage at the building line with walls not less than 10 ft. in height, unpierced, and that the wall at the street front at the intersection of West Fordham road shall be reduced by a double curved sweep to a height of not less than 5 ft. above grade; that the exterior of the wall on the Cedar avenue front and the exposed surface of the rear southerly wall shall be finished with tapestry face brick; that the exposed surface of the interior of the enclosing wall shall be finished with enamel brick, wall to be coped with marble, architectural terra cotta or natural stone; that there shall be no advertising of any nature or description displayed on the exterior of the wall; any advertising display to be restricted to the wall surface on the interior of the plot; that any gasoline service operation on these premises shall be conducted within the property lines; that there shall be no portable gasoline tanks maintained or operated on the premises; that any arc lights or electric light standards erected shall be provided with reflectors for the protection from glare of the properties to the south and east; that a return of the drawings shall be made to this board, in accordance with the foregoing stipulations of this resolution, for approval, before submitting same to the superintendent of buildings; that all necessary permits shall be obtained within six months and the work involved completed within one year from the date of this action—December 27, 1927.

344-26-BZ

APPLICANT—William F. Doyle, for Maple Court Garage, Inc., and Jennie Sorock, owners.

SUBJECT—Application for reopening—extension of time to procure permits (re application decision of superintendent of buildings) under section 21 of the building zone resolution to permit partly in a business district and partly in a residence district the alteration and extension in height of a garage for the storage of more than five (5) motor vehicles.

PREMISES AFFECTED—1612-1626 Church avenue, Brooklyn.

APPEARANCES—

For Applicant: William F. Doyle.

For Opposition: None.

ACTION OF BOARD—Application reopened and time extended to nine months to obtain permits and eighteen months to complete work.

THE VOTE TO REOPEN AND EXTEND TIME—

Affirmative: Chairman Walsh, Commissioners Connell, Holland and Guilfoyle..... 4

Negative 0

Absent: Chief Kenlon..... 1

THE RESOLUTION—

(344-26-BZ)

WHEREAS, William F. Doyle, for Maple Court Garage, Inc., owner, filed, April 20, 1926, an application, under the building zone resolution, to permit, partly in a business district and partly in a residence district, the alteration and extension in height of a garage for the storage of more than five motor vehicles; premises 1612-1626 Church avenue, Borough of Brooklyn; and

WHEREAS, a public hearing was held on this application by the board of standards and appeals, at its regular meeting, July 6, 1926, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Church avenue is in a business

MINUTES

and residence district, Buckingham road is in a residence district and East 18th street is in a residence district; and

WHEREAS, the decision of the superintendent of buildings, rendered April 1, 1926, in acting on Appl. 4401-1926, reads:

"Contrary to Building Zone Resolution, Article 2, Par. 6 (Extension of garage in business and residential district).";

and

WHEREAS, the existing building is of non-fireproof construction, two stories in height, with a frontage of 136 ft. 3 in. and a depth of 148 ft.; occupied as a garage for the storage of more than five motor vehicles; it is proposed to extend second story portion to cover entire area; and

WHEREAS, the board deemed that applicant was entitled to relief under section 21 of the building zone resolution on the ground of practical difficulties and unnecessary hardship; and

WHEREAS, this application was granted by the board at its meeting, July 6, 1926, and March 29, 1927, on certain conditions, and applicant requested an extension of the time limit for obtaining permits and completing the work, which request was granted by vote of the board.

Resolved, that the board of standards and appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted* for the proposed extension as to the existing two-story building, *on condition* that rear yard of not less than 10 ft. in depth shall be maintained throughout the entire width of the property at the grade of the second floor level; that a skylight shall be provided at this level, glazed with wire glass, with fixed metal louvres attached to the rear wall; that there shall be no advertising or signs of any nature or description permitted on the rear or gable walls; that any ramps, if incorporated for the use of the second story shall set back from the Church avenue street front not less than 20 ft.; that there shall be no advertising display on the front of the building other than one projecting electric sign indicating the name and title of the garage, or flat wall signs as now exist; that any gasoline storage equipment installed shall be located at the street front, approximately at the center of the building; that the front elevation shall be finished in material and design substantially in accordance with the existing structure; that all required permits shall be obtained within nine months and the work completed within eighteen months from December 27, 1927.

424-27-BZ

APPLICANT—William F. Doyle, for Clarence Ciampi, owner.

SUBJECT—Application for reopening—correction of location of premises—re application (decision of superintendent of buildings) under section 21 of the building zone resolution, to permit in a business district the erection and maintenance of a garage for the storage of more than five motor vehicles.

PREMISES AFFECTED—East side of White Plains avenue, 100.04 ft. north of Waring street, The Bronx.

APPEARANCES—

For Applicant: William F. Doyle.

For Opposition: None.

ACTION OF BOARD—Application reopened and location of premises corrected.

THE VOTE TO REOPEN AND CORRECT—

Affirmative: Chairman Walsh, Commissioners Connell, Holland and Guilfoyle..... 4

Negative 0

Absent: Chief Kenlon..... 1

THE RESOLUTION—

(424-27-BZ)

WHEREAS, William F. Doyle, for Clarence Ciampi, owner, filed, April 30, 1927, an application, under the building zone

resolution, to permit in a business district the erection and maintenance of a garage for the storage of more than five motor vehicles; premises east side of White Plains avenue, 100.04 ft. north of Waring street, Borough of The Bronx; and

WHEREAS, a public hearing was held on this application by the board of standards and appeals, at its regular meeting, October 11, 1927, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that White Plains avenue and Boston road are both in a business district; and

WHEREAS, the decision of the superintendent of buildings, rendered April 9, 1927 (N. B. 56-27), reads:

"1. Erection of public garage for storage of more than five motor vehicles in business district is contrary to provisions of Building Zone Resolution.";

and

WHEREAS, the proposed building is to be of non-fireproof construction, two stories in height, with a frontage of 100 ft. on White Plains road and 52.33 ft. on Boston road, 121 ft. 6 in. in depth; to be occupied as a garage for the storage of more than five motor vehicles; and

WHEREAS, applicant, in support of his application, filed 50 per cent of consents of owners of property affected and the board deemed he was entitled to relief under section 21 on the ground of practical difficulty and unnecessary hardship in view of the abutting and surrounding condition; and

WHEREAS, this application was granted by the board at its meeting, October 11, 1927, the premises being stated to be east side of White Plains avenue, 94.63 ft. north of Waring street, and a recent survey shows these premises to be 100.04 ft. north of Waring street and applicant requested a correction which request is granted by vote of the board.

Resolved, that the board of standards and appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted on condition* that the garage area for the first floor on the street grade shall not exceed a depth of eighty (80) ft. from White Plains avenue; that the irregular area of the plot facing Boston road, running westerly for a distance of sixty-two (62) ft. and forty-one (41) ft. six (6) in. from Boston road building line shall be restricted to conforming business use; that the business use area on the Boston road front shall be separated from the garage area on the White Plains avenue front by walls of approved masonry; that the gable walls shall be unpierced throughout their entire height and length; that the rear wall shall be unpierced throughout its entire height and length; that the street elevations shall be of attractive architectural design, finished with architectural terra cotta or stone trimmings; that there shall be no sign or advertising display on the Boston road front other than flat lettering affixed to the plate glass windows of the store fronts; that there shall be no advertising display of any nature or description other than one projecting sign, indicating the name and title of the business, on the White Plains avenue front; that there shall be no vehicular exit or entrance within forty (40) ft. of the northerly gable wall on the White Plains avenue front; that any gasoline storage equipment if installed shall be located approximately at the front wall on the White Plains avenue front; that the architect shall make a return of proposed finished drawings in accordance with the foregoing conditions for approval by this board; that all required permits shall be obtained within six months and any work involved completed within one year from the date of approval of plans by this board;

Resolved, further, that the premises affected by this resolution is known as the east side of White Plains avenue, 100.04 ft. north of Waring street.

Adjourned 2.30 p. m.

THE RESOLUTION—

(782-27-S)

WHEREAS, Max Ornstein, for S. Ornstein and Sons, lessee, filed, July 6, 1927, a petition for a variation from the requirements of the labor law, as cited in an order of the fire commissioner and decision of the superintendent of buildings, affecting premises 530 East 147th street, Borough of The Bronx; and

WHEREAS, the order of the fire commissioner, dated June 16, 1927, reads:

"Order No. 22991-LD:

"1. Provide an additional required means of exit on each floor of the building, remote from the existing stairway, preferably located at the rear of building in accordance with the requirements of Sec. 271 of the Labor Law.

"NOTE: Plans for all structural changes should be filed in the Bureau of Buildings as required by Chapter 503, Laws of 1916.";

and

WHEREAS, the decision of the superintendent of buildings, dated November 18, 1927, reads:

"A certificate of occupancy for the factory building at above mentioned location is hereby denied as secondary means of egress has not been provided.";

and

WHEREAS, the building is frame, three stories in height, 25 ft. by 100 ft. in area on first story and 25 ft. by 44 ft. in area above; OCCUPIED: 1st story, stock room and work room (umbrellas), 17 persons; 2nd and 3rd stories, stock, no persons; the means of EGRESS consisting of interior stairway, extending from the first story to the third story, unenclosed; a stairway to the rear of main stairway, extending from the first story to the second story, unenclosed; and

WHEREAS, petitioner contends that only the first floor on the level with the street is used as a work room and all other space in building is used for housing of stock; that any additional means of exit on any other floor but the first is unnecessary; that he proposes to erect an emergency exit—a door—at the rear of main working room, leading into yard adjoining to the east, with egress to the street from these yards through fireproof passageway to adjoining building.

Resolved, that the board of standards and appeals does hereby make a variation in the requirements of the labor law, and that the petition be and it hereby is granted on condition that a door shall be provided at the rear of the first story easterly gable wall with egress to the open yard of premises to the east, with egress therefrom by passageway through building of these adjoining premises to the street; that a fixed gooseneck iron ladder shall be provided from the roof of the first story extension for egress from the third story to the yard of adjoining premises to the east; that the written consent of the owner of the adjoining premises be filed with the fire department; that the building shall be not increased in height, area or dimension, and so long as conditions as to occupancy and use remain unchanged

702-27-S

PETITIONER—Croker National Fire Prev. Eng. Co., for Hanan & Son, lessee.

SUBJECT—Variation of the labor law as cited in order of the fire commissioner.

PREMISES AFFECTED—718 Fifth avenue, Manhattan.

APPEARANCES—

For Petitioner: Herman E. Horwood.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition granted on condition.

THE RESOLUTION—

(702-27-S)

WHEREAS, Croker National Fire Prevention Engineering Co., for Messrs. Hanan and Son, lessee, filed, June 18, 1927, a petition for a variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 718 Fifth avenue, Borough of Manhattan; and

WHEREAS, the order of the fire commissioner, dated February 6, 1925, reads:

"Order No. 71909-LD:

"1. Arrange the fire escape on the easterly end of the north side of the building and the openings leading thereto and the windows opening on the course thereof so that same are in compliance with the provisions of Sec. 273 and 274 of the Labor Law.

"NOTE: Among the defects noted are the following:

"No stairway from lowest balcony to the ground. No stairway from the top balcony to the roof. Not screened to a height of 4 ft. 6 in. No openings 2 ft. by 6 ft. provided to balconies.

"3. Enclose the interior stairway at the west side of the building, serving as a required means of exit, and

MINUTES

the landings, platforms and passageways connecting therewith on all sides with partitions of fire-resisting material, extending continuously from the cellar to 3 ft. above the roof, constructed as per Sec. 271 of the Labor Law, or carry out a proper alternative method of complying with the requirements of Sec. 271 of the Labor Law.

"NOTE: Plans for all structural changes should be filed in the Bureau of Buildings as required by Chapter 503, Laws of 1916.";

and WHEREAS, the building is non-fireproof, six stories in height, 27 ft. by 100 ft. in area; OCCUPIED: 1st story, shoe store, 12 persons; 2nd story, dress shop, 12 persons; 3rd story, men's tailor, 8 persons; 4th story, beauty parlor, 3 persons; 5th story, wholesale jewelry, 13 persons; 6th story, photographer, 6 persons; EXITS: an interior stairway, extending from the first story to the sixth story, enclosed in fire-retarded partitions, with wood and fireproof doors at the openings, with scuttle and ladder to roof; two vertical ladder fire escapes on the West 56th street front of building; one fire escape, consisting of balconies and vertical ladder, taking in the second, third, fourth, fifth and sixth stories, with drop ladder to street, and the other fire escape, consisting of balconies and vertical ladder, taking in windows on the second, third, fourth and fifth stories; and

WHEREAS, the petitioner proposes 60-degree connecting stairways on the easterly fire escapes; to provide fireproof windows and casement doors leading to the balconies, and

also steps to the sills, and requests to be relieved of screening the fire escape and of providing a stairway from top balcony to the roof and from the lowest balcony to the ground, and proposes to provide fireproof, self-closing doors at all openings in the cross wall of the stairway enclosure from the cellar to the top story.

Resolved, that the board of standards and appeals does hereby *make a variation* in the requirements of the labor law, and that the petition be and it hereby is *granted*, as to item 1, *on condition* that both existing fire escapes shall be extended to include the top story and that a gooseneck ladder shall be provided from each top story balcony to the roof; that the balcony rails shall be raised not less than 4 ft. in height; that counterbalanced drop ladder in guides shall be provided from the lowest balconies to the sidewalk; that 60-degree connecting stairs shall be provided for both exterior fire escapes, and that the fire escape shall comply with the rules of the board of standards and appeals in all other respects; *granted*, as to item 3, *on condition* that the existing fire-resisting partition within the stair hall enclosure at the northwest corner of the building shall be unpierced throughout its entire height and length; that the stair hall enclosure otherwise shall comply with the rules in all respects, and that this variation is granted so long as conditions as to use and occupancy otherwise remain unchanged.

Adjourned 5.00 p. m.

WILLIAM J. O'GORMAN, *Secretary*.

RULES

RULES FOR THE TESTING OF WOOD

Pursuant to the Provision of Section 356 of Chapter 5 of the Code of Ordinances (Building Code).

639-27-SR

Adopted by the board of standards and appeals, July 22, 1927.

Rule 1. Before any wood may be used for flooring or interior trim where incombustible materials are required under the provisions of section 356 of the Building Code, the superintendent of buildings must be notified promptly upon the delivery at the job of a consignment of such material. One test sample for each 2,000 feet of material will then be selected by a representative of the Bureau of Buildings, marked for identification, and forwarded to the testing laboratory, where, under the supervision of the superintendent of buildings or his representative, the samples shall be subjected to the following tests:

Before making tests all specimens for testing shall be oven dried at a temperature of 190° F. to a point where there is no further loss of weight due to evaporation of moisture content.

A. SHAVING TEST—A mass of shavings cut fairly thick from the outside and interior of sticks of the treated wood are to be tested separately. These shavings shall be placed to a depth of two inches in a metal vessel twelve inches square, the bottom of which shall consist of a wire screen of ½ inch mesh. The shavings shall be packed down moderately to reduce the air spaces. A Bunsen yellow flame shall then be placed beneath the receptacle so that the flame is in contact with the shavings. After twenty-five seconds the flame shall be removed. The flame at no time should show higher than six inches above the top of the bed of shavings and the shavings should not be consumed in less than five minutes.

B. TIMBER TEST—Two samples ¾ inch by 1½ inches in cross section and twelve inches long shall be laid side by side across the top of a gas crucible furnace

with a pyrometer between them. The specimens shall be subjected to a flame at 1700 deg. Fahrenheit for two minutes, the test pieces shall then be removed, and the time of duration of flame and glow observed. The sticks shall then be cut through the middle at the most burned section and the area of the unburned wood measured with a planimeter. The flame must not persist longer than 15 seconds nor the glow longer than 20 seconds, and, in the case of hard woods, the unburned area should not be less than 55 per cent., nor in the case of soft woods less than 45 per cent.

C. CRIB TEST—Twenty samples are to be prepared, each ½ inch square and 6 inches long. These shall be built up on a ring support to form a crib work five tiers high, four sticks to a tier, making the crib six inches by six inches and approximately 2½ inches high. The crib shall be set six inches above a Bunsen burner to which the crib shall be exposed for a period of one minute at a temperature approximating 1200 deg. Fahrenheit. The flame must not persist more than twenty seconds after the Bunsen burner is removed, nor the glow last more than thirty seconds. The tendency of the flame to spread from stick to stick must also be noted.

Rule 2. All of the above tests shall be at the expense of the owner or contractor or other interested party.

If the tests are satisfactory the entire shipment will be permitted to be taken into the building and used. If not, the entire shipment shall be condemned and must be removed from the premises.

In general, acceptance shall be predicated upon the existence of a complete plant in full working order from which the material is shipped, and each shipment, or, where possible, each piece shall be trade marked in a conspicuous manner so that there may be no doubt as to its identity.

RULES

RULES OF PROCEDURE OF BOARD OF STANDARDS AND APPEALS ADOPTED FEBRUARY 15, 1927

(89-27-SR)

ARTICLE I—PUBLIC HEARING.

1. Regular sessions designated as public hearings of the Board of Standards and Appeals shall be held on Tuesday of each week at 10 A. M. and 2 P. M.

2. Morning sessions shall be devoted to hearings on appeals from administrative orders and applications for variation of the building zone resolution. Afternoon sessions, in general, shall be given over to hearings on petitions for variation of the labor law and consideration of rules. Notice shall be published in the Bulletin of the Board of deviation from this procedure.

3. Special sessions may be called by the Chairman, or at the request of four members, provided that notice of the same has been mailed to each member at least twenty-four hours before the time set, except that the announcement of a special session at any meeting at which a quorum is present shall be sufficient notice of such meeting.

4. All hearing sessions shall be open to the public.

5. A quorum of the Board of Standards and Appeals shall consist of four members.

6. The members of the Board shall attend the meetings in person, except that during absence or disability a substitute may act, as provided by law under section 718 of the Charter as amended by Local Law No. 13. The names of such substitutes, designated by the Mayor, shall have been previously filed with the chairman.

ARTICLE II—CASES BEFORE THE BOARD.

1. Every application under the Building Zone Resolution, every appeal under section 719 of the Charter and every petition under section 718a, subdivision 4, of the Charter, shall be made to the Board on the forms provided, and shall include the data required in such forms, so as to supply all information necessary for a clear understanding by the Board and its staff. Action in each case must be based largely on the information so furnished. The statements made by the applicant, appellant or petitioner and the determination of the Board in each case will be incorporated in a resolution formally adopted and published in the Bulletin of the Board. Officials who are charged with the enforcement of the laws, ordinances and rules relating to buildings in the City of New York will be bound by such resolutions, and, before granting permit or taking any other affirmative action, should see that there are no misstatements as to facts and that the conditions of the resolution are observed. Any administrative official discovering any misstatement of essential information is requested to notify the Board, in order that it may take such action as the circumstances require. All approvals shall remain valid only as long as the information and the conditions on which the resolution was based are maintained.

2. Any communication purporting to be an application, appeal or petition shall be regarded as a mere notice of intention to seek relief and shall be of no force or effect until it is made in the form required.

3. Upon receipt of any such communication, the writer shall be supplied with the proper forms for presenting his application, appeal or petition, and he shall be required to file the proper form and furnish all necessary data within twenty days of the date of the order or decision appealed from.

4. The duplicate of each application, appeal or petition required by this article shall be forwarded promptly to the administrative official whose order is involved in such case.

5. At the public hearing of a case before the Board, the applicant shall first present the argument in support of the case and those in objection shall follow. To maintain orderly procedure, each side shall proceed without interruption by the other.

6. Every person before the rostrum shall abide by the order and direction of the Chairman. Discourtesy or disorderly or contemptuous conduct shall be regarded as a breach of the privileges of the Board and shall be dealt with as the Chairman deems proper. Orders to maintain discipline shall be carried out by the Sergeant-at-Arms.

Subject to the direction of the Chairman, the Secretary shall enforce the rules of the Board and shall direct and supervise the Sergeant-at-Arms in maintaining order and decorum in the hearing room and lobbies during all public hearings.

7. No member shall proceed to debate, discuss an issue, put a motion or offer a resolution until he shall have addressed the Chairman and have been recognized by him. While the Chairman is putting a motion or offering a resolution, or during the progress of a roll call, no member shall interrupt or leave his seat. When a motion to adjourn is carried, the members of the Board shall keep their seats until the Chairman declares the meeting adjourned.

ARTICLE III—THE CALENDAR.

1. Each case filed in the proper form, with the required data, shall be numbered serially, irrespective of whether it be an application, appeal or petition. These Calendar numbers shall begin anew on January 1st of each year, and shall be hyphenated with the number of the year and the initials indicating the character of the case. Thus the calendar number of an application under the Building Zone Resolution in 1926 shall be "210-26-BZ"; an appeal from an order, requirement, decision or determination of a Superintendent of Buildings or of the Fire Commissioner, "211-26-A," and a petition for variation of the Labor Law or any rule or standard adopted thereunder, "212-26-S."

2. As soon as a case receives a calendar number, it shall be placed on the Docket. Thereafter the appellant or petitioner shall be notified of the date his case will be set for public hearing. In building zone applications the applicant shall be notified of the date when his case will be reached in the call of the Clerk's Calendar.

3. The Clerk's Call Calendar shall be called each Tuesday at 2 P. M., in Room 1013, Municipal Building, Manhattan, by the Chairman or the Secretary, and a date, for the public hearing of each application for variation of the Building Zone Resolution, shall then be set, which shall be full and sufficient notice to all persons interested in such case.

4. Thereafter each case shall be listed, by calendar number and premises, in the Hearing Calendar printed in the Bulletin of the Board, under the title of the respective proceedings, and the date for which such case has been set.

ARTICLE IV—DISPOSITION OF CASES.

1. Every decision of the Board on any case shall be by resolution.

RULES

2. The final disposition of any application, appeal or petition before the Board shall be in the form of a resolution either reversing, varying or modifying the order, requirement, decision or determination appealed from and granting the application, appeal or petition, or affirming the order and denying the application, appeal or petition. The concurring vote of four members shall be necessary to a decision. If a resolution fail to receive four votes in favor of the applicant, appellant or petitioner, the action will be deemed equivalent to a denial, and a resolution denying such application, appeal or petition shall be formally entered on the record, unless there be a member absent at the roll call and the vote of the absentee added to the number of votes for the applicant appellant or petitioner would equal four, in which case the matter will be laid over for reconsideration, until a final determination is reached.

3. Any applicant, appellant or petitioner may withdraw his application, appeal or petition at any time prior to action thereon, with the consent of the Board, but if a motion has been made, and is pending, either to grant or to dismiss, such motion shall have precedence.

4. No application, appeal or petition dismissed or denied can be considered again except (1) on a motion to reconsider the vote, or (2) on a request for a rehearing.

5. No request to grant a rehearing can be entertained unless new evidence is submitted. If, on motion of a member of the Board, adopted by four affirmative votes, the request for a rehearing is granted, the case shall be put on the calendar for a rehearing.

In all cases, the request for a rehearing shall be in writing, reciting the reasons for the request, and shall be duly verified and accompanied by the necessary data and diagrams. Such request shall be filed with the Chairman, who shall have a report on the case prepared by the engineers. The Chairman may then set a date when the request for reopening shall be submitted to the Board, of which date the person requesting the reopening shall be notified.

If the Board votes to reopen a case affecting a building zone application, a date shall be set for the "Calendar Call" and the applicant shall be required to notify each of the property owners entitled to notice of the application, the same procedure to be followed as in an original application.

6. The Board may, on the motion of any member, review any decision that it has made and may reverse or modify such decision, but no such review shall prejudice the rights of any person who has in good faith acted thereon before it is reversed or modified.

ARTICLE V—BUILDING ZONE APPLICATIONS.

1. No application for a variation or modification of the provisions of the Building Zone Resolution shall be entertained by the Board except in a specific case, and from an order, requirement, decision or determination made by any Superintendent of Buildings, the Tenement House Commissioner, or the Fire Commissioner, on the ground that the proposed plan or use violates the Building Zone Resolution.

2. No such application shall be entertained unless the application is filed within twenty days from the date of the action of the Superintendent of Buildings, Tenement House Commissioner, or Fire Commissioner.

3. Every application shall be made in duplicate on Form 3BZ and shall be accompanied by all the data required by such form, and shall be considered subject to such rules as the Board has adopted or may adopt, under Article 5, Section 21, of the Building Zone Resolution.

4. As soon as any application is completed by the filing of the data required in Form 3BZ, the case shall receive a calendar number and shall be placed on the Clerk's Calendar, and the applicant shall be notified by the Board on Form 6CC, of the time set for the call of the calendar, which shall be at least five days after the mailing of said notice. With this notice the applicant shall be supplied with an official copy of Form 7NO, which he is required to send to every property owner entitled to notice of the application. Within three days the applicant must file a verified statement that he has so notified each of such property owners either by personal service or by registered mail. Not less than fourteen days' notice of the date fixed for calendar call in each Building Zone application shall be given by publication in the Bulletin of the Board.

5. On the call of the Clerk's Calendar the applicant shall appear in person, or by agent or attorney, and property owners affected by the application may appear either in person or by agent or attorney and present any typewritten and verified objections they may have to the granting of the application, together with a description of their property and an affidavit of ownership. Then a date shall be set for a public hearing on the application which shall be not less than fourteen days thereafter. Notice of said hearing shall be given by publication in the Bulletin of the Board.

6. On the date set for the public hearing, the applicant shall state his case, then the opposition shall be heard, and the applicant shall have an opportunity to reply.

7. No application that has been denied after a public hearing can be entertained under the same state of facts or basis of appeal, unless based upon a new decision by a superintendent of buildings on plans which materially change the aspects of the case.

ARTICLE VI—APPEALS.

1. No appeal from any order, requirement, decision or determination of the Superintendent of Buildings or the Fire Commissioner or from any rule or regulation relating to the construction, alteration, structural changes in, equipment, occupancy or use of any building or structure, under Section 719 of the Charter, shall be entertained unless such appeal is filed in duplicate on Form 1A, with all the data required in such form, within twenty days from the date of the order appealed from.

ARTICLE VII—PETITIONS.

1. No petition for variation of the Labor Law, or of any rule adopted thereunder affecting the construction or alteration of buildings, exits therefrom, the installation of fixtures or apparatus as authorized by Section 718-a, subdivision 4 of the Charter, shall be entertained unless it is made in duplicate on Form 2S, with all the data required in such form, within twenty days from the date of the administrative order to which the petition refers.

No petition for approval of a device, material or method of construction shall be entertained unless it is filed in duplicate on Form 4SA, with all the data required in such form.

No petition for the adoption or amendment of Rules shall be entertained unless it is filed in duplicate on Form 5SR, with all the data required in such form.

ARTICLE VIII—PETITIONS.

1. No resolution of the Board of Standards and Appeals adopting or amending any rule or regulation under subdivision 2 or 3 of section 718-a of the Charter shall be adopted unless such proposed rule or regulation shall

RULES

have been published in the Bulletin of the Board for at least ten days prior to a public hearing thereon. Four affirmative votes of the Board shall be necessary for the adoption of such resolution.

2. Amendments to these Rules of Procedure may be made by the Board of Standards and Appeals at any regular meeting, providing notice of such amendment has been given to each member of the Board three days prior to such meeting, either in writing or by publication in the Bulletin. The suspension of any rule of procedure may be ordered at any meeting by unanimous vote.

ARTICLE IX—OTHER RESOLUTIONS.

1. Every resolution of the Board of Standards and Appeals suggesting changes or amendments to the law under subdivision 5, section 718-a of the Charter shall require at least four affirmative votes for its adoption.

2. Every resolution not otherwise provided for, ordinary motions or decisions on rules of order shall require not more than three affirmative votes.

ARTICLE X—INSPECTIONS.

1. In any case in which the Board may deem it necessary, an inspection of the premises in question may be ordered by the Board. Such inspection shall be made by the Chairman and by two or more members designated by him, and they shall report their findings to the Board in writing.

ARTICLE XI—TESTS.

1. In any case in which the Board may order a test of any material or device, the test shall be conducted under the supervision of an assistant engineer, in the presence of the Chairman and two or more members appointed by him, and the result of such test shall be reported to the Board in writing, and the material or device shall not have the approval of the Board unless the report be favorable and adopted by four affirmative votes.

ARTICLE XII—RECORDS.

1. All applications, appeals and petitions shall be on the required forms, and all communications, reports, etc., and plans, relative to any matter appearing on the calendar, shall be on sheets approximately 8 in. by 10½ in. in size. After final disposition, they shall be bound in some suitable manner. These records shall be kept in filing cabinets in their numerical order, in such a manner that they are accessible to the public at all reasonable hours, as prescribed by the Charter of the City of New York.

2. An index indicating locations by boroughs shall be kept.

3. All reports on matters coming before the Board for action shall be duplicated in sufficient numbers to furnish a copy to each member. The original shall be filed with the records in each case.

ARTICLE XIII—THE BULLETIN.

1. The Bulletin of the Board of Standards and Appeals shall be published on Tuesday of each week. It shall contain:

- (1) Directory of the Board.
- (2) Docket.

(3) Clerk's Calendar Call.

(4) The Hearing Calendar.

(5) Notice of hearing on building zone applications and on proposed rules or the amendment of rules.

(6) An abstract of the minutes of each meeting, including a brief statement of the action in each case, with the roll call thereon and the full text of the resolutions adopted.

(7) Rules adopted.

(8) Such other information as may be of value to the public and within the scope of the work of the Board.

ARTICLE XV—OFFICERS.

1. The Chairman shall preside at meetings. The Chairman may designate any member of the Board to preside and perform the duties of the Chair at public hearings.

2. The Chairman, subject to these rules, shall decide all points of order or procedure, unless otherwise directed by a majority of the Board in session at that time.

3. The Chairman shall designate the members of the Board to make an inspection, and, unless otherwise directed by the vote of four members of the Board, shall appoint any committee that may be deemed necessary.

4. The Chairman shall report at each meeting on all pertinent official transactions that do not otherwise come to the attention of the Board.

5. Administrative authority is vested solely in the Chairman of the Board who shall, subject to these rules, transact all official business of the Board, engage the necessary employees and direct the work of the office.

6. Subject to these rules and the direction of the Chairman, the Secretary shall conduct all official correspondence, compile the required records, edit the Bulletin, maintain the necessary files and indices, and generally supervise the clerical work of the office force, maintaining discipline in accordance with the rules of the office and charter provisions.

7. Subject to these rules and the direction of the Chairman, the Assistant Engineers shall examine and report on all applications, appeals and petitions; prepare all proposed rules or revised rules suggested by outside agencies, with report on the reasons and necessity for same; supervise and witness the tests conducted under the auspices of the Board, and assist generally in all technical matter coming before the Board.

8. The Chief Clerk shall keep all accounts, keep the files and indices in proper order and up to date, and generally assist the Secretary. During the absence or disability of the Secretary, the Chief Clerk shall act in that capacity.

9. A complete stenographic record of the transactions at public meetings shall be made for the files, including verbatim reports of such parts as may be directed, and there shall be prepared, after each meeting and in time for the next publication of the Bulletin, the abstract of the minutes which is to appear in such Bulletin.

FORMS FOR NOTICES TO PROPERTY OWNERS

If applicants, under the building zone resolution, desire copies of Form 13A, for notices to property owners, such forms are not to be supplied by this office.

The applicant is entitled only to one copy of Form 13A, properly filled out.

If he desires additional copies for his own convenience, in notifying property owners, he can obtain such copies from The O'Connell Press, 176 Park Row, Manhattan, at three cents each, postage to be added if the forms are to be supplied by mail.

RULES

FIRE RETARDING RULES

Adopted by the Board of Standards and Appeals August 30, 1927; Amended November 1, 1917, and Feb. 3, 1922.

Rule 1. Fire Retarding Materials for Garages, Motor Vehicle Repair Shops and Oil Selling Stations. In garages, motor vehicle repair shops and all selling stations any material or form of construction shall be deemed fire-retarding within the meaning of §73, subdivision 3, of the building code, that resists the action of flame and heat when subjected to a continuous fire for one hour at an average temperature of seventeen hundred (1700) degrees Fahrenheit without the passage of flame, and with a maximum temperature rise to four hundred (400) degrees Fahrenheit on the side away from the fire. The point at which the temperature of transmitted heat is measured shall be protected from external air and weather conditions.

When the test specimen is in the form of partition construction, the area under test shall be not less than one hundred (100) square feet and least dimension shall be not less than nine (9) feet. When in the form of floor construction, the area under test shall be not less than two hundred (200) square feet and the least dimension shall be not less than fourteen (14) feet.

During the fire, the floor construction shall support the live load for which it is designed, and after the fire shall safely sustain twice the designed live load with a maximum deflection of not more than one two-hundredth (1/200) part of the span.

Rule 2. Wood Joisted Floor Construction. Wood joisted floor construction shall be accepted as fire-retarding construction in non-fireproof buildings used as garages, motor vehicle repair shops or oil selling stations when the beams are protected on the upper and under sides with the fire-retarding materials specified in rules for floor and ceiling coverings.

Rule 3. Floor Covering. Any one of the following forms of construction shall be accepted as fire-retarding for the covering of the upper sides of wood floor beams in joisted floor construction in non-fireproof buildings used as garages, motor vehicle repair shops or oil selling stations

(a) Seven-eighths ($\frac{7}{8}$) inch wood underflooring protected with a membrane of two-ply waterproofing covered with not less than two and one-half ($2\frac{1}{2}$) inches of 1:2½:5 concrete or better, reinforced with not less than one-fourth ($\frac{1}{4}$) of one (1) per cent of steel mesh.

(b) Two and one-half ($2\frac{1}{2}$) inches of 1:2:4 concrete applied directly to the top of the joists, with or without temporary support, reinforced with not less than one-fourth of one per cent steel rods, mesh or steel lath, and having the tops of the joists coated with approved waterproof paint or protected by tar paper on the top and on the sides for a distance of three inches from the top. (Amendment, Nov. 1, 1917.)

Rule 4. Ceiling Covering. Any one of the following forms of construction shall be accepted as fire-retarding for the covering of the undersides of wood floor beams in joisted floor construction in non-fireproof buildings used as garages, motor vehicle repair shops or oil selling stations:

(a) One-half ($\frac{1}{2}$) inch plaster boards, or three-eighths ($\frac{3}{8}$) inch gypsum wall boards weighing not less than 16 pounds per square yard with pointed joints covered with No. 26 U. S. gauge sheet metal with one (1) inch lapped seams nailed to the wood beams when spaced not more than sixteen (16) inches on centers, or nailed to furring strips when the floor beams are spaced more than sixteen (16) inches on centers;

(b) Two thicknesses of one-quarter ($\frac{1}{4}$) inch asbestos board laid with tight staggered joints and nailed to the beams, when spaced not more than sixteen (16) inches on centers, or nailed to furring

strips when the floor beams are more than sixteen (16) inches on centers.

(c) Metal lath weighing not less than three pounds per square yard, attached to furring strips and plastered with Portland cement mortar at least three-quarters ($\frac{3}{4}$) inch thick.

Rule 5. Attachment to Ceiling. Fire-retarding ceilings in non-fireproof buildings used as garages, motor vehicle repair shops or oil selling stations shall be attached to wood floor beams and girders in such manner as to maintain an air space between the wood beams, and all wood beams shall be seasoned before applying the protective coat.

Rule 6. Openings in Fire-Retarding Floors. Pipes or conduits which pass through floors shall be fitted with metal thimbles and made watertight for a height of three (3) inches above the floor.

Rule 7. Columns. All structural posts and columns in non-fireproof buildings required to be fire-retarded shall be protected with the fire-retarding materials specified for ceiling coverings in these rules, or with any of the materials accepted in fireproof construction; except that an air space shall not be required around steel or cast iron columns.

Where necessary for protection against mechanical injury, the fire-retarding protection on columns shall be jacketed to a height of five (5) feet from the ground with No. 4 U. S. gauge metal.

Rule 8. Girders. All girders in non-fireproof buildings required to be fire-retarded shall be protected with the fire-retarding materials specified for ceiling coverings in these rules, or with any of the materials acceptable in fireproof construction; except that an air space need not be provided around steel girders.

Rule 9. Shaft Enclosures. Existing stairways and vertical shafts in non-fireproof business buildings hereafter converted to be used as garages, motor vehicle repair shops or oil selling stations shall be enclosed in fire-retarding partitions continued through the non-fireproof floor construction, and when unfilled wood stud partitions are used, the space between the floor beams shall be fire-stopped with incombustible materials. All openings in such partitions shall be protected with accepted metal-covered fire doors or windows. Wherever necessary for protection against mechanical injury, the partition shall be jacketed to a height of five (5) feet on the garage side with No. 4 U. S. gauge metal. Any one of the following forms of partitions shall be accepted for the enclosure:

(a) Two by four inch wood studs spaced not more than sixteen (16) inches on centers, covered both sides with metal lath weighing not less than three pounds per square yard, attached to furring strips and plastered with Portland cement mortar at least three-quarters ($\frac{3}{4}$) of an inch thick;

(b) Two by four inch wood studs placed not more than sixteen (16) inches on centers, covered both sides with seven-eighths ($\frac{7}{8}$) inch wood sheathing, one-half ($\frac{1}{2}$) inch plaster boards with pointed joints and No. 26 U. S. gauge sheet metal with one-inch lapped seams;

(c) Two by four inch wood studs spaced not more than sixteen (16) inches on centers, covered both sides with seven-eighths ($\frac{7}{8}$) inch wood sheathing, two thicknesses of one-quarter ($\frac{1}{4}$) inch asbestos boards laid with tight staggered joints and jacketed with No. 16 U. S. gauge metal on the garage side to a height of five (5) feet.

(d) Two by four inch wood studs spaced not more than sixteen (16) inches on centers, filled in solidly between the studs with four inches of approved fireproof materials and covered on both sides with No. 26 U. S. gauge metal;

(e) Existing wood stud, lath and plaster partitions covered on the garage side with No. 26 U. S. gauge sheet metal with one-inch lapped seams.

RESERVE CALENDAR

BOARD OF STANDARDS AND APPEALS.

Administrative Applications.

- 1029-27-A—39 Fifth avenue, Manhattan.
- 1030-27-A—13-16 Central Park West, Manhattan.
- 1031-27-A—20-28 West 72nd street, Manhattan.
- 1032-27-A—242-248 West 76th street, Manhattan.

Appliances Submitted for Approval.

- 53-21-SA—Stillbech 2½ in. Bronze Angle Hose Valve, approval of.
- 1372-21-SA—Ford Fire Line Reducing Valve, approval of.
- 447-22-SA—Howard Water Pressure Reducing Devices, approval of.
- 610-22-SA—Crocker Gas Valve, approval of.
- 799-22-SA—Kennell Gas Cut-Off Valve, approval of.
- 1173-22-SA—Anti-Syphon Valve, approval of.
- 1230-22-SA—Thermostats for Automatic Fire Alarm Systems, approval of.
- 1249-22-SA—Coen Oil Burner, approval of.
- 1391-22-SA—Dempsey High & Low Pressure Fuel Oil Burner, approval of.
- 1526-22-SA—Delaney Fuel Oil Burner, approval of.
- 57-23-SA—Collin Patent Automatic Gas Cut-Off Valve, approval of.
- 124-23-SA—Master Gas Shut-Off Valve, approval of.
- 125-23-SA—Packless Gas Shut-Off Valve, approval of.
- 127-23-SA—S. & K. Gas Shut-Off Valve, approval of.
- 232-23-SA—Manual and Thermal Gas Cut-Off Valve, approval of.
- 275-23-SA—Wm. E. Toelle Manual & Automatic Gas Shut-Off Valve, approval of.
- 279-23-SA—Heil Standard 200 Gal. Truck Tank, approval of.
- 297-23-SA—"Automatic" Deluge Valve, approval of.
- 443-23-SA—Automatic Gas Shut-Off, approval of.
- 525-23-SA—Tilman-White Gas Cut-Off Valve, approval of.
- 952-23-SA—Automatic Gas Cut-Off, approval of (Brooklyn Co.)
- 959-23-SA—Hydro Carbon Oil Burner, approval of.
- 1146-23-SA—Pennsylvania Globe Rotary Oil Burner, approval of.
- 1176-23-SA—Ziegler Oil Burner, approval of.
- 1246-23-SA—Ludlow Gas Cut-Off Valve, approval of.
- 1346-23-SA—Heatiator Oil Burner, approval of.
- 1429-23-SA—Kerrihard Oil Burner, approval of.
- 1550-23-SA—Apex Gas Cut-Off Valve, approval of.
- 492-24-SA—Holtzer-Cabot Type "C" Fire Alarm Box, approval of.
- 755-24-SA—Wills Automatic Gas Shut-Off Valve, approval of.
- 907-24-SA—Dempsey Domestic Burner and Fuel Oil Pump, approval of.
- 1016-24-SA—Milnes Oil Burner, approval of.
- 1108-24-SA—Simplicity Fuel Oil Burner, approval of.
- 1142-24-SA—Decker Oxohydrogen Oil Burner, approval of.
- 1146-24-SA—Salvo Fire Extinguisher, approval of.
- 1359-24-SA—Oliver Oil Gas Burner No. 30-A, approval of.
- 1500-24-SA—Smolensky Check Valve, approval of.
- 26-25-SA—Keenan Brilliant Burner, approval of.
- 558-25-SA—Globe Dry Pipe Valve Accelerator, approval of.
- 683-25-SA—Billow Fuel Oil Burner, approval of.
- 985-25-SA—Amdyco Foam Fire Extinguisher, approval of.

- 1106-25-SA—Modern Oil Burner, approval of.
- 1263-25-SA—Phister Carbon Tetrachloride Fire Extinguisher, approval of.
- 1264-25-SA—Koerting Gear Pump, approval of.
- 1346-25-SA—Palmer Gravity Lock, approval of.
- 55-26-SA—Ferreira Oil Burner, approval of.
- 111-26-SA—Gem Fuel Oil Burner, approval of.
- 167-26-SA—Johnson Automatic Oil Burner, approval of.
- 353-26-SA—Signal Weatherproof Bells, approval of.
- 364-26-SA—Kork-n-Seal, approval of.
- 397-26-SA—Worthington Triplex Vertical Power Pump, approval of.
- 418-26-SA—Film Inspection Machine (approved type), approval of.
- 484-26-SA—Protectoseal Cover, approval of.
- 542-26-SA—Lassen Quintuple Fuel Oil Burner, approval of.
- 751-26-SA—Jones Oil Burner, approval of.
- 755-26-SA—Sundstrand Automatic Oil Burner, approval of.
- 764-26-SA—Berggren Oil Burner, approval of.
- 781-26-SA—Solenoid Type Single Stroke Bells, approval of.
- 792-26-SA—North American Low Pressure Oil Burner, approval of.
- 890-26-SA—Pyrolithic Floor and Ceiling Construction, approval of.
- 929-26-SA—Seabolt Vacu-Syphon Oil Burner, approval of.
- 950-26-SA—Ideal Fuel Oil Burner, approval of.
- 52-27-SA—M-D Rotary Fuel Oil Pump, approval of.
- 88-27-SA—Hauck Venturi Low Pressure Oil Burner, approval of.
- 110-27-SA—Wilbur Extinguisher, approval of.
- 115-27-SA—Even-Heat Oil Burner, approval of.
- 128-27-SA—"GRD" Billow Fuel Oil Atomizer, approval of.
- 129-27-SA—Stroud-In-The-Door Oil Burner, approval of.
- 187-27-SA—Keenan Gas Shut-Off Valve, approval of.
- 328-27-SA—Holby Oil Burner, approval of.
- 402-27-SA—Faraday Model "F," 110 Volt A.C. Fire Alarm, approval of.
- 428-27-SA—Goulds Rotary Oil Pump, No. 1676, approval of.
- 458-27-SA—Deming Double Acting Oscillating Force Pump, approval of.
- 481-27-SA—Eisler Automatic Oil Burner, approval of.
- 527-27-SA—Gas-O-Matic Oil Burner Unit, approval of.
- 537-27-SA—Leader Gas Shut-Off Valve, approval of.
- 618-27-SA—Stuhler Oil Burner, approval of.
- 630-27-SA—Faraday Pre-Signal Fire Alarm Control Panel with 110 Volt Trouble Bell, approval of.
- 651-27-SA—The S. & G. Panic Lock, approval of.
- 673-27-SA—Morrissey Oil Burner, approval of.
- 698-27-SA—Everite Oil Burner, approval of.
- 810-27-SA—Bowser Fig. No. 718 Fuel Oil Pump, approval of.
- 899-27-SA—Walworth 2½ in. Angle Hose Valve, 150 lb. working pressure, approval of.
- 900-27-SA—Walworth 2½ in. Angle Hose Valve, 250 lb. working pressure, approval of.

Cases listed in the Reserve Calendar are cases upon which action by the board has been deferred pending committee reports, of this board, court or department actions, and will remain thereon until the aforesaid reports, court or departmental actions are consummated. Whereupon the case or cases will be restored to the regular calendar and due notice of the date set for hearing will be mailed to the appellant, applicant or petitioner of record.

WARNING

Notice is hereby given to all petitioners, appellants and applicants, and to all lawyers, architects and engineers representing owners or lessees in proceedings before the board—

First, That if they do not appear in person or by representative at the hearing on their case, dismissal for lack of prosecution is likely to result.

Second, That due and ample notice of the date set for hearing is provided in the publication in this BULLETIN of the calendars of the board, each case being set down by Calendar Number and premises under the date of the hearing.

Third, That no plea of ignorance of the date of the hearing can be entertained in view of this publication and of the posting of the calendars on the bulletin board in the

offices of the board and of the further publication of the calendars in the daily press.

Fourth, That no one is entitled to written notice of the date for the hearing in his case, and that the plea of failure to receive such notice is no excuse for neglect to appear.

Fifth, That the business of the board is to dispose of all cases promptly, for the reason that the pendency of an appeal or petition ties the hands of the administrative official in enforcing his order; therefore, no appeal or petition will be allowed to be hung up by reason of failure of the appellant or petitioner to file necessary data, or by any other method of delay.

Sixth, That no appeal, application or petition will be accepted for filing unless, at the time of filing, all papers, plans and data required by law are supplied, as specified on the blank appeal, application or petition forms.

JOHN GUILFOYLE

CHIEF JOHN KENLON

WILLIAM J. O'GORMAN, Secretary

EDWARD V. BARTON, Chief Clerk

PUBLIC HEARINGS

Tuesdays, at 10 a. m. and 2 p. m.
Special meetings as published in this Bulletin.
Call of Clerk's Calendar, Tuesdays, at 2 p. m.
All hearings are held in Room 1013, Municipal Building, Manhattan.

HOURS FOR CONSULTATION

10 A. M. to 1 P. M.

Any person desiring to consult the chairman or the engineers, pertaining to the work of the board, will be seen only between the hours of ten in the morning and one in the afternoon—Saturdays excepted.

CALL OF CLERK'S CALENDAR

The *Clerk's Calendar* consists of applications under the Building Zone Resolution, and its object is to give interested property owners opportunity to file objections, if any, and will be called in Room 1013, Tuesday, January 10, 1928, at 2 o'clock. At this call each case is set for hearing on a definite day.

The next subsequent Call of the Calendar will be on Tuesday, January 17, 1928, at 2 o'clock.

The *Clerk's Calendar* is not to be confused with the calendar of cases that have been definitely set for hearing on fixed days.

NOTICE TO APPELLANTS AND PETITIONERS

No appeal, application or petition will be entertained in connection with which court proceedings are pending or in progress, nor accepted that are not filed within twenty days from the date of the action of the Administrative Official.

Any communication purporting to be an appeal, application or petition shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this board.

Upon receipt of any such communication the writer will be supplied with the official forms for presenting his appeal, application or petition, and if he fails to supply the data required thereon, within twenty days, his case may be dismissed for lack of prosecution.

At the time of filing an application, the appellant or petitioner shall forward a signed notice of appeal addressed to the administrative official (either superintendent of buildings or fire commissioner) and file with this board a duplicate of said notice.

Petitioners are advised that their plans must indicate the points of the compass so as to establish the true location and position of the property, the subject of the appeal.

Appeals, applications and petitions will be simplified and disposition of same expedited by conforming to these directions.

WILLIAM E. WALSH, Chairman.

CALL OF CLERK'S CALENDAR

TUESDAY, JANUARY 10, 1928, AT 2 P. M.

Building Zone Cases.

833-27-BZ.
APPLICANT—McCoey & Conroy, for Beth Hakanesseth
 Talmud Torah of Kings Highway, Inc., owner.
PREMISES—1202-1218 Avenue P and 1611 East 12th
 street, Brooklyn.
APPLICATION, under section 21 of the building zone
 resolution,

TO PERMIT in an "E" area and residence district the
 erection and maintenance of a building less than
 ten (10) feet from the street line, and to occupy
 more than fifty (50) per cent of the area of the
 lot and also provided with a yard of less area than
 required by the zone resolution.

855-27-BZ.

APPLICANT—Harry H. Holler, for Anna C. Bingler,
 owner.

PREMISES—Northeast corner of Merrick road and
 Springfield boulevard, Springfield, Borough of
 Queens.

APPLICATION, under section 21 of the building zone
 resolution,

TO PERMIT in a business district the erection and main-
 tenance of a gasoline service station.

863-27-BZ.

APPLICANT—Gardiner Conroy, for Samuel Axelrod,
 owner.

PREMISES—1301-1319 65th street, Brooklyn.

APPLICATION, under section 21 of the building zone
 resolution,

TO PERMIT, partly in a business district and partly in a
 residence district, the erection and maintenance of a
 gasoline service station.

914-27-BZ.

APPLICANT—William Cramer, for Loretta Cramer
 Ewart, owner.

PREMISES—1713-1719 Jerome avenue, Brooklyn.

APPLICATION, under section 21 of the building zone
 resolution,

TO PERMIT, partly in a business district and partly in an
 unrestricted district, the maintenance of a motor
 vehicle repair shop.

960-27-BZ.

APPLICANT—William F. Doyle, for Thomas Realty Co.,
 owner.

PREMISES—East side of Boston road, 122.08 ft. south of
 Vyse avenue, The Bronx.

APPLICATION, under section 21 of the building zone
 resolution,

TO PERMIT, partly in a business district and partly in a
 residence district, the erection and maintenance of a
 garage for the storage of more than five (5) motor
 vehicles.

1270-27-BZ.

THE RESOLUTION—

(792-27-A)

WHEREAS, Louis T. Weiss, Jr., owner, filed, July 8, 1927, an appeal from an order of the fire commissioner, affecting premises 768-772 Pacific street, Borough of Brooklyn; and

WHEREAS, the order of the fire commissioner, dated April 21, 1927 (Order No. 18234-F), reads:

"1. Provide iron shutters at all openings in the exterior wall above 1st story which are distant in a direct line less than 30' from any opening in any other building and not in the same plane with said openings and which are not more than 50' above a neighboring roof at east, south and west sides of building, or other approved protection, as per Sec. 375, Art. 18, Ch. 5, of the Code of Ordinances."

and

WHEREAS, the building is non-fireproof, five stories and basement in height, 60 ft. by 100 ft. in area; OCCUPIED: basement, hardware storage, no persons; 1st story, machinery manufacture, 18 persons; 2nd story, machinery manufacture, 6 persons; 3rd story, manufacture of children's games, 8 persons; 4th story, storage of hats, no persons; 5th story, manufacture of electric bells, 10 persons; and

WHEREAS, there are five windows on each story above the first story in the easterly wall of the building within 50 ft. of the roof of an abutting one-story power house to the east and within 30 ft. of openings in a neighboring five-story fireproof building to the east; four windows on each story above the first story in the southerly wall of the building within 50 ft. of the roof of a neighboring one-story shed to the south and five windows on each story above the first story in the westerly wall within 50 ft. of the roof of an abutting two-story fireproof power house to the west and two sets of mullion windows in the east and west wall similarly placed; and

WHEREAS, appellant contends that the building forming the exposures to the east and west are fireproof and the windows therein are fireproof and that the building in question is equipped with a sprinkler system with central station service.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted*, only as to the windows on the gable walls, other than the one row to the extreme rear on the westerly gable wall, *on condition* that the occupancy and use of the premises shall remain unchanged and that the existing exposures to the east and west remain unchanged; be it further provided that the owner has the option of equipping all openings embraced by this order with sprinkler heads, distant not more than 3 ft. from the center of each opening.

875-27-A.

APPELLANT—Croker Nat'l Fire Prev. Eng. Co., for Robert Jacob, Inc., owner.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—Foot of East Pilot street, City Island (Bldg. No. 4), The Bronx.

APPEARANCES—

For Appellant: H. H. Horwood.

For Administration: Inspector Maher of fire department.

THE RESOLUTION—

(875-27-A)

WHEREAS, Croker National Fire Prevention Engineering Co., for Robert Jacob, Inc., owner, filed, August 2, 1927, an appeal from an order of the fire commissioner, affecting premises Foot of East Pilot street (Building No. 4), City Island, Borough of The Bronx; and

WHEREAS, the order of the fire commissioner, dated May 9, 1927 (Order No. 19850-F), reads:

No. 4 Building.

"1. Install a standpipe system with risers 4 inches in diameter, tested to withstand a pressure of 300 lbs. per square inch, extending from cellar to roof with necessary check valves and 2½ inch regulation Fire Department outlets on each story (including basements, cellars and roofs), placed within main stairway enclosure. Each outlet to be provided with sufficient feet of 2½ inch standard hose attached thereto."

and

WHEREAS, the building is non-fireproof, one story (19 ft. 10 in.) in height, 60 ft. by 200 ft. (12,000 sq. ft.) in area; OCCUPIED as a wood joiner shop, 15 persons; and

WHEREAS, appellant contends that the building is low in height; that it is open on all sides; that there are city fire hydrants in the vicinity and that there are located within the building three 1½-inch hose outlets with 50 ft. of hose at each outlet.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that such auxiliary fire extinguishing equipment otherwise, as shall be directed by the fire commissioner, shall be installed and maintained; that the building shall not be increased in height, area or dimension, and *granted* only as long as the operation and use of the premises remains unchanged.

THE RESOLUTION—

(876-27-A)

WHEREAS, Croker National Fire Prevention Engineering Co., for Robert Jacob, Inc., owner, filed, August 2, 1927, an appeal from an order of the fire commissioner, affecting premises Foot of East Pilot street (Building No. 9), City Island, Borough of The Bronx; and

MINUTES

WHEREAS, the order of the fire commissioner, dated May 9, 1927 (Order No. 19849-F), reads:

"1. Install a standpipe system with risers 4 inches in diameter tested to withstand a pressure of 300 lbs. per square inch, extending from cellar to roof with necessary check valves and 2½ inch regulation Fire Department outlets on each story (including basements, cellars and roofs), placed within main stairway enclosure. Each outlet to be provided with sufficient feet of 2½ inch standard hose attached thereto.";

and

WHEREAS, the building is fireproof, one story (56 ft. to top of trussed roof) in height, 86 ft. by 176 ft. (15,000 sq. ft.) in area; the westerly end of this building opens into a one-story corrugated iron shed, 61 ft. by 53 ft., irregular, in area; OCCUPIED as a construction shop for yachts, 35 persons; and

WHEREAS, appellant contends that the building is accessible from all sides; that there are city fire hydrants in the immediate vicinity and that fire pails are distributed throughout the premises.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that such auxiliary fire extinguishing equipment otherwise, as shall be directed by the fire commissioner, shall be installed and maintained; that the building shall not be increased in height, area or dimension, and granted only as long as the operation and use of the premises remains unchanged.

THE RESOLUTION—

(1247-27-A)

WHEREAS, William F. Doyle, for Samuel Levy, Sarah Backer and Estate of Emanuel Arnstein, lessees, filed, November 28, 1927, an appeal from orders of the fire commissioner, affecting premises 729 Seventh avenue, Borough of Manhattan; and

WHEREAS, the order of the fire commissioner, dated February 17, 1927 (Order No. 11550-LD), reads:

"1. Remove the lunch counter from passageway, 1st story, northeast stairway, as per Rule 5 of the Board of Standards and Appeals, adopted July 29th, 1924.";

and

WHEREAS, the order of the fire commissioner, dated February 17, 1927 (Order No. 11551-LD), reads:

"1. Arrange all doors from rooms to corridors on all stories to open outwardly, as per Sec. 270 of the Labor Law.";

and

WHEREAS, the order of the fire commissioner, dated March 26, 1927 (Order No. 4852-LD), reads:

"1. Remove all partitions not built of incombustible material, as per Section 263 and 270 of the Labor Law.";

and

WHEREAS, the order of the fire commissioner, dated August 27, 1927 (Order No. 25704-LF), reads:

"1. Extend sprinkler system to cover every square foot of floor area of portion of building occupied as bank, north side of building at 1st story. Section 20, Chapter 12, Code of Ordinances.";

and

WHEREAS, the building is fireproof, 16 stories in height, 100 ft. 4 in. by 99 ft. 10¾ in. in area; OCCUPIED for film exchange and office purposes, about 30 persons on each story; and

WHEREAS, the chief of the bureau of fire prevention has filed a written request for an early hearing, due to the storage of nitro-cellulose moving picture film; and

WHEREAS, the appellant contends that there is no factory occupancy in the building under this appeal; that the tenants of the building have been conducting their business under permits granted by the New York Fire Department for a number of years under the exact conditions which prevail today; and

WHEREAS, this order is predicated on the examination and repairing of motion picture films conducted on these premises; and

WHEREAS, it has been stated by the representative of the bureau of fire prevention that the work performed, because of which this order was issued, is only incidental to the examination of the films; and

WHEREAS, it has been stated that there is at present a sign painter on the second and third stories of the premises; and

WHEREAS, in the opinion of the board, the examination of motion picture film for minor defects is but incidental in the rewinding of the film for reproduction or display and is not to be held as a manufacturing use; and

WHEREAS, there have been permits in force issued by the fire department for the past fifteen years for the same use and occupancy on these premises.

Resolved, that the orders of the fire commissioner be and they hereby are *modified*, and the appeal be and it hereby is *granted on condition* that the existing sign painting on the second and third stories shall be discontinued forthwith and no manufacturing permitted in any part of the building; that the continued storage and maintenance of film in this building shall be restricted to the stipulations of the permits now in force.

804-27-A.

APPELLANT—William F. Doyle, for 107th Street-108th Street Corp., owner.

SUBJECT—Appeal from order of fire commissioner.
PREMISES AFFECTED—331-335 East 107th street and 324-328 East 108th street, Manhattan.

APPEARANCES—

For Appellant: William F. Doyle.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Appeal granted on condition.
CONDITIONS—As specified in resolution.

THE RESOLUTION—

(804-27-A)

WHEREAS, William F. Doyle, for 107th Street-108th Street Corp., owner, filed, July 12, 1927, an appeal from an order of the fire commissioner, affecting premises 331-335 East 107th street and 324-328 East 108th street, Borough of Manhattan; and

WHEREAS, the order of the fire commissioner, dated December 30, 1926 (Order No. 3639-LC), reads:

"2. Install 4" standpipe as per approved plan 42-26.";

and

WHEREAS, the building is non-fireproof, one story in height, 75 ft. frontage on East 107th street, extended 201 ft.

MINUTES

10 in. through the block with a frontage of 100 ft. on 108th street and also a triangular offset 75 ft. by 45 ft. at west side, about 19,000 sq. ft. in area; OCCUPIED as a garage for the storage of more than five motor vehicles, 6 persons; and

WHEREAS, the appellant claims that the building is only one story in height, facing two streets where fire hydrants are available; that the building is equipped with auxiliary fire appliances; furthermore, the appellant proposes to install a wet sprinkler system fed from the city water main of 45 pounds pressure.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that the premises shall be equipped with a wet sprinkler system fed from the city main, with siamese connections on both street fronts, the plans for such sprinkler equipment to be approved by the fire department, and that there shall be distributed throughout the premises not less than six 5-gallon approved foamite or fire foam extinguishers, located as directed by the fire department, and that the building shall not be increased in height, area or dimension.

BUILDING ZONE CASES.

806-27-BZ.

APPLICANT—Edward P. Doyle, for Rostfel Realty Co., Inc., owner.

SUBJECT—Application (re decision of fire commissioner), under section 21 of the building zone resolution, to permit partly in a business district and partly in a residence district the erection and maintenance of a gasoline service station.

PREMISES AFFECTED—Northeast corner of Kings Highway and Stillwell avenue, Brooklyn.

APPEARANCES—

For Applicant: None.

THE RESOLUTION—

(829-27-BZ)

WHEREAS, James Whitford, for Isle Theatrical Co., owner, filed, July 21, 1927, an application, under the building zone resolution, to permit in a residence district, extending from a business district, the erection and maintenance of a theatre and office building; premises north side of Hyatt street, 100 ft. east of St. Marks place, St. George, Borough of Richmond; and

WHEREAS, a public hearing was held on this application by the board of standards and appeals, at its regular meeting, January 4, 1928, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Hyatt street is in a business district, St. Marks place is in a residence district and Stuyvesant place is in a business district; and

WHEREAS, the decision of the superintendent of buildings, rendered July 11, 1927 (N. B. 1455-27), reads:

"The above numbered application filed July 11th, for the erection of a theatre and office building is hereby disapproved, being contrary to Zoning resolution as part of this structure extends into a residence zone;"

and

WHEREAS, the proposed building is to be of fireproof construction, two stories in height, with a frontage of 142 ft. and a depth of 175 ft. 10 in.; to be occupied as a theatre and office building; and

WHEREAS, this plot is cut by two use districts, the triangular portion, approximately 87 ft. by 107 ft. at the northwesterly rear corner of plot, being within the residence use district of the premises; and

WHEREAS, the board deems that this is a proper matter for the exercise of discretion under the rules of exception, section 7, subdivision c; and

WHEREAS, practical difficulty and unnecessary hardship would be involved if compelled to construct the building in accordance with the strict letter of the zoning law.

Resolved, that the board of standards and appeals does hereby make a variation in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted*, for the extension of the proposed theatre building, *on condition* that all walls within the residence use area shall be unpierced throughout their entire height and length, other than for three exit emergency openings to the rear court, with exit from said rear court through side court within the business portion of premises to Hyatt street; that there shall be no advertising of any nature or description erected or maintained within the residence use area of the plot; that the building shall be constructed in accordance with article 25 of the building code, and that all permits required shall be obtained within nine months and any work involved thereby shall be completed within eighteen months from the date of this action.

514-27-BZ.

APPLICANT—Morris Lubitz, for Philip Lerch, owner.

SUBJECT—Application (re decision of the superintendent of buildings), under sections 7e and 21 of the building zone resolution, to permit in a business district the erection and maintenance of a

MINUTES

garage for the storage of more than five (5) motor vehicles.

THE RESOLUTION—

(514-27-BZ)

WHEREAS, Morris Lubitz, for Philip Lerch, owner, filed, May 10, 1927, an application, under the building zone resolution, to permit in a business district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles; premises 4550 White Plains avenue, Borough of The Bronx; and

WHEREAS, a public hearing was held on this application by the board of standards and appeals, at its regular meeting, January 4, 1928, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that White Plains avenue is in both a business and unrestricted district, East 240th street is in a business district and Furman avenue is in an unrestricted district; and

WHEREAS, the decision of the superintendent of buildings, rendered May 3, 1927 (N. B. 609-27), reads:

"1. Erection of public garage for storage of more than five motor vehicles in business district is contrary to provisions of Building Zone Resolution.";

and WHEREAS, the proposed building is to be of fireproof construction, two stories in height, with a frontage of 75.6 ft. and a depth of 78.78 ft. and 88.97 ft., irregular; to be occupied as a garage for the storage of more than five (5) motor vehicles; and

WHEREAS, the applicant has made a diligent effort to support his application under the rules of exception, section 7, subdivision g; and

WHEREAS, the applicant has filed 78 per cent consents of both street fronts; and

WHEREAS, there exists on these premises at present a garage for nine cars and a public gasoline selling station; and

WHEREAS, the plot is cut by two use districts, the rear of the premises, throughout the entire width, lying within the unrestricted area of Furman avenue.

Resolved, that the board of standards and appeals does hereby make a variation in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is granted on condition that the building shall be constructed fireproof throughout and shall be restricted in height to a building not more than two stories above curb level; that the structure shall be erected substantially in accordance with the floor plan as filed in this appeal; that the gasoline service pumps, located outside of the building on the first story, shall be restricted in operation to and wholly within the property of the premises under appeal; that the pumps shall not be operated from the sidewalk front of the premises; that a concrete curbing, not less than 18 inches in height, 12 inches in depth, shall be incorporated on the building line for the entire width of the gasoline pumps and extending 4 ft. beyond at each end; that the front elevation shall be finished with face brick and architectural terra cotta or stone trimming; that there shall be no roof sign erected or maintained, and that there

shall be no advertising, other than flat wall signs, and not more than one projecting electric sign, indicating the title of business conducted on the premises, and that all permits required shall be obtained within nine months and any work involved shall be completed within eighteen months from the date of this action.

550-27-BZ.

APPLICANT—Cainhart Realty Corp., owner.

SUBJECT—Application (re decision of the superintendent of buildings), under section 21 of the building zone resolution, to permit in a business district the erection and maintenance of a gasoline service station.

THE RESOLUTION—

(550-27-BZ)

WHEREAS, Cainhart Realty Corp., for Cainhart Realty Corp., owner, filed, May 17, 1927, an application, under the building zone resolution, to permit in a business district the erection and maintenance of a gasoline service station; premises 2035-2039 Williamsbridge road, Borough of The Bronx; and

WHEREAS, a public hearing was held on this application by the board of standards and appeals, at its regular meeting, January 4, 1928, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Williamsbridge road is in a business district, Lydig avenue is in a residence district and that Tomlinson avenue is in a residence district; and

WHEREAS, the decision of the superintendent of buildings, rendered May 16, 1927 (N. B. App. 1130-27), reads:

"The erection and maintenance of proposed gasoline selling station in business district is contrary to provisions of Building Zone Resolution.";

and WHEREAS, it is proposed to erect a two-story office and rest room, bury four 550-gallon tanks and erect six pumps for the purpose of conducting a gasoline service station within a business district; and

WHEREAS, the board deemed that applicant failed to substantiate his basis of appeal under section 21 on the ground of hardship.

Resolved, that the decision of the superintendent of buildings be and it hereby is affirmed, and that the application be and it hereby is denied.

THE RESOLUTION—

(510-27-BZ)

WHEREAS, Philip J. Sinnott, for Alden Terrace Corp., owner, filed, May 9, 1927, an application, under the building zone resolution, to permit in a business district the erection and maintenance of a gasoline service station; premises southwest corner of Cypress Hills road and Cooper avenue, Ridgewood, Borough of Queens; and

WHEREAS, a public hearing was held on this application by the board of standards and appeals, at its regular meeting, January 4, 1928, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Cypress Hills road (west side) is in a business district, Cypress Hills road (east side) is in a residence district and that Cooper avenue is in a residence district; and

WHEREAS, the decision of the superintendent of buildings, rendered March 9, 1927 (Plan No. 2162-27), reads:

"1. Creation of a gasoline station is prohibited in a business district by the Zoning Resolution of the Board of Standards and Appeals."

and

WHEREAS, the premises consist of a plot of ground having a frontage of 101 ft. on Cypress Hills road and 152.23 ft. on Cooper avenue, upon which it is proposed to erect a small office and accessory store (15 ft. by 20 ft. in area), and to install the necessary tanks, pumps and piping for a gasoline service station; and

WHEREAS, the board deemed that applicant was not entitled to relief under section 21 on the ground of hardship.

Resolved, that the decision of the superintendent of buildings be and it hereby is affirmed, and that the application be and it hereby is denied.

846-27-BZ.

APPLICANT—William F. Doyle, for Mere Holding Corp., owner.

SUBJECT—Application (re decision of the superintendent of buildings) under sections 7c and 21 of the building zone resolution, to permit the extension, from an unrestricted district into a business district, of a proposed garage for the storage of more than five (5) motor vehicles.

PREMISES AFFECTED—East side of Webster avenue, 1,093.40 ft. north of Burke avenue, The Bronx.

THE RESOLUTION—

(846-27-BZ)

WHEREAS, William F. Doyle, for Mere Holding Corp., owner, filed, July 25, 1927, an application, under the building zone resolution, to permit the extension, from an unrestricted district into a business district, of a proposed garage for the storage of more than five motor vehicles; premises east side of Webster avenue, 1,093.40 ft. north of Burke avenue, Borough of The Bronx; and

WHEREAS, a public hearing was held on this application by the board of standards and appeals, at its regular meeting, January 4, 1928, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Webster avenue (east side), south of a point opposite East 209th street continued is in a business district, Webster avenue (east side), north of a point opposite East 209th street continued is in an unrestricted district, Webster avenue (west side) is in a residence district and that Parkside place is in a residence district; and

WHEREAS, the decision of the superintendent of buildings, rendered July 19, 1927 (N. B. 1594-27), reads:

"1. Erection of proposed garage for storage of more than five motor vehicles partly in unrestricted district and partly in business district is contrary to provisions of Building Zone Resolution."

and

WHEREAS, the proposed building is to be of non-fireproof construction, one story and basement (25 ft. above grade) in height, with a frontage of 250.20 ft. and a depth of 64.44 ft. and 45.34 ft., irregular; to be occupied as a garage for the storage of more than five motor vehicles; and

WHEREAS, the conformation of the plot does not readily lend itself to commercial or industrial development; and

WHEREAS, more than two-thirds of the plot lies within the unrestricted use district, and because of the aforesaid description and conditions as to ownership as well as the improbability of business use development of that portion of the plot within the business use district, the board deems that under section 7, subdivision c, it is justified in granting a variation, and that under section 21 applicant was entitled to consideration in view of the unnecessary hardship and practical difficulty to compel conforming development for that minor portion of the plot within the business area.

Resolved, that the board of standards and appeals does hereby make a variation in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is granted on condition that the structure shall not exceed in height a building more than two stories above curb level; that the northerly and southerly gable walls shall be unpierced throughout their entire height and length; that the front elevation shall be finished with face brick and architectural terra cotta or stone trimmings; that the center portion of the street wall, approximately 100 ft. in width, shall be finished with a pediment parapet wall; that there shall be no roof sign erected; that any advertising shall be restricted to the show windows of the store front or flat wall signs and one projecting electric sign, indicating the name or title of business conducted on the premises; that any gasoline storage equipment installed shall be confined to and within the unrestricted use area of the premises, and that all permits required shall be obtained within nine months and any work involved shall be completed within eighteen months from the date of this action.

THE RESOLUTION—

(358-26-BZ)

WHEREAS, New York Telephone Co., for New York Telephone Co., owner, filed, April 23, 1926, an application, under the building zone resolution, to permit the extension, from a business district into a residence district, for a proposed telephone exchange building; premises south side of East 175th street, between Grand Concourse and Walton avenue, Borough of The Bronx; and

WHEREAS, this application was granted May 25, 1926, for a building four stories above Concourse grade, and reopened for amendment November 29, 1927, to permit a building five stories above Concourse grade; and

WHEREAS, a public hearing was held on this application by the board of standards and appeals, at its regular meeting, January 4, 1928, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that East 175th street is in a business district, Grand Concourse is in a residence district, below the Concourse level at crossings, business district and that Walton avenue is in a residence district; and

WHEREAS, the decision of the superintendent of buildings, rendered October 1, 1927 (N. B. 704-26), reads:

"1. Proposed increase in height of business building in business and residence district to five stories in height above grade of Grand Boulevard and Concourse is contrary to conditions in approval of Board of Appeals, May 25, 1926, on Calendar No. 358-26.";

and

WHEREAS, the proposed building is to be of fireproof construction, eight stories in height, with a frontage of 264 ft. 10¾ in. and a depth of 100 ft.; to be occupied as a telephone exchange building; and

WHEREAS, the board deemed that the application warrants relief under section 7, subdivision c, for the reason that the new additional story will be used for executive offices of this branch telephone exchange; and

WHEREAS, the rules of exception, under section 7, subdivision d, provide for a variation in a residence use district for central telephone exchange.

Resolved, that the board of standards and appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted*, only so far as it affects the structure above the street grade of the Concourse, *on condition* that the building shall not exceed in height five stories above the Grand Concourse; that the entire structure shall be restricted to the use, conduct and operation of telephone exchange, with such administrative office use therein as is incidental to and required in the conduct of this telephone exchange; that the front elevation on the Concourse, 175th street and Walton avenue shall be finished with face brick with architectural terra cotta or natural stone trimmings; that there shall be not more than one entrance on the Concourse front of the premises, and that all permits necessary for the prosecution of the work shall be obtained within six months and any work involved thereby shall be completed within eighteen months from the date of this action.

Absent: Chief Kenlon..... 1

THE RESOLUTION—

(446-27-BZ)

WHEREAS, Philip J. Sinnott, for Cerussi Contracting Co., owner, filed, April 26, 1927, an application, under the building zone resolution, to permit in a residence district the extension of an existing business building; premises northeast corner of Belmont avenue and Fordham road, Borough of The Bronx; and

WHEREAS, a public hearing was held on this application by the board of standards and appeals, at its regular meeting, December 13, 1927, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Fordham road is in a business district and Belmont avenue is in a residence district; and

WHEREAS, the decision of the superintendent of buildings, rendered February 21, 1927, reads:

"1. Proposed extension of business building in residence district is contrary to provisions of Building Zone Resolution.

"2. Rear yard must be provided in building in residence district where lots are back to back with adjoining lots in rear.";

and

WHEREAS, the existing building is five stories in height, 50 ft. 11 $\frac{1}{8}$ in. by 135 ft. 9 $\frac{5}{8}$ in. in area; it is proposed to erect to the north of the existing building a five-story fireproof extension, 125 ft. by 100 ft. in area, the entire premises to be used for business use and occupancy; and

WHEREAS, the existing building is cut by business and residence use districts, which substantiates applicant's basis of appeal under section 7c, the board deemed that applicant is entitled to relief under section 21 of the building zone resolution; and

WHEREAS, this application was granted by the board at its meeting, December 13, 1927, on certain conditions, and applicant requested a modification of the conditions as to occupancy of premises.

Resolved, that the board of standards and appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted on condition* that the existing building as extended in its entirety shall be constructed fireproof; that the requirements of the building zone resolution shall be complied with in all other respects; that the street elevation of proposed addition shall be finished in accordance with the existing structure as to material, design, color and texture, and that all permits shall be obtained within six months and any work involved shall be completed within eighteen months from the date of this action.

AREA FIXED.

(1294-27-BZ)

The chairman presented and read a communication from Matthew F. Fagan requesting the board to fix the area deemed affected and within which to obtain consents for the erection and maintenance of a public garage; premises north side of East New York avenue, 40 ft. west of Troy avenue, Borough of Brooklyn.

The following area was approved by the board.

Both sides of East New York avenue from Albany avenue to a point 200 ft. east of Troy avenue; both sides of Troy avenue from Maple street to Lefferts avenue; also the south side of Lefferts avenue from Troy avenue to a point 190 ft. west of Troy avenue.

Adjourned 3.30 p. m.

THE RESOLUTION—

(757-27-S.)

WHEREAS, John J. Gilmartin, for Coleman Holding Corp., owner, filed June 29, 1927, a petition for variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 43-51 West 36th street, Borough of Manhattan, and

WHEREAS, the order of the fire commissioner, dated April 4, 1927 (Order No. 15526-LD) reads:

"Remove all partitions not built of incombustible material as per Section 265 and 270 of the Labor Law."; and

WHEREAS, the building is fireproof, 12 stories in height, 100 ft. by 98 ft. in area at 1st story and 100 ft. by 88 ft. in area above; OCCUPIED: 1st story, store; upper stories, manufacture of hats and owsers, 135 persons on each story; EQUIPPED with a sprinkler system; EXITS: a fire tower; two interior fireproof stairways, extending from the 1st story to roof, enclosed in fireproof partions with fireproof doors at openings; and

WHEREAS, the petitioner claims that the fire department order No. 15526-LD affects all stories except the first story; that the partitions are constructed of wood and glass, only seven feet in height and use for the enclosure

of showrooms and salesrooms; furthermore, that the partitions have been erected in the building since 1926;

Resolved, that the order of the fire commissioner be and it hereby is affirmed, and that the petition be and it hereby is denied.

THE RESOLUTION—

(1118-27-S.)

WHEREAS, Croker Nat'l Fire Prev. Eng. Co., for 127-131 West 33rd St. Corp., owner, filed October 17, 1927, a petition for variation from the requirements of the labor law, as cited in an order of the fire commissioner, and also in a decision of the superintendent of buildings, affecting premises 127-131 West 33rd street, Borough of Manhattan; and

WHEREAS, the order of the fire commissioner, dated September 20, 1927 (Order No. 26190-LD), reads:

"1. Discontinue the use of these premises for factory purposes for the reason that building is of nonfireproof construction and the interior stairway is not enclosed with fireproof material in accordance with the requirements of Sec. 270 of the Labor Law."; and the decision of the superintendent of buildings, dated December 21, 1927 (Re: Certificate of Occupancy), reads:

"Relative to your application for a final certificate on the above premises, our inspector reports that a certificate of occupancy to superseded Certificate No. 3574 cannot be issued for factory use as the building is over four stories in height and is not of fireproof construction."; and

WHEREAS the building is non-fireproof, 7 stories in height, 75 ft. by 98 ft. 9 in. in area at 1st story and 75 ft. by 88 ft. 9 in. in area above; OCCUPIED: as a factory building, about 70 persons on each story; EQUIPPED with a two-source sprinkler system; EXITS: an interior fireproof stairway, extending from the 1st story to roof; enclosed in 3-inch plaster block partitions, plastered on both sides, with fireproof doors at openings; a party wall fire escape balcony at rear east on each story above the 1st story, having fireproof openings along the course thereof; ROOFS of adjoining buildings: 5 stories lower at west; same level at east; and

WHEREAS, the fire commissioner has notified this board that the present manufacturing occupancy in violation of the certificate of occupancy has been excessively increased, and also requests an early hearing; and

WHEREAS, the petitioner claims that the stairhall floors are of fireproof arches with terrazzo tile floors; that no more space will be rented for factory purposes; furthermore, the petitioner proposes to discontinue the factory occupancy by November 1, 1929; and

WHEREAS, on December 6, 1927, the original petition was denied and reconsidered on move for reopening; reopened December 13, 1927.

MINUTES

Resolved, that the board of standards and appeals does hereby *make a variation* in the requirements of the labor law, and that the petition be and it hereby is *granted on condition* that a front and rear fire escape shall be provided with egress from each subdivision on each floor additional to the present interior fireproof primary stairway exit; that the additional fire escape shall be extended to the east, providing thereby a labor law party-wall fire escape; that all openings from the subdivided floor areas to the rear fire escape shall be by means of doorways at floor level opening out; that the fire escape on the front of the building shall be constructed to embrace all subdivided floor areas on the front of the building, with doorways at floor level opening out; that there shall be provided from the rear fire escape at the second story level an unpierced fire-resisting passageway not less than three feet in width, fire-retarded on top, bottom and sides, from the rear to the front fire escape along the easterly gable wall; that there shall be provided at the second story balcony of the fire escape on the front of the building, counterbalanced drop ladder in guides at each end; that the occupancy of these premises shall be restricted to the legal capacity of the interior stairway with allowance for the existing two source sprinkler system; that the manufacturing in these premises shall be restricted to the needle-work industry; that the building shall be not increased in height or area; and that this variation is *granted* for a temporary period not to extend beyond November 1, 1929; and that all manufacturing use of any nature or description shall be discontinued on or before that date.

THE RESOLUTION—

(836-27-S)

WHEREAS, Henry I. Oser, for 315 West 39th Street, Inc., owner, filed June 21, 1927, a petition for variation from the requirements of the labor law, as cited in a decision of the superintendent of buildings, affecting premises 315-321 West 39th street, Borough of Manhattan; and

WHEREAS, the decision of the superintendent of buildings, dated July 21, 1927 (N. B. App. No. 617-1926), reads:

"1. All windows must be fireproof, as provided in Section 264 of the Labor Law and 503 of the Industrial Code.";

and

WHEREAS, the building is fireproof, 16 stories in height, 99 ft. 1½ in. by 98 ft. 9 in. in area; OCCUPIED: 1st story, stores and factory, 125 persons, 2nd to 14th stories, showrooms and factories, 135 persons per story; 15th and 16th stories, showrooms and factories, 90 persons per story; and

WHEREAS, there are openings in the street walls of the building on the 1st and 2nd stories, glazed with plate glass; the maximum area of the glass on the 1st story being 57 inches by 86 in. and on the 2nd story being 68 inches by 81 inches; and

WHEREAS, petitioner contends that a strict compliance

with the labor law as to the area of the glass would destroy the intended use of the two lower stories:

Resolved, that the board of standards and appeals does hereby *make a variation* in the requirements of the labor law, and that the petition be and it hereby is *granted* only so far as it affects the windows on the two lower stories, street front, *on condition* that the openings shall be equipped with approved metal frames and sash, glazed with one-quarter inch polished plate glass; and that the requirements of the labor law shall be complied with in all other respects.

837-27-S.

PETITIONER—Henry I. Oser, for 600 Eighth Avenue, Inc., lessee.

SUBJECT—Variation of the labor law as cited in decision of the superintendent of buildings.

THE RESOLUTION—

(837-27-S)

WHEREAS, Henry I. Oser, for 600 Eighth Avenue, Inc., lessee, filed July 21, 1927, a petition for variation of the labor law as cited in decision of the superintendent of buildings, affecting premises 273 West 39th street and 600-604 Eighth avenue, Borough of Manhattan; and

WHEREAS, the decision of the superintendent of buildings, dated July 13, 1927 (N. B. Applic. No. 114/1927), reads:

"1. All windows must be fireproof throughout, with glass panes not exceeding 720 sq. inches each. Sec. 264, Labor Law.";

and

WHEREAS, the building, facing on two street fronts, is fireproof, 12 stories in height, 49 ft. 5 in. by 59 ft. 9 in. in area; OCCUPIED: 1st story, stores, 90 persons; upper stories, show room and factories, 60 persons per story; and

WHEREAS, there are openings in both street walls of the building on the 1st, 2nd and 3rd stories glazed with plate glass; the maximum area of the glass on the 1st story being 98 in. by 94 in. and on the 2nd and 3rd stories being 61 in. by 78 in.; and

WHEREAS, petitioner contends that a strict compliance with the labor law as to the area of glass would destroy the intended use of the three lower stories.

Resolved, that the board of standards and appeals does hereby *make a variation* in the requirements of the labor law, and that the petition be and it hereby is *granted* only so far as it affects the windows on the three lower stories on both street fronts *on condition* that the openings shall be equipped with approved metal frames and sash, glazed with one-quarter inch polished plate glass; and that the requirements of the labor law shall be complied with in all other respects.

THE RESOLUTION—

(845-27-S)

WHEREAS, C. F. Rosborg, for Edward I. Farmer, Inc., owner, filed, July 25, 1927, a petition for a variation from the requirements of the labor law, as cited in a decision of the superintendent of buildings, affecting premises 16 East 56th street, Borough of Manhattan; and

WHEREAS, the decision of the superintendent of buildings, dated July 7, 1927 (Alt. App. No. 983-1927), reads:

"4. Show egress from basement rear yard to street.

Provide a safe fireproof passageway from termination of fire escape to street."

and

WHEREAS, the building is non-fireproof, four stories, basement and cellar in height, 22 ft. 6 in. by 100 ft. 5 in. in area at basement story and 22 ft. 6 in. by 89 ft. in area above; OCCUPIED: basement, office and wood carving shop, 18 persons; 1st, 2nd, 3rd and 4th stories, showrooms for the display of art goods, 3 persons on each story; EXITS: an interior stairway, fireproof to third story and constructed of wood to roof, enclosed in 6-in. terra cotta block partitions with kalamein doors at openings; a proposed 45-degree party wall fire escape on the rear of the building, having fireproof openings along the course thereof, extending from the roof to the second story balcony, with EGRESS from the termination of the fire escape balcony at the first story (of the building to the east, No. 18 East 56th street) with an iron bridge at the rear of buildings fronting on 55th street and thence to open rear yards.

Resolved, that the decision of the superintendent of buildings be and it hereby is affirmed, and that the petition be and it hereby is denied.

THE RESOLUTION—

(848-27-S)

WHEREAS, Croker National Fire Prevention Engineering Co., for Oberon Co., Inc., owner, filed, July 26, 1927, a petition for a variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 132-134 West 22nd street, Borough of Manhattan; and

WHEREAS, the order of the fire commissioner, dated April 20, 1927 (17897-LD), reads:

"1. Provide an independent fireproof passageway to street from termination of exterior screened stairway, at rear, as per Section 268 of the Labor Law."

and

WHEREAS, the building is fireproof, 12 stories in height, 39 ft. 7 in. by 94 ft. 9 in. in area at first story and 39 ft. 7 in. by 89 ft. in area above; OCCUPIED: 1st story, store (paper company), 12 persons; 2nd story, manufacture of trimmings, 8 persons; 3rd and 4th stories, manufacture of dresses, 30 persons on each story; 5th and 6th stories, vacant at present; 7th story, manufacture of dresses, 20 persons; 8th story, manufacture of coats, 28 persons; 9th story, manufacture of dresses, 18 persons; 10th story, manufacture of dresses, 30 persons; 11th story, manufacture of dresses, 26 persons; 12th story, manufacture of dresses, 20 persons; EQUIPPED with a sprinkler system; EXITS: an interior fireproof stairway, extending from the first story to roof, enclosed in fireproof partitions with fireproof doors at openings; an exterior screened stairway on the rear of the building, having fireproof openings along the course thereof, extending from the roof to the second story balcony, with EGRESS from the termination of the exterior screened stairway by means of a fireproof passageway at the mezzanine story level leading to the main stairway; and

WHEREAS, petitioner proposes to limit the occupancy of the building to the capacity of the interior stairway plus the allowance for the sprinkler system and requests the acceptance of the existing means of egress.

Resolved, that the board of standards and appeals does hereby make a variation in the requirements of the labor law, and that the petition be and it hereby is granted, only so far as it affects independent egress from the existing exterior labor law screened fire escape, on condition that an unpierced fireproof passageway shall be maintained from the rear fire escape at mezzanine floor level, direct to the main corridor entrance at street front; that the occupancy shall be restricted to the legal capacity of the interior stairs with allowance for the existing sprinkler system; that the building shall be not increased in height or area, and that this variation is granted so long as conditions as to occupancy and use remain unchanged.

THE RESOLUTION—

(950-27-S)

WHEREAS, George and Edward Blum, for Shaffer Operating Co., Inc., owner, filed, August 25, 1927, a petition for a variation from the requirements of the labor law, as cited in a decision of the superintendent of buildings, affecting premises 227-229 West 29th street, Borough of Manhattan; and

WHEREAS, the decision of the superintendent of buildings, dated August 1, 1927 (N. B. App. No. 200-27), reads:

"11. Windows should comply with section 264 of labor law and rule 503 of Industrial Code.";

and

WHEREAS, the building is fireproof, 14 stories in height, 46 ft. 10 in. by 90 ft. in area at first story and 46 ft. 10 in. by 80 ft. in area above; OCCUPIED for manufacturing purposes, 70 persons on each story; EQUIPPED with a sprinkler system; EXITS: a fire tower; an interior fireproof stairway, extending from the first story to roof, enclosed in fireproof partitions with fireproof doors at openings; and

WHEREAS, the petitioner proposes to use plate glass, ¼ in. in thickness, for front street windows on the three lower stories; the maximum size of glass on the first story 8 ft. 7 in. by 10 ft. and on the second and third stories 6 ft. 10 in.

by 4 ft. 5 in.; furthermore, the petitioner contends that smaller size glass would destroy the architectural effect of the building.

Resolved, that the board of standards and appeals does hereby make a variation in the requirements of the labor law, and that the petition be and it hereby is granted, only so far as it affects the windows on the three lower stories, street front, on condition that the openings shall be equipped with approved metal frames and sash, glazed with ¼ in. polished plate glass, and that the requirements of the labor law shall be complied with in all other respects.

Absent: Chief Kenlon..... 1

THE RESOLUTION—

(448-27-S)

WHEREAS, Croker National Fire Prevention Engineering
Co., for Frank Scolaro, owner, filed, April 26, 1927, a peti-
tion for a variation from the requirements of the labor law,
as cited in an order of the fire commissioner, affecting prem-
ises 338-342 Jackson avenue, Borough of The Bronx; and

WHEREAS, this petition was denied by the board at its
meeting, September 13, 1927, and reopened by vote of the
board; and

WHEREAS, the order of the fire commissioner, dated Feb-
ruary 25, 1927 (Order No. 12114-LD), reads:

"1. Arrange the fire escape southeast side of building
so that same will conform to Sec. 273 of the Labor
Law and rule 3, of the Board of Standards and Ap-
peals, adopted July 29, 1924.

"Defects noted are as follows:

"1. Stairways connecting balconies not at an angle
of 45°.

"4. No safe passageway from fire escape to street.";
and

WHEREAS, the building is non-fireproof, two stories in
height, 36 ft. 8 in. by 95 ft., irregular, in area; OCCUPIED:
1st story, marble cutting and polishing, 14 persons; 2nd
story, manufacturing ornamental brass and bronze railings, 12
persons; EXITS: an interior wooden stairway, extending
from the first story to second story, enclosed in wooden parti-
tions with wood doors at openings; a fire escape on the
southeast side of the building, having fireproof openings
along the course thereof, extending from the second story
balcony (with gooseneck ladder to roof) to the rear yard
of the two-story brick dwelling to the south (under same
ownership), with EGRESS from the termination of the
fire escape by means of a door leading into the brick dwell-
ing and thence to street; ROOFS of adjoining buildings: to
south, 9 ft. lower; to north, one story lower; and

WHEREAS, petitioner contends that the width of the yard
will not permit the erection of a 45-degree stairway from
the second story balcony to the yard; that the existing stair-
way is at an angle of approximately 75 degrees and requests
the acceptance of the existing fire escape.

Resolved, that the board of standards and appeals does
hereby make a variation in the requirements of the labor
law, and that the petition be and it hereby is granted on con-
dition that an iron balcony, 42 in. wide, shall be provided for
a length of at least 60 ft. from the front of the building, at
the second story on the northerly gable wall, with drop

ladder in guides at the street front to the sidewalk; that the
windows to the balcony shall be cut down to doorways, open-
ing out; that the building shall be not increased in height
or area, and that the occupancy of the second story shall not,
at any time, exceed fifteen male occupants.

THE RESOLUTION—

(1231-23-SA)

WHEREAS, Tracy Lyon filed, October 29, 1923, a petition,
with the board of standards and appeals, for approval of
their device known as The Gill Oil Burner; and

WHEREAS, a committee of the board inspected this device
in operation and recommends the approval of this device for
use with Grade B oil in domestic installations, when installed
in accordance with the rules of the board of standards and
appeals; and

WHEREAS, this petition was granted by the board, approv-
ing the device for use with Grade B fuel oil, and petitioner
requested the approval for use with Grade A fuel oil in
commercial installations.

Resolved, that the device known as The Gill Oil Burner
be and it hereby is approved for use with Grade A and
Grade B fuel oil in domestic and commercial installations,
on condition that the fuel oil burning equipment be installed
and operated in accordance with the fuel oil rules of the
board of standards and appeals for the respective classi-
fication.

Adjourned 5.30 p. m.

WILLIAM J. O'GORMAN, Secretary.

FORMS FOR NOTICES TO PROPERTY OWNERS

If applicants, under the building zone resolution, desire
copies of Form 13A, for notices to property owners, such
forms are not to be supplied by this office.

The applicant is entitled only to one copy of Form 13A,
properly filled out.

If he desires additional copies for his own convenience,
in notifying property owners, he can obtain such copies
from The O'Connell Press, 176 Park Row, Manhattan, at
three cents each, postage to be added if the forms are to
be supplied by mail.

RULES

FIRE DRILL RULES, ADOPTED OCTOBER 5, 1923.

The following rules, governing Fire Drills, were adopted by the Board of Standards and Appeals at the special meeting held on Friday, October 5, 1923:

DEFINITION OF "FIRE DRILL."

The method and practice of the systematic and orderly vacating of a building by its occupants in case of emergency, panic or fire in the least possible time—by the nearest safe means of exit—and the use of fire appliances which shall be provided for the extinguishing or retarding of fire and the safeguarding of human life.

Rule 1.

In all buildings as defined in Article 1, Section 10 of the Labor Law in which fire drills are required pursuant to Section 279 and in any other building in which the Fire Commissioner may be directed pursuant to the power conferred in section 775-B of the Greater New York Charter, it shall be the duty of the owners, lessees or tenants to conduct fire drills monthly and at such other times as the Fire Commissioner may direct.

For the purpose of conducting such fire drills the owner or tenant shall appoint from among their employees such responsible and dependable persons, male or female, who shall efficiently perform the duties of the various positions of the fire drill organization, as specified on the accompanying chart.

It shall be the duty of the owner or tenant to enter in the blank spaces provided for that purpose in said chart the names of persons so selected and post said chart and copies of the rules in a conspicuous place.

Rule 2. Duties of Foreman.

The Foreman or Person in Charge shall direct, enforce and have full charge of the "Fire Drill" in every factory on each floor. Each day before work is begun he shall see that extinguishers, fire hose, fire buckets, etc., are in readiness for use, exit doors are unlocked, aisles are free from obstruction, that stairways, halls, etc., are properly lighted, and shall remedy any dangerous condition found to exist. Immediately after work is commenced he shall check up the Fire Drill Organization list and note if the regularly assigned persons are present; if any are found to be absent, he shall assign other employees (if practicable) to perform their duties.

He shall immediately notify new employees of the existence of the Fire Drill Organization and give them the necessary instructions as to the duties they are to perform, etc.

He shall be familiar with the operation and location of the interior alarm signal box on his floor.

He shall listen for the test signal each morning at the appointed hour and in the event of the test signal not being heard he shall communicate with the superintendent or other person in charge of the building and advise him of the fact. The (Floor Captains) Foreman's orders are final as to the carrying out of the fire drill on his particular floor.

Rule 3. Duties of Watchmen.

The WATCHMEN shall see that all doors and windows are closed so as to prevent the spread of fire. The WATCHMEN shall be the only persons permitted to remain on the floor during the progress of a fire drill and do so at their own risk. For ordinary purposes only one watchman and a substitute shall be designated. In special cases, however, extra watchmen may be assigned by consent in writing from Fire Commissioner.

Rule 4. Duties of Searchers.

The MALE and FEMALE SEARCHERS shall search all toilets, dressing rooms and emergency rooms used and frequented by their sex and all other portions of the floor and order all persons, except those authorized to remain, to leave the premises. They are to take care of and assist all persons who may faint or be disabled.

SEARCHERS shall leave the floor immediately after the last squad leaves.

Rule 5. Duties of Street Alarm Box Runner.

The STREET ALARM BOX RUNNER shall be familiar with the location of the nearest city fire alarm box and know how it is operated.

In ordinary practice fire drills the STREET-ALARM-BOX-RUNNER shall report to the Foreman for orders, and if his services are not required he shall promptly file out of the premises with the other occupants.

Only when a fire actually occurs on his floor, or when ordered to do so by the Foreman, shall the STREET-ALARM-BOX-RUNNER proceed to the street alarm box and send in the fire alarm.

RULES

Rule 6. Duties of Fire Brigade.

The fire brigade shall have full charge of the operation of all auxiliary fire fighting apparatus and shall endeavor to extinguish, or at least hold in check until the arrival of the fire department, any fire that may occur. When it is necessary for the fire brigade to respond to different floors in the building they shall not use the stairways or fire escapes while the occupants are escaping from the premises.

Rule 7. Duties of Exit Guards.

The EXIT GUARDS shall station themselves at all exit doors leading to fire escapes, stairways and other means of escape immediately upon the sounding of the alarm. There shall be two guards for each exit, if practicable; one to stand in the hallway holding back the door and the other directly inside on the floor. They are to keep the exit doors open and direct the movements of the persons using these exits and prevent congestion.

EXIT GUARDS shall remain at their stations until all of the occupants of the building have passed their station. Then close their doors and pass out of the building. Upon signal for the occupants to return, EXIT GUARDS shall take their designated stations and remain there until all persons have returned to their respective floors.

Rule 8. Duties of Squad Monitors.

The SQUAD MONITORS, as soon as the alarm is sounded, shall see that the employees under their charge quickly form into line, two abreast, and numbering not more than thirty to each squad. They shall see that all aisles and passageways are cleared of obstructions.

Note: Chairs, stools, baskets, etc., should be pushed under or placed on top of work benches.

MONITORS shall proceed at the head of their respective squads to the exit assigned, and then march up or down the stairs or to other exits as directed by the EXIT GUARDS.

On reaching the sidewalk MONITORS shall keep their squads in order and lead them a reasonable distance from the building, so as not to cause congestion and interference with fire apparatus. When the proper signal is given they shall return to their respective floors at head of their squads.

MONITORS will at all times see that those under their charge conduct themselves in a respectable and orderly manner.

Rule 9. Holding of Drills.

FIRE DRILLS shall be held at least once each month at varied hours of the day, and all of the occupants shall participate therein simultaneously. Such drills shall conduct all occupants to a place of safety.

Where dual operation interior fire alarm systems are installed as permitted under Rule 11 of the interior fire alarm

rules of the Board of Standards and Appeals, the fire drill conducted each month shall include all of the persons on the premises engaged at work for a factory, and drills shall be conducted at least twice each year in which all of the persons on the premises shall participate simultaneously.

Rule 10. Duties of Owner.

It shall be the duty of the OWNER, LESSEE OR TENANT OF THE BUILDING or his authorized agent or their representatives to personally observe that the "Fire Drill" is held simultaneously on every floor of the building and the participation therein of every occupant of such building. Any FIRE DRILL in which all of the occupants do not participate shall not be considered as complying with the LAW, except as otherwise provided in these rules.

The person or persons representing the OWNER, LESSEE OR TENANT who supervises the FIRE DRILL at the building shall submit to an examination by the Bureau of Fire Prevention as to their experience and general fitness for such duties, and shall be so certified in writing by the FIRE COMMISSIONER.

Rule 11. Duties of Engineer.

It shall be the duty of the ENGINEER, SUPERINTENDENT or other PERSON IN CHARGE of a building having an interior fire alarm system to test such system daily immediately after the beginning of business, and to see that all apparatus operated by springs requiring winding are rewound after each alarm and kept in normal condition for operation.

Whenever it is necessary to test the fire alarm system at any other time of the day, owing to repairs, etc., being made, the PERSON IN CHARGE OF BUILDING will first notify all Foremen of the several floors of the intended test and likewise notify them when the repairs, etc., are completed. This precaution is taken to prevent confusion and excitement, also misunderstanding of the alarm signals.

It shall also be the duty of the PERSON IN CHARGE OF BUILDING to sound the interior alarm system at irregular intervals, but not less than once each calendar month, for the purpose of holding practice fire drills. He shall keep on the premises a record of such drills showing the date when held and the required time for all occupants to reach the street or a point of safety outside the building.

The PERSON IN CHARGE OF BUILDING must immediately acquaint new tenants of the existence of the "Fire Drill" Organization and its purport.

Rule 12. Registration.

The name and address of every person, corporation or co-partnership, that will, under professional service, carry on the trade, business or calling of establishing, maintaining or supervising the "Fire Drill" shall be registered in the Fire Department, which Department shall, upon evidence of fitness, grant a certificate to that effect.

NOTICE

BUILDING CODE ON SALE.

Copies of the Building Code are now on sale at the Distribution Division of the City Record Office, 125 Worth street. Price, \$1.25; by mail, \$1.35.

ELECTRICAL CODE ON SALE.

Copies of the Electrical Code are now on sale at the Distributing Division of the City Record Office, 125 Worth street. Price, 30c; by mail, 35c.

RULES

SMOKING IN FACTORIES.

Adopted by the Board of Standards and Appeals,
August 13, 1918.

RULE 1. PERMIT.

(a) **Prohibition.** No person shall smoke, or carry a lighted cigar or cigarette in any factory as defined in Article 1, Section 2, of the State Labor Law, nor in any portion of a factory, within the City of New York, except in such protected portions or special classes of occupancies as are specified in Rule 2 of these rules, and then only after the issuance of a permit by the fire commissioner.

It shall be the joint and several duty of the owner and of the lessee or lessees of the building containing such factory or factories to cause to be posted in each and every entrance hall, stairhall or room throughout the building, as well as in every elevator-car, in English, and also in such other language or languages as the fire commissioner shall direct, a notice of such prohibition, and the penalty for its violation.

(b) **Application.** Application for such permit shall be made only by the owner of the building on suitable blank forms to be furnished by the fire commissioner.

(c) **Time Limit.** Such permit shall be for a definite period, not exceeding one year, and shall not be renewed upon expiration until a reinspection of the premises for which it is issued has been made for the purpose of determining whether existing conditions warrant a renewal.

(d) **Conditions.** The permit shall state the conditions under which, the hours between which, and the place or places in such factory where smoking may be permitted, and this permit shall be framed and kept posted in a conspicuous place in the factory.

(e) **Revocation.** Violation of any of the conditions specified in the permit, in addition to incurring such penalties as are prescribed by law, shall be full and sufficient cause for the revocation of such permit by the fire commissioner, and he shall not again issue a permit for the same premises until at least one year has elapsed.

RULE 2. PERMISSIBLE CASES.

Smoking may be permitted in:—

(a) Factories engaged in the manufacture of cigars, cigarettes, or smoking tobacco, when necessary for the efficient conduct of the business, provided that:

(1) No smoking other than that for sampling, testing and experimental purposes is carried on.

(2) Such smoking is conducted in a room provided especially for that purpose, separated from the rest of the building by fireproof or fire-resisting partitions, with all openings therein protected by self-closing fire doors, and, further, unless the building is of fireproof construction or equipped with an approved automatic sprinkler system, the floor and ceiling of such room shall be covered with fire-retarding material.

(3) Such chemical fire extinguishers as the fire commissioner may direct are installed.

(4) All waste paper and other inflammable waste materials are deposited in fireproof receptacles.

(b) Factories devoted entirely to one of the following occupancies:

Blacksmithing or horseshoeing;

Boiler making;

Brick, terra cotta or artificial stone works;

Forge shops;

Foundries;

Iron, steel, brass or copper works;

Machine shops;

Smelting;

Stone or monumental works;

provided that in any case:

(1) The building is not of wooden construction;

(2) Such chemical fire extinguishers as the fire commissioner may direct are installed;

(3) All waste paper and other inflammable waste materials are deposited in fireproof receptacles.

RULES

REPORTING STRUCTURAL ALTERATIONS, ADOPTED FEBRUARY 8, 1917, UNDER CAL. 352-16-S.

Resolved, That for the purpose of establishing uniform practice with regards to the reporting of structural alterations made under the requirements of the labor law, the following rule be and it is hereby adopted:

When plans have been filed with the proper superintendent of buildings and structural alterations have been made to comply with the requirements of the labor law relating to exits and fire protection, or with an order of the State

Labor Department relating to exits issued prior to October 1, 1916, or with an order of the fire commissioner issued subsequent to October 1, 1916, a report shall be made by the superintendent of buildings to the fire commissioner stating whether the work done complies with the order of the State Labor Department, with the order of the fire commissioner, or with the provisions of the State Labor Law, as the case may be.

CONCRETE RULES

USE OF HYDRATED LIME IN CONCRETE.

Adopted by the Board of Standards and Appeals, April 19, 1920, under Cal. No. 153-20-S.

The use of hydrated lime in all classes of concrete construction shall not be prohibited when used in accordance with the conditions hereinafter set forth.

The hydrated lime shall conform with the standard specifications for this material which have been adopted by the American Society for Testing Materials.

The maximum amount of hydrated lime which may be used shall conform with the following table, all weights given being the amount of lime which may be incorporated for each ninety-five pound bag of Portland cement.

1-1½-3 Mix, 4 pounds of hydrated lime per bag of cement.

1-2-4 Mix, 5 pounds of hydrated lime per bag of cement.

1-2½-5 Mix, 6 pounds of hydrated lime per bag of cement.

For hand mixed concrete, the hydrated lime and Portland cement shall be well mixed while dry.

Hydrated lime shall not be used in concrete which is to be deposited under water.

WARNING

Notice is hereby given to all petitioners, appellants and applicants, and to all lawyers, architects and engineers representing owners or lessees in proceedings before the board—

First, That if they do not appear in person or by representative at the hearing on their case, dismissal for lack of prosecution is likely to result.

Second, That due and ample notice of the date set for hearing is provided in the publication in this BULLETIN of the calendars of the board, each case being set down by Calendar Number and premises under the date of the hearing.

Third, That no plea of ignorance of the date of the hearing can be entertained in view of this publication and of the posting of the calendars on the bulletin board in the

offices of the board and of the further publication of the calendars in the daily press.

Fourth, That no one is entitled to written notice of the date for the hearing in his case, and that the plea of failure to receive such notice is no excuse for neglect to appear.

Fifth, That the business of the board is to dispose of all cases promptly, for the reason that the pendency of an appeal or petition ties the hands of the administrative official in enforcing his order; therefore, no appeal or petition will be allowed to be hung up by reason of failure of the appellant or petitioner to file necessary data, or by any other method of delay.

Sixth, That no appeal, application or petition will be accepted for filing unless, at the time of filing, all papers, plans and data required by law are supplied, as specified on the blank appeal, application or petition forms.

Annual Report.

Fire Retarding Rules.

Smoking in Factories, Rules.

Structural Alterations, Rules.

Appliances Approved.

Reserve Calendar.

Progress Report.

PUBLIC HEARINGS

Tuesdays, at 10 a. m. and 2 p. m.

Special meetings as published in this Bulletin.

Call of Clerk's Calendar, Tuesdays, at 2 p. m.

All hearings are held in Room 1013, Municipal Building, Manhattan.

HOURS FOR CONSULTATION

10 A. M. to 1 P. M.

Any person desiring to consult the chairman or the engineers, pertaining to the work of the board, will be seen only between the hours of ten in the morning and one in the afternoon—Saturdays excepted.

CALL OF CLERK'S CALENDAR

The *Clerk's Calendar* consists of applications under the Building Zone Resolution, and its object is to give interested property owners opportunity to file objections, if any, and will be called in Room 1013, *Tuesday, January 17, 1928, at 2 o'clock*. At this call each case is set for hearing on a definite day.

The next subsequent Call of the Calendar will be on *Tuesday, January 24, 1928, at 2 o'clock*.

The *Clerk's Calendar* is not to be confused with the calendar of cases that have been definitely set for hearing on fixed days.

NOTICE TO APPELLANTS AND PETITIONERS

No appeal, application or petition will be entertained in connection with which court proceedings are pending or in progress, nor accepted that are not filed within twenty days from the date of the action of the Administrative Official.

Any communication purporting to be an appeal, application or petition shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this board.

Upon receipt of any such communication the writer will be supplied with the official forms for presenting his appeal, application or petition, and if he fails to supply the data required thereon, within twenty days, his case may be dismissed for lack of prosecution.

At the time of filing an application, the appellant or petitioner shall forward a signed notice of appeal addressed to the administrative official (either superintendent of buildings or fire commissioner) and file with this board a duplicate of said notice.

Petitioners are advised that their plans must indicate the points of the compass so as to establish the true location and position of the property, the subject of the appeal.

Appeals, applications and petitions will be simplified and disposition of same expedited by conforming to these directions.

WILLIAM E. WALSH, *Chairman*.

Building Zone Applications.

NOTICE IS HEREBY GIVEN by the board of standards and appeals of a public hearing under the provisions of the building zone resolution, *Tuesday morning, January 17, 1928*, at 10 o'clock, in Room 1013, Municipal Building, on the following matters:

CAL. NO. 777-27-BZ—Application, July 5, 1927, under section 21 of the building zone resolution, of John J. Dunnigan, applicant, on behalf of Miriam Gluck, owner, to permit in a residence district the erection and maintenance of a business building (stores); premises southeast corner of Villa avenue and East 204th street, The Bronx.

CAL. NO. 555-27-BZ—Application, May 17, 1927, under section 21 of the building zone resolution, of Robert W. Maloney, applicant, on behalf of Mary V. Dempsey, owner, to permit in a business district the erection and maintenance of a gasoline service station; premises southwest corner of Arnow avenue and Boston road, The Bronx.

CAL. NO. 834-27-BZ—Application, July 21, 1927, under section 21 of the building zone resolution, of McCooey & Conroy, applicants, substituted for Joseph E. Deinhardt, on behalf of Catherine G. Connolly, owner, to permit, partly in a business district and partly in a residence district, the erection and maintenance of a garage for the storage of more than five (5) motor vehicles; premises 172-188 Grove street, Brooklyn.

CAL. NO. 844-27-BZ—Application, July 25, 1927, under section 7b of the building zone resolution, of Charles Kreymsborg & Son, applicants, on behalf of Emil Mosbacher, owner, to permit the extension, from a business district into a residence district, of a proposed business building (stores); premises 3120-3130 Decatur avenue and 361-363 East 204th street, northeast corner, The Bronx.

CAL. NO. 869-27-BZ—Application, July 29, 1927, under sections 7e and 21 of the building zone resolution, of William F. Doyle, applicant, substituted for William Shary, on behalf of Hartney Realty Co., Inc., owner, to permit in a business use and "B" area district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles and also the omission of the rear yard required by the zone resolution; premises 1082-1090 Ogden avenue, The Bronx.

CAL. NO. 896-27-BZ—Application, August 8, 1927, under sections 7a, 7b and 21 of the building zone resolution, of Edward P. Doyle, applicant, on behalf of Charles Sengen, owner, to permit in a business district the extension in area and height of an

existing building occupied as a motor vehicle repair shop and garage for the storage of more than five (5) motor vehicles; premises 13-15 Sumpter street, Brooklyn.

CAL. NO. 903-27-BZ—Application, August 9, 1927, under section 21 of the building zone resolution, of Edwin C. Georgi, applicant, on behalf of Licht Realty Co., Inc., owner, to permit in a business district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles; premises 26-34 Sherman avenue, Manhattan.

CAL. NO. 941-27-BZ—Application, August 20, 1927, under section 7c of the building zone resolution, of William F. Doyle, applicant, on behalf of Builders Garage Corp., owner, to permit in a business district, extending from an unrestricted district, the erection and maintenance of a garage for the storage of more than five (5) motor vehicles; premises 1104-1112 Pacific street, Brooklyn.

CAL. NO. 1267-27-BZ—Application, December 2, 1927, under sections 7b and 21 of the building zone resolution, of David Porter, applicant, on behalf of Forest Hills Masonic Guild, Inc., owner, to permit in a residence district, extending from a business district, the alteration and extension in height of a fraternity lodge building; premises northeast corner of Queens boulevard and 71st street, Forest Hills, Borough of Queens.

CAL. NO. 1037-27-BZ—Application, September 22, 1927, under section 21 of the building zone resolution, of Daniel Campbell, Jr., architect and engineer, on behalf of Francis J. Hurley, owner, to permit in an "F" area and residence district the erection and maintenance of a building less than fifteen (15) feet from the street line, and also to provide a side yard having its width less than required by the zone resolution; premises 148-49 Kalmia street and 46-46 156th street, northwest corner, Flushing, Borough of Queens.

CAL. NO. 897-27-BZ—Application, August 8, 1927, under section 21 of the building zone resolution, of Harry Cook, applicant, on behalf of Keva Skodnick, owner, to permit in a residence district the erection and maintenance of a business building (stores); premises southwest corner of Hollis avenue and 191st street, Hollis, Borough of Queens.

THE RESOLUTION—

(928-27-A)

WHEREAS, the Hotel Monticello, Inc., owner, filed August
18, 1927, an appeal with the board of standards and appeals
from an order of the fire commissioner, affecting premises
35-37 West 64th street, Borough of Manhattan; and

WHEREAS, appellant failed to complete its papers, al-
though duly notified to do so,

Resolved, that the appeal be and it hereby is *dismissed*
for lack of prosecution.

343-27-A.

APPELLANT—Nathan Arvintz, for Hannah Katz, owner.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—849 East 24th street, Brooklyn.

APPEARANCES—

For Appellant: None.

For Administration: Inspector Meyer of fire de-
partment.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Commission- ers Connell, Holland and Guilfoyle and Chief Kenlon	5
Negative	0
Absent	0

THE RESOLUTION—

(343-27-A)

WHEREAS, Nathan Arvintz, for Hannah Katz, owner,
filed April 1, 1927, an appeal from a decision of the fire
commissioner affecting premises 849 East 24th street, Bor-
ough of Brooklyn; and

WHEREAS, the decision of the fire commissioner, dated
March 16, 1927, reads:

"13. Burners must be of a type approved by the
Board of Standards and Appeals.";

and

WHEREAS, the building is frame, 2 stories in height, 22
feet by 66 feet in area; OCCUPIED as a dwelling; and

WHEREAS, a fuel oil burning system has been installed
consisting of a 1,100-gallon capacity storage tank (buried
outside the premises), an Everite Oil Burner and the neces-
sary valves and piping for a complete equipment; and

WHEREAS, appellant requests the acceptance of the in-
stallation pending the approval of the burner;

Resolved, that the decision of the fire commissioner be
and it hereby is *modified* and the appeal be and it hereby is
granted for a temporary permit for ninety days, at the
owner's risk, pending determination by this board of the
petition for approval of the burner now on file, *on condition*
that the installment shall otherwise comply with the Fuel
Oil Rules of the board of standards and appeals in all
respects.

902-27-A.

APPELLANT—Andrew Pelot, for Elizabeth Allen, owner.

SUBJECT—Appeal from order of the fire commissioner.

PREMISES AFFECTED—371 Walton avenue (rear),
Bronx.

APPEARANCES—

For Appellant: Mrs. Andrew Pelot.

For Administration: Inspector Meyer of fire de-
partment.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Commission- ers Connell, Holland and Guilfoyle and Chief Kenlon	5
Negative	0
Absent	0

THE RESOLUTION—

(902-27-A)

WHEREAS, Andrew Pelot, appellant for Elizabeth Allen,
owner, filed August 9, 1927, an appeal from an order of
the fire commissioner, affecting premises 371 Walton avenue
(rear), Borough of the Bronx; and

WHEREAS, the order of the fire commissioner, dated July
18, 1927 (Order No. 39176LC), reads:

"With reference to your application, dated June 13,
1927, for a permit to maintain a non-storage garage at
the above location, I regret to inform you that I am
without power to grant such permit because the build-
ing is of frame construction.

"You are, therefore, ordered to

"Remove all motor vehicles, the fuel tanks of which
are not empty and discontinue use of premises as a
non-storage garage.";

and

WHEREAS, the premises consist of a plot of ground hav-
ing a frontage of 50.06 ft. and a depth of 90 ft.; upon
the front portion of which there is located a two-story,
two-family brick dwelling, and on the rear of the lot there
is located a one-story, 18 ft. by 17 ft. in area, frame gar-
age for the storage of two motor vehicles of the pleasure
car type; and

WHEREAS, appellant contends that the garage is occupied
for the storage of two automobiles owned by the occupants
of the dwelling on the front portion of the lot;

Resolved, that the order of the fire commissioner be
and it hereby is *modified* and the appeal be and it hereby
is *granted on condition* that this building used for the
storage of two automobiles of the pleasure car type, be-
longing to the owner and occupants of the premises, shall
not be increased in height, area or dimension and that

MINUTES

the interior of this building (walls and ceiling) shall be lined throughout with not less than two layers of one-quarter inch asbestos or sheet rock boards, with staggered joints filled and pointed with mortar.

909-27-A.

APPELLANT—Croker National Fire Prevention Engineering Co., for Roy Engineering and Iron Works, owner.

SUBJECT—Appeal from order of the fire commissioner. PREMISES AFFECTED—51-59 Otsego street, Brooklyn. APPEARANCES—

For Appellant: Herman E. Horwood.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Appeal granted on condition. CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Commissioners Connell, Holland and Guilfoyle and Chief Kenlon	5
Negative	0
Absent	0

THE RESOLUTION—

(909-27-A)

WHEREAS, Croker Natl. Fire Prev. Eng. Co., for Roy Engineering & Iron Works, owner, filed August 11, 1927, an appeal from an order of the fire commissioner, affecting premises 51-9 Otsego street, Borough of Brooklyn; and

WHEREAS, the order of the fire commissioner, dated May 9, 1927 (Order No. 15119-F), reads:

"1. Install a standpipe system with risers 4 inches in diameter tested to withstand a pressure of 300 lbs. per square inch, extending from cellar to roof, with necessary check valves and 2½ inch regulation Fire Department outlets on each story (including basements, cellars and roofs), placed within main stairway enclosure. Each outlet to be provided with sufficient feet of 2½ inch standard hose attached thereto.";

and

WHEREAS, the premises, fronting on two streets, consist of a group of interconnected frame and concrete buildings, one and two stories (maximum of 32 ft. 1 in.) in height, having an approximate area of 20,000 sq. ft. on the 1st story and approximately 6,000 sq. ft. on the 2nd story; OCCUPIED as an iron works and machine shop for the manufacture of boilers, stacks, tanks, etc., 45 persons in entire premises; and

WHEREAS, appellant contends that the buildings are low in height and are open on all sides, excepting a small portion at the northerly end; that there are several 2½-gallon fire extinguishers and, also, fire pails distributed throughout the premises, and that there are city fire hydrants in the immediate vicinity;

Resolved, that the order of the fire commissioner be and it hereby is *modified* and the appeal be and it hereby is *granted on condition* that the building shall not be increased in height, area or dimension; that the premises shall be equipped with such approved auxiliary fire extinguishing appliances as shall be directed by the fire commissioner and distributed throughout the premises in accordance therewith; and, *granted* only as long as conditions as to occupancy, operation and use remain unchanged.

640-27-A.

APPELLANT—Jacob Sulzbach, owner.

SUBJECT—Appeal from order of the fire commissioner. PREMISES AFFECTED—East side of 11th avenue, between 9th street and 11th street, Whitestone, Borough of Queens.

APPEARANCES—

For Appellant: Clinton Rowe.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Appeal granted on condition. CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Commissioners Connell, Holland and Guilfoyle.....	4
Negative	0
Absent: Chief Kenlon.....	1

THE RESOLUTION—

(640-27-A)

WHEREAS, Jacob Sulzbach, owner, filed June 6, 1927, an appeal from an order of the fire commissioner, affecting premises east side of 11th avenue, between the north side of 9th street and the south side of 11th street, Whitestone, Borough of Queens; and

WHEREAS, the order of the fire commissioner, dated April 19, 1927 (Order No. 17766-F), reads:

"1. Install a standpipe system with risers 4 inches in diameter tested to withstand a pressure of 300 lbs. per square inch, extending from cellar to roof, with necessary check valves and 2½ inch regulation Fire Department outlets on each story (including basements, cellars and roofs), placed within main stairway enclosure.";

and

WHEREAS, the building is non-fireproof, one story in height, 444 ft. 6 in. by 150 ft. 6 in., about 66,800 square feet in area; OCCUPIED: for the manufacture of silk and silk trimmings, 200 persons; and

WHEREAS, the appellant claims that the building is constructed of brick with glass and wood roof; that it faces three streets with eight exits at the front and eight exits at the rear; that the stock of raw silk is stored in fireproof vaults; that the building is equipped with a sprinkler system, and provided with 100 water pails, also Pyrene extinguishers; that there are fire hydrants at rear connected with the city lines; furthermore, the appellant contends that a watchman is around the premises night and day; and

WHEREAS, this order is predicated on the area of the building in excess of 10,000 sq. ft., and

WHEREAS, the building is but one story in height, subdivided approximately in two equal areas by walls of fireproof construction;

Resolved, that the order of the fire commissioner be and it hereby is *modified* and the appeal be and it hereby is *granted on condition* that the building shall not be increased in height, area or dimension; that the subdividing fireproof wall shall have not more than one opening therein, equipped with a self-closing fireproof door, and that the existing sprinkler system shall be maintained in good working order; that such additional auxiliary fire extinguishing equipment as shall be directed by the fire commissioner shall be installed and distributed in accordance with his directions; and, *granted* only as long as conditions as to occupancy and use otherwise remain unchanged.

857-27-A.

APPELLANT—Fred R. Ashfield, for Williamburgh Power Co., Inc., owner.

SUBJECT—Appeal from order of the fire commissioner. PREMISES AFFECTED—482-504 Driggs avenue, 177-195 North 9th street and 182-198 North 10th street, Brooklyn.

APPEARANCES—

For Appellant: Fred R. Ashfield.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Commissioners Connell, Holland and Guilfoyle and Chief Kenlon	5
Negative	0

MINUTES

THE RESOLUTION—

(857-27-A)

WHEREAS, Fred R. Ashfield, for Williamsburgh Power Co., Inc., owner, filed July 27, 1927, an appeal from an order of the fire commissioner, affecting premises 482-504 Driggs avenue, 177-195 North 9th street and 182-198 North 10th street, Borough of Brooklyn; and

WHEREAS, the order of the fire commissioner, dated April 7, 1927 (Order No. 13081-F), reads:

"1. Install a standpipe system with risers 4" in diameter tested to withstand a pressure of 300 lbs. per square inch, extending from cellar to roof, with necessary check valves and 2½ inch regulation Fire Department outlets on each story (including basements, cellars and roofs), placed within main stairway enclosure. Each outlet to be provided with sufficient feet of 2½" standard hose attached thereto."

and
WHEREAS, the building is non-fireproof, 6 stories and basement (79 ft. 4 in.) in height, 86 ft. by 200 ft., irregular (approximately 15,000 sq. ft.) in area; OCCUPIED: Basement, manufacture of card filing systems, 8 persons; 1st story, manufacture of candy boxes, 49 persons; 2nd story, printing on silks, 11 persons; 3rd story, manufacture of card filing systems, 33 persons; 4th story, printing on silks, 4 persons; 5th story, manufacture of shoes, 50 persons; 6th story, manufacture and storage of ice skates, 12 persons; and

WHEREAS, appellant contends that the building faces on three street fronts; that the heating plant is located in a separate building; that the building is equipped with a 100 per cent sprinkler system including a 30,000-gallon tank and that there are city fire hydrants in the vicinity; and

WHEREAS, the order is issued on the area of the building in excess of 10,000 square feet; and

WHEREAS, the building is equipped with an approved sprinkler system and the heating plant is located in a separate structure outside the factory building; and

WHEREAS, all required legal means of exit are provided and maintained;

Resolved, that the order of the fire commissioner be and it hereby is *modified* and the appeal be and it hereby is *granted on condition* that the building shall not be increased in height or area; that it shall be equipped with an approved 2-source wet sprinkler system and that the present occupancy and use shall remain substantially unchanged.

888-27-A.

APPELLANT—Croker Natl. Fire Prev. Eng. Co., for Wm. P. Young & Bros., Inc., lessee.

SUBJECT—Appeal from order of the fire commissioner.

PREMISES AFFECTED—355 Vernon avenue, Long Island City, Borough of Queens.

APPEARANCES—

For Appellant: Herman E. Horwood.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Commissioners

Connell, Holland and Guilfoyle..... 4

Negative: Chief Kenlon..... 1

Absent 0

THE RESOLUTION—

(888-27-A)

WHEREAS, Croker Natl. Fire Prev. Eng. Co., for Wm. P. Young & Bros., Inc., lessee, filed August 5, 1927, an appeal from the order of the fire commissioner, affecting premises 355 Vernon avenue, Long Island City, Borough of Queens, and

WHEREAS, the order of the fire commissioner, dated April 27, 1927, reads:

"1. Install 4 yard hydrants on account of Industrial plant located on premises. Sec. 20, Ch. 12, Code of Ordinances.";

and

WHEREAS, the premises consist of a plot of ground having a frontage of 239 ft. on Vernon avenue, 504 ft. on Harris avenue, and 229 ft. along the East River, upon which is located the lumber yard of Wm. P. Young & Bros., Inc., consisting of a one story corrugated iron mill building, 192 ft. by 50 ft. in area, a one story office building, several one story corrugated sheds for lumber storage, and several 10-foot high lumber piles with aisle spaces and driveways between; and

WHEREAS, appellant contends that there are 15 bucket tanks distributed throughout the yard; that the premises are open on three sides; that there is a watchman on duty at all times and that all machines in the mill building are equipped with a blower system leading to a fireproof vault outside the building, and that the sawdust and shavings are removed daily;

Resolved, that the order of the fire commissioner be and it hereby is *modified* and the appeal be and it hereby is *granted on condition* that the stacking of lumber shall be confined to the layout as indicated on the plans filed in this case; that the lumber stacks at the southerly and westerly end of the premises shall not exceed a height of seven feet and shall be located not less than five feet from the property line of these premises; that no other lumber stack throughout the premises shall exceed a height of ten feet; that the gangways between the lumber piles, as indicated on the plans filed in this case, shall be maintained and in no case less than fifteen feet in width; that there shall be distributed throughout the lumber yard such approved bucket tanks and other auxiliary fire extinguishing equipment, as shall be directed by the fire commissioner; that there shall be maintained on the premises a supervised watchman's service and that the milling plant building shall be not increased in height, area or dimension, unless equipped and provided with such fire extinguishing equipment as is required by law.

80-27-A.

APPELLANT—M. Ewing Fox Co., Inc., owner.

SUBJECT—Application for reopening—re appeal from order of the fire commissioner.

PREMISES AFFECTED—241-249 East 136th street, The Bronx.

APPEARANCES—

For Appellant—R. P. Bolster.

ACTION OF BOARD—Appeal reopened and resolution modified.

THE VOTE TO REOPEN AND MODIFY:

Affirmative: Chairman Walsh, Commissioners

Connell, Holland and Guilfoyle..... 4

Negative 0

Absent: Chief Kenlon..... 1

THE RESOLUTION—

(80-27-A)

WHEREAS, M. Ewing Fox Co., Inc., owner, filed January 25, 1927, an appeal from an order of the fire commissioner, affecting premises 241-249 East 136th street, Borough of The Bronx; and

WHEREAS, the order of the fire commissioner, dated December 16, 1926 (re N. B. App. 430-1926), reads:

"10. Use of auxiliary tank as part of fuel oil system is limited to Grade B fuel oil installations.";

and

WHEREAS, the premises consist of a plot of ground having a frontage of 150.99 ft. on Rider avenue and 150.31 ft. on East 136th street, upon which is located a plant for the manufacture of calcimines and water paints, consisting of several non-fireproof buildings, one, two and three stories in height, there being installed in the one-story building on

MINUTES

East 136th street an internal combustion engine (operating on Grade A fuel oil) with a 1,900-gallon capacity storage tank buried outside the building and a 50-gallon auxiliary tank inside of the building, all installed in accordance with the fuel oil rules except the auxiliary tank, which is not permissible where the storage is over 1,100 gallons; and

WHEREAS, appellant contends that the installation is not permissible where the storage is over 1,100 gallons; and

WHEREAS, appellant contends that the installation is for the operation of a Diesel engine and that the 50-gallon tank is necessary in the operation of the engine; and

WHEREAS, this appeal was granted by the board at its meeting April 12, 1927, on certain conditions, and appellant contends that he has received a further objection as to thickness of metal on the tank, the metal being No. 18 gauge; and

WHEREAS, the oil storage covered by the fire department order on which this appeal is taken does not come within the provisions of the fuel oil rules as the oil used in this equipment is restricted to Diesel engine operation.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that the 50-gallon auxiliary oil storage tank maintained for use in conjunction with the Diesel engine operation shall be provided with such safeguards as are required by the fire department and shall be constructed of No. 18 gauge galvanized steel.

"(App. No. 11718-27) Proposition being contrary to Zone Resolution (Art. II—Sec. 4—Subdivision 46) is hereby denied.";

and

WHEREAS, the premises consist of a plot of ground having a frontage of 105 ft. 1 in. on Lefferts avenue and 102 ft. 8 in. on Empire boulevard and a depth of 21 ft., upon which it is proposed to erect an office, a comfort station and to install the necessary tanks and pumps for a gasoline service station; and

WHEREAS, the board deemed that applicant was not entitled to relief under section 21 of the building zone resolution on the ground of practical difficulty and unnecessary hardship;

Resolved, that the decision of the superintendent of buildings be and it hereby is *affirmed* and that the application be and it hereby is *denied*.

825-27-BZ.

APPLICANT—Richard Morrison, owner.

SUBJECT—Application (re decision of the superintendent of buildings) under section 21 of the building zone resolution, to permit in a residence district the erection and maintenance of a gasoline service station.

PREMISES AFFECTED—Southeast corner of Bronx boulevard and East 219th street, The Bronx.

APPEARANCES—

For Applicant: Richard Morrison and Mr. Hopkins.

For Opposition: William Bauman and Lawrence E. French.

ACTION OF BOARD—Application denied.

THE VOTE TO GRANT—

Affirmative: Chairman Walsh and Commissioner Holland 2
Negative: Commissioners Connell and Guilfoyle 2
Absent: Chief Kenlon..... 1

THE RESOLUTION—

(825-27-BZ)

WHEREAS, Richard Morrison, owner, filed, July 18, 1927, an application under the building zone resolution, to permit in a residence district the erection and maintenance of a gasoline service station; premises, southeast corner of Bronx boulevard and East 219th street, Borough of The Bronx; and

WHEREAS, a public hearing was held on this application by the board of standards and appeals, at its regular meet-

ing, January 10, 1928, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Bronx boulevard, East 219th street and Carpenter avenue are all in a residence district; and

WHEREAS, the decision of the superintendent of buildings, rendered June 6, 1927 (N. B. 1309-1927), reads:

"1. Erection and maintenance of gasoline selling station in residence district is contrary to provisions of building zone resolution.";

and

WHEREAS, it is proposed to erect an office, bury two (2) 550-gallon tanks and erect two pumps for the purpose of conducting a gasoline service station within a residence district; and

WHEREAS, the board deemed that applicant was not entitled to relief under section 21 of the building zone resolution on the ground of practical difficulty and unnecessary hardship;

Resolved, that the decision of the fire commissioner be and it hereby is *affirmed* and that the application be and it hereby is *denied*.

THE RESOLUTION—

(859-27-BZ)

WHEREAS, Charles L. Craig, substituted for William F. Doyle, for Lea Construction Corp., owner, filed, June 23, 1927, an application, under the building zone resolution, to

MINUTES

permit in a business district the erection and maintenance of a garage for the storage of more than five motor vehicles; premises 3896-3906 Tenth avenue, Borough of Manhattan; and

WHEREAS, a public hearing was held on this application by the board of standards and appeals, at its regular meeting, January 10, 1928, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Tenth avenue is in a business district, Post avenue is in business and residence districts and Isham street is in business and residence districts; and

WHEREAS, the decision of the superintendent of buildings, rendered July 11, 1927, reads:

"N. B. App. 314-27:

"1. Garage for more than 5 vehicles is unlawful in a business district, Zoning Resolution, Sec. 4.

"Note: Examined for Zoning only.";

and

WHEREAS, the proposed building is to be of non-fireproof construction, two stories in height, with a frontage of 178 ft. 8½ in. and a depth of 68 ft. 11½ in. and 160 ft.; to be occupied as a garage for the storage of more than five motor vehicles; and

WHEREAS, the applicant is estopped from securing the 80 per cent consents required by the strict letter of the zoning resolution under section 7, subdivision g, by reason of the neutral policy of the Board of Transportation (letter regarding which is on file in this appeal) and the appeal is supported by a substantial and overwhelming consent other than the city's property; and

WHEREAS, the board deems that applicant has substantiated his claim of hardship brought under section 21 of the zoning resolution; and

WHEREAS, the use and operation of this building shall be restricted to the Tenth avenue frontage of the property.

Resolved, that the board of standards and appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted on condition* that the building shall be constructed fireproof throughout and shall be restricted in height to two stories above sidewalk grade or curb level; that there shall be no vehicular entrance on Isham street and not more than one doorway maintained for emergency exit from the stair hall located at the extreme westerly end of the building on the Isham street front; that any other openings on the Isham street front

shall be restricted to windows, the sills of which shall be not less than 5 ft. above curb level; that any ramp construction shall be located at the extreme southerly end of the structure on the easterly street front; that the grade of the ramp shall start not less than 15 ft. from the building line of the Post avenue front; that the opening to this ramp shall not exceed a width of 9 ft. 6 in. in the clear; that the westerly and southerly walls shall be unpierced throughout their entire height and length; that the exterior of the street walls shall be finished with two-toned face brick with architectural terra cotta or stone trimmings; that any gasoline storage equipment installed shall be located at the street front approximately in the center of the building; that there shall be no portable gasoline tanks maintained or operated on the premises; that no roof signs shall be erected or maintained; that any advertising display shall be restricted to the Tenth avenue front and shall be of the flat wall design and a projecting electric sign, indicating the title of the business conducted on the premises; that a skylight set off 25 ft. from the intersection of the westerly and southerly gable walls shall be installed, not less than 50 sq. ft. in area, glazed with plain glass and protected with wire guards above and below; that any other skylight installed shall not be located within 25 ft. of the westerly gable wall; that all permits required shall be obtained within nine months and the work involved thereby shall be completed within eighteen months from the date of this action.

AREA FIXED.

(1356-27-BZ)

The chairman presented and read a communication from Alfred J. Boulton, requesting the board to fix an area deemed affected and within which to obtain consents for the erection and maintenance of a public garage; premises 119-133 East 22nd street, Borough of Brooklyn.

The following area was approved by the board:

Both sides of East 22nd street, from Beverly road to a point 100 ft. north of Duryea place; both sides of Duryea place from Flatbush avenue to East 22nd street; also the properties at rear for a distance of 50 ft. on either side of side lot lines of the premises in question.

Adjourned 2.15 p. m.

WILLIAM J. O'GORMAN, *Secretary*.

THE RESOLUTION—

(887-27-A)

WHEREAS, Springsteen & Goldhammer, for 110 West 42nd Street Corp., owner, filed, August 4, 1927, a petition for a variation from the requirements of the labor law, as cited in a decision of the superintendent of buildings, affecting premises 1 West 52nd street, Borough of Manhattan; and

WHEREAS, the decision of the superintendent of buildings, dated July 19, 1927 (N. B. 364-1926), reads:

"10. Windows should be fireproof windows, as per Sec. 264-7 of Labor Law and Rule 503 of Industrial Code.";

and

WHEREAS, the building is fireproof, five stories in height, 75 ft. by 100 ft., irregular, in area; OCCUPIED: 1st story, stores; upper stories, offices, showrooms and tenant factories, 15 persons per story; EQUIPPED with a sprinkler system; EXITS: two interior fireproof stairways, extending from the first story to roof, enclosed in fireproof partitions with fireproof doors at openings; and

WHEREAS, there are openings on the first and second stories in the street walls of the building, glazed with plate glass, the maximum area of the glass on the first story being 9 ft. by 7 ft. 10 in., and on the second story being 5 ft. 9 in. by 5 ft. 3 in.; and

WHEREAS, petitioner contends that a strict compliance with the labor law as to the area of the glass would destroy the intended use of the two lower stories and would, also, detract from the architectural effect of the building.

Resolved, that the board of standards and appeals does hereby make a variation in the requirements of the labor law, and that the petition be and it hereby is granted, only so far as it affects the windows on the first two stories, street front, on condition that all openings shall be equipped

with approved metal frames and sash, glazed with ¼ in. polished plate glass, and that the requirements of the labor law shall be complied with in all other respects.

775-27-S.

PETITIONER—Julia Vogel, owner.

SUBJECT—Variation of the labor law as cited in order of the fire commissioner.

PREMISES AFFECTED—226-228 East 37th street, Manhattan.

APPEARANCES—

For Petitioner: Samuel Rosenblum and J. G. McCarthy.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition denied.

THE VOTE TO GRANT—

THE RESOLUTION—

(775-27-S)

WHEREAS, Julia Vogel, owner, filed, July 5, 1927, a petition for a variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 226-228 East 37th street, Borough of Manhattan; and

WHEREAS, the order of the fire commissioner, dated May 9, 1927 (Order No. 19857-LD), reads:

"1. Enclose both interior stairways at north and south sides of building, serving as a required means of exit, and the landings, platforms and passageways connecting therewith on all sides with partitions of fire resisting material extending continuously from the cellar to 3 feet above the roof, constructed as per Sec. 271 of the Labor Law or carry out a proper alternative method of complying with the requirements of Sec. 271 of the Labor Law.

"2. Extend the interior stairway at the south side of building to the roof, as per Sec. 271 of the Labor Law.";

and

WHEREAS, the building is non-fireproof, six stories in height, 40 ft. by 99 ft. 4½ in., irregular, in area; OCCUPIED by one concern for the manufacture of dining room and other solid wood furniture: 1st story, 1 person; 2nd story, 4 persons; 3rd story, 2 persons; 4th story, 5 persons; 5th story, 6 persons; 6th story, 7 persons; occupancy to be limited to 10 persons per story; EQUIPPED with a fire alarm signal system; EXITS: two interior wooden stairways, the northerly one extending from the first story to roof, and the southerly stairway extending from the first to the top story, enclosed in metal-covered wood partitions with metal-covered wood doors at openings; a fire escape on the front of the building, having unprotected openings along the course thereof, extending from the top story balcony to the second story balcony, with EGRESS from the termination of the fire escape by means of drop ladder in guides to street; ROOFS of adjoining buildings: to east, two stories lower; to west, 1 ft. higher; and

WHEREAS, petitioner contends that there is a horizontal exit leading to the building to the west (under same occupancy and ownership) upon every floor except the grade floor; that these exits are protected by fireproof sliding doors and in view of the limited occupancy requests the acceptance of the existing means of egress.

Resolved, that the order of the fire commissioner be and it hereby is affirmed, and that the petition be and it hereby is denied.

871-27-S.

PETITIONER—Otto Strack, for 216 East 45th Street Realty Corp., owner.

THE RESOLUTION—

(871-27-S)

WHEREAS, Otto Strack, for 216 East 45th Street Realty Corp., owner, filed, August 1, 1927, a petition for a variation from the requirements of the labor law, as cited in a decision of the superintendent of buildings, affecting premises 216-226 East 45th street, Borough of Manhattan; and

WHEREAS, the decision of the superintendent of buildings, dated April 22, 1927 (Application No. 188-1927), reads:

"Objection No. 9:

"Windows must comply with Secs. 262-264 Labor Law and rule 503 Industrial Code. All windows including 1st floor show windows and 2nd story windows should have panes not more than 720 sq. inches and not over 48" in any dimension.";

and

WHEREAS, the building is fireproof, 17 stories in height, 128 ft. by 100 ft. in area at first story and 128 ft. by 90 ft. in area above; OCCUPIED: 1st and 2nd stories, stores and showrooms, 30 persons on each story; upper stories, printers and allied trades, 50 persons per story; EQUIPPED with a sprinkler system; EXITS: two interior fireproof stairways, extending from the first story to roof, enclosed in fireproof partitions with fireproof doors at openings; and

WHEREAS, there are openings on the first and second stories in the street walls of the building, glazed with plate glass, the maximum area of the glass on the first story being 90 in. by 104 in., and on the second story being 52 in. by 80 in.; and

WHEREAS, petitioner contends that a strict compliance with the labor law as to the area of the glass would destroy the intended use of the two lower stories and would, also, detract from the architectural appearance of the building.

Resolved, that the board of standards and appeals does hereby make a variation in the requirements of the labor law, and that the petition be and it hereby is granted, only so far as it affects the windows on the two lower stories, street front, on condition that the openings shall be equipped with approved metal frames and sash, glazed with $\frac{1}{4}$ in. polished plate glass, and that the requirements of the labor law shall be complied with in all other respects.

THE RESOLUTION—

(874-27-S)

WHEREAS, Schwartz & Gross, for Sil-Sil Realty Corp., owner, filed, August 1, 1927, a petition for a variation from the requirements of the labor law, as cited in a decision of the superintendent of buildings, affecting premises 537 Eighth avenue and 300 West 37th street, Borough of Manhattan; and

WHEREAS, the decision of the superintendent of buildings, dated July 28, 1927 (N. B. 65-1927), reads:

"11. Lights exceeding 720 square inches in area are unlawful. Section 264, subdivision 7c Labor Law.";

and

WHEREAS, the building is fireproof, six stories in height, having a frontage of 24 ft. 9 in. on Eighth avenue and 100 ft. on West 37th street; OCCUPIED: 1st story, stores; upper stories, offices, showrooms and tenant factories, 30 persons per story; EQUIPPED with a sprinkler system; EXITS: two interior fireproof stairways, extending from the first story to roof, enclosed in fireproof partitions with fireproof doors at openings; and

WHEREAS, there are openings on the first, second and third stories in both street walls of the building provided with part stationary and part pivoted windows glazed with $\frac{1}{4}$ in. plate glass; the maximum area of the glass on the first story being 9 ft. 6 in. by 7 ft. 8 in., and the second and third stories being 8 ft. by 5 ft.; and

WHEREAS, petitioner contends that a strict compliance with the labor law as to the windows would detract from the architectural appearance of the building and would materially affect the use of the three lower stories.

Resolved, that the board of standards and appeals does hereby make a variation in the requirements of the labor law, and that the petition be and it hereby is granted, only so far as it affects the windows on the three lower stories, street front, on condition that the openings shall be equipped with approved metal frames and sash, glazed with $\frac{1}{4}$ in. polished plate glass, and that the requirements of the labor law shall be complied with in all other respects.

THE RESOLUTION—

(953-27-S)

WHEREAS, John J. Gilmartin, for Gardner W. Millet, et al., owners, filed, August 26, 1927, a petition for a variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 1 East 28th street and 251 Fifth avenue, Borough of Manhattan; and

WHEREAS, the order of the fire commissioner, dated October 2, 1926 (Order No. 1726-LF), reads:

"1. Install an adequate interior electric fire alarm system in accordance with the enclosed approved layout and the rules of the Board of Standards and Appeals.";

and

WHEREAS, the building is fireproof, seven stories in height,

MINUTES

125 ft. by 25 ft. and 98 ft. 9 in., irregular in depth; OCCUPIED: 1st story, stores; 2nd story, showrooms, 11 persons; 3rd story, manufacture of uniforms, 16 persons; 4th story, showrooms, 21 persons; 5th story, vacant; 6th story, showrooms, 9 persons; 7th story, manufacture of dresses, 17 persons; EQUIPPED with a sprinkler system; EXITS: an interior fireproof stairway, extending from the first story to top story, enclosed in fireproof partitions with fireproof doors at openings; a horizontal exit at rear east on each story above the first story connecting with exterior stairway on the rear of adjoining building at east; a horizontal exit on each story, except the top story connecting with the adjoining building at north; ROOFS of adjoining buildings: 12 ft. lower at north; 25 ft. higher at east; and

WHEREAS, the petitioner claims that the entire building is not used for manufacturing but is used mainly for showroom and office purposes; furthermore, the petitioner contends that the building is equipped with an automatic sprinkler system which has been accepted by the Insurance Exchange; and

WHEREAS, the order is based on the omission of sprinklers in the top story, Fifth avenue front section, which is occupied for living apartments, the remainder of the building otherwise being equipped with a sprinkler system in accordance with the regulations in force.

Resolved, that the board of standards and appeals does hereby make a variation in the requirements of the labor law, and that the petition be and it hereby is granted so long as conditions as to occupancy and use remain substantially unchanged.

THE RESOLUTION—

(883-27-S)

WHEREAS, Croker National Fire Prevention Engineering Co., for Hall-Lary Cooke Realty Co., filed, August 4, 1927, a petition for a variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 346 Sixth avenue, Borough of Manhattan; and

WHEREAS, the order of the fire commissioner, dated April 22, 1927 (Order No. 18578-LD), reads:

"1. Provide safe and unobstructed egress from the lower termination of the fire escape at rear of building by constructing a fireproof passageway with an unobstructed width of at least 3 feet throughout, leading to the street, adequately lighted at all times during working hours, or by means of providing access to an open area having communication with the street, as per Section 273 of the Labor Law."

and

WHEREAS, the building is fireproof, eight stories in height, 24 ft. 8 in. by 95 ft. in area at first story and 24 ft. 8 in. by 85 ft. in area above; OCCUPIED: 1st story, store, 15 persons; 2nd story, spooling thread, 6 persons; 3rd story, manufacturing duck clothing, 18 persons; 4th story, manufacture of dresses and pocketbooks, 14 persons; 5th story, manufacture of trimmings, 15 persons; 6th story, manufacture of dresses, 15 persons; 7th story, manufacture of

cloaks, 25 persons; 8th story, manufacture of trimmings, 20 persons; 113 persons above the first story; EQUIPPED with a fire alarm signal system; EXITS: an interior iron stairway, extending from the first story to roof, enclosed in 3-inch fireproof block partitions with fireproof doors at openings; a fire escape on the rear of the building, having fireproof openings along the course thereof, extending from the top story balcony (with gooseneck ladder to roof) to the second story balcony, with EGRESS from the termination of the fire escape by means of extension roofs of buildings to the south and thence through windows opening on same to street; ROOFS of adjoining buildings: to north, six stories lower; to south, five stories lower; and

WHEREAS, petitioner contends that in 1917 orders were issued by the fire department to bring the fire escape in question up to standard; that certain work was done and upon the filing of the consent of the owner of the building to the south as to egress through that building, the work was certified as completed by the bureau of buildings and the order dismissed by the fire department; petitioner contends further that the egress at the present time is afforded by two other buildings in addition to that provided at the time the order was dismissed; and

WHEREAS, a similar order was dismissed by the fire department on the recommendation of the building department as to its compliance.

Resolved, that the board of standards and appeals does hereby make a variation in the requirements of the labor law, and that the petition be and it hereby is granted, only so far as it affects the egress from the termination of the fire escape, on condition that the southerly or end rail of balcony fire escape at the second story shall be maintained opened with egress from the fire escape to the roof of the adjoining premises to the south, with egress from the roof of this adjoining extension to the south, through plain glass windows through the building to the street or by means of the next adjoining building to the south or by means of iron ladder to the fire escape at the rear to the premises on West 21st street, so long as the building is not increased in height or area, and that the use and occupancy shall remain substantially unchanged.

959-27-S.

PETITIONER—Croker Natl. Fire Prev. Eng. Co., for Michael C. Meseritz, owner.

SUBJECT—Variation of the labor law as cited in the order of the fire commissioner.

PREMISES AFFECTED—37-47 Bogart street, Brooklyn.

APPEARANCES—

For Petitioner: Herman E. Horwood.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Commissioners Connell, Holland and Guilfoyle and Deputy Chief Martin.....	5
Negative	0
Absent	0

THE RESOLUTION—

(959-27-S)

WHEREAS, Croker National Fire Prevention Engineering Co., for Michael C. Meseritz, owner, filed, August 29, 1927, a petition for a variation from the requirements of the labor law, as cited in orders of the fire commissioner, affecting premises 37-47 Bogart street, Borough of Brooklyn; and

WHEREAS, the orders of the fire commissioner, dated April 30, 1927, and May 19, 1927, read:

"Order No. 19128-LD:

"1. Reconstruct the fire escape on the north side of the building so that same conforms to Section 273 of the Labor Law and Rule 8 Board of Standards and Appeals adopted February 23rd, 1927. Among the defects noted are the following:

MINUTES

"(a) No gooseneck ladder from balcony, 2nd story to roof.

"(b) Windows and doors on course not fireproof.

"2. Provide an additional means of exit from 2nd story of two story frame building, southwest corner of factory building, as per Rule 8, Board of Standards and Appeals adopted February 23rd, 1927."

and
"Order No. 21268-LF:

"1. Provide a fireproof vault with a self-closing, fireproof door to same, for the storage of sawdust in building No. 45. LL281."

and
"Order No. 21271-LD:

"1. Arrange wire mesh screens and metal bars on windows on front, east side, 1st and 2nd stories, south side 2nd story, north side 1st story, so as to be readily movable or removable from both sides in such a manner as to afford the free and unobstructed use of such windows for purposes of egress, as per Section 272 of the Labor Law."

and
WHEREAS, the two buildings are of frame and non-fireproof construction, one and two stories in height, 85 ft. 9 in. by 98 ft. and 45 ft. by 25 ft. in area; OCCUPIED—37-43 Bogart street: 1st story, fur dressing, 60 persons; 2nd story, fur dressing, 36 persons; 45-47 Bogart street: 1st story, storage; 2nd story, vacant; 37-43 Bogart street is EQUIPPED with a fire alarm signal system; EXITS: an open interior wooden stairway; an enclosed interior iron stairway, extending from the first story to second story, enclosed in brick walls with fireproof doors at openings; a fire escape on the north side of the building, having fireproof openings at first story and non-fireproof openings at second story along the course thereof, extending from the first story to the second story, with EGRESS from the termination of the fire escape through open yard to the street; ROOFS of adjoining buildings: 12 ft. higher at south; and

WHEREAS, the petitioner contends, as to Order No. 19128-LD, items 1 and 2, that there is no safe means of egress from the roof; that it is impossible to provide a gooseneck ladder to roof without altering the entire platform of second story fire escape due to its size; that the two windows on the course of the fire escapes at first story are fireproof pivoted windows; that item 2 affects an isolated portion of the second story only 16 ft. by 31 ft. 6 in. in area, used

as a locker room for clothing and has no occupancy, also, two watchmen are on duty at all times; as to Order No. 21268-LF, item 1, the petitioner contends that the order should not apply as the entire fire story of the building has been used during the past forty years for the storage of sawdust under permits; the second story is vacant; as to Order No. 21271-LD, item 1, the petitioner contends that sixteen windows have been screened or barred as a protection from burglars due to the handling of expensive furs, two of the windows are at second story, south side, and fourteen windows are at first story, north and east sides, and in each case there are adequate exits near these windows, also, as many as four and five doorways leading from the rooms in which the barred windows are located.

Resolved, that the board of standards and appeals does hereby *make a variation* in the requirements of the labor law, and that the petition be and it hereby is *granted*, as to Order No. 19128-LD, only so far as it affects subdivision "B" of item No. 1, and as to item No. 2, *on condition* that there shall be no manufacturing of any nature or description maintained in the locker-room structure, rear, southwest corner of premises; as to Order No. 21268-LF, item No. 1, *on condition* that the sawdust shall be maintained in bags stored on the first floor of the building, No. 45 Bogart street, which is isolated from the rest of the plant, and that there shall be no manufacturing of any nature or description maintained in building No. 45 Bogart street, and as to Order No. 21271-LD, item 1, only so far as it affects the first story on the northerly section of main building, *on condition* that the two horizontal exits shall be maintained in addition to the main exit to interior stair hall at the front of the building, and that these orders are all modified only as long as conditions as to occupancy and use remain substantially unchanged.

APPLIANCE SUBMITTED FOR APPROVAL

957-27-SA

PETITIONER—Arthur B. Goodspeed, for Goodspeed Engineering Corp.

SUBJECT—Approval of Goodspeed Automatic Oil Burner.

APPEARANCES—

For Petitioner: Arthur B. Goodspeed.

ACTION OF BOARD—Petition placed on reserve calendar pending installation for inspection by committee of the board.

Adjourned 4.00 p. m.

ANNUAL REPORT

CITY OF NEW YORK BOARD OF STANDARDS AND APPEALS

WILLIAM E. WALSH, CHAIRMAN
MUNICIPAL BUILDING

HON. JAMES J. WALKER,

Mayor, New York City.

Sir—I have the honor to submit for your information the Twelfth Annual Report of the Board of Standards and Appeals, for the year ending December 31, 1927.

In submitting same I wish to call your attention to the fact that up to and including December 31, 1927, there were 2,391 cases docketed, of which 1,722 were disposed of. As the average number of cases disposed of by the Board for the past ten years is 1,754.5 per year, the showing of the Board for the year 1927 compares very favorably with this average and surpasses each of the total dispositions for the years 1916, 1917, 1919, 1920, 1921, 1923 and 1925, and has been outdone only in the years 1918, 1922, 1924 and 1926.

The year 1918, when 3,056 dispositions are recorded, should not be taken as a criterion, for in that year resolutions were adopted by the Board, for withdrawals and dismissals, in blocks of 200 or more at a time in its endeavor to dispose of the 1,232 cases it inherited from a preceding administration.

There were 114 meetings held by the Board last year as compared to 103 for the year before and 45 inspections made as compared to 47 in 1926.

January 16, 1928.

ANNUAL REPORT

The earnest efforts of the Board to keep the dispositions apace with the great number of cases filed is fully demonstrated by the statistical report below which, while it shows an increase of 210 more cases left pending than there were the year before, it also shows that 210 more cases were filed in 1927 than in 1926.

It is worthy of note, in reviewing the Board's activities during the past year, that hearings before this Board have developed into trials, involving the taking of voluminous testimony and participated in by outstanding members of the American Bar, with resulting litigation frequently carried to the Court of Appeals.

Until recently, the attitude of the Courts was that this Board, consisting of practical men, technicians in their respective professions, was clothed by the law with wide discretion, and, where that discretion was not manifestly abused, the decision of the Board should remain undisturbed by the Courts.

Opinions by the Court of Appeals, handed down during the past year, have been interpreted by the lawyers to mean that the Board must show what in its opinion constitutes hardship, when relief is granted on that ground, and on what facts and evidence presented to it, the Board bases its opinion, they also feel it incumbent on themselves to produce evidence as in civil procedure.

All this has a tendency to make the practice before this Board legalistic instead of practical, and to make property owners feel they should employ counsel, rather than apply to the Board in person for practical relief.

In this way the application of the Zoning Law has been made more complex and long drawn out. The Board is now perforce compelled to listen to long legal arguments and to the examination and cross-examination of witnesses, in substitution for the practical methods heretofore in use, with the result that the hearing of cases occupies much more time and in the same given time fewer cases can be disposed of than formerly. However, the Board's creditable record for the year 1927 is amply shown in the statistical report which follows:

WILLIAM E. WALSH, *Chairman.*

RULES

FIRE RETARDING RULES

Adopted by the Board of Standards and Appeals August 30, 1927; Amended November 1, 1917, and Feb. 3, 1922.

Rule 1. Fire Retarding Materials for Garages, Motor Vehicle Repair Shops and Oil Selling Stations. In garages, motor vehicle repair shops and all selling stations any material or form of construction shall be deemed fire-retarding within the meaning of §73, subdivision 3, of the building code, that resists the action of flame and heat when subjected to a continuous fire for one hour at an average temperature of seventeen hundred (1700) degrees Fahrenheit without the passage of flame, and with a maximum temperature rise to four hundred (400) degrees Fahrenheit on the side away from the fire. The point at which the temperature of transmitted heat is measured shall be protected from external air and weather conditions.

When the test specimen is in the form of partition construction, the area under test shall be not less than one hundred (100) square feet and least dimension shall be not less than nine (9) feet. When in the form of floor construction, the area under test shall be not less than two hundred (200) square feet and the least dimension shall be not less than fourteen (14) feet.

During the fire, the floor construction shall support the live load for which it is designed, and after the fire shall safely sustain twice the designed live load with a maximum deflection of not more than one two-hundredth ($1/200$) part of the span.

Rule 2. Wood Joisted Floor Construction. Wood joisted floor construction shall be accepted as fire-retarding construction in non-fireproof buildings used as garages, motor vehicle repair shops or oil selling stations when the beams are protected on the upper and under sides with the fire-retarding materials specified in rules for floor and ceiling coverings.

Rule 3. Floor Covering. Any one of the following forms of construction shall be accepted as fire-retarding for the covering of the upper sides of wood floor beams in joisted floor construction in non-fireproof buildings used as garages, motor vehicle repair shops or oil selling stations

(a) Seven-eighths ($7/8$) inch wood underflooring protected with a membrane of two-ply waterproofing covered with not less than two and one-half ($2\frac{1}{2}$) inches of 1:2½:5 concrete or better, reinforced with not less than one-fourth ($1/4$) of one (1) per cent of steel mesh.

(b) Two and one-half ($2\frac{1}{2}$) inches of 1:2:4 concrete applied directly to the top of the joists, with or without temporary support, reinforced with not less than one-fourth of one per cent steel rods, mesh or steel lath, and having the tops of the joists coated with approved waterproof paint or protected by tar paper on the top and on the sides for a distance of three inches from the top. (Amendment, Nov. 1, 1917.)

Rule 4. Ceiling Covering. Any one of the following forms of construction shall be accepted as fire-retarding for the covering of the undersides of wood floor beams in joisted floor construction in non-fireproof buildings used as garages, motor vehicle repair shops or oil selling stations:

(a) One-half ($1/2$) inch plaster boards, or three-eighths ($3/8$) inch gypsum wall boards weighing not less than 16 pounds per square yard with pointed joints covered with No. 26 U. S. gauge sheet metal with one (1) inch lapped seams nailed to the wood beams when spaced not more than sixteen (16) inches on centers, or nailed to furring strips when the floor beams are spaced more than sixteen (16) inches on centers;

(b) Two thicknesses of one-quarter ($1/4$) inch asbestos board laid with tight staggered joints and nailed to the beams, when spaced not more than sixteen (16) inches on centers, or nailed to furring

strips when the floor beams are more than sixteen (16) inches on centers.

(c) Metal lath weighing not less than three pounds per square yard, attached to turring strips and plastered with Portland cement mortar at least three-quarters ($3/4$) inch thick.

Rule 5. Attachment to Ceiling. Fire-retarding ceilings in non-fireproof buildings used as garages, motor vehicle repair shops or oil selling stations shall be attached to wood floor beams and girders in such manner as to maintain an air space between the wood beams, and all wood beams shall be seasoned before applying the protective coat.

Rule 6. Openings in Fire-Retarding Floors. Pipes or conduits which pass through floors shall be fitted with metal thimbles and made watertight for a height of three (3) inches above the floor.

Rule 7. Columns. All structural posts and columns in non-fireproof buildings required to be fire-retarded shall be protected with the fire-retarding materials specified for ceiling coverings in these rules, or with any of the materials accepted in fireproof construction; except that an air space shall not be required around steel or cast iron columns.

Where necessary for protection against mechanical injury, the fire-retarding protection on columns shall be jacketed to a height of five (5) feet from the ground with No. 4 U. S. gauge metal.

Rule 8. Girders. All girders in non-fireproof buildings required to be fire-retarded shall be protected with the fire-retarding materials specified for ceiling coverings in these rules, or with any of the materials acceptable in fireproof construction; except that an air space need not be provided around steel girders.

Rule 9. Shaft Enclosures. Existing stairways and vertical shafts in non-fireproof business buildings hereafter converted to be used as garages, motor vehicle repair shops or oil selling stations shall be enclosed in fire-retarding partitions continued through the non-fireproof floor construction, and when unframed wood stud partitions are used, the space between the floor beams shall be fire-stopped with incombustible materials. All openings in such partitions shall be protected with accepted metal-covered fire doors or windows. Wherever necessary for protection against mechanical injury, the partition shall be jacketed to a height of five (5) feet on the garage side with No. 4 U. S. gauge metal. Any one of the following forms of partitions shall be accepted for the enclosure:

(a) Two by four inch wood studs, spaced not more than sixteen (16) inches on centers, covered both sides with metal lath weighing not less than three pounds per square yard, attached to furring strips and plastered with Portland cement mortar at least three-quarters ($3/4$) of an inch thick;

(b) Two by four inch wood studs placed not more than sixteen (16) inches on centers, covered both sides with seven-eighths ($7/8$) inch wood sheathing, one-half ($1/2$) inch plaster boards with pointed joints and No. 26 U. S. gauge sheet metal with one-inch lapped seams;

(c) Two by four inch wood studs spaced not more than sixteen (16) inches on centers, covered both sides with seven-eighths ($7/8$) inch wood sheathing, two thicknesses of one-quarter ($1/4$) inch asbestos boards laid with tight staggered joints and jacketed with No. 16 U. S. gauge metal on the garage side to a height of five (5) feet.

(d) Two by four inch wood studs spaced not more than sixteen (16) inches on centers, filled in solidly between the studs with four inches of approved fireproof materials and covered on both sides with No. 26 U. S. gauge metal;

(e) Existing wood stud, lath and plaster partitions covered on the garage side with No. 26 U. S. gauge sheet metal with one-inch lapped seams.

RULES

SMOKING IN FACTORIES.

Adopted by the Board of Standards and Appeals,
August 13, 1918.

RULE 1. PERMIT.

(a) **Prohibition.** No person shall smoke, or carry a lighted cigar or cigarette in any factory as defined in Article 1, Section 2, of the State Labor Law, nor in any portion of a factory, within the City of New York, except in such protected portions or special classes of occupancies as are specified in Rule 2 of these rules, and then only after the issuance of a permit by the fire commissioner.

It shall be the joint and several duty of the owner and of the lessee or lessees of the building containing such factory or factories to cause to be posted in each and every entrance hall, stairhall or room throughout the building, as well as in every elevator-car, in English, and also in such other language or languages as the fire commissioner shall direct, a notice of such prohibition, and the penalty for its violation.

(b) **Application.** Application for such permit shall be made only by the owner of the building on suitable blank forms to be furnished by the fire commissioner.

(c) **Time Limit.** Such permit shall be for a definite period, not exceeding one year, and shall not be renewed upon expiration until a reinspection of the premises for which it is issued has been made for the purpose of determining whether existing conditions warrant a renewal.

(d) **Conditions.** The permit shall state the conditions under which, the hours between which, and the place or places in such factory where smoking may be permitted, and this permit shall be framed and kept posted in a conspicuous place in the factory.

(e) **Revocation.** Violation of any of the conditions specified in the permit, in addition to incurring such penalties as are prescribed by law, shall be full and sufficient cause for the revocation of such permit by the fire commissioner, and he shall not again issue a permit for the same premises until at least one year has elapsed.

RULE 2. PERMISSIBLE CASES.

Smoking may be permitted in:—

(a) Factories engaged in the manufacture of cigars, cigarettes, or smoking tobacco, when necessary for the efficient conduct of the business, provided that:

(1) No smoking other than that for sampling, testing and experimental purposes is carried on.

(2) Such smoking is conducted in a room provided especially for that purpose, separated from the rest of the building by fireproof or fire-resisting partitions, with all openings therein protected by self-closing fire doors, and, further, unless the building is of fireproof construction or equipped with an approved automatic sprinkler system, the floor and ceiling of such room shall be covered with fire-retarding material.

(3) Such chemical fire extinguishers as the fire commissioner may direct are installed.

(4) All waste paper and other inflammable waste materials are deposited in fireproof receptacles.

(b) Factories devoted entirely to one of the following occupancies:

Blacksmithing or horseshoeing;
Boiler making;
Brick, terra cotta or artificial stone works;
Forge shops;
Foundries;
Iron, steel, brass or copper works;
Machine shops;
Smelting;
Stone or monumental works;

provided that in any case:

(1) The building is not of wooden construction;

(2) Such chemical fire extinguishers as the fire commissioner may direct are installed;

(3) All waste paper and other inflammable waste materials are deposited in fireproof receptacles.

RULES

REPORTING STRUCTURAL ALTERATIONS, ADOPTED FEBRUARY 8, 1917, UNDER CAL. 352-16-S.

Resolved, That for the purpose of establishing uniform practice with regards to the reporting of structural alterations made under the requirements of the labor law, the following rule be and it is hereby adopted:

When plans have been filed with the proper superintendent of buildings and structural alterations have been made to comply with the requirements of the labor law relating to exits and fire protection, or with an order of the State

Labor Department relating to exits issued prior to October 1, 1916, or with an order of the fire commissioner issued subsequent to October 1, 1916, a report shall be made by the superintendent of buildings to the fire commissioner stating whether the work done complies with the order of the State Labor Department, with the order of the fire commissioner, or with the provisions of the State Labor Law, as the case may be.

CONCRETE RULES

USE OF HYDRATED LIME IN CONCRETE.

Adopted by the Board of Standards and Appeals, April 19, 1920, under Cal. No. 153-20-S.

The use of hydrated lime in all classes of concrete construction shall not be prohibited when used in accordance with the conditions hereinafter set forth.

The hydrated lime shall conform with the standard specifications for this material which have been adopted by the American Society for Testing Materials.

The maximum amount of hydrated lime which may be used shall conform with the following table, all weights given being the amount of lime which may be incorporated for each ninety-five pound bag of Portland cement.

1-1½-3 Mix, 4 pounds of hydrated lime per bag of cement.

1-2-4 Mix, 5 pounds of hydrated lime per bag of cement.

1-2½-5 Mix, 6 pounds of hydrated lime per bag of cement.

For hand mixed concrete, the hydrated lime and Portland cement shall be well mixed while dry.

Hydrated lime shall not be used in concrete which is to be deposited under water.

WARNING

Notice is hereby given to all petitioners, appellants and applicants, and to all lawyers, architects and engineers representing owners or lessees in proceedings before the board—

First, That if they do not appear in person or by representative at the hearing on their case, dismissal for lack of prosecution is likely to result.

Second, That due and ample notice of the date set for hearing is provided in the publication in this BULLETIN of the calendars of the board, each case being set down by Calendar Number and premises under the date of the hearing.

Third, That no plea of ignorance of the date of the hearing can be entertained in view of this publication and of the posting of the calendars on the bulletin board in the

offices of the board and of the further publication of the calendars in the daily press.

Fourth, That no one is entitled to written notice of the date for the hearing in his case, and that the plea of failure to receive such notice is no excuse for neglect to appear.

Fifth, That the business of the board is to dispose of all cases promptly, for the reason that the pendency of an appeal or petition ties the hands of the administrative official in enforcing his order; therefore, no appeal or petition will be allowed to be hung up by reason of failure of the appellant or petitioner to file necessary data, or by any other method of delay.

Sixth, That no appeal, application or petition will be accepted for filing unless, at the time of filing, all papers, plans and data required by law are supplied, as specified on the blank appeal, application or petition forms.

BOARD OF STANDARDS AND APPEALS

WILLIAM E. WALSH, Chairman

HENRY L. CONNELL

JAMES P. HOLLAND

JOHN GUILFOYLE

CHIEF JOHN KENLON

WILLIAM J. O'GORMAN, Secretary

EDWARD V. BARTON, Chief Clerk

OFFICE—Municipal Building, Rooms 1001 to 1015.

TELEPHONE—WORTH 0184.

OFFICE HOURS—9 a. m. to 5 p. m. Saturdays 9 a. m. to 12 noon.

All communications should be addressed to the chairman of the board.

CONTENTS

This issue of the Bulletin contains, in the order given—

Docket.

Call of Clerk's Calendar.

The Trial Calendar.

Notices in Building Zone Cases.

Minutes of Regular Meeting, January 17, 1928, at 10 a. m.

Minutes of Regular Meeting, January 17, 1928, at 2 p. m.

Revolving Doors, Rules.

Smoking in Factories, Rules.

Structural Alterations, Rules.

Appliances Approved.

Reserve Calendar.

Progress Report.

PUBLIC HEARINGS

Tuesdays, at 10 a. m. and 2 p. m.
Special meetings as published in this Bulletin.
Call of Clerk's Calendar, Tuesdays, at 2 p. m.
All hearings are held in Room 1013, Municipal Building, Manhattan.

HOURS FOR CONSULTATION

10 A. M. to 1 P. M.

Any person desiring to consult the chairman or the engineers, pertaining to the work of the board, will be seen only between the hours of ten in the morning and one in the afternoon—Saturdays excepted.

CALL OF CLERK'S CALENDAR

The Clerk's Calendar consists of applications under the Building Zone Resolution, and its object is to give interested property owners opportunity to file objections, if any, and will be called in Room 1013, Tuesday, January 24, 1928, at 2 o'clock. At this call each case is set for hearing on a definite day.

The next subsequent Call of the Calendar will be on Tuesday, January 31, 1928, at 2 o'clock.

The Clerk's Calendar is not to be confused with the calendar of cases that have been definitely set for hearing on fixed days.

NOTICE TO APPELLANTS AND PETITIONERS

No appeal, application or petition will be entertained in connection with which court proceedings are pending or in progress, nor accepted that are not filed within twenty days from the date of the action of the Administrative Official.

Any communication purporting to be an appeal, application or petition shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this board.

Upon receipt of any such communication the writer will be supplied with the official forms for presenting his appeal, application or petition, and if he fails to supply the data required thereon, within twenty days, his case may be dismissed for lack of prosecution.

At the time of filing an application, the appellant or petitioner shall forward a signed notice of appeal addressed to the administrative official (either superintendent of buildings or fire commissioner) and file with this board a duplicate of said notice.

Petitioners are advised that their plans must indicate the points of the compass so as to establish the true location and position of the property, the subject of the appeal.

Appeals, applications and petitions will be simplified and disposition of same expedited by conforming to these directions.

WILLIAM E. WALSH, Chairman,

THE RESOLUTION—

(849-27-A)

WHEREAS, Croker National Fire Prevention Engineering Co., for William H. Nicholls Co., Inc., owner, filed, July 26, 1927, an appeal from an order of the fire commissioner, affecting premises northeast corner of 126th street and 91st avenue, Richmond Hill, Borough of Queens; and

WHEREAS, the order of the fire commissioner, dated April 27, 1927 (Order No. 18849-F), reads:

"1. Install a standpipe system with risers 4" in diameter tested to withstand a pressure of 300 pounds per square inch, extending from cellar to roof, with necessary check valves and 2½" regulation Fire Dept. outlets on each story (including basements, cellars and roofs) placed within main stairway enclosure. Each outlet to be provided with sufficient feet of 2½" standard hose attached thereto."

and

WHEREAS, the building is non-fireproof (steel mill construction), one story (36 ft. to top of roof truss) in height, 88 ft. by 160 ft. (approximately 14,000 sq. ft.) in area; OCCUPIED as a machine shop for the manufacture of foundry machinery, 30 persons; and

WHEREAS, appellant contends that the materials used in the building are incombustible; that the building is open on all sides and that there are city fire hydrants in the immediate vicinity; and

WHEREAS, the order is predicated on the basis of the area of the building being in excess of 10,000 sq. ft.; the building being but one clerestory in height, of steel frame construction with steel window frames and sash glazed.

Resolved, that the order of the fire commissioner be and it hereby is modified, and the appeal be and it hereby is granted on condition that the building shall not be increased in height, area or dimension, and that such auxiliary fire extinguishing appliances, as shall be directed by the fire commissioner, shall be installed and distributed throughout the premises, and granted only as long as conditions as to occupancy and use remain substantially unchanged.

THE RESOLUTION—

(842-27-A)

WHEREAS, Gardiner Conroy, for Rugby Utica Corp., owner, filed, July 25, 1927, an appeal from a decision of the fire commissioner, affecting premises 823 Utica avenue, Borough of Brooklyn; and

WHEREAS, the decision of the fire commissioner, dated July 19, 1927 (re Plan No. 1580-1925), reads:

"1. Provide a fire pump and section tank as per Rule No. 16, 25, 28 and 38 in compliance with Chapter 5, Article 25, Section 524 of Code of Ordinances."

and

WHEREAS, the building is fireproof, one story, balcony and roof garden (40 ft.) in height, 109 ft. 4 in. by 100 ft., irregular (approximately 9,500 sq. ft.) in area; the store portion occupying approximately 1,800 sq. ft.; OCCUPIED as five stores on part of the Utica avenue front and the remainder of the building as a motion picture theatre; the capacity of the theatre being 964 seats and the roof garden being 720 seats; and

WHEREAS, appellant contends that the stores are separated from the theatre by a court and fireproof walls; that the theatre portion of the building is equipped with a 4-inch standpipe system with a 3,500-gallon capacity tank located 22 ft. above the roof; that the city main, to which the standpipe is connected, is fed two ways and requests the omission of the fire pump and suction tank; and

WHEREAS, the order, as issued by the fire department, refers only to that portion of the premises occupied by the theatre, the latter being fireproof throughout; and

WHEREAS, the statement of the Department of Water Supply, Gas and Electricity, on file, indicates that there is a street pressure at curb level of 40 pounds on the city water main; and

WHEREAS, the theatre, including the open air theatre roof occupancy, is equipped with a standpipe system complying with the rules in all respects except as to installation of fire pump and suction tank.

Resolved, that the decision of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that the building shall not be increased in height, area or dimension and shall be equipped with a standpipe system, complying with the rules in all respects, other than the installation of the fire pump and suction tank, said standpipe to be supplied from city main, which is fed two ways, and only as long as pressure on city main remains at not less than 40 pounds at the curb level.

460-27-A.

APPELLANT—W. C. McTarnahan, for Petroleum Heat & Power Co., of New York, owner.

SUBJECT—Application for reopening—extension of time in which to procure permits—re appeal from decision of fire commissioner.

PREMISES AFFECTED—490-518 Kingsland avenue, Brooklyn.

APPEARANCES—

For Appellant: G. H. Hallock.

ACTION OF BOARD—Appeal reopened and extension of time granted for 30 days to obtain permits.

THE RESOLUTION—

(460-27-A)

WHEREAS, W. C. McTarnahan, for Petroleum Heat and Power Co., Inc., of New York, owner, filed, April 28, 1927, an appeal from a decision of the fire commissioner, affecting premises 490-518 Kingsland avenue, Borough of Brooklyn; and

WHEREAS, the decision of the fire commissioner, dated April 21, 1927 (Alt. 938-27), reads:

"No. 3. Tanks must be buried 2' 0" below grade and encased in 12" of stone concrete.";

and

WHEREAS, the premises consist of a large, irregular, angular shape plot of ground, about 120,000 sq. ft. in area, bounded on the northeast side of Newtown Creek, with one-story existing buildings located remote from each other, three storage tanks of 2,000 barrels and 20,000 barrels capacities; OCCUPIED as a fuel oil storage plant; and

WHEREAS, the appellant proposes to install ten 20,000-gallon gasoline storage tanks above ground, each tank encased in concrete not less than 12 in. in thickness and located more than 100 ft. from any building; and

WHEREAS, the appellant claims that it is impracticable to bury the tanks due to the condition of the soil; and

WHEREAS, this appeal was granted by the board at its meeting, July 19, 1927, on certain conditions and appellant requests a modification of the time limit.

Resolved, that the decision of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that the proposed storage shall be limited to ten tanks, separated into two batteries of five tanks each; that all tanks are to be separately encased in stone concrete, the concrete to extend not less than 12 in. above the top of the tank; that the ends and sides shall be racked at an angle of not less than 60 degrees, the ends and sides to be carried not less than 2 ft. above the 12-in. concrete cover and this to be filled with not less than 2 ft. of clean, firm earth fill; that the entire premises are to be equipped with an approved liquid fire extinguishing medium, the controls and pumps for same to be enclosed in a fireproof structure located remote from the oil storage, and that all permits required shall be obtained within thirty days and any work involved thereby shall be completed within one year from the date of this action.

THE RESOLUTION—

(507-27-A)

WHEREAS, W. T. McTarnahan, for Ogden Goelet Estate, owner, filed, May 9, 1927, an appeal from a decision of the fire commissioner, affecting premises 416-432 East 47th street, Borough of Manhattan; and

WHEREAS, the decision of the fire commissioner, dated May 3, 1927 (Alt. No. 939-27), reads:

"1. Proposed installation of (3) 30,000 gallon gasoline tanks is contrary to resolutions of Board of Standards and Appeals under Calendar numbers 615-26-A and 549-24-A.";

and
WHEREAS, the premises consist of a large plot of ground, 225 ft. by 100 ft. 5 in., with an existing pump house and twelve 30,000-gallon storage tanks; OCCUPIED as a fuel oil storage plant; and

WHEREAS, the appellant proposes to install three 30,000-gallon gasoline storage tanks, each tank to be 10 ft. 6 in. in diameter by 48 ft. in length; and

WHEREAS, the appellant contends that the tanks will be buried, entirely encased in 12 in. of concrete and located not less than 10 ft. from the property line or any other building; and

WHEREAS, it is proposed to bury the tanks below the grade of the property, which is above the sidewalk grade, located 38 ft. southerly from the building line; and

WHEREAS, this appeal was granted by the board at its meeting, July 19, 1927, on certain conditions, and appellant requests a modification of the time limit imposed.

Resolved, that the decision of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that the storage shall be limited to three tanks, the individual capacity not to exceed 30,000 gallons to each tank, and shall be solidly encased in stone concrete not less than 12 in. in thickness, subdivided walls between tanks shall be not less than 12 in. and shall be located not less than 38 ft. from the building line and not less than 25 ft. from the adjoining property line, the spaces within these dimensions to be maintained open and unoccupied; that the outside concrete walls shall be carried not less than 3 ft. above the top of the tanks and shall be filled with earth fill, and that all permits required shall be obtained within thirty days and any work involved thereby shall be completed within one year from the date of this action.

THE RESOLUTION—

(844-27-BZ)

WHEREAS, Charles Kreymborg and Son, for Emil Mosbacher, owner, filed, July 25, 1927, an application, under

the building zone resolution, to permit the extension, from a business district into a residence district, of a proposed business building (stores); premises 3120-3130 Decatur avenue and 361-363 East 204th street, northeast corner, Borough of The Bronx; and

WHEREAS, a public hearing was held on this application by the board of standards and appeals, at its regular meeting, January 17, 1928, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that East 204th street is in a business district and Decatur avenue is in a residence district; and

WHEREAS, the decision of the superintendent of buildings, rendered July 23, 1927 (N. B. 1373-27), reads:

"1. Erection of proposed business building partly in business district and partly in residence district is contrary to provisions of Building Zone Resolution."

and
WHEREAS, the proposed building is to be of non-fireproof construction, one story in height, with a frontage of 52 ft. 3¾ in. on East 204th street and 105 ft. 10¾ in. on Decatur avenue; to be occupied as a business building (stores); and

WHEREAS, the board deemed that applicant substantiated his basis of appeal brought under section 7, subdivision b, of the building zone resolution, inasmuch as the greater portion of the plot lies within the business use district, only 6 ft. of the premises being within the residence use district.

Resolved, that the board of standards and appeals does hereby make a variation in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is granted, for that portion of the premises lying within the residence use district, only so far as it affects the first story, street grade, on condition that the remainder of the premises within the residence use district shall be limited to conforming dwelling occupancy; that the business use within the residence use area shall be limited and restricted to the conduct of an executive office or business; that there shall be no merchandise of any nature or description sold on that portion of the premises within the residence use area; that there shall be no sign erected or any advertising displayed within the residence use area of the plot; that the northerly gable wall shall be finished with light-colored brick or painted a light color; that all permits required shall be obtained within ninety days and all work completed within six months from the date of this action.

THE RESOLUTION—

(1267-27-BZ)

WHEREAS, David Porter, for Forest Hills Masonic Guild, Inc., owner, filed, December 2, 1927, an application, under the building zone resolution, to permit in a residence district, extending from a business district, the alteration and extension in height of a fraternity lodge building with stores and offices on the first story; premises northeast corner of Queens boulevard and 71st avenue, Borough of Queens; and

WHEREAS, a public hearing was held on this application by the board of standards and appeals, at its regular meeting, January 17, 1928, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Queens boulevard is in a business district, Gown street (71st avenue) is in a residence district and Fife street (71st road) is in a residence district; and

WHEREAS, the decision of the superintendent of buildings, rendered August 15, 1927 (re Alt. 3692-1927), reads:

"10. The extension of a building extending partly (4 ft. 0 in.) into a residence district is prohibited by the Zone Law.";

and

WHEREAS, the existing building is of fireproof construction, a basement story in height, with a frontage of 54 ft. 6 in. and a depth of 109 ft. 10 in. and 96 ft. 8 in., irregular; occupied as a fraternity lodge building; it is proposed to erect two stories on the present foundation and basement story which was constructed in 1920 and occupied as a lodge room; the new first story is to be used for stores and office purposes; the second story is for lodge room; the building is located mainly within a business district with a small triangular portion at the northeast corner extending about 4 ft. into a residence district; and

WHEREAS, the variation requested embraces a triangular gore approximately 4 ft. 6 in. by 4 ft. 6 in. at the rear of the 71st avenue front; and

WHEREAS, the board deemed that applicant is properly before the board under section 7b and is entitled to relief under section 21.

Resolved, that the board of standards and appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted*, only as to the first story, *on condition* that the facade of the building on both street fronts shall be constructed strictly in accordance with designs of records filed in this appeal; that there shall be no advertising of any nature or description displayed on that portion of the plot within the residence use area, and that the requirements of the zoning resolution shall be complied with in all other respects, and that all permits required shall be obtained within six months and any work involved shall be completed within one year from the date of this action.

1037-27-BZ.

APPLICANT—Daniel Campbell, Jr., for Francis J. Hurley, owner.

SUBJECT—Application (re decision of superintendent of buildings), under section 21 of the building zone resolution, to permit in an "F" area and residence district the erection and maintenance of a building less than fifteen (15) feet from the street line, and also to provide a side yard having its width less than required by the zone resolution.

MINUTES

PREMISES AFFECTED—148-49 Kalmia street and 46-46 156th street, Flushing, Borough of Queens.
APPEARANCES—

For Applicant: Daniel Campbell, Jr., Francis J. Hurley.

For Opposition: None.

ACTION OF BOARD—Application granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Negative 0

Absent: Chief Kenlon..... 1

THE RESOLUTION—

(1037-27-BZ)

WHEREAS, Daniel Campbell, Jr., for Francis J. Hurley, owner, filed, September 22, 1927, an application, under the building zone resolution, to permit in an "F" area and residence district the erection and maintenance of a building less than 15 ft. from the street line, and also to provide a side yard having its width less than required by the zone resolution; premises 148-49 Kalmia street and 46-46 156th street, Flushing, Borough of Queens; and

WHEREAS, a public hearing was held on this application by the board of standards and appeals, at its regular meeting, January 17, 1928, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the district maps accompanying the building zone resolution show that Kalmia street, 156th street (16th street) and also Jasmine street are in residence use and "F" area districts; and

WHEREAS, the decision of the superintendent of buildings, rendered September 2, 1927 (re N. B. 9776-1927), reads:

"Amendment disapproved as it is contrary to the Zone Law being in a residence "F" district.";
and

WHEREAS, the proposed building is to be of frame construction, two and one-half stories in height, with a frontage of 24 ft. and a depth of 58 ft.; to be occupied as a one-family dwelling within an "F" area and residence district; it is proposed to erect a two and one-half story frame dwelling on a corner lot having the easterly side yard 2 ft. in width instead of 5 ft. in width, and the building placed 10 ft. from the street line on Kalmia street and 12 ft. from the street line on 156th (16th) street instead of 15 ft. from the street lines as required by the zone resolution; and

WHEREAS, this property was in the same and single ownership prior to change in area district amended in 1926; and

WHEREAS, all of the adjoining houses on the same street to the north are constructed according to the "D" area requirements; and

WHEREAS, the abutting plot to the east on 16th street is in the same ownership; and

WHEREAS, the board deemed that strict compliance of the zoning resolution in this instance would be an unnecessary hardship.

Resolved, that the board of standards and appeals does hereby *make a variation* in the application of the area district regulations of the building zone resolution, and that the application be and it hereby is *granted on condition* that the area of the building shall be restricted to the dimensions of the structure as indicated on the plans filed in this appeal, the main building not to exceed an area of 24 ft. by 58 ft., set back from building and plot lines as indicated on plot diagram, and limited to a one-family private dwelling occupancy, and that all permits shall be obtained within six months and any work involved thereby shall be completed within one year from the date of this action.

THE RESOLUTION—

(886-27-S)

WHEREAS, Henry I. Oser, for 320 West 37th Street, Inc., owner, filed, August 4, 1927, a petition for a variation from the requirements of the labor law, as cited in a decision of the superintendent of buildings, affecting premises 320-324 West 37th street, Borough of Manhattan; and

WHEREAS, the order of the superintendent of buildings, dated August 1, 1927 (N. B. App. No. 95-1927), reads:

"1. All windows must be fireproof as required by section 264 of Labor Law and Rule 503 of the Industrial Code.";

and

WHEREAS, the building is fireproof, 15 stories in height, 75 ft. by 98 ft. 9 in. in area at first story and 75 ft. by 88 ft. 10 in. in area above; OCCUPIED: 1st story, stores and manufacturing, 90 persons; upper stories, offices, show rooms and tenant factories, 125 persons per story; EQUIPPED with a sprinkler system; EXITS: two interior fireproof stairways, extending from the first story to roof, enclosed in fireproof partitions with fireproof doors at openings; and

WHEREAS, there are openings in the street walls of the building on the first, second and third stories, glazed with plate glass, the maximum area of the glass on the first story being 150 in. by 108 in., and on the second and third stories being 71 in. by 80 in.; and

WHEREAS, petitioner contends that a strict compliance with the labor law as to the area of the glass would destroy the intended use of the three lower stories.

Resolved, that the board of standards and appeals does hereby make a variation in the requirements of the labor law, and that the petition be and it hereby is granted, only so far as it affects the windows on the lower three stories, street front, on condition that these openings shall be equipped with approved metal frames and sash, glazed with $\frac{1}{4}$ in. polished plate glass, and that the requirements of the labor law shall be complied with in all other respects.

THE RESOLUTION—

(852-27-S)

WHEREAS, Cross and Brown Co., for Jessie C. Owen, owner, filed, July 26, 1927, a petition for a variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 40-42 East 22nd street, Borough of Manhattan; and

WHEREAS, the order of the fire commissioner, dated June 9, 1927 (Order No. 22506-LD), reads:

"1. Provide a fireproof passageway, independent of any other exit, leading from the termination of the exterior screened stairway to the street as per Sec. 268 of the Labor Law."

and

WHEREAS, the building is fireproof, 12 stories in height, 46 ft. 9 in. by 91 ft. 3 in. in area; OCCUPIED as a tenant factory, not more than 30 persons on each story; EQUIPPED with a sprinkler system; EXITS: two interior fireproof stairways, the north stairway extending from first story to top story, the south stairway extending from the first story to roof, enclosed in fireproof partitions with fireproof doors at openings; an exterior screened stairway on the rear of the building, having fireproof openings along the course thereof, extending from the first story mezzanine floor to the roof, with EGRESS from the termination of the exterior stairway by means of fireproof passageway to the interior stairway, thence through entrance hall to street; ROOFS of adjoining buildings: seven stories lower at west; and

WHEREAS, the petitioner claims that the building in question was erected in 1909 under plans approved by the superintendent of buildings; that the occupancy has been the same up to the present time; furthermore, the petitioner contends that the order to do other work on the building is an undue hardship to the owner; and

WHEREAS, this building was erected under authority of permit issued by the bureau of buildings in 1909 and has been occupied continuously since as a factory and office building; and

WHEREAS, there are two interior stairways and one exterior screened stairway.

Resolved, that the board of standards and appeals does hereby make a variation in the requirements of the labor law, and that the petition be and it hereby is granted, only so far as it affects egress from the termination of the exterior screened stairs through fireproof passageway, first story, to the public hall at the front of the building, on condition that the occupancy shall be limited to the legal capacity of the southerly interior stairs at the center of the building with allowance for the sprinkler system, and that this variation is granted so long as conditions as to occupancy and use otherwise remain unchanged.

147-26-S.

PETITIONER—Charles H. May, for Jacob May Realty Co., owner.

SUBJECT—Application for reopening—modification of resolution—re variation of labor law as cited in order of fire commissioner.

PREMISES AFFECTED—323 Kosciusko st., Brooklyn.

APPEARANCES—

For Petitioner: Charles H. May.

For Administration: Inspector Maher of fire department.

THE RESOLUTION—

(147-26-S)

WHEREAS, Charles H. May, for Jacob May Realty Co., owner, filed, February 19, 1926, a petition for a variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 323 Kosciusko street, Borough of Brooklyn; and

WHEREAS, the order of the fire commissioner, dated September 12, 1924 (Order No. 64630-LD), reads:

"1. Provide an interior stairway at the north side of building to serve as a required means of exit, extending from 1st story to the roof, with a safe passageway to the street, or carry out a proper alternative method of complying with the requirements of Section 271 of the Labor Law. SEE NOTE.

"2. Arrange the fire escape on the south side of building and the openings leading thereto and the windows opening on the course thereof so that same are in compliance with the provisions of Sections 273 and 274 of the Labor Law and the rules of the Board of Standards and Appeals, or carry out a proper alternative method of complying with the requirements of Section 271 of the Labor Law. SEE NOTE.

"NOTE: Among the defects noted are the following: Windows on course not fireproof, self-closing. Doors on course not fireproof, self-closing. Rusted, required two coats of paint."

and

WHEREAS, the building is non-fireproof, three stories (30 ft.) in height, 25 ft. by 100 ft. in area; OCCUPIED: 1st story, box manufacture, 12 persons; 2nd story, electro plater, 5 persons; 3rd story, glass beveler, shoe manufacture, 7 persons; EQUIPPED with a fire alarm signal system; EXITS: a substandard fire escape on the front of the building; and

WHEREAS, the fire commissioner has requested an early hearing of this petition; and

WHEREAS, the petitioner proposes to use the existing openings in the rear wall leading to 850 DeKalb avenue in lieu of complying with Order No. 64630-LD; and

WHEREAS, this petition was granted by the board at its meeting, March 16, 1926, on certain conditions, and petitioner requested a modification of these conditions.

Resolved, that the board of standards and appeals does hereby make a variation in the requirements of the labor law, and that the petition be and it hereby is granted, as to item 1, on condition that a horizontal exit between the DeKalb avenue and Kosciusko street sections shall be provided on each floor; that the opening shall be equipped with self-closing, fireproof door; that an outside fire escape shall be provided on the westerly gable wall of the Kosciusko street section of the premises terminating on iron platform and runway supported by brackets over the roof of the first story extension with platform at the front of this one-story building on Kosciusko street; a counterbalanced stairs shall

MINUTES

be provided from a balcony at roof level of the first story extension to street; the floor of the balcony over roof extension shall be of solid iron construction, and *granted*, as to item 2, only so far as it affects the windows on the course of the fire escape, *on condition* that this section of the building shall be not increased above the third story structure, and that an exterior iron stairs with solid risers, treads and platforms shall be maintained structurally safe and painted, and granted only so long as the use remain substantially unchanged and that the occupancy shall be limited to twelve persons above the first story.

RULES

EXIT RULES—REVOLVING DOORS

Adopted, under Cal. No. 842-17-S, Sept. 6, 1917; amended, under Cal. No. 41-19-S, Feb. 11, 1919; under Cal. No. 412-20-S, July 8, 1920, and under Cal. No. 41-19-S, Jan. 8, 1924.

Rule 1. Classification of Revolving Doors. For the purpose of these rules revolving doors shall be classified as follows:

(a) **Type A.** "Automatic Collapsible" in which the individual wings are maintained in the normal revolving position, but which doors are so designed and constructed that in the event of excessive pressure being exerted on the wings, the braces or other devices which hold the wings in their normal position shall be disconnected, thereby permitting easy egress through the vestibule at least equivalent to that provided by a pair of swinging doors having the same width as the vestibule opening.

No revolving doors shall be included in this classification if the pressure necessary to collapse any wing exceeds one hundred and fifty (150) pounds when exerted at a point three (3) inches from the outer edge of the wing, and three (3) feet six (6) inches above the floor, but shall be classified under type B.

(b) **Type B.** "Rigid Brace" in which the individual wings are maintained in the normal revolving position by rigid braces or similar devices, but which doors are so designed and constructed that the braces or other devices which hold the wings in their normal position may be manually released by simple mechanical means, thereby permitting the individual wings to be manually collapsed and so arranged as to permit free egress through the vestibule.

Rule 2. Revolving Doors. Prohibitions. Revolving doors shall be prohibited in exit doorways from assembly halls, asylums, auditoriums, churches, dance halls, hospitals, motion picture theatres, schools, theatres, or from any room or space within a building where more than three hundred (300) persons congregate for purposes of amusement, instruction or worship; except that the main entrance doorway to a hospital or sanitarium may be equipped with either type A or B revolving doors when supplemented by swinging doors not less than three (3) feet eight (8) inches wide at this or other paths of egress.

Rule 3. Revolving Doors—Department Stores. Type A revolving doors hereafter installed shall be accepted in exit doorways from department stores provided doorways aggregating at least fifty (50) per cent of the legal re-

quired width, equipped with swinging doors, are installed and one or more such outwardly swinging doors are located immediately adjacent to each revolving door. Such swinging doors need not be equipped with handles on the outside, and shall have a minimum clear width of three (3) feet.

Rule 4. Existing Revolving Doors. Except where otherwise prohibited existing Type A revolving doors may be retained as required means of exit in doorways from buildings.

Except where otherwise prohibited existing Type revolving doors may also be retained as required means of exit in buildings, when, in the opinion of the administrative official having jurisdiction, no dangerous exit condition exists. If, however, such dangerous exit condition is deemed by him to exist, they shall be either replaced by Type A revolving doors, or supplemented by at least one swinging door not less than three (3) feet wide located adjacent to the revolving door, as the administrative official may direct.

Rule 5. New Revolving Doors. In buildings other than assembly halls, asylums, auditoriums, churches, dance halls, department stores, hospitals, motion picture theatres, schools and theatres, coming under the exit provisions of the building code, doorways serving as required exits may hereafter be equipped with Type A revolving doors or with Type B revolving doors, provided such revolving doors not exceeding three in a unit, shall have an outward swinging door at least three (3) feet wide located immediately adjacent thereto.

Rule 6. Revolving Doors—Subway Entrances. Required exit doorways from buildings which serve in addition as a means of subway entrance and exit may be equipped with type A revolving doors, provided doorways of the legal required width equipped with swinging doors are also installed and one or more such outward swinging doors are located adjacent to each revolving door.

Rule 7. Saving Clause. But nothing in these rules shall prevent the installation on the exit doors from bank, trust company, jewelry store, or any store devoted to a single similar use, of a locking device which may be operated by electricity or other means from the interior of the building, to be used only in emergency.

RULES

SMOKING IN FACTORIES.

Adopted by the Board of Standards and Appeals,
August 13, 1918.

RULE 1. PERMIT.

(a) **Prohibition.** No person shall smoke, or carry a lighted cigar or cigarette in any factory as defined in Article 1, Section 2, of the State Labor Law, nor in any portion of a factory, within the City of New York, except in such protected portions or special classes of occupancies as are specified in Rule 2 of these rules, and then only after the issuance of a permit by the fire commissioner.

It shall be the joint and several duty of the owner and of the lessee or lessees of the building containing such factory or factories to cause to be posted in each and every entrance hall, stairhall or room throughout the building, as well as in every elevator-car, in English, and also in such other language or languages as the fire commissioner shall direct, a notice of such prohibition, and the penalty for its violation.

(b) **Application.** Application for such permit shall be made only by the owner of the building on suitable blank forms to be furnished by the fire commissioner.

(c) **Time Limit.** Such permit shall be for a definite period, not exceeding one year, and shall not be renewed upon expiration until a reinspection of the premises for which it is issued has been made for the purpose of determining whether existing conditions warrant a renewal.

(d) **Conditions.** The permit shall state the conditions under which, the hours between which, and the place or places in such factory where smoking may be permitted, and this permit shall be framed and kept posted in a conspicuous place in the factory.

(e) **Revocation.** Violation of any of the conditions specified in the permit, in addition to incurring such penalties as are prescribed by law, shall be full and sufficient cause for the revocation of such permit by the fire commissioner, and he shall not again issue a permit for the same premises until at least one year has elapsed.

RULE 2. PERMISSIBLE CASES.

Smoking may be permitted in:—

(a) Factories engaged in the manufacture of cigars, cigarettes, or smoking tobacco, when necessary for the efficient conduct of the business, provided that:

(1) No smoking other than that for sampling, testing and experimental purposes is carried on.

(2) Such smoking is conducted in a room provided especially for that purpose, separated from the rest of the building by fireproof or fire-resisting partitions, with all openings therein protected by self-closing fire doors, and, further, unless the building is of fireproof construction or equipped with an approved automatic sprinkler system, the floor and ceiling of such room shall be covered with fire-retarding material.

(3) Such chemical fire extinguishers as the fire commissioner may direct are installed.

(4) All waste paper and other inflammable waste materials are deposited in fireproof receptacles.

(b) Factories devoted entirely to one of the following occupancies:

Blacksmithing or horseshoeing;

Boiler making;

Brick, terra cotta or artificial stone works;

Forge shops;

Foundries;

Iron, steel, brass or copper works;

Machine shops;

Smelting;

Stone or monumental works;

provided that in any case:

(1) The building is not of wooden construction;

(2) Such chemical fire extinguishers as the fire commissioner may direct are installed;

(3) All waste paper and other inflammable waste materials are deposited in fireproof receptacles.

RULES

REPORTING STRUCTURAL ALTERATIONS, ADOPTED FEBRUARY 8, 1917, UNDER CAL. 352-16-S.

Resolved, That for the purpose of establishing uniform practice with regards to the reporting of structural alterations made under the requirements of the labor law, the following rule be and it is hereby adopted:

When plans have been filed with the proper superintendent of buildings and structural alterations have been made to comply with the requirements of the labor law relating to exits and fire protection, or with an order of the State

Labor Department relating to exits issued prior to October 1, 1916, or with an order of the fire commissioner issued subsequent to October 1, 1916, a report shall be made by the superintendent of buildings to the fire commissioner stating whether the work done complies with the order of the State Labor Department, with the order of the fire commissioner, or with the provisions of the State Labor Law, as the case may be.

CONCRETE RULES

USE OF HYDRATED LIME IN CONCRETE.

Adopted by the Board of Standards and Appeals, April 19, 1920, under Cal. No. 153-20-S.

The use of hydrated lime in all classes of concrete construction shall not be prohibited when used in accordance with the conditions hereinafter set forth.

The hydrated lime shall conform with the standard specifications for this material which have been adopted by the American Society for Testing Materials.

The maximum amount of hydrated lime which may be used shall conform with the following table, all weights given being the amount of lime which may be incorporated for each ninety-five pound bag of Portland cement.

1-1½-3 Mix, 4 pounds of hydrated lime per bag of cement.

1-2-4 Mix, 5 pounds of hydrated lime per bag of cement.

1-2½-5 Mix, 6 pounds of hydrated lime per bag of cement.

For hand mixed concrete, the hydrated lime and Portland cement shall be well mixed while dry.

Hydrated lime shall not be used in concrete which is to be deposited under water.

BOARD OF STANDARDS AND APPEALS.

Administrative Applications.

- 1029-27-A—39 Fifth avenue, Manhattan.
 1030-27-A—13-16 Central Park West, Manhattan.
 1031-27-A—20-28 West 72nd street, Manhattan.
 1032-27-A—242-248 West 76th street, Manhattan.
Appliances Submitted for Approval.
 53-21-SA—Stillbech 2½ in. Bronze Angle Hose Valve, approval of.
 1372-21-SA—Ford Fire Line Reducing Valve, approval of.
 447-22-SA—Howard Water Pressure Reducing Devices, approval of.
 610-22-SA—Crocker Gas Valve, approval of.
 799-22-SA—Kennell Gas Cut-Off Valve, approval of.
 1173-22-SA—Anti-Syphon Valve, approval of.
 1230-22-SA—Thermostats for Automatic Fire Alarm Systems, approval of.
 1249-22-SA—Clen Oil Burner, approval of.
 1391-22-SA—Dempsey High & Low Pressure Fuel Oil Burner, approval of.
 1526-22-SA—Deaney Fuel Oil Burner, approval of.
 57-23-SA—Collin Patent Automatic Gas Cut-Off Valve, approval of.
 124-23-SA—Master Gas Shut-Off Valve, approval of.
 125-23-SA—Packless Gas Shut-Off Valve, approval of.
 127-23-SA—S. & K. Gas Shut-Off Valve, approval of.
 232-23-SA—Manual and Thermal Gas Cut-Off Valve, approval of.
 275-23-SA—Wm. E. Toelle Manual & Automatic Gas Shut-Off Valve, approval of.
 279-23-SA—Heil Standard 200 Gal. Truck Tank, approval of.
 297-23-SA—"Automatic" Deluge Valve, approval of.
 443-23-SA—Automatic Gas Shut-Off, approval of.
 525-23-SA—Tilman-White Gas Cut-Off Valve, approval of.
 952-23-SA—Automatic Gas Cut-Off, approval of (Brooklyn Co.)
 959-23-SA—Hydro Carbon Oil Burner, approval of.
 1146-23-SA—Pennsylvania Globe Rotary Oil Burner, approval of.
 1176-23-SA—Ziegler Oil Burner, approval of.
 1246-23-SA—Ludlow Gas Cut-Off Valve, approval of.
 1346-23-SA—Heatiator Oil Burner, approval of.
 1429-23-SA—Kerrihard Oil Burner, approval of.
 1550-23-SA—Apex Gas Cut-Off Valve, approval of.
 492-24-SA—Holtzer-Cabot Type "C" Fire Alarm Box, approval of.
 755-24-SA—Wills Automatic Gas Shut-Off Valve, approval of.
 907-24-SA—Dempsey Domestic Burner and Fuel Oil Pump, approval of.
 1016-24-SA—Milnes Oil Burner, approval of.
 1108-24-SA—Simplicity Fuel Oil Burner, approval of.
 1142-24-SA—Decker Oxohydrogen Oil Burner, approval of.
 1146-24-SA—Salvo Fire Extinguisher, approval of.
 1359-24-SA—Oliver Oil Gas Burner No. 30-A, approval of.
 1500-24-SA—Smolensky Check Valve, approval of.
 558-25-SA—Globe Dry Pipe Valve Accelerator, approval of.
 683-25-SA—Billow Fuel Oil Burner, approval of.
 985-25-SA—Amdyco Foam Fire Extinguisher, approval of.
 1106-25-SA—Modern Oil Burner, approval of.

- 1263-25-SA—Phister Carbon Tetrachloride Fire Extinguisher, approval of.
 1264-25-SA—Koerting Gear Pump, approval of.
 1346-25-SA—Palmer Gravity Lock, approval of.
 55-26-SA—Ferreira Oil Burner, approval of.
 111-26-SA—Gem Fuel Oil Burner, approval of.
 167-26-SA—Johnson Automatic Oil Burner, approval of.
 353-26-SA—Signal Weatherproof Bells, approval of.
 364-26-SA—Kork-n-Seal, approval of.
 397-26-SA—Worthington Triplex Vertical Power Pump, approval of.
 418-26-SA—Film Inspection Machine (approved type), approval of.
 484-26-SA—Protectoseal Cover, approval of.
 542-26-SA—Lassen Quintuple Fuel Oil Burner, approval of.
 751-26-SA—Jones Oil Burner, approval of.
 755-26-SA—Sundstrand Automatic Oil Burner, approval of.
 764-26-SA—Berggren Oil Burner, approval of.
 781-26-SA—Solenoid Type Single Stroke Bells, approval of.
 792-26-SA—North American Low Pressure Oil Burner, approval of.
 890-26-SA—Pyrolithic Floor and Ceiling Construction, approval of.
 929-26-SA—Seabolt Vacu-Syphon Oil Burner, approval of.
 950-26-SA—Ideal Fuel Oil Burner, approval of.
 52-27-SA—M-D Rotary Fuel Oil Pump, approval of.
 88-27-SA—Hauck Venturi Low Pressure Oil Burner, approval of.
 110-27-SA—Wilbur Extinguisher, approval of.
 115-27-SA—Even-Heat Oil Burner, approval of.
 128-27-SA—"GRD" Billow Fuel Oil Atomizer, approval of.
 129-27-SA—Stroud-In-The-Door Oil Burner, approval of.
 187-27-SA—Keenan Gas Shut-Off Valve, approval of.
 328-27-SA—Holby Oil Burner, approval of.
 402-27-SA—Faraday Model "F," 110 Volt A.C. Fire Alarm, approval of.
 458-27-SA—Deming Double Acting Oscillating Force Pump, approval of.
 481-27-SA—Eisler Automatic Oil Burner, approval of.
 527-27-SA—Gas-O-Matic Oil Burner Unit, approval of.
 537-27-SA—Leader Gas Shut-Off Valve, approval of.
 618-27-SA—Stuhler Oil Burner, approval of.
 630-27-SA—Faraday Pre-Signal Fire Alarm Control Panel with 110 Volt Trouble Bell, approval of.
 651-27-SA—The S. & G. Panic Lock, approval of.
 673-27-SA—Morrissey Oil Burner, approval of.
 698-27-SA—Everite Oil Burner, approval of.
 810-27-SA—Bowser Fig. No. 718 Fuel Oil Pump, approval of.
 814-27-SA—Elkhart Flush Type Siamese, approval of.
 899-27-SA—Walworth 2½ in. Angle Hose Valve, 150 lb. working pressure, approval of.
 900-27-SA—Walworth 2½ in. Angle Hose Valve, 250 lb. working pressure, approval of.
 957-27-SA—Goodspeed Automatic Oil Burner, approval of.
 1062-27-SA—Watkins Closed Circuit Sprinkler Alarm, approval of.

Cases listed in the Reserve Calendar are cases upon which action by the board has been deferred pending committee reports, of this board, court or department actions, and will remain thereon until the aforesaid reports, court or departmental actions are consummated. Whereupon the case or cases will be restored to the regular calendar and due notice of the date set for hearing will be mailed to the appellant, applicant or petitioner of record.

WARNING

Notice is hereby given to all petitioners, appellants and applicants, and to all lawyers, architects and engineers representing owners or lessees in proceedings before the board—

First, That if they do not appear in person or by representative at the hearing on their case, dismissal for lack of prosecution is likely to result.

Second, That due and ample notice of the date set for hearing is provided in the publication in this BULLETIN of the calendars of the board, each case being set down by Calendar Number and premises under the date of the hearing.

Third, That no plea of ignorance of the date of the hearing can be entertained in view of this publication and of the posting of the calendars on the bulletin board in the

offices of the board and of the further publication of the calendars in the daily press.

Fourth, That no one is entitled to written notice of the date for the hearing in his case, and that the plea of failure to receive such notice is no excuse for neglect to appear.

Fifth, That the business of the board is to dispose of all cases promptly, for the reason that the pendency of an appeal or petition ties the hands of the administrative official in enforcing his order; therefore, no appeal or petition will be allowed to be hung up by reason of failure of the appellant or petitioner to file necessary data, or by any other method of delay.

Sixth, That no appeal, application or petition will be accepted for filing unless, at the time of filing, all papers, plans and data required by law are supplied, as specified on the blank appeal, application or petition forms.

WILLIAM E. WALSH, Chairman
HENRY L. CONNELL
JAMES P. HOLLAND
JOHN GUILFOYLE
CHIEF JOHN KENLON
WILLIAM J. O'GORMAN, Secretary
EDWARD V. BARTON, Chief Clerk

OFFICE—Municipal Building, Rooms 1001 to 1015.
TELEPHONE—WORTH 0184.
OFFICE HOURS—9 a. m. to 5 p. m. Saturdays 9 a. m. to 12 noon.
All communications should be addressed to the chairman of the board.

CONTENTS

This issue of the Bulletin contains, in the order given—
Docket.
Call of Clerk's Calendar.
The Trial Calendar.
Notices in Building Zone Cases.
Minutes of Regular Meeting, January 24, 1928, at 10 a. m.
Minutes of Regular Meeting, January 24, 1928, at 2 p. m.
Revolving Doors, Rules.
Factory Exit Rules.
Reserve Calendar.
Progress Report.

PUBLIC HEARINGS

Tuesdays, at 10 a. m. and 2 p. m.
Special meetings as published in this Bulletin.
Call of Clerk's Calendar, Tuesdays, at 2 p. m.
All hearings are held in Room 1013, Municipal Building, Manhattan.

HOURS FOR CONSULTATION

10 A. M. to 1 P. M.
Any person desiring to consult the chairman or the engineers, pertaining to the work of the board, will be seen only between the hours of ten in the morning and one in the afternoon—Saturdays excepted.

CALL OF CLERK'S CALENDAR

The Clerk's Calendar consists of applications under the Building Zone Resolution, and its object is to give interested property owners opportunity to file objections, if any, and will be called in Room 1013, Tuesday, January 31, 1928, at 2 o'clock. At this call each case is set for hearing on a definite day.
The next subsequent Call of the Calendar will be on Tuesday, February 7, 1928, at 2 o'clock.
The Clerk's Calendar is not to be confused with the calendar of cases that have been definitely set for hearing on fixed days.

NOTICE TO APPELLANTS AND PETITIONERS

No appeal, application or petition will be entertained in connection with which court proceedings are pending or in progress, nor accepted that are not filed within twenty days from the date of the action of the Administrative Official.
Any communication purporting to be an appeal, application or petition shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this board.
Upon receipt of any such communication the writer will be supplied with the official forms for presenting his appeal, application or petition, and if he fails to supply the data required thereon, within twenty days, his case may be dismissed for lack of prosecution.
At the time of filing an application, the appellant or petitioner shall forward a signed notice of appeal addressed to the administrative official (either superintendent of buildings or fire commissioner) and file with this board a duplicate of said notice.
Petitioners are advised that their plans must indicate the points of the compass so as to establish the true location and position of the property, the subject of the appeal.
Appeals, applications and petitions will be simplified and disposition of same expedited by conforming to these directions.

WILLIAM E. WALSH, Chairman,

MINUTES

PREMISES AFFECTED—255-258 South street and 503-509 Water street, Manhattan.

APPEARANCES—

For Appellant: Louis A. Sheinart.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Commissioners Connell, Holland and Guilfoyle..... 4

Negative 0

Absent: Chief Kenlon..... 1

THE RESOLUTION—

(878-27-A)

WHEREAS, Louis A. Sheinart, for Metropolitan News Co., owner, filed, August 2, 1927, an appeal from an order of the fire commissioner, affecting premises 255-258 South street and 503-509 Water street, Borough of Manhattan; and

WHEREAS, the order of the fire commissioner, dated May 5, 1927 (Order No. 19598-F), reads:

"1. Install a standpipe system with risers 4 inches in diameter tested to withstand a pressure of 300 lbs. per square inch, extending from cellar to roof, with necessary check valves and 2½ inch regulation Fire Department outlets on each story (including basements, cellars and roofs), placed within main stairway enclosure. Each outlet to be provided with sufficient feet of 2½ inch standard hose attached thereto."

and

WHEREAS, the building, facing on two street fronts, is non-fireproof, one story and mezzanine (20 ft.) in height, 160 ft. by 96 ft. 6 in. (15,400 sq. ft.) in area; OCCUPIED as a newspaper distributing station, 40 persons; and

WHEREAS, appellant contends that the building is equipped with a 2-inch standpipe system with 100 ft. of hose at the two outlets; that the city main in South street, from which this standpipe is supplied, has a pressure of 46 pounds per square inch and is fed two ways and requests the acceptance of the existing standpipe in lieu of the required system.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that the building shall be equipped with a 4-inch standpipe system supplied from street connection to the city main or that the building shall be equipped with a sprinkler system supplied from street connection to the city main, either equipment shall be installed in accordance with the rules of the board of standards and appeals.

942-27-A.

APPELLANT—Croker Nat'l Fire Prev. Eng. Co., for J. Warren's Garage, owner.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—252-262 West 40th street, Manhattan.

APPEARANCES—

For Appellant: Herman E. Horwood.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Commissioners Connell, Holland and Guilfoyle..... 4

Negative 0

Absent: Chief Kenlon..... 1

THE RESOLUTION—

(942-27-A)

WHEREAS, Croker National Fire Prevention Engineering Co., for J. Warren's Garage, owner, filed, August 22, 1927, an appeal from an order of the fire commissioner, affecting premises 252-262 West 40th street, Borough of Manhattan; and

WHEREAS, the order of the fire commissioner, dated June 10, 1927 (Order No. 38770-LC), reads:

"1. Provide a tank on roof of at least 3,500 gallons capacity for standpipe. Section 581, Chapter 5, Code of Ordinances."

and

WHEREAS, the building is fireproof, four stories in height, 122 ft. 6 in. by 93 ft., 11,300 sq. ft. in area; OCCUPIED as a garage, not more than three persons on each story; and

WHEREAS, the appellant claims that the open inside floor area is about 10,600 sq. ft.; that the premises are equipped with a four-inch dry standpipe system with the siamese connections on the 40th street front; also that 20 sand pails are kept on each story; furthermore, the appellant contends that the premises as they are were erected in 1907 under approved plans; that the standpipe system was accepted by the fire department and permits have been regularly issued for the garage use; also under rule 44 affecting standpipes the order should not have been issued.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that the building shall not be increased in height, area or dimension; that the existing standpipe system shall be provided with a four-inch connection to the city main with proper checks, etc., and granted only as long as conditions as to occupancy and use remain substantially unchanged.

650-27-A.

APPELLANT—Jonas Land Co., Inc., owner.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—638-660 Ocean avenue, Brooklyn.

APPEARANCES—

For Appellant: Simon Rappaport, Jacob Fremmer and Mr. Held.

For Administration: Inspector Carroll of fire department.

ACTION OF BOARD—Appeal denied.

THE VOTE TO GRANT—

Affirmative 0

Negative: Chairman Walsh, Commissioners

Connell, Holland and Guilfoyle and Chief

Kenlon 5

Absent 0

THE RESOLUTION—

(650-27-A)

WHEREAS, Jonas Land Co., owner, filed, June 8, 1927, an appeal from an order of the fire commissioner, affecting premises 638-660 Ocean avenue, Borough of Brooklyn; and

WHEREAS, the order of the fire commissioner, dated May 14, 1927 (Order No. 10275-LC), reads:

"You are hereby notified that an inspection of the above premises used for the storage of fuel oil shows that the following must be done before the permit requested by you can be issued:

"2. Install a 4" standpipe line in accordance with the requirements of F.D. Plan approved Jan. 30th, 1926."

and

WHEREAS, the building is fireproof, six stories (63 ft.) in height, 200 ft. by 141 ft. 6 in., irregular (approximately 22,000 sq. ft.) in area; OCCUPIED as an apartment house accommodating 76 families; and

WHEREAS, appellant contends that the building is subdivided into sub-sections (having maximum areas of 2,500 sq. ft.) by 8-inch thick brick walls with openings therein protected with fireproof doors.

Resolved, that the order of the fire commissioner be and it hereby is *affirmed*, and the appeal be and it hereby is *denied*.

THE RESOLUTION—

(911-27-A)

WHEREAS, Petroleum Heat and Power Co., for A. G. Khouri, owner, filed, August 12, 1927, an appeal from a decision of the fire commissioner, affecting premises 7626 Narrows avenue, Borough of Brooklyn; and

WHEREAS, the decision of the fire commissioner, dated July 3, 1927 (Order No. 1938-27), reads:

"1. Anti-syphon valve in suction line may not be permitted."

and

WHEREAS, the building is non-fireproof, two stories in height, 20 ft. by 40 ft. in area; OCCUPIED as a dwelling; and

WHEREAS, a fuel oil burning system has been installed consisting of a 1,100-gallon capacity storage tank (buried outside the building, 2 ft. below ground and at an elevation higher than the burner and piping), an approved Petro Domestic burner, a weighted anti-syphoning device and the necessary valves and piping for a complete equipment; and

WHEREAS, appellant contends that owing to the proximity of the foundation walls of the building it is impractical to bury the tank below the level of the burner and piping and in view of the installation of the anti-syphoning device requests the acceptance of the equipment; appellant contends further that the anti-syphoning device has been approved by the Underwriters Laboratories.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that the suction line supply from tank shall be equipped with an anti-syphon device and that the equipment otherwise shall comply with the fuel oil rules in all respects.

WHEREAS, Croker National Fire Prevention Engineering Co., for Morris Jackson, owner, filed, August 11, 1927, an

appeal from an order of the fire commissioner, affecting premises 1987 Webster avenue, Borough of The Bronx; and

WHEREAS, the order of the fire commissioner, dated May 3, 1927 (Order No. 38213-LC), reads:

"Referring to your application dated February 23rd, 1927, for a permit to maintain a wholesale drug or chemical supply house at the above location, I regret to inform you that your application for such permit is disapproved for the reason that building in part is used as a factory which is not incidental to your business and further meeting rooms are available for public assembly contrary to Section 271-A and C of the Code of Ordinances.

"You are herefore hereby ordered to

"1. Discontinue the maintenance of a wholesale drug and chemical supply house at this address.";

and

WHEREAS, the building is non-fireproof, two stories in height, 100 ft. 6 in. by 96 ft. in area on the first story and 100 ft. 6 in. by 52 ft. in area above; OCCUPIED: 1st story (front), by appellant for storage and sale of drug supplies, 5 persons, and also stores occupied by plumber, hat cleaner, sale of brushes and electric supplies, 12 persons; (rear), for light manufacturing, vacant at present; 2nd story, club meeting room, 15 persons, and light manufacturing (manufacture of bath robes, negligees and printers), 40 persons; and

WHEREAS, appellant contends that the building is provided with adequate exits; that the meeting rooms are used by a dramatic club of 12 persons, no plays being given or public meetings held therein; that the business conducted by appellant consists of reshipping supplies in the packages as originally received; that there is no manufacturing conducted in the premises of appellant and proposes to fire-retard the ceilings and walls on the store side of the partitions separating the drug supply store from the remainder of the premises.

Resolved, that the order of the fire commissioner be and it hereby is *affirmed*, and the appeal be and it hereby is *denied*.

THE RESOLUTION—

(873-27-A)

WHEREAS, Lustberg, Nast & Co., Inc., owner, filed, August 1, 1927, an appeal from an order of the fire commissioner, affecting premises 581-593 Water street, Borough of Manhattan; and

MINUTES

WHEREAS, the order of the fire commissioner, dated May 12, 1927 (Order No. 26297-F), reads:

"1. Install a standpipe system with risers 4 inches in diameter tested to withstand a pressure of 300 lbs. per square inch, extending from cellar to roof, with necessary check valves and 2½ inch regulation Fire Department outlets on each story (including basements, cellars and roofs), placed within main stairway enclosure. Each outlet to be provided with sufficient feet of 2½ inch standard hose attached thereto."

and

WHEREAS, the building, facing on two street fronts, is fireproof, six stories (76 ft. 9 in.) in height, 185 ft. 10 in. by 70 ft. ¼ in., irregular (approximately 12,000 sq. ft.) in area; OCCUPIED by one concern for the manufacture of shirts: 1st story, 20 persons; 2nd story, 2 persons; 3rd story, 22 persons; 4th story, 19 persons; 5th story, 97 persons; 6th story, 106 persons; and

WHEREAS, appellant, in view of the character of the construction and location of the building and the presence therein of a sprinkler system supplied by a 9,000-gallon capacity pressure tank and a 12,000-gallon capacity gravity tank located 21 ft. above the roof, requests the omission of the standpipe; and

WHEREAS, the building is occupied by one tenant throughout and is supervised by watchmen's patrol system, and the building is provided with all legally required exits, and there exists a two-source wet sprinkler system.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that the building shall not be increased in height, area or dimension; that it shall be equipped throughout with an approved two-source wet sprinkler system; equipped with a central office connection, and granted only as long as conditions as to occupancy and use remain unchanged and under one single tenancy.

THE RESOLUTION—

(791-27-A)

WHEREAS, Louis A. Sheinart, for Elte Hotel Corp., owner, filed, July 8, 1927, an appeal from a decision of the superintendent of buildings, affecting premises 125-127 Bowery and 239-241 Grand street, Borough of Manhattan; and

WHEREAS, the decision of the superintendent of buildings, dated July 6, 1927 (Alt. App. No. 35-1927), reads:

"1. Construction of building should comply with Section 72 of the Building Code.

"2. Exit facilities should comply with Article 8 of Bldg. Code.

"3. Ventilation and size of rooms should comply with Sec. 1307, Chapter 19 of the Charter."

and

WHEREAS, the building is non-fireproof, five stories (65 ft.) in height, 50 ft. by 75 ft. in area, located within an unrestricted use district; OCCUPIED for manufacturing purposes: 1st story, stores; 2nd story, 45 persons; 3rd and 4th

stories, 60 persons each story; 5th story, 75. persons; EXITS: an interior wooden stairway, extending from first story to roof, enclosed in fire-retarding partitions; a 60-degree fire escape on Grand street front, having fireproof openings along the course thereof, extending from second story to roof, with a counterbalanced stairs reaching sidewalk; a 60-degree fire escape on Bowery street front, having fireproof openings along the course thereof, extending from second story to top story, with a sliding drop ladder in guides reaching sidewalk; and

WHEREAS, the appellant proposes to change the use of the building from a factory to a lodging house; also to enclose bedrooms on each story above the first story by erecting dwarf wooden partitions and to maintain the same number of persons on each story as at present for a factory use; and

WHEREAS, the appellant claims that the board of examiners granted a modification June 4, 1895, for the conversion of these premises from a warehouse to a lodging house, upon which a certificate of occupancy was issued by the superintendent of buildings, such use was maintained until 1919 when the building was converted into a factory building and Certificate of Occupancy No. 2031 was issued; furthermore, the appellant contends that the granting of this appeal is nothing more than restoring the building to a use for which it was originally intended; and

WHEREAS, this appeal was granted by the board under date of July 26, 1927; and

WHEREAS, the owner has been estopped from complying with the conditions of the resolution as to completion of work because of a lease tenancy of the present occupant of the premises.

Resolved, that the decision of the superintendent of buildings be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that the building shall not be increased in height, area or dimension; that the interior stairhall enclosure shall be fire retarded throughout in accordance with the rules of the board of standards and appeals; that the fire escape on the Grand street and Bowery fronts of the building shall be maintained as provided in resolution of Cal. No. 101-20-S of the board of standards and appeals, and that the occupancy shall not exceed 50 persons on any one floor, in accordance with the certificate of occupancy in force for the past seven years, and that the premises shall otherwise comply with chapter 12 of the code of ordinances as to lodging house requirements, and that any work involved shall be completed within six months from the date of this action and that all permits required having been obtained and being now in force.

THE RESOLUTION—

(308-26-A)

WHEREAS, Thomas W. White, for Sinclair Refining Co., lessee, filed April 9, 1926, an appeal from a decision of

MINUTES

the fire commissioner, affecting premises Nos. 1117-1163 Grand street, Borough of Brooklyn; and

WHEREAS, the decision of the fire commissioner, dated March 31, 1926 (Applic No. 670-26) reads:

"1. All storage tanks comprising or forming a part of an oil storage plant shall be buried so that the tops thereof shall be at least two feet below the grade level, and such tanks must be separated from each other by not less than one foot of solid concrete, well tamped into place as per Section 111, Subdivision 5 of Article 8 of Chapter 10.";

and

WHEREAS, the premises consist of a large plot of ground, 406 ft. by 145 ft. (irregular) in depth, bounded on the north and east sides by Newtown Creek, upon which an oil storage plant is being erected; and

WHEREAS, the appellant proposes to install one 50,000 gallon gasoline tank, one kerosene and one furnace oil tank, each of 25,000 gallons capacity, eight gasoline and two kerosene tanks, each of 15,000 gallons capacity, all to be erected upon concrete foundations above the ground level, separated into batteries not exceeding 50,000 gallons, each battery surrounded by reinforced concrete dyke walls enclosing an open space equal to $1\frac{1}{2}$ times the volume of tanks; and

WHEREAS, the appellant contends that the plant is erected upon filled in ground at tidewater level; that there are two fire hydrants within 50 ft. from the plant; furthermore, the appellant proposes to equip the tanks with an approved type of chemical fire-fighting apparatus, together with whirling water sprays, vents, manholes, etc.; and

WHEREAS, a committee of the board visited the premises and reports:

Cal. No. 308-26-A;

Premises 1117-63 Grand Street, Brooklyn.

REPORT OF INSPECTION.

The full Board visited these premises on May 14, 1926, for personal observation.

This is an appeal from an order of the Fire Commissioner requiring the burial of all storage tanks in connection with proposed liquid oil storage plant located on Newtown Creek.

The property is approximately 406 ft. long along Grand Avenue; approximately 133 ft. in depth from Grand Ave. to Newtown Creek. It is intended as a local distributing commercial sales plant.

The property is bounded on the westerly line by Grand Avenue, running into Metropolitan Avenue, having, at this point, an extensive public highway frontage on the westerly side. To the south, 65 ft. distant from this property, is a building material storage yard, with great heaps of building sand, brick, etc. The northerly and easterly boundary of the property is on Newtown Creek. The entire plot is a low lying strip of land of mud river bottom exposed at low tide.

The Board recommends granting of the appeal omitting the requirement as to the entire burial of the tanks, *on condition* that there shall be not more than one (1) 50,000-gallon single storage tank for gasoline, and not more than eight (8) 15,000-gallon gasoline tanks, together with two (2) tanks of 15,000-gallon capacity for kerosene, one (1) 25,000-gallon furnace oil storage tank, and one (1) 25,000-gallon furnace oil storage tank; and *on further condition* that the 50,000-gallon tank for gasoline shall be enclosed in a separate reinforced concrete reservoir, and that there shall be not more than two (2) 15,000-gallon tanks in any other single reservoir.

The entire oil storage tanks shall be enclosed with reinforced concrete walls from 12 ft. to 14 ft. 6 in. in height, providing reservoirs of not less than 150 per cent in excess of the tank capacity so enclosed.

From the top of the concrete wall to the top of the tanks, there shall be constructed brick walls of approved masonry as flame detectors.

All tanks shall be equipped with an acceptable liquid fire extinguishing medium, and each tank shall also be

equipped with whirling water sprays, vents, manholes, etc.; and there shall be maintained a driveway at the southerly end of the premises between this property and the adjoining property to the south, an open driveway of not less than fifteen (15) feet in width, unincumbered for its entire distance from Grand Avenue to Newtown Creek.

Plans shall be returned to this Board for approval as to location and equipment in accordance with the foregoing stipulations.

Submit for consideration.

(Signed) WILLIAM E. WALSH,
HENRY L. CONNELL,
JOHN KENLON,
JAMES P. HOLLAND,
JOHN GUILFOYLE.

and

WHEREAS, the board granted this appeal under the then existing conditions on June 22, 1926, and

WHEREAS, because of the extension of the existing business, based on public demand.

Resolved, that the decision of the fire commissioner be and it hereby is *modified*, and the appeal *granted on condition* that the additional oil storage shall be restricted to two 50,000-gallon gasoline tanks, one 25,000-gallon gasoline tank, three 15,000-gallon kerosene tanks, and two 15,000-gallon furnace oil tanks; that the storage and maintenance of this additional oil storage shall be protected in accordance with the conditions imposed in the resolution adopted June 22, 1926, to wit:

"*on condition* that single gasoline storage tank shall be separately enclosed in concrete walls; that the additional battery of three kerosene tanks shall be enclosed in one reservoir and that the two 15,000-gallon furnace oil tanks shall be enclosed in a single reservoir, in accordance with the conditions of the report of the Committee of the Board and the resolution adopted June 22, 1926."

THE RESOLUTION—

(779-27-BZ)

WHEREAS, McCooley & Conroy, for Dann Realty Corp., owner, filed July 6, 1927, an application under the building zone resolution, to permit in a business district the erection and maintenance of a garage for the storage of more than five motor vehicles; premises 2448-2462 Coney Island avenue, Borough of Brooklyn; and

WHEREAS, a public hearing was held on this application by the board of standards and appeals, at its regular meeting, January 24, 1928, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Coney Island avenue is a business district, East 12th street is a residence district, and Avenue U is a business district; and

WHEREAS, the decision of the superintendent of buildings rendered May 27, 1927 (Applic. No. 9328), reads:

"1. Public garage for over 5 cars not permitted in a business dist. See Art. II, Sec. 4 (a15) of Zone Resolution.";

and

WHEREAS, the proposed building is of non-fireproof construction, one story in height, with a frontage of 140 ft. and a depth of 70 ft. 10 in., to be occupied as a garage for the storage of more than five motor vehicles; and

WHEREAS, the board deemed that applicant failed to substantiate his basis of appeal under section 21 on the grounds of hardship and practical difficulties;

Resolved, that the decision of the superintendent of buildings be and it hereby is *affirmed*, and that the application be and it hereby is *denied*.

780-27-BZ.

APPLICANT—McCooley & Conroy, for Max Rosenthal, owner.

SUBJECT—Application (re decision of superintendent of buildings), under section 21 of the building zone resolution, to permit in a business district the erection and maintenance of a garage for the storage of more than five motor vehicles.

PREMISES AFFECTED—112-126 East 98th street, Brooklyn.

APPEARANCES—

For Applicant: John H. McCooley, Jr.

For Opposition: K. Karl Klein and Alfred Nagelberg.

THE RESOLUTION—

(780-27-BZ)

WHEREAS, McCooley & Conroy, for Max J. Rosenthal, owner, filed July 6, 1927, an application under the building zone resolution, to permit in a business district the erection and maintenance of a garage for the storage of more than five motor vehicles; premises 112-126 East 98th street, west side, 250 ft. north of Winthrop street, Borough of Brooklyn; and

WHEREAS, a public hearing was held on this application by the board of standards and appeals, at its regular meeting, January 24, 1928, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that East 98th street is a business district; Rockaway parkway is a residence; Ralph avenue is a business district, and Blake avenue is a business district; and

WHEREAS, the decision of the superintendent of buildings, rendered May 26, 1927 (App. No. 9791-27), reads:

"Proposed one story brick public garage for more than five motor vehicles to be located in a business district is contrary to Art. II, Sec. 4 (a) of Zone Resolution.";

and

WHEREAS, the proposed building is of non-fireproof construction, one story in height, with a frontage of 130 ft. and a depth of 110 ft., to be occupied as a garage for the storage of more than five motor vehicles; and

WHEREAS, the board deems that it is empowered to act under the authority of section 719 of the charter, as to the exercise of its discretion in appropriate cases for the variation of the zoning resolution; and

WHEREAS, the board deems that the applicant is entitled to relief under section 21 of the building zone resolution, in that the board granted a public garage immediately abutting;

Resolved, that the board of standards and appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted on condition* that the building shall be restricted to a one-story structure above grade; that there shall be no cellar or basement below grade other than space, sufficient only for the accommodation and service of heating apparatus; that the rear and gable walls shall be unpierced throughout their entire height and length; that the roof shall be of flat design and construction; that the front elevation shall be finished with face brick and architectural terra cotta or stone trimming; that a fixed double-rung iron ladder shall be provided at the rear on the interior of the building to a scuttle in the roof; that there shall be no sign or advertising other than one electric, projecting sign on the front of the premises, indicating the name and title of the business conducted on the premises or advertising as shall be restricted to and fixed on plate glass show windows; and that all permits required shall be obtained within six months and any work involved thereby shall be completed within one year from the date of this action.

THE RESOLUTION—

(924-27-BZ)

WHEREAS, Abraham Cohen, owner, filed August 17, 1927, an application under the building zone resolution to permit in a business district the erection and maintenance of a gasoline service station. Premises: 111-02 and 111-04 101st avenue, Richmond Hill, Borough of Queens; and

WHEREAS, a public hearing was held on this application by the board of standards and appeals, at its regular meeting, January 24, 1928, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that 101st (Jerome) avenue is a business district; 111th (Greenwood avenue) street is a residence district, and 112th (Chestnut avenue) street is a residence street; and

WHEREAS, the decision of the superintendent of buildings, rendered July 11, 1927 (N.B. 7541-27), reads:

"1. The erection of a gasoline station in a business district is contrary to the Zone Law.";

and
WHEREAS, it is proposed to erect an office, bury two 550-gallon tanks and erect four pumps for the purpose of conducting a gasoline service station within a business district; and

WHEREAS, the board deemed that applicant was entitled to relief under section 21 of the building zone resolution and that applicant has owned this property since 1922, previous to the prohibition of gasoline stations in business districts.

Resolved, that the board of standards and appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolutions, and that the application be and it hereby is *granted on condition* that the plot shall be enclosed on the easterly and southerly lot lines with walls of approved masonry, 12 ft. in height; that the surface of said enclosure shall be faced with enameled brick with a border of enameled brick of a different color and shall be coped with architectural terra cotta or natural stone; that not more than one small building, used for the accommodation and service of the patrons of the premises shall be erected on the premises; that a concrete curb along the building line shall be erected not less than 18 inches in height, 12 inches in depth, with driveway openings therein; that the advertising shall be restricted to a flat-wall sign on the wall or house erected thereon and illuminated glass globes of the gasoline tanks; that there shall be no portable gasoline tanks maintained or operated on the premises; that there shall be no crank case oil-service racks or frames installed on the premises; and that all permits required shall be obtained within six months and any work involved shall be completed within one year from the date of this action.

THE RESOLUTION—

(960-27-BZ)

WHEREAS, William F. Doyle, for Thomas Realty Co., owner, filed August 30, 1927, an application under the building zone resolution, to permit partly in a business district and partly in a residence district the erection and maintenance of a garage for the storage of more than five motor vehicles; premises east side of Boston road, 122.08 ft. south of Vyse avenue, Bronx; and

WHEREAS, a public hearing was held on this application by the board of standards and appeals, at its regular meeting January 24, 1928, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Boston road is in a business district; Vyse avenue is in a residence district, and East 176th street is in a business district; and

WHEREAS, the decision of the superintendent of buildings, rendered August 24, 1927 (N. B. 1860-27), reads:

"1. Erection of garage for storage of more than five motor vehicles partly in business district and partly in a residence district is contrary to provisions of building zone resolution.";

and
WHEREAS, the proposed building is of non-fireproof construction, two stories in height, with a frontage of 299.51 ft. on Boston road and 325.31 ft. on Vyse avenue, and a depth of 63.03 ft. and 205.57 ft., irregular; to be occupied as a garage for the storage of more than five motor vehicles; and

WHEREAS, the board deemed that applicant was entitled to relief under section 21 in view of the abutting and surrounding conditions;

Resolved, that the board of standards and appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted on condition* that the building shall be constructed fireproof throughout; that the structure shall be restricted to a two-story building above grade; that the facade on the street fronts shall be finished with light colored glazed brick with architectural terra cotta or stone trimmings, of Gothic-type design, and that the architect shall make a return of drawings to this board for approval in accordance with the foregoing stipulations before submission to the superintendent of buildings; that there shall be no vehicular entrance of any nature or description within the residence use area of the plot; that the building shall be divided approximately into two sections and there shall be but one vehicular entrance from each section on the Vyse avenue front the width of said vehicular entrance not to exceed 9 ft. in the clear; that the northerly and southerly gable walls shall be unpierced throughout their entire height and length; that no advertising of any nature or description shall be permitted on the Vyse avenue front; that no roof sign shall be erected or maintained on any part of structure; that any signs erected on the Boston road front shall be the electric, projecting type, indicating the name and title of business conducted on the premises; that there shall be no portable gasoline tanks maintained or operated on the premises; that any gasoline storage equipment installed

MINUTES

shall be located on the Boston road front; and that all permits required shall be obtained within nine months and any work involved shall be completed within 18 months from that date of this action.

THE RESOLUTION—

(914-27-BZ)

WHEREAS, William Cramer, for Loretta Cramer Ewart, owner, filed August 15, 1927, an application under the building zone resolution, to permit partly in a business district and partly in an unrestricted district, the maintenance of a motor vehicle repair shop; premises 1713-1719 Jerome avenue, Brooklyn; and

WHEREAS, a public hearing was held on this application by the board of standards and appeals, at its regular meeting, January 24, 1928, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Jerome avenue, east of a point 100 ft. west of East 18th street is in a business district, Jerome avenue, west of a point 100 ft. west of East 18th street is in an unrestricted district, and East 18th street is in a business district; and

WHEREAS, the decision of the superintendent of buildings, rendered July 21, 1927, reads:

"YOU WILL PLEASE TAKE NOTICE that there exists a Violation of the Building Code at the premises hereinafter described, in that

"Building is partly occupied by a motor vehicle repair shop conducted at rear, Front part of building is occupied by three stores (plumbing shop, battery charging station and a stationery store), Building is located in two districts, business and unrestricted districts. In violation of Zoning Resolution.

"You are required to discontinue motor vehicle repair shop in business part of said building."

and

WHEREAS, the existing building is of non-fireproof construction, one-story in height, with a frontage of 60 ft. 2½ in. and a depth of 74 ft. 8½ in. irregular, to be occupied as a motor vehicle repair shop; and

WHEREAS, the board deemed that applicant substantiated his basis of appeal brought under section 21 of the building zone resolution, and was entitled to relief in view of the abutting and surrounding conditions,

Resolved, that the board of standards and appeals does hereby make a variation in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is granted on condition that the building shall not be increased in height, area or dimension; that the street front for a depth of 35 ft. other than one vehicular entrance, shall be maintained for retail stores; the rear portion, 39 ft. 8½ in., to be used for automobile

repairs of manual operation; that no anvils or open forges shall be operated on the premises and no machinery other than a one-half horsepower portable electric drill shall be used on the premises; that any permits necessary shall be obtained within ninety days and all work involved shall be completed within six months from the date of this action.

THE RESOLUTION—

(1266-25-BZ)

WHEREAS, Philip J. Sinnott, for Louis J. Block, owner, filed, December 9, 1925, an application, under the building zone resolution, to permit in a business district the erection and maintenance of a gasoline selling station; premises 668-672 New Lots avenue (southwest corner of Jerome street), Borough of Brooklyn; and

WHEREAS, a public hearing was held on this application by the board of standards and appeals, at its regular meeting, November 9, 1926, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that New Lots avenue is in a business district and Jerome street is in a residence district; and

WHEREAS, the decision of the superintendent of buildings, rendered October 5, 1925 (App. No. 18573-25), reads:

"Proposition contrary to the Zone Resolution Art. II, Sec. 4A 46.

"The erection of a gasoline station in a business district.";

and
WHEREAS, the premises consist of a plot of ground having a frontage of 44 ft. 1 in. on New Lots avenue and 90 ft. on Jerome street upon which it is proposed to erect a gasoline selling station consisting of a small office, three 550-gallon gasoline tanks and the necessary pumps and piping; to be occupied as a gasoline selling station; and

WHEREAS, the board deemed that applicant substantiated his basis of appeal under section 21, in view of the surrounding and abutting conditions; and

WHEREAS, this application was granted by the board at its meeting, November 9, 1926, and applicant requests an extension of time to obtain permits.

Resolved, that the board of standards and appeals does hereby make a variation in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is granted on condition that a wall of approved masonry not less than 12 ft. in height shall be erected on the lot line adjoining the contiguous properties, faced with enamel or light-color brick; that any electric arc lights, spotlights or stand lights erected on these premises shall be provided with reflectors at the rear

to protect the adjoining abutting properities from glare; that all necessary permits shall be obtained within six months and the work involved thereby shall be completed within six months from the date of this action, January 24, 1928.

THE RESOLUTION—

(749-26-BZ)

WHEREAS, Parsons, Closson & McIlvaine, for Scranton and Lehigh Coal Co., owner, filed, September 7, 1926, an application, under the building zone resolution, to permit in a residence district the erection and maintenance of a business building and appurtenances of a coal yard; premises northwest corner of 99th street and 103rd avenue, Ozone Park, Borough of Queens; and

WHEREAS, a public hearing was held on this application by the board of standards and appeals, at its regular meeting, March 22, 1927, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that 103rd avenue to west of westerly line of 99th street is in a residence district, 99th street is in an unrestricted district and 98th street is in an unrestricted district; and

WHEREAS, the decision of the superintendent of buildings, rendered August 19, 1926 (N. B. 14656), reads:

"1. Contrary to Zoning Resolution of Board of Estimate and Apportionment.";

and
WHEREAS, the premises consist of a plot of ground having a frontage of 100 ft. on 99th street and 75 ft. on 103rd avenue (part of a larger plot of ground extending to the north and comprising the Scranton and Lehigh Coal Co.'s coal yard), upon which it is proposed to erect a one-story brick office building, 20 ft. 8 in. by 45 ft. in area and, also, a scales, the platform being 29 ft. by 30 ft. in area; and

WHEREAS, the board deemed that applicant substantiated his basis of appeal under section 7a; and

WHEREAS, the permits as required by the conditions imposed in the original resolution have been obtained and are now in force; and

WHEREAS, pending the determination of the levels of the railroad grade crossing in relation to the existing highways, which crossing fronts this property, the applicant is estopped from proceeding with his work, and the board deemed an extension of time of one year from the date of this action within which to complete all work involved should be granted.

Resolved, that the board of standards and appeals does hereby make a variation in the application of the use district regulations, and that the application be and it hereby is granted on condition that the building proposed shall be restricted in height to one story above grade, located at the

MINUTES

corner formed by the intersection of 103rd avenue and 99th street, with a frontage of 20 ft. 8 in. on 99th street and a frontage of 45 ft. on 103rd avenue and platform scales on 99th street front; that the openings in this structure on 103rd avenue frontage shall be restricted to windows the sills of which shall be not less than 3 ft. 6 in. above grade; that any vehicular entrance to the premises on 99th street shall be set back from 103rd avenue not less than 20 ft. northerly therefrom; that the vehicular entrance on 99th street shall be restricted to the loading scale platform, used in conjunction with business conducted on the premises; that the exterior walls of the structure shall be finished with face brick and natural stone trimmings; that no signs of any nature or description shall be displayed on 103rd avenue frontage; that any permits required shall be obtained within one year and any work involved thereby shall be completed within one year from the date of this action, and that the architect shall make a return to this board of the drawings in compliance with the foregoing stipulations for approval before submission to the superintendent of buildings.

THE RESOLUTION—

(174-27-BZ)

WHEREAS, Thomas I. Sheridan, for East Fordham Syndicate, Inc., owner, filed, February 18, 1927, an application, under the building zone resolution, to permit, partly in a business district and partly in a residence district and also in a "B" area district the erection and maintenance of a gasoline service station, a motor vehicle repair shop and a garage for the storage of more than five motor vehicles and also the omission of the rear yard, required by the building zone resolution; premises 637 East Fordham road, Borough of The Bronx; and

WHEREAS, a public hearing was held on this application by the board of standards and appeals, at its regular meeting, April 26, 1927, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that East Fordham road is in a business district, Belmont avenue is in a residence district and Hughes avenue is in a residence district; and

WHEREAS, the decision of the superintendent of buildings, rendered November 10, 1926 (re N. B. 2906-1926), reads:

"1. Erection of proposed building partly in business district and partly in residence district to be occupied

as motor vehicle repair shop, service station, gasoline selling station and garage is contrary to provisions of Building Zone Resolution.

"2. Rear yard required for portion of building in residence district that is back to back with lot facing on Hughes avenue, which lot is occupied by dwelling."; and

WHEREAS, the proposed building is to be of fireproof construction, two stories and cellar in height, with a frontage of 172 ft. 9 in. on Belmont avenue, 50 ft. on Hughes avenue and a depth of 25 ft. and 175 ft., irregular; to be occupied as a gasoline service station and garage; and

WHEREAS, the board deemed that applicant was entitled to relief under sections 7c and 21 of the building zone resolution for use and occupancy of an automobile manufacturer's sales agency and distributing service station requiring at times the maintenance of more than five automobiles with gasoline in tanks of cars; and

WHEREAS, this application was granted by the board at its meeting, April 26, 1927, on certain conditions, and applicant requests an extension of time.

Resolved, that the board of standards and appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted on condition* that the building shall not exceed two stories in height above grade; that it shall be constructed fireproof throughout; that the exterior of the first story or street fronts on Belmont avenue and East Fordham road shall be developed with plate glass show window store fronts within 100 ft. of Fordham road; that any gasoline stored on the premises shall not exceed 1,100 gallons and the gasoline storage equipment shall be located within the business use area of the Belmont avenue frontage; that the Hughes avenue front shall be restricted to but one emergency vehicular entrance; that the gable or side walls shall be unpierced throughout their entire height and length; that any signs erected shall be confined within the business use area of the plot; that the use and occupancy shall be restricted to the conduct and operation of an automobile manufacturer's sales and distributing agency station, with such use as is incidental to the conduct and operation of such business; that any repairs or adjustments made on the premises shall be restricted to manual operation; that no machinery shall be used on the premises other than a one-horse-power electric drill or lathe; that there shall be no portable gasoline tank permitted or maintained on the premises; that the front elevation shall be of attractive architectural design, finished with face brick or natural stone and with architectural terra cotta or stone trimmings; that the windows on the Hughes avenue front shall be glazed with translucent glass; that the architect shall make a return to this board of the finished drawings in accordance with the foregoing stipulations for approval before submitting same to the superintendent of buildings; that no portion of the premises shall be rented or hired for the storage of motor vehicles; that all necessary permits shall be obtained within nine months and the building completed within eighteen months from January 24, 1928.

CASES DISMISSED.

Appeals from Administrative Orders.

The chairman called attention to the following cases, where notices of intention to appeal were offered for filing; but where, despite notices from this office, papers have not been completed, thus tying the hands of the administrative official in the performance of his duty:

(905-27-A)

Filed August 9, 1927—Premises 467 Hamilton street, Long Island City, Borough of Queens. Order of the fire commissioner. Appellant: Socony Burner Corp. Dismissed for lack of prosecution.

MINUTES

(912-27-A)

Filed August 12, 1927—Premises 420-428 East 31st street, Manhattan. Order of the fire commissioner. Appellant: D. MacFarlane. Dismissed for lack of prosecution.

(983-27-A)

Filed September 7, 1927—Premises east side of Boscobel avenue, 179.66 ft. north of East 169th street, The Bronx. Appellant: Philip J. Sinnott. Order of superintendent of buildings. Dismissed for lack of prosecution.

THE VOTE TO DISMISS—

Affirmative: Chairman Walsh, Commissioners Connell, Holland and Guilfoyle and Deputy Chief Martin 5
Negative 0
Absent 0

THE RESOLUTION—

WHEREAS, the foregoing appellant have filed appeals with the board of standards and appeals from orders and decisions of administrative officials affecting the premises in question; and

WHEREAS, the appellants have failed to complete their papers, though duly notified to do so.

Resolved, that the foregoing appeals be and they hereby are dismissed for lack of prosecution.

Under the Building Zone Resolution.

The chairman called attention to the following cases, where notices of intention to appeal were offered for filing; but where, despite notices from this office, papers have not been completed, thus tying the hands of the administrative official in the performance of his duty:

(893-27-BZ)

Filed August 8, 1927—Premises 1135-1139 Ogden avenue, The Bronx. Decision of superintendent of buildings. Applicant: William Shary. Dismissed for lack of prosecution.

(894-27-BZ)

Filed August 8, 1927—Premises east side of Jerome avenue, 200 ft. north of Clifford place, The Bronx. Decision of superintendent of buildings. Applicant: Thomas F. Carr. Dismissed for lack of prosecution.

(934-27-BZ)

Filed August 18, 1927—Premises southwest corner of 112th avenue and Nashville avenue, St. Albans, Borough of Queens. Decision of superintendent of buildings. Applicant: Gussie Wenar Holding Co., Inc. Dismissed for lack of prosecution.

THE VOTE TO DISMISS—

Affirmative: Chairman Walsh, Commissioners Connell, Holland and Guilfoyle and Deputy Chief Martin 5
Negative 0
Absent 0

THE RESOLUTION—

WHEREAS, the foregoing applicants have filed with the board of standards and appeals applications under the building zone resolution affecting the premises in question; and

WHEREAS, the applicants have failed to complete their papers, though duly notified to do so.

Resolved, that the applications be and they hereby are dismissed for lack of prosecution.

Adjourned 4.50 p. m.

WILLIAM J. O'GORMAN, Secretary.

THE RESOLUTION—

(336-27-S)

WHEREAS, Shapiro & Sikawitt, for Jaffe & Seakwood, lessee, filed, April 1, 1927, a petition for a variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 7-9 West 36th street, Borough of Manhattan; and

WHEREAS, the order of the fire commissioner, dated March 12, 1927 (Order No. 13679-LD), reads:

"1. Remove all partitions not built of incombustible material, as per Sections 263 and 270 of the Labor Law."

and

WHEREAS, the building is fireproof, 16 stories in height, 50 ft. by 100 ft. in area; OCCUPIED: stores and manufacture of ladies garments, 20 persons on each story; EQUIPPED with a sprinkler system and a fire alarm signal system; EXITS: a fire tower and an interior fireproof stairway, ex-

tending from the first story to roof, enclosed in fireproof partitions with fireproof doors at openings; and

WHEREAS, the petitioner claims that the lessee of the tenth story erected wooden partitions and shelving enclosing their showroom and offices at the front part of the building at a time when the fire department permitted the construction to be of wood; furthermore, the petitioner contends that it would be a great hardship if compelled to remove them.

Resolved, that the order of the fire commissioner be and it hereby is affirmed, and that the petition be and it hereby is denied.

720-27-S.

PETITIONER—680 Sixth Avenue Corp., owner.

SUBJECT—Variation of labor law as cited in order of fire commissioner.

PREMISES AFFECTED—680-688 Sixth avenue and 59-65 West 39th street, Manhattan.

APPEARANCES—

For Petitioner: Harold Schwarzberg.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition denied.

THE VOTE TO GRANT—

THE RESOLUTION—

(720-27-S)

WHEREAS, 680 Sixth Avenue Corp., owner, filed, June 22, 1927, a petition for a variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 680-688 Sixth avenue and 59-65 West 39th street, Borough of Manhattan; and

WHEREAS, the order of the fire commissioner, dated April 26, 1927 (Order No. 18756-LD), reads:

"1. Remove combustible material from stair entrance hall on 1st story. (Cigar Stand) as per rule 5, of the Board of Standards and Appeals, adopted July 29th, 1924, and Section 272 of the Labor Law."

and

WHEREAS, the building is fireproof, 24 stories in height, 98 ft. 8¼ in. by 99 ft. 11¾ in. in area; OCCUPIED: 1st story, stores; upper stories, tenant factories, approximately 80 persons per story; petitioner occupying a part of the stair entrance hall (leading to 39th street), on the first story as a cigar stand; EQUIPPED with a sprinkler system and a fire alarm signal system; EXITS: two interior fireproof stairways, extending from the first story to roof, enclosed in fireproof partitions with fireproof doors at openings; and

WHEREAS, petitioner contends that the cigar stand does not interfere with any of the exits from the building.

Resolved, that the order of the fire commissioner be and it hereby is affirmed, and that the petition be and it hereby is denied.

785-27-S.

PETITIONER—Tepperberg & Glasser, Inc., for Aldine Paper Mills, Inc., lessee.

SUBJECT—Variation of labor law as cited in order of superintendent of buildings.

PREMISES AFFECTED—333-339 Hudson street and 94-96 Charlton street, Manhattan.

APPEARANCES—

MINUTES

THE RESOLUTION—

(785-27-S)

WHEREAS, Tepperberg & Glasser, Inc., for Aldine Paper Mills, Inc., lessee, filed, July 7, 1927, a petition for a variation from the requirements of the labor law, as cited in an order of the superintendent of buildings, affecting premises 333-339 Hudson street and 94-96 Charlton street, Borough of Manhattan; and

WHEREAS, the order of the superintendent of buildings, dated July 1, 1927 (N. B. 792-1927), reads:

"Plate glass used in new windows on street floor does not meet the requirements of the Industrial Code, Section 503.";

and
WHEREAS, the building is reinforced concrete, fireproof, ten stories in height, 102 ft. 11 in. by 99 ft. 10 in. in area; OCCUPIED: basement, storage, 3 persons; 1st story, stores and shipping, 30 persons; 2nd story, salesroom for floor coverings, 60 persons; 3rd to 8th stories, printers, 35 persons per story; 9th story, printers and radio manufacturers, 35 persons; 10th story, fountain pen manufacturers, 100 persons; petitioner occupying the north store on the Hudson street front of the building as a luncheonette; EQUIPPED with a sprinkler system and a fire alarm signal system; two legal means of exit; and

WHEREAS, the area of the glass in the street front show windows on Hudson street, north of the main entrance, is in excess of the requirements of the labor law; the area of the front light of each show window being 54 in. by 81 in.; the return being 37 in. by 81 in. and the transom light being 26 in. by 54 in.; and

WHEREAS, petitioner contends that a strict compliance with the labor law as to the area of the glass would destroy the intended use of this portion of the building.

Resolved, that the board of standards and appeals does hereby *make a variation* in the requirements of the labor law, and that the petition be and it hereby is *granted*, only so far as it affects the windows of the show window on the first story, Hudson street front, north of main entrance, *on condition* that the opening shall be equipped with approved metal frames and sash, glazed with $\frac{1}{4}$ in. polished plate glass, and that the requirements of the labor law shall be complied with in all other respects.

910-27-S.

PETITIONER—Croker Nat'l Fire Prev. Eng. Co., for Drimmer Press, owner.

SUBJECT—Variation of labor law as cited in order of fire commissioner.

PREMISES AFFECTED—927 Broadway, Manhattan.

APPEARANCES—

For Petitioner: Herman E. Horwood.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Commissioners Connell, Holland and Guilfoyle and Deputy Chief Martin..... 5

Negative 0

THE RESOLUTION—

(910-27-S)

WHEREAS, Croker National Fire Prevention Engineering Co., for Drimmer Press, owner, filed, August 12, 1927, a petition for a variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 927 Broadway, Borough of Manhattan; and

WHEREAS, the order of the fire commissioner, dated April 5, 1927, reads:

"Order No. 15832-LD:

"1. Provide safe and unobstructed egress from the lower termination of the fire-escape at rear of building by constructing a fireproof passageway with an unob-

structed width of at least 3 ft. throughout, leading to the street, adequately lighted at all times during working hours, or by means of providing access to an open area having communication with the street, as per Sec. 273 of the Labor Law.";

and

WHEREAS, the building is non-fireproof, five stories in height, 21 ft. 4 in. by 91 ft. 10½ in. in area at first story and 21 ft. 4 in. by 81 ft. 10½ in. in area above; OCCUPIED: 1st story, stationery supplies, 6 persons; 2nd story, book salesroom, 3 persons; 3rd story, printing, 7 persons; 4th and 5th stories, vacant at present, proposed occupancy of 8 persons on each story; EQUIPPED with a fire alarm signal system; EXITS: an interior wooden stairway, extending from the first story to top story, enclosed in fire-retarded partitions on the first story and wood stud, lath and plaster partitions above, with fireproof doors at openings; a fire escape on the rear of the building, having fireproof openings along the course thereof, extending from the roof to the second story balcony, with EGRESS from the termination of the fire escape by means of an iron stairway leading to the roofs of the one-story extensions to the north; ROOFS of adjoining buildings: to north, two stories lower; to south, eleven stories higher; and

WHEREAS, petitioner contends that a similar order was issued by the fire department in 1920; that work was done upon the fire escape and the fire department was notified by the bureau of buildings that the work done was in accordance with approved plans and that a certificate of occupancy was issued by the bureau of buildings; that thereupon the fire department dismissed the violation of record; petitioner, therefore, requests, in view of these actions, that the existing means of egress from the termination of the fire escape be accepted.

Resolved, that the board of standards and appeals does hereby *make a variation* in the requirements of the labor law, and that the petition be and it hereby is *granted*, only so far as it affects egress from the termination of the rear fire escape at second story level, *on condition* that the fire escape balcony shall be extended to the roof of the adjoining one-story extension to the north, with egress over three adjoining roofs to the north through buildings to the street; that the building shall be not increased in height or area, and this variation is granted so long as conditions as to occupancy and use remain unchanged.

929-27-S.

PETITIONER—Croker Nat'l Fire Prev. Eng. Co., for Paterno & Son Contracting Co., owner.

SUBJECT—Variation of labor law as cited in order of fire commissioner.

PREMISES AFFECTED—20 West 17th street, Manhattan.

APPEARANCES—

For Petitioner: Herman E. Horwood.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

THE RESOLUTION—

(929-27-S)

WHEREAS, Croker National Fire Prevention Engineering Co., for Paterno and Son Contracting Co., owner, filed, August 18, 1927, a petition for a variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 20 West 17th street, Borough of Manhattan; and

WHEREAS, the order of the fire commissioner, dated June 11, 1927 (Order No. 22670-LD), reads:

"1. Provide safe and unobstructed egress from the

MINUTES

lower termination of the exterior screened stairway at rear by constructing a fireproof passageway with an unobstructed width of at least 3 feet throughout, leading to the street, adequately lighted at all times during working hours, or by means of providing access to an open area having communication with the street, as per Sec. 273 of the Labor Law.”;

and

WHEREAS, the building is fireproof, 12 stories in height, 33 ft. 4 in. by 92 ft. in area at first story and 33 ft. 4 in. by 85 ft. in area above; OCCUPIED: 1st story, store for electrical fixtures, 8 persons; 2nd story, manufacturing men's neckwear, 11 persons; 3rd story, spooling cotton, 13 persons; 4th story, stockroom for lighting fixtures, 3 persons; 5th story, manufacturing men's clothing, 4 persons; 6th story, manufacturing leather goods, 12 persons; 7th story, manufacturing underwear, 15 persons; 8th story, manufacturing curtains, 20 persons; 9th story, manufacturing underwear, 18 persons; 10th story, cutting and shipping men's clothes, 8 persons; 11th story, manufacturing undergarments, 25 persons; 12th story, jobbing of ladies neckwear, 15 persons; 144 persons above the first story; EQUIPPED with a standpipe system and a fire alarm signal system; EXITS: an interior stairway constructed of slate treads and iron risers, extending from the first story to roof, enclosed in fireproof partitions with fireproof doors at openings; an exterior screened stairway on the rear of the building, having fireproof openings along the course thereof, extending from the roof to the balcony at the mezzanine story level, with EGRESS from the termination of the fire escape by means of a fireproof passageway on the mezzanine story leading to the main hallway, and, also, by means of an iron stairway and bridge leading to the fire escape on the building to the east; ROOFS of adjoining buildings are seven and eight stories lower; and

WHEREAS, petitioner contends that the building was erected in 1910; that the exits were approved at the time by the bureau of buildings and, in view of the light occupancy, requests the acceptance of the existing means of egress.

Resolved, that the board of standards and appeals does hereby *make a variation* in the requirements of the labor law, and that the petition be and it hereby is *granted*, only so far as it affects egress from the termination of the exterior fire escape at the first story mezzanine level through unpierced fireproof passageway to the main corridor at front of building, and by extending the rear fire escape at second story level by means of balcony and iron platform to the rear of the adjoining premises to the west, *on condition* that the occupancy shall be limited to the legal capacity of the main interior stairs, and this variation is granted so long as conditions as to use remain unchanged.

954-27-S.

PETITIONER—James F. Delany, for Emma G. Shuttleworth, owner.

SUBJECT—Variation of labor law as cited in order of fire commissioner.

PREMISES AFFECTED—2-6 Varick street and 126-130 Franklin street, Manhattan.

APPEARANCES—

For Petitioner: Charles G. Post.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition denied.

THE VOTE TO GRANT—

Affirmative 0

Negative: Chairman Walsh, Commissioners Connell, Holland and Guilfoyle and Deputy Chief Martin..... 5

THE RESOLUTION—

(954-27-S)

WHEREAS, James F. Delany, for John J. Meenan, lessee, filed, August 26, 1927, a petition for a variation from the

requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 2-6 Varick street and 126-130 Franklin street, Borough of Manhattan; and

WHEREAS, the order of the fire commissioner, dated September 25, 1926 (Order No. 1254-LD), reads:

“1. Reduce the area of wire glass in stairhall partition at west and north side of building on each story, so that same does not exceed 720 square inches and no one pane exceeds 360 sq. in., as per Rule 505 of the Industrial Code.”;

and

WHEREAS, the building is fireproof, ten stories in height, 46 ft. by 104 ft. and 75 ft., irregular, in depth; OCCUPIED as a tenant factory: 1st story, stores and storage, 42 persons; 2nd story, office and storage, 14 persons; 3rd story, storage, 1 person; 4th story, office and storage, 18 persons; 5th story, manufacture of extracts, 7 persons; 6th story, storage and manufacture of extracts, 19 persons; 7th story, office and storage, 6 persons; 8th story, storage, 5 persons; 9th story, printing, 15 persons; 10th story, office and factory, 23 persons; EQUIPPED with a sprinkler system and a fire alarm signal system; EXITS: two interior fireproof stairways, extending from first story to roof, enclosed in fireproof partitions with fireproof doors at openings; and

WHEREAS, the petitioner claims that the total area of wire glass in partitions of easterly stairhalls is 9,990 sq. in. at first story; 7,587 sq. in. at second story; 3,996 sq. in. at fourth story; 11,835 sq. in. at sixth story; 1,653 sq. in. at each of the 8th, 9th and 10th stories; six of the lights at second story are each 607 sq. in. in area; three of the lights at each of the eighth, ninth and tenth stories are each 551 sq. in. in area; the exit door in westerly stairhall at each of the second to the tenth stories, inclusive, are provided with two lights of wire glass, each light 450 sq. in. in area; otherwise the stairhalls meet with the requirements of law; furthermore, the petitioner contends that 80 per cent of the building is used for office purposes and that no fire hazard exists under the present occupancy.

Resolved, that the order of the fire commissioner be and it hereby is *affirmed*, and that the petition be and it hereby is *denied*.

1418-22-S.

PETITIONER—Joseph K. Ellenbogen, for The Rollin Construction Co., owner.

SUBJECT—Application for reopening—extension of time of temporary variation—re variation of labor law as cited in order of fire commissioner.

THE RESOLUTION—

(1418-22-S)

WHEREAS, Vetner W. Tandy, for Rollin Construction Co., owner, filed, November 23, 1922, a petition with the board of standards and appeals, for a variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 1931-1939 Broadway and 110-118 West 65th street, Borough of Manhattan; and

WHEREAS, the order of the fire commissioner reads:

“1. Provide continuous safe and unobstructed passageways at least 3 feet wide throughout their length, leading directly to both required means of exit by

MINUTES

cutting a door at least 3 feet wide through the dividing walls on all stories. * * *

"2. Provide additional means of exit from the cellar, said exit to be located on the east side of the building. * * *

"3. Provide an outside iron balcony fire escape on the north side of six-story building. * * *";

nd
WHEREAS, the building is non-fireproof, four and six stories in height, divided into three sections, with a frontage of 116.2 ft. on Broadway and 100.5 ft. on 65th street; OCCUPIED: basement, storage, 13 persons; 1st story, theatres, stores and restaurants, 976 persons; 2nd story, offices, restaurant and printing, etc., 116 persons; 3rd story, offices, studios and factory, 50 persons; 4th story, offices and manufacturing, 4 persons; 5th story, school and offices, 34 persons; 6th story, studios, 11 persons; the means of egress consisting of an interior stairway in each section extending from the first story to the roof, enclosed in fireproof partitions with fire doors at the openings; and

WHEREAS, this petition was granted by the board at its meeting, January 23, 1923, on certain conditions, and petitioner requested a modification of these conditions as to time limit; and

WHEREAS, the conditions imposed by the board have been complied with; and

WHEREAS, the school occupancy has been discontinued.

Resolved, that the board of standards and appeals does hereby *make a variation* from the requirements of the labor law, and that the petition be and it hereby is *granted*, as to item No. 1, *on condition* that a fireproof, self-closing door to be provided at the passageway leading to bridge between the four and six-story section of the building on the 2nd, 3rd and 4th stories, and that a public passageway constructed of fire-resisting material with self-closing, fireproof doors at openings be provided on the rear portion of the 6th story, leading to proposed fire escape balcony shown on plans filed in this petition, and *granted*, as to item No. 2, *on condition* that the present stairway to hallway be maintained and the use of the southeast portion of cellar be limited to storage, and *granted*, as to item No. 3, *on condition* that at the 5th window from the front in the east wall of six-story building a fire escape balcony be provided, with a 60-degree stairway to roof, and with a 60-degree stairway to the balcony now existing on the 5th story, and that a balcony be provided at the 7th window from the front in the west wall with 60-degree stairways and balconies at the 3rd and 4th story level as shown on plans filed with this petition, and that at the west end of the 65th street front on 4th story an unobstructed passageway from the public hall be maintained to roof of three-story section to the west; that a 6 ft. fire hook be provided in public hallways on 2nd, 3rd, 4th and 5th stories at doors leading to proposed fire escape, said doors to be provided with a plain glass panel; that exit signs and red lights be provided at all means of egress, including the iron stairways to roof of four-story section, and that a 60-degree stairway be provided from roof of four-story section to roof of six-story section, and that the time for discontinuing building as originally stated shall be extended until September 1, 1928.

APPLIANCE SUBMITTED FOR APPROVAL.
1925-SA.

PETITIONER—William F. Doyle.

SUBJECT—Approval of Winslow Industrial Burner and Pump Unit—reopening—amendment of resolution.

APPEARANCES—

THE RESOLUTION—

(19-25-SA)

WHEREAS, William F. Doyle filed, January 7, 1925, a petition with the board of standards and appeals for approval of the device known as the Winslow Industrial Burner and Pump Unit; and

WHEREAS, a committee of the board inspected this device in operation at premises 1325 East 19th street, Borough of Brooklyn, and recommended the approval of the device; and

WHEREAS, this burner was approved by the board at its meeting, October 26, 1926, and petitioner requested an amendment to change the arrangement of the burner and improve the design and to change the name to the Winslow Kleen Heet Burner Model 805 and 820.

Resolved, that the board of standards and appeals does hereby *approve* the Winslow Kleen Heet Burner Model 805 and 820 for use with Grade A and Grade B fuel oil when installed, operated and maintained in accordance with the fuel oil rules of the board of standards and appeals.

CASE DISMISSED.

Variation of the Labor Law.

The chairman called attention to the following case, where notice of intention to petition was offered for filing, but where, despite notices from this office, papers have not been completed, thus tying the hands of the administrative official in the performance of his duty:

(872-27-S)

Filed August 1, 1927—Premises 21 East 8th street, Manhattan. Order of the fire commissioner. Petitioner: Albina Cavinato. Dismissed for lack of prosecution.

THE VOTE TO DISMISS—

Affirmative: Chairman Walsh, Commissioners Connell, Holland and Guilfoyle and Deputy Chief Martin 5

Negative 0

Absent 0

THE RESOLUTION—

WHEREAS, the foregoing petitioner has filed a petition with the board of standards and appeals from an order of the fire commissioner affecting the premises in question; and

WHEREAS, the petitioner has failed to complete his papers; though duly notified to do so.

Resolved, that the foregoing petition be and it hereby is *dismissed* for lack of prosecution.

Adjourned 6.30 p. m.

WILLIAM J. O'GORMAN, *Secretary*.

FORMS FOR NOTICES TO PROPERTY OWNERS

If applicants, under the building zone resolution, desire copies of Form 13A, for notices to property owners, such forms are not to be supplied by this office.

The applicant is entitled only to one copy of Form 13A, properly filled out.

If he desires additional copies for his own convenience, in notifying property owners, he can obtain such copies from The O'Connell Press, 176 Park Row, Manhattan, at three cents each, postage to be added if the forms are to be supplied by mail.

RULES

EXIT RULES—REVOLVING DOORS

Adopted, under Cal. No. 842-17-S, Sept. 6, 1917; amended, under Cal. No. 41-19-S, Feb. 11, 1919; under Cal. No. 412-20-S, July 8, 1920, and under Cal. No. 41-19-S, Jan. 8, 1924.

Rule 1. Classification of Revolving Doors. For the purpose of these rules revolving doors shall be classified as follows:

(a) **Type A. "Automatic Collapsible"** in which the individual wings are maintained in the normal revolving position, but which doors are so designed and constructed that in the event of excessive pressure being exerted on the wings, the braces or other devices which hold the wings in their normal position shall be disconnected, thereby permitting easy egress through the vestibule at least equivalent to that provided by a pair of swinging doors having the same width as the vestibule opening.

No revolving doors shall be included in this classification if the pressure necessary to collapse any wing exceeds one hundred and fifty (150) pounds when exerted at a point three (3) inches from the outer edge of the wing, and three (3) feet six (6) inches above the floor, but shall be classified under type B.

(b) **Type B. "Rigid Brace"** in which the individual wings are maintained in the normal revolving position by rigid braces or similar devices, but which doors are so designed and constructed that the braces or other devices which hold the wings in their normal position may be manually released by simple mechanical means, thereby permitting the individual wings to be manually collapsed and so arranged as to permit free egress through the vestibule.

Rule 2. Revolving Doors. Prohibitions. Revolving doors shall be prohibited in exit doorways from assembly halls, asylums, auditoriums, churches, dance halls, hospitals, motion picture theatres, schools, theatres, or from any room or space within a building where more than three hundred (300) persons congregate for purposes of amusement, instruction or worship; except that the main entrance doorway to a hospital or sanitarium may be equipped with either type A or B revolving doors when supplemented by swinging doors not less than three (3) feet eight (8) inches wide at this or other paths of egress.

Rule 3. Revolving Doors—Department Stores. Type A revolving doors hereafter installed shall be accepted in exit doorways from department stores provided doorways aggregating at least fifty (50) per cent of the legal re-

quired width, equipped with swinging doors, are installed and one or more such outwardly swinging doors are located immediately adjacent to each revolving door. Such swinging doors need not be equipped with handles on the outside, and shall have a minimum clear width of three (3) feet.

Rule 4. Existing Revolving Doors. Except where otherwise prohibited existing Type A revolving doors may be retained as required means of exit in doorways from buildings.

Except where otherwise prohibited existing Type B revolving doors may also be retained as required means of exit in buildings, when, in the opinion of the administrative official having jurisdiction, no dangerous exit condition exists. If, however, such dangerous exit condition is deemed by him to exist, they shall be either replaced by Type A revolving doors, or supplemented by at least one swinging door not less than three (3) feet wide located adjacent to the revolving door, as the administrative official may direct.

Rule 5. New Revolving Doors. In buildings other than assembly halls, asylums, auditoriums, churches, dance halls, department stores, hospitals, motion picture theatres, schools and theatres, coming under the exit provisions of the building code, doorways serving as required exits may hereafter be equipped with Type A revolving doors or with Type B revolving doors, provided such revolving doors, not exceeding three in a unit, shall have an outwardly swinging door at least three (3) feet wide located immediately adjacent thereto.

Rule 6. Revolving Doors—Subway Entrances. Required exit doorways from buildings which serve in addition as a means of subway entrance and exit may be equipped with type A revolving doors, provided doorways of the legal required width equipped with swinging doors are also installed and one or more such outwardly swinging doors are located adjacent to each revolving door.

Rule 7. Saving Clause. But nothing in these rules shall prevent the installation on the exit doors from a bank, trust company, jewelry store, or any store devoted to a single similar use, of a locking device which may be operated by electricity or other means from the interior of the building, to be used only in an emergency.

RULES

FACTORY EXIT RULES ADOPTED FEBRUARY 23, 1927.

64-27-SR

STANDARD FACTORY EXITS

Section 1—Fire Escapes.

Rule 1. In any building erected prior to October 1, 1913, now occupied or to be occupied as a factory, more than five stories in height and not exceeding nine stories in height, nor in any case more than 90 ft. from curb level to top floor level, one of the required means of exit or escape under Section 271-1 of the Labor Law may consist of an outside fire escape, provided that:

(a) Any such fire escape hereafter erected shall comply with all the provisions of Section 273, labor law, and in addition thereto:

(1) The balconies and stairs shall be protected on the outside by substantial railings to a height of at least 4 ft. 6 in., measured from floor of balcony or

center of stair tread, constructed of bars at least one-half ($\frac{1}{2}$) inch in diameter, spaced not more than six (6) inches on centers, or of substantial grille work, or of screening not less than No. 10 U. S. gauge wire with not more than one and one-half ($1\frac{1}{2}$) inch mesh, all rigidly braced;

(2) When there is safe egress from the roof of the building to any adjoining structure, the fire escape stairway shall continue to the roof, and if there be no safe means of egress, a gooseneck ladder shall be provided from the top story balcony to the roof.

(b) Any such fire escape erected prior to October 1, 1913, shall conform in every respect with the requirements of paragraph (a) of this rule, except that balconies may be not less than 3 feet in width; the connecting stairs not less than 20 inches in width, and placed at an angle not exceeding 60 degrees if the building is not over six stories in height, otherwise at an angle of 45 degrees.

RULES

Rule 2. In any building erected prior to October 1, 1913, now occupied or to be occupied as a factory, five stories or less in height, one of the required means of exit under Section 271 of the Labor Law may consist of an outside iron fire escape, provided that:

(a) Any such fire escape hereafter erected shall comply with all the provisions of Section 273, Labor Law.

(b) Existing fire escapes shall comply with all the provisions of Section 274, Labor Law and in addition thereto

(1) The balconies shall be not less than 3 feet in width.

(2) The rails around balconies and well holes and on stairways shall be not less than 3 feet in height.

(3) Passageways on the balconies shall be not less than 14 inches in the clear.

(4) At least one opening to each balcony shall be a single fireproof casement door at least 2 feet wide and at least 6 feet in height, except that where the distance between the sill and lintel will not permit of an opening 6 feet in height, a casement door not less than 4 ft. 6 in. in height will be permitted.

Rule 3. The single fireproof casement doors leading to all fire escape balconies shall open out and shall be self-closing. An easily operated door lock with knobs on both sides of the door shall be provided.

Such fire doors may be at window sill level if fixed on step at least two feet wide, with risers not exceeding eight (8) inches, and treads not less than eight (8) inches are provided on the inside from floor level to sills properly secured.

Rule 4 (a) Any such fire escape erected subsequent to October 1, 1913, and prior to these rules taking effect, unless previously accepted as one of the required means of exit or escape by the administrative official having jurisdiction, shall conform in every respect to the provisions of these rules.

(b) A fire escape shall not hereafter be accepted as constituting one of the required means of exit or escape under Section 271-1 of the Labor Law, in any building erected prior to October 1, 1913, now occupied or to be occupied as a factory, exceeding nine stories in height, or more than 90 feet from curb level to top floor level.

Rule 5. All fire escapes shall be maintained structurally safe, properly painted, and kept clear of all obstructions.

Section 2—Enclosure of Factory Stairways.

Rule 6. Except as herein provided, in all factory buildings five stories or less in height, erected prior to October 1, 1913, in which there are more than twenty-five persons employed above the second story, all interior stairways, serving as required means of exit, and the landings, platforms and passageways connected therewith, shall be enclosed on all sides by partitions of fire-resisting material extending continuously from the lowest point of the stairway in accordance with the following schedule:

Number of stories	Contents combustible, no sprinkler	Contents non-combustible, no sprinkler	Contents combustible, and sprinkler	Contents non-combustible, and sprinkler
One	Stairways Enclosed			
Two	Stairways Enclosed	Stairways Enclosed		
Three	Stairways Enclosed	Stairways Enclosed	Stairways Enclosed	

The term "contents" as used above means articles, goods, wares and merchandise, packed, stored, manufactured or in the process of manufacture.

The term "combustible" as used above means articles, goods, wares or merchandise which will burn or support combustion.

The term "sprinkler" as used above means an adequate automatic sprinkler equipment installed and maintained in good working order on each floor.

The term "story" as used above means that part of a building between any floor and the floor or roof next above;—the first story is that part of a building which is more than 50 per cent above the floor below and the floor next above the curb or average grade level.

Where the stairway extends to the top floor of the building, such partitions shall extend to the under side of the roof boarding. That portion of the under side of the roof beams within the stair enclosure shall be covered with fire resisting material, except in buildings with roofs of non-combustible material, in which case the partitions may stop at the under side of the roof.

Where the stairway is required to extend to the roof, the enclosure shall be so built as to form a bulkhead. The enclosure shall be ventilated by a skylight in the roof with louvres or ventilators, or exterior windows with ventilating sections at the top floor.

All openings in such partitions shall be provided with approved self-closing fire doors, except where such openings are in the exterior wall of the building.

The bottom of the enclosure shall be of fireproof material at least four inches thick unless the partition extends to the cellar bottom.

A horizontal exit, as defined in section 267 of the Labor Law, will be accepted as a compliance with this rule when both sides of the fire wall or walls are occupied on any factory floor by the same occupant.

Rule 7. Where there are occupancies on any story or part of a story involving the storage or use below the top story of the following materials and exceeding the amount specified, and there are more than 5 persons employed at manufacturing above such occupancy, the interior stairway serving as required means of egress shall be enclosed on that story with fire resisting material from floor to under side of floor above, including any exposed stair soffits, landings and passageways; openings shall be provided with approved self-closing fire doors.

Nitrocellulose in any shape or form, 10 lbs.

Volatile inflammable oils, 1 gal.

Volatile inflammable mixtures, 5 gals.

Combustible mixtures, 10 gals.

Paints, varnishes and lacquers, 10 gals.

Upholstering or mattresses, manufacturing or repairing.

Cotton, rag and paper sorting, 1 ton.

Paper box manufacturing.

Restaurants and lunch rooms with cooking (not including tea, coffee or similar beverages).

The Board shall rule upon new occupancies as they arise and pass upon points under dispute.

When more than two stories are to be segregated, as above, the entire stairway shall be enclosed in fire-resisting material where there are more than 5 persons employed at manufacturing above the first story.

Rule 8. Required Exits and Enclosures of Stairways in Two-story Factory Buildings.

1. Required Exits.—In every two-story factory building erected prior to October 1, 1913, in which more than five persons are employed at manufacturing, there shall be provided from each story at least two means of exit or escape from fire remote from each other, one of which

RULES

from every floor above or below grade shall lead to or open on an interior stairway which shall be enclosed, as hereinafter provided, or on an exterior enclosed stairway. The other may lead to such a stairway, or to a horizontal or grade exit, or to an exterior screened stairway, or to a fire escape conforming to section 273, Labor Law, or rule 2 of these rules. Except that exit door shall be a fire door, with substantial steps to the sills properly secured when sill is more than 8 inches above the floor level; and where there is no safe egress from the roof, a gooseneck ladder shall be provided from top balcony to the roof, except on the front of buildings.

Unobstructed egress from the foot of the fire escape or exterior screened stairway shall be as required by section 273, Labor Law, or to open adjoining yard with egress to the street. No point on any floor of such building shall be more than one hundred and fifty (150) feet distant from such an exit.

Rule 9. Enclosure of Stairways.—In two-story buildings where there are occupancies on any story or part of a story involving the storage or use below the top story of any of the materials exceeding the amounts specified in Rule 7 and there are more than 5 persons employed at manufacturing above such occupancy, all interior stairways serving as required means of exit shall be enclosed from the lowest point of such stairway to the ceiling of the first floor by partitions of fire-resisting material, unless the building is provided with a wet sprinkler system, in which case such enclosure of stairways shall not be required. Such enclosures shall lead directly to a door opening outwardly to a street or road, or an open area affording unobstructed passage to a street or road. All openings in such enclosure shall be provided with fire doors equipped with self-closing devices.

All reference herein to "Enclosure of Stairways" shall be considered as applying only to required stairways.

Rule 10. Storage of Combustible Material Within Factory Stairway Enclosures.

In all factory buildings no articles or wares of any nature shall be kept or stored inside the limits of any stairway enclosure or unenclosed stairway, or on the landings, platforms or passageways connected therewith.

Section 3—Safe Egress from Roofs of Factory Buildings.

Rule 11. Interior stairways serving as required means of exit in factory buildings erected after October 1, 1913, and not exceeding five stories in height, and in buildings erected before October 1, 1913, now occupied or to be occupied as a factory, shall not be required to extend to the roof where there is no safe egress from the roof, under Sections 270, 271 and 272, Labor Law.

(a) When the roofs, or the top of the parapet wall of an adjoining building are more than eight feet below or more than five feet above the top of the parapet wall of the building in question, and there is no outside party wall fire escape, party wall exterior screened stairway, party wall balconies or bridges, or where any outside exits do not connect to adjoining buildings at roof level, or where there are no unbarred window openings five feet above the roof or parapet wall of the building in question.

(b) When the roof of the building in question has a pitch exceeding one foot in six feet of horizontal run.

Rule 12. (a) When there is no safe egress from the roof, as above described, there shall be in all cases at least a double-rung ladder at the top of the interior stairway, and within the interior stairway enclosure when stairway is enclosed. Such ladder shall be at least 18

inches in width and shall be properly secured at top and bottom. The ladder shall lead to a scuttle opening not less than 2 feet by 3 feet or be of such additional area as may be required to provide ample head room. The scuttle cover shall be hinged and of light weight construction, or be counter-balanced. An easily operated hook may be provided on scuttle cover.

(b) Where the stair bulkhead door opens within 10 feet from the open edge of the roof, an iron railing properly braced at least 3 feet high and at least 10 feet long shall be provided at the edge of roof.

SUBSTANDARD FACTORY EXITS.

Section 4—Fire Escapes.

Rule 13. When in addition to the required exits from any factory or factory building, there exist other means of egress which are not entirely in accordance with the requirements of the Labor Law and the Rules of the Board of Standards and Appeals, such means of egress may be retained under the following conditions:

(a) Fire Escapes.—All substandard fire escapes on factory buildings shall be maintained structurally safe, properly painted, and with the openings leading thereto, kept in good repair.

In lieu of a counter-balanced stairway, a drop ladder in guides with a back-drop gravity hook may be provided.

The drop ladder shall be of sufficient length to reach from the lowest balcony to the ground or safe landing place, with a passageway opening cut in the balcony rail, which rail shall be properly braced.

When such substandard fire escapes are located in a court, side or rear of a building, proper egress to a point of safety shall be provided, either to open adjoining yards, or the lowest balcony may be connected to an adjoining fire escape, exterior stairway, to the roof of adjoining extensions, or other means of egress satisfactory to the authorities having jurisdiction.

Substandard fire escapes shall be kept clear of all obstructions, shall not be used for fire drills, and shall not be considered as a basis for increase in occupancy.

Section 5—Stairways and Bridges.

Rule 14.—Interior Stairways.—All interior stairways not conforming to the requirements of the Labor Law or rules of the Board of Standards and Appeals may be retained, provided that egress to same is maintained unobstructed, halls are properly lighted, and all landings, passageways, etc., are maintained free and unobstructed. An easily operated panic bolt or other similar device may be installed at street exit door.

Rule 15.—Exterior Screened Stairways.—Exterior screened stairways not serving as a required means of egress shall be maintained structurally safe and properly painted, exits thereto and all platforms and passageways thereof shall be maintained unobstructed, and egress from termination shall be provided as required for substandard fire escapes in subdivision a.

Rule 16.—Horizontal Bridges.—Horizontal bridges and party wall balconies between buildings shall be maintained structurally safe and properly painted, and access thereto and all passageways thereof shall be maintained unobstructed.

Rule 17. No sign of any character shall be placed at openings leading to these sub-standard exits.

WARNING

Notice is hereby given to all petitioners, appellants and applicants, and to all lawyers, architects and engineers representing owners or lessees in proceedings before the board—

First, That if they do not appear in person or by representative at the hearing on their case, dismissal for lack of prosecution is likely to result.

Second, That due and ample notice of the date set for hearing is provided in the publication in this BULLETIN of the calendars of the board, each case being set down by Calendar Number and premises under the date of the hearing.

Third, That no plea of ignorance of the date of the hearing can be entertained in view of this publication and of the posting of the calendars on the bulletin board in the

offices of the board and of the further publication of the calendars in the daily press.

Fourth, That no one is entitled to written notice of the date for the hearing in his case, and that the plea of failure to receive such notice is no excuse for neglect to appear.

Fifth, That the business of the board is to dispose of all cases promptly, for the reason that the pendency of an appeal or petition ties the hands of the administrative official in enforcing his order; therefore, no appeal or petition will be allowed to be hung up by reason of failure of the appellant or petitioner to file necessary data, or by any other method of delay.

Sixth, That no appeal, application or petition will be accepted for filing unless, at the time of filing, all papers, plans and data required by law are supplied, as specified on the blank appeal, application or petition forms.

EDWARD V. BARTON, Chief Clerk

OFFICE—Municipal Building, Rooms 1001 to 1015.

TELEPHONE—WORTH 0184.

OFFICE HOURS—9 a. m. to 5 p. m. Saturdays 9 a. m. to 12 noon.

All communications should be addressed to the chairman of the board.

CONTENTS

This issue of the Bulletin contains, in the order given—

Docket.

Call of Clerk's Calendar.

The Trial Calendar.

Notices in Building Zone Cases.

Minutes of Regular Meeting, January 31, 1928, at 10 a. m.

Minutes of Regular Meeting, January 31, 1928, at 2 p. m.

Fire Drill Rules.

Appliances Approved.

Reserve Calendar.

Progress Report.

PUBLIC HEARINGS

Tuesdays, at 10 a. m. and 2 p. m.
Special meetings as published in this Bulletin.
Call of Clerk's Calendar, Tuesdays, at 2 p. m.
All hearings are held in Room 1013, Municipal Building, Manhattan.

HOURS FOR CONSULTATION

10 A. M. to 1 P. M.

Any person desiring to consult the chairman or the engineers, pertaining to the work of the board, will be seen only between the hours of ten in the morning and one in the afternoon—Saturdays excepted.

CALL OF CLERK'S CALENDAR

The *Clerk's Calendar* consists of applications under the Building Zone Resolution, and its object is to give interested property owners opportunity to file objections, if any, and will be called in Room 1013, Tuesday, February 7, 1928, at 2 o'clock. At this call each case is set for hearing on a definite day.

The next subsequent Call of the Calendar will be on Tuesday, February 14, 1928, at 2 o'clock.

The *Clerk's Calendar* is not to be confused with the calendar of cases that have been definitely set for hearing on fixed days.

NOTICE TO APPELLANTS AND PETITIONERS

No appeal, application or petition will be entertained in connection with which court proceedings are pending or in progress, nor accepted that are not filed within twenty days from the date of the action of the Administrative Official.

Any communication purporting to be an appeal, application or petition shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this board.

Upon receipt of any such communication the writer will be supplied with the official forms for presenting his appeal, application or petition, and if he fails to supply the data required thereon, within twenty days, his case may be dismissed for lack of prosecution.

At the time of filing an application, the appellant or petitioner shall forward a signed notice of appeal addressed to the administrative official (either superintendent of buildings or fire commissioner) and file with this board a duplicate of said notice.

Petitioners are advised that their plans must indicate the points of the compass so as to establish the true location and position of the property, the subject of the appeal.

Appeals, applications and petitions will be simplified and disposition of same expedited by conforming to these directions.

WILLIAM E. WALSH, Chairman,

Negative 0
Absent 0

THE RESOLUTION—

(921-27-A)

WHEREAS, William F. Doyle, for Shaw & Sanford, owners, filed, August 17, 1927, an appeal from an order of the fire commissioner, affecting premises 2202 Folin street, Borough of The Bronx; and

WHEREAS, the order of the fire commissioner, dated June 30, 1927, reads:

"With reference to your application dated June 11th, 1927, for a permit to maintain a motor vehicle repair shop at 2202 Folin Street, this location appears to be shown on the use district map accompanying the building zone resolutions of the Board of Estimate and Apportionment as a business district. Inasmuch as you are conducting or propose to conduct a business which is a prohibited use at this location, your application is denied.";

and

WHEREAS, the building is non-fireproof, one story in height, 81 ft. by 25 ft., irregular, in area; OCCUPIED as a work shop, one person; and

WHEREAS, appellant contends that the work done on the premises consists of crank case and ignition service and minor adjustments to automobiles; that the machinery used is limited to a one-half horse power electric hand drill and that no painting or forge work is done on the premises.

Resolved, that the order of the fire commissioner be and it hereby is modified, and the appeal be and it hereby is granted on condition that the work performed on motor vehicles at these premises shall be restricted to that of minor

MINUTES

adjustments by manual operation; that there shall be no anvils, open torches, flames or forges operated on the premises or any machinery used or operated on these premises in conjunction with the aforesaid repairs other than a one-half horse power electric drill; that the building shall not be increased in height, area or dimension, and granted only as long as conditions as to operation and use otherwise remain unchanged.

922-27-A.
APPELLANT—William F. Doyle, for Frank Shaw, owner.
SUBJECT—Appeal from decision of the fire commissioner.
PREMISES AFFECTED—2214 Folin street, The Bronx.

APPEARANCES—
For Appellant: William F. Doyle.
For Administration: Inspector Meyer of fire department.

ACTION OF BOARD—Appeal granted on condition.

THE RESOLUTION—

(922-27-A)

WHEREAS, William F. Doyle, for Frank Shaw, owner, filed, August 17, 1927, an appeal from an order of the fire commissioner, affecting premises 2214 Folin street, Borough of The Bronx; and

WHEREAS, the order of the fire commissioner, dated July 14, 1927, reads:

"With reference to your application, dated May 19, 1927, for a permit to maintain a motor vehicle repair shop and service station at 2214 Folin Street, The Bronx, this location appears to be shown on the use district map accompanying the building zone resolution of the Board of Estimate and Apportionment as a business district. Inasmuch as you are conducting or propose to conduct a business which is a prohibited use at this location, your application is denied."

and
WHEREAS, the building is non-fireproof, two stories in height, 122.37 ft. by 37.95 ft., irregular, in area; OCCUPIED as a public garage and work shop, five persons; and

WHEREAS, appellant contends that the work done consists of relining automobile brakes, greasing cars and a small amount of welding is done; that the machinery used is limited to a one-half horse power electric hand drill and that no painting or forge work is done on the premises.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that the repair work conducted on these premises shall be incidental to the conduct and operation of a garage, consisting of minor adjustments by manual operation; that there shall be no open torch, flame or forge maintained or operated and that all repair work shall be restricted to the northerly portion of the first story, separated from the adjoining southerly portion by an unpierced masonry wall; that the ceiling of the work shop shall be of fireproof construction; that there shall be no machinery maintained or operated in conjunction with the conduct of this business other than a one-half horse power portable electric drill; that the building shall not be increased in height, area or dimension.

943-27-A.
APPELLANT—Louis F. Mesmer, Inc., owner.
SUBJECT—Appeal from order of the fire commissioner.
PREMISES AFFECTED—1160-1176 Flushing avenue, Brooklyn.

APPEARANCES—

For Appellant: H. S. Keithly.
For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Appeal granted on condition.
THE VOTE—

Affirmative: Chairman Walsh, Commissioners Connell, Holland and Guilfoyle and Chief Kenlon	3
Negative	0
Absent	0

THE RESOLUTION—

(943-27-A)

WHEREAS, Louis F. Mesmer, Inc., owner, filed, August 22, 1927, an appeal from an order of the fire commissioner, affecting premises 1160-1176 Flushing avenue, Borough of Brooklyn; and

WHEREAS, the order of the fire commissioner, dated June 28, 1927 (Order No. 23715-F), reads:

"1. Install a standpipe system with risers 4 inches in diameter tested to withstand a pressure of 300 lbs. per square inch, extending from cellar to roof, with necessary check valves and 2½ inch regulation Fire Department outlets on each story (including basements, cellars and roofs), placed within main stairway enclosure."

and

WHEREAS, the building is non-fireproof, one story in height, 170 ft. 6 in. by 176 ft., 30,000 sq. ft. in area; OCCUPIED as a warehouse for the storage of millwork; and

WHEREAS, the appellant proposes to install a 100 per cent sprinkler system instead of providing a standpipe system; furthermore, the appellant contends that a sprinkler system will provide greater fire protection than any standpipe system could possibly do.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that the building shall not be increased in height, area or dimension, and that the premises throughout shall be equipped with a wet sprinkler system with connections to the city water mains on both street fronts; that the sprinkler system shall be installed in accordance with the rules of the board of standards and appeals and that the work on the installation of this system shall be begun within thirty days from the date of this action.

970-27-A.

APPELLANT—Croker Natl. Fire Prev. Eng. Co., for Max Engel & Son, owner.

SUBJECT—Appeal from order of the fire commissioner.
PREMISES AFFECTED—130 Osborn street, Brooklyn.

APPEARANCES—

For Appellant: Herman E. Horwood.
For Administration: Inspector Meyer of fire department.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Walsh, Commissioners Holland and Guilfoyle and Chief Kenlon	4
Negative: Commissioner Connell	1
Absent	0

THE RESOLUTION—

(970-27-A)

WHEREAS, Croker National Fire Prevention Engineering Co., for Max Engel and Son, owner, filed, September 2, 1927, an appeal from an order of the fire commissioner, affecting premises 130 Osborn street, Borough of Brooklyn; and

WHEREAS, the order of the fire commissioner, dated December 26, 1925 (Order No. 99985-LC), reads:

"With reference to your application, Oct. 14, 1925, for a permit to store matches at the above location, I regret to inform you that I am without power to grant

MINUTES

such a permit for the reason that Section 101-a & B Chapter 10, Code of Ordinances, provides that no permit shall be issued for the storage of matches in a building of wooden construction, which is occupied as a tenement house, dwelling, school, workshop, factory, theatre or other place of public amusement or assembly.

"You are therefore ordered to reduce the quantity of matches stored on premises to 60 matchmans gross."; and

WHEREAS, the building is of brick and frame construction, two stories and cellar in height, 23 ft. by 60 ft. in area at first story and 23 ft. by 40 ft. in area above; OCCUPIED: cellar, storage of matches; first story, storage of cigars, 6 persons; second story, storage of cigars, no occupancy; and

WHEREAS, the appellant claims that the walls of cellar are of brick and stone, the floor concrete and the ceiling is sheet metal covered; that the cellar is used for the storage of 36 matchman's gross stick matches; that the residence occupancy on second story, existing at the time of issuing the order, has been discontinued; furthermore, the appellant contends that the matches stored are of the safety type; that the amount of stick matches stored are less than the amount legally permitted; that the code of ordinances does not mention book matches.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that a closet of fireproof construction shall be constructed in the basement at the front wall, this enclosure not to exceed in floor area six feet square, built of four-inch terra cotta blocks, with the ceiling supported on T irons with terra cotta book tile, with one opening to the outer air at the front wall and not more than one opening from the cellar, equipped with self-closing, kalamein door; all matches stored on these premises shall be maintained in this fireproof enclosure and shall be limited to 100 matchman's gross, and that an approved 2½-gallon fire extinguisher shall be maintained at the outside of this vault at cellar level.

901-27-A.

APPELLANT—Samuel Rosenblum, for Colonial Works, lessee.

SUBJECT—Appeal from order of the fire commissioner.
PREMISES AFFECTED—223-237 Norman avenue, 239-249 North Henry street and 200-210 Russell street, Brooklyn.

APPEARANCES—

For Appellant: Samuel Rosenblum.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Appeal granted on condition.
THE VOTE—

Affirmative: Chairman Walsh, Commissioners Connell, Holland and Guilfoyle and Chief Kenlon

Negative

THE RESOLUTION—

(901-27-A)

WHEREAS, Samuel Rosenblum, for Colonial Works, lessee, filed, August 8, 1927, an appeal from an order of the fire commissioner, affecting premises 223-237 Norman avenue, 239-249 North Henry street and 200-210 Russell street, Borough of Brooklyn; and

WHEREAS, the order of the fire commissioner, dated July 9, 1927 (Order No. 11632-LC), reads:

"Install a standpipe 4 inches in diameter tested to withstand a pressure of 300 lbs. per square inch extending from cellar to roof with necessary check valves and 2½ inch regulation fire department outlets, etc. Plans and specifications to be filed with an approved by the Fire Department before work of installing standpipe is commenced.";

and

WHEREAS, the building, facing on three street fronts, consists of three interconnected sections; the westerly section being fireproof, five stories (60 ft. 2 in.) in height, 78 ft. 7 in. by 120 ft. (approximately 9,400 sq. ft.) in area; the center section is two and three stories (42 ft.) in height, 46 ft. 5 in. by 95 ft. (approximately 4,300 sq. ft.) in area; the easterly section is non-fireproof, three stories (42 ft.) in height, 75 ft. by 120 ft. (approximately 9,000 sq. ft.) in area, a total area of approximately 22,700 sq. ft.; OCCUPIED: westerly section, for the manufacture and storage of paints, 8 persons per story; center section, boiler room and offices, 25 persons in entire section; easterly section, vacant at present; and

WHEREAS, appellant contends that many of the openings connecting the sections are provided with fire doors; that the entire premises are protected with a sprinkler system having pressure and gravity tank supplies; that it is open on three sides and requests the omission of the required standpipe system.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that the easterly three-story section shall be cut off from the remainder of the premises by building up with approved masonry all openings in the fire wall in the westerly brick wall of the easterly three-story section; that the five-story section and the existing center section shall be equipped throughout with an approved two-source wet sprinkler system with central office connection; that there shall be installed and maintained on each floor of the five-story section a mounted fire extinguisher, acceptable to the fire department, the fire extinguishing contents of which shall be renewed every twelve months; that all horizontal openings between the five-story westerly section and the two and three story center section shall be equipped as approved fireproof openings; that the center and westerly sections shall be maintained and operated in single tenancy and operation, and that the building shall not be increased in height, area or dimension.

THE RESOLUTION—

(863-27-BZ)

WHEREAS, Gardiner Conroy, for Samuel Axelrod, owner, filed, July 28, 1927, an application, under the building zone resolution, to permit, partly in a business district and partly in a residence district, the erection and maintenance of a gasoline service station; premises 1301-1319 65th street, Borough of Brooklyn; and

WHEREAS, a public hearing was held on this application by the board of standards and appeals, at its regular meeting, January 31, 1928, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that 65th street is in a residence district, 13th avenue is in a business district and 64th street is in a residence district; and

WHEREAS, the decision of the superintendent of buildings, rendered December 6, 1927 (App. No. 11926-1927), reads:

"Proposition contrary to the Zone Resolution, Art. II, Sec. 3 and Sec. 4a and 4b.

"The installation of a gasoline service station and uses accessory thereto, partly in a business and partly in a residence district.";

and

WHEREAS, the premises consist of a plot of ground 120 ft. by 160 ft., irregular, in area, on which it is proposed to erect a small office building and install the necessary pumps and tanks for a gasoline service station; and

WHEREAS, the board deemed that applicant did not substantiate his basis of appeal brought under section 21 of the building zone resolution.

Resolved, that the decision of the superintendent of buildings be and it hereby is affirmed, and the application be and it hereby is denied.

THE RESOLUTION—

(833-27-BZ)

WHEREAS, McCooley & Conroy, substituted for H. Sidney Landau, for Beth Hakanesseth Talmud Torah of Kings Highway, Inc., owner, filed, July 21, 1927, an application, under the building zone resolution, to permit in an "E" area and residence use district the erection and maintenance of a building set back less than 10 ft. from the street line and occupying more than 50 per cent of the area of the lot, and also provided with a yard of less area than required by the building zone resolution; premises 1202-1218 Avenue P and 1611 East 12th street, Borough of Brooklyn; and

WHEREAS, a public hearing was held on this application by the board of standards and appeals, at its regular meeting, January 31, 1928, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the district maps accompanying the building zone resolution show that the area between the two east and west lines located 100 ft. north and 100 ft. south of Avenue P is in "E" area and residence use districts; the area on the north and south of above area is in "C" area and residence districts; and

WHEREAS, the decision of the superintendent of buildings, rendered November 3, 1926 (App. No. 19685-1926), reads:

"Proposed building to be used as a gymnasium and a bible class in the cellar and as a synagogue on the 1st fl. and balcony is contrary to the Zone Resolution as to (1) Art IV Sec. 15 (a) as to rear yard in a residence district."

and

WHEREAS, the proposed building is to be of non-fireproof construction, two stories in height, with a frontage of 71 ft. 6 in. and a depth of 79 ft. 6 in.; to be occupied as a gymnasium and synagogue, having the front stoop built on the street line and the main front wall of the building set back 6 ft. 2 in. from the street line; the building to occupy

MINUTES

76.4 per cent of the area of the interior lot and the yard to be 4 ft. in depth; the zone resolution requires 10 ft. set back from the street line and permits not more than 50 per cent of the lot to be occupied at curb level and not more than 30 per cent of the lot above the height of 18 ft. above curb level, and permits a yard not less than 25 ft. in depth; there is an existing corner building used in conjunction with the proposed synagogue; and

WHEREAS, the building proposed is an adjunct to the existing house of worship abutting to the west, the entire plot being in one ownership and having been purchased for the development of religious activities, the board deems that applicant has substantiated his basis of appeal under section 21 of the building zone resolution.

Resolved, that the board of standards and appeals does hereby make a variation in the application of the area district regulations of the building zone resolution, and that the application be and it hereby is granted on condition that the use and occupancy shall be restricted exclusively to the conduct of the activities of the religious corporation owning and operating this building in conjunction with the existing house of worship adjoining on the corner; that no part of the structure shall be rented, leased or hired for commercial use or operation; that the building shall be erected substantially in accordance with the elevations and plans as filed in this application; that the exterior of the gable and rear walls shall be finished with finished building materials, either face brick or natural stone; that all permits required shall be obtained within nine months and all work completed within eighteen months from the date of this action.

1270-27-BZ.

APPLICANT—Mortimer E. Freehof, for Congregation Beth Elohim, owner.

SUBJECT—Application (re decision of the superintendent of buildings) under section 21 of the building zone resolution, to permit in a "D" area district extending from a "B" area district and also in a residence district, the erection and maintenance of a building occupying a greater per cent of the area of the lot than that permitted under the zone resolution.

PREMISES AFFECTED—169-179 Eighth avenue and 276 Garfield place, Brooklyn.

APPEARANCES—

For Applicant: Meyer Steinberg.

For Opposition: None.

ACTION OF BOARD—Application granted on condition.

THE RESOLUTION—

(1270-27-BZ)

WHEREAS, Mortimer E. Freehof, for Congregation Beth Elohim, owner, filed, December 3, 1927, an application, under the building zone resolution, to permit in a "D" area district, extending from a "B" area district and also in a residence use district, the erection and maintenance of a building occupying a greater percentage of the area of the lot than that permitted under the zone resolution; premises 169-179 Eighth avenue and 276 Garfield place, Borough of Brooklyn; and

WHEREAS, a public hearing was held on this application by the board of standards and appeals, at its regular meeting, January 31, 1928, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the district maps accompanying the building zone resolution show that the area between the two north and south lines located 100 ft. east and 100 ft. west of Eighth avenue is in a "D" area and residence use district

and the area on the east and on the west of above area is in a "B" area and residence use district; and

WHEREAS, the decision of the superintendent of buildings, rendered November 4, 1927 (N. B. No. 20577-27), reads:

"1. Allowable occupied area of plot in D area district as per Art. IV Sect. 14C is being exceeded. Area permitted to be occupied totals 7,900 sq. ft. Proposed occupied area is 9,550 sq. ft.";

and

WHEREAS, the proposed building is to be of fireproof construction, four stories and basement in height, with a frontage of 95 ft. on Eighth avenue and 112 ft. on Garfield place; to be occupied as a place of public assembly, with gymnasium, dance hall, chapel and club rooms; the building to occupy 90.4 per cent of the corner lot and 94.3 per cent of the interior portion of the lot; the building zone resolution permits not more than 80 per cent occupancy of a corner lot and not more than 60 per cent of an interior lot where the premises are within a "D" area and residence district; and

WHEREAS, the proposed structure is opposite, on the same street front, to an existing house of worship, a religious temple, and the proposed use and occupancy of the premises under appeal is for social welfare and religious service, adjunct to the existing temple or house of worship and in the same corporate ownership.

Resolved, that the board of standards and appeals does hereby make a variation in the application of the area district regulations of the building zone resolution, and that the application be and it hereby is granted on condition that the use and operation of the premises shall be restricted for use and occupancy as an adjunct to the institutional use of the existing house of worship in the same ownership and situated on the northeast corner of Garfield place and Eighth avenue; that the proposed structure shall be erected as to design substantially in accordance with the elevations and plans filed in this appeal; that the exterior of the gable walls shall be of finished building material; that no part or portion of the premises shall be hired or leased for commercial use or tenancy; that all necessary permits shall be obtained within nine months and the work completed within eighteen months from the date of this action.

1268-27-BZ.

APPLICANT—John W. Hahner, for 128 West 30th Street Corporation, owner.

SUBJECT—Application (re decision of the superintendent of buildings) under section 21 of the building zone resolution, to permit in a two-times height district the erection and maintenance of the street walls in excess of the height permitted by the zone resolution.

PREMISES AFFECTED—128-134 West 30th street, Manhattan.

APPEARANCES—

For Applicant: Murray Hulbert.

For Opposition: None.

ACTION OF BOARD—Application granted on condition.

THE RESOLUTION—

(1268-27-BZ)

WHEREAS, John W. Hahner, for 128 West 30th Street Corp., owner, filed, December 2, 1927, an application, under the building zone resolution, to permit in a two times height district the erection and maintenance of the street walls in excess of the height permitted under the zone resolution; premises 128-134 West 30th street, Borough of Manhattan; and

MINUTES

WHEREAS, a public hearing was held on this application by the board of standards and appeals, at its regular meeting, January 31, 1928, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the district maps accompanying the building zone resolution show that West 30th street, West 29th street and Sixth avenue are in two times height districts and unrestricted use district; and

WHEREAS, the decision of the superintendent of buildings, rendered June 4, 1927 (N. B. Applic. No. 233-27), reads:

"1. Setbacks at front of building should comply with height regulations as per Sec. 8, Art. 3, Building Zone Resolution."

and

WHEREAS, the proposed building is to be of fireproof construction, 18 stories in height, with a frontage of 82 ft. 7 in. and a depth of 98 ft. 9 in.; to be occupied as office, show rooms and light manufacturing; it is proposed to extend the street wall of a proposed business building in a two times height district above the height permitted by the zone resolution for a small portion, reducing height of dormer accordingly, on each side of the permitted dormer; the triangular area on each side at first set back being 20 ft. by 8 ft. 3 in. or a total area of 165 sq. ft. in lieu of an allowable area of 620 sq. ft. at second or third set back, a total area of 75 sq. ft. for second and 419 sq. ft. for third in lieu of an allowable area of 803 sq. ft.; and

WHEREAS, the board deemed that the relief asked was reasonable and that the application properly came within the exercise of its discretion as an appropriate case for variation in the application of rectangular set back in lieu of the triangular dormer, thereby decreasing by approximately one-half the bulk of the building permitted by the application of the triangular dormer regulations.

Resolved, that the board of standards and appeals does hereby *make a variation* in the application of the height district regulations of the building zone resolution, and that the application be and it hereby is *granted*, only so far as it affects a portion of the dormer set backs on the street front, *on condition* that the building be erected in accordance with the design and plans submitted in this application and that the dimensions shall not exceed those indicated on the plans filed and of record; that the requirements of the building zone resolution otherwise, as to yards, areas and set backs, shall be complied with in all respects; that all permits required shall be obtained within nine months and the work completed within eighteen months from the date of this action.

896-27-BZ.

APPLICANT—Edward P. Doyle, for Charles Sengen, owner.

SUBJECT—Application (re decision of the superintendent of buildings) under sections 7(a), 7(b) and 21 of the building zone resolution, to permit in a business district the extension in height and area of an existing building occupied as a motor vehicle repair shop and garage for the storage of more than five (5) motor vehicles.

PREMISES AFFECTED—13-15 Sumpter street, Brooklyn.

APPEARANCES—

For Applicant: Edward P. Doyle, John D. Thompson and Charles Senger.

For Opposition: Joseph B. Merkert, L. Knoller and Mrs. Waters.

ACTION OF BOARD—Application granted on condition.

THE RESOLUTION—

(896-27-BZ)

WHEREAS, Edward P. Doyle, for Charles Sengen, owner, filed, August 8, 1927, an application, under the building zone resolution, to permit in a business district the extension in area and height of an existing building (motor vehicle repair shop); to be occupied as a motor vehicle repair shop and garage for the storage of more than five motor vehicles; premises 13-15 Sumpter street, Borough of Brooklyn; and

WHEREAS, a public hearing was held on this application by the board of standards and appeals, at its regular meeting, January 31, 1928, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Sumpter street is in a business district, Fulton street is in a business district and Marion street is in a residence district; and

WHEREAS, the decision of the superintendent of buildings, rendered August 3, 1927 (App. No. 13962-1927), reads:

"1. Proposed extension in area and additional story for use of a public garage for more than five cars and motor vehicle repair shop of present structure located in a business district is contrary to Art. II, Sec. 6, Zoning Resolutions, and is hereby denied."

and

WHEREAS, the premises consist of a plot of ground having a frontage of 50 ft. and a depth of 100 ft.; 5 ft. east of the westerly building line there is an existing one-story non-fireproof building, 20 ft. by 94 ft. 9 in. in area, occupied as a motor vehicle repair shop; it is proposed to increase the area and height of this building by the erection of a second story and by the erection thereto of a two-story addition having a frontage of 25 ft. and a depth of 100 ft.; the entire structure to be occupied as a motor vehicle repair shop and garage; and

WHEREAS, there is an existing garage on a portion of this plot; and

WHEREAS, the applicant has made diligent and earnest efforts to obtain 80 per cent consents of affected property owners and lacks but 67 ft. of the property required to constitute such 80 per cent of consents to bring the application under section 7, subdivision g; and

WHEREAS, applicant has filed 53 consents of owners of property within the area affected.

Resolved, that the board of standards and appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted on condition* that the structure shall not exceed in height a two-story building above grade; that the second story shall set back 10 ft. from the rear yard line at the second story level; that the gable and rear walls, first story, shall be unpierced throughout their entire height and length; that the building shall be constructed fireproof throughout; that the front elevation shall be of face brick and architectural terra cotta or stone trimmings; that any vehicular opening in the front of the building shall not exceed a height of 10 ft.; that all necessary permits shall be obtained within six months and the work completed within one year from the date of this action.

962-26-BZ.

APPLICANT—McCooley & Conroy, substituted for James A. Higgins, for Rodman Building Corp., owner.

SUBJECT—Application for reopening—extension of time in which to procure permits and complete work—re application filed November 23, 1926 (decision of superintendent of buildings) under section 21 of the building zone resolution, to permit in a residence district the erection and maintenance of an apartment house with stores on the first story.

PREMISES AFFECTED—8504-8510 21st avenue, Brooklyn.

THE RESOLUTION—

(962-26-BZ)

WHEREAS, James A. Higgins, for Rodman Building Corp., owner, filed, November 23, 1926, an application, under the building zone resolution, to permit in a residence district the erection and maintenance of an apartment house with stores on the first story; premises 8504-8510 21st avenue, Borough of Brooklyn; and

WHEREAS, a public hearing was held on this application by the board of standards and appeals, at its regular meeting, April 12, 1927, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that 85th street is in a residence district, 86th street is in a business district and 21st avenue is in a residence district; and

WHEREAS, the decision of the superintendent of buildings, rendered November 6, 1926 (Applic. No. 20801-1926), reads:

"Proposition contrary to the Zone Resolution, Art. II, Section 3.

"The erection of stores in a residential district.";

and

WHEREAS, the proposed building is to be of non-fireproof construction, five stories in height, with a frontage of 100 ft. on 21st avenue and 100 ft. on 85th street; to be occupied as an apartment house with stores on the first story; and

WHEREAS, the board deemed that applicant substantiated his basis of appeal under section 21 in that property under appeal is contiguous to existing business structure and occupancy, and applicant therefore is entitled to relief; and

WHEREAS, this application was granted by the board at its meeting, April 12, 1927, on certain conditions, and applicant requests an extension of time.

Resolved, that the board of standards and appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted on condition* that the business use shall be restricted to the 21st avenue frontage to the first story for a depth not exceeding thirty (30) ft.; that there shall be no show window return or display on the 85th street front; that the 85th street front throughout shall be finished with face brick and architectural terra cotta and with architectural treatment of openings of attractive design; that the brick wall of 85th street frontage shall be returned on the 21st avenue front for a distance of not less than 16 in.; that any advertising signs or display shall be restricted to the plate glass show windows of the store fronts only; that there shall be no advertising of any nature or description or signs permitted or erected on the 85th street front of the structure; that a return of proposed elevation shall be submitted to this board for approval before submission to the superintendent of buildings for consideration; that the use and occupancy shall be restricted to retail mercantile business; that no portion of the premises shall be rented, leased or conducted as a delicatessen store, meat market or fish store; that no produce or mercantile wares shall be exposed on the outside of the building, and that all permits required shall be obtained within six months and any work involved shall be completed within one year from January 31, 1928, and that the building otherwise shall be constructed in accordance with the building zone resolution in all other respects.

AREA FIXED.

(540-27-BZ)

The chairman presented and read a communication from Henry J. Nurick, requesting the board to fix the area deemed affected and within which to obtain consents for the erection and maintenance of a garage for the storage of more than five motor vehicles; premises 725-727 Bedford avenue, Borough of Brooklyn.

The following area was approved by the board:

Both sides of Bedford avenue from a point 200 ft. north of Flushing avenue to a point 400 ft. south of premises in question; also both sides of Flushing avenue from a point 100 ft. east of Bedford avenue to a point 100 ft. west of Bedford avenue.

Adjourned 3.50 p. m.

WILLIAM J. O'GORMAN, *Secretary*.

THE RESOLUTION—

(800-27-S)

WHEREAS, Julius Eckmann, for J. Waldron Gillespie, owner, filed July 11, 1927, a petition for variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises Nos. 120-122 E. 59th street, Borough of Manhattan; and

WHEREAS, the order of the fire commissioner, dated May 13, 1927 (Order No. 20664-LD), reads:

"1. Arrange the fire escape at rear of building serving as a required means of exit so that same will conform to Section 274 of the Labor Law and the Rules of the Board of Standards and Appeals, adopted February 23, 1927.

"Defects noted are as follows:

"No safe egress from termination to street.";

and

WHEREAS, the building, separated into two sections by a fore and aft wall with openings therein, protected by fireproof doors, is non-fireproof, 4 stories in height, 33 ft. 5 in. by 100 ft. in area at 1st story and 33 ft. 4 in. by 52 ft. in area above; OCCUPIED: 1st story, store and restaurant, 90 persons; 2nd story, offices, 30 persons; 3rd story, offices and manufacture of coats, 30 persons; 4th story, offices and manufacture of coats, 30 persons; EXITS: an interior wooden stairway, extending from the 1st story to roof; enclosed in fire-retarding partitions with kalameined doors at openings; a fire escape on the rear of the building, hav-

ing fireproof openings along the course thereof, extending from the top story balcony to the roof of the 1st story extension; with EGRESS from the termination of the fire escape by means of a proposed iron stairs extending from the extension roof to the yard of premises to the west; thence through store of building to the west, to street; ROOFS of adjoining buildings: to west, same level; to east, two stories higher; and

WHEREAS, petitioner requests the acceptance of the proposed means of egress from the termination of the fire escape;

Resolved, that the order of the fire commissioner be and it hereby is *affirmed*, and that the petition be and it hereby is *denied*.

THE RESOLUTION—

(966-27-S)

WHEREAS, Croker Natl. Fire Prev. Eng. Co., for Isaac Dashawsky, owner, filed August 31, 1927, a petition for variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 240-6 Newport avenue, Borough of Brooklyn; and

WHEREAS, the order of the fire commissioner, dated July 20, 1926 (Order No. 99392-LD), reads:

"1. Provide an enclosure of fireproof material around

stairway, south side extending from 1st story to 3' above roof as per Sec. 270 of the Labor Law.";

and

WHEREAS, the building is non-fireproof, 3 stories in height, 100 ft. by 102 ft. 6 in. in area; OCCUPIED: for the manufacture of furniture; cellar, storage, 3 persons; 1st story, millwork, 50 persons; 2nd story, assembling, 35 persons; 3rd story, finishing, 35 persons; EQUIPPED with a fire alarm signal system; EXITS: two interior steel stairways, the northerly stairway extending from the 1st story to roof (the southerly stairway extends from 1st story to top story) enclosed in brick walls (except 3rd story of southerly stairway) with fireproof doors at openings; no adjoining buildings; and

WHEREAS, the petitioner claims that in addition to the southerly stairway in question, there is a fireproof enclosed stairway at north (front) of the building extending from the cellar to the roof; furthermore, the petitioner contends that there is no safe means of egress from roof and no additional protection would be gained by enclosing the southerly stairway at top story; and

WHEREAS, there is no proof of the legal occupancy of the premises;

Resolved, that the order of the fire commissioner be and it hereby is affirmed, and that the petition be and it hereby is denied.

WHEREAS, United Real Estate Owners' Association, substituted for David M. Jones, for S. I. Weinberg, lessee, filed July 21, 1927, a petition for variation from the requirements of the labor law, and affecting premises No. 163 E. 54th street, Borough of Manhattan; and

WHEREAS, the order of the fire commissioner, dated June 30, 1927 (Order No. 23948-LD), reads:

"2. Extend the interior stairway at the west side of No. 163 to the roof as per Section 271 of the Labor Law.";

and

WHEREAS, the building separated into two sections by a fore and aft wall with openings on the 2nd, 3rd and 4th stories, protected by fireproof doors, 4 stories in height, 45 ft. by 80 ft., irregular in area; OCCUPIED: (No. 161), 1st story, store; 2nd story, furniture repairs, 3 persons; 3rd story, upholstering, 3 persons; 4th story, storage, no persons; (No. 163), 1st story, store; 2nd story, electrician, 5 persons; 3rd story, upholstery, 5 persons; 4th story, storage, 5 persons; EXITS: (No. 161), an interior wooden stairway, extending from the 1st story to roof; enclosed in fire-retarded partitions with wood doors at openings; (No. 163), an interior wooden stairway, extending from the 1st story to top story; enclosed in wood lath and plaster partitions with wood doors at openings; a sub-standard fire escape on the front of No. 163 and a standard fire escape on the front of No. 161 E. 54th street, having fireproof

MINUTES

openings along the course thereof, extending from the roof to the 2nd story balcony; with EGRESS from the termination of the fire escape by means of a counter-balanced stair to street; ROOFS: of adjoining buildings: to west, same level; to east, one story higher; and

WHEREAS, petitioner proposes to connect the balconies of the fire escape on the front of No. 163 to the balconies on the standard fire escape on the front of No. 161 and to provide in the top story of No. 163 a double-rung iron ladder to a scuttle in the roof;

Resolved, that the board of standards and appeals does hereby make a variation in the requirements of the labor law, and that the petition be and it hereby is granted on condition that a party wall fire escape shall be provided to the adjoining premises to the west, on the front of the building, with stairs from top story balcony to the roof; that a fixed double-rung iron ladder shall be provided from the top story hall to a counterbalanced scuttle in the roof; and that the occupancy shall be restricted to the legal capacity of the interior stairs in the westerly section of the premises.

THE RESOLUTION—

(752-27-S)

WHEREAS, William H. Fuhrer, for Cushman's Sons, Inc., lessee, filed June 27, 1927, a petition for a variation from the requirements of the labor law, as cited in order of the fire commissioner, affecting premises 2861-2865 Broadway, Borough of Manhattan; and

WHEREAS, the order of the fire department, dated January 21, 1927, reads:

"Order No. 9297—

"1. Provide an additional means of exit on the 2nd story accessible to all persons on this story, remote from present stairway, as per Rule 3, Board of Standards and Appeals adopted July 29th, 1924.";

and

WHEREAS, the building is non-fireproof, 2 stories in height, 50 ft. by 75 ft. in area; OCCUPIED: Cellar bakery, 10 persons; 1st story, stores, 10 persons; 2nd story, offices and factory, dressmaking, 13 persons; MEANS OF EGRESS consist of interior stairway, extending from the 1st story to the 2nd story on the West 111th street front, enclosed in fireproof partitions on 1st story and non-fireproof partitions on 2nd story with wood doors at the openings; a proposed fire escape from the roof of one story extension to the roof of main building; means of egress from cellar consisting of a stairway to West 111th street, and a stairway at the rear leading into the store on 1st story, with egress through store to West 111th street; and

WHEREAS, petitioner contends that the occupants of the 2nd story are engaged at work during the day and the occupants of the cellar work at night, and that there is never a maximum number of occupants in the premises at any one time; that the ceiling of the cellar bake-shop is fire-retarded and that there is egress from the roof to an

adjoining two-story building, and that the proposed fire escape on the 2nd story will provide adequate means of egress;

Resolved, that the board of standards and appeals does hereby make a variation in the requirements of the labor law, and that the petition be and it hereby is granted on condition that a fire escape balcony shall be erected at the second story with egress from each subdivided tenancy to the said balcony; that the balcony shall be provided with a counter-balanced drop ladder in guides, one at each end of the balcony; that the building shall be not increased in height or area; and this variation is granted only so long as conditions as to occupancy and use remain substantially unchanged.

641-27-S.

PETITIONER—Edward P. Doyle, for Estate of J. McCutcheon, owner.

SUBJECT—Variation of the labor law as cited in order of the fire commissioner.

PREMISES AFFECTED—607-609 Fifth avenue, Manhattan.

APPEARANCES—

For Petitioner: Edward P. Doyle, Eugene P. Higgins.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition granted on condition.

THE VOTE—

THE RESOLUTION—

(641-27-S)

WHEREAS, Edward P. Doyle, for Estate of J. McCutcheon, owner, filed June 7, 1927, a petition for a variation from the requirements of the labor law as cited in order of the fire commissioner, affecting premises 607-9 Fifth avenue, Borough of Manhattan; and

WHEREAS, the order of the fire commissioner, dated March 16, 1927, reads:

"1. Arrange all doors leading from rooms to corridors on all stories to open outwardly. Sec. 270 of the Labor Law.";

and

Decision of superintendent of buildings rendered January 3, 1928, making request for certificate of occupancy, reads:

"Replying to your communication of December 14th, our inspector reports that before a certificate of occupancy can be issued for the premises the following objections must be removed:

"1. All doors leading from subdivided floor areas to public corridors on all floors do not open outwardly. (Section 270.)

"2. Existing plain glass in doors and transoms over same are unlawful. All doors should be fire doors. (Sec. 261 & 264.)

"3. Wood partitions erected on portions of various floors, combustible floor finish and wood trim are unlawful. (Sec. 264 and 270.)

"4. Existing wire glass panes in doors leading to fire tower and on fire tower balconies on all floors are unlawful. (Sec. 266.)

"5. Unobstructed egress to fire tower should be provided on all floors (Sec. 272). It is noted that on numerous floors access to same is obstructed by partitions enclosing separate tenant space.

"6. All exits are not clearly and lawfully indicated with exit signs having letters not less than 8" high.

"7. Plain glass in doors to locker room and office at mezzanine level from main stair is unlawful.";

and

MINUTES

WHEREAS, the building is fireproof, 12 stories in height, 53 ft. by 175 ft., irregular in area; OCCUPIED: 1st story, stores; upper stories, office showrooms and tenant factories (tailoring, photography, jewelry, architect, etc.), approximately 40 persons per story; EQUIPPED with a sprinkler system; EXITS: Two interior fireproof stairways, extending from 1st story to roof, enclosed in fireproof partitions with fireproof doors at openings.

Resolved, that the board of standards and appeals does hereby *make a variation* in the requirements of the labor law, and that the petition be and it hereby is *granted* only so far as it affects the basement, first, second, third and fourth stories of this building *on condition* and so long as it remains in single tenancy, use and occupation; that the industrial work in this building on these premises shall be restricted to the minor alteration and adjustment of merchandise of the tenant and occupant of the basement, first, second, third and fourth stories; and that the requirements of the labor law shall be complied with in all other respects as to the remainder of the building.

860-27-S.

PETITIONER—William F. Doyle, for Saks Realty Corp., owner.

SUBJECT—Variation of the labor law as cited in orders of the fire commissioner.

THE RESOLUTION—

(860-27-S)

WHEREAS, William F. Doyle, for Saks Realty Corp., owner, filed July 28, 1927, petition for variation from the requirements of the labor law as cited in an order of the fire commissioner affecting premises 1293-1311 Broadway, Manhattan; and

WHEREAS, the orders of the fire commissioner, dated June 8 (Order No. 2209-LD), read:

"1. Enclose the three interior stairways at the southwest side of the building at the northwest side of the building and at the center (33rd street side) of building serving as a required means of exit, and the landings, platforms and passageways connecting therewith on all sides with partitions of fire resisting material extending continuously from the 1st story to 3 feet above the roof, constructed as per Section 271 of the Labor Law or carry out a proper alternative method of complying with the requirements of Section 271 of the Labor Law." SEE NOTE.

"2. Provide an additional means of exit from sub-cellar and from story known as basement mezzanine, as per Sec. 271 of the Labor Law."

22091-LD.

"1. Provide exit signs, letter to be at least 8" in height, at all means of egress with red light over all such exits for use in time of darkness, as per Section 272 of the Labor Law.";

and

WHEREAS, the building is fireproof, 8 stories in height, 205 ft. 4 in. by 150 ft., irregular, in area; OCCUPIED as a department store; sub-cellar, 18 employees; basement mezzanine, 8 employees; cellar or first basement, 50 employees; 1st or main story, 160 employees; 2nd story, 64 employees; 3rd story, 88 employees; 4th story, 62 em-

ployees; 5th story, 70 employees; 6th story, 37 employees; 7th story, 69 employees; 8th story, 75 employees; 701 employees in entire building; there being 15 persons on the third story, 15 persons on the fifth, and 40 persons on the eighth story engaged on repair work (altering garments); EQUIPPED with a sprinkler system and a fire alarm signal system; EXITS: two interior fireproof stairways at the northwest and southwest corners of the building, extending from the first story to the roof and an open stairway, at the center (33rd street side), extending from the first to seventh story; the northwest stairs being enclosed in a fireproof enclosure (with fireproof doors at openings) excepting at the cellar story where they are open and the stairs leading to the intermediate landing between the first and second stories where the enclosure is constructed of metal frames and wire glass; the southwest stairs being enclosed in fireproof partitions with fireproof doors at openings, excepting the doors leading from the termination of the stairway on the first story where the doors are constructed of wood; and

WHEREAS, petitioner contends that the building, excepting for the employees on the 3rd, 5th and 8th stories doing alteration work on garments sold in the building, is occupied as a department store, and in view of this use requests the acceptance of the existing conditions as to exits and exit signs;

Resolved, that the board of standards and appeals does hereby *make a variation* in the requirements of the labor law, and that the petition be and it hereby is *granted* only so far as it affects the first story section of the 34th street stairs, *on condition* that the stairs shall be enclosed from the second story to roof in compliance with the law, and enclosed in wire glass and steel frames from the second to intermediate platform, first story; that all other required exits shall be maintained throughout the premises; that the factory and industrial operation shall be restricted to minor repairs and adjustments of merchandise purchased on the premises; and so long as the entire premises remain in single mercantile occupancy.

923-27-S.

PETITIONER—William F. Doyle, for Sanshaw Bldg. Corp., owner.

SUBJECT—Variation of the labor law as cited in orders of the fire commissioner.

PREMISES AFFECTED—1995-2003 Jerome avenue, The Bronx.

APPEARANCES—

For Petitioner: William F. Doyle.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition dismissed.

THE VOTE TO DISMISS:

THE RESOLUTION—

(923-27-S)

WHEREAS, William F. Doyle, for Sanshaw Bldg. Corp., owner, filed August 17, 1927, a petition for variation from the requirements of the labor law, as cited in orders of the fire commissioner, affecting premises Nos. 1995-2003 Jerome avenue, Borough of The Bronx; and

WHEREAS, the orders of the fire commissioner, dated February 11, 1927 (Order No. 11192-LD), read:

"1. Extend the interior stairway at the north side of building to roof. Sec. 270 of the Labor Law.

"2. Enclose the nine interior stairways extending from the cellar to stores at 1st story in partitions of fireproof material as per Section 270 of the Labor Law."

"(Order No. 11193-LD):

MINUTES

"1. Arrange the doors opening to stairways at north and south side of building to open outwardly and be self-closing. Sec. 270 of the Labor Law.

"2. Provide exit signs, letters to be at least 8" in height, at all means of egress with a red light over all such exits for use in time of darkness, as per Sec. 272 of the Labor Law.";

and

WHEREAS, the building is non-fireproof, 2 stories in height, 108 ft. 4 in. by 75 ft. in area; OCCUPIED: cellar, storage, 4 persons; 1st story, stores; 2nd story, offices, meeting rooms and toy shop, 15 persons (6 being engaged in factory work); EXITS: six open wooden stairs leading from cellar to 1st story, with trap doors at 1st floor over same; two fireproof stairways, the southerly one extending from 1st story to roof and the northerly stairway extending from the 1st to 2nd story, each enclosed in fireproof partitions with fireproof doors at openings; and

WHEREAS, petitioner contends that the doors in question are those in the lath and plaster partitions forming the corridors on the second story and that to have them open outwardly would be a menace to those using the corridors, and in view of the small number of persons engaged at factory work, requests the acceptance of the existing conditions; and

WHEREAS, the representative of the fire prevention bureau reports that the order is not enforceable because of the existing occupancy;

Resolved, that the petition be and it hereby is *dismissed*, the order not being enforceable at this time.

THE RESOLUTION—

(975-27-S)

WHEREAS, Samuel Rosenblum, for Austen Colgate, lessee, filed September 6, 1927, a petition for variation from the requirements of the labor law, as cited in an order of the fire commissioner affecting premises Nos. 581-3 Fifth avenue, Borough of Manhattan; and

WHEREAS, the order of the fire commissioner, dated August 2, 1927 (Order No. 25186-LD), reads:

"1. Arrange the fire escape on the rear of building and the openings leading thereto and the windows opening on the course thereof so that same are in compliance with the provisions of Section 273 and 274 of the Labor Law.

"Note: Among defects noted are the following: Rails of balconies and stairs not 4' 6" high. No casement door 2' x 6' opening onto each balcony. No fireproof passageway leading direct to street from termination.

"2. Enclose the interior stairway at south side of building serving as a required means of exit, and the landings, platforms and passageways connecting therewith on all sides with partitions of fire resisting material extending continuously from the cellar to 3 feet above the roof, constructed as per Section 271 of the Labor Law to carry out a proper alternative method and

of complying with the requirements of Section 271 of the Labor Law.";

and

WHEREAS, the building is non-fireproof, 5 stories and pent house in height, 39 ft. by 100 ft. in area at 1st story and 39 ft. by 70 ft. in area above; OCCUPIED: 1st story, stores; 2nd story, rug salesroom, 4 persons; 3rd story, manufacture of women's garments and salesroom, 7 persons; 4th story, manufacture of uniforms and furrier, 10 persons; 5th story, manufacture of suits, 10 persons; pent house, photographer, 7 persons. EXITS: an interior wooden stairway, extending from the 1st story to roof; enclosed in wood lath and plaster partitions with wooden doors at openings; a fire escape on the rear of the building, having fireproof openings along the course thereof, extending from the roof to the 2nd story balcony; with EGRESS from the termination of the fire escape by means of an iron bridge leading to the fire escape of the premises at the rear at No. 1 E. 47th street, where egress is available through the 1st story of No. 1 E. 47th street; ROOFS of adjoining buildings: to south, 4 ft. lower; to north, 10 ft. higher; and

WHEREAS, petitioner, in view of the light occupancy of the building requests the acceptance of the existing means of egress;

Resolved, that the board of standards and appeals does hereby *make a variation* in the requirements of the labor law, and that the petition be and it hereby is *granted* as to Item No. 1, only so far as it affects egress from the termination of the fire escape *on condition* that an iron balcony bridge shall be provided from the termination of the rear fire escape at second story level, connecting to the exterior fire escape stairs of premises No. 1 East 47th street, in the yard of No. 1 E. 47th street, with egress through plain glass opening to yard, through building to street front; and that the order shall be complied with in all other respects.

THE RESOLUTION—

(948-27-S)

WHEREAS, Ellis, Aaronson & Heidrich, for Chessler Realty Corp., owner, filed, August 25, 1927, a petition for a variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 115-117 East 29th street, Borough of Manhattan; and

WHEREAS, the order of the fire commissioner, dated July 26, 1927, reads:

"1. Provide safe and unobstructed egress from the lower termination of the fire escape at rear of building by constructing a fireproof passageway with an unobstructed width of at least 3' throughout, leading to the street, adequately lighted at all times during working hours, or by means of providing access to an open area having communication with the street, as per Section 273 of the Labor Law.

"2. Provide an additional exit from cellar remote from present exit as per Sec. 271 of the Labor Law.";

MINUTES

WHEREAS, the building is non-fireproof, six stories and cellar in height, 50 ft. by 98 ft. 9 in. in area at first story and 50 ft. by 88 ft. in area above; OCCUPIED for the manufacture of furniture: cellar, storage, 2 persons; 1st story, show rooms, 10 persons; 2nd story, dressmaking, 10 persons; 3rd story, factory, 20 persons; 4th story, storage and shipping, 20 persons; 5th story, storage, 5 persons; 6th story, factory, 25 persons; EQUIPPED with a sprinkler system and a fire alarm signal system; EXITS: an interior iron stairway, extending from the first story to roof, enclosed in fireproof partitions with fireproof doors at openings; a fire escape on the rear of the building, having fireproof openings along the course thereof, extending from the roof of first-story extension to the main roof, with EGRESS from the termination of the fire escape through door of bulkhead on roof of first story extension to stairs leading to rear room on first story, thence through store on first story to the street; ROOFS of adjoining buildings: 20 in. lower at east; 20 ft. lower at west; and

WHEREAS, the petitioner claims that the present occupancy and exits were approved in 1905; that there is an engineer's ladder, 18 in. in width, to the sidewalk door, and also an electric sidewalk lift; furthermore, the petitioner contends that the cellar is not used for factory work; that the present factory occupancy will be considerably reduced by February 1, 1928, and that the exits are adequate.

Resolved, that the board of standards and appeals does hereby make a variation in the requirements of the labor law, and that the petition be and it hereby is granted, as to item No. 1, only so far as it affects the egress from the termination of the exterior fire escape, on condition that the exterior fire escape shall be continued by means of an interior stairs from balcony at second story to the first story, the said stairs to be enclosed in fireproof partition with self-closing, fireproof door at the termination to the interior of the building, and a fireproof door through opening to adjoining yard to rear, and granted, as to item No. 2, on condition that a fixed iron engineer's ladder shall be provided at the front of the building to hinged counterbalanced sidewalk hatchway so long as conditions as to occupancy and use remain substantially unchanged.

THE RESOLUTION—

(122-26-S)

WHEREAS, Levy & Berger, for Phoenix Commercial Co., Inc., owner, filed, February 11, 1926, a petition for a variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 550 Broadway, Borough of Manhattan; and

WHEREAS, the order of the fire commissioner, dated June 11, 1924 (Order No. 60705-LD), reads:

"1. Provide safe and unobstructed egress from the lower termination of the fire escape at rear of build-

ing by constructing a fireproof passageway with an unobstructed width of at least 3 feet throughout, leading to the street, adequately lighted at all times during working hours, or by means of providing access to an open area having communication with the street, as per Section 273 of the Labor Law.

"2. Provide an additional means of exit from the 1st story and cellar, said exit to be located at the rear of the building in accordance with the provisions of Sec. 271 of the Labor Law.";

and

WHEREAS, the building is non-fireproof, five stories in height, 35 ft. by 99 ft. in area at first story and 35 ft. by 80 ft. 5 in. in area above; OCCUPIED: cellar, storage and shipping dry goods, 3 persons; 1st story, wholesale dry goods store, 9 persons; upper stories, tenant factory, mostly wearing apparel, 33 persons above the 1st story; EQUIPPED with a sprinkler system and a fire alarm signal system; EXITS: an interior wooden stairway, extending from the first story to roof, enclosed in fire-resisting partitions with fireproof doors at openings; an interior iron stairway on the rear of the building, having fireproof openings along the course thereof, extending from main roof to the second story balcony, with EGRESS from the termination of the fire escape by means of an iron bridge to the roof of 90 Crosby street; ROOFS of adjoining buildings are at same level; and

WHEREAS, petitioner proposes to connect the present termination of the fire escape (the iron bridge landing on the roof of 90 Crosby street) by means of an iron bridge across the roof of 90 Crosby street to the second story balcony of the fire escape on the front of 92 Crosby street, where there is a counterbalanced stair to street; 90 and 92 Crosby street being under same ownership as premises in question; and, in regard to item 2, proposes to erect at the rear of the first story a ladder to scuttle in roof of the first story extension, affording egress to the existing fire escape; and

WHEREAS, this petition was granted by the board at its meeting, June 8, 1926, on certain conditions, and petitioner requested a modification of these conditions as to occupancy.

Resolved, that the board of standards and appeals does hereby make a variation from the requirements of the labor law, and that the petition be and it hereby is granted, as to item 1, only so far as it affects the egress from the termination of the fire escape, on condition that an iron balcony shall be provided at the second story to the roof of one-story building at No. 90 Crosby street, with egress from the roof to the balcony of the fire escape at No. 92 Crosby street, with egress therefrom by counterbalanced stairways to the street, also to the premises to the north, No. 552 Broadway, through plain glass openings, and granted, as to item 2, on condition that a 60-degree stairway be provided from the cellar to the first story, continuing to the roof of the extension at the second story level, with counterbalanced scuttle in roof, and granted as to occupancy permitting an allowance of 25 persons on each story, on condition that the exits and sprinkler system are properly maintained and the resolution is complied with.

THE RESOLUTION—

(673-27-SA)

WHEREAS, the Morrissey Oil Burner Corp. filed, June 11, 1927, a petition with the board of standards and appeals for approval of their device known as the Morrissey Oil Burner; and

WHEREAS, a committee of the board inspected this device in operation at premises 1914 Mayflower avenue, Borough of The Bronx, and recommends the approval of the device.

Resolved, that the board of standards and appeals does hereby approve the device known as the Morrissey Oil Burner for use with Grade B fuel oil in domestic installations only and when installed in compliance with the fuel oil rules of the board of standards and appeals.

764-26-SA.

PETITIONER—Berggren Engineering Corporation.

SUBJECT—Berggren Oil Burner, approval of.

APPEARANCES—None.

ACTION OF BOARD—Report of committee adopted and appliance approved.

THE RESOLUTION—

(957-27-SA)

WHEREAS, Arthur B. Goodspeed, for the Goodspeed Engineering Corp., filed a petition with the board of standards and appeals for approval of their device known as the Goodspeed Automatic Oil Burner; and

WHEREAS, a committee of the board inspected this device in operation at premises 1709 Pitman avenue, Borough of The Bronx, and recommends the approval of the device.

Resolved, that the board of standards and appeals does hereby approve the device known as the Goodspeed Automatic Oil Burner and auxiliary power unit for use with Grade A and Grade B fuel oil in domestic and commercial installations when installed in accordance with the fuel oil rules of the board of standards and appeals.

CASE DISMISSED.

Variation of the Labor Law.

The chairman called attention to the following case, where notices of intention to petition were offered for filing; but where, despite notices from this office, papers have not been completed, thus tying the hands of the administrative official in the performance of his duty:

(856-27-S)

Filed July 27, 1927—Premises 213-217 East 37th street, Manhattan. Order of the fire commissioner. Petitioner: Josam Manufacturing Co. Dismissed for lack of prosecution.

THE VOTE TO DISMISS—

Affirmative: Chairman Walsh, Commissioners Connell, Holland and Guilfoyle and Deputy Chief Martin 5
Negative 0
Absent 0

THE RESOLUTION—

WHEREAS, the foregoing petitioner has filed a petition with the board of standards and appeals from an order of the fire commissioner affecting the premises in question; and

WHEREAS, the petitioner has failed to complete his papers, though duly notified to do so.

Resolved, that the foregoing petition be and it hereby is dismissed for lack of prosecution.

CASES DISMISSED.

Appliances.

The chairman called attention to the following cases, where notices of intention to petition were offered for filing; but where, despite notices from this office, papers have not been completed, thus tying the hands of the administrative officials in the performance of their duty:

(1429-23-SA)

Filed December 5, 1923—Approval of Kerrihard Oil Burner. Petitioners: Ainesworth & Antone. Dismissed for lack of prosecution.

(1176-23-SA)

Filed October 29, 1923—Approval of Ziegler Oil Burner. Petitioner: Ziegler Oil Burners, Inc. Dismissed for lack of prosecution.

(1146-23-SA)

Filed October 4, 1923—Approval of Pennsylvania Fuel Oil Burner. Petitioner: Pennsylvania Globe Rotary Oil Burner Co. Dismissed for lack of prosecution.

(1526-22-SA)

Filed December 16, 1922—Approval of Delaney Fuel Oil Burner. Petitioner: Roland Steel Co. Dismissed for lack of prosecution.

(55-26-SA)

Filed January 21, 1926—Approval of Ferreira Oil Burner. Petitioner: Manuel A. Ferreira. Dismissed for lack of prosecution.

THE VOTE TO DISMISS—

Affirmative: Chairman Walsh, Commissioners Connell, Holland and Guilfoyle and Deputy Chief Martin 5
Negative 0
Absent 0

THE RESOLUTION—

WHEREAS, the foregoing petitioners have filed petitions with the board of standards and appeals for the approval of the above oil burners in question; and

WHEREAS, the petitioners have failed to complete their papers, though duly notified to do so.

Resolved, that the foregoing petitions be and they hereby are dismissed for lack of prosecution.

Adjourned 6.15 p. m.

WILLIAM J. O'GORMAN, Secretary.

RULES

FIRE DRILL RULES, ADOPTED OCTOBER 5, 1923.

The following rules, governing Fire Drills, were adopted by the Board of Standards and Appeals at the special meeting held on Friday, October 5, 1923:

DEFINITION OF "FIRE DRILL."

The method and practice of the systematic and orderly vacating of a building by its occupants in case of emergency, panic or fire in the least possible time—by the nearest safe means of exit—and the use of fire appliances which shall be provided for the extinguishing or retarding of fire and the safeguarding of human life.

Rule 1.

In all buildings as defined in Article 1, Section 10 of the Labor Law in which fire drills are required pursuant to Section 279 and in any other building in which the Fire Commissioner may be directed pursuant to the power conferred in section 775-B of the Greater New York Charter, it shall be the duty of the owners, lessees or tenants to conduct fire drills monthly and at such other times as the Fire Commissioner may direct.

For the purpose of conducting such fire drills the owner or tenant shall appoint from among their employees such responsible and dependable persons, male or female, who shall efficiently perform the duties of the various positions of the fire drill organization, as specified on the accompanying chart.

It shall be the duty of the owner or tenant to enter in the blank spaces provided for that purpose in said chart the names of persons so selected and post said chart and copies of the rules in a conspicuous place.

FIRE DRILL ORGANIZATION.

" 5
" 6

Rule 2. Duties of Foreman.

The Foreman or Person in Charge shall direct, enforce and have full charge of the "Fire Drill" in every factory on each floor. Each day before work is begun he shall see that extinguishers, fire hose, fire buckets, etc., are in readiness for use, exit doors are unlocked, aisles are free from obstruction, that stairways, halls, etc., are properly lighted, and shall remedy any dangerous condition found to exist. Immediately after work is commenced he shall check up the Fire Drill Organization list and note if the regularly assigned persons are present; if any are found to be absent, he shall assign other employees (if practicable) to perform their duties.

He shall immediately notify new employees of the existence of the Fire Drill Organization and give them the necessary instructions as to the duties they are to perform, etc.

He shall be familiar with the operation and location of the interior alarm signal box on his floor.

He shall listen for the test signal each morning at the appointed hour and in the event of the test signal not being heard he shall communicate with the superintendent or other person in charge of the building and advise him of the fact. The (Floor Captains) Foreman's orders are final as to the carrying out of the fire drill on his particular floor.

Rule 3. Duties of Watchmen.

The WATCHMEN shall see that all doors and windows are closed so as to prevent the spread of fire. The WATCHMEN shall be the only persons permitted to remain on the floor during the progress of a fire drill and do so at their own risk. For ordinary purposes only one watchman and a substitute shall be designated. In special cases, however, extra watchmen may be assigned by consent in writing from Fire Commissioner.

Rule 4. Duties of Searchers.

The MALE and FEMALE SEARCHERS shall search all toilets, dressing rooms and emergency rooms used and frequented by their sex and all other portions of the floor and order all persons, except those authorized to remain, to leave the premises. They are to take care of and assist all persons who may faint or be disabled.

SEARCHERS shall leave the floor immediately after the last squad leaves.

Rule 5. Duties of Street Alarm Box Runner.

The STREET ALARM BOX RUNNER shall be familiar with the location of the nearest city fire alarm box and know how it is operated.

In ordinary practice fire drills the STREET-ALARM-BOX-RUNNER shall report to the Foreman for orders, and if his services are not required he shall promptly file out of the premises with the other occupants.

Only when a fire actually occurs on his floor, or when ordered to do so by the Foreman, shall the STREET-ALARM-BOX-RUNNER proceed to the street alarm box and send in the fire alarm.

RULES

Rule 6. Duties of Fire Brigade.

The fire brigade shall have full charge of the operation of all auxiliary fire fighting apparatus and shall endeavor to extinguish, or at least hold in check until the arrival of the fire department, any fire that may occur. When it is necessary for the fire brigade to respond to different floors in the building they shall not use the stairways or fire escapes while the occupants are escaping from the premises.

Rule 7. Duties of Exit Guards.

The EXIT GUARDS shall station themselves at all exit doors leading to fire escapes, stairways and other means of escape immediately upon the sounding of the alarm. There shall be two guards for each exit, if practicable; one to stand in the hallway holding back the door and the other directly inside on the floor. They are to keep the exit doors open and direct the movements of the persons using these exits and prevent congestion.

EXIT GUARDS shall remain at their stations until all of the occupants of the building have passed their station. Then close their doors and pass out of the building. Upon signal for the occupants to return, EXIT GUARDS shall take their designated stations and remain there until all persons have returned to their respective floors.

Rule 8. Duties of Squad Monitors.

The SQUAD MONITORS, as soon as the alarm is sounded, shall see that the employees under their charge quickly form into line, two abreast, and numbering not more than thirty to each squad. They shall see that all aisles and passageways are cleared of obstructions.

Note: Chairs, stools, baskets, etc., should be pushed under or placed on top of work benches.

MONITORS shall proceed at the head of their respective squads to the exit assigned, and then march up or down the stairs or to other exits as directed by the EXIT GUARDS.

On reaching the sidewalk MONITORS shall keep their squads in order and lead them a reasonable distance from the building, so as not to cause congestion and interference with fire apparatus. When the proper signal is given they shall return to their respective floors at head of their squads.

MONITORS will at all times see that those under their charge conduct themselves in a respectable and orderly manner.

Rule 9. Holding of Drills.

FIRE DRILLS shall be held at least once each month at varied hours of the day, and all of the occupants shall participate therein simultaneously. Such drills shall conduct all occupants to a place of safety.

Where dual operation interior fire alarm systems are installed as permitted under Rule 11 of the interior fire alarm

rules of the Board of Standards and Appeals, the fire drill conducted each month shall include all of the persons on the premises engaged at work for a factory, and drills shall be conducted at least twice each year in which all of the persons on the premises shall participate simultaneously.

Rule 10. Duties of Owner.

It shall be the duty of the OWNER, LESSEE OR TENANT OF THE BUILDING or his authorized agent or their representatives to personally observe that the "Fire Drill" is held simultaneously on every floor of the building and the participation therein of every occupant of such building. Any FIRE DRILL in which all of the occupants do not participate shall not be considered as complying with the LAW, except as otherwise provided in these rules.

The person or persons representing the OWNER, LESSEE OR TENANT who supervises the FIRE DRILL at the building shall submit to an examination by the Bureau of Fire Prevention as to their experience and general fitness for such duties, and shall be so certified in writing by the FIRE COMMISSIONER.

Rule 11. Duties of Engineer.

It shall be the duty of the ENGINEER, SUPERINTENDENT or other PERSON IN CHARGE of a building having an interior fire alarm system to test such system daily immediately after the beginning of business, and to see that all apparatus operated by springs requiring winding are rewound after each alarm and kept in normal condition for operation.

Whenever it is necessary to test the fire alarm system at any other time of the day, owing to repairs, etc., being made, the PERSON IN CHARGE OF BUILDING will first notify all Foremen of the several floors of the intended test and likewise notify them when the repairs, etc., are completed. This precaution is taken to prevent confusion and excitement, also misunderstanding of the alarm signals.

It shall also be the duty of the PERSON IN CHARGE OF BUILDING to sound the interior alarm system at irregular intervals, but not less than once each calendar month, for the purpose of holding practice fire drills. He shall keep on the premises a record of such drills showing the date when held and the required time for all occupants to reach the street or a point of safety outside the building.

The PERSON IN CHARGE OF BUILDING must immediately acquaint new tenants of the existence of the "Fire Drill" Organization and its purport.

Rule 12. Registration.

The name and address of every person, corporation or co-partnership, that will, under professional service, carry on the trade, business or calling of establishing, maintaining or supervising the "Fire Drill" shall be registered in the Fire Department, which Department shall, upon evidence of fitness, grant a certificate to that effect.

FORMS FOR NOTICES TO PROPERTY OWNERS

If applicants, under the building zone resolution, desire copies of Form 13A, for notices to property owners, such forms are not to be supplied by this office.

The applicant is entitled only to one copy of Form 13A, properly filled out.

If he desires additional copies for his own convenience, in notifying property owners, he can obtain such copies from The O'Connell Press, 176 Park Row, Manhattan, at three cents each, postage to be added if the forms are to be supplied by mail.

WARNING

Notice is hereby given to all petitioners, appellants and applicants, and to all lawyers, architects and engineers representing owners or lessees in proceedings before the board—

First, That if they do not appear in person or by representative at the hearing on their case, dismissal for lack of prosecution is likely to result.

Second, That due and ample notice of the date set for hearing is provided in the publication in this BULLETIN of the calendars of the board, each case being set down by Calendar Number and premises under the date of the hearing.

Third, That no plea of ignorance of the date of the hearing can be entertained in view of this publication and of the posting of the calendars on the bulletin board in the

offices of the board and of the further publication of the calendars in the daily press.

Fourth, That no one is entitled to written notice of the date for the hearing in his case, and that the plea of failure to receive such notice is no excuse for neglect to appear.

Fifth, That the business of the board is to dispose of all cases promptly, for the reason that the pendency of an appeal or petition ties the hands of the administrative official in enforcing his order; therefore, no appeal or petition will be allowed to be hung up by reason of failure of the appellant or petitioner to file necessary data, or by any other method of delay.

Sixth, That no appeal, application or petition will be accepted for filing unless, at the time of filing, all papers, plans and data required by law are supplied, as specified on the blank appeal, application or petition forms.

BOARD OF STANDARDS AND APPEALS

WILLIAM E. WALSH, Chairman

HENRY L. CONNELL

JAMES P. HOLLAND

JOHN GUILFOYLE

CHIEF JOHN KENLON

WILLIAM J. O'GORMAN, Secretary

EDWARD V. BARTON, Chief Clerk

PUBLIC HEARINGS

Tuesdays, at 10 a. m. and 2 p. m.
Special meetings as published in this Bulletin.
Call of Clerk's Calendar, Tuesdays, at 2 p. m.
All hearings are held in Room 1013, Municipal Building, Manhattan.

HOURS FOR CONSULTATION

10 A. M. to 1 P. M.

Any person desiring to consult the chairman or the engineers, pertaining to the work of the board, will be seen only between the hours of ten in the morning and one in the afternoon—Saturdays excepted.

CALL OF CLERK'S CALENDAR

The Clerk's Calendar consists of applications under the Building Zone Resolution, and its object is to give interested property owners opportunity to file objections, if any, and will be called in Room 1013, Tuesday, February 14, 1928, at 2 o'clock. At this call each case is set for hearing on a definite day.

The next subsequent Call of the Calendar will be on Tuesday, February 21, 1928, at 2 o'clock.

The Clerk's Calendar is not to be confused with the calendar of cases that have been definitely set for hearing on fixed days.

NOTICE TO APPELLANTS AND PETITIONERS

No appeal, application or petition will be entertained in connection with which court proceedings are pending or in progress, nor accepted that are not filed within twenty days from the date of the action of the Administrative Official.

Any communication purporting to be an appeal, application or petition shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this board.

Upon receipt of any such communication the writer will be supplied with the official forms for presenting his appeal, application or petition, and if he fails to supply the data required thereon, within twenty days, his case may be dismissed for lack of prosecution.

At the time of filing an application, the appellant or petitioner shall forward a signed notice of appeal addressed to the administrative official (either superintendent of buildings or fire commissioner) and file with this board a duplicate of said notice.

Petitioners are advised that their plans must indicate the points of the compass so as to establish the true location and position of the property, the subject of the appeal.

Appeals, applications and petitions will be simplified and disposition of same expedited by conforming to these directions.

WILLIAM E. WALSH, Chairman.

OFFICE—Municipal Building, Rooms 1001 to 1015.

TELEPHONE—WORTH 0184.

OFFICE HOURS—9 a. m. to 5 p. m. Saturdays 9 a. m. to 12 noon.

THE VOTE TO REOPEN AND RESTORE TO CALENDAR—

Affirmative: Acting Chairman Connell, Commissioners Holland and Guilfoyle and Chief Kenlon	4
Negative	0
Absent: Chairman Walsh.....	1

1008-27-A.

APPELLANT—Nathan Langer, for Anna Bendremer, owner.

SUBJECT—Appeal from order of the fire commissioner.

MINUTES

PREMISES AFFECTED—167 East 105th street, Manhattan.

APPEARANCES—

For Appellant: Nathan Langer.

For Administration: Inspector Meyer of fire department.

ACTION OF BOARD—Appeal denied.

THE VOTE TO GRANT—

Affirmative 0

Negative: Acting Chairman Connell, Commissioners Holland and Guilfoyle and Chief Kenlon 4

Absent: Chairman Walsh..... 1

THE RESOLUTION—

(1008-27-A)

WHEREAS, Nathan Langer, for Anna Bendremer, owner, filed, September 13, 1927, an appeal from an order of the fire commissioner, affecting premises 167 East 105th street, Borough of Manhattan; and

WHEREAS, the order of the fire commissioner, dated August 24, 1927, reads:

"1. Discontinue the maintenance of a non-storage garage on these premises, unless occupancy of building is changed to conform to the provision of Section 154, Chapter 10, Code of Ordinances.

"Note: No occupancy is permitted to intervene between the garage and the dwelling.";

and

WHEREAS, the building is non-fireproof, four stories in height, 20 ft. by 62 ft. in area; OCCUPIED: 1st story, garage for the storage of four motor vehicles; 2nd story, storage for metal cans; 3rd and 4th stories, one family residing on each story; and

WHEREAS, the appellant claims that the building was altered under plans approved July 8, 1919, by the bureau of buildings, the completed work and occupancy of the building was approved and accepted by the bureau of buildings; furthermore, the appellant contends that there has been no alteration or change of occupancy since the alteration was made.

Resolved, that the order of the fire commissioner be and it hereby is affirmed, and the appeal be and it hereby is denied.

919-27-A.

APPELLANT—Powers & Mayer, Inc., for 58-64 West 40th Street Corp., owner.

SUBJECT—Appeal from order of the fire commissioner.

PREMISES AFFECTED—58-64 West 40th street (9th floor), Manhattan.

APPEARANCES—

For Appellant: Robert S. Tipping.

For Administration: Inspector Meyer of fire department.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Acting Chairman Connell, Commissioners Holland and Guilfoyle and Chief

Kenlon 4

Negative 0

Absent: Chairman Walsh..... 1

THE RESOLUTION—

(919-27-A)

WHEREAS, Powers & Mayer, Inc., for 58-64 West 40th street Corp., owner, filed, August 16, 1927, an appeal from an order of the fire commissioner, affecting premises 58-64 West 40th street, Borough of Manhattan; and

WHEREAS, the order of the fire commissioner, dated August 1, 1927 (Order No. 39270-LC), reads:

"1. Have each operator of a blow-pipe or other similar device or apparatus for heating, melting or welding apply for and secure a Certificate of Fitness.";

and

WHEREAS, the building is fireproof, 16 stories in height, 74 ft. by 98 ft. 9 in. on first story and 74 ft. by 79 ft. 7 in. in area above; OCCUPIED: 1st story, stores; upper stories, offices, show rooms and 25 per cent manufacturing (mostly jewelry), 30 persons per story; appellant occupying the ninth story as a manufacturing jeweler; and

WHEREAS, appellant contends that the gas used is oxygen for the purpose of intensifying the heat of the city gas flame for soldering; that two 220 cubic feet cylinders are used and that the large torch is operated by a foreman who has a certificate of fitness.

Resolved, that the order of the fire commissioner be and it hereby is modified, and the appeal be and it hereby is granted on condition that no hydrogen shall be maintained or used on the premises; that the operator of the tanks shall have a certificate of fitness and that the portion of the premises used for melting metals shall be enclosed in a fireproof room, and granted only as long as conditions as to use and occupancy remain unchanged.

445-27-A.

APPELLANT—Daniel J. McPharland, for California Pie & Baking Co., Inc., owner.

SUBJECT—Appeal from order of the fire commissioner.

PREMISES AFFECTED—324-330 Douglass street, Brooklyn.

APPEARANCES—

For Appellant: Charles H. Young.

For Administration: Inspector Meyer of fire department.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Acting Chairman Connell, Commissioners Holland and Guilfoyle and Chief

Kenlon 4

Negative 0

Absent: Chairman Walsh..... 1

THE RESOLUTION—

(445-27-A)

WHEREAS, David J. McPharland, substituted for Albert Schlessler, for California Pie and Baking Co., Inc., lessee, filed, April 25, 1927, an appeal from an order of the fire commissioner, affecting premises 324-330 Douglass street, Borough of Brooklyn; and

WHEREAS, the order of the fire commissioner, dated April 22, 1927 (Order No. 2494-LC), reads:

"12. Permanently brick up the door opening in the brick division wall as shown on F. D. Plan 530-25

or

"Install a 4" standpipe in accordance with the requirements of Sec. 581 Bldg. Code.";

and

WHEREAS, the premises consist of two one-story non-fireproof sections, connected by openings, protected on both sides by fire doors in the rear walls; the Degraw street section being 94 ft. 10 in. by 98 ft. 6 in. (approximately 9,300 sq. ft.) in area and the Douglass street section being 91 ft. 4 in. by 100 ft. (approximately 9,100 sq. ft.) in area; a total area of approximately 18,400 sq. ft.; OCCUPIED: Douglass street section, garage for more than five motor trucks, 2 persons; Degraw street section, pie bakery, 21 persons; and

WHEREAS, appellant contends that the premises are in operation at all times, day and night, under the supervision of a foreman, and in lieu of the required standpipe system proposes to install a 40-gallon portable fire extinguisher in each section of the premises.

Resolved, that the order of the fire commissioner be and it hereby is modified, and the appeal be and it hereby is granted on condition that the opening shall be bricked up to allow but a 3 ft. 6 in. doorway, equipped with automatic, self-closing fireproof doors on each side; that the building shall not be increased in height, area or dimension, and that a 40-gallon portable fire extinguisher shall be provided

MINUTES

and maintained on the garage side, and granted only as long as conditions as to use and occupancy shall remain unchanged.

1012-27-A.

APPELLANT—Harry J. Dillon, for Brooklyn Borough Gas Co., owner.

SUBJECT—Appeal from decision of the fire commissioner.
PREMISES AFFECTED—North side of Coney Island Creek, 610 ft. east of Old Sea Beach R.R., Brooklyn.

APPEARANCES—

For Appellant: Harry J. Dillon.

For Administration: Inspector Call of fire department.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Acting Chairman Connell, Commissioners Holland and Guilfoyle and Chief

Kenlon 4

Negative 0

Absent: Chairman Walsh..... 1

THE RESOLUTION—

(1012-27-A)

WHEREAS, Harry J. Dillon, for the Brooklyn Borough Gas Co., owner, filed, September 14, 1927, an appeal from a decision of the fire commissioner, affecting premises north side of Coney Island Creek, 610 ft. east of Old Sea Beach Railroad, Borough of Brooklyn; and

WHEREAS, the decision of the fire commissioner, dated September 9, 1927, reads:

"1. New 400,000 gallon tank must be placed 2' below lowest level with 10' and encased in 12" of concrete. Calendar No. 361-22-A does not apply.";

and

WHEREAS, the premises consist of a plot of ground along the north side of Coney Island Creek on which is located the plant of the Brooklyn Borough Gas Co., consisting of a fireproof storehouse, two 100,000-gallon tanks, one 200,000-gallon tank and one 400,000-gallon tank for the storage of gas oil; and

WHEREAS, the appellant proposes to erect an additional gas oil tank of 400,000 gallon capacity above ground, surrounded by dike walls of reinforced concrete construction, enclosing a space sufficient to hold the entire contents of the proposed tank in case of rupture; and

WHEREAS, the appellant contends that the premises are surrounded by vacant land, marshes and water; that it is impossible to bury the tank due to the ground being below tide water.

Resolved, that the decision of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that the new 400,000-gallon tank shall be installed in the same manner as that prescribed for the existing tank by the board under Cal. No. 361-22-A, and that in addition an earth embankment shall be provided around the outside of the retaining wall enclosure with a three-foot berm at the level of the top of the retaining wall and a slope of one to one and a half to the present ground surface, and that the intermedite space between the present retaining wall of the now existing tank and the retaining wall for the proposed tank shall be filled with dirt up to the top of the retaining wall.

988-27-A.

APPELLANT—F. W. Mayes, for Isabelle Realty Co., owner.

SUBJECT—Appeal from order of the fire commissioner.

PREMISES AFFECTED—81-83 Alexander avenue, 305-323 East 132nd street and 306-308 East 133rd street, The Bronx.

APPEARANCES—

For Appellant: F. W. Mayes.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Appeal granted on condition.
THE VOTE—

Affirmative: Acting Chairman Connell, Commissioners Holland and Guilfoyle and Chief

Kenlon 4

Negative 0

Absent: Chairman Walsh..... 1

THE RESOLUTION—

(988-27-A)

WHEREAS, F. W. Mayes, for Isabelle Realty Co., owner, filed, September 9, 1927, an appeal from an order of the fire commissioner, affecting premises 81-83 Alexander avenue, 305-323 East 132nd street and 306-308 East 133rd street, Borough of The Bronx; and

WHEREAS, the order of the fire commissioner, dated August 15, 1927 (Order No. 25411-F), reads:

"1. Provide a standpipe system with risers 4 inches in diameter tested to withstand a pressure of 300 lbs. per square inch, extending from cellar to roof with necessary check valves and 2½ inch regulation Fire Department outlets on each story (including basements, cellars and roofs), placed within main stairway enclosure. Each outlet to be provided with sufficient feet of 2½ inch standard hose attached thereto.";

and

WHEREAS, the building is non-fireproof, L shaped in area, with a frontage of 200 ft. on East 132nd street and 50 ft. on Alexander avenue and 50 ft. on East 133rd street, with a dimension across the rear of 200 ft.; the building is four, five and six stories in height; OCCUPIED: cellar, boiler room, 1 person; 1st story, shipping, 4 persons; 2nd, 3rd, 4th, 5th and 6th stories used for piano assembly, having respectively 24, 18, 12, 8 and 1 persons on each story; EXITS consist of three interior stairways, one in the Alexander avenue section, one in the westerly section on East 132nd street and one in the East 133rd street section, extending from the first story to the top story, enclosed in wood box partitions with wooden sash doors at the openings and a scuttle ladder to roof; a fire escape on the East 133rd street front; a fire escape on the East 132nd street front at the easterly end; a fire escape connecting the westerly section of East 132nd street with the center section at the rear and a fire escape connecting the East 133rd street section with the center section at the rear; a fire escape on the east side of Alexander avenue section with fireproof windows along the course thereof and egress from the open yard direct to street; the building being equipped with a sprinkler system; and

WHEREAS, the appellant contends that the building is subdivided into two sections by a brick wall equipped with tin-elad fire doors at the openings; the building is equipped with a sprinkler system.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that the door openings in the south-westerly fire wall between the four and five story sections be equipped with an additional automatic fire door at each story; that all necessary fire extinguishers required by the fire department shall be installed and maintained, and that a watchman's clock system shall be maintained on the premises, and granted only as long as conditions as to occupancy and use remain substantially unchanged and the building is not increased in height, area or dimension.

985-27-A.

APPELLANT—Croker Nat'l Fire Prevention Eng. Co., for American Founders Office Bldg., Inc., owner.

SUBJECT—Appeal from orders of the fire commissioner.

PREMISES AFFECTED—50 Pine street, Manhattan.

APPEARANCES—

For Appellant: Herman E. Horwood.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Appeal granted on condition.

Kerlon 4
Negative 0
Absent: Chairman Walsh..... 1

THE RESOLUTION—

(985-27-A)

WHEREAS, Croker National Fire Prevention Engineering Co., for American Founders Office Building, Inc., filed, September 8, 1927, an appeal from an order of the fire commissioner, affecting premises 50 Pine street, Borough of Manhattan; and

WHEREAS, the order of the fire commissioner, dated April 15, 1927 (Order No. 16601-F), reads:

"1. Arrange house water supply so that it will be connected with the tank or the outside thereof and above 3,500 gallon mark.

"3. Provide iron shutters at all openings in the exterior wall above 1st story which are distant in a direct line less than 30' from any opening in any other building and not in the same plane with said openings, and which are not more than 50' above a neighboring roof at east, west and north sides of building, or other approved protection, as per Sec. 375, Art. 18, Chapter 5 of the Code of Ordinances.";

WHEREAS, the order of the fire commissioner, dated April 13, 1927 (Order No. 16602-F), reads:

"1. Raise standpipe tank 20' above the roof level and properly support same, etc.";

WHEREAS, the building is fireproof, 12 stories (147 ft. 4 in.) in height, 40 ft. 2 in. by 95 ft. 8 in. in area at first story and 40 ft. 2 in. by 88 ft. 8 in. in area above; OCCUPIED as an office building, approximately 20 persons per story; and WHEREAS, there are ten openings in the east wall of the building on each story above the fifth story within 50 ft. of the roof of an abutting five-story building to the east and within 30 ft. of openings in a neighboring 12-story building to the east; three openings in the west wall of the building on each story above the eighth story within 50 ft. of the roof of an abutting seven-story building to the west and four windows in the north wall of this building on each story above the first story within 30 ft. of openings in a nine-story neighboring building to the north; and

WHEREAS, appellant contends that with the exception of the double-hung windows along the stair hall at the westerly side of the building, all windows in the building having pivoted sash and transoms and proposes to provide iron shutters on the double-hung windows along the westerly stair hall; as to the standpipe orders, appellant contends that the building was erected in 1901 and that the 4,000-gallon capacity tank located 6 ft. 6 in. above the outlet in the top story is located as shown upon approved plans.

Resolved, that the orders of the fire commissioner be and they hereby are *modified*, and the appeal be and it hereby is *granted*, as to item 1 of Order No. 16601-F, *on condition* that connection for the house supply shall be placed on the outside of tank above the 2,500 gallons reserved for the standpipe system, and as to item 3 of Order No. 16601-F, *on condition* that the windows in the court on the westerly side of the building, for the stair hall, stairway and toilet shall be equipped with approved protection as required under the order; that the windows on the easterly side of the building above the roof on the easterly gable wall directly south of the court, one window in the south wall of the court, one window in the north wall of the court and one window in the easterly gable wall directly north of the north wall of the court, up to and including the tenth floor, shall be equipped and maintained with approved protection as called for in the order, and *granted*, as to item 1 of Order No. 16602-F, *on condition* that the occupancy and use remains unchanged and the building is not increased in height, area or dimension.

THE RESOLUTION—

(802-27-BZ)

WHEREAS, Colonial Installation Corp., for Benjamin Sakren, owner, filed, July 11, 1927, an application, under the building zone resolution, to permit in a business district the erection and maintenance of a gasoline service station; premises 380 Rogers avenue, northwest corner of Empire boulevard, Borough of Brooklyn; and

WHEREAS, a public hearing was held on this application by the board of standards and appeals, at its regular meeting, February 7, 1928, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Rogers avenue and Empire boule-

vard are in a business district, Sullivan street is in a residence district; and

WHEREAS, the decision of the superintendent of buildings, rendered May 31, 1927 (App. No. 9405-1927), reads:

"Proposition contrary to the Zone Resolution, Art. II, Sec. 4 (a), subdivision 46.

"The installation of a gasoline service station in a business district.";

and

WHEREAS, the premises consist of a plot of ground having a frontage of 22 ft. 7 in. on Empire boulevard and 91 ft. 1 in. on Rogers avenue, upon which it is proposed to install a 550-gallon storage tank and the necessary valves, piping and pumps for a gasoline service station; and

WHEREAS, the board deemed that applicant was not entitled to relief under section 21 of the building zone resolution on the grounds of hardship and practical difficulties for the reason that the property was purchased July 15, 1925, after the amendment of the zoning law prohibiting gasoline stations in a business district.

Resolved, that the decision of the superintendent of buildings be and it hereby is affirmed, and that the application be and it hereby is denied.

APPROVAL OF PLANS

971-27-BZ.

APPLICANT—Henry N. Steinert, for Evelina S. Perkins, owner (Assets Funding Corp., lessee).

SUBJECT—Application for approval of plans in accordance with resolution adopted by the board on December 6, 1927.

PREMISES AFFECTED—270 Dyckman street, Manhattan.

APPEARANCES—None.

ACTION OF BOARD—Acting chairman read engineer's report. Engineer's report adopted; plans approved as in accordance with resolution adopted as to ornamentation only.

THE VOTE TO ADOPT ENGINEER'S REPORT AND APPROVE PLANS AS TO ORNAMENTATION ONLY—

Affirmative: Acting Chairman Connell, Commissioners Holland and Guilfoyle and Chief Kenlon

Negative

Absent: Chairman Walsh

CASES DISMISSED.

Appeals from Administrative Orders.

The chairman called attention to the following cases, where notices of intention to appeal were offered for filing; but where, despite notices from this office, papers have not been completed, thus tying the hands of the administrative officials in the performance of their duty:

THE RESOLUTION—

WHEREAS, the foregoing applicants have filed with the board of standards and appeals applications under the building zone resolution affecting the premises in question; and

WHEREAS, the applicants have failed to complete their papers, though duly notified to do so.

Resolved, that the applications be and they hereby are dismissed for lack of prosecution.

AREAS FIXED.

(510-27-BZ)

The chairman presented and read a communication from McCooey & Conroy requesting the board to fix an area deemed affected and within which to obtain consents for the erection and maintenance of a gasoline service station; premises southwest corner of Cypress Hills road and Cooper avenue, Borough of Queens.

The following area has been approved by the board:

Both sides of Cypress Hills road from a point 100 ft. south of 78th avenue (62nd street) to a point 400 ft. north of proposed garage; both sides of Cooper avenue from Cypress Hills road to a point 400 ft. west of proposed garage; also the east side of Lotus avenue from Cooper avenue to a point 150 ft. south of Cooper avenue.

(41-28-BZ)

The chairman presented and read a communication from Cohen & Siegel, requesting the board to fix an area deemed affected and within which to obtain consents for the erection and maintenance of a garage for the storage of more than five (5) motor vehicles; premises 2704-2710 Bailey avenue, Borough of The Bronx.

The following area has been approved by the board:

The east side of Bailey avenue from West Kingsbridge road to West 193rd street; also the premises at rear and for a distance of 50 ft. on either side of the lot lines of the premises in question.

(1016-27-BZ)

The chairman presented and read a communication from Arthur B. Daub, requesting the board to fix an area deemed affected and within which to obtain consents for the erection and maintenance of a gasoline service station; premises southeast corner of Walker boulevard and Outerbridge avenue, Arthur Kill, Borough of Richmond.

The following area has been approved by the board:

Both sides of Outerbridge avenue from a point 200 ft. west of Walker boulevard to a point 400 ft. east of proposed gasoline station; both sides of Walker boulevard from Bridge Plaza to a point 200 ft. north of Outerbridge avenue; both sides of Pleasant avenue to a point 400 ft. east of proposed gasoline station; also the north side of North Bridge Street from Walker boulevard to a point 200 ft. west of Walker boulevard.

(1336-27-BZ)

The chairman presented and read a communication from Henry G. Harrington requesting the board to fix an area deemed affected and within which to obtain consents for the alteration of an existing building used for prohibitive purposes and the installation of a gasoline service station; premises 1785-1789 Bushwick avenue and 51-59 Jamaica avenue, Borough of Brooklyn.

The following area has been approved by the board:

Both sides of Bushwick avenue from Jamaica avenue to Fanchon place; both sides of Pellington place from Bushwick avenue to Highland avenue; both sides of Jamaica avenue from Sheffield avenue to Vermont street (not including the unrestricted district extending east and west of Pennsylvania avenue); the westerly side of New Jersey avenue from Jamaica avenue to Evergreen place; also the south side of Evergreen place from New Jersey avenue to the westerly dead end of Evergreen place.

MINUTES

(40-28-BZ)

The chairman presented and read a communication from Cohen & Siegel requesting the board to fix an area deemed affected and within which to obtain consents for the erection and maintenance of a garage for the storage of more than five motor vehicles and also the omission of the rear yard required at a point 23 ft. above the curb level under the zone resolution; premises 2075-2103 White Plains road, Borough of The Bronx.

The following area has been approved by the board:

Both sides of White Plains road from Bronxdale avenue to a point 400 ft. north of proposed garage; both sides of Brady avenue from a point 100 ft. east of White Plains road to Bronx Park East; also the east side of Bronx Park East from Brady avenue to a point 400 ft. north of Brady avenue.

THE RESOLUTION—

(898-27-S)

WHEREAS, Cohen & Siegel, for Tegetmeier & Riepe Co., owners, filed, August 8, 1927, a petition for a variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 771-773 First avenue, Borough of Manhattan; and

WHEREAS, the order of the fire commissioner, dated July 18, 1927 (Order No. 24796-LD), reads:

"1. Provide an additional means of exit on 1st story at rear of building, remote from present exit. Sec. 271 of the Labor Law."

and

WHEREAS, the building is non-fireproof, five stories and cellar (67 ft.) in height, 50 ft. by 100 ft. in area; OCCUPIED: cellar, machine shop, 3 persons; 1st story, blacksmith, 4 persons; 2nd story, auto repair shop, 4 persons; 3rd story, lettering on glass, 3 persons; 4th story, office and machine shop, 4 persons; 5th story, paint shop, 4 persons; EXITS: two interior iron stairways, extending from the first story to roof, enclosed in fireproof partitions with fireproof doors at openings; and

WHEREAS, petitioner contends that at the first story the building covers the entire lot; that the occupancy of the first story is small and requests the acceptance of the existing means of egress from the first story.

Resolved, that the board of standards and appeals does hereby make a variation in the requirements of the labor law, and that the petition be and it hereby is granted, as to Order No. 24796-LD, item 1, on condition that not more than four persons shall be allowed on the first floor, and

so long as conditions as to use and occupancy shall remain unchanged.

THE RESOLUTION—

(920-27-S)

WHEREAS, Dr. T. F. Kelleghan, owner, filed, August 16, 1927, a petition for a variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 272 Flushing avenue, Long Island City, Borough of Queens; and

WHEREAS, the order of the fire commissioner, dated July 27, 1927 (Order No. 25051-LD), reads:

"1. Provide a secondary means of egress from 2nd story remote from interior stairway as per Sec. 271 of the Labor Law."

and

WHEREAS, the building is non-fireproof, two stories in height, 50 ft. by 91 ft., irregular, in area at first story and 37 ft. by 56 ft. in area above; OCCUPIED by one concern for the manufacture of medicinal effervescent salts: 1st story, 15 persons; 2nd story, storage, no occupancy; EXITS: an interior wooden stairway, extending from the first story to top story, enclosed in wood lath and plaster partitions with wood doors at openings; ROOFS of adjoining buildings are at same level; and

WHEREAS, petitioner contends that the materials used in the manufacture of the effervescent salts are incombustible; that there are no persons employed on the second story and that there are windows on the second story, opening on one-story extension roofs of the building in question, which may be used as emergency exits.

Resolved, that the board of standards and appeals does hereby make a variation in the requirements of the labor law, and that the petition be and it hereby is granted, as to Order No. 25051-LD, item 1, on condition that a balcony fire escape shall be provided at the window on the second story, Flushing avenue front, on the westerly end of the building, with drop ladder in guides to the street; that the building shall be not increased in height or area, and this variation is granted so long as conditions as to use and occupancy remain substantially unchanged.

THE RESOLUTION—

(944-27-S)

WHEREAS, Simon Ullian, for Empire Bedding Co., Inc., owner, filed, August 23, 1927, a petition for a variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 160 East 126th street, Borough of Manhattan; and

WHEREAS, the order of the fire commissioner, dated May 3, 1927 (Order No. 19312-LD), reads:

"1. Extend the interior stairway at the east side of building to the roof, as per Sec. 271 of the Labor Law.

"2. Arrange the fire escape on the front of building and the openings leading thereto and the windows opening on the course thereof so that same are in compliance with the provisions of Sec. 273 and 274 of the Labor Law and the rules of the Board of Standards and Appeals, or carry out a proper alternative method of complying with the requirements of Sec. 271 of the Labor Law. Among the defects noted are the following: (1) Windows on course not fireproof, self-closing. (2) No 60 degree connecting stairs. (3) Rails not 3' high. (4) No guard rail around well holes. (5) No counterbalanced stairway from lowest balcony to street."

and

WHEREAS, the building is non-fireproof, five stories in height, 24 ft. by 90 ft. in area at first story and 24 ft. by 85 ft. in area above; OCCUPIED for the manufacture of beds, mattresses, etc., not more than 3 persons on each story; EXITS: an interior wooden stairway, extending from the first story to top story, wood partitions on side of stairs at 1st, 2nd and 3rd stories, otherwise open; a fire escape on the front of the building, having non-fireproof openings along the course thereof, extending from the second story to top story, with drop ladder to the sidewalk; ROOFS of adjoining buildings: three stories lower at east; 7 ft. lower at west; and

WHEREAS, the petitioner claims that the building has been used continuously for factory purposes since its erection in 1900; that seldom there is a total of more than ten persons in the building; furthermore, the petitioner contends that the exits are adequate and the orders are unnecessary.

Resolved, that the order of the fire commissioner be and it hereby is *affirmed*, and that the petition be and it hereby is *denied*.

For Petitioner: James P. Whiskeman and Charles Cox.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition granted on condition.

THE VOTE—

Affirmative: Acting Chairman Connell, Commissioners Holland and Guilfoyle and Deputy

Chief Martin 4

Negative 0

Absent: Chairman Walsh..... 1

THE RESOLUTION—

(683-27-S)

WHEREAS, Thirty-second-Thirty-third Street Corp., lessee, filed, June 14, 1927, a petition for a variation from the requirements of the labor law, as cited in orders of the fire

commissioner, affecting premises 2-16 West 33rd street, Borough of Manhattan; and

WHEREAS, the orders of the fire commissioner, dated May 25, 1927, read:

"Order No. 21666-LD:

"1. Arrange all doors on all stories to open outwardly, Sec. 270 of the Labor Law.

"Order No. 21667-LD:

"1. Remove all articles and wares (Cigar stand, bootblack stands, telephone booths) from passageway, 1st story center 33rd St. also (lunch and refreshment stand) at passageway, foot of stairway known as No. 7-5 West 32nd St. as per rule 10, Board of Standards and Appeals, adopted Feb. 23, 1927.

"2. Remove all partitions not built of incombustible material as per Sections 263 and 270 of the Labor Law."

and

WHEREAS, the building, facing on two street fronts, is fireproof, 12 stories in height, 200 ft. by 200 ft. in area; the two wings facing on 32nd street having respective frontages of 25 ft. and 52 ft.; OCCUPIED: 1st story, stores; 2nd and 3rd stories, offices and show rooms for rugs, approximately 100 persons; 4th to 12th stories, inclusive, offices, show rooms and light manufacturing (women's wearing apparel), approximately 100 persons per story; there being, also, in the main entrance hall leading to 33rd street a cigar stand, bootblack stands and telephone booths and in the main entrance hall leading to 32nd street there is a lunch stand; EQUIPPED with a sprinkler system and a fire alarm signal system; EXITS: five interior fireproof stairways, extending from the first story to roof, enclosed in fireproof partitions with fireproof doors at openings; and

WHEREAS, the doors leading from the various lofts on each story into the public corridors on each story swing inwardly and, also, there are erected on each story partitions not built of incombustible material; petitioner proposes to remove the existing lunch stand in the 32nd street entrance hall and to erect in place thereof fireproof partitions forming a store 8 ft. by 15 ft. in area, and contends that the partitions in question do not interfere with the exits or the sprinkler system and that if the doors opened into the corridors a hazardous condition would result.

Resolved, that the board of standards and appeals does hereby *make a variation* in the requirements of the labor law, and that the petition be and it hereby is *granted*, as to Order No. 21666-LD, item 1, *on condition* that all doors leading from any factory occupancy now in existence in the building shall be arranged to open outwardly; that no additional space in the entire building shall be rented for factory use, and that the future renting of the present space now used as factory for factory purposes shall be discontinued, and as to Order No. 21667-LD, items 1 and 2, the petition be and it hereby is *denied*.

MINUTES

THE RESOLUTION—

(1038-27-S)

WHEREAS, Croker National Fire Prevention Engineering Co., for Johnson Cowdin Emmerich, Inc., owner, filed, September 22, 1927, a petition for a variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 1750 Webster avenue, Borough of The Bronx; and

WHEREAS, the order of the fire commissioner, dated April 28, 1927 (Order No. 18879-LD), reads:

"1. Arrange bars on windows so as to be readily movable or removable from both sides in such a manner as to afford the free and unobstructed use of such windows for purposes of egress, as per Section 272 of the Labor Law."

and

WHEREAS, the building is non-fireproof, five stories (64 ft. 4 in.) and basement in height, 56 ft. by 266 ft. 8 in. in area; OCCUPIED by one concern for the manufacture of ribbons: basement, storage, no occupancy; 1st story, stock room and weaving, 39 persons; upper stories, weaving, 30 persons per story; EQUIPPED with a sprinkler system and a fire alarm signal system; EXITS: three interior wooden stairways, extending from the first story to top story, enclosed in fireproof partitions with fireproof doors at openings; two fire escapes on the southerly side of the building, having fireproof openings along the course thereof, extending from the top story balcony to the yard, with EGRESS from the termination of the fire escape by means of driveway to street; ROOF of adjoining building: to southeast, 10 ft. higher; and

WHEREAS, iron bars have been placed on the windows in the north and west walls of the basement story and on the windows of the north and east walls of the first story; and

WHEREAS, petitioner contends that the bars on one window in the north wall and on one window in the east wall of the first story are arranged to swing out and proposes to arrange so as to be movable the bars on two windows in the north wall of the basement and two windows in the north wall of the first story of the premises.

Resolved, that the board of standards and appeals does hereby make a variation in the requirements of the labor law, and that the petition be and it hereby is granted, as to Order No. 18879, item 1, on condition that the following windows in the basement, one window in the front basement and three windows spaced about equally apart on the Ittner place front shall be provided with movable or removable bars; as to the first story, one window on the front on Webster avenue and every sixth window on the Ittner place side shall be provided with movable or removable bars and that the building shall remain in single tenancy; that the building shall be not increased in height or area, and this variation is granted so long as conditions as to occupancy and use remain substantially unchanged.

987-27-S.

PETITIONER—F. W. Mayes, for Isabelle Realty Co., owner.

SUBJECT—Variation of the labor law as cited in the order of the fire commissioner.

PREMISES AFFECTED—81-83 Alexander avenue, 305-323 East 132nd street and 306-308 East 133rd street, The Bronx.

APPEARANCES—

For Petitioner: F. W. Mayes.

For Administration: Inspector Maher of fire department.

THE RESOLUTION—

(987-27-S)

WHEREAS, F. W. Mayes, for Isabelle Realty Co., owner, filed, September 9, 1927, a petition for a variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 81-83 Alexander avenue, 305-323 East 132nd street and 306-308 East 133rd street, Borough of The Bronx; and

WHEREAS, the order of the fire commissioner, dated August 15, 1927 (Order No. 25410-LD), reads:

"1. Arrange the fire escape on southeast section of building and the openings leading thereto and the windows opening on the course thereof so that same are in compliance with the provisions of Section 273 and 274 of the Labor Law.

"NOTE: Among the defects noted are the following: Rails not 4' 6" high.

"2. Provide two means of exit from sixth story section of building as per section 272 of the Labor Law.

"3. Enclose the interior stairway at northwest section of building serving as a required means of exit and the landings, platforms and passageways connecting therewith on all sides with partitions of fire resistive material extending continuously from the 1st story to 3 feet above the roof, constructed as per section 271 of the Labor Law."

and

WHEREAS, the building is non-fireproof, L shaped in area, with a frontage of 200 ft. on East 132nd street and 50 ft. on Alexander avenue and 50 ft. on East 133rd street, with a dimension across the rear of 200 ft.; the buildings are four, five and six stories in height; OCCUPIED: cellar, boiler room, 1 person; 1st story, shipping, 4 persons; 2nd, 3rd, 4th, 5th and 6th stories used for piano assembly, having respectively 24, 18, 12, 8 and 1 persons on each story; EXITS consist of three interior stairways, one in the Alexander avenue section, one in the westerly section on East 132nd street and one in the East 133rd street section, extending from the first story to the top story, enclosed in wood box partitions with wooden sash doors at the openings and a scuttle ladder to roof; a fire escape on the East 133rd street front; a fire escape on the East 132nd street front at the easterly end; a fire escape connecting the westerly section of East 132nd street with the center section at the rear and a fire escape connecting the East 133rd street section with the center section at the rear; a fire escape on the east side of the Alexander avenue section with fireproof windows along the course of the fire escape and egress from the open yard direct to street; the building is being equipped with a sprinkler system; and . .

WHEREAS, the petitioner contends that he has complied with all the requirements as to the fire escape other than the height of the railing, which is 34 inches, and states that on February 17, 1920, a similar order as to the enclosing of the stairways was dismissed by the board of review of the fire department.

Resolved, that the board of standards and appeals does hereby make a variation in the requirements of the labor law, and that the petition be and it hereby is granted, as to Order No. 25410-LD, items 1 and 2, on condition that the building shall be not increased in height or area; that not more than two male occupants shall be allowed on the sixth story portion of the building; that the northerly window on the easterly wall of the sixth story shall be cut down; a casement door shall be provided to roof of five-story section and a gooseneck ladder shall be provided from the roof of the five-story section to the balcony of the fire escape on the northerly wall of the five-story section on the east side of the premises, and granted, as to item 3, on condition that self-closing, fireproof doors shall be provided at the opening in the wall dividing the building into northerly and southerly sections; that all present fire escapes shall be properly maintained; that the building shall be

MINUTES

used in single tenancy only, and that this variation is granted only so long as conditions as to use and occupancy remain substantially unchanged.

THE VOTE TO AFFIRM RESOLUTION OF JANUARY 31, 1928—

Affirmative: Acting Chairman Connell, Commissioners Holland and Guilfoyle and Deputy

Chief Martin 4

Negative 0

Absent: Chairman Walsh..... 1

THE RESOLUTION—

(773-26-SA)

WHEREAS, the Nu-Way Corp. filed, September 9, 1926, a petition with the board of standards and appeals for approval of their device known as the Nu-Way Oil Burner; and

WHEREAS, a committee of the board inspected this device in operation at premises 2260 Andrews avenue, Borough of The Bronx, and recommended the approval of the device; and

WHEREAS, this petition was dismissed by the board at its meeting, July 5, 1927, and under date of January 31, 1928, the board approved the device with the following resolution adopted:

"Resolved, that the board of standards and appeals does hereby approve the device known as the Nu-Way Oil Burner for use with Grade A and Grade B fuel oil in domestic installations only and when installed in compliance with the fuel oil rules of the board of standards and appeals governing such installations.";

and

WHEREAS, the dismissal of this petition on July 5, 1927, was in error in that petitioner was awaiting action of this board.

Resolved, that the board of standards and appeals does hereby rescind its action of July 5, 1927, dismissing the petition for lack of prosecution, and does hereby reaffirm its action of January 31, 1928, approving the device.

Adjourned 5.00 p. m.

WILLIAM J. O'GORMAN, Secretary.

MINUTES

*CORRECTION.

The minutes of the meeting of the board of standards and appeals held Tuesday, January 24, 1928, as they appeared in Bulletin No. 5, Vol. XIII, are hereby corrected to read as follows:

THE RESOLUTION—

(929-27-S)

WHEREAS, Croker National Fire Prevention Engineering Co., for Paterno and Son Contracting Co., owner, filed, August 18, 1927, a petition for a variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 20 West 17th street, Borough of Manhattan; and

WHEREAS, the order of the fire commissioner, dated June 11, 1927 (Order No. 22670-LD), reads:

"1. Provide safe and unobstructed egress from the lower termination of the exterior screened stairway at rear by constructing a fireproof passageway with an unobstructed width of at least 3 feet throughout, leading to the street, adequately lighted at all times during working hours, or by means of providing access to an open area having communication with the street, as per Sec. 273 of the Labor Law.";

and

WHEREAS, the building is fireproof, 12 stories in height, 33 ft. 4 in. by 92 ft. in area at first story and 33 ft. 4 in.

* Correction—Word "west" in fourth line from last line of resolution changed to "east."

by 85 ft. in area above; OCCUPIED: 1st story, store for electrical fixtures, 8 persons; 2nd story, manufacturing men's neckwear, 11 persons; 3rd story, spooling cotton, 13 persons; 4th story, stock room for lighting fixtures, 3 persons; 5th story, manufacturing men's clothing, 4 persons; 6th story, manufacturing leather goods, 12 persons; 7th story, manufacturing underwear, 15 persons; 8th story, manufacturing curtains, 20 persons; 9th story, manufacturing underwear, 18 persons; 10th story, cutting and shipping men's clothes, 8 persons; 11th story, manufacturing undergarments, 25 persons; 12th story, jobbing of ladies neckwear, 15 persons; 144 persons above the first story; EQUIPPED with a standpipe system and a fire alarm signal system; EXITS: an interior stairway constructed of slate treads and iron risers, extending from the first story to roof, enclosed in fireproof partitions with fireproof doors at openings; an exterior screened stairway on the rear of the building, having fireproof openings along the course thereof, extending from the roof to the balcony at the mezzanine story level, with EGRESS from the termination of the fire escape by means of a fireproof passageway on the mezzanine story leading to the main hallway, and, also, by means of an iron stairway and bridge leading to the fire escape on the building to the east; ROOFS of adjoining buildings are seven and eight stories lower; and

WHEREAS, petitioner contends that the building was erected in 1910; that the exits were approved at the time by the bureau of buildings and, in view of the light occupancy, requests the acceptance of the existing means of egress.

MINUTES

Resolved, that the board of standards and appeals does hereby *make a variation* in the requirements of the labor law, and that the petition be and it hereby is *granted*, only so far as it affects egress from the termination of the exterior fire escape at the first story mezzanine level through unpierced fireproof passageway to the main corridor at

front of building, and by extending the rear fire escape at second story level by means of balcony and iron platform to the rear of the adjoining premises to the east, *on condition* that the occupancy shall be limited to the legal capacity of the main interior stairs, and this variation is granted so long as conditions as to use remain unchanged.

RULES

FACTORY EXIT RULES ADOPTED FEBRUARY 23, 1927.

64-27-SR

STANDARD FACTORY EXITS

Section 1—Fire Escapes.

Rule 1. In any building erected prior to October 1, 1913, now occupied or to be occupied as a factory, more than five stories in height and not exceeding nine stories in height, nor in any case more than 90 ft. from curb level to top floor level, one of the required means of exit or escape under Section 271-1 of the Labor Law may consist of an outside fire escape, provided that:

(a) Any such fire escape hereafter erected shall comply with all the provisions of Section 273, labor law, and in addition thereto:

(1) The balconies and stairs shall be protected on the outside by substantial railings to a height of at least 4 ft. 6 in., measured from floor of balcony or center of stair tread, constructed of bars at least one-half ($\frac{1}{2}$) inch in diameter, spaced not more than six (6) inches on centers, or of substantial grille work, or of screening not less than No. 10 U. S. gauge wire with not more than one and one-half ($1\frac{1}{2}$) inch mesh, all rigidly braced;

(2) When there is safe egress from the roof of the building to any adjoining structure, the fire escape stairway shall continue to the roof, and if there be no safe means of egress, a gooseneck ladder shall be provided from the top story balcony to the roof.

(b) Any such fire escape erected prior to October 1, 1913, shall conform in every respect with the requirements of paragraph (a) of this rule, except that balconies may be not less than 3 feet in width; the connecting stairs not less than 20 inches in width, and placed at an angle not exceeding 60 degrees if the building is not over six stories in height, otherwise at an angle of 45 degrees.

Rule 2. In any building erected prior to October 1, 1913, now occupied or to be occupied as a factory, five stories or less in height, one of the required means of exit under Section 271 of the Labor Law may consist of an outside iron fire escape, provided that:

(a) Any such fire escape hereafter erected shall comply with all the provisions of Section 273, Labor Law.

(b) Existing fire escapes shall comply with all the provisions of Section 274, Labor Law and in addition thereto

(1) The balconies shall be not less than 3 feet in width.

(2) The rails around balconies and well holes and on stairways shall be not less than 3 feet in height.

(3) Passageways on the balconies shall be not less than 14 inches in the clear.

(4) At least one opening to each balcony shall be a single fireproof casement door at least 2 feet wide and at least 6 feet in height, except that where the distance between the sill and lintel will not permit of an opening 6 feet in height, a casement door not less than 4 ft. 6 in. in height will be permitted.

Rule 3. The single fireproof casement doors leading to all fire escape balconies shall open out and shall be self-closing. An easily operated door lock with knobs on both sides of the door shall be provided.

Such fire doors may be at window sill level if fixed iron step at least two feet wide, with risers not exceeding eight (8) inches, and treads not less than eight (8) inches are provided on the inside from floor level to sills properly secured.

Rule 4 (a) Any such fire escape erected subsequent to October 1, 1913, and prior to these rules taking effect, unless previously accepted as one of the required means of exit or escape by the administrative official having jurisdiction, shall conform in every respect to the provisions of these rules.

(b) A fire escape shall not hereafter be accepted as constituting one of the required means of exit or escape under Section 271-1 of the Labor Law, in any building erected prior to October 1, 1913, now occupied or to be occupied as a factory, exceeding nine stories in height, or more than 90 feet from curb level to top floor level.

Rule 5. All fire escapes shall be maintained structurally safe, properly painted, and kept clear of all obstructions.

Section 2—Enclosure of Factory Stairways.

Rule 6. Except as herein provided, in all factory buildings five stories or less in height, erected prior to October 1, 1913, in which there are more than twenty-five persons employed above the second story, all interior stairways, serving as required means of exit, and the landings, platforms and passageways connected therewith, shall be enclosed on all sides by partitions of fire-resisting material extending continuously from the lowest point of the stairway in accordance with the following schedule:

Number of stories	Contents combustible, no sprinkler	Contents non-combustible, no sprinkler	Contents combustible, and sprinkler	Contents non-combustible, and sprinkler
Three	Stairways Enclosed			
Four	Stairways Enclosed	Stairways Enclosed		
Five	Stairways Enclosed	Stairway Enclosed	Stairways Enclosed	

The term "contents" as used above means articles, goods, wares and merchandise, packed, stored, manufactured or in the process of manufacture.

The term "combustible" as used above means articles, goods, wares or merchandise which will burn or support combustion.

RULES

The term "sprinkler" as used above means an adequate automatic sprinkler equipment installed and maintained in good working order on each floor.

The term "story" as used above means that part of a building between any floor and the floor or roof next above;—the first story is that part of a building which is more than 50 per cent above the floor below and the floor next above the curb or average grade level.

Where the stairway extends to the top floor of the building, such partitions shall extend to the under side of the roof boarding. That portion of the under side of the roof beams within the stair enclosure shall be covered with fire resisting material, except in buildings with roofs of non-combustible material, in which case the partitions may stop at the under side of the roof.

Where the stairway is required to extend to the roof, the enclosure shall be so built as to form a bulkhead. The enclosure shall be ventilated by a skylight in the roof with louvres or ventilators, or exterior windows with ventilating sections at the top floor.

All openings in such partitions shall be provided with approved self-closing fire doors, except where such openings are in the exterior wall of the building.

The bottom of the enclosure shall be of fireproof material at least four inches thick unless the partition extends to the cellar bottom.

A horizontal exit, as defined in section 267 of the Labor Law, will be accepted as a compliance with this rule when both sides of the fire wall or walls are occupied on any factory floor by the same occupant.

Rule 7. Where there are occupancies on any story or part of a story involving the storage or use below the top story of the following materials and exceeding the amount specified, and there are more than 5 persons employed at manufacturing above such occupancy, the interior stairway serving as required means of egress shall be enclosed on that story with fire resisting material from floor to under side of floor above, including any exposed stair soffits, landings and passageways; openings shall be provided with approved self-closing fire doors.

Nitrocellulose in any shape or form, 10 lbs.

Volatile inflammable oils, 1 gal.

Volatile inflammable mixtures, 5 gals.

Combustible mixtures, 10 gals.

Paints, varnishes and lacquers, 10 gals.

Upholstering or mattresses, manufacturing or repairing.

Cotton, rag and paper sorting, 1 ton.

Paper box manufacturing.

Restaurants and lunch rooms with cooking (not including tea, coffee or similar beverages).

The Board shall rule upon new occupancies as they arise and pass upon points under dispute.

When more than two stories are to be segregated, as above, the entire stairway shall be enclosed in fire-resisting material where there are more than 5 persons employed at manufacturing above the first story.

Rule 8. Required Exits and Enclosures of Stairways in Two-story Factory Buildings.

1. **Required Exits.**—In every two-story factory building erected prior to October 1, 1913, in which more than five persons are employed at manufacturing, there shall be provided from each story at least two means of exit or escape from fire remote from each other, one of which from every floor above or below grade shall lead to or open on an interior stairway which shall be enclosed, as hereinafter provided, or on an exterior enclosed stairway. The other may lead to such a stairway, or to a horizontal or grade exit, or to an exterior screened stairway, or to a fire escape conforming to section 273, Labor Law, or

rule 2 of these rules. Except that exit door shall be a fire door, with substantial steps to the sills properly secured when sill is more than 8 inches above the floor level; and where there is no safe egress from the roof, a gooseneck ladder shall be provided from top balcony to the roof except on the front of buildings.

Unobstructed egress from the foot of the fire escape or exterior screened stairway shall be as required by section 273, Labor Law, or to open adjoining yard with egress to the street. No point on any floor of such building shall be more than one hundred and fifty (150) feet distant from such an exit.

Rule 9. Enclosure of Stairways.—In two-story buildings where there are occupancies on any story or part of a story involving the storage or use below the top story of any of the materials exceeding the amounts specified in Rule 7 and there are more than 5 persons employed at manufacturing above such occupancy, all interior stairways serving as required means of exit shall be enclosed from the lowest point of such stairway to the ceiling of the first floor by partitions of fire-resisting material, unless the building is provided with a wet sprinkler system, in which case such enclosure of stairways shall not be required. Such enclosures shall lead directly to a door opening outwardly to a street or road, or an open area affording unobstructed passage to a street or road. All openings in such enclosure shall be provided with fire doors equipped with self-closing devices.

All reference herein to "Enclosure of Stairways" shall be considered as applying only to required stairways.

Rule 10. Storage of Combustible Material Within Factory Stairway Enclosures.

In all factory buildings no articles or wares of any nature shall be kept or stored inside the limits of any stairway enclosure or unenclosed stairway, or on the landings, platforms or passageways connected therewith.

Section 3—Safe Egress from Roofs of Factory Buildings.

Rule 11. Interior stairways serving as required means of exit in factory buildings erected after October 1, 1913, and not exceeding five stories in height, and in buildings erected before October 1, 1913, now occupied or to be occupied as a factory, shall not be required to extend to the roof where there is no safe egress from the roof, under Sections 270, 271 and 272, Labor Law.

(a) When the roofs, or the top of the parapet wall of an adjoining building are more than eight feet below or more than five feet above the top of the parapet wall of the building in question, and there is no outside party wall fire escape, party wall exterior screened stairway, party wall balconies or bridges, or where any outside exits do not connect to adjoining buildings at roof level, or where there are no unbarred window openings five feet above the roof or parapet wall of the building in question.

(b) When the roof of the building in question has a pitch exceeding one foot in six feet of horizontal run.

Rule 12. (a) When there is no safe egress from the roof, as above described, there shall be in all cases at least a double-rung ladder at the top of the interior stairway, and within the interior stairway enclosure when stairway is enclosed. Such ladder shall be at least 18 inches in width and shall be properly secured at top and bottom. The ladder shall lead to a scuttle opening not less than 2 feet by 3 feet or be of such additional area as may be required to provide ample head room. The scuttle cover shall be hinged and of light weight construction, or be counter-balanced. An easily operated hook may be provided on scuttle cover.

RULES

(b) Where the stair bulkhead door opens within 10 feet from the open edge of the roof, an iron railing properly braced at least 3 feet high and at least 10 feet long shall be provided at the edge of roof.

SUBSTANDARD FACTORY EXITS.

Section 4—Fire Escapes.

Rule 13. When in addition to the required exits from any factory or factory building, there exist other means of egress which are not entirely in accordance with the requirements of the Labor Law and the Rules of the Board of Standards and Appeals, such means of egress may be retained under the following conditions:

(a) Fire Escapes.—All substandard fire escapes on factory buildings shall be maintained structurally safe, properly painted, and with the openings leading thereto, kept in good repair.

In lieu of a counter-balanced stairway, a drop ladder guides with a back-drop gravity hook may be provided. The drop ladder shall be of sufficient length to reach from the lowest balcony to the ground or safe landing place, with a passageway opening cut in the balcony rail, which rail shall be properly braced.

When such substandard fire escapes are located in a front, side or rear of a building, proper egress to a point of safety shall be provided, either to open adjoining streets, or the lowest balcony may be connected to an existing fire escape, exterior stairway, to the roof of

adjoining extensions, or other means of egress satisfactory to the authorities having jurisdiction.

Substandard fire escapes shall be kept clear of all obstructions, shall not be used for fire drills, and shall not be considered as a basis for increase in occupancy.

Section 5—Stairways and Bridges.

Rule 14.—Interior Stairways.—All interior stairways not conforming to the requirements of the Labor Law or rules of the Board of Standards and Appeals may be retained, provided that egress to same is maintained unobstructed, halls are properly lighted, and all landings, passageways, etc., are maintained free and unobstructed. An easily operated panic bolt or other similar device may be installed at street exit door.

Rule 15.—Exterior Screened Stairways.—Exterior screened stairways not serving as a required means of egress shall be maintained structurally safe and properly painted, exits thereto and all platforms and passageways thereof shall be maintained unobstructed, and egress from termination shall be provided as required for substandard fire escapes in subdivision a.

Rule 16.—Horizontal Bridges.—Horizontal bridges and party wall balconies between buildings shall be maintained structurally safe and properly painted, and access thereto and all passageways thereof shall be maintained unobstructed.

Rule 17. No sign of any character shall be placed at openings leading to these sub-standard exits.

RULES

RULES FOR THE TESTING OF WOOD

Pursuant to the Provision of Section 356 of Chapter 5 of the Code of Ordinances (Building Code).

639-27-SR

Adopted by the board of standards and appeals, July 22, 1917.

Rule 1. Before any wood may be used for flooring or interior trim where incombustible materials are required under the provisions of section 356 of the Building Code, the superintendent of buildings must be notified promptly upon the delivery at the job of a consignment of such material. A test sample for each 2,000 feet of material will then be selected by a representative of the Bureau of Buildings, marked for identification, and forwarded to the testing laboratory, where, under the supervision of the superintendent of buildings or his representative, the samples shall be subjected to the following tests:

Before making tests all specimens for testing shall be oven dried at a temperature of 190° F. to a point where there is no further loss of weight due to evaporation of moisture content.

A. SHAVING TEST.—A mass of shavings cut evenly thick from the outside and interior of sticks of the tested wood are to be tested separately. These shavings shall be placed to a depth of two inches in a metal vessel twelve inches square, the bottom of which shall consist of wire screen of ½ inch mesh. The shavings shall be packed down moderately to reduce the air spaces. A Bunsen burner flame shall then be placed beneath the receptacle so that the flame is in contact with the shavings. After thirty-five seconds the flame shall be removed. The flame at no time should show higher than six inches above the top of the bed of shavings and the shavings should not be consumed in less than five minutes.

B. TIMBER TEST.—Two samples ¾ inch by 1½ inches in cross section and twelve inches long, shall be placed side by side across the top of a gas crucible furnace

with a pyrometer between them. The specimens shall be subjected to a flame at 1700 deg. Fahrenheit for two minutes, the test pieces shall then be removed, and the time of duration of flame and glow observed. The sticks shall then be cut through the middle at the most burned section and the area of the unburned wood measured with a planimeter. The flame must not persist longer than 15 seconds nor the glow longer than 20 seconds, and, in the case of hard woods, the unburned area should not be less than 55 per cent., nor in the case of soft woods less than 45 per cent.

C. CRIB TEST.—Twenty samples are to be prepared, each ½ inch square and 6 inches long. These shall be built up on a ring support to form a crib work five tiers high, four sticks to a tier, making the crib six inches by six inches and approximately 2½ inches high. The crib shall be set six inches above a Bunsen burner to which the crib shall be exposed for a period of one minute at a temperature approximating 1200 deg. Fahrenheit. The flame must not persist more than twenty seconds after the Bunsen burner is removed, nor the glow last more than thirty seconds. The tendency of the flame to spread from stick to stick must also be noted.

Rule 2. All of the above tests shall be at the expense of the owner or contractor or other interested party.

If the tests are satisfactory the entire shipment will be permitted to be taken into the building and used. If not, the entire shipment shall be condemned and must be removed from the premises.

In general, acceptance shall be predicated upon the existence of a complete plant in full working order from which the material is shipped, and each shipment, or, where possible, each piece shall be trade marked in a conspicuous manner so that there may be no doubt as to its identity.

WARNING

Notice is hereby given to all petitioners, appellants and applicants, and to all lawyers, architects and engineers representing owners or lessees in proceedings before the board—

First, That if they do not appear in person or by representative at the hearing on their case, dismissal for lack of prosecution is likely to result.

Second, That due and ample notice of the date set for hearing is provided in the publication in this BULLETIN of the calendars of the board, each case being set down by Calendar Number and premises under the date of the hearing.

Third, That no plea of ignorance of the date of the hearing can be entertained in view of this publication and of the posting of the calendars on the bulletin board in the

offices of the board and of the further publication of the calendars in the daily press.

Fourth, That no one is entitled to written notice of the date for the hearing in his case, and that the plea of failure to receive such notice is no excuse for neglect to appear.

Fifth, That the business of the board is to dispose of all cases promptly, for the reason that the pendency of an appeal or petition ties the hands of the administrative official in enforcing his order; therefore, no appeal or petition will be allowed to be hung up by reason of failure of the appellant or petitioner to file necessary data, or by any other method of delay.

Sixth, That no appeal, application or petition will be accepted for filing unless, at the time of filing, all papers, plans and data required by law are supplied, as specified on the blank appeal, application or petition forms.

JOHN GUILFOYLE

CHIEF JOHN KENLON

WILLIAM J. O'GORMAN, Secretary

EDWARD V. BARTON, Chief Clerk

OFFICE—Municipal Building, Rooms 1001 to 1015.

TELEPHONE—WORTH 0184.

OFFICE HOURS—9 a. m. to 5 p. m. Saturdays 9 a. m. to 12 noon.

All communications should be addressed to the chairman of the board.

CONTENTS

This issue of the Bulletin contains, in the order given—

Docket.

Call of Clerk's Calendar.

The Trial Calendar.

Notices in Building Zone Cases.

Minutes of Informal Meeting, February 10, 1928, at 2 p. m.

Minutes of Regular Meeting, February 14, 1928, at 10 a. m.

Minutes of Regular Meeting, February 14, 1928, at 2 p. m.

Elevator Rules.

Community Laundries, Rules.

Progress Report.

PUBLIC HEARINGS

Tuesdays, at 10 a. m. and 2 p. m.

Special meetings as published in this Bulletin.

Call of Clerk's Calendar, Tuesdays, at 2 p. m.

All hearings are held in Room 1013, Municipal Building, Manhattan.

HOURS FOR CONSULTATION

10 A. M. to 1 P. M.

Any person desiring to consult the chairman or the engineers, pertaining to the work of the board, will be seen only between the hours of ten in the morning and one in the afternoon—Saturdays excepted.

CALL OF CLERK'S CALENDAR

The *Clerk's Calendar* consists of applications under the Building Zone Resolution, and its object is to give interested property owners opportunity to file objections, if any, and will be called in Room 1013, Tuesday, February 21, 1928, at 2 o'clock. At this call each case is set for hearing on a definite day.

The next subsequent Call of the Calendar will be on Tuesday, February 28, 1928, at 2 o'clock.

The *Clerk's Calendar* is not to be confused with the calendar of cases that have been definitely set for hearing on fixed days.

NOTICE TO APPELLANTS AND PETITIONERS

No appeal, application or petition will be entertained in connection with which court proceedings are pending or in progress, nor accepted that are not filed within twenty days from the date of the action of the Administrative Official.

Any communication purporting to be an appeal, application or petition shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this board.

Upon receipt of any such communication the writer will be supplied with the official forms for presenting his appeal, application or petition, and if he fails to supply the data required thereon, within twenty days, his case may be dismissed for lack of prosecution.

At the time of filing an application, the appellant or petitioner shall forward a signed notice of appeal addressed to the administrative official (either superintendent of buildings or fire commissioner) and file with this board a duplicate of said notice.

Petitioners are advised that their plans must indicate the points of the compass so as to establish the true location and position of the property, the subject of the appeal.

Appeals, applications and petitions will be simplified and disposition of same expedited by conforming to these directions.

WILLIAM E. WALSH, Chairman,

THE RESOLUTION—

(1075-27-A)

WHEREAS, John J. Gilmartin, for United Dressed Beef Co., owner, filed, October 5, 1927, an appeal from an order of the fire commissioner, affecting premises 756-768 First avenue and 400 East 43rd street, Borough of Manhattan; and

WHEREAS, the order of the fire commissioner, dated April 22, 1927 (Order No. 18574-LF), reads:

"1. Install a standpipe system with risers 4 inches in diameter tested to withstand a pressure of 300 lbs. per square inch, extending from cellar to roof, with necessary check valves and 2½ inch regulation Fire Department outlets on each story (including basements, cellars and roofs), placed within main stairway enclosure."

and

WHEREAS, the building is non-fireproof, two stories in height, 150 ft. by 100 ft., 15,000 sq. ft. in area; OCCUPIED: 1st story, wholesale butcher, 20 persons; 2nd story, slaughter house, 5 persons; and

WHEREAS, the appellant claims that the building is open on three sides; that the first story is arranged so as to enable the firemen to reach any part of the floor in case of fire; that the second story is practically all one open space; also that fire hydrants are in the street within easy reach.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that all openings in the interior fireproof walls on the first and second stories shall be equipped with self-closing, fireproof doors and that the building shall be not increased in height, area or dimension, and granted only as long as conditions as to use and occupancy remain substantially unchanged.

1009-27-A.

APPELLANT—Maximilian Zipkes, for Herman M. Hess, et al., owners.

SUBJECT—Appeal from order of the fire commissioner.

PREMISES AFFECTED—129-133 West 20th street, Manhattan.

APPEARANCES—

For Appellant: Michael Densen and Herman Wolf.
For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Appeal denied.

THE VOTE TO GRANT—

Affirmative 0

Negative: Acting Chairman Connell, Commissioners Holland and Guilfoyle and Chief

Kenlon 4

Absent: Chairman Walsh..... 1

THE RESOLUTION—

(1009-27-A)

WHEREAS, Maximilian Zipkes, for Herman M. Hess, et al., owner, filed, September 14, 1927, an appeal from an order of the fire commissioner, affecting premises 129-133 West 20th street, Borough of Manhattan; and

WHEREAS, the order of the fire commissioner, dated June 18, 1927 (Order No. 23141-F), reads:

"1. Provide iron shutters at all openings in the exterior wall above 1st story which are distant in a direct line less than 30' from an opening in any other building and not in the same plane with said openings and which are not more than 50' above a neighboring roof at north side of building, or other approved protection, as per Sec. 375, Article 18, Chapter 5 of the Code of Ordinances."

and

WHEREAS, the building is non-fireproof, six stories in height, 67 ft. 7 in. by 85 ft. in area; OCCUPIED: 1st story, show room, 2 persons; 2nd story, manufacture of furniture, 24 persons; 3rd story, manufacture of furniture, 10 persons; 4th story, office and cutting, 5 persons; 5th story, manufacture of paper boxes, 21 persons; 6th story, manufacture of paper boxes, 12 persons; and

WHEREAS, the appellant claims that the three easterly windows at the second to the sixth stories, inclusive, on the north side of the building are affected by the order; that the building is fully sprinklered; that the windows are 35 ft. from any other opening in the adjoining building; furthermore, the appellant contends that if forced to comply with the order would mean an unnecessary hardship upon the owner and without obtaining any benefit.

Resolved, that the order of the fire commissioner be and it hereby is *affirmed*, and the appeal be and it hereby is *denied*.

1022-27-A.

APPELLANT—Samuel Rosenblum, for 806 Broadway Corp., owner.

SUBJECT—Appeal from order of the fire commissioner.

PREMISES AFFECTED—806-808 Broadway and 104-106 Fourth avenue, Manhattan.

APPEARANCES—

For Appellant: Samuel Rosenblum.
For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Acting Chairman Connell, Commissioners Holland and Guilfoyle and Chief Kenlon 4
Negative 0
Absent: Chairman Walsh..... 1

THE RESOLUTION—

(1022-27-A)

WHEREAS, Samuel Rosenblum, for 806 Broadway Corp., owner, filed, September 19, 1927, an appeal from an order of the fire commissioner, affecting premises 806-808 Broadway and 104-106 Fourth avenue, Borough of Manhattan; and

WHEREAS, the order of the fire commissioner, dated June 16, 1927 (Order No. 22947-F), reads:

"1. Install a standpipe system with risers 4 inches in diameter tested to withstand a pressure of 300 lbs. per square inch, extending from cellar to roof, with necessary check valves and 2½ inch regulation Fire Department outlets on each story (including basements, cellars and roofs), placed within main stairway en-

MINUTES

closure. Each outlet to be provided with sufficient feet of 2½ inch standard hose attached thereto.”;

and
WHEREAS, the building, facing on two street fronts, is non-fireproof, six stories (82 ft.) in height, 51 ft. 4 in. by 230 ft. 11¼ in. (approximately 11,200 sq. ft.) in area; OCCUPIED: 1st story, store; 2nd story, clothing jobbers, 10 persons; 3rd story, clothing jobbers, 13 persons; 4th story, cutting clothing, 20 persons; 5th story, manufacturing suits, 25 persons; 6th story, manufacturing suits, 8 persons; and

WHEREAS, appellant contends that the area of the building is slightly in excess of the area requiring the installation of a standpipe system; that the building is protected by an automatic sprinkler system.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that there shall be maintained an approved automatic sprinkler system, with central office connection, in accordance with the requirements of the board of standards and appeals, and that the building shall not be increased in height, area or dimension, and granted only as long as conditions as to use and occupancy remain substantially unchanged.

968-27-A.

APPELLANT—Standard Oil Company of New York, owner.

SUBJECT—Appeal from order of the fire commissioner.
PREMISES AFFECTED—Review avenue and Thomas street, between L. I. R. R. and Newtown Creek, Building No. 33, west end, Long Island City, Borough of Queens.

APPEARANCES—

For Appellant: Percy J. King and Charles W. Smith.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Acting Chairman Connell, Commissioners Holland and Guilfoyle and Chief Kenlon 4
Negative 0
Absent: Chairman Walsh..... 1

THE RESOLUTION—

(968-27-A)

WHEREAS, Standard Oil Company of New York, owner, filed, September 1, 1927, an appeal from an order of the fire commissioner, affecting premises at Review avenue and Thomas street, between Long Island Railroad and Newtown Creek, Building 33, Cooperage Department, West End, Long Island City, Borough of Queens; and

WHEREAS, the order of the fire commissioner, dated July 2, 1927 (Order No. 24110-F), reads:

“Install a standpipe system with risers 4 inches in diameter tested to withstand a pressure of 300 lbs. per square inch, extending from cellar to roof, with necessary check valves and 2½ inch regulation Fire Department outlets on each story (including basements, cellars and roofs) placed within main stairway enclosure.”;

and
WHEREAS, the building is non-fireproof, three stories (47 ft. 4 in.) in height, 118 ft. 7 in. by 81 ft. 4 in., irregular in depth, about 11,400 sq. ft. in area; OCCUPIED for the manufacture of barrels: 1st story, 12 persons; 2nd story, 15 persons; 3rd story, 5 persons; and

WHEREAS, the appellant claims that the building is equipped with a sprinkler system connected with the city water main of 60 pounds pressure; that the sprinkler system is also connected with the Newtown Creek, hooked up with four salt water pumps with a capacity of 6,800 gallons per

minute at 90 pounds pressure; that outside fire hydrants and hose are maintained on the northeast side of the building; that the building is equipped with fire extinguishers; furthermore, the appellant contends that under the above conditions the order is an unnecessary hardship upon the owner.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that the existing sprinkler system shall be maintained in good working order and that the building shall not be increased in height, area or dimension, and granted only as long as conditions as to occupancy and use remain unchanged.

1106-27-A.

APPELLANT—Croker Nat'l. Fire Prev. Eng. Co., for Wilkinson Bros. & Co., Inc., owner.

SUBJECT—Appeal from order of the fire commissioner.
PREMISES AFFECTED—3-7 West 29th street, Manhattan.

APPEARANCES—

For Appellant: Herman E. Horwood.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Acting Chairman Connell, Commissioners Holland and Guilfoyle and Chief Kenlon 4
Negative 0
Absent: Chairman Walsh..... 1

THE RESOLUTION—

(1106-27-A)

WHEREAS, Croker National Fire Prevention Engineering Co., for Wilkinson Brothers & Co., Inc., filed, October 11, 1927, an appeal from an order of the fire commissioner, affecting premises 3-7 West 29th street, Borough of Manhattan; and

WHEREAS, the order of the fire commissioner, dated April 12, 1927 (Order No. 16456-F), reads:

“1. Provide iron shutters at all openings in the exterior wall above 1st story which are distant in a direct line less than 30' from any opening in any other building and not in the same plane with said openings and which are not more than 50' above a neighboring roof at east, west and north sides of building, or other approved protection as per Sec. 375, Article 18, Chapter 5 of the Code of Ordinances.”;

and

WHEREAS, the building is fireproof, 10 stories in height, 74 ft. 6 in. by 90 ft. 6 in. in area; OCCUPIED: 1st story, show rooms, 7 persons; upper stories, manufacturing, 15 persons on each story; and

WHEREAS, the appellant has filed plans showing one window at third story, two windows at each of the fourth, fifth and seventh stories, three windows at each of the sixth, eighth and ninth stories and one window at each of the tenth and bulkhead stories on the west side of the building; thirteen windows on each of the second to tenth stories, inclusive, and three windows at the bulkhead story on the north side; three windows at the second story and five windows at each of the third to ninth stories, inclusive, on the east side of the building, affected by the order; a total of 176 windows; and

WHEREAS, the appellant claims that the windows to stair hall on west side of the building are fireproof; that the building causing exposure on the north side is fireproof, equipped with sprinkler and standpipe systems; furthermore, the appellant proposes to protect all openings on stairway and elevator shafts which come within the requirements of the order.

Resolved, that the order of the fire commissioner be and

MINUTES

it hereby is *modified*, and the appeal be and it hereby is *granted*, only as far as it affects the openings in the rear or northerly wall, *on condition* that the exposures are protected as indicated in the drawings on file in the case, and that the order of the fire commissioner as to the openings in the easterly and westerly gable walls be *affirmed*, and the appeal as to these openings be and it hereby is *denied*, and that this modification is granted only as long as conditions as to occupancy and use remain unchanged and the building is not increased in height, area or dimension.

460-27-A.

APPELLANT—W. C. McTarnahan, for Petroleum Heat & Power Co. of New York, owner.

SUBJECT—Application for reopening—extension of time in which to obtain permits—re appeal from decision of the fire commissioner.

PREMISES AFFECTED—490-518 Kingsland avenue, Brooklyn.

APPEARANCES—

For Appellant: G. H. Hallock.

ACTION OF BOARD—Appeal reopened and time extended to obtain permits and complete work.

THE VOTE TO REOPEN AND EXTEND TIME—

Affirmative: Acting Chairman Connell, Commissioners Holland and Guilfoyle and Chief Kenlon

Negative

Absent: Chairman Walsh.....

THE RESOLUTION—

(460-27-A)

WHEREAS, W. C. McTarnahan, for Petroleum Heat and Power Co., Inc., of New York, owner, filed, April 28, 1927, an appeal from a decision of the fire commissioner, affecting premises 490-518 Kingsland avenue, Borough of Brooklyn; and

WHEREAS, the decision of the fire commissioner, dated April 21, 1927 (Alt. 938-27), reads:

"No. 3. Tanks must be buried 2' 0" below grade and encased in 12" of stone concrete.";

and

WHEREAS, the premises consist of a large, irregular, angular shape plot of ground, about 120,000 sq. ft. in area, bounded on the northeast side of Newtown Creek with one-story existing buildings located remote from each other, three storage tanks of 2,000 barrels and 20,000 barrels capacities; OCCUPIED as a fuel oil storage plant; and

WHEREAS, the appellant proposes to install ten 20,000-gallon gasoline storage tanks above ground, each tank encased in concrete not less than 12 in. in thickness and located more than 100 ft. from any building; and

WHEREAS, the appellant claims that it is impracticable to bury the tanks due to the condition of the soil; and

WHEREAS, this appeal was granted by the board at its meeting, July 19, 1927, and January 17, 1928, on certain conditions, and appellant requests a modification of the time limit.

Resolved, that the decision of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that the proposed storage shall be limited to ten tanks, separated into two batteries of five tanks each; that all tanks are to be separately encased in stone concrete, the concrete to extend not less than 12 in. above the top of the tank; that the ends and sides shall be raked at an angle of not less than 60 degrees, the ends and sides to be carried not less than 2 ft. above the 12-in. concrete cover and this to be filled with not less than 2 ft. of clean, firm earth fill; that the entire premises are to be equipped with an approved liquid fire extinguishing medium, the controls and pumps for same to be enclosed in a fire-proof structure located remote from the oil storage, and that all permits required shall be obtained within sixty days and any work involved thereby shall be completed within one year from the date of this action, February 14, 1928.

507-27-A.

APPELLANT—W. C. McTarnahan, for Petroleum & Power Co., Inc., of New York, lessee.

SUBJECT—Application for reopening—extension of time in which to procure permits—re appeal from decision of the fire commissioner.

PREMISES AFFECTED—416-432 East 47th street, Manhattan.

APPEARANCES—

For Appellant: G. H. Hallock.

ACTION OF BOARD—Appeal reopened and time extended to obtain permits and complete work.

THE VOTE TO REOPEN AND EXTEND TIME—

Affirmative: Acting Chairman Connell, Commissioners Holland and Guilfoyle and Chief Kenlon

Negative

Absent: Chairman Walsh.....

THE RESOLUTION—

(507-27-A)

WHEREAS, W. T. McTarnahan, for Ogden Golet Estate, owner, filed, May 9, 1927, an appeal from a decision of the fire commissioner, affecting premises 416-432 East 47th street, Borough of Manhattan; and

WHEREAS, the decision of the fire commissioner, dated May 3, 1927 (Alt. No. 939-27), reads:

"1. Proposed installation of (3) 30,000 gallon oil line tanks is contrary to resolutions of Board of Standards and Appeals under Calendar numbers 615-26-12 and 549-24-A.";

and

WHEREAS, the premises consist of a large plot of ground, 225 ft. by 100 ft. 5 in., with an existing pump house and twelve 30,000-gallon storage tanks; OCCUPIED as an oil storage plant; and

WHEREAS, the appellant proposes to install three 30,000-gallon gasoline storage tanks, each tank to be 10 ft. 6 in. in diameter by 48 ft. in length; and

WHEREAS, the appellant contends that the tanks will be buried, entirely encased in 12 in. of concrete and located not less than 10 ft. from the property line or any building; and

WHEREAS, it is proposed to bury the tanks below the sidewalk of the property, which is above the sidewalk grade, located 38 ft. southerly from the building line; and

WHEREAS, this appeal was granted by the board at its meeting, July 19, 1927, and January 17, 1928, on certain conditions, and appellant requests a modification of the time limit imposed.

Resolved, that the decision of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that the storage shall be limited to three tanks, the individual capacity not to exceed 30,000 gallons to each tank, and shall be solidly encased in concrete not less than 12 in. in thickness, subdivided between tanks shall be not less than 12 in. and shall be located not less than 38 ft. from the building line and not less than 25 ft. from the adjoining property line, the space within these dimensions to be maintained open and unpaved; that the outside concrete walls shall be carried not less than 3 ft. above the top of the tanks and shall be filled with earth fill, and that all permits required shall be obtained within sixty days and any work involved thereby shall be completed within one year from the date of this action, February 14, 1928.

BUILDING ZONE CASES

925-27-BZ.

THE RESOLUTION—

(556-27-BZ)

WHEREAS, Robert W. Maloney, for Thomas M. Gilligan, owner, filed, May 17, 1927, an application, under the building zone resolution, to permit in a business district the erection and maintenance of a gasoline service station; premises northeast corner of White Plains avenue and Tremont avenue, Borough of The Bronx; and

WHEREAS, a public hearing was held on this application by the board of standards and appeals, at its regular meeting, February 14, 1928, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that White Plains avenue, East Tremont avenue and Union Port road are in business and unrestricted districts; and

WHEREAS, the decision of the superintendent of buildings, rendered May 17, 1927 (re N. B. 1160-1927), reads:

"1. Erection and maintenance of proposed gasoline station in business district is contrary to provisions of Building Zone Resolution.";

and

WHEREAS, it is proposed to erect an office, bury four 550-gallon tanks and erect eight pumps for the purpose of conducting a gasoline service station in a business district; and

WHEREAS, the board deemed that applicant did not substantiate his basis of appeal brought under section 21 of the building zone resolution.

Resolved, that the decision of the superintendent of buildings be and it hereby is *affirmed*, and the application be and it hereby is *denied*.

946-27-BZ.

APPLICANT—Edward P. Doyle, substituted for Saul Goldsmith, for Bernard Corn, owner.

SUBJECT—Application (re decision of the tenement house commissioner) under section 21 of the building zone resolution, to permit in a residence district the erection and maintenance of an apartment house with stores on the first story.

Absent: Chairman Walsh.....	1

THE RESOLUTION—

(946-27-BZ)

WHEREAS, Edward P. Doyle, for Bernard Corn, owner, filed, August 24, 1927, an application, under the building zone resolution, to permit in a residence district the erection and maintenance of an apartment house with store occupancy on first story; premises 8502-8512 19th avenue and 1864-1878 85th street, Borough of Brooklyn; and

WHEREAS, a public hearing was held on this application by the board of standards and appeals, at its regular meeting, February 14, 1928, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that 19th avenue is in a residence district, 85th street is in a residence district and 86th street is in a business district; and

WHEREAS, the decision of the tenement house commissioner, rendered August 16, 1927 (re N. B. 609-1927), reads:

"File proper plans and official survey to accompany these applications before same can be properly considered. NOTE: Furthermore, sketches show proposed building to accommodate stores which is in violation of the Building Zone Resolution as these premises are located within a residential district. Sketches not further considered."

and

WHEREAS, the proposed building is to be of non-fireproof construction, six stories in height, with a frontage of 150 ft. and a depth of 100 ft.; to be occupied as an apartment house with store occupancy on first story; and

WHEREAS, it developed at the public hearing on this case that the applicant purchased this property about three years ago and when it was located in a residence district, and that all the adjoining property is residential, and that no non-conforming uses exist; and

WHEREAS, the board deemed that applicant was not entitled to relief under section 21.

Resolved, that the decision of the tenement house commissioner be and it hereby is *affirmed*, and that the application be and it hereby is *denied*.

176-27-BZ.

APPLICANT—H. S. Sylvester, for Estate of Johanna Falvey, owner.

SUBJECT—Application for reopening—extension of time in which to obtain permits—re application (decision of superintendent of buildings) under section 7-b of the building zone resolution to permit in a residence district extending from a business district the erection and maintenance of a business (stores).

PREMISES AFFECTED—1721-1723 West 6th street, Brooklyn.

APPEARANCES—

For Applicant: Harry S. Sylvester.

For Opposition: None.

ACTION OF BOARD—Application reopened and time extended to procure permits and complete work; resolution interpreted.

THE VOTE TO REOPEN AND EXTEND TIME—

Affirmative: Acting Chairman Connell, Commissioners Holland and Guilfoyle and Chief Kenlon	4
Negative	0
Absent: Chairman Walsh.....	1

THE RESOLUTION—

(176-27-BZ)

WHEREAS, H. S. Sylvester, for Estate of Johanna Falvey owner, filed, February 18, 1927, an application, under the building zone resolution, to permit in a residence district extending from a business district, the erection and maintenance of a business (stores) building; premises 1721-1723 West 6th street, Borough of Brooklyn; and

WHEREAS, a public hearing was held on this application by the board of standards and appeals, at its regular meeting, May 17, 1927, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that West 6th street is in a residence district, West 5th street is in a residence district and Kings Highway is in a business district; and

WHEREAS, the decision of the superintendent of buildings, rendered February 2, 1927 (Applic. No. 1575-27), reads:

"1. Proposed one story brick building to be used as a store will be located partly in a business district and partly in a residence district and is therefore contrary to Art. II, Sec. 3, of the Zone Resolution."

and

WHEREAS, the proposed building is of non-fireproof construction, one story in height, with a frontage of 40 ft. and a depth of 100 ft.; to be occupied as a business building (stores); and

WHEREAS, the board deemed that applicant was entitled to relief under the provisions of section 7b of the building zone resolution and that it would entail practical difficulty and unnecessary hardship to deny this application; and

WHEREAS, this application was granted by the board at its meeting, May 17, 1927, on certain conditions, and applicant requested a modification of these conditions as to time limit and an interpretation of the resolution as to rear yard and unpierced walls.

Resolved, that the board of standards and appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted on condition* that the requirements of the building zone resolution affecting this property as to area, yards and use as affecting a business use district otherwise shall be complied with; that the gable walls in the residence use district shall be unpierced throughout their entire height and length; that all permits required shall be obtained within two months and the work involved completed within six months from February 14, 1928.

APPROVAL OF PLANS

971-27-BZ.

APPLICANT—Henry N. Steinert for Evelina S. Perkins, owner (Assets Funding Corp., lessee).

SUBJECT—Application (re decision of superintendent of buildings) under section 21 of the building zone resolution, to permit in a business district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles.

PREMISES AFFECTED—270 Dyckman street, Manhattan.

APPEARANCES—None.

ACTION OF BOARD—The board deemed that the plans did not conform to the conditions of the resolution as to height, plans disapproved.

PETITIONER—Goldfarb & Brandes, for Vincent Bovio, lessee.

SUBJECT—Variation of the labor law as cited in order of the superintendent of buildings.

PREMISES AFFECTED—14-16 East 38th street (7th floor), Manhattan.

APPEARANCES—

For Petitioner: Morris Goldfarb.
For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition denied.

THE VOTE TO GRANT—

Affirmative 0
Negative: Acting Chairman Connell, Commissioners Holland and Guilfoyle and Chief Kenlon 4
Absent: Chairman Walsh 1

THE RESOLUTION—

(965-27-S)

WHEREAS, Goldfarb & Brandes, for Vincent Bovio, lessees, filed, August 31, 1927, a petition for a variation from the requirements of the labor law, as cited in a decision of the superintendent of buildings, affecting premises 14-16 East 38th street, Borough of Manhattan; and

WHEREAS, the decision of the superintendent of buildings, dated August 12, 1927 (Violation No. 1015-1927), re seventh story, reads:

"Answering your letter of July 19, 1927, we beg to state that the partitions in question are contrary to Section 264 of the Labor Law, which section requires that all partitions in factory buildings be of fireproof material where the building is of fireproof construction."

and

WHEREAS, the building is fireproof, 14 stories in height, 50 ft. by 98 ft. 9 in. in area at first story and 50 ft. by 88 ft. 9 in. in area above; OCCUPIED: 1st story, stores, 10 persons; upper stories, 25 per cent manufacturing, 70 persons on each story; EQUIPPED with a sprinkler system and a fire alarm signal system; EXITS: a fire tower; an interior fireproof stairway, extending from the first story to roof, enclosed in fireproof partitions with fireproof doors at openings; and

WHEREAS, the petitioner claims that the wooden partitions subdividing the seventh story, erected at considerable expense are of a temporary nature and do not obstruct means of egress; the upper part of the partitions enclosing the show room and lobby is constructed of glass, and to tear this work down would cause a loss of business; furthermore, the petitioner contends that this petition is made for the purpose of maintaining these temporary wooden partitions on the seventh story until the expiration of the lease in January, 1929.

Resolved, that the decision of the superintendent of buildings be and it hereby is affirmed, and that the petition be and it hereby is denied.

733-26-S.

PETITIONER—Bernard J. Kelly for 25th Street Realty Co., owner.

SUBJECT—Variation of the labor law as cited in order of the fire commissioner.

PREMISES AFFECTED—138-144 West 25th street, Manhattan.

APPEARANCES—

For Petitioner: Bernard J. Kelly.
For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition denied.

THE VOTE TO GRANT—

Affirmative 0
Negative: Acting Chairman Connell, Commissioners Holland and Guilfoyle and Chief Kenlon 4
Absent: Chairman Walsh 1

THE RESOLUTION—

(733-26-S)

WHEREAS, Bernard J. Kelly, substituted for John J. Gilmartin, for Twenty-fifth Street Realty Co., owner, filed, August 26, 1926, a petition for a variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 138-144 West 25th street, Borough of Manhattan; and

WHEREAS, the order of the fire commissioner, dated July 16, 1926 (Order No. 99309-LD), reads:

"1. Remove all articles or wares of any nature from stairway enclosure at east side of building on the 1st story, as per Rule 5, of the Board of Standards and Appeals, July 29, 1924. Note: Cigar and Candy Stand;"

and

WHEREAS, the building is fireproof, 12 stories in height, 90 ft. by 81 ft. in area at first story and 90 ft. by 75 ft. in area above; OCCUPIED: 1st story, stores; upper stories, tenant factories, 50 persons per story; petitioner occupying a portion of the easterly entrance hall as a cigar and candy stand; EQUIPPED with a sprinkler system; a fire alarm signal system and a standpipe equipment; EXITS: two interior fireproof stairways, extending from the first story to roof, enclosed in fireproof partitions with fireproof doors at openings; an exterior iron stairway on the rear of the building, having fireproof openings along the course thereof, extending from the roof to the second story balcony, with EGRESS from the termination of the exterior stairway by means of a fireproof passageway leading to the westerly entrance hall and to the street; and

WHEREAS, petitioner contends that the cigar and candy stand is located in such a position as to afford a five-foot clearance and that it does not interfere with egress from the building; and

WHEREAS, this case was denied by the board on November 16, 1926, and reopened by vote of the board on July 26, 1927, the owner of the stand appearing and stating that the lease has but a short time to run and that hardship would result if not permitted to continue the operation of the stand until the expiration of the present lease.

Resolved, that the order of the fire commissioner be and it hereby is affirmed, and that the petition be and it hereby is denied.

1021-27-S.

PETITIONER—John J. Gilmartin, for F. & H. Mirror and Glass Co., owner.

SUBJECT—Variation of the labor law as cited in order of the fire commissioner.

PREMISES AFFECTED—4137-4139 Third avenue, The Bronx.

APPEARANCES—

For Petitioner: John J. Gilmartin.
For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition granted on condition.

THE VOTE—

Affirmative: Acting Chairman Connell, Commissioners Holland and Guilfoyle and Chief Kenlon 4
Negative 0
Absent: Chairman Walsh 1

MINUTES

THE RESOLUTION—

(1021-27-S)

WHEREAS, John J. Gilmartin, for F. & H. Mirror and Glass Co., owner, filed, September 19, 1927, a petition for a variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 4137-4139 Third avenue, Borough of The Bronx; and

WHEREAS, the order of the fire commissioner, dated July 30, 1927 (Order No. 25133-LD), reads:

"1. Arrange iron bars on windows on north and west side of cellar and 1st story so as to be readily movable or removable from both sides in such manner as to afford the free and unobstructed use of such windows for purpose of egress. Section 272 of the Labor Law."

and

WHEREAS, the building is non-fireproof, two stories and cellar in height, 50 ft. by 95 ft. in area at first story and 50 ft. by 90 ft. in area above; OCCUPIED: cellar, cutting glass, 1 person; 1st story, cutting glass, 9 persons; 2nd story, tenant factory, vacant at present; EXITS: an interior fireproof stairway, extending from the first story to top story, enclosed in fireproof partitions with fireproof doors at openings; and

WHEREAS, there are iron bars covering the windows in the west and north walls of the cellar and first stories and also thirteen windows (not referred to in the order) in the south and west walls of the second story of the building; and

WHEREAS, petitioner contends that the occupancy of the building is small; that nothing of an inflammable nature is stored therein and that the various floors are adequately provided with exits.

Resolved, that the board of standards and appeals does hereby *make a variation* in the requirements of the labor law, and that the petition be and it hereby is *granted on condition* that every third window on the cellar story and first story shall have the bars so adjusted that they can be opened from the inside; that the building shall be not increased in height or area; that the use and occupancy shall remain substantially unchanged, and that the labor law shall be complied with in all other respects.

1020-27-S.

PETITIONER—Samuel Rosenblum, for J. Chr. G. Hupfel Co., Inc., owner.

SUBJECT—Variation of the labor law as cited in order of the fire commissioner.

PREMISES AFFECTED—224 East 38th street, Manhattan.

APPEARANCES—

For Petitioner: Samuel Rosenblum.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition granted on condition.

THE VOTE—

Affirmative: Acting Chairman Connell, Commissioners Holland and Guilfoyle and Chief

Kenlon 4
Negative 0
Absent: Chairman Walsh..... 1

THE RESOLUTION—

(1020-27-S)

WHEREAS, Samuel Rosenblum, for J. Chr. G. Hupfel Co., Inc., owner, filed, September 17, 1927, a petition for a variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 224 East 38th street, Borough of Manhattan; and

WHEREAS, the order of the fire commissioner, dated June 29, 1927 (Order No. 23818-LD), reads:

"1. Arrange the fire escape at west side of building

so that same will conform to Section 274 of the Labor Law. Defects noted as follows:

- "(a) No stairway from top balcony to roof.
- "(b) No stairway from lowest balcony to ground.
- "(c) No fireproof passageway to street from termination of fire escape."

and

WHEREAS, the building is non-fireproof, three stories in height, 30 ft. by 81 ft. 1¼ in. in area; OCCUPIED: 1st story, private garage, 1 person; 2nd story, printing and engraving, 12 persons; 3rd story, printing and office, 5 persons; EXITS: an interior wooden stairway, extending from the first story to roof, enclosed in wood stud, plaster boards covered with 26 gauge metal partitions; at the rear of the north wall on the second and third stories there is an opening provided with a fireproof door leading to the party wall fire escape on the rear of the two buildings adjoining to the west; ROOF of adjoining building to west one story higher; and

WHEREAS, petitioner contends that the openings on the second and third stories were provided and accepted by the board of review of the fire department as a compliance with similar orders heretofore issued by the fire department and requests the acceptance of the existing exits in view of this action.

Resolved, that the board of standards and appeals does hereby *make a variation* in the requirements of the labor law, and that the petition be and it hereby is *granted*, as to Order No. 23818-LD, item 1, a, b and c, *on condition* that egress from this building shall be maintained through doors on the second story and on the third story, the third story to party wall fire escape balcony of the adjoining tenement house and the second story to roof of the extension of the tenement house to the west, with egress from the extension through public hall of tenement to street, so long as the property of the tenement house to the west and the building under appeal remain under one ownership; that the building shall be not increased in height or area; that the use and occupancy shall remain substantially unchanged and that the labor law shall be complied with in all other respects.

1105-27-S.

PETITIONER—Croker Nat'l. Fire Prev. Eng. Co., for Wilkinson Bros. & Co., Inc., owner.

SUBJECT—Variation of the labor law as cited in orders of the fire commissioner.

PREMISES AFFECTED—3-7 West 29th street, Manhattan.

APPEARANCES—

For Petitioner: Herman E. Horwood.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition granted on condition.

THE VOTE—

Affirmative: Acting Chairman Connell, Commissioners Holland and Guilfoyle and Deputy

Chief Martin 4
Negative 0
Absent: Chairman Walsh..... 1

THE RESOLUTION—

(1105-27-S)

WHEREAS, Croker National Fire Prevention Engineering Co., for Wilkinson Brothers & Co., Inc., owner, filed, October 11, 1927, a petition for a variation from the requirements of the labor law, as cited in orders of the fire commissioner, affecting premises 3-7 West 29th street, Borough of Manhattan; and

WHEREAS, the orders of the fire commissioner, dated April 12, 1927, read:

"Order No. 16452-LD:

"1. Enclose the hallway on 1st story west side of

MINUTES

building with partitions of fire resisting material, as per Section 271 of the Labor Law.

"Order No. 16454-LD:

"1. Arrange the doors leading to stairway east and west sides of building so as to open outwardly without obstructing the stairway as per Section 271 of the Labor Law.

"3. Arrange doors leading to street from east side stairway to open outwardly as per Section 271 of the Labor Law.";

and

WHEREAS, the building is fireproof, ten stories in height, 74 ft. 6 in. by 90 ft. 6 in. in area at first story and 74 ft. 6 in. by 85 ft. in area above; OCCUPIED: 1st story, show rooms, 7 persons; upper stories, manufacturing, 15 persons on each story; EXITS: two interior iron stairways, extending from the first story to roof, enclosed in four-inch terra cotta partitions with fireproof doors at openings; and

WHEREAS, the petitioner claims, as to Order No. 16452-LD, that the building in question was erected under approved plans in 1896, with the westerly stairway terminating in store on first story; that in 1915 a similar order was filed, which was complied with by erecting a mezzanine passageway and hallway extending to the street, and the order was dismissed February 3, 1917, by the bureau of fire prevention; that no other change has been made to the building up to the present date; as to Order No. 16454-LD, item 1, that the doors to stairways open outward, and when fully open leave a clearance of greater width than the width of the stairs; as to item 3 of the same order, that it is impossible to swing the front door outward as there is a stone pilaster on each side of the doorway preventing the doors from opening the full width; however, the petitioner proposes to provide the front door leading to street at east side with double swing hinges.

Resolved, that the board of standards and appeals does hereby *make a variation* in the requirements of the labor law, and that the petition be and it hereby is *granted*, as to Order No. 16452, item 1, *on condition* that the plate glass show window in the vestibule on the westerly side of the building and the plate glass in the doors leading to the store, shall be substituted with wire glass, cut up into panels of not more than 720 sq. in. each, and *granted*, as to Order No. 16454-LD, item 1, *on condition* that the doors as now constructed shall be not changed; that the occupancy of each floor shall be limited to the capacity of the westerly stairway, and *denied*, as to item 3, and further granted only so long as the conditions as to use remain substantially unchanged; that the building shall be not increased in height or area, and that the labor law shall be complied with in all other respects.

APPLIANCES SUBMITTED FOR APPROVAL

977-27-SA.

PETITIONER—The Martell Packings Co.

SUBJECT—Romec Rotary Pump, approval of.

APPEARANCES—None.

ACTION OF BOARD—Petition dismissed for lack of prosecution.

THE VOTE TO DISMISS FOR LACK OF PROSECUTION—

Affirmative: Acting Chairman Connell, Commissioners Holland and Guilfoyle and Deputy Chief Martin 4

Negative 0

Absent: Chairman Walsh..... 1

WHEREAS, the petitioner has failed to complete his papers, though duly notified to do so,

Resolved, that the petition be and it hereby is *dismissed* for lack of prosecution.

504-26-SA.

PETITIONER—Rayfield Oil Burner Company, Inc.

SUBJECT—Application for reopening—amendment of resolution—re approval of Rayfield Oil Burner.

APPEARANCES—

For Petitioner: Benjamin Weststone.

ACTION OF BOARD—Petition reopened and resolution amended.

THE VOTE TO REOPEN AND AMEND RESOLUTION—

Affirmative: Acting Chairman Connell, Commissioners Holland and Guilfoyle and Deputy Chief Martin 4

Negative 0

Absent: Chairman Walsh..... 1

THE RESOLUTION—

(504-26-SA)

WHEREAS, the Rayfield Oil Burner Company filed, June 3, 1926, a petition with the board of standards and appeals for approval of the device known as the Rayfield Oil Burner; and

WHEREAS, a committee of the board inspected this device in operation at premises 2582 Marion avenue, Borough of The Bronx, and recommended the approval of the burner; and

WHEREAS, this petition was granted by the board at its meeting, December 28, 1926, and petitioner requested a modification to permit use of Grade A oil.

Resolved, that the board of standards and appeals does hereby *approve* the device known as the Rayfield Oil Burner for use with Grade A and Grade B fuel oil in domestic and commercial installations when installed and equipped in accordance with the fuel oil rules of the board of standards and appeals.

Adjourned 4.30 p. m.

WILLIAM J. O'GORMAN, Secretary.

CONCRETE RULES

USE OF HYDRATED LIME IN CONCRETE.

Adopted by the Board of Standards and Appeals, April 19, 1920, under Cal. No. 153-20-S.

The use of hydrated lime in all classes of concrete construction shall not be prohibited when used in accordance with the conditions hereinafter set forth.

The hydrated lime shall conform with the standard specifications for this material which have been adopted by the American Society for Testing Materials.

The maximum amount of hydrated lime which may be used shall conform with the following table, all weights given being the amount of lime which may be incorporated for each ninety-five pound bag of Portland cement.

1-1½-3 Mix, 4 pounds of hydrated lime per bag of cement.

1-2-4 Mix, 5 pounds of hydrated lime per bag of cement.

1-2½-5 Mix, 6 pounds of hydrated lime per bag of cement.

For hand mixed concrete, the hydrated lime and Portland cement shall be well mixed while dry.

Hydrated lime shall not be used in concrete which is to be deposited under water.

RULES

ELEVATOR RULES

RULES FOR THE CONSTRUCTION, MAINTENANCE AND OPERATION OF ELEVATORS,
ADOPTED JULY 30, 1918, BY THE BOARD OF STANDARDS AND APPEALS, EFFECTIVE

AUGUST 26, 1918; REVISED MAY 13, 1919.

Rule 1. Application of Elevator Rules. Every elevator, escalator, freight conveyor or amusement device, within the City of New York, in addition to conforming with all provisions of the labor law, building code or other laws or ordinances, as are applicable thereto, shall comply with the requirements of these rules.

Existing and future installations shall at all times be maintained by the owner in a safe condition and in conformity with the requirements of these rules.

Rule 2. Definitions Relating to Elevators.

(a) The terms "elevator," "passenger elevator," "freight elevator" and "amusement device" shall have the meanings indicated in §560 of the building code.

(b) The term "dumbwaiter" shall apply to such special form of freight elevator, whether power driven or manually operated, the dimensions of which do not exceed nine square feet in horizontal section nor four feet height.

(c) The term "hand power elevator" shall apply to such forms of passenger or freight elevators which are manually operated and the dimensions of which exceed nine square feet in horizontal section.

(d) The term "sidewalk type elevator" shall apply to such special form of freight elevator, either power driven or manually operated, the platform of which does not exceed fifty (50) square feet in area and is suspended supported at one or more points on the underside.

(e) The term "escalator" shall apply to a moving continuous inclined stairway or runway designed for elevating or lowering passengers.

(f) The term "freight conveyor" shall apply to a device used for elevating or lowering freight in a vertical or inclined direction on a continuous moving carrier without the services of an operator thereon.

(g) The term "future installations" shall apply to any elevator, machinery or equipment used in connection therewith, installed after these rules become effective.

(h) The term "existing installations" shall apply to any elevator, machinery or equipment used in connection therewith, either already installed, in process of installation, or for which plans are on file with the superintendent of buildings prior to August 26, 1918.

(i) The term "alteration" shall include any essential change to the elevator car, counterweights, rails, machinery, safeties or other equipment or direct motive power; except that any repair work made necessary by the ordinary operation of the elevator shall not be deemed an alteration.

(j) The term "power driven elevator" shall apply to any form of elevator except those operated by hand power, gravity in both directions, or through friction on the pull rope.

Rule 3. Permits. The application required by §562, building code, for the installation or alteration of elevators, amusement devices, etc., shall be in triplicate on blanks furnished by the superintendent of buildings, stating the size, manner of construction, speed, capacity, other essentials, and mode of operation of the same, and accompanied by necessary drawings; except that applications for the installation of dumbwaiters, and conveyors or hoists may consist of a notice to the superintendent of buildings that such installation is to be made.

Rule 4. Alterations. In making alterations to existing installations, the parts changed or altered must conform in every respect to the rules governing future installations, and where parts of the elevator are damaged from any cause, the damaged parts must be completely renewed, at the discretion of the superintendent of buildings.

Where hand power elevators are changed to power-driven elevators, they shall conform to every rule governing power-driven elevators, except, that when the rise is not more than thirty-five feet and the capacity is not increased, existing wood guide rails may remain in use. In such conversions the use of a power-driven friction grip device is prohibited when the capacity exceeds 800 pounds.

Rule 5. Change of Classification. In future, no freight elevator shall be used for passenger service, unless such elevator conforms to the rules governing future installations of passenger elevators in so far as they relate to safety equipment, hoist ropes, carrying capacity, car enclosure, including gates and emergency exit, shaft openings and doors, and motive power.

In existing installations where such change of classification is made and the hatchway is unenclosed, a substantial enclosure of lawful partitions extending from floor to ceiling and flush with the hatchway shall be constructed, with all openings protected by proper shaft doors.

Rule 6. Tests of New Elevators. In future installations all elevators shall be tested as follows:

The cars of all power-driven elevators shall be loaded to their maximum carrying capacity and operated up and down the shaft several times to test the lifting capacity of the machinery and the operation of the upper and lower automatic limit devices. The car shall be stopped at various levels in the shaft to test the operation of the machine brake.

The cars of all power-driven elevators having speeds exceeding one hundred (100) feet per minute, and of hand-power elevators with a rise of more than fifteen (15) feet, shall be loaded to their maximum carrying capacity, run to the top landing and made to travel downward beyond normal speed, so as to automatically operate the speed retarder or speed governor and car safety device and the slack rope device when required, and (except for hand-power elevators) to stop the machine. This rule shall not be construed, however, to require safe lift elevators to be tested with safe lift load.

The cars of power-driven elevators having speeds of one hundred (100) feet per minute or less shall be loaded to their maximum carrying capacity, run to the top landing and started down at normal speed. At this speed the governor shall be manually operated to test the action of the safety equipment.

Rule 7. Carrying Capacity. In existing installations the owner, lessee or other person having charge or control of any elevator, except a dumbwaiter, and in future installations the manufacturer of any such elevator, shall cause to be fastened in a conspicuous place in the car of said elevator a metal plate, having suitable letters and figures on same, which shall designate the number of pounds weight which said elevator can safely carry.

Future installations shall be designed to sustain in all their parts a load per square foot of platform area inside the car of not less than the following:

RULES

- (a) 75 pounds for power-driven passenger elevators;
- (b) 50 pounds for power-driven freight elevators having platform areas not exceeding 100 square feet;
- (c) 50 pounds for hand-power passenger elevators.

Rule 8. Rules to be Posted. In the car of every passenger elevator the superintendent of buildings shall cause to be posted and maintained, in a conspicuous place, for the guidance and information of operators and passengers, such of the rules relating to the operation of elevators as he may deem necessary to insure public safety, including the number of passengers that such car may carry at one time.

Rule 9. Full Automatic Push Button Elevators. In future installations full automatic push button elevators must be so designed and equipped that the car, at its rated speed and load, will automatically stop when the car floor is level with or not more than three inches from the designated landing floor.

The car gate and shaft doors shall be equipped with approved devices that will prevent the operation of the car until the car gate is closed and the shaft door is closed and locked. The shaft door shall not be capable of being opened unless the floor of the car is within three inches of the landing. A push button to operate an alarm bell shall be provided in the car, for the purpose of notifying the person in charge of the premises, in case the car becomes stopped in the shaft from any cause. The shaft doors shall be so arranged that they cannot be opened after the car leaves the landing, except in emergency cases, and then only by a special key which must be provided and kept in the possession of the person having charge of the building.

Rule 10. Belt or Chain Drives. In future installations no hoisting machine driven by a chain or belt device from a motor or countershaft shall be used in connection with any passenger elevator.

Rule 11. Shaft Openings. In shafts hereafter constructed for passenger elevators, no more than one opening shall be allowed in each story, and all openings in the several stories shall be located one above the other, except that doors may be located on opposite or adjacent sides in the several stories when the distance from the car operating device to the door lock does not exceed forty-eight inches and can at all times be fully controlled by the elevator operator without leaving the car operating device. Door openings may be located on opposite or on adjacent sides of the shaft in the first or main entrance story and in the top story, provided that the openings in the remaining stories are all on the same side of the shaft, that a satisfactory device is installed preventing the operation of the car while the car gate distant from the operator is open, that an attendant is always present to control the shaft doors located in the first or top stories, and that there are no offsets or recesses on the inside of the shaft walls.

No alteration not in compliance with the above provision shall be made to any existing passenger elevator shaft.

Rule 12. Hoistway Enclosure. In the existing and future installations where no enclosure of solid partitions is required around the hoistway by the provisions of the building code, labor law or these rules, there shall be provided a substantial vertical enclosure extending from the floor for a distance of not less than six (6) feet on the side or sides where there are no openings in the car for loading purposes. On all other sides, gates or doors must be provided. Such enclosure may be constructed of mesh work, grille work or slatted partitions, provided that when mesh work is used it shall be of not less than No. 10 U. S. gauge wire or No. 13 U. S. gauge expanded metal, with mesh not exceeding one and one-half (1½) inches; when grille

work is used there shall be not more than one and one-half (1½) inches space between any two members except that where plain straight bars, not filled in with scroll, are used, there shall be not more than one (1) inch space between members; when wood slats are used they shall be not less than three-eighths (¾) of an inch thick, spaced not more than one (1) inch between slats.

In all cases where existing grille work permitted by law or regulation as a shaft enclosure is altered, such alteration shall be of substantial material and construction, properly braced and carried the full height of openings, with not more than one and one-half inch space between any two members; except that where straight bars, not filled in with scroll work, are used there shall be not more than one inch between members. Where deemed necessary, existing grille work with spaces exceeding those specified in this rule shall be made safe by suitable screen or wire mesh, or wire glass construction.

Rule 13. Shaft Doors. In existing and future installations all gates or doors leading to any shaft in which power-driven passenger elevators are operated (except full automatic push button elevators) shall be locked, bolted or securely fastened on the shaft side. Such shaft doors or gates shall be closed by the operator before the car is put in motion.

In future installations of passenger elevators, keys for opening the shaft doors or gates from the outside of the shaft, in case of emergency, shall be provided and shall be restricted in use to persons in responsible charge of the building.

In existing and future installations in factory building only, the openings in every passenger or freight elevator shaft or hoistway enclosure shall be protected in one of the following manners:

- (a) by properly constructed sliding doors.
- (b) by combination slide and swing doors;
- (c) by hinged or swinging doors equipped with approved devices to insure the shaft doors being closed and locked before the car can start from the landing;
- (d) by hinged or swinging doors, either manually operated or self-closing, with auxiliary gates not less than five (5) feet six (6) inches in height, substantially constructed of wood or metal, with not more than two (2) inch space between any two parallel members, and the bottom of the gate not more than ten (10) inches from the floor except at the top and bottom landings when the distance from the floor to the bottom of the gate may be increased to give the required head room, and shall close automatically upon the car leaving the landing in either direction; except further that for hand power elevator having the pull rope located in front of the shaft entrance gates may be two (2) feet six (6) inches in height.

When shaft doors are equipped with electric contacts or other locking devices, an approved emergency release shall be provided on the car within easy reach of the operator.

Rule 14. Car Gates. In existing and future installations, all entrances to the cars of power-driven passenger elevators shall be provided with substantial folding or sliding gates or doors, and where floor tracks are used the same must be kept level with the finished floor surface of the car. All folding gates over three feet wide at the entrance to shaft or car shall have top and bottom braces spaced not more than eighteen inches on centers when the gates are fully expanded. All car gates shall be closed by the operator before the car is put in motion.

In future installations passenger elevator car gates shall be equipped with an approved device or devices that will prevent the operation of the car while the car gates

RULES

be open, and an approved emergency release shall be provided on the car within easy reach of the operator.

Rule 15. Counterweights. In future installations all counterweights shall have their sections securely bolted together with one or more rods, as determined by the superintendent of buildings. Such rods must pass through the sub-weights and at least one portion of the frame work. No continuous forged straps shall be permitted.

In existing and future installations where counterweights run in the same shaft as the car, they shall, when at the uppermost position, be protected on all exposed sides the full length of the counterweight with substantial and properly secured shields of iron or steel not less than No. 16 U. S. gauge; except that for plunger or fixed stroke piston hydraulic or traction type elevators no top shield shall be required. Where no compensating chains or ropes are attached to the counterweight, similar shields shall be provided eighteen inches above the bottom of the counterweight runway and extending upwards at least five feet. In existing installations, where the clearance between car and counterweight is not more than one and one-half inches, neither top nor bottom shields shall be required, but in lieu thereof full-tale metal chains not less than five feet long, spaced not more than six (6) inches on centres from rail to rail, shall be suspended from the bottom of the counterweight.

Rule 16. Speed Governors. All power-driven elevators with a rise of more than fifteen feet not already equipped with a speed governor and safety (except sidewalk type elevators and existing freight elevators in buildings not exceeding five stories in height and direct plunger elevators) shall have at the top of the elevator shaft a governor properly connected to a safety device attached to the underside of the car platform, in such manner that the car will be brought to rest with an easy and gradual stop, or in a distance not greater than nine feet at a speed of seven hundred feet per minute, provided that on elevators having a speed of one hundred feet per minute or less, safeties of the instantaneous type may be used. Every governor operating car safety shall be set to trip the safety at a speed not exceeding forty per cent. above the rated speed given in the application, but in no case exceeding eight hundred and fifty feet per minute; but this shall not require any governor to trip the safety at a speed less than one hundred and fifty feet per minute. When a speed governor has been set for the rated speed it shall be sealed. When safeties of the instantaneous type are used, a proper flexible means of application must be interposed between the safety and the governor.

Rule 17. Limit Devices. In future installations all power-driven elevators shall have approved limit devices as follows:

(a) for Drum Type Electric Elevators, except sidewalk type elevators with speeds not exceeding seventy-five (75) feet per minute, limit switches on the machine and in the shaft or on the car;

(b) for Traction Type Electric Elevators, limit switches in the shaft or on the car;

(c) for Electric Drum Sidewalk Type Elevators, with speeds not exceeding seventy-five (75) feet per minute, machine automatics will be required, but stopping devices in the operating rope will be accepted in lieu of limit switches in the shaft or on the car;

(d) for Hydraulic Elevators, with speeds not exceeding one hundred and fifty (150) feet per minute, stopping devices on the operating rope;

(e) for Hydraulic Elevators, with speeds exceeding one hundred and fifty (150) feet per minute, limit devices on the machine;

(f) for Lever or Crank-Operated Hydraulic Elevators, limit devices on the machine.

Rule 18. Elevator Brake. In future installations every electric elevator shall be equipped with an electric

or electro-mechanical brake that will bring the car to rest when the car operating device is brought to the stop position or when any of the electric safety devices operate.

When the elevator is driven by a belt from an electric motor, the brake must be arranged to operate should the motor belt break or leave the pulleys.

Rule 19. Operating Device. In future installations every elevator driven by electric power and operated by hand rope, lever, wheel or other non-self-centering device, shall be provided with an approved device preventing the operation of the car, after the interruption of the current, until the operating device has been first returned to the inoperative position, and electric car operating switches shall be self-centering and self-locking in the inoperative position.

Rule 20. Reverse Phase Relays. In future installations every elevator motor operated by polyphase alternating electric current shall be equipped with a reverse phase relay.

Rule 21. Slack Rope Device. In future installations all power-driven elevators, including power-driven sidewalk elevators, operated by drum hoisting machines, shall have approved automatic slack rope devices that will stop the machine if, from any cause, any car hoisting rope or chain attached to the drum becomes slack.

Rule 22. Car Locking Device. No elevator shall be used for the carrying of safes or other material of a greater weight than the normal lifting power of such elevator, unless the machine is provided with special equipment and the car is equipped with an approved locking device which will hold it at any landing, independent of the hoisting ropes while such safe or other material is being loaded or unloaded.

Rule 23. Hand-Power Elevator Safety Devices. In future installations every hand-power elevator (except sidewalk type elevators) with a rise of more than fifteen feet, shall be equipped with an approved safety device that will immediately stop and hold the car with a full load if the rope breaks, and with an approved automatic speed retarder and a hand-operated brake operating in both directions.

Grip hoists and elevators operated by gravity in both directions shall comply with the requirements for hand power elevators.

Rule 24. Escalators. In future, every escalator installed shall be equipped with an approved safety device to prevent any accidental downward reversal and with an approved stopping device.

Rule 25. Car Construction. In future installations the car and car frame of every power-driven elevator and of every hand-power elevator with a rise of more than thirty-five (35) feet shall be of incombustible materials; except that the platform may be of wood covered on the underside with incombustible materials. The car enclosure and flooring may be of hard wood. The car, car frame and enclosure of every hand-power elevator with a rise of thirty-five (35) feet or less may be constructed of wood.

Rule 26. Passenger Car Enclosures. In existing and future installations every passenger elevator car shall be fully enclosed on all sides not used for loading or unloading, and on the top, with substantial construction.

In future installations where grille work is used for the car enclosure, including the top, it shall be constructed with not more than one and one-half inch space between any two members; except that where straight bars not filled in with scroll work are used there shall be not more than one inch space between members. When the clearance between car and counterweight is less than two (2) inches, that part of the car enclosure opposite the counterweight runway shall

RULES

be of solid construction or screened with not more than one-half ($\frac{1}{2}$) inch mesh of not lighter than No. 16 U. S. gauge wire, to a height of not less than six (6) feet six (6) inches.

In existing installations in factory buildings only, where the spaces exceed those specified for future installations, it shall be deemed satisfactory if the grille work is made safe by suitable screen or wire mesh fastened to the car enclosure.

Rule 27. Emergency Exit. In future installations every power-driven passenger elevator car shall have a trap door in the top, of such a size as to afford easy egress for passengers, but not less than sixteen inches in least dimension nor less than four hundred square inches in area. When there is more than one elevator in a shaft and the vertical distance between any two consecutive shaft door openings exceeds thirty (30) feet, there shall be provided in addition to the trap door an emergency side exit to the adjacent car.

In existing installations not already provided with an emergency exit, a trap door as specified for future installations shall be provided; except that when the cross head or car top construction renders it impracticable to provide such trap door, this requirement may be waived by the superintendent of buildings, if egress, in case of emergency, is possible through shaft openings, or to an adjacent car.

Rule 28. Freight Car Enclosure. In existing and future installations in factory buildings only, every freight elevator car shall be enclosed on all sides not used for loading or unloading, with substantial construction, to a height of five (5) feet six (6) inches, or to the cross head, when this is less than five (5) feet six (6) inches above the car platform.

In future installations, where an enclosure of open construction is used, the space between any two parallel members shall not exceed one inch.

Rule 29. Freight Elevator Cover. In existing and future installations in factory buildings only, every freight elevator car shall be provided with a substantial cover or grating constructed of not less than No. 8 U. S. gauge wire or its equivalent in strength, and of a mesh that will reject a one and one-half ($1\frac{1}{2}$) inch diameter ball. Sections of the cover or grating may be arranged to swing upward for handling long material, but such cover or grating shall be closed at all other times. In covers hereafter installed (except where car gates are provided) that part of the cover facing the entrances to the hoistway, extending the full width of the car, shall be hinged on a line not less than eight (8) inches nor more than twelve (12) inches back from the edge of the landing, and the hinged section shall be self-closing.

Rule 30. Space Between Saddles and Car. In future installations there shall be not more than one and one-quarter inch, nor less than three-quarters of an inch space between the floor of the car and the floor saddles, and where the saddles project into the shaft the same shall be properly bevelled on the underside at an angle of not less than sixty degrees to the horizontal.

Rule 31. Lights. In existing and future installations the cars of all elevators shall be properly lighted at all times when in service.

Rule 32. Guide Rails. In future installations, guide rails for both car and counterweights of all elevators (except dumbwaiters, and hand-power elevators with a rise of thirty-five feet or less) shall be of iron or steel. They shall be fastened to the sides of the shaft with wrought or cast iron brackets of such strength and design and so spaced that the guide rails and their fastenings shall be able to safely withstand the application of the safety when stopping a fully loaded car under test. For elevators requiring safeties, the guiding surfaces of the car guides shall be finished smooth and joints shall be tongued and grooved or dowelled, and rails shall extend to the level of or above the overhead beams and shall be bottomed on a suitable support.

The weights of steel or iron guide rails shall be not less than given in the following table:

WEIGHT OF GUIDE RAILS PER LINEAL FOOT

Total Weight of Car and Live Load, or Weight of Counterweight	Weight of Car Guide Rails		Weight of Counterweight Guide Rails	
	With Safeties.	Without Safeties.	With Safeties.	Without Safeties.
0-4000 lbs.	$7\frac{1}{2}$	$7\frac{1}{2}$	$7\frac{1}{2}$	$6\frac{1}{2}$
4001-15000 "	14	14	14	$7\frac{1}{2}$
15001-40000 "	30	30	30	$7\frac{1}{2}$

Rule 33. Ropes. In future installations, all elevator (except dumbwaiters) shall have not less than two ropes independently connected to the car and to each set of counterweights. In drum type machines, the lifting and counterweight ropes shall have at least one full turn of the rope on the drum when they have reached the limit of travel. Every rope hereafter used shall have a factor of safety of not less than six for freight elevators, and not less than eight for passenger elevators. The diameter of any hoist or counterweight rope hereafter installed (except for hand-power elevators and sidewalk type elevators) shall be not more than one-fortieth ($1/40$) of the diameter of any sheave or drum over which it passes. All ropes used in the operation of elevators shall be of steel, iron or marlin covered steel. Ropes of other material than metal may be used as hand ropes and brake ropes in hand power elevators or as centering ropes in power driven elevator with hand rope control. Where overhead machines are used, equalizer arms will be permitted on the car and counterweights. Nothing in this rule shall prohibit the use of chains on sidewalk elevators instead of ropes.

Rule 34. Auxiliary Freight Compartments. In future installations no elevator shall be permitted to have attached above, below or on the side of the car a freight compartment or similar device.

In existing installations, entrances to freight compartments shall be protected by folding gates, as required for passenger elevators, and so arranged that the elevator cannot be operated until the gate is closed.

Rule 35. Overhead Gratings. In every elevator shaft (except existing elevator shafts, dumbwaiter shafts or the shafts of sidewalk elevators outside the building line) immediately under the sheaves at the top of the shaft, or when the machine is located at the top of the shaft, at the level of the top of the machine beams, there shall be provided and placed in a substantial grating of iron or steel capable of sustaining not less than seventy-five pounds per square foot. No two members of such grating shall be spaced more than one and one-half inches apart. When such grating does not extend over the entire area of the shaft, the open edges shall be protected by substantial screened railings not less than three feet high. Every such grating shall extend at least two and one-half feet beyond the general contour of the sheaves or machinery. Deflecting sheaves extending below the machine level, or hoist and counterweight sheaves located at the sides of the shaft, shall be protected by gratings or cradles of a construction similar to that required for the gratings. Fireproof floor construction shall be accepted as the equivalent of the gratings.

Nothing in this rule shall prevent the placing of a trap door in such a grating where other suitable access cannot be had.

Any grating hereafter placed in an existing elevator shaft shall conform to the requirements of this rule.

Rule 36. Elevator Pit. In every elevator shaft hereafter constructed (except shafts for dumbwaiters, for sidewalk elevators and for hand-power elevators with a rise of less than thirty-five feet), the distance from the floor saddle of the lowest landing to the bottom of the pit shall not be less than four feet when the speed does not exceed two hundred and fifty feet per minute, not less than

RULES

ve feet when the speed exceeds two hundred and fifty but does not exceed four hundred feet per minute, and not less than six feet when the speed exceeds four hundred feet per minute, and in no case shall there be less than two feet in the clear between the bottom of the pit and the lowest point of the underside of the car floor framing when the car is at the lowest possible position. In the case of power-driven sidewalk type elevators, the clear space between the bottom of the pit and underside of the car floor structure shall be not less than six inches. The pits herein required at the bottom of elevator shafts shall not be used for piping, machinery, or for any purpose not required for the elevator equipment; but this shall not prevent the encroachment upon such pits, in the case of new elevators installed in existing buildings, of the foundations of bearing walls and columns to an extent not exceeding twenty-five per cent. of the area of the pit.

Rule 37. Overhead Clearance for Cars. For all elevator shafts hereafter installed (except shafts for sidewalk type elevators) there shall be provided a sufficient clear space, when the car is at the top landing, to allow a run-by of not less than two feet for elevators having a speed not exceeding one hundred feet per minute, not less than three feet for elevators having a speed exceeding one hundred feet per minute and not exceeding three hundred and fifty feet per minute, and not less than five feet for elevators having a speed exceeding three hundred and fifty feet per minute.

Rule 38. Overhead Clearance for Counterweights. In future installations there shall be provided in all elevator shafts a sufficient clear space when the car has completely compressed the pit buffers to allow of a run-by of the counterweight of not less than two (2) feet for traction and hydraulic type elevators, and not less than three (3) feet for drum type elevators.

Rule 39. Machinery Room. All parts of the elevator machinery for power-driven elevators shall be properly enclosed, and suitable light provided. In buildings hereafter

erected free and safe access must be provided to all parts of the elevator machinery, and there shall be not less than twelve (12) inches clearance at limit stop devices on machine and outboard bearings of motor. In future installations in existing buildings, such clearance shall be provided as deemed necessary by the superintendent of buildings, but need not exceed that specified for buildings hereafter erected. When the machine is located at the bottom of the shaft, it shall be protected with a substantial pit pan.

Rule 40. Speed. The speed of all power-driven elevators shall not exceed seven hundred feet per minute.

Rule 41. Buffers. In future installations for all power-driven elevators (except sidewalk type elevators) there shall be provided substantial spring buffers, pneumatic buffers, or oil buffers for the car and counterweights provided that for the cars and counterweights of all elevators having speeds of more than three hundred and fifty feet per minute, substantial oil buffers shall be installed.

Rule 42. Supporting Beams. Supporting beams hereafter installed for elevator sheaves or machinery (except in dumbwaiter shafts) shall be of iron or steel.

Rule 43. Determination of Questions. When any existing installation for either passenger or freight service is deemed by the Superintendent of Buildings to be in an unsafe or dangerous condition it shall be made safe in such manner as he shall prescribe, and all defective parts necessary of replacement shall conform, in so far as possible, with the rules governing future installations.

Where there are practical difficulties in the way of carrying out the strict letter of the foregoing rules, the Superintendent of Buildings shall have power to vary their provisions so that the spirit of the law shall be observed and public safety secured and substantial justice done, provided that whenever such variations are granted by a superintendent of buildings it shall be indorsed in writing upon the permit over the signature of such superintendent.

RULES

COMMUNITY LAUNDRIES IN BUSINESS DISTRICTS

Resolved Resolution Adopted by the Board of Appeals, March 16, 1920, Under Cal. No. 549-17-BZ

WHEREAS, the board of appeals, at its regular meeting, December 16, 1919, unanimously rescinded an opinion incidentally expressed and incorporated in a resolution adopted by the board on May 28, 1917, in acting on Cal. No. 549-17-BZ. This opinion was that a laundry is not a prohibited use in a business district under the building zone resolution. The board unanimously rescinded this expression of opinion, inasmuch as a laundry is a factory within the meaning of the labor law and must be so construed

under the building zone resolution in the absence of any definition therein to the contrary.

Resolved, that this shall not be construed to include within the prohibited uses specified under Section 4 of the building zone resolution a community or neighborhood laundry located in the basement or ground floor of a building within a business district and containing not more than eight (8) rotary washing machines with inside cylinders not more than 30 in. in diameter by 30 in. in length over all nor more than two 20 in. extractors, the 20 in. measurement being the diameter of the inside basket, which machines and extractors shall be operated solely by electric power and do not require the installation of steam boiler or plant.

FORMS FOR NOTICES TO PROPERTY OWNERS

If applicants, under the building zone resolution, desire copies of Form 13A, for notices to property owners, such forms are not to be supplied by this office. The applicant is entitled only to one copy of Form 13A, properly filled out.

If he desires additional copies for his own convenience, in notifying property owners, he can obtain such copies from The O'Connell Press, 176 Park Row, Manhattan, at three cents each, postage to be added if the forms are to be supplied by mail.

WARNING

Notice is hereby given to all petitioners, appellants and applicants, and to all lawyers, architects and engineers representing owners or lessees in proceedings before the board—

First, That if they do not appear in person or by representative at the hearing on their case, dismissal for lack of prosecution is likely to result.

Second, That due and ample notice of the date set for hearing is provided in the publication in this BULLETIN of the calendars of the board, each case being set down by Calendar Number and premises under the date of the hearing.

Third, That no plea of ignorance of the date of the hearing can be entertained in view of this publication and of the posting of the calendars on the bulletin board in the

offices of the board and of the further publication of the calendars in the daily press.

Fourth, That no one is entitled to written notice of the date for the hearing in his case, and that the plea of failure to receive such notice is no excuse for neglect to appear.

Fifth, That the business of the board is to dispose of all cases promptly, for the reason that the pendency of an appeal or petition ties the hands of the administrative official in enforcing his order; therefore, no appeal or petition will be allowed to be hung up by reason of failure of the appellant or petitioner to file necessary data, or by any other method of delay.

Sixth, That no appeal, application or petition will be accepted for filing unless, at the time of filing, all papers, plan and data required by law are supplied, as specified on the blank appeal, application or petition forms.

CONTENTS

This issue of the Bulletin contains, in the order given—

Docket.

Call of Clerk's Calendar.

The Trial Calendar.

Notices in Building Zone Cases.

Minutes of Regular Meeting, February 21, 1928, at 10 a. m.

Minutes of Regular Meeting, February 21, 1928, at 2 p. m.

Notice of Public Hearing.

Rules of Procedure.

Elevator Rules.

Community Laundries, Rules.

Progress Report.

PUBLIC HEARINGS

Tuesdays, at 10 a. m. and 2 p. m.

Special meetings as published in this Bulletin.

Call of Clerk's Calendar, Tuesdays, at 2 p. m.

All hearings are held in Room 1013, Municipal Building, Manhattan.

HOURS FOR CONSULTATION

10 A. M. to 1 P. M.

Any person desiring to consult the chairman or the engineers, pertaining to the work of the board, will be seen only between the hours of ten in the morning and one in the afternoon—Saturdays excepted.

CALL OF CLERK'S CALENDAR

The *Clerk's Calendar* consists of applications under the Building Zone Resolution, and its object is to give interested property owners opportunity to file objections, if any, and will be called in Room 1013, Tuesday, February 28, 1928, at 2 o'clock. At this call each case is set for hearing on a definite day.

The next subsequent Call of the Calendar will be on Tuesday, March 6, 1928, at 2 o'clock.

The *Clerk's Calendar* is not to be confused with the calendar of cases that have been definitely set for hearing on fixed days.

NOTICE TO APPELLANTS AND PETITIONERS

No appeal, application or petition will be entertained in connection with which court proceedings are pending or in progress, nor accepted that are not filed within twenty days from the date of the action of the Administrative Official.

Any communication purporting to be an appeal, application or petition shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this board.

Upon receipt of any such communication the writer will be supplied with the official forms for presenting his appeal, application or petition, and if he fails to supply the data required thereon, within twenty days, his case may be dismissed for lack of prosecution.

At the time of filing an application, the appellant or petitioner shall forward a signed notice of appeal addressed to the administrative official (either superintendent of buildings or fire commissioner) and file with this board a duplicate of said notice.

Petitioners are advised that their plans must indicate the points of the compass so as to establish the true location and position of the property, the subject of the appeal.

Appeals, applications and petitions will be simplified and disposition of same expedited by conforming to these directions.

WILLIAM E. WALSH, Chairman.

THE RESOLUTION—

(969-27-A)

WHEREAS, Cornell Utilities Co., Inc., for J. Hamburger Co., Inc., owner, filed, September 1, 1927, an appeal from an order of the fire commissioner, affecting premises 227-228 West street, Borough of Manhattan; and

MINUTES

WHEREAS, the order of the fire commissioner, dated August 10, 1927 (Order No. 39345-LC), reads:

"1. Separate boiler room from remainder of building as shown on approved plan No. 4273-26, Rule 33 of the Fuel Oil Rules.";

and
WHEREAS, the building is fireproof, three stories in height, 50 ft. by 85 ft. in area; OCCUPIED: 1st story, provision market, 10 persons; 2nd story, offices, 10 persons; 3rd story, offices, 5 persons; a fuel oil burning system having been installed consisting of a 1,080-gallon storage tank connected by necessary piping and valves to a Nokol Oil Burner located in the cellar, using Grade B fuel oil; and

WHEREAS, the appellant has filed plans showing the boiler room (where the burner is located), enclosed in fireproof partitions with two fireproof, self-closing doors opening to other parts of the cellar; furthermore, the appellant proposes to install an engineer's ladder in the front area leading to the sidewalk on West street.

Resolved, that the order of the fire commissioner be and it hereby is *affirmed*, and the appeal be and it hereby is *denied*.

928-27-A.

APPELLANT—Hotel Monticello, Inc., owner.

SUBJECT—Appeal from order of the fire commissioner.
PREMISES AFFECTED—35-37 West 64th street, Manhattan.

APPEARANCES—

For Appellant: James A. Dilkes and John A. Jepson.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Acting Chairman Connell, Commissioners Holland and Guilfoyle and Chief Kenlon 4
Negative 0
Absent: Chairman Walsh..... 1

THE RESOLUTION—

(928-27-A)

WHEREAS, Hotel Monticello, Inc., owner, filed, August 18, 1927, an appeal from an order of the fire commissioner, affecting premises 35-37 West 64th street, Borough of Manhattan; and

WHEREAS, the order of the fire commissioner, dated February 4, 1927 (Order No. 9688-F), reads:

"1. Provide a tank on roof of at least 3,500 gallons capacity for the standpipe system, said tank to be so elevated that the bottom will not be less than 20 ft. above the roof level. Sec. 20, Ch. 12, Code of Ordinances.";

and

WHEREAS, the building is fireproof, nine stories (104 ft. to roof of pent house) in height, 50 ft. by 90 ft. in area; OCCUPIED as a hotel and restaurant for guests; and

WHEREAS, appellant contends that there is a four-inch standpipe in the building having 50 ft. of standard hose at the outlet on each story, including the cellar and pent house; that the system is fed from three 600-gallon tanks located 2 ft. 3 in. above the main roof of the building; and that the water in said tanks is supplied by a steam pump and by an automatic electric pump, connected with a two-inch filling pipe and proposes to install another electric pump of adequate capacity, directly connected with the standpipe.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that one tank with a capacity of not more than 1,300 gallons shall be reserved solely for the standpipe supply and that the standpipe system shall comply

with the rules of the board of standards and appeals in all other respects.

927-27-A.

APPELLANT—Turner Construction Co., for King Charlton Corp., owner.

SUBJECT—Appeal from decision of the fire commissioner.
PREMISES AFFECTED—346-364 Hudson street, 88-98 King street and 79-89 Charlton street, Manhattan.

APPEARANCES—

For Appellant: John R. Voorhees.

For Administration: Inspector Carroll of fire department.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Acting Chairman Connell, Commissioners Holland and Guilfoyle and Chief Kenlon 4
Negative 0
Absent: Chairman Walsh..... 1

THE RESOLUTION—

(927-27-A)

WHEREAS, Turner Construction Co., for King Charlton Corp., owner, filed, August 18, 1927, an appeal from a decision of the fire commissioner, affecting premises 346-364 Hudson street, 88-98 King street and 79-89 Charlton street, Borough of Manhattan; and

WHEREAS, the decision of the fire commissioner, dated May 11, 1927 (Plan No. 4382-26), reads:

"2. As a 30,000 gallon gravity tank is to be installed, an approval of Board of Standards and Appeals must be secured for same.";

and

WHEREAS, the building is fireproof, eight stories (111 ft.) in height, 201 ft. 8 in. by 150 ft. in area; OCCUPIED: basement, 1st and 2nd stories, newspaper printing; 3rd to 8th stories, inclusive, printing and allied trades, approximately 193 persons per story; and

WHEREAS, it is proposed to erect a 30,000-gallon capacity gravity tank for the sprinkler system 25 ft. above the roof of the building; and

WHEREAS, appellant contends that the sprinkler system averages 303 heads per fire area; that in accordance with the sprinkler rules a 30,300-gallons capacity tank is required; that the entire supply is stored in one tank on account of architectural appearance and simplification of maintenance and piping and contends, further, that plans for the structural parts of the building, carrying this equipment, have been approved by the building department.

Resolved, that the decision of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that the sprinkler system shall comply with the rules of the board of standards and appeals in all other respects.

1078-27-A.

APPELLANT—410 West 207th Street Corp., owner.

SUBJECT—Appeal from order of the fire commissioner.
PREMISES AFFECTED—408-410 West 207th street, Manhattan.

APPEARANCES—

For Appellant: D. L. Dean and Allan M. Johnston.

For Administration: Inspector Meyer of fire department.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Acting Chairman Connell, Commissioners Holland and Guilfoyle and Chief Kenlon 4

THE RESOLUTION—

(1078-27-A)

WHEREAS, 410 West 207th Street Corp. filed, October 1, 1927, an appeal from an order of the fire commissioner, affecting premises 408-410 West 207th street, Borough of Manhattan; and

WHEREAS, the order of the fire commissioner, dated September 7, 1927 (Order No. 39584-LC), reads:

"You are hereby ordered and required to:

"1. Remove all liquefied chlorine from the premises."

WHEREAS, the building is fireproof, four stories in height, 75 ft. by 90 ft. in area (also a water pool adjoining at west side); OCCUPIED as a bath house: 1st story, chlorinator and lockers, 150 persons; 2nd story, office and restaurant, 150 persons; 3rd story, lockers, 150 persons; 4th story, resting space; located partly in a business district and partly in a residence district; and

WHEREAS, the appellant proposes to store 150 pounds of chlorine in a special apparatus constructed for the purpose, enclosed in an air-tight compartment located on the first story and vented to the outer air, for the proper sterilization of water used in the bathing pool; and

WHEREAS, the appellant contends that this method of sterilization is essential to the business and used in a considerable number of pools within and also outside the City of New York.

Resolved, that the order of the fire commissioner be and it hereby is modified, and the appeal be and it hereby is granted on condition that not more than forty pounds of chlorine shall be installed on the premises at one time in two twenty-pound metal containers, one container to be held in reserve and only one container to be at work at any one time; that the two chlorine containers and the apparatus to operate same shall be installed in a fireproof enclosure, vented to the outer air, with a sprinkler head in the enclosure and a remote control valve on the outside of the fireproof room.

THE RESOLUTION—

(1107-27-A)

WHEREAS, Croker National Fire Prevention Engineering Co., for Harry Hirschfeld, owner, filed, October 11, 1927, an appeal from an order of the fire commissioner, affecting premises 123-129 West 44th street, Borough of Manhattan; and

WHEREAS, the order of the fire commissioner, undated (Order No. 24314-F), reads:

"1. Raise standpipe tank to at least 20 feet above top story hose outlet. Sections 580 and 581, Art. 28, Ch. 5, Code of Ordinances."

and

WHEREAS, the building is fireproof, 12 stories and pent house in height, 100 ft. by 100 ft. 5 in. in area; OCCUPIED as a hotel: stores, lobby and kitchen on first story; thirty-four bedrooms on each story above the first story; and

WHEREAS, the appellant claims that the bottom of the standpipe tank on roof is now 8 ft. 8½ in. above the hose outlet at top story; that the installation was approved in May of 1916, thereafter an order was issued to connect the house supply above the 3,500 gallon mark, the work completed and the order was dismissed by the fire department; that there are now two 3,500-gallon tanks on the roof, cross connected, one is reserved for the standpipe system, fed by an automatic pump in cellar; that there are two 2½-gallon fire extinguishers, a safety bucket tank and six pails on each floor; furthermore, the appellant contends that under Rule No. 44 of the standpipe rules the above standpipe system is exempt from further orders.

Resolved, that the order of the fire commissioner be and it hereby is modified, and the appeal be and it hereby is granted on condition that the 3,500-gallon tank referred to in the order shall be reserved entirely for standpipe purposes; that the bottom of the tank shall be not less than approximately 9 feet above the highest top floor outlet; that two 2½-gallon fire extinguishers shall be installed and maintained on the top floor at all times; that the standpipe system shall conform in all other respects to the rules of the board of standards and appeals and that the building shall not be increased in height, area or dimension.

1005-27-A.

APPELLANT—Croker National Fire Prevention Engineering Co., for John C. Wiards & Co., owner.

SUBJECT—Appeal from order of the fire commissioner.

PREMISES AFFECTED—Southwest corner of Freeman street and Provost street, Brooklyn.

APPEARANCES—

For Appellant: Herman E. Horwood and Howard B. Bischoff.

For Administration: Inspector Meyer of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Acting Chairman Connell, Commissioners Holland and Guilfoyle and Chief

Kenlon 4

Negative 0

Absent: Chairman Walsh..... 1

THE RESOLUTION—

(1005-27-A)

WHEREAS, Croker National Fire Prevention Engineering Co., for John C. Wiards & Co., owner, filed, September 13, 1927, an appeal from an order and a decision of the fire commissioner, affecting premises southwest corner of Freeman and Provost streets, Borough of Brooklyn; and

WHEREAS, the order and the decision of the fire commissioner, respectively, dated May 24, 1927 (Order No. 10504-LC), read:

"1. Discontinue the storage and use of fuel oil on the above premises until such time as plans have been filed with and approved by the Fire Commissioner."

and

"Alt. No. 1903-26:

"2. Adequate ventilation for furnace gases must be provided.

"3. Flues must be constructed in accordance with Section 392 of Chapter 5, Code of Ordinances. City of New York."

and

WHEREAS, the building is non-fireproof, one and two stories (30 ft.) in height, 50 ft. by 200 ft. in area; OCCUPIED for the manufacture of acids and salts: 1st story, 12 persons; 2nd story, 2 persons; a fuel oil burning system having been installed consisting of a 950-gallon storage tank, buried outside, connected by necessary piping and valves to a Ray Rotary Fuel Oil Burner attached to the furnace on first story; and

WHEREAS, the appellant has filed drawings showing a No. 14 gauge metal flue leading from the furnace, passing

MINUTES

through the drying chamber and dust chamber, thence extended up through the roof to outer air; and

WHEREAS, the appellant claims that the metal flue from the furnace is covered with six inches of asbestos; furthermore, the appellant contends that the outfit is installed for the purpose of dehydrating acids and salts, reducing them to powder, and the system would be rendered useless if forced to comply strictly with the requirements of the order as to flues and ventilation; and

WHEREAS, the appellant at the public hearing held on this date requested that the appeal with reference to Order No. 10504-L.C, item 1, issued by the fire commissioner, be withdrawn.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted*, as to objections to Alt. No. 1903-26, items 2 and 3, *on condition* that any vapor emanating through the wood vent to the outer air shall not exceed a temperature of 212 degrees Fahrenheit, and that the inlet flue shall be protected with a covering of magnesite cement, one inch in thickness; that the building shall not be increased in height, area or dimension, and granted only as long as conditions as to occupancy and use remain substantially unchanged.

BUILDING ZONE CASES.

895-27-BZ.

APPLICANT—John J. Dunnigan, for Macombs Realty Corp., owner.

SUBJECT—Application (re decision of the superintendent of buildings) under section 21 of the building zone resolution, to permit in a residence district the alteration and conversion of occupancy of the first story of an existing apartment house from residence to business use (stores).

PREMISES AFFECTED—65 Featherbed lane, The Bronx.

APPEARANCES—

For Applicant: Joseph F. Dusenbury.

For Opposition: Charles V. Scanlon and William J. Avrutis.

ACTION OF BOARD—Laid over to April 3, 1928, at 10 a. m., on request of applicant's representative.

913-27-BZ.

APPLICANT—Charles Klenk, for Arthur Bucher, owner.

SUBJECT—Application (re decision of the fire commissioner) under section 21 of the building zone resolution, to permit in a business district the erection and maintenance of a gasoline service station.

PREMISES AFFECTED—Northwest corner of Fairview avenue and Forest avenue, Ridgewood, Borough of Queens.

APPEARANCES—

For Applicant: Charles Klenk and Arthur Bucher.

For Opposition: None.

ACTION OF BOARD—Laid over to March 20, 1928, at 10 a. m., for inspection and report by a committee of board.

938-27-BZ.

APPLICANT—William Shary, for Danclare Holding Corp., owner.

SUBJECT—Application (re decision of the superintendent of buildings) under section 21 of the building zone resolution, to permit in a business district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles.

PREMISES AFFECTED—2388-2394 Ryer avenue, The Bronx.

APPEARANCES—

For Applicant: William Shary.

For Opposition: None.

ACTION OF BOARD—Laid over to March 20, 1928, at 10 a. m., on request of applicant.

980-27-BZ.

APPLICANT—Philip J. Sinnott, for Liberty Heights Realty Co., Inc., owner.

SUBJECT—Application (re decision of the superintendent of buildings) under section 21 of the building zone resolution, to permit in a business district the erection and maintenance of a gasoline service station.

PREMISES AFFECTED—Northeast corner of Cooper avenue and Cypress avenue, Cypress Hills, Borough of Queens.

APPEARANCES—

For Applicant: Philip J. Sinnott.

For Opposition: Otto M. Gabler and Henry A. Giesler.

ACTION OF BOARD—Laid over to March 20, 1928, at 10 a. m., for inspection and report by a committee of board.

573-26-BZ.

APPLICANT—John J. Dunnigan, for East Fordham Road Syndicate, Inc., owner.

SUBJECT—Application (re decision of superintendent of buildings) under sections 7c and 21 of the building zone resolution, to permit the extension, from a business district into a residence district, of a proposed building to be used for business purposes. (Variation previously granted on condition).

PREMISES AFFECTED—636 East Fordham road, southwest corner of Belmont avenue, The Bronx.

APPEARANCES—

For Applicant: Joseph F. Dusenbury.

For Opposition: Victor E. Grandsire.

ACTION OF BOARD—Laid over to April 3, 1928, at 10 a. m., on request of applicant's representative.

885-27-BZ.

APPLICANT—William Shary, for Eugene H. McCauliff, owner.

SUBJECT—Application (re decision of the superintendent of buildings) under section 21 of the building zone resolution, to permit in a business district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles.

PREMISES AFFECTED—2722-2728 Bailey avenue, The Bronx.

APPEARANCES—

For Applicant: Marcy Finkelstein.

For Opposition: Virginia A. Reilly, William Beckman, Maurice Newburger and Matthew Cloke.

ACTION OF BOARD—Laid over to March 13, 1928, at 10 a. m., on request of applicant's representative.

1013-27-BZ.

APPLICANT—John F. Buchan, for Ralph Ferrara, owner.

SUBJECT—Application (re decision of the fire commissioner) under section 21 of the building zone resolution, to permit in a business district the erection and maintenance of a gasoline service station.

PREMISES AFFECTED—8159-8167 Liberty avenue, Woodhaven, Borough of Queens.

APPEARANCES—

For Applicant: John F. Buchan and George L. A. McNeil.

For Opposition: None.

ACTION OF BOARD—Laid over to March 20, 1928, at 10 a. m., for inspection and report by a committee of the board.

1028-27-BZ.

APPLICANT—Edward P. Doyle, for Max Weinstein, owner.

MINUTES

SUBJECT—Application (re decision of the superintendent of buildings) under section 21 of the building zone resolution, to permit in a business district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles.

REMISES AFFECTED—West side of White Plains road, 130.26 feet south of Sagamore street, The Bronx.

APPEARANCES—

For Applicant: None.

For Opposition: Christopher C. McGrath and Sidney Davidson.

ACTION OF BOARD—Laid over to April 3, 1928, at 10 a. m., on request of applicant.

1033-27-BZ.

APPLICANT—Samuel Rosenblum, for Paul Dispensa, owner.

SUBJECT—Application (re decision of the superintendent of buildings) under section 21 of the building zone resolution, to permit, partly in a business district and partly in a residence district, the erection and maintenance of a garage for the storage of more than five (5) motor vehicles.

PREMISES AFFECTED—111-15 37th avenue (Polk avenue), Corona, Borough of Queens.

APPEARANCES—

For Applicant: Samuel Rosenblum.

For Opposition: E. D. Hamilton and Ben Weichselbaum.

ACTION OF BOARD—Application denied.

THE VOTE TO GRANT—

Affirmative: Commissioners Holland and Guilfoyle 2

Negative: Acting Chairman Connell and Chief Kenlon 2

Absent: Chairman Walsh..... 1

THE RESOLUTION—

(1033-27-BZ)

WHEREAS, Samuel Rosenblum, for Paul Dispensa, owner, filed, September 21, 1927, an application, under the building zone resolution, to permit, partly in a business district and partly in a residence district, the erection and maintenance of a garage for the storage of more than five motor vehicles; premises 111-15 37th avenue (Polk avenue), northeast corner of 111th street, Corona, Borough of Queens; and

WHEREAS, a public hearing was held on this application by the board of standards and appeals, at its regular meeting, February 21, 1928, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that 37th avenue is in a business district, 111th street is in a residence district and 112th street is in a residence district; and

WHEREAS, the decision of the superintendent of buildings, rendered July 20, 1927 (N. B. 10251-1927), reads:

"1. The erection of a building in a business and partly in a residence district designed to hold more than five motor vehicles is contrary to Section 3 and 4 of the Zone Law."

and

WHEREAS, the proposed building is to be of non-fireproof construction, one story in height, with a frontage of 80 ft. 4 in. on 111th street and 101 ft. on 37th avenue; to be occupied as a garage for the storage of more than five (5) motor vehicles; and

WHEREAS, the board deemed that applicant was not entitled to relief under section 21 of the building zone resolution in view of the residential character of the neighborhood.

Resolved, that the decision of the superintendent of buildings be and it hereby is *affirmed*, and that the application be and it hereby is *denied*.

244-26-BZ.

APPLICANT—Edward L. Larkin, for Rexburg Realty Corp., owner.

SUBJECT—Application for reopening—extension of time in which to complete work—re application (decision of superintendent of buildings) under section 7g of the building zone resolution, to permit in a residence district the erection and maintenance of a store and theatre building.

PREMISES AFFECTED—285 East 170th street, The Bronx.

APPEARANCES—

For Applicant—Edward L. Larkin.

For Opposition: None.

ACTION OF BOARD—Application reopened and time extended to file plans and complete work.

THE VOTE TO REOPEN AND EXTEND TIME—

Affirmative: Acting Chairman Connell, Commissioners Holland and Guilfoyle and Chief

Kenlon 4

Negative 0

Absent: Chairman Walsh..... 1

THE RESOLUTION—

(244-26-BZ)

WHEREAS, Edward L. Larkin, for Rexburg Realty Corp., owner, filed, March 22, 1926, an application, under the building zone resolution, to permit in a residence district the erection and maintenance of a store and theatre building; premises 285 East 170th street, Borough of Manhattan; and

WHEREAS, a public hearing was held on this application by the board of standards and appeals, at its regular meeting, September 21, 1926, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that East 170th street is in a business district, College avenue is in a residence district and Morris avenue is in a residence district; and

WHEREAS, the decision of the superintendent of buildings, rendered March 20, 1926 (N. B. 1792-23), reads:

"1. Erection of proposed theatre building in a business district, extending into a residence district is contrary to provisions of Building Zone Resolution."

and

WHEREAS, the proposed building is to be of fireproof construction, two stories in height, with a frontage of 185 ft. and a depth of 185 ft. 6 in. and 194 ft. 7 in., irregular; to be occupied as stores and theatre building; and

WHEREAS, the applicant has filed 96 per cent. of consents of an area usually common to the application of section 7g, indicating consent of substantially all the property owners in interest within such area, and there being no objectors; and

WHEREAS, this application was granted by the board at its meeting, September 21, 1926, on certain conditions, and applicant requested a modification of the time limit condition.

Resolved, that the board of standards and appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted on condition* that the rear northerly wall be finished in light-colored face brick; that there be no signs of any nature or description or advertising display maintained or exposed within the residence use area district; that there be no roof signs erected within 50 ft. of the residence use district line; that the exterior of the building on all street fronts shall be finished with face brick and architectural terra cotta or stone trimmings; that all permits required by law for the erection of the building, in accordance with the building code and other laws now in force, shall be obtained within twelve months and the building completed within twelve months from the date of this action.

Negative: Acting Chairman Connell, Commissioners Holland and Guilfoyle and Chief

Kenlon 4

Absent: Chairman Walsh..... 1

THE RESOLUTION—

(939-27-S)

WHEREAS, Samuel Rosenblum, for Julia E. Wheelock, owner, filed, August 19, 1927, a petition for a variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 151-163 West 26th street, Borough of Manhattan; and

WHEREAS, the order of the fire commissioner, dated July 25, 1927 (Order No. 24949-LD), reads:

"1. Remove all articles or wares from stairhall enclosure including lunch stand, cigar and candy stand east and west side of building 1st story, or the landings, platforms or passageways connected therewith, as per rules of the Board of Standards and Appeals, adopted February 23, 1927.";

and

WHEREAS, the building is fireproof, 12 stories in height, 150 ft. 3 1/3 in. by 98 ft. 9 in. in area at first story and 150 ft. 3 1/3 in. by 88 ft. in area above; OCCUPIED principally for the manufacture of dresses, about 150 persons on each story; EQUIPPED with a sprinkler system and a standpipe system; EXITS: two interior fireproof stairways, extending from the first story to roof, enclosed in fireproof partitions with fireproof doors at openings; two exterior iron stairways on the rear of the building, having fireproof openings along the course thereof, extending from the first story mezzanine to the roof, with EGRESS from the termination of the exterior stairways by means of a fireproof passageway connecting with the interior stairways, thence to the street through entrance halls; and

WHEREAS, the petitioner claims that the cigar and candy stand in the easterly hall and the lunch stand in the westerly hall are so located that they do not obstruct nor decrease the permissible width for exits; furthermore, the petitioner contends that the building is a modern fireproof structure with four means of exits.

Resolved, that the order of the fire commissioner be and it hereby is affirmed, and that the petition be and it hereby is denied.

PUBLIC HEARING

PROPOSED AMENDMENT TO RULES FOR THE TESTING OF FIRE-PROOFED WOOD

639-27-SR

NOTICE IS HEREBY GIVEN that a public hearing
will be held by the Board of Standards and Appeals on
Tuesday, March 13, 1928, at 2 p. m., Room 1013, Municipal
Building, on proposed amendment to rules for testing of
reproofed wood, adopted pursuant to provisions of Chapter
Section 356 of Code of Ordinance (Building Code) July
2, 1927.

Matter in *italics* is new; matter in brackets [] old matter
to be omitted.

Rule 1. Before any wood may be used for flooring or in-
terior trim where incombustible materials are required under
the provisions of section 356 of the Building Code, the super-
intendent of buildings must be notified promptly upon the
delivery at the job of a consignment of such material.
One test sample for each 2,000 feet of material will then be
selected by a representative of the Bureau of Buildings,
marked for identification, and forwarded to the testing
laboratory, where, under the supervision of the superin-
tendent of buildings or his representative, the samples shall
be subjected to the following tests:

Before making tests all specimens for testing shall be
oven dried at a temperature of 140° [190°] F. to a point
where there is no further loss of weight due to evaporation
of moisture content.

A. SHAVING TEST—A mass of shavings cut
fairly thick from the outside and interior of sticks of the
treated wood are to be tested separately. These shavings
shall be placed to a depth of two inches in a metal vessel
twelve inches square, the bottom of which shall consist of
a wire screen of ½ inch mesh. The shavings shall be
packed down moderately to reduce the air spaces. A Bun-
sen yellow flame shall then be placed beneath the receptacle
so that the flame is in contact with the shavings. After
twenty-five seconds the flame shall be removed. The flame
at no time should show higher than six inches above the
top of the bed of shavings and the shavings should not be
consumed in less than five minutes.

B. TIMBER TEST—Two samples ¾ inch by 1½
inches in cross section and twelve inches long shall be
laid side by side across the top of a gas crucible furnace
with a pyrometer between them. The specimens shall be
subjected to a flame at 1700 deg. Fahrenheit for two min-
utes, the test pieces shall then be removed, and the time
of duration of flame and glow observed. The sticks shall
then be cut through the middle at the most burned section
and the area of the unburned wood measured with a plani-
meter. The flame must not persist longer than 15 seconds
nor the glow longer than 20 seconds, and, in the case of
hard woods, the unburned area should not be less than 55
per cent., nor in the case of soft woods less than 45 per
cent.

C. CRIB TEST—Twenty samples are to be pre-
pared, each ½ inch square and 6 inches long. These shall be
built up on a ring support to form a crib work five tiers
high, four sticks to a tier, making the crib six inches by six
inches and approximately 2½ inches high. The crib shall
be set six inches above a Bunsen burner to which the crib
shall be exposed for a period of one minute at a temperature
approximating 1200 deg. Fahrenheit. The flame must not
persist more than twenty seconds after the Bunsen burner
is removed, nor the glow last more than thirty seconds.
The tendency of the flame to spread from stick to stick
must also be noted.

Rule 2. All of the above tests shall be at the expense of
the owner or contractor or other interested party.

If the tests are satisfactory the entire shipment will be
permitted to be taken into the building and used. If not, the
entire shipment shall be condemned and must be removed
from the premises.

In general, acceptance shall be predicated upon the exist-
ence of a complete plant in full working order from which
the material is shipped, and each shipment, or, where pos-
sible, each piece shall be trade marked in a conspicuous
manner so that there may be no doubt as to its identity.

CONCRETE RULES

USE OF HYDRATED LIME IN CONCRETE.

Adopted by the Board of Standards and Appeals, April
19, 1920, under Cal. No. 153-20-S.

The use of hydrated lime in all classes of concrete con-
struction shall not be prohibited when used in accordance
with the conditions hereinafter set forth.

The hydrated lime shall conform with the standard
specifications for this material which have been adopted
by the American Society for Testing Materials.

The maximum amount of hydrated lime which may be
used shall conform with the following table, all weights
given being the amount of lime which may be incorporated
for each ninety-five pound bag of Portland cement.

1-1½-3 Mix, 4 pounds of hydrated lime per bag of
cement.

1-2-4 Mix, 5 pounds of hydrated lime per bag of
cement.

1-2½-5 Mix, 6 pounds of hydrated lime per bag of
cement.

For hand mixed concrete, the hydrated lime and Port-
land cement shall be well mixed while dry.

Hydrated lime shall not be used in concrete which is
to be deposited under water.

RULES

RULES OF PROCEDURE OF BOARD OF STANDARDS AND APPEALS ADOPTED FEBRUARY 15, 1927

(89-27-SR)

ARTICLE I—PUBLIC HEARING.

1. Regular sessions designated as public hearings of the Board of Standards and Appeals shall be held on Tuesday of each week at 10 A. M. and 2 P. M.

2. Morning sessions shall be devoted to hearings on appeals from administrative orders and applications for variation of the building zone resolution. Afternoon sessions, in general, shall be given over to hearings on petitions for variation of the labor law and consideration of rules. Notice shall be published in the Bulletin of the Board of deviation from this procedure.

3. Special sessions may be called by the Chairman, or at the request of four members, provided that notice of the same has been mailed to each member at least twenty-four hours before the time set, except that the announcement of a special session at any meeting at which a quorum is present shall be sufficient notice of such meeting.

4. All hearing sessions shall be open to the public.

5. A quorum of the Board of Standards and Appeals shall consist of four members.

6. The members of the Board shall attend the meetings in person, except that during absence or disability a substitute may act, as provided by law under section 718 of the Charter as amended by Local Law No. 13. The names of such substitutes, designated by the Mayor, shall have been previously filed with the chairman.

ARTICLE II—CASES BEFORE THE BOARD.

1. Every application under the Building Zone Resolution, every appeal under section 719 of the Charter and every petition under section 718a, subdivision 4, of the Charter, shall be made to the Board on the forms provided, and shall include the data required in such forms, so as to supply all information necessary for a clear understanding by the Board and its staff. Action in each case must be based largely on the information so furnished. The statements made by the applicant, appellant or petitioner and the determination of the Board in each case will be incorporated in a resolution formally adopted and published in the Bulletin of the Board. Officials who are charged with the enforcement of the laws, ordinances and rules relating to buildings in the City of New York will be bound by such resolutions, and, before granting permit or taking any other affirmative action, should see that there are no misstatements as to facts and that the conditions of the resolution are observed. Any administrative official discovering any misstatement of essential information is requested to notify the Board, in order that it may take such action as the circumstances require. All approvals shall remain valid only as long as the information and the conditions on which the resolution was based are maintained.

2. Any communication purporting to be an application, appeal or petition shall be regarded as a mere notice of intention to seek relief and shall be of no force or effect until it is made in the form required.

3. Upon receipt of any such communication, the writer shall be supplied with the proper forms for presenting his application, appeal or petition, and he shall be required to file the proper form and furnish all necessary data within twenty days of the date of the order or decision appealed from.

4. The duplicate of each application, appeal or petition required by this article shall be forwarded promptly to the administrative official whose order is involved in such case.

5. At the public hearing of a case before the Board the applicant shall first present the argument in support of the case and those in objection shall follow. To maintain orderly procedure, each side shall proceed without interruption by the other.

6. Every person before the rostrum shall abide by the order and direction of the Chairman. Discourtesy or disorderly or contemptuous conduct shall be regarded as a breach of the privileges of the Board and shall be dealt with as the Chairman deems proper. Orders to maintain discipline shall be carried out by the Sergeant-at-Arms.

Subject to the direction of the Chairman, the Secretary shall enforce the rules of the Board and shall direct and supervise the Sergeant-at-Arms in maintaining order and decorum in the hearing room and lobbies during all public hearings.

7. No member shall proceed to debate, discuss an issue, put a motion or offer a resolution until he shall have addressed the Chairman and have been recognized by him. While the Chairman is putting a motion or offering a resolution, or during the progress of a roll call, no member shall interrupt or leave his seat. When a motion to adjourn is carried, the members of the Board shall keep their seats until the Chairman declares the meeting adjourned.

ARTICLE III—THE CALENDAR.

1. Each case filed in the proper form, with the required data, shall be numbered serially, irrespective of whether it be an application, appeal or petition. These Calendar numbers shall begin anew on January 1st of each year, and shall be hyphenated with the number of the year and the initials indicating the character of the case. Thus the calendar number of an application under the Building Zone Resolution in 1926 shall be "210-26-BZ"; an appeal from an order, requirement, decision or determination of a Superintendent of Building or of the Fire Commissioner, "211-26-A," and a petition for variation of the Labor Law or any rule or standard adopted thereunder, "212-26-S."

2. As soon as a case receives a calendar number, it shall be placed on the Docket. Thereafter the appellant or petitioner shall be notified of the date his case will be set for public hearing. In building zone application the applicant shall be notified of the date when his case will be reached in the call of the Clerk's Calendar.

3. The Clerk's Call Calendar shall be called each Tuesday at 2 P. M., in Room 1013, Municipal Building, Manhattan, by the Chairman or the Secretary, and, on that date, for the public hearing of each application for variation of the Building Zone Resolution, shall then be set which shall be full and sufficient notice to all persons interested in such case.

4. Thereafter each case shall be listed, by calendar number and premises, in the Hearing Calendar printed in the Bulletin of the Board, under the title of the respective proceedings, and the date for which such case has been set.

ARTICLE IV—DISPOSITION OF CASES.

1. Every decision of the Board on any case shall be by resolution.

RULES

2. The final disposition of any application, appeal or petition before the Board shall be in the form of a resolution either reversing, varying or modifying the order, requirement, decision or determination appealed from and granting the application, appeal or petition, or affirming the order and denying the application, appeal or petition. A concurring vote of four members shall be necessary for a decision. If a resolution fail to receive four votes in favor of the applicant, appellant or petitioner, the motion will be deemed equivalent to a denial, and a resolution denying such application, appeal or petition shall be formally entered on the record, unless there be a member absent at the roll call and the vote of the absentee added to the number of votes for the applicant appellant or petitioner would equal four, in which case the matter will be laid over for reconsideration, until a final determination is reached.

3. Any applicant, appellant or petitioner may withdraw his application, appeal or petition at any time prior to action thereon, with the consent of the Board, but if a motion has been made, and is pending, either to grant or to dismiss, such motion shall have precedence.

4. No application, appeal or petition dismissed or denied can be considered again except (1) on a motion to reconsider the vote, or (2) on a request for a rehearing.

5. No request to grant a rehearing can be entertained unless new evidence is submitted. If, on motion of a member of the Board, adopted by four affirmative votes, the request for a rehearing is granted, the case shall be put on the calendar for a rehearing.

In all cases, the request for a rehearing shall be in writing, reciting the reasons for the request, and shall be duly verified and accompanied by the necessary data and diagrams. Such request shall be filed with the Chairman, who shall have a report on the case prepared by the engineers. The Chairman may then set a date when the request for reopening shall be submitted to the Board, at which date the person requesting the reopening shall be notified.

If the Board votes to reopen a case affecting a building zone application, a date shall be set for the "Calendar call" and the applicant shall be required to notify each of the property owners entitled to notice of the application, the same procedure to be followed as in an original application.

6. The Board may, on the motion of any member, review any decision that it has made and may reverse or modify such decision, but no such review shall prejudice the rights of any person who has in good faith acted thereon before it is reversed or modified.

ARTICLE V—BUILDING ZONE APPLICATIONS.

1. No application for a variation or modification of the provisions of the Building Zone Resolution shall be entertained by the Board except in a specific case, and from an order, requirement, decision or determination made by any Superintendent of Buildings, the Tenement House Commissioner, or the Fire Commissioner, on the ground that the proposed plan or use violates the Building Zone Resolution.

2. No such application shall be entertained unless the application is filed within twenty days from the date of the action of the Superintendent of Buildings, Tenement House Commissioner, or Fire Commissioner.

3. Every application shall be made in duplicate on Form 3BZ and shall be accompanied by all the data required by such form, and shall be considered subject to such rules as the Board has adopted or may adopt, under Article 5, Section 21, of the Building Zone Resolution.

4. As soon as any application is completed by the filing of the data required in Form 3BZ, the case shall receive a calendar number and shall be placed on the Clerk's Calendar, and the applicant shall be notified by the Board on Form 6CC, of the time set for the call of the calendar, which shall be at least five days after the mailing of said notice. With this notice the applicant shall be supplied with an official copy of Form 7NO, which he is required to send to every property owner entitled to notice of the application. Within three days the applicant must file a verified statement that he has so notified each of such property owners either by personal service or by registered mail. Not less than fourteen days' notice of the date fixed for calendar call in each Building Zone application shall be given by publication in the Bulletin of the Board.

5. On the call of the Clerk's Calendar the applicant shall appear in person, or by agent or attorney, and property owners affected by the application may appear either in person or by agent or attorney and present any typewritten and verified objections they may have to the granting of the application, together with a description of their property and an affidavit of ownership. Then a date shall be set for a public hearing on the application which shall be not less than fourteen days thereafter. Notice of said hearing shall be given by publication in the Bulletin of the Board.

6. On the date set for the public hearing, the applicant shall state his case, then the opposition shall be heard, and the applicant shall have an opportunity to reply.

7. No application that has been denied after a public hearing can be entertained under the same state of facts or basis of appeal, unless based upon a new decision by a superintendent of buildings on plans which materially change the aspects of the case.

ARTICLE VI—APPEALS.

1. No appeal from any order, requirement, decision or determination of the Superintendent of Buildings or the Fire Commissioner or from any rule or regulation relating to the construction, alteration, structural changes in, equipment, occupancy or use of any building or structure, under Section 719 of the Charter, shall be entertained unless such appeal is filed in duplicate on Form 1A, with all the data required in such form, within twenty days from the date of the order appealed from.

ARTICLE VII—PETITIONS.

1. No petition for variation of the Labor Law, or of any rule adopted thereunder affecting the construction or alteration of buildings, exits therefrom, the installation of fixtures or apparatus as authorized by Section 718-a, subdivision 4 of the Charter, shall be entertained unless it is made in duplicate on Form 2S, with all the data required in such form, within twenty days from the date of the administrative order to which the petition refers.

No petition for approval of a device, material or method of construction shall be entertained unless it is filed in duplicate on Form 4SA, with all the data required in such form.

No petition for the adoption or amendment of Rules shall be entertained unless it is filed in duplicate on Form 5SR, with all the data required in such form.

ARTICLE VIII—PETITIONS.

1. No resolution of the Board of Standards and Appeals adopting or amending any rule or regulation under subdivision 2 or 3 of section 718-a of the Charter shall be adopted unless such proposed rule or regulation shall

RULES

have been published in the Bulletin of the Board for at least ten days prior to a public hearing thereon. Four affirmative votes of the Board shall be necessary for the adoption of such resolution.

2. Amendments to these Rules of Procedure may be made by the Board of Standards and Appeals at any regular meeting, providing notice of such amendment has been given to each member of the Board three days prior to such meeting, either in writing or by publication in the Bulletin. The suspension of any rule of procedure may be ordered at any meeting by unanimous vote.

ARTICLE IX—OTHER RESOLUTIONS.

1. Every resolution of the Board of Standards and Appeals suggesting changes or amendments to the law under subdivision 5, section 718-a of the Charter shall require at least four affirmative votes for its adoption.

2. Every resolution not otherwise provided for, ordinary motions or decisions on rules of order shall require not more than three affirmative votes.

ARTICLE X—INSPECTIONS.

1. In any case in which the Board may deem it necessary, an inspection of the premises in question may be ordered by the Board. Such inspection shall be made by the Chairman and by two or more members designated by him, and they shall report their findings to the Board in writing.

ARTICLE XI—TESTS.

1. In any case in which the Board may order a test of any material or device, the test shall be conducted under the supervision of an assistant engineer, in the presence of the Chairman and two or more members appointed by him, and the result of such test shall be reported to the Board in writing, and the material or device shall not have the approval of the Board unless the report be favorable and adopted by four affirmative votes.

ARTICLE XII—RECORDS.

1. All applications, appeals and petitions shall be on the required forms, and all communications, reports, etc., and plans, relative to any matter appearing on the calendar, shall be on sheets approximately 8 in. by 10½ in. in size. After final disposition, they shall be bound in some suitable manner. These records shall be kept in filing cabinets in their numerical order, in such a manner that they are accessible to the public at all reasonable hours, as prescribed by the Charter of the City of New York.

2. An index indicating locations by boroughs shall be kept.

3. All reports on matters coming before the Board for action shall be duplicated in sufficient numbers to furnish a copy to each member. The original shall be filed with the records in each case.

ARTICLE XIII—THE BULLETIN.

1. The Bulletin of the Board of Standards and Appeals shall be published on Tuesday of each week. It shall contain:

- (1) Directory of the Board.
- (2) Docket.

(3) Clerk's Calendar Call.

(4) The Hearing Calendar.

(5) Notice of hearing on building zone applications and on proposed rules or the amendment of rules.

(6) An abstract of the minutes of each meeting, including a brief statement of the action in each case, with the roll call thereon and the full text of the resolutions adopted.

(7) Rules adopted.

(8) Such other information as may be of value to the public and within the scope of the work of the Board.

ARTICLE XV—OFFICERS.

1. The Chairman shall preside at meetings. The Chairman may designate any member of the Board to preside and perform the duties of the Chair at public hearings.

2. The Chairman, subject to these rules, shall decide all points of order or procedure, unless otherwise directed by a majority of the Board in session at that time.

3. The Chairman shall designate the members of the Board to make an inspection, and, unless otherwise directed by the vote of four members of the Board, shall appoint any committee that may be deemed necessary.

4. The Chairman shall report at each meeting on all pertinent official transactions that do not otherwise come to the attention of the Board.

5. Administrative authority is vested solely in the Chairman of the Board who shall, subject to these rules, transact all official business of the Board, engage the necessary employees and direct the work of the office.

6. Subject to these rules and the direction of the Chairman, the Secretary shall conduct all official correspondence, compile the required records, edit the Bulletin, maintain the necessary files and indices, and generally supervise the clerical work of the office force, maintaining discipline in accordance with the rules of the office and charter provisions.

7. Subject to these rules and the direction of the Chairman, the Assistant Engineers shall examine and report on all applications, appeals and petitions; prepare all proposed rules or revised rules suggested by outside agencies, with report on the reasons and necessity for same; supervise and witness the tests conducted under the auspices of the Board, and assist generally in all technical matter coming before the Board.

8. The Chief Clerk shall keep all accounts, keep the files and indices in proper order and up to date, and generally assist the Secretary. During the absence or disability of the Secretary, the Chief Clerk shall act in that capacity.

9. A complete stenographic record of the transactions at public meetings shall be made for the files, including verbatim reports of such parts as may be directed, and there shall be prepared, after each meeting and in time for the next publication of the Bulletin, the abstract of the minutes which is to appear in such Bulletin.

BUILDING CODE ON SALE.

Copies of the Building Code are now on sale at the Distribution Division of the City Record Office, 125 Worth street. Price, \$1.25; by mail, \$1.35.

ELECTRICAL CODE ON SALE.

Copies of the Electrical Code are now on sale at the Distributing Division of the City Record Office, 125 Worth street. Price, 30c; by mail, 35c.

RULES

ELEVATOR RULES

RULES FOR THE CONSTRUCTION, MAINTENANCE AND OPERATION OF ELEVATORS,
ADOPTED JULY 30, 1918, BY THE BOARD OF STANDARDS AND APPEALS, EFFECTIVE
AUGUST 26, 1918; REVISED MAY 13, 1919.

Rule 1. Application of Elevator Rules. Every elevator, escalator, freight conveyor or amusement device, within the City of New York, in addition to conforming with all provisions of the labor law, building code or other laws or ordinances, as are applicable thereto, shall comply with the requirements of these rules.

Existing and future installations shall at all times be maintained by the owner in a safe condition and in conformity with the requirements of these rules.

Rule 2. Definitions Relating to Elevators.

a) The terms "elevator," "passenger elevator," "freight elevator" and "amusement device" shall have the meanings indicated in §560 of the building code.

b) The term "dumbwaiter" shall apply to such special form of freight elevator, whether power driven or manually operated, the dimensions of which do not exceed nine square feet in horizontal section nor four feet height.

c) The term "hand power elevator" shall apply to all forms of passenger or freight elevators which are manually operated and the dimensions of which exceed nine square feet in horizontal section.

d) The term "sidewalk type elevator" shall apply to such special form of freight elevator, either power driven or manually operated, the platform of which does not exceed fifty (50) square feet in area and is suspended and supported at one or more points on the underside.

e) The term "escalator" shall apply to a moving continuous inclined stairway or runway designed for elevating or lowering passengers.

f) The term "freight conveyor" shall apply to a device used for elevating or lowering freight in a vertical or inclined direction on a continuous moving carrier without the services of an operator thereon.

g) The term "future installations" shall apply to any elevator, machinery or equipment used in connection therewith, installed after these rules become effective.

h) The term "existing installations" shall apply to any elevator, machinery or equipment used in connection therewith, either already installed, in process of installation, or for which plans are on file with the superintendent of buildings prior to August 26, 1918.

i) The term "alteration" shall include any essential change to the elevator car, counterweights, rails, machinery, safeties or other equipment or direct motive power; except that any repair work made necessary by the ordinary operation of the elevator shall not be deemed an alteration.

j) The term "power driven elevator" shall apply to any form of elevator except those operated by hand power, gravity in both directions, or through friction on the pull rope.

Rule 3. Permits. The application required by §562, building code, for the installation or alteration of elevators, amusement devices, etc., shall be in triplicate on blanks furnished by the superintendent of buildings, stating the size, manner of construction, speed, capacity, other essentials, and mode of operation of the same, and accompanied by necessary drawings; except that applications for the installation of dumbwaiters, and conveyors or hoists may consist of a notice to the superintendent of buildings that such installation is to be made.

Rule 4. Alterations. In making alterations to existing installations, the parts changed or altered must conform in every respect to the rules governing future installations, and where parts of the elevator are damaged from any cause, the damaged parts must be completely renewed, at the discretion of the superintendent of buildings.

Where hand power elevators are changed to power-driven elevators, they shall conform to every rule governing power-driven elevators, except, that when the rise is not more than thirty-five feet and the capacity is not increased, existing wood guide rails may remain in use. In such conversions the use of a power-driven friction grip device is prohibited when the capacity exceeds 800 pounds.

Rule 5. Change of Classification. In future, no freight elevator shall be used for passenger service, unless such elevator conforms to the rules governing future installations of passenger elevators in so far as they relate to safety equipment, hoist ropes, carrying capacity, car enclosure, including gates and emergency exit, shaft openings and doors, and motive power.

In existing installations where such change of classification is made and the hatchway is unenclosed, a substantial enclosure of lawful partitions extending from floor to ceiling and flush with the hatchway shall be constructed; with all openings protected by proper shaft doors.

Rule 6. Tests of New Elevators. In future installations all elevators shall be tested as follows:

The cars of all power-driven elevators shall be loaded to their maximum carrying capacity and operated up and down the shaft several times to test the lifting capacity of the machinery and the operation of the upper and lower automatic limit devices. The car shall be stopped at various levels in the shaft to test the operation of the machine brake.

The cars of all power-driven elevators having speeds exceeding one hundred (100) feet per minute, and of hand-power elevators with a rise of more than fifteen (15) feet, shall be loaded to their maximum carrying capacity, run to the top landing and made to travel downward beyond normal speed, so as to automatically operate the speed retarder or speed governor and car safety device and the slack rope device when required, and (except for hand-power elevators) to stop the machine. This rule shall not be construed, however, to require safe lift elevators to be tested with safe lift load.

The cars of power-driven elevators having speeds of one hundred (100) feet per minute or less shall be loaded to their maximum carrying capacity, run to the top landing and started down at normal speed. At this speed the governor shall be manually operated to test the action of the safety equipment.

Rule 7. Carrying Capacity. In existing installations the owner, lessee or other person having charge or control of any elevator, except a dumbwaiter, and in future installations the manufacturer of any such elevator, shall cause to be fastened in a conspicuous place in the car of said elevator a metal plate, having suitable letters and figures on same, which shall designate the number of pounds weight which said elevator can safely carry.

Future installations shall be designed to sustain in all their parts a load per square foot of platform area inside the car of not less than the following:

RULES

- (a) 75 pounds for power-driven passenger elevators;
- (b) 50 pounds for power-driven freight elevators having platform areas not exceeding 100 square feet;
- (c) 50 pounds for hand-power passenger elevators.

Rule 8. Rules to be Posted. In the car of every passenger elevator the superintendent of buildings shall cause to be posted and maintained, in a conspicuous place, for the guidance and information of operators and passengers, such of the rules relating to the operation of elevators as he may deem necessary to insure public safety, including the number of passengers that such car may carry at one time.

Rule 9. Full Automatic Push Button Elevators. In future installations full automatic push button elevators must be so designed and equipped that the car, at its rated speed and load, will automatically stop when the car floor is level with or not more than three inches from the designated landing floor.

The car gate and shaft doors shall be equipped with approved devices that will prevent the operation of the car until the car gate is closed and the shaft door is closed and locked. The shaft door shall not be capable of being opened unless the floor of the car is within three inches of the landing. A push button to operate an alarm bell shall be provided in the car, for the purpose of notifying the person in charge of the premises, in case the car becomes stopped in the shaft from any cause. The shaft doors shall be so arranged that they cannot be opened after the car leaves the landing, except in emergency cases, and then only by a special key which must be provided and kept in the possession of the person having charge of the building.

Rule 10. Belt or Chain Drives. In future installations no hoisting machine driven by a chain or belt device from a motor or countershaft shall be used in connection with any passenger elevator.

Rule 11. Shaft Openings. In shafts hereafter constructed for passenger elevators, no more than one opening shall be allowed in each story, and all openings in the several stories shall be located one above the other, except that doors may be located on opposite or adjacent sides in the several stories when the distance from the car operating device to the door lock does not exceed forty-eight inches and can at all times be fully controlled by the elevator operator without leaving the car operating device. Door openings may be located on opposite or on adjacent sides of the shaft in the first or main entrance story and in the top story, provided that the openings in the remaining stories are all on the same side of the shaft, that a satisfactory device is installed preventing the operation of the car while the car gate distant from the operator is open, that an attendant is always present to control the shaft doors located in the first or top stories, and that there are no offsets or recesses on the inside of the shaft walls.

No alteration not in compliance with the above provision shall be made to any existing passenger elevator shaft.

Rule 12. Hoistway Enclosure. In the existing and future installations where no enclosure of solid partitions is required around the hoistway by the provisions of the building code, labor law or these rules, there shall be provided a substantial vertical enclosure extending from the floor for a distance of not less than six (6) feet on the side or sides where there are no openings in the car for loading purposes. On all other sides, gates or doors must be provided. Such enclosure may be constructed of mesh work, grille work or slatted partitions, provided that when mesh work is used it shall be of not less than No. 10 U. S. gauge wire or No. 13 U. S. gauge expanded metal, with mesh not exceeding one and one-half (1½) inches; when grille

work is used there shall be not more than one and one-half (1½) inches space between any two members, except that where plain straight bars, not filled in with scroll, are used, there shall be not more than one (1) inch space between members; when wood slats are used they shall be not less than three-eighths (¾) of an inch thick, spaced not more than one (1) inch between slats.

In all cases where existing grille work permitted by law or regulation as a shaft enclosure is altered, such alteration shall be of substantial material and construction, properly braced and carried the full height of openings, with not more than one and one-half inch space between any two members; except that where straight bars, not filled in with scroll work, are used, there shall be not more than one inch between members. Where deemed necessary, existing grille work with spaces exceeding those specified in this rule shall be made safe by suitable screen or wire mesh, or wire glass construction.

Rule 13. Shaft Doors. In existing and future installations all gates or doors leading to any shaft in which power-driven passenger elevators are operated (except full automatic push button elevators) shall be locked, bolted or securely fastened on the shaft side. Such shaft doors or gates shall be closed by the operator before the car is put in motion.

In future installations of passenger elevators, keys for opening the shaft doors or gates from the outside of the shaft, in case of emergency, shall be provided and shall be restricted in use to persons in responsible charge of the building.

In existing and future installations in factory buildings only, the openings in every passenger or freight elevator shaft or hoistway enclosure shall be protected in one of the following manners:

- (a) by properly constructed sliding doors.
- (b) by combination slide and swing doors;
- (c) by hinged or swinging doors equipped with approved devices to insure the shaft doors being closed and locked before the car can start from the landing;
- (d) by hinged or swinging doors, either manually operated or self-closing, with auxiliary gates not less than five (5) feet six (6) inches in height, substantially constructed of wood or metal, with not more than two (2) inches space between any two parallel members, and the bottom of the gate not more than ten (10) inches from the floor, except at the top and bottom landings when the distance from the floor to the bottom of the gate may be increased to give the required head room, and shall close automatically upon the car leaving the landing in either direction; except further that for hand power elevators having the pull rope located in front of the shaft entrance, gates may be two (2) feet six (6) inches in height.

When shaft doors are equipped with electric contacts or other locking devices, an approved emergency release shall be provided on the car within easy reach of the operator.

Rule 14. Car Gates. In existing and future installations, all entrances to the cars of power-driven passenger elevators shall be provided with substantial folding or sliding gates or doors, and where floor tracks are used the same must be kept level with the finished floor surface of the car. All folding gates over three feet wide at the entrance to shaft or car shall have top and bottom braces, spaced not more than eighteen inches on centers when the gates are fully expanded. All car gates shall be closed by the operator before the car is put in motion.

In future installations passenger elevator car gates shall be equipped with an approved device or devices that will prevent the operation of the car while the car gates

RULES

are open, and an approved emergency release shall be provided on the car within easy reach of the operator.

Rule 15. Counterweights. In future installations all counterweights shall have their sections securely bolted together with one or more rods, as determined by the superintendent of buildings. Such rods must pass through all the sub-weights and at least one portion of the frame work. No continuous forged straps shall be permitted.

In existing and future installations where counterweights run in the same shaft as the car, they shall, when at the uppermost position, be protected on all exposed sides the full length of the counterweight with substantial and properly secured shields of iron or steel not less than No. 16 U. S. gauge; except that for plunger or fixed stroke piston hydraulic or traction type elevators no top shield shall be required. Where no compensating chains or ropes are attached to the counterweight, similar shields shall be provided eighteen inches above the bottom of the counterweight runway and extending upwards at least five feet. In existing installations, where the clearance between car and counterweight is not more than one and one-half inches, neither top nor bottom shields shall be required, but in lieu thereof tell-tale metal chains not less than five feet long, spaced not more than six (6) inches on centres from rail to rail, shall be suspended from the bottom of the counterweight.

Rule 16. Speed Governors. All power-driven elevators with a rise of more than fifteen feet not already equipped with a speed governor and safety (except sidewalk type elevators and existing freight elevators in buildings not exceeding five stories in height and direct plunger elevators) shall have at the top of the elevator shaft a governor properly connected to a safety device attached to the underside of the car platform, in such manner that the car will be brought to rest with an easy and gradual stop, or in a distance not greater than nine feet at a speed of seven hundred feet per minute, provided that on elevators having a speed of one hundred feet per minute or less, safeties of the instantaneous type may be used. Every governor operating a car safety shall be set to trip the safety at a speed not exceeding forty per cent. above the rated speed given in the application, but in no case exceeding eight hundred and fifty feet per minute; but this shall not require any governor to trip the safety at a speed less than one hundred and fifty feet per minute. When a speed governor has been set for the rated speed it shall be sealed. When safeties of the instantaneous type are used, a proper flexible means of application must be interposed between the safety and the governor.

Rule 17. Limit Devices. In future installations all power-driven elevators shall have approved limit devices as follows:

(a) for Drum Type Electric Elevators, except sidewalk type elevators with speeds not exceeding seventy-five (75) feet per minute, limit switches on the machine and in the shaft or on the car;

(b) for Traction Type Electric Elevators, limit switches in the shaft or on the car;

(c) for Electric Drum Sidewalk Type Elevators, with speeds not exceeding seventy-five (75) feet per minute, machine automatics will be required, but stopping devices on the operating rope will be accepted in lieu of limit switches in the shaft or on the car;

(d) for Hydraulic Elevators, with speeds not exceeding one hundred and fifty (150) feet per minute, stopping devices on the operating rope;

(e) for Hydraulic Elevators, with speeds exceeding one hundred and fifty (150) feet per minute, limit devices on the machine;

(f) for Lever or Crank-Operated Hydraulic Elevators, limit devices on the machine.

Rule 18. Elevator Brake. In future installations every electric elevator shall be equipped with an electric

or electro-mechanical brake that will bring the car to rest when the car operating device is brought to the stop position or when any of the electric safety devices operate.

When the elevator is driven by a belt from an electric motor, the brake must be arranged to operate should the motor belt break or leave the pulleys.

Rule 19. Operating Device. In future installations every elevator driven by electric power and operated by hand rope, lever, wheel or other non-self-centering device, shall be provided with an approved device preventing the operation of the car, after the interruption of the current, until the operating device has been first returned to the inoperative position, and electric car operating switches shall be self-centering and self-locking in the inoperative position.

Rule 20. Reverse Phase Relays. In future installations every elevator motor operated by polyphase alternating electric current shall be equipped with a reverse phase relay.

Rule 21. Slack Rope Device. In future installations all power-driven elevators, including power-driven sidewalk elevators, operated by drum hoisting machines, shall have approved automatic slack rope devices that will stop the machine if, from any cause, any car hoisting rope or chain attached to the drum becomes slack.

Rule 22. Car Locking Device. No elevator shall be used for the carrying of safes or other material of a greater weight than the normal lifting power of such elevator, unless the machine is provided with special equipment and the car is equipped with an approved locking device which will hold it at any landing, independent of the hoisting ropes while such safe or other material is being loaded or unloaded.

Rule 23. Hand-Power Elevator Safety Devices. In future installations every hand-power elevator (except sidewalk type elevators) with a rise of more than fifteen feet, shall be equipped with an approved safety device that will immediately stop and hold the car with a full load if the rope breaks, and with an approved automatic speed retarder and a hand-operated brake operating in both directions.

Grip hoists and elevators operated by gravity in both directions shall comply with the requirements for hand power elevators.

Rule 24. Escalators. In future, every escalator installed shall be equipped with an approved safety device to prevent any accidental downward reversal and with an approved stopping device.

Rule 25. Car Construction. In future installations the car and car frame of every power-driven elevator and of every hand-power elevator with a rise of more than thirty-five (35) feet shall be of incombustible materials; except that the platform may be of wood covered on the underside with incombustible materials. The car enclosure and flooring may be of hard wood. The car, car frame and enclosure of every hand-power elevator with a rise of thirty-five (35) feet or less may be constructed of wood.

Rule 26. Passenger Car Enclosures. In existing and future installations every passenger elevator car shall be fully enclosed on all sides not used for loading or unloading, and on the top, with substantial construction.

In future installations where grille work is used for the car enclosure, including the top, it shall be constructed with not more than one and one-half inch space between any two members; except that where straight bars not filled in with scroll work are used there shall be not more than one inch space between members. When the clearance between car and counterweight is less than two (2) inches, that part of the car enclosure opposite the counterweight runway shall

RULES

be of solid construction or screened with not more than one-half ($\frac{1}{2}$) inch mesh of not lighter than No. 16 U. S. gauge wire, to a height of not less than six (6) feet six (6) inches.

In existing installations in factory buildings only, where the spaces exceed those specified for future installations, it shall be deemed satisfactory if the grille work is made safe by suitable screen or wire mesh fastened to the car enclosure.

Rule 27. Emergency Exit. In future installations every power-driven passenger elevator car shall have a trap door in the top, of such a size as to afford easy egress for passengers, but not less than sixteen inches in least dimension nor less than four hundred square inches in area. When there is more than one elevator in a shaft and the vertical distance between any two consecutive shaft door openings exceeds thirty (30) feet, there shall be provided in addition to the trap door an emergency side exit to the adjacent car.

In existing installations not already provided with an emergency exit, a trap door as specified for future installations shall be provided; except that when the cross head or car top construction renders it impracticable to provide such trap door, this requirement may be waived by the superintendent of buildings, if egress, in case of emergency, is possible through shaft openings, or to an adjacent car.

Rule 28. Freight Car Enclosure. In existing and future installations in factory buildings only, every freight elevator car shall be enclosed on all sides not used for loading or unloading, with substantial construction, to a height of five (5) feet six (6) inches, or to the cross head, when this is less than five (5) feet six (6) inches above the car platform.

In future installations, where an enclosure of open construction is used, the space between any two parallel members shall not exceed one inch.

Rule 29. Freight Elevator Cover. In existing and future installations in factory buildings only, every freight elevator car shall be provided with a substantial cover or grating constructed of not less than No. 8 U. S. gauge wire or its equivalent in strength, and of a mesh that will reject a one and one-half ($1\frac{1}{2}$) inch diameter ball. Sections of the cover or grating may be arranged to swing upward for handling long material, but such cover or grating shall be closed at all other times. In covers hereafter installed (except where car gates are provided) that part of the cover facing the entrances to the hoistway, extending the full width of the car, shall be hinged on a line not less than eight (8) inches nor more than twelve (12) inches back from the edge of the landing, and the hinged section shall be self-closing.

Rule 30. Space Between Saddles and Car. In future installations there shall be not more than one and one-quarter inch, nor less than three-quarters of an inch space between the floor of the car and the floor saddles, and where the saddles project into the shaft the same shall be properly bevelled on the underside at an angle of not less than sixty degrees to the horizontal.

Rule 31. Lights. In existing and future installations the cars of all elevators shall be properly lighted at all times when in service.

Rule 32. Guide Rails. In future installations, guide rails for both car and counterweights of all elevators (except dumbwaiters, and hand-power elevators with a rise of thirty-five feet or less) shall be of iron or steel. They shall be fastened to the sides of the shaft with wrought or cast iron brackets of such strength and design and so spaced that the guide rails and their fastenings shall be able to safely withstand the application of the safety when stopping a fully loaded car under test. For elevators requiring safeties, the guiding surfaces of the car guides shall be finished smooth and joints shall be tongued and grooved or dowelled, and rails shall extend to the level of or above the overhead beams and shall be bottomed on a suitable support.

The weights of steel or iron guide rails shall be not less than given in the following table:

WEIGHT OF GUIDE RAILS PER LINEAL FOOT

Total Weight of Car and Live Load, or Weight of Counterweight	Weight of Car Guide Rails		Weight of Counterweight Guide Rails	
	With Safeties.	Without Safeties.	With Safeties.	Without Safeties.
0-4000 lbs.....	$7\frac{1}{2}$	$7\frac{1}{2}$	$7\frac{1}{2}$	$6\frac{1}{2}$
4001-15000 ".....	14	14	14	$7\frac{1}{2}$
15001-40000 ".....	30	30	30	$7\frac{1}{2}$

Rule 33. Ropes. In future installations, all elevator (except dumbwaiters) shall have not less than two ropes independently connected to the car and to each set of counterweights. In drum type machines, the lifting and counterweight ropes shall have at least one full turn of the rope on the drum when they have reached the limit of travel. Every rope hereafter used shall have a factor of safety of not less than six for freight elevators, and not less than eight for passenger elevators. The diameter of any hoist or counterweight rope hereafter installed (except for hand-power elevators and sidewalk type elevators) shall be not more than one-fortieth ($1/40$) of the diameter of any sheave or drum over which it passes. All ropes used in the operation of elevators shall be of steel, iron or marlin covered steel. Ropes of other material than metal may be used as hand ropes and brake ropes in hand power elevators or as centering ropes in power driven elevators with hand rope control. Where overhead machines are used, equalizer arms will be permitted on the car and counterweights. Nothing in this rule shall prohibit the use of chains on sidewalk elevators instead of ropes.

Rule 34. Auxiliary Freight Compartments. In future installations no elevator shall be permitted to have attached above, below or on the side of the car a freight compartment or similar device.

In existing installations, entrances to freight compartments shall be protected by folding gates, as required for passenger elevators, and so arranged that the elevator cannot be operated until the gate is closed.

Rule 35. Overhead Gratings. In every elevator shaft (except existing elevator shafts, dumbwaiter shafts or the shafts of sidewalk elevators outside the building line) immediately under the sheaves at the top of the shaft, or when the machine is located at the top of the shaft, at the level of the top of the machine beams, there shall be provided and placed in a substantial grating of iron or steel capable of sustaining not less than seventy-five pounds per square foot. No two members of such grating shall be spaced more than one and one-half inches apart. When such grating does not extend over the entire area of the shaft, the open edges shall be protected by substantial screened railings not less than three feet high. Every such grating shall extend at least two and one-half feet beyond the general contour of the sheaves or machinery. Deflecting sheaves extending below the machine level, or hoist and counterweight sheaves located at the sides of the shaft, shall be protected by gratings or cradles of a construction similar to that required for the gratings. Fireproof floor construction shall be accepted as the equivalent of the gratings.

Nothing in this rule shall prevent the placing of a trap door in such a grating where other suitable access cannot be had.

Any grating hereafter placed in an existing elevator shaft shall conform to the requirements of this rule.

Rule 36. Elevator Pit. In every elevator shaft hereafter constructed (except shafts for dumbwaiters, for sidewalk elevators and for hand-power elevators with a rise of less than thirty-five feet), the distance from the floor saddle of the lowest landing to the bottom of the pit shall not be less than four feet when the speed does not exceed two hundred and fifty feet per minute, not less than

RULES

five feet when the speed exceeds two hundred and fifty but does not exceed four hundred feet per minute, and not less than six feet when the speed exceeds four hundred feet per minute, and in no case shall there be less than two feet in the clear between the bottom of the pit and the lowest point of the underside of the car floor framing when the car is at the lowest possible position. In the case of power-driven sidewalk type elevators, the clear space between the bottom of the pit and underside of the car floor structure shall be not less than six inches. The pits herein required at the bottom of elevator shafts shall not be used for piping, machinery, or for any purpose not required for the elevator equipment; but this shall not prevent the encroachment upon such pits, in the case of new elevators installed in existing buildings, of the foundations of bearing walls and columns to an extent not exceeding twenty-five per cent. of the area of the pit.

Rule 37. Overhead Clearance for Cars. For all elevator shafts hereafter installed (except shafts for sidewalk type elevators) there shall be provided a sufficient clear space, when the car is at the top landing, to allow a run-by of not less than two feet for elevators having a speed not exceeding one hundred feet per minute, not less than three feet for elevators having a speed exceeding one hundred feet per minute and not exceeding three hundred and fifty feet per minute, and not less than five feet for elevators having a speed exceeding three hundred and fifty feet per minute.

Rule 38. Overhead Clearance for Counterweights. In future installations there shall be provided in all elevator shafts a sufficient clear space when the car has completely compressed the pit buffers to allow of a run-by of the counterweight of not less than two (2) feet for traction and hydraulic type elevators, and not less than three (3) feet for drum type elevators.

Rule 39. Machinery Room. All parts of the elevator machinery for power-driven elevators shall be properly enclosed, and suitable light provided. In buildings hereafter

erected free and safe access must be provided to all parts of the elevator machinery, and there shall be not less than twelve (12) inches clearance at limit stop devices on machine and outboard bearings of motor. In future installations in existing buildings, such clearance shall be provided as deemed necessary by the superintendent of buildings, but need not exceed that specified for buildings hereafter erected. When the machine is located at the bottom of the shaft, it shall be protected with a substantial pit pan.

Rule 40. Speed. The speed of all power-driven elevators shall not exceed seven hundred feet per minute.

Rule 41. Buffers. In future installations for all power-driven elevators (except sidewalk type elevators) there shall be provided substantial spring buffers, pneumatic buffers, or oil buffers for the car and counterweights provided that for the cars and counterweights of all elevators having speeds of more than three hundred and fifty feet per minute, substantial oil buffers shall be installed.

Rule 42. Supporting Beams. Supporting beams hereafter installed for elevator sheaves or machinery (except in dumbwaiter shafts) shall be of iron or steel.

Rule 43. Determination of Questions. When any existing installation for either passenger or freight service is deemed by the Superintendent of Buildings to be in an unsafe or dangerous condition it shall be made safe in such manner as he shall prescribe, and all defective parts necessary of replacement shall conform, in so far as possible, with the rules governing future installations.

Where there are practical difficulties in the way of carrying out the strict letter of the foregoing rules, the Superintendent of Buildings shall have power to vary their provisions so that the spirit of the law shall be observed and public safety secured and substantial justice done, provided that whenever such variations are granted by a superintendent of buildings it shall be indorsed in writing upon the permit over the signature of such superintendent.

RULES

COMMUNITY LAUNDRIES IN BUSINESS DISTRICTS

*Amended Resolution Adopted by the Board of Appeals,
March 16, 1920, Under Cal. No. 549-17-BZ*

WHEREAS, the board of appeals, at its regular meeting, December 16, 1919, unanimously rescinded an opinion incidentally expressed and incorporated in a resolution adopted by the board on May 28, 1917, in acting on Cal. No. 549-17-BZ. This opinion was that a laundry is not a prohibited use in a business district under the building zone resolution. The board unanimously rescinded this expression of opinion, inasmuch as a laundry is a factory within the meaning of the labor law and must be so construed

under the building zone resolution in the absence of any definition therein to the contrary.

Resolved, that this shall not be construed to include within the prohibited uses specified under Section 4 of the building zone resolution a community or neighborhood laundry located in the basement or ground floor of a building within a business district and containing not more than eight (8) rotary washing machines with inside cylinders not more than 30 in. in diameter by 30 in. in length over all nor more than two 20 in. extractors, the 20 in. measurement being the diameter of the inside basket, which machines and extractors shall be operated solely by electric power and do not require the installation of steam boiler or plant.

FORMS FOR NOTICES TO PROPERTY OWNERS

If applicants, under the building zone resolution, desire copies of Form 13A, for notices to property owners, such forms are not to be supplied by this office.

The applicant is entitled only to one copy of Form 13A, properly filled out.

If he desires additional copies for his own convenience, in notifying property owners, he can obtain such copies from The O'Connell Press, 176 Park Row, Manhattan, at three cents each, postage to be added if the forms are to be supplied by mail.

WARNING

Notice is hereby given to all petitioners, appellants and applicants, and to all lawyers, architects and engineers representing owners or lessees in proceedings before the board—

First, That if they do not appear in person or by representative at the hearing on their case, dismissal for lack of prosecution is likely to result.

Second, That due and ample notice of the date set for hearing is provided in the publication in this BULLETIN of the calendars of the board, each case being set down by Calendar Number and premises under the date of the hearing.

Third, That no plea of ignorance of the date of the hearing can be entertained in view of this publication and of the posting of the calendars on the bulletin board in the

offices of the board and of the further publication of the calendars in the daily press.

Fourth, That no one is entitled to written notice of the date for the hearing in his case, and that the plea of failure to receive such notice is no excuse for neglect to appear.

Fifth, That the business of the board is to dispose of all cases promptly, for the reason that the pendency of an appeal or petition ties the hands of the administrative official in enforcing his order; therefore, no appeal or petition will be allowed to be hung up by reason of failure of the appellant or petitioner to file necessary data, or by any other method of delay.

Sixth, That no appeal, application or petition will be accepted for filing unless, at the time of filing, all papers, plans and data required by law are supplied, as specified on the blank appeal, application or petition forms.

BOARD OF STANDARDS AND APPEALS

WILLIAM E. WALSH, Chairman

HENRY L. CONNELL
JAMES P. HOLLAND
JOHN GUILFOYLE
CHIEF JOHN KENLON

WILLIAM J. O'GORMAN, Secretary
EDWARD V. BARTON, Chief Clerk

PUBLIC HEARINGS

Tuesdays, at 10 a. m. and 2 p. m.
Special meetings as published in this Bulletin.
Call of Clerk's Calendar, Tuesdays, at 2 p. m.
All hearings are held in Room 1013, Municipal Building, Manhattan.

HOURS FOR CONSULTATION

10 A. M. to 1 P. M.

Any person desiring to consult the chairman or the engineers, pertaining to the work of the board, will be seen only between the hours of ten in the morning and one in the afternoon—Saturdays excepted.

CALL OF CLERK'S CALENDAR

The *Clerk's Calendar* consists of applications under the Building Zone Resolution, and its object is to give interested property owners opportunity to file objections, if any, and will be called in Room 1013, Tuesday, March 6, 1928, at 2 o'clock. At this call each case is set for hearing on a definite day.

The next subsequent Call of the Calendar will be on Tuesday, March 13, 1928, at 2 o'clock.

The *Clerk's Calendar* is not to be confused with the calendar of cases that have been definitely set for hearing on fixed days.

CONTENTS

This issue of the Bulletin contains, in the order given—

- Docket.
- Call of Clerk's Calendar.
- The Trial Calendar.
- Notices in Building Zone Cases.
- Minutes of Regular Meeting, February 28, 1928, at 10 a. m.
- Minutes of Regular Meeting, February 28, 1928, at 2 p. m.
- Smoking in Factory, Rules.
- Concrete Rules.
- Reserve Calendar.
- Progress Report.

NOTICE TO APPELLANTS AND PETITIONERS

No appeal, application or petition will be entertained in connection with which court proceedings are pending or in progress, nor accepted that are not filed within twenty days from the date of the action of the Administrative Official.

Any communication purporting to be an appeal, application or petition shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this board.

Upon receipt of any such communication the writer will be supplied with the official forms for presenting his appeal, application or petition, and if he fails to supply the data required thereon, within twenty days, his case may be dismissed for lack of prosecution.

At the time of filing an application, the appellant or petitioner shall forward a signed notice of appeal addressed to the administrative official (either superintendent of buildings or fire commissioner) and file with this board a duplicate of said notice.

Petitioners are advised that their plans must indicate the points of the compass so as to establish the true location and position of the property, the subject of the appeal.

Appeals, applications and petitions will be simplified and disposition of same expedited by conforming to these directions.

WILLIAM E. WALSH, Chairman.

CALL OF CLERK'S CALENDAR

TUESDAY, MARCH 6, 1928, AT 2 P. M.

Building Zone Cases.

1016-27-BZ.

APPLICANT—Arthur B. Daub, for Max Daub, owner.
PREMISES—Southeast corner of Walker boulevard and
Outerbridge avenue, Arthur Kill, Borough of Rich-
mond.

APPLICATION, under sections 7g and 21 of the building
zone resolution,
TO PERMIT in a business district the erection and main-
tenance of a gasoline service station.

1068-27-BZ.

APPLICANT—Edward P. Doyle, for Livia M. Pepe,
owner.
PREMISES—124 Waverly place, Manhattan.

APPLICATION, under sections 7c and 21 of the building
zone resolution,
TO PERMIT in a residence district the maintenance of an
existing building occupied on the basement story
as a French dry cleaning, dyeing and pressing busi-
ness and as dwellings above.

1069-27-BZ.

APPLICANT—Daniel J. Iulo, for Waglan Realty Corp.,
owner.
PREMISES—6702-6710 New Utrecht avenue and 6701-6709
15th avenue, Brooklyn.

APPLICATION, under section 21 of the building zone
resolution,
TO PERMIT in a business district the change of occu-
pancy of an existing business building to a chicken
slaughter house.

1126-27-BZ.

APPLICANT—Edward Hoffman, for Pauline Brickman,
owner.
PREMISES—1781 Hilder avenue, The Bronx.

APPLICATION, under section 21 of the building zone
resolution,
TO PERMIT in a business district the erection and main-
tenance of a gasoline service station.

879-27-BZ.

APPLICANT—Philip Steigman, for Norman Gotlieb and
Nathan Freschling, owners.
PREMISES—5901-5905 22nd avenue, Brooklyn.

APPLICATION, under section 21 of the building zone
resolution,
TO PERMIT in a residence district the erection and main-
tenance of a gasoline service station.

1065-27-BZ.

APPLICANT—David Kaufman, for Rose B. Capone,
owner.
PREMISES—22-76 Sixth avenue, Astoria, Borough of
Queens.

APPLICATION, under section 21 of the building zone
resolution,
TO PERMIT in a business district the erection and main-
tenance of a gasoline service station.

CALENDAR

1081-27-BZ.
APPLICANT—McCoey & Conroy, substituted for Henry Felsenstein, for William T. Parker and Margaret Parker Bracken, owners.
PREMISES—2042-2044 Ocean avenue, Brooklyn.
APPLICATION, under section 21 of the building zone resolution,
TO PERMIT in a residence and "C" area district the alteration and extension in height and area of an existing garage for the storage of more than five (5) motor vehicles; also the omission of the rear yard required under the zone resolution.

1101-27-BZ.
APPLICANT—Gardiner Conroy, for Max Silverman, owner.
PREMISES—5702-5712 Church avenue, Brooklyn.
APPLICATION, under section 21 of the building zone resolution,
TO PERMIT in a business district the erection and maintenance of a gasoline service station.

936-27-BZ.
APPLICANT—Philip J. Sinnott, for Benjamin Siegel, owner.
PREMISES—Southwest corner of Fiske avenue and Queens boulevard, Winfield, Borough of Queens.
APPLICATION, under section 21 of the building zone resolution,
TO PERMIT in a business district the erection and maintenance of a gasoline service station.

1063-27-BZ.
APPLICANT—Emil Guterman, for Henry C. Karpen, owner.
PREMISES—14912 North Conduit boulevard, northwest corner of Three Mile Mill road (150th street), Jamaica, Borough of Queens.
APPLICATION, under section 21 of the building zone resolution,
TO PERMIT in a business district the erection and maintenance of a gasoline service station.

MARCH 6, 1928, 10 A. M.

Appeals from Administrative Orders.

1110-27-A—225-235 25th street, Brooklyn.
 1116-27-A—13-17 Forrest street, Brooklyn.
 1117-27-A—25 Forrest street, Brooklyn.
 1131-27-A—135-139 West 36th street, Manhattan.
 1077-27-A—3 East 61st street, Manhattan.
 694-27-A—217-221 Main street, Tottenville, Borough of Richmond.
 768-27-A—332-236 East 40th street, Manhattan.
 1070-27-A—West side of West avenue, from 8th to 10th streets, Long Island City, Borough of Queens.

Building Zone Applications.

NOTICE IS HEREBY GIVEN by the board of standards and appeals of a public hearing under the provisions of the building zone resolution, *Tuesday morning, March 6, 1928, at 10 o'clock, in Room 1013, Municipal Building, on the following matters:*

CAL. NO. 1027-27-BZ—Application, September 21, 1927, under section 21 of the building zone resolution, of Edward P. Doyle, applicant, on behalf of G. & K. Investing Corp., owner, to permit in a residence district the erection and maintenance of a business building (stores); premises east side of Bailey avenue, 153.03 ft. north of Albany Crescent, The Bronx.

CAL. NO. 1051-27-BZ—Application, September 26, 1927, under section 21 of the building zone resolution, of William F. Doyle, applicant, on behalf of Rutland Parkway, Inc., owner, to permit in a business district the erection and maintenance of a gasoline service station; premises 724-740 Ralph avenue, northwest corner of East 98th street, Brooklyn.

CAL. NO. 1305-25-BZ—Application, December 16, 1925, under sections 7e and 21 of the building zone resolution, of Harry Landy, applicant, on behalf of Love Lane Garage Corp., owner (for amendment and modification of the previous resolution), to permit in a business district the alteration and extension of an existing garage for the storage of more than five (5) motor vehicles; premises 46-50 Love lane, northwest corner of College place, Brooklyn.

CAL. NO. 984-27-BZ—Application, September 7, 1927, under section 21 of the building zone resolution, of Philip J. Sinnott, applicant, on behalf of T. & R. Construction Co., owner, to permit in a business district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles; premises southwest corner of West 167th street and Sedgwick avenue, The Bronx.

CAL. NO. 282-27-BZ—Application, March 17, 1927, under section 21 of the building zone resolution, of Philip J. Sinnott, applicant, substituted for William F. THE RESOLUTION—

(1082-27-A)

WHEREAS, Foreign Trade Warehouse Corp., lessee, filed, October 5, 1927, an appeal from an order of the fire commissioner, affecting premises 80 39th street (Building No. 23, sixth and seventh floors), Borough of Brooklyn; and

WHEREAS, the order of the fire commissioner, dated September 30, 1927 (Order No. 12675-LC), reads:

"With reference to your application dated 9-13-27 for a permit to store chlorine gas at the above location, I regret to inform you that I am without power to grant such a permit for the reason that Sec. 214-A, Sub-division 4, Ch. 10, Code of Ordinances provides that no permit shall be issued for the use of liquefied chlorine above the grade floor except in a building occupied exclusively by the person, firm or corporation using the liquefied chlorine and protected by an approved automatic sprinkler system, except that in special cases where the use of liquefied chlorine existed prior to the adoption of these regulations this requirement might be waived by the Fire Commissioner.";

and

WHEREAS, the building is fireproof, eight stories in height, 93 ft. 1 in. by 200 ft. in area, known as Building No. 23; OCCUPIED as a tenant factory, not more than 26 persons on each story; and

WHEREAS, the appellant, lessee of the sixth and seventh stories, proposes to manufacture a 2 per cent. solution of liquid chlorine used for washing nuts; and

WHEREAS, the appellant claims that not more than seven cylinders of chlorine gas are stored at any time; that the appellant has handled liquid chlorine in this manner for several years and understand fully the every-day precautions which are necessary.

Resolved, that the order of the fire commissioner be and it hereby is affirmed, and the appeal be and it hereby is denied.

1096-27-A.

APPELLANT—Samuel Rosenblum, for Twentieth Street Garage, Inc., owner.

SUBJECT—Appeal from order of the fire commissioner.

PREMISES AFFECTED—516-530 West 20th street, Manhattan.

APPEARANCES—

For Appellant: Samuel Rosenblum.

For Administration: Inspector Meyer of fire department.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Walsh, Commissioners Connell, Holland and Guilfoyle and Deputy Chief Martin..... 5

Negative 0

Absent 0

THE RESOLUTION—

(1096-27-A)

WHEREAS, Samuel Rosenblum, for Twentieth Street Garage, Inc., filed, October 10, 1927, an appeal from an order of the fire commissioner, affecting premises 516-530 West 20th street, Borough of Manhattan; and

WHEREAS, the order of the fire commissioner, dated July 25, 1927 (Order No. 39220-LC), reads:

"15. Install standpipe 4 inches in diameter tested to withstand a pressure of 300 lbs. per square inch, extending from cellar to roof, with necessary check valves and 2½ inch regulation Fire Department outlets on each story (including basements, cellars and roofs) placed within main stairway enclosure.";

and

WHEREAS, the building is fireproof, four stories (65 ft.) in height, 175 ft. by 92 ft. (approximately 16,000 sq. ft.) in area; OCCUPIED for storage, repairing and painting automobiles, 26 persons in entire premises; and

WHEREAS, appellant contends that the building was erected in 1914 and that at that time there was no requirement for such a standpipe system; that the building is low in height and is equipped throughout with an automatic sprinkler system.

Resolved, that the order of the fire commissioner be and it hereby is modified, and the appeal be and it hereby is granted on condition that the building shall be equipped throughout with an approved automatic two-source wet sprinkler system; that the building shall not be increased in height, area or dimension, and granted only as long as conditions as to occupancy and use remain substantially unchanged.

932-27-A.

APPELLANT—Rochester Germicide Co., lessee.

SUBJECT—Appeal from order of the fire commissioner.

PREMISES AFFECTED—232 Greenwich street, Manhattan.

APPEARANCES—

For Appellant, L. A. Lewis.

For Administration: Inspector Meyer of fire department.

ACTION OF BOARD—Appeal denied.

THE RESOLUTION—

(932-27-A)

WHEREAS, Rochester Germicide Co., lessee, filed, August 18, 1927, an appeal from an order of the fire commissioner, affecting premises 232 Greenwich street, Borough of Manhattan; and

WHEREAS, the order of the fire commissioner, dated August 2, 1927 (Order No. 39292-LC), reads:

"With reference to your application dated June 14, 1927, for a permit to keep and store machine drip fluid (oil) at above location, I regret to inform you that I

MINUTES

am without power to grant such a permit for the reason building in part is used as a factory. Sec. 256-C, Chapter 10, Code of Ordinances.

"You are therefore hereby ordered to

"1. Discontinue the storage of machine drip fluid (oil) exceeding the equivalent of five barrels. Sec. 255, Chapter 10, Code of Ordinances.";

and

WHEREAS, the building is non-fireproof, five stories in height, 42 ft. 5 in. by 76 ft. 4½ in. in area; OCCUPIED: basement, shipping and storage of machine drip fluid (oil), 50 barrels; 1st story, stationery store, 2 persons; 2nd story, paper box factory, 14 persons; 3rd story, offices of appellant, 2 persons; 4th story, manufacture of radio parts, 6 persons; 5th story, vacant at present; and

WHEREAS, appellant contends that the oil is stored in steel drums; that it is not combustible as it shows a three hundred flash test and that there are but a few persons in the building engaged in factory work.

Resolved, that the order of the fire commissioner be and it hereby is affirmed, and the appeal be and it hereby is denied.

1044-27-A.

APPELLANT—John J. Gilmartin, for K. E. and A. K. Morgan, owners.

SUBJECT—Appeal from order of the fire commissioner. PREMISES AFFECTED—700 Mott avenue, The Bronx.

APPEARANCES—

For Appellant: John J. Gilmartin.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Appeal granted on condition.

THE RESOLUTION—

(1044-27-A)

WHEREAS, John J. Gilmartin, for K. E. and A. K. Morgan, owners, filed, September 24, 1927, an appeal from an order of the fire commissioner, affecting premises 700 Mott avenue, Borough of The Bronx; and

WHEREAS, the order of the fire commissioner, dated May 18, 1927 (Order No. 21016-F), reads:

"1. Install a standpipe system with risers 4 inches in diameter tested to withstand a pressure of 300 lbs. per square inch, extending from cellar to roof, with necessary check valves and 2½ inch regulation Fire Department outlets on each story (including basements, cellars and roofs) placed within main stairway enclosure. Each outlet to be provided with sufficient feet of 2½ inch standard hose attached thereto.";

and

WHEREAS, the building is non-fireproof, two stories (34 ft.) in height at Mott avenue and two stories (41 ft.) in height at Sheridan avenue, the two streets being at different levels; 118 ft. frontage on Mott avenue, 134 ft. on Sheridan avenue and a depth of 172 ft., a total area of approximately 12,400 sq. ft.; OCCUPIED as a laundry, 155 persons in entire premises; and

WHEREAS, the appellant contends that the building is open on all sides; that the building is equipped with a sprinkler system, and, also, three two-inch standpipe risers with outlets and 50 ft. of two-inch hose at each outlet; and

WHEREAS, the floor area is subdivided.

Resolved, that the order of the fire commissioner be and it hereby is modified, and the appeal be and it hereby is granted on condition that the building shall not be increased in height, area or dimension; that the entire premises throughout shall be equipped with a two-source wet sprinkler

system with central office connection; that all interior door openings shall be equipped with at least one automatic fire door or self-closing, fireproof door, and granted only as long as conditions as to occupancy and use remain substantially unchanged.

1046-27-A.

APPELLANT—Croker Nat'l. Fire Prev. Eng. Co., for Minnesota Co-operative Dairies Assn., lessee.

SUBJECT—Appeal from order of the fire commissioner.

PREMISES AFFECTED—14 Jay street, Manhattan.

APPEARANCES—

For Appellant: Herman E. Horwood.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Absent 0

THE RESOLUTION—

(1046-27-A)

WHEREAS, Croker National Fire Prevention Engineering Co., for Minnesota Co-operative Dairies Association, filed, September 26, 1927, an appeal from an order of the fire commissioner, affecting premises 14 Jay street, Borough of Manhattan; and

WHEREAS, the order of the fire commissioner, dated June 21, 1928 (Order No. 23277-F), reads:

"1. Install a standpipe system with risers 4 inches in diameter tested to withstand a pressure of 300 lbs. per square inch, extending from cellar to roof with necessary check valves and 2½ inch regulation Fire Department outlets on each story (including basements, cellars and roofs), placed within main stairway enclosure. Each outlet to be provided with sufficient feet of 2½ inch standard hose attached thereto.";

and

WHEREAS, the building is non-fireproof, eight stories (97 ft. 4 in.) in height, 25 ft. by 89 ft. in area; OCCUPIED: 1st story, receiving and storage of butter and eggs, 4 persons; 2nd story, offices, 2 persons; 3rd story, storage of walnuts in bags, no persons; 4th story, vacant at present; 5th, 6th, 7th and 8th stories, washing, bagging and storage of walnuts, 5 persons; and

WHEREAS, appellant contends that the nature of the occupancy of the premises is non-hazardous; that the building is provided with a Watkins Automatic Thermostatic Fire Alarm System and that fire pails and bucket tanks are distributed throughout the premises.

Resolved, that the order of the fire commissioner be and it hereby is modified, and the appeal be and it hereby is granted on condition that there shall be no heating system maintained on the premises and that the building shall be equipped throughout with an automatic fire alarm signal system with central office connection, and that the existing fire escape in the front of the building shall be maintained structurally safe; that the building shall not be increased in height, area or dimension, and granted only as long as the present use and occupancy remains substantially unchanged.

973-27-A.

APPELLANT—G. J. Nikolas & Co., Inc., owner.

THE RESOLUTION—

(973-27-A)

WHEREAS, G. J. Nikolas & Co., Inc., owner, filed, September 2, 1927, an appeal from an order of the fire commissioner, affecting premises 33-35 Grand street, Borough of Brooklyn; and

WHEREAS, the order of the fire commissioner, dated May 8, 1925 (Order No. 95844-C), reads:

"1. Surrender to the bearer Permit No. 118291 which expires May 16, 1925, authorizing on the above premises the storage and sale of 2,500 gallons Lacquers and Thinners, as it is revoked for the reason that the following order will have to be complied with:

"2. Separate boiler from remainder of building by unpierced wall of solid masonry at least 8 inches in thickness. Entrance to boiler room to be from exterior of building only. Sec. 159-1, Cha. 10, Code of Ord.";

and

WHEREAS, the building is non-fireproof, one story and basement in height, 43 ft. by 84 ft., irregular, in area; OCCUPIED: basement, boiler room, storage and manufacture of lacquers; 1st story, offices and storage of lacquers, 3 persons in entire premises; and

WHEREAS, appellant proposes to enclose the boiler in a metal-covered wood partition having a fireproof door in the opening thereof.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that the boiler room shall be enclosed on all sides in fireproof construction, terra cotta block, on angle iron frames, with one doorway, equipped with a self-closing, fireproof door, opening out, and that the saddle of this door opening shall be maintained not less than 12 inches above the cellar grade, and that a passageway of not less than 4 ft. in width in the clear shall be maintained in front of the boiler room direct to the front of the building, and that the building shall not be increased in height, area or dimension, and that any auxiliary fire extinguishing appliances, as shall be directed by the fire commissioner, shall be installed and maintained.

1213-27-A.

APPELLANT—David Kaufman, for Union Match Co., owner.

SUBJECT—Appeal from decision of the fire commissioner.

PREMISES AFFECTED—108-116 Lorraine street, Brooklyn.

APPEARANCES—

For Appellant: David Kaufman.

For Administration: Inspector Carroll of fire department.

ACTION OF BOARD—Appeal granted on condition.
THE VOTE—

Affirmative: Chairman Walsh, Commissioners Connell, Holland and Guilfoyle and Deputy Chief Martin..... 5
Negative 0
Absent 0

THE RESOLUTION—

(1213-27-A)

WHEREAS, David Kaufman, for Union Match Co., owner, filed, November 15, 1927, an appeal from a decision of the fire commissioner, affecting premises 108-116 Lorraine street, Borough of Brooklyn; and

WHEREAS, the decision of the fire commissioner, dated November 15, 1927 (Plan No. 2809-25), reads:

"Chapter 10, Article 7, Section 101, subdivision 2-c of the Code of Ordinances, City of New York, prohibits the storage or sale of matches in quantities aggregating more than 60 matchman's gross, in any premises where petroleum or the liquid products thereof are stored."; and

WHEREAS, the building is non-fireproof, one story in height, 100 ft. by 200 ft. in area; OCCUPIED for the manufacture of matches, 55 persons; and

WHEREAS, the fire commissioner has notified this board that the occupancy is classed as hazardous by the fire department and also requests an early hearing; and

WHEREAS, the appellant claims that the fuel oil burning system installed consists of a 3,500-gallon storage tank, buried outside, under the sidewalk, connected with all required valves and piping to two Leiman Brothers Oil Pumps and Ballard Automatic Oil Burners, using Grade A oil, located in the boiler room which is separated from the rest of the building with fireproof materials; that no matches are manufactured directly above the boiler room; furthermore, the petitioner contends that the ordinance does not strictly apply in this case as the fuel oil is stored under the sidewalk and that no oil is manufactured, stored or kept for sale within the building; and

WHEREAS, this order is predicated on the installation and operation of a fuel oil heating equipment.

Resolved, that the decision of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that the conduct, use and storage of the match business shall be in accordance with the requirements of the code of ordinance covering such occupancy and use and that the fuel oil burning equipment installed on the premises shall be maintained and operated in accordance with the fuel oil rules of the board of standards and appeals.

1095-27-A.

APPELLANT—Carrere & Hastings, for Kohler Company Corp., lessee.

SUBJECT—Appeal from decision of the fire commissioner.

PREMISES AFFECTED—705-713 Fifth avenue and 3-5 East 55th street, Manhattan.

APPEARANCES—

For Appellant: Theodore C. Coe.

For Administration: Inspector Carroll of fire department.

ACTION OF BOARD—Appeal granted on condition.
THE VOTE—

Affirmative: Chairman Walsh, Commissioners Connell, Holland and Guilfoyle and Deputy Chief Martin..... 5
Negative 0
Absent 0

THE RESOLUTION—

(1095-27-A)

WHEREAS, Carrere & Hastings, for 705 Fifth Avenue Corp., owner, filed, October 10, 1927, an appeal from a decision of the fire commissioner, affecting premises 705-713 Fifth avenue and 3-5 East 55th street, Borough of Manhattan; and

WHEREAS, the decision of the fire commissioner, dated September 23, 1927 (Plan No. 2409-27), reads:

"1. Gasoline system may not be permitted in this type of occupancy.

"2. No portion of system beyond the building line can be approved.";

and

WHEREAS, the building is fireproof, 15 stories in height, 120 ft. 5 in. by 150 ft. in area; OCCUPIED: cellar, business and storage; 1st story, stores, 35 men, 35 women; 2nd

MINUTES

and 3rd stories, offices and show rooms, 75 men, 75 women, each floor; 4th to 11th stories, inclusive, offices and show rooms, 25 per cent. manufacturing, 75 men, 75 women, each floor; 12th to 15th stories, inclusive, business offices, 75 men, 75 women, each floor; Kohler Company occupying the first story as a display and show room and also occupying a portion of the basement; it is proposed to install in the basement floor space four individual electric lighting units to be operated for demonstration purposes and to consist of a small gasoline engine and motor combined, the units to be located beyond the building line and vault space under the sidewalk; the vacuum tank of these units will not have a greater capacity than one pint of gasoline, and a 25-gallon storage tank will be located beneath the basement floor; the engine is to have a separate exhaust line discharging above the roof of the main building; and

WHEREAS, the appellant contends that the floor space occupied by Kohler Company is practically isolated from the rest of the building and will be used as show room and sales room for plumbing fixtures and that there will be no boiler room or boilers in the building.

Resolved, that the decision of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that the gasoline storage shall be restricted to the operation for demonstration and display use of an illuminating light system and that the gasoline storage shall not exceed twenty-five gallons, maintained in a steel drum, buried below the basement story, and that the individual lighting fixture demonstration shall be restricted to four units, each unit provided with a vacuum tank not to exceed a capacity of one pint; that the room or space wherein the demonstration is maintained shall be enclosed by walls of approved fireproof construction; that the lighting display and demonstration shall be confined to the basement story and installed substantially in accordance with the plans filed in this appeal, drawings marked A and B, and that this modification shall be granted for a temporary period of two years from the date of this action.

BUILDING ZONE CASES

1050-27-BZ.

APPLICANT—William F. Doyle, for S. S. Kresge Co., owner.

SUBJECT—Application (re decision of the superintendent of buildings) under section 21 of the building zone resolution, to permit in a residence district extending from a business district the erection and maintenance of a building occupied in part for business purposes.

PREMISES AFFECTED—2125 86th street, Brooklyn.

APPEARANCES—

For Applicant: William F. Doyle.

For Opposition: T. H. Cheyette and Herman Rosenbloch.

ACTION OF BOARD—Laid over to March 27, 1928, at 2 p. m., on request of applicant.

THE RESOLUTION—

(689-27-BZ)

WHEREAS, Peter M. Coco, for Orlando Vecchione, owner, filed, June 15, 1927, an application, under the building zone resolution, to permit in a business district the erection and maintenance of a gasoline service station; premises Junction of Kissena boulevard and Colden avenue, Flushing, Borough of Queens; and

WHEREAS, a public hearing was held on this application by the board of standards and appeals, at its regular meeting, February 28, 1928, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Kissena boulevard is in a business district, Colden avenue is in a business district and Poplar avenue is in a business district; and

WHEREAS, the decision of the superintendent of buildings, rendered June 3, 1927, reads:

"Plan No. N. B. 8303-27:

"The erection of a building in a business district to be used as a gasoline service station is contrary to the zone law.";

and

WHEREAS, it is proposed to erect an office, bury five 550-gallon storage tanks and erect five pumps for the purpose of conducting a gasoline service station within a business district; and

WHEREAS, the board deemed that applicant failed to substantiate his basis of appeal under section 21 of the building zone resolution on the ground of practical difficulty and unnecessary hardship.

Resolved, that the decision of the superintendent of buildings be and it hereby is *affirmed*, and that the application be and it hereby is *denied*.

105-27-BZ.

WHEREAS, William F. Doyle, for Sobol Brothers, owner, filed, February 1, 1927, an application, under the building zone resolution, to permit in a business district the erection and maintenance of a gasoline service station; premises 301-303 Mulberry street, Borough of Manhattan; and

WHEREAS, a public hearing was held on this application by the board of standards and appeals, at its regular meeting, February 28, 1928, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Mulberry street is in a business district, Lafayette street, east side, is in a business district and Lafayette street, west side, is in an unrestricted district; and

WHEREAS, the decision of the fire commissioner, rendered January 22, 1927 (Ap. No. 153-27), reads:

"1. A gasoline service station may not be permitted in a business district."

and

WHEREAS, the premises consist of a plot of ground having a frontage of 50 ft. on Mulberry street, 49 ft. 6¾ in. on Lafayette street and a maximum depth of 43 ft. 4 in., upon which it is proposed to erect a gasoline service station consisting of a small office and accessories store and also the necessary tanks and pumps for a complete installation; and

WHEREAS, the board deemed that applicant did not substantiate his basis of appeal brought under section 21 of the building zone resolution.

Resolved, that the decision of the fire commissioner be and it hereby is *affirmed*, and the application be and it hereby is *denied*.

906-27-BZ.

APPLICANT—Edward P. Doyle, for Walter J. M. Donovan, owner.

SUBJECT—Application (re decision of the superintendent of buildings) under section 21 of the building zone resolution, to permit in a business district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles (previously withdrawn).

THE RESOLUTION—

(1025-27-BZ)

WHEREAS, Gardiner Conroy, for Oppenheim, Michelson & Zamore Realty Corp., owner, filed, September 19, 1927, an application, under the building zone resolution, to permit in a business district the erection and maintenance of a gasoline service station; premises southwest corner of Avenue U and Bringham street, Borough of Brooklyn; and

WHEREAS, a public hearing was held on this application by the board of standards and appeals, at its regular meeting, February 28, 1928, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Avenue U is in a business district, Bringham street is in a residence district and Gerritson avenue is in a business district; and

WHEREAS, the decision of the superintendent of buildings, rendered July 19, 1927 (Applic. No. 13433-1927), reads:

"Proposition contrary to the Zone Resolution, Art. II, Sec. 4 a, Subdiv. 46.

"The installation of a gasoline service station in a business district.";

and
WHEREAS, the premises consist of an irregular-shaped plot of ground, having a frontage of 62 ft. 87/8 in. on Old Avenue U, 39 ft. 47/8 in. on Bringham street and 74 ft. 1 1/2 in. on New Avenue U, upon which it is proposed to erect a small office, a greasing rack and install the necessary tanks and pumps for a gasoline service station; and

WHEREAS, the board deemed that applicant was entitled to relief under section 21 in view of the irregular shape and size of the plot, which would make it unsuitable for a conforming use; and

WHEREAS, at the public hearing the objectors practically withdrew their objections for the reason that they had been mistaken as to the location for the proposed gasoline station.

Resolved, that the board of standards and appeals does hereby make a variation in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is granted on condition that there shall be erected a one-story building for the use and accommodation of the patrons of the premises; that the building shall be finished on the exterior with glazed, white enamel brick and with vitreous tile roofing; that there shall be no grease racks or service racks maintained or operated on these premises; that there shall be no portable gasoline tanks maintained or operated on these premises; that any advertising display shall be restricted to the illuminated glass lamps of the oil pumps and flat wall signs on the one-story building; that all permits required shall be obtained within sixty days and any work involved shall be completed within one year from the date of this action.

THE RESOLUTION—

(1079-27-BZ)

WHEREAS, William F. Doyle, for Repp Holding Corp., owner, filed, October 5, 1927, an application, under the building zone resolution, to permit in a business district the erection and maintenance of a gasoline service station; premises southeast corner of Utica avenue and Avenue O, Borough of Brooklyn; and

WHEREAS, a public hearing was held on this application by the board of standards and appeals, at its regular meeting, February 28, 1928, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Utica avenue is in a business and unrestricted district, Avenue O is in a residence and unrestricted district and East 51st street is in a residence district; and

WHEREAS, the decision of the fire commissioner, rendered September 30, 1927 (Plan No. 3074-27), reads:

"A gasoline service station may not be permitted in a business district. Appeal may be taken to the Board of Standards and Appeals.";

and

WHEREAS, the premises consist of a plot of ground, 80 ft. by 100 ft., on which it is proposed to erect an office, one story, 20 ft. by 15 ft., bury six 550-gallon gasoline tanks and erect four pumps for the operation of a gasoline service station; and

WHEREAS, the board deemed that applicant was entitled to relief under section 21 in view of the surrounding conditions.

Resolved, that the board of standards and appeals does hereby make a variation in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is granted on condition that this plot shall be enclosed on the abutting property lines with

MINUTES

walls of approved masonry not less than 10 ft. in height, finished with enameled, glazed brick and coped with architectural terra cotta; that there shall be not more than one building erected on the premises not exceeding an area of 15 ft. by 20 ft. for the accommodation of the patrons of the premises; that the exterior of this building shall be finished with light-color enameled brick; that the roof shall be finished with tile of Spanish type or variegated slate; that a concrete curbing not less than 12 in. in height above grade shall be erected along the building line on the street fronts, other than for the driveway accommodations; that there shall be no grease racks or similar mechanical appurtenances erected or operated on these premises, and that all permits required shall be obtained within six months and any work involved shall be completed within one year from the date of this action.

THE RESOLUTION—

(214-27-BZ)

WHEREAS, William F. Doyle, for Irene E. Russik, owner, filed, March 3, 1927, an application, under the building zone resolution, to permit in a business district the erection and maintenance of a gasoline service station; premises southwest corner of Cedar avenue and West Fordham road, Borough of The Bronx; and

WHEREAS, a public hearing was held on this application by the board of standards and appeals, at its regular meeting, June 7, 1927, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that West Fordham road is in a business district, Cedar avenue is in a residence and unrestricted district and Harlem River terrace is in a residence, business and unrestricted district; and

WHEREAS, the decision of the fire commissioner, rendered March 2, 1927 (Alt. No. 485-27), reads:

"1. A gasoline service station may not be permitted in a business district. Appeal may be taken to the Board of Standards and Appeals.";

and

WHEREAS, it is proposed to erect a one-story all-metal office, bury ten 550-gallon storage tanks, erect six pumps, also grease racks for the purpose of conducting a gasoline service station; and

WHEREAS, the board deemed that applicant was entitled to relief under section 21 of the building zone resolution on the ground of practical difficulty and unnecessary hardship; and

WHEREAS, this application was granted by the board at its meeting, May 31, 1927, on certain conditions, and applicant requested a modification of the time limit imposed, and

further requested, February 28, 1928, a modification as to wall to be erected.

Resolved, that the board of standards and appeals does hereby make a variation in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is granted on condition that the premises be entirely enclosed at the rear or southerly property line and on the Cedar avenue frontage at the building line with walls not less than 10 ft. in height, unpierced, or an ornamental iron fence, and that the wall at the street front at the intersection of West Fordham road shall be reduced by a double curved sweep to a height of not less than 5 ft. above grade; that the exterior of the wall on the Cedar avenue front and the exposed surface of the rear, southerly wall shall be finished with tapestry face brick; that the exposed surface of the interior of the enclosing wall shall be finished with enamel brick, wall to be coped with marble, architectural terra cotta or natural stone; that there shall be no advertising of any nature or description displayed on the exterior of the wall; any advertising display to be restricted to the wall surface on the interior of the plot; that any gasoline service operation on these premises shall be conducted within the property lines; that there shall be no portable gasoline tanks maintained or operated on the premises; that any arc lights or electric light standards erected shall be provided with reflectors for the protection from glare of the properties to the south and east; that a return of the drawings shall be made to this board, in accordance with the foregoing stipulations of this resolution, for approval, before submitting same to the superintendent of buildings; that all necessary permits shall be obtained within six months and the work involved completed within one year from the date of this action—December 27, 1927.

AREAS FIXED.

(1043-27-BZ)

The chairman presented and read a communication from Henry G. Harrington, requesting the board to fix the area deemed affected and within which to obtain consents to permit the extension from an unrestricted district into a business district of a garage for more than five motor vehicles; premises 608-616 Union street and 569-577 President street, Borough of Brooklyn.

The following area was approved by the board:

Both sides of Union street and President street, from a point 100 ft. west of Fourth avenue to a point 400 ft. east of the premises in question and, also, both sides of Fourth avenue from a point 100 ft. south of President street to a point 100 ft. north of Union street.

(88-28-BZ)

The chairman presented and read a communication from Thomas B. Connelly, requesting the board to fix the area deemed affected and within which to obtain consents to permit in a business use district the erection and maintenance of a gasoline service station; premises 109-65 to 109-71 Sutphin Boulevard, Jamaica, Borough of Queens.

The following area was approved by the board:

Both sides of Sutphin boulevard from 110th road to a point 400 ft. north of premises in question; both sides of Brinkerhoff avenue from a point 100 ft. east of Sutphin boulevard to a point 400 ft. west of proposed gasoline station.

Adjourned 3.15 p. m.

WILLIAM J. O'GORMAN, Secretary.

THE RESOLUTION—

(1049-27-S)

WHEREAS, John J. Gilmartin, for K. E. and A. K. Morgan, owners, filed, September 26, 1928, a petition for a variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 700 Mott avenue, Borough of The Bronx; and

WHEREAS, the order of the fire commissioner, dated May 18, 1927 (Order No. 21018-LD), reads:

"1. Remove the wood stairs to office northwest end of building as per Section 270 of the Labor Law.";
and

WHEREAS, the building is non-fireproof, two stories (34 ft.) and basement in height at Mott avenue and two stories (41 ft.) in height at Sheridan avenue, the two streets being at different levels; 118 ft. frontage on Mott avenue, 134 ft. on Sheridan avenue and a maximum depth of 172 ft.; OCCUPIED as a laundry: 1st story (on Sheridan avenue), 50 persons; 1st story (on Mott avenue), 100 persons; 2nd story (on Mott avenue), office, 5 persons; EQUIPPED with a sprinkler system; EXITS: two interior fireproof stairways, extending from the first story to roof, enclosed in fireproof partitions with fireproof doors at openings; a four-inch-wide unenclosed wooden stairway, extending from the second story (Mott avenue front) to the first story hallway leading to Mott avenue; and

WHEREAS, petitioner contends that the stairway in question is an accommodation stairway leading to the office; that at its termination on the first story there is a fireproof, self-closing door and that it is protected by sprinkler heads; and

WHEREAS, the order affects an interior stairs opening from the fire-resisting passageway as accommodation use for the office on the second story, exclusive of required means of exit, which are provided in this building.

Resolved, that the board of standards and appeals does hereby make a variation in the requirements of the labor

law, and that the petition be and it hereby is *granted*, only so far as it affects one existing interior stairs, opening into the fire-resisting stair hall, first story, *on condition* that the stairs, sides and soffit shall be protected by the sprinkler system; that a self-closing, fireproof door shall be provided at the termination of the stairs, first story; that the building shall be not increased in height, area or dimension, and that this variation is granted so long as conditions as to occupancy and use remain unchanged.

740-27-S.

PETITIONER—Louis Huethwohl, owner.

SUBJECT—Variation of the labor law as cited in orders of the fire commissioner.

PREMISES AFFECTED—513-515 Flushing avenue, Brooklyn.

APPEARANCES—

For Petitioner: Joseph A. Dodin.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition granted on condition.

THE RESOLUTION—

(740-27-S)

WHEREAS, Louis Huethwohl, owner, filed, June 24, 1927, a petition for a variation from the requirements of the labor law, as cited in orders of the fire commissioner, affecting premises 513-515 Flushing avenue, Borough of Brooklyn; and

WHEREAS, the order of the fire commissioner, dated April 22, 1927 (Order No. 18381-LD), reads:

"1. Provide an additional means of exit from 2nd story as per Rule 8 of the Board of Standards and Appeals adopted February 23rd, 1927.

"Among the defects noted on this fire escape are the following: Windows on course not fireproof, etc. No direct exit to roof. No iron or fireproof ramp from 2nd story over roof to head or balcony of counter balancing stairway.";

and
WHEREAS, the order of the fire commissioner, dated April 22, 1927 (Order No. 18382-LD), reads:

"2. Arrange iron bars on windows on North, East, South and West sides of 1st story so as to be readily movable or removable from both sides in such a manner as to afford the free and unobstructed use of such windows for purposes of egress, as per Section 272 of the Labor Law.";

and
WHEREAS, Order Nos. 18381-LD and 18382-LD were rescinded and new order issued as follows, dated January 11, 1928:

"Order No. 31262-LD:

"1. Provide an additional means of exit from each subdivision on 2nd story remote from interior stairway as per rule 8, of Board of Standards and Appeals, adopted Feb. 23, 1927.";

and
WHEREAS, the building is non-fireproof, two stories in height, 50 ft. by 100 ft. in area, separated into two sections by a fore and aft brick wall; OCCUPIED: 1st story, brass foundry, 3 persons; 2nd story (westerly front), janitor's apartment; (easterly front), manufacture of pants, 15 persons; (westerly rear), manufacture of children's clothing, 13 persons; EXITS: an interior wooden stairway, extending from the first story to second story, enclosed in metal-covered wood partitions with metal-covered wood with wire glass paneled doors at openings; a fire escape balcony on the easterly side of the one-story extension roof at the

MINUTES

northeasterly part of the building with a counterbalanced stairs leading to yard of premises to east, with EGRESS from the termination of the fire escape by means of a covered driveway in building to the east leading from the yard to street; ROOFS of adjoining buildings are at same level; and

WHEREAS, there are iron bars covering windows on the first story in the south, east and west walls of the building; and

WHEREAS, petitioner contends that the barred windows are not necessary as a means of exit and requests the acceptance of the existing fire escape; and

WHEREAS, the petition was filed under variation for Order No. 18381-LD and 18382-LD, which has been superseded by Order No. 31262-LD, and Order No. 18381-LD having been rescinded of record by the fire department; and

WHEREAS, the petitioner withdrew his petition as to Order No. 18382-LD.

Resolved, that the board of standards and appeals does hereby *make a variation* in the requirements of the labor law, and that the petition be and it hereby is *granted*, as to item 1, of Order No. 31262-LD, *on condition* that a party wall iron balcony shall be provided on the Flushing avenue front, second story, embracing not less than three windows on the No. 513 side of the party wall and not less than two windows on the No. 515 side of the party wall, with drop ladder in guides from the balcony to the street; that at least one window from the open workshop at the easterly side of the second story shall be cut down to a door opening on roof of the extension to the north; that iron steps shall be provided to overcome any distance between the floor and roof level; that a doorway shall be provided approximately in the center of the easterly gable wall on the second story from the workshop to the roof of the one-story extension, with egress from the roof of the one-story extension by iron steps to iron balcony with counterbalanced stairs from side balcony to yard level, with exit from the termination at yard level through driveway to adjoining property to east; that affidavit of consent of the adjoining owner for such egress shall be filed with the fire department; that the horizontal opening, second story, between workshop and living quarters, shall be equipped with kalameined, self-closing fireproof door, opening out; that the building shall be not increased in height, area or dimensions, and that this variation is granted so long as conditions as to occupancy and use remain unchanged.

WILLIAM J. O'GORMAN, *Secretary*.

RULES

SMOKING IN FACTORIES.

Adopted by the Board of Standards and Appeals,
August 13, 1918.

RULE 1. PERMIT.

(a) **Prohibition.** No person shall smoke, or carry a lighted cigar or cigarette in any factory as defined in Article 1, Section 2, of the State Labor Law, nor in any portion of a factory, within the City of New York, except in such protected portions or special classes of occupancies as are specified in Rule 2 of these rules, and then only after the issuance of a permit by the fire commissioner.

It shall be the joint and several duty of the owner and of the lessee or lessees of the building containing such factory or factories to cause to be posted in each and every entrance hall, stairhall or room throughout the building, as well as in every elevator-car, in English, and also in such other language or languages as the fire commissioner shall direct, a notice of such prohibition, and the penalty for its violation.

(b) **Application.** Application for such permit shall be made only by the owner of the building on suitable blank forms to be furnished by the fire commissioner.

(c) **Time Limit.** Such permit shall be for a definite period, not exceeding one year, and shall not be renewed upon expiration until a reinspection of the premises for which it is issued has been made for the purpose of determining whether existing conditions warrant a renewal.

(d) **Conditions.** The permit shall state the conditions under which, the hours between which, and the place or places in such factory where smoking may be permitted, and this permit shall be framed and kept posted in a conspicuous place in the factory.

(e) **Revocation.** Violation of any of the conditions specified in the permit, in addition to incurring such penalties as are prescribed by law, shall be full and sufficient cause for the revocation of such permit by the fire commissioner, and he shall not again issue a permit for the same premises until at least one year has elapsed.

RULE 2. PERMISSIBLE CASES.

Smoking may be permitted in:—

(a) Factories engaged in the manufacture of cigars, cigarettes, or smoking tobacco, when necessary for the efficient conduct of the business, provided that:

(1) No smoking other than that for sampling, testing and experimental purposes is carried on.

(2) Such smoking is conducted in a room provided especially for that purpose, separated from the rest of the building by fireproof or fire-resisting partitions, with all openings therein protected by self-closing fire doors, and, further, unless the building is of fireproof construction or equipped with an approved automatic sprinkler system, the floor and ceiling of such room shall be covered with fire-retarding material.

(3) Such chemical fire extinguishers as the fire commissioner may direct are installed.

(4) All waste paper and other inflammable waste materials are deposited in fireproof receptacles.

(b) Factories devoted entirely to one of the following occupancies:

Blacksmithing or horseshoeing;
Boiler making;
Brick, terra cotta or artificial stone works;
Forge shops;
Foundries;
Iron, steel, brass or copper works;
Machine shops;
Smelting;
Stone or monumental works;

provided that in any case:

(1) The building is not of wooden construction;

(2) Such chemical fire extinguishers as the fire commissioner may direct are installed;

(3) All waste paper and other inflammable waste materials are deposited in fireproof receptacles.

CONCRETE RULES

USE OF HYDRATED LIME IN CONCRETE.

Adopted by the Board of Standards and Appeals, April 19, 1920, under Cal. No. 153-20-S.

The use of hydrated lime in all classes of concrete construction shall not be prohibited when used in accordance with the conditions hereinafter set forth.

The hydrated lime shall conform with the standard specifications for this material which have been adopted by the American Society for Testing Materials.

The maximum amount of hydrated lime which may be used shall conform with the following table, all weights given being the amount of lime which may be incorporated for each ninety-five pound bag of Portland cement.

1-1½-3 Mix, 4 pounds of hydrated lime per bag of cement.

1-2-4 Mix, 5 pounds of hydrated lime per bag of cement.

1-2½-5 Mix, 6 pounds of hydrated lime per bag of cement.

For hand mixed concrete, the hydrated lime and Portland cement shall be well mixed while dry.

Hydrated lime shall not be used in concrete which is to be deposited under water.

WARNING

Notice is hereby given to all petitioners, appellants and applicants, and to all lawyers, architects and engineers representing owners or lessees in proceedings before the board—

First, That if they do not appear in person or by representative at the hearing on their case, dismissal for lack of prosecution is likely to result.

Second, That due and ample notice of the date set for hearing is provided in the publication in this BULLETIN of the calendars of the board, each case being set down by Calendar Number and premises under the date of the hearing.

Third, That no plea of ignorance of the date of the hearing can be entertained in view of this publication and of the posting of the calendars on the bulletin board in the

offices of the board and of the further publication of the calendars in the daily press.

Fourth, That no one is entitled, to written notice of the date for the hearing in his case, and that the plea of failure to receive such notice is no excuse for neglect to appear.

Fifth, That the business of the board is to dispose of all cases promptly, for the reason that the pendency of an appeal or petition ties the hands of the administrative official in enforcing his order; therefore, no appeal or petition will be allowed to be hung up by reason of failure of the appellant or petitioner to file necessary data, or by any other method of delay.

Sixth, That no appeal, application or petition will be accepted for filing unless, at the time of filing, all papers, plans and data required by law are supplied, as specified on the blank appeal, application or petition forms.

Any person desiring to consult the chairman or the engineers, pertaining to the work of the board, will be seen only between the hours of ten in the morning and one in the afternoon—Saturdays excepted.

CALL OF CLERK'S CALENDAR

The *Clerk's Calendar* consists of applications under the Building Zone Resolution, and its object is to give interested property owners opportunity to file objections, if any, and will be called in Room 1013, Tuesday, March 13, 1928, at 2 o'clock. At this call each case is set for hearing on a definite day.

The next subsequent Call of the Calendar will be on Tuesday, March 20, 1928, at 2 o'clock.

The *Clerk's Calendar* is not to be confused with the calendar of cases that have been definitely set for hearing on fixed days.

NOTICE TO APPELLANTS AND PETITIONERS

No appeal, application or petition will be entertained in connection with which court proceedings are pending or in progress, nor accepted that are not filed within twenty days from the date of the action of the Administrative Official.

Any communication purporting to be an appeal, application or petition shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this board.

Upon receipt of any such communication the writer will be supplied with the official forms for presenting his appeal, application or petition, and if he fails to supply the data required thereon, within twenty days, his case may be dismissed for lack of prosecution.

At the time of filing an application, the appellant or petitioner shall forward a signed notice of appeal addressed to the administrative official (either superintendent of buildings or fire commissioner) and file with this board a duplicate of said notice.

Petitioners are advised that their plans must indicate the points of the compass so as to establish the true location and position of the property, the subject of the appeal.

Appeals, applications and petitions will be simplified and disposition of same expedited by conforming to these directions.

WILLIAM E. WALSH, Chairman.

THE RESOLUTION—

(1110-27-A)

WHEREAS, Holland Laundry, Inc., owner, filed, October 13, 1927, an appeal from an order of the fire commissioner, affecting premises 225-235 25th street, Borough of Brooklyn; and

WHEREAS, the order of the fire commissioner, dated August 9, 1927 (Order No. 25288-F), reads:

"1. Install a standpipe system with risers 4 inches in diameter tested to withstand a pressure of 300 lbs. per square inch, extending from cellar to roof, with necessary check valves and 2½ inch regulation Fire Department outlets on each story (including basements, cellars and roofs), placed within main stairway enclosure."

and

WHEREAS, the building is fireproof, one, two and three stories in height, 145 ft. frontage on 25th street, extending 200 ft. through the block, with 41 ft. 6 in. frontage on

24th street, about 18,000 sq. ft. in area at first story, 13,850 sq. ft. at second story and 9,700 sq. ft. at third story; OCCUPIED as a laundry: cellar, engine room, 3 persons; 1st story, garage and wash room, 40 persons; 2nd story, ironing, 110 persons; 3rd story, wash room and ironing, 80 persons; and

WHEREAS, the appellant claims that the maximum floor area is 14,500 sq. ft.; that the building is equipped with an automatic sprinkler system and a fire alarm system; that a number of portable fire extinguishers are distributed throughout the building; furthermore, the appellant contends that the business carried on is not a hazardous occupancy in that water is used on most of the floors; and

WHEREAS, the building is of reinforced concrete construction and subdivided substantially into three parts, no single area of which exceeds 10,000 sq. ft.

Resolved, that the order of the fire commissioner be and it hereby is modified, and the appeal be and it hereby is granted on condition that the existing sprinkler system shall be maintained and that the building shall not be increased in height, area or dimension, and granted only as long as the present occupancy and operation remain substantially unchanged.

1117-27-A.

APPELLANT—Croker Nat'l. Fire Prev. Eng. Co., for Greenlash Operating Co., owner.

SUBJECT—Appeal from order of the fire commissioner.

PREMISES AFFECTED—25 Forrest street, Brooklyn.

APPEARANCES—

For Appellant: Herman E. Horwood.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Walsh, Commissioners

Connell, Holland and Guilfoyle.....

Negative 0

Absent: Chief Kenlon..... 1

THE RESOLUTION—

(1117-27-A)

WHEREAS, Croker National Fire Prevention Engineering Co., for Greenlash Operating Co., owner, filed, October 1, 1927, an appeal from an order of the fire commissioner affecting premises 25 Forrest street, Borough of Brooklyn; and

WHEREAS, the order of the fire commissioner, dated April 21, 1927 (Order No. 18238-F), reads:

"1. Provide iron shutters at all openings in the exterior wall above 1st story which are distant in a direct line less than 30' from any opening in any other building and not in the same plane with said opening, and which are not more than 50' above a neighboring roof at north, west and east sides of building, or other approved protection. Sec. 375, Article 18, Ch. 5, the Code of Ordinances."

and

WHEREAS, the building is fireproof, three stories in height, 75 ft. by 100 ft. in area; OCCUPIED: 1st story, manufacture of steel hospital equipment, 35 persons; 2nd story, packing, 10 persons; 3rd story, manufacture of paper boxes, 33 persons; and

WHEREAS, the appellant has filed drawings showing ten windows at each of the second and third stories on west side; four windows at each of the second and third stories on north side, and eight windows at second story and five windows at third story on the east side affected by the order; and

WHEREAS, the appellant claims that the openings affected on the north side are pivoted sash windows and it would be impossible to provide shutters on these windows; that there is an existing fire escape on the east side and

MINUTES

openings on the course of this fire escape will be made fireproof and self-closing; furthermore, the appellant contends that none of the openings involved occur on the course of an interior stairway or shaft.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted*, only so far as it affects the windows not on the course of fire escapes, stair halls, corridors or open shafts, on condition that the building shall not be increased in height, area or dimension and that the occupancy and operation of the premises remain substantially unchanged.

68-27-A.

APPELLANT—Rees & Rees, owner.

SUBJECT—Appeal from order of the fire commissioner.

PREMISES AFFECTED—232-236 East 40th street, Manhattan.

APPEARANCES—

For Appellant: William H. Hicken.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Walsh, Commissioners

Connell, Holland and Guilfoyle and Chief

Kenlon 5

Negative 0

Absent 0

THE RESOLUTION—

(768-27-A)

WHEREAS, Rees & Rees, owners, filed, July 2, 1927, an appeal from an order of the fire commissioner, affecting premises 232-236 East 40th street, Borough of Manhattan; and

WHEREAS, the order of the fire commissioner, dated October 29, 1926 (Order No. 2929-F), reads:

"1. Provide iron shutters at all openings in the exterior wall above 1st story which are distant in a direct line less than 30' from any opening in any other building and not in the same plane with said openings and which are not more than 50' above a neighboring roof at east, west and south sides of building, or other approved protection, as per Sec. 375, Art. 18, Ch. 5, of the Code of Ordinances.";

and

WHEREAS, the building is non-fireproof, two, four and six stories in height, 56 ft. 8 in. by 135 ft. 9 in. in area; OCCUPIED: cellar, engine room and dye house, 8 persons; 1st story, shipping and a wet wash room, 10 persons; 2nd story, office and stock room, 30 persons; 3rd story, curtain framing, 30 persons; 4th story, curtain finishing, 40 persons; 5th story, blanket finishing, 10 persons; 6th story, garment finishing, 65 persons; and

WHEREAS, the appellant has filed plans showing seventeen windows at each of the third and fourth stories, also twenty windows at each of the fifth and sixth stories on the east side, nine windows at the sixth story on the south side and eight windows on each of the second to sixth stories, inclusive, on the west side, which are affected by the order; and

WHEREAS, the appellant claims that many of the windows are more than 30 ft. away from adjoining buildings where the measurement is taken diagonally from the window to the roof of adjoining building; furthermore, the appellant contends that similar orders were filed in 1918, the windows were made fireproof in a satisfactory manner to the fire commissioner and the orders dismissed in 1920.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that all openings on the rear wall shall be equipped with self-closing, fireproof windows and that the southerly windows in the easterly gable wall shall be equipped with self-closing, fireproof frames and sash,

and granted only as long as conditions as to existing adjoining exposures remain substantially unchanged.

1070-27-A.

APPELLANT—Standard Oil Company of New York, owner.

SUBJECT—Appeal from order of the fire commissioner.

PREMISES AFFECTED—West side of West avenue, from 8th to 10th streets, Long Island City, Borough of Queens.

APPEARANCES—

For Appellant: Percy J. King and William H. Zabriskie.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Walsh, Commissioners

Connell, Holland and Guilfoyle and Chief

Kenlon 5

THE RESOLUTION—

(1070-27-A)

WHEREAS, Standard Oil Company of New York, owner, filed, October 3, 1927, an appeal from an order of the fire commissioner, affecting premises west side of West avenue, from 8th to 10th streets, Long Island City, Borough of Queens; and

WHEREAS, the order of the fire commissioner, dated September 14, 1928 (Order No. 26051-F), reads:

"1. Provide an adequate source of water supply for standpipe system in accordance with the rules of the Board of Standards and Appeals.";

and

WHEREAS, the premises consist of a plot of ground (having an area of approximately 35,000 sq. ft.) situated on the west side of West street, between 8th street and 10th street, and running west to the East River, upon which is located a plant of the Standard Oil Company consisting of open yards, a fireproof two-story can shop and addition, 476 ft. by 145 ft. (approximately 69,000 sq. ft.) in area, divided into two sections by a cross wall; a fireproof three-story box shop, 312 ft. 4 in. by 144 ft. 7 in. (approximately 45,000 sq. ft.) in area; and

WHEREAS, appellant contends that the standpipe system consists of a 12-inch line from pumps to can shops reducing to an 8-inch line with 6-inch branches through the floor of can shop and first floor of box shop with 4-inch risers, and 2½-inch outlets with 50 ft. of hose at each outlet on each story of both buildings; also a 12-inch, reducing to 8-inch line in yard for fire hydrants; the source of supply being salt water supplied to the system from an 18-inch suction line from the East River and an 18-inch suction line from Standard Canal, both lines running to a pump house equipped with two Duplex 18 inch by 14 inch by 24 inch steam pumps, each having a capacity of 1,900 G.P.M. at 90 pounds pressure; one of these pumps is always operating, maintaining a 60 pound pressure on the lines; water is supplied to the system, also, by fire boat connections at the East River; and

WHEREAS, the premises are now supplied for auxiliary fire protective service from the East River.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that the existing fire fighting water supply equipment shall be maintained in good working order under the supervision of a licensed engineer at all times throughout the day and night.

1116-27-A.

APPELLANT—Crocker Nat'l. Fire Prev. Eng. Co., for Greenlash Operating Co., owner.

SUBJECT—Appeal from orders of the fire commissioner.

MINUTES

PREMISES AFFECTED—13-17 Forrest street, Brooklyn. APPEARANCES—

For Appellant: Herman E. Horwood.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Appeal granted on condition. THE VOTE—

Affirmative: Chairman Walsh, Commissioners

Connell, Holland and Guilfoyle..... 4

Negative 0

Absent: Chief Kenlon..... 1

THE RESOLUTION—

(1116-27-A)

WHEREAS, Croker National Fire Prevention Engineering Co., for Greenlash Operating Co., filed, October 17, 1927, an appeal from orders of the fire commissioner, affecting premises 13-17 Forrest street, Borough of Brooklyn; and

WHEREAS, the orders of the fire commissioner, dated April 14, 1927, read:

"Order No. 16918-F:

"1. Install a standpipe system with risers 4 inches in diameter tested to withstand a pressure of 300 lbs. per square inch, extending from cellar to roof, with necessary check valves and 2½" regulation Fire Department outlets on each story (including basements, cellars and roofs), placed within main stairway enclosure.";

and

"Order No. 16919-F:

"1. Provide iron shutters at all openings in the exterior wall above 1st story which are distant in a direct line less than 30' from any opening in any other building and not in the same plane with said openings and which are not more than 50' above a neighboring roof at east and west sides of building, or other approved protection, as per Sec. 375, Art. 18, Ch. 5, Code of Ordinances.";

and

WHEREAS, the building is non-fireproof, six stories and tower (115 ft. 10 in.) in height, 82 ft. by 126 ft., about 10,000 sq. ft. in area at first story; 5,986 sq. ft. at second and third stories; 4,306 sq. ft. at fourth, fifth and sixth stories, and 990 sq. ft. in area above; OCCUPIED as a garage, also for the storage of theatrical properties and scenery, 5 persons throughout the building; and

WHEREAS, the appellant claims, as to Order No. 16918-F, that the maximum floor area is approximately 9,300 sq. ft.; that the building was erected in 1880, the main portion being only 82 ft. 10 in. in height; that the order was issued solely on account of the tower, which covers less than 10 per cent. of the total area; as to Order No. 16919-F, that there are five openings at each of the second, third, fourth, fifth and sixth stories on the north side of the building, six openings at the fifth story, four openings at the sixth story and two openings at the seventh story on the east side; five small toilet windows and a door opening on the west side of the building affected by the order; that the adjoining buildings at east and west causing the exposures are fireproof; and

WHEREAS, the appellant contends that under the existing conditions a strict compliance with the orders would be a great hardship upon the owner; furthermore, the appellant proposes to provide a fireproof door in place of the wooden door at third story, west side, leading to roof of adjoining fireproof building; and

WHEREAS, the order is issued on the application of the requirement for standpipe based on the height of the building; and

WHEREAS, the main building is 83 ft. in height, with a tower, the square area of which is less than 10 per cent. of the entire plot.

Resolved, that the order of the fire commissioner be and it hereby is modified, and the appeal be and it hereby is granted, as to Order No. 16918-F, on condition that the

building shall not be increased in height, area or dimension; that the tower portion of the structure above main roof shall be maintained vacant, and that such auxiliary fire extinguishing appliances, as shall be directed by the fire commissioner, shall be installed and maintained, and denied as to Order No. 16919-F.

THE RESOLUTION—

(523-27-BZ)

WHEREAS, Peter M. Coco, for Isidore Zuckerman, owner, filed, May 11, 1927, an application, under the building zone resolution, to permit in a business district the erection and maintenance of a gasoline service station; premises easterly junction of 46th road, 189th street and Hollis Court, Flushing, Borough of Queens; and

WHEREAS, a public hearing was held on this application by the board of standards and appeals, at its regular meeting, March 6, 1928, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that 46th road is in a residence district, 189th street is in a residence district and Hollis Court boulevard is in a business district; and

WHEREAS, the decision of the superintendent of buildings, rendered April 12, 1927 (N. B. 4803-1927), reads:

"The erection of a gasoline station in a business district is prohibited by the zone law.";

and

WHEREAS, it is proposed to erect an office, bury six 550-gallon tanks and erect six pumps for the purpose of conducting a gasoline service station within a business district; and

WHEREAS, the board deemed that applicant was not entitled to relief under section 21 of the building zone resolution on the ground of practical difficulty and unnecessary hardship.

Resolved, that the decision of the superintendent of buildings be and it hereby is *affirmed*, and that the application be and it hereby is *denied*.

THE RESOLUTION—

(1003-27-BZ)

WHEREAS, Bennett & Koepfel, for J. W. Sands Realty Corp., owner, filed, September 12, 1927, an application, under the building zone resolution, to permit in a residence district, extending from a business district, the erection and maintenance of an apartment house with store occupancy on the first story; premises 6913-6921 Fourth avenue, Borough of Brooklyn; and

WHEREAS, a public hearing was held on this application by the board of standards and appeals, at its regular meeting, March 6, 1928, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Fourth avenue is in a residence district, Ovington avenue is in a residence district and Bay Ridge avenue is in a business district; and

WHEREAS, the decision of the superintendent of buildings, rendered August 27, 1927 (Applic. No. 15867-27), reads:

"1. Construction of stores within a residential district is contrary to Building Zone Resolution, Art. II, Section 3.";

and

WHEREAS, the proposed building is to be of non-fireproof construction, six stories in height, with a frontage of 77 ft. $1\frac{1}{2}$ in. and a depth of 141 ft. 1 in. (average); to be occupied as a tenement with stores on the first story and a portion of the structure being in the business district: and

MINUTES

WHEREAS, the board deemed that it was justified in exercising its discretion under section 7c; and

WHEREAS, the board deemed that the applicant was entitled to relief under section 21 in view of the abutting and surrounding conditions.

Resolved, that the board of standards and appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted*, only so far as it affects the street front on first story, *on condition* that this business use shall be incorporated in conjunction with the erection of a six-story apartment house and that the store use shall be restricted to retail mercantile use and occupancy; that the stores shall be separated from the apartment house by walls of approved masonry; that no store shall exceed a depth of 53 ft. from building line; that the southerly gable wall of the store shall be unpierced throughout its entire height and length; that any advertising displayed on this business use shall be restricted to the plate glass show windows of store front, and that the remainder of the premises shall be developed and maintained throughout for conforming residential use, and that any permits required shall be obtained within nine months and any work involved shall be completed within one year from the date of this action.

THE RESOLUTION—

(282-27-BZ)

WHEREAS, Philip J. Sinnott, substituted for William F. Doyle, for Wezco Realty Co., owner, filed, March 17, 1927, restored to calendar January 17, 1928, an application, under the building zone resolution, to permit in a business district the alteration and extension of an existing garage for the storage of more than five (5) motor vehicles and the installation of a gasoline service station (previously withdrawn); premises 200-208 East 111th street and 2013-2025 Third avenue, Borough of Manhattan; and

WHEREAS, a public hearing was held on this application by the board of standards and appeals, at its regular meeting, March 6, 1928, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Third avenue is in a business district and East 111th street is in a business district; and

WHEREAS, the decision of the fire commissioner, rendered January 16, 1927 (re Plan No. 455-1927), reads:

"1. A gasoline service station and a garage extension may not be permitted in a business district."; — and

WHEREAS, under Cal. No. 1478-23-BZ the board granted permission to erect the existing building upon this site; the building to be fireproof, two stories and cellar in height, 100 ft. by 100 ft. 11 in. in area; the Third avenue front of

the building for a depth of 25 ft. to be maintained as stores and separated from the garage by an unpierced fireproof wall; there being show rooms on the second story at the Third avenue front; it is proposed to remove the partition wall on the second story and four of the stores on the first story; to provide an exit from the garage to Third avenue and to occupy the northwest corner of the first story as a gasoline service station and the remainder of the building as a garage for the storage of more than five motor vehicles; and

WHEREAS, at the public hearing it was recorded that three of the objectors withdrew their objections, claiming their objection was due to a misunderstanding of the application; and

WHEREAS, the board deemed that applicant was entitled to relief under section 21 on the ground of hardship and also as a public service requirement.

Resolved, that the board of standards and appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted on condition* that the corner formed by the intersection of 111th street and Third avenue of this premises, not exceeding a depth of 35 ft. on 111th street and 50 ft. on Third avenue, shall be used for public gasoline service station supply; that there shall be built on the building line a concrete curbing not less than 12 inches in height, other than the driveway for service of the cars; that there shall be no portable gasoline tank operated or maintained on these premises; that the gasoline service supply shall be maintained and operated solely within the property; that there shall be one driveway from Third avenue and one exit to 111th street from this station; that there shall be no grease racks or crankcase service racks maintained or operated within this gasoline service station, and that any permits required shall be obtained within six months and any work involved shall be completed within one year from the date of this action.

THE RESOLUTION—

(1051-27-BZ)

WHEREAS, William F. Doyle, for Rutland Parkway, Inc., owner, filed, September 26, 1927, an application, under the building zone resolution, to permit in a business district the erection and maintenance of a gasoline service station; premises 724-740 Ralph avenue, Borough of Brooklyn; and

WHEREAS, a public hearing was held on this application by the board of standards and appeals, at its regular meeting, March 6, 1928, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Ralph avenue, East 98th street and Sutter avenue are in business districts; and

WHEREAS, the decision of the superintendent of buildings, rendered September 6, 1927 (re App. No. 16043-1927), reads:

"Proposition contrary to the Zone Resolution, Art. 2, Sec. 4-a, subdivision 46.

"The installation of a gasoline service station in a business district.";

and

WHEREAS, it is proposed to erect an office, bury eight

550-gallon tanks and erect eight pumps for the purpose of conducting a gasoline service station within a business district; and

WHEREAS, the plot forms a triangular block at the intersection of five streets; and

WHEREAS, the board is of the opinion that this will serve as a public requirement for motor vehicles' fuel service; and

WHEREAS, the board believes this variation a proper adjustment of the zoning resolution within the provision of section 21.

Resolved, that the board of standards and appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted on condition* that there shall be but one building, not exceeding an area of 15 ft. by 20 ft., located substantially in the center of the plot used for the accommodation of the patrons and office of the premises; that the exterior of this building shall be finished with light color enamel brick; that the roof shall be finished with roofing tile of Spanish type or variegated slate; that the operation of gasoline service supply shall be conducted from the interior of the plot only; that there shall be a concrete curbing not less than 18 inches in height, installed at the building line on both street fronts, other than the space required for vehicular entrance and exit; that there shall be no grease racks or service crankcase equipment installed or operated on the premises; that any advertising displayed shall be confined to the glass globes of the gasoline oil pumps, and that any permits required shall be obtained within six months and any work involved thereby shall be completed within one year from the date of this action.

THE RESOLUTION—

(984-27-BZ)

WHEREAS, Philip J. Sinnott, for T. & R. Construction Co., owner, filed, September 7, 1927, an application, under the building zone resolution, to permit in a business district the erection and maintenance of a garage for the storage of more than five motor vehicles; premises southwest corner of West 167th street and Sedgwick avenue, Borough of The Bronx; and

WHEREAS, a public hearing was held on this application by the board of standards and appeals, at its regular meeting, March 6, 1928, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Sedgwick avenue is in a business district, West 167th street, west of a point 100 ft. west of Sedgwick avenue, is in an unrestricted district and West 167th street, east of Sedgwick avenue, is in a business district; and

WHEREAS, the decision of the superintendent of buildings,

MINUTES

rendered August 30, 1927 (re N. B. App. 1876-1927), reads:

"Proposed garage for more than five motor vehicles in business district contrary to Zoning Resolution.";

and

WHEREAS, the proposed building is to be of non-fireproof construction, two stories in height, with a frontage of 150 ft. on Sedgwick avenue and 102 ft. 1¼ in. on West 167th street; to be occupied as a garage for the storage of more than five motor vehicles; and

WHEREAS, at the public hearing the objector stated that he would withdraw his objection to the application if the garage building erected on the site would be of attractive architectural design, limited to storage of pleasure car vehicles, and that the premises be restricted from outside filling stations and limited as to signs; and

WHEREAS, the board deemed that applicant substantiated his basis of appeal under section 7e and was entitled to relief under section 21.

Resolved, that the board of standards and appeals does hereby make a variation in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is granted on condition that the building shall not exceed in height two stories above grade, constructed fireproof throughout; that the street elevations shall be of attractive architectural design, finished with architectural terra cotta throughout or two-tone finished face brick with cut-stone architrave coping and window trim; that any upward ramps to the second story shall start at the first story not less than 10 ft. inside the building line; that there shall be no roof signs erected or maintained; that any advertising on the front of the building shall be restricted to one electric projecting sign, indicating the name and title of business conducted on premises; that no portable gasoline tanks shall be operated outside the building; that the use and conduct of this garage shall be restricted to the storage, operation and maintenance of automobiles of the pleasure-car type; that the architect shall make a return of the proposed design to this board, in accordance with the foregoing resolution, for approval before submission to the superintendent of buildings, and that all permits required shall be obtained within nine months and any work involved thereby shall be completed within eighteen months from the date of this action.

962-26-BZ.

APPLICANT—McCooley & Conroy, substituted for James A. Higgins, for Rodman Building Corp., owner.

SUBJECT—Application for reopening—amendment of resolution and extension of time in which to procure permits and complete work—re application filed November 23, 1926 (decision of superintendent of buildings) under section 21 of the building zone resolution, to permit in a residence district the erection and maintenance of an apartment house with stores on the first story.

THE RESOLUTION—

(962-26-BZ)

WHEREAS, McCooley & Conroy, substituted for James A. Higgins, for Rodman Building Corp., owner, filed, November

23, 1926, an application, under the building zone resolution, to permit in a residence district the erection and maintenance of an apartment house with stores on the first story; premises 8504-8510 21st avenue, Borough of Brooklyn; and

WHEREAS, a public hearing was held on this application by the board of standards and appeals, at its regular meeting, April 12, 1927, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that 85th street is in a residence district, 86th street is in a business district and 21st avenue is in a residence district; and

WHEREAS, the decision of the superintendent of buildings, rendered November 6, 1926 (Applic. No. 20801-1926), reads:

"Proposition contrary to the Zone Resolution, Art.

II, Section 3.

"The erection of stores in a residential district.";

and

WHEREAS, the proposed building is to be of non-fireproof construction, three stories in height, with a frontage of 100 ft. on 21st avenue and 100 ft. on 85th street; to be occupied as dwellings with stores on the first story; and

WHEREAS, this application was granted by the board at its meeting on certain conditions and applicant requested an amendment of these conditions; and

WHEREAS, the board deemed that applicant substantiated his basis of appeal under section 21 in that property under appeal is contiguous to existing business structure and occupancy, and applicant therefore is entitled to relief; and

WHEREAS, this application was granted by the board at its meeting, April 12, 1927, on certain conditions, and applicant requests an extension of time.

Resolved, that the board of standards and appeals does hereby make a variation in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is granted on condition that the business use shall be restricted to the 21st avenue frontage of the first story; that there shall be no show window return or display on the 85th street front; that the 85th street front throughout shall be finished with face brick and architectural terra cotta and with architectural treatment of openings of attractive design; that the brick wall of 85th street frontage shall be returned on the 21st avenue front for a distance of not less than 16 in.; that any advertising signs or display shall be restricted to the plate glass show windows of the store fronts only; that there shall be no advertising of any nature or description or signs permitted or erected on the 85th street front of the structure; that a return of proposed elevation shall be submitted to this board for approval before submission to the superintendent of buildings for consideration; that the use and occupancy shall be restricted to retail mercantile business that no portion of the premises shall be rented, leased or conducted as a delicatessen store, meat market or fish store that no produce or mercantile wares shall be exposed on the outside of the building, and that all permits required shall be obtained within six months and any work involved shall be completed within one year from January 31, 1928, and that the building otherwise shall be constructed in accordance with the building zone resolution in all other respects

APPROVAL OF PLANS

978-26-BZ.

APPLICANT—William F. Doyle, for Mission Construction Co., Inc., owner (Thomas F. Martin, previous owner).

SUBJECT—Application for approval of plans, in accordance with resolution adopted November 15, 1927.

PREMISES AFFECTED—309-319 Second street, Brooklyn.

APPEARANCES—None.

ACTION OF BOARD—Chairman read engineer's report. Plans approved as in substantial compliance with resolution.

AREAS FIXED.

(1336-27-BZ)

The chairman presented and read a communication from Henry G. Harrington, requesting the board to fix the area deemed affected and within which to obtain consents for the erection and maintenance of a gasoline service station; premises 1785-1789 Bushwick avenue and 51-59 Jamaica avenue, Borough of Brooklyn.

The following area was approved by the board:

Both sides of Bushwick avenue from Jamaica avenue to Fanchon place; the east side of Pellington place from Bushwick avenue to a point 150 ft. north of

Bushwick avenue; both sides of Jamaica avenue from Sheffield avenue to a point 400 ft. east of premises in question (not including the unrestricted area).

(165-28-BZ)

The chairman presented and read a communication from Philip Freshman, requesting the board to fix the area deemed affected and within which to obtain consents for the erection and maintenance of a garage for more than five motor vehicles; premises 1535-1547 Gravesend avenue, Borough of Brooklyn.

The following area was approved by the board:

Both sides of Gravesend avenue from Avenue M to Avenue N; also the premises at rear for a distance of 50 ft. on either side of the side lot lines of the premises in question.

Adjourned 1.15 p. m.

WILLIAM J. O'GORMAN, *Secretary*.

Absent: Chief Kenlon.....	1

THE RESOLUTION—

(1064-27-S)

WHEREAS, William I. Hohauser, Inc., for Zenobie De Velny, filed, October 10, 1927, a petition for a variation from the requirements of the labor law, as cited in a decision of the superintendent of buildings, affecting premises 242 West 27th street, Borough of Manhattan; and

WHEREAS, the decision of the superintendent of buildings, dated August 17, 1927, reads:

"10. Windows must comply with Section 264 of Labor Law and Rule 503 of Industrial Code.";

and

WHEREAS, the building is fireproof, seven stories in height, 24 ft. 10½ in. by 98 ft. 9½ in. in area at first story and 24 ft. 10½ in. by 88 ft. 9 in. in area above; OCCUPIED: 1st story, store; upper stories, offices, show rooms and tenant factories, 28 persons per story; EQUIPPED with a sprinkler system; EXITS: two interior fireproof stairways, extending from the first story to roof, enclosed in fireproof partitions with fireproof doors at openings; and

WHEREAS, there are openings in the street wall of the building on the first, second and third stories, glazed with ¼ in. thick plate glass; the maximum area of the glass on the first story being 5 ft. 6 in. by 8 ft. 6 in. and on the second and third stories 5 ft. by 7 ft.; and

WHEREAS, petitioner contends that a strict compliance with the labor law as to the area of the glass would destroy the intended use of the three lower stories.

Resolved, that the board of standards and appeals does hereby make a variation in the requirements of the labor law, and that the petition be and it hereby is granted, only as far as it affects the windows of the three lower stories on the street front, on condition that all openings shall be equipped with approved metal frames and sash and glazed with ¼ in. polished plate glass, and that the requirements of the labor law shall be complied with in all respects.

1097-27-S.

PETITIONER—Samuel Rosenblum, for Colmet Realty Co., owner.

SUBJECT—Variation of the labor law as cited in order of the fire commissioner.

PREMISES AFFECTED—Southeast corner of Harris avenue and William street, Long Island City, Borough of Queens.

APPEARANCES—

For Petitioner: Samuel Rosenblum.

For Administration: Inspector Maher of fire department.

THE RESOLUTION—

(1097-27-S)

WHEREAS, Samuel Rosenblum, for Colmet Realty Co., owner, filed, October 10, 1927, a petition for a variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises southeast corner of Harris avenue and William street, Long Island City, Borough of Queens; and

WHEREAS, the order of the fire commissioner, dated June 29, 1927 (Order No. 23892-LD), reads:

"1. Provide 4" of fireproof material on ceiling of stair enclosure on east and west sides of building, 2nd story, as per Section 270 of the Labor Law.";

and

WHEREAS, the building is non-fireproof, two stories in height, 200 ft. by 100 ft. in area; OCCUPIED: 1st story, metal stamping, 60 persons; 2nd story, manufacture of leather goods, 80 persons; EQUIPPED with a sprinkler system and a standpipe system; EXITS: three interior steel cement tread stairways; the Harrison avenue stairway extending from the first story to roof, enclosed in 8-inch brick partitions with fireproof doors at openings; the stairways at the east and west sides of the building extend from the first to second story, enclosed in 6-inch terra cotta partitions with fireproof doors at openings; and

WHEREAS, petitioner contends that entire building, in-

MINUTES

cluding the ceilings of the stair halls on the second story, is protected by an automatic sprinkler system and requests the acceptance of the existing conditions; and

WHEREAS, there is a certificate of occupancy in force issued by the bureau of buildings for factory use and occupancy.

Resolved, that the board of standards and appeals does hereby *make a variation* in the requirements of the labor law, and that the petition be and it hereby is *granted on condition* that there shall be installed in the roof of each stair hall an automatic skylight, not less than 12 sq. ft. in area; that the requirements of the labor law shall be complied with in all other respects, and that the building shall not be increased in height, area or dimension.

1120-27-S.

PETITIONER—John Mara, for City of New York, owner.
SUBJECT—Variation of the labor law as cited in decision of the superintendent of buildings.

PREMISES AFFECTED—278-290 Avenue C and 701-729 East 16th street, Manhattan.

APPEARANCES—

For Petitioner: Fred McDuffe.

ACTION OF BOARD—Petition granted on condition.

THE VOTE—

Affirmative: Chairman Walsh, Commissioners Connell, Holland and Guilfoyle and Deputy Chief Martin	5

THE RESOLUTION—

(1120-27-S)

WHEREAS, John Mara, for City of New York, owner, filed, October 18, 1927, a petition for a variation from the requirements of the labor law, as cited in a decision of the superintendent of buildings, affecting premises 278-290 Avenue C and 701-729 East 16th street, Borough of Manhattan; and

WHEREAS, the decision of the superintendent of buildings, dated September 15, 1927, reads:

"Before Certificate of Occupancy can be issued on the above premises it will be necessary to remove the following objections:

"3. Wood block floor finish 4th floor south side.";

and

WHEREAS, the building is fireproof, ten stories in height, 173 ft. 7 in. by 346 ft. 3 in. in area; OCCUPIED: 1st story, shipping; 2nd story, dead storage garage; 3rd story, stock room; 4th story, machine shop; 5th and 6th stories, automobile body repair shop; 7th story, kitchen and lecture hall; 8th story, battery repair shop; 9th story, pattern shop; 10th story, finishing rooms; 200 persons on each story; EQUIPPED with a sprinkler system; EXITS: three interior steel stairways, extending from the first story to roof, enclosed in fireproof partitions with fireproof doors at openings; and

WHEREAS, the petitioner claims that the building is equipped with a standpipe system in addition to the sprinkler system; that the floor of the fourth story, south side, is composed of 3-inch slow-burning wood paving blocks; furthermore, the petitioner contends that the flooring is intended to protect falling tools from injury and to increase the efficiency of the mechanics by protecting their feet from the concrete floor.

Resolved, that the board of standards and appeals does hereby *make a variation* in the requirements of the labor law, and that the petition be and it hereby is *granted*, only as far as it affects the space located in the southeast corner of the fourth floor, *on condition* that the block flooring of edge grain, not less than three inches in depth, shall be laid tight on cement grout, and that the building shall be equipped throughout with an approved two-source wet sprinkler system and an approved standpipe system, and granted only as long as the building remains in single operation and ownership.

891-27-S.

PETITIONER—John J. Gilmartin, for Crompton Building Corp., owner.

SUBJECT—Variation of the labor law as cited in order of the fire commissioner.

PREMISES AFFECTED—31-37 East 31st street, Manhattan.

APPEARANCES—

For Petitioner: John J. Gilmartin.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition granted on condition.

THE VOTE—

Affirmative: Chairman Walsh, Commissioners Connell, Holland and Guilfoyle and Deputy Chief Martin	5

THE RESOLUTION—

(891-27-S)

WHEREAS, John J. Gilmartin, for Crompton Building Corp., owner, filed, August 5, 1927, a petition for a variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 31-37 East 31st street, Borough of Manhattan; and

WHEREAS, the order of the fire commissioner, dated April 19, 1927 (Order No. 17698-LD), reads:

"1. Remove all partitions not built of incombustible material as per Sections 263 and 270 of the Labor Law.";

and

WHEREAS, the building is fireproof, twelve stories in height, 86 ft. by 98 ft. in area at first story and 86 ft. by 83 ft. in area above; OCCUPIED: 1st story, sales room, 25 persons; 2nd story, sales room, 8 persons; 3rd story, sales room, 5 persons; upper stories, tenant factories, 50 persons per story; EQUIPPED with a sprinkler system; EXITS: three interior fireproof stairways, extending from the first story to roof, enclosed in fireproof partitions with fireproof doors at openings; and

WHEREAS, partitions constructed of combustible material have been erected on the various floors throughout the building; and

WHEREAS, petitioner contends that the order has been complied with on the second and on the fourth to twelfth (top) stories, inclusive, in view of the fact that the first and third stories are used for show room purposes only, requests that the partitions on these stories be permitted to remain; and

WHEREAS, the petitioner has submitted sworn affidavit from the testing laboratory of Columbia College as to fireproofing of the material used in this construction.

Resolved, that the board of standards and appeals does hereby *make a variation* in the requirements of the labor law, and that the petition be and it hereby is *granted*, only so far as it affects the first story, subdivided space, for the display of merchandise, and the southwest portion and foyer of the third story, which space is to be restricted to two small offices and show room, *on condition* that no portion of the partition shall extend beyond the elevator front; that the doors to stair hall shall be opened direct and unencumbered from the open loft space; that the material in these partitions shall be constructed of incombustible material; that the requirements of the labor law, throughout the building, shall be complied with in all other respects.

1055-27-S.

PETITIONER—Champion Laundry, Inc., lessee.

THE RESOLUTION—

(1055-27-S)

WHEREAS, Champion Laundry, Inc., lessee, filed, September 27, 1927, a petition for a variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 452-456 West 55th street, Borough of Manhattan; and

WHEREAS, the order of the fire commissioner, dated March 11, 1927 (Order No. 13560-LD), reads:

"1. Provide egress to the street from the stairway at east side of building, by means of a passageway enclosed in fire resisting material, as per Section 271 of the Labor Law."

and

WHEREAS, the building is fireproof, three stories in height, 75 ft. by 95 ft. in area; OCCUPIED by one concern as a laundry: 1st story, 30 persons; 2nd story, 35 persons; 3rd story, 30 persons; EXITS: two interior fireproof stairways, the easterly stairway extending from the first story to roof and the westerly stairway extending from the first to top story, each being enclosed in fireproof partitions with fireproof doors at openings; a fire escape on the rear of the building, having fireproof openings along the course thereof, extending from the third story balcony to the yard, with EGRESS from the termination of the fire escape by means of an iron ladder leading to roof of and fire escape on the building to the west; ROOFS of adjoining buildings: to west, two stories lower; to east, one story higher; and

WHEREAS, petitioner contends that similar orders were issued on April 25, 1919, by the fire department, and when certain work was done on the premises the board of review of the fire department accepted this work in lieu of a compliance with the order, and petitioner, in view of the action of the board of review, requests the acceptance of the existing conditions; and

WHEREAS, the board of review of the fire department, under date of October 21, 1919, accepted the present conditions.

Resolved, that the board of standards and appeals does hereby ratify the action of the board of review under date of October 21, 1919, and grant the variation, on condition that the stipulations of said resolution shall be complied with and that in addition thereto the existing fire escape on the rear of the building shall be equipped to comply with the substandard fire escape rules of the board of standards and appeals and so maintained; that the building shall be not increased in height, and this variation is granted so long as conditions as to occupancy and use remain unchanged.

THE RESOLUTION—

(1130-23-S)

WHEREAS, Samuel Rosenblum, for Jacob Kurtz, owner, filed, September 28, 1923, a petition with the board of standards and appeals for a variation from the requirements of the labor law, as cited in a decision of the superintendent of buildings, affecting premises 145 East 116th street, Borough of Manhattan; and

WHEREAS, the decision of the superintendent of buildings, dated September 11, 1923, reads:

"5. If safe egress may be had from roof, stairway must be extended to roof."

and

WHEREAS, the building is non-fireproof, four stories in height, 18 ft. by 80 ft. in area at the first story and 18 ft. by 48 ft. in area above; EXITS: an interior wooden stairway, extending from the first to top story, with iron ladder to scuttle in roof, enclosed in fire retarded partitions with wooden doors at the openings; ROOFS of adjoining buildings are at same height; OCCUPIED: 1st story, restaurant; 2nd story, offices, 10 persons; 3rd story, manufacturing, 10 persons; 4th story, manufacturing; and

WHEREAS, petitioner proposes to erect a fire escape on the north side of the building, with 45-degree connecting stairs and self-closing, fireproof windows along the course with counterbalanced stair leading to street, and contends that the existing stairway, in conjunction with the proposed fire escape affords ample means of egress; and

WHEREAS, this petition was granted by the board at its meeting, November 20, 1923, on certain conditions, and petitioner requested a modification of these conditions as to stair enclosure.

Resolved, that the board of standards and appeals does hereby make a variation from the requirements of the labor law, and that the petition be and it hereby is granted on condition that a double-rung fixed iron ladder shall be provided from the top story hall to the roof, and that the stair hall partition on the first story throughout shall be enclosed in fire-retarding material and that a fire escape shall be provided on the north side of the building, with 45-degree connecting stairs, with counterbalanced stairs to street, and with landing platform at level of main roof, and that the occupancy of the fourth story shall not exceed ten (10) persons.

THE RESOLUTION—

(940-27-S)

WHEREAS, Louis A. Sheinart, for Jacob Pinsky, owner, filed, August 20, 1927, a petition for a variation from the requirements of the labor law, as cited in an order of the

MINUTES

re commissioner, affecting premises 2035 Second avenue, Borough of Manhattan; and

WHEREAS, the order of the fire commissioner, dated June 16, 1927 (Order No. 23022-LD), reads:

"1. Arrange the fire escape on the rear of building and the openings leading thereto and the windows opening on the course thereof so that same are in compliance with the provisions of Section 273 and 274 of the Labor Law and the rules of the Board of Standards and Appeals, or carry out a proper alternative method of complying with the requirements of Section 271 of the Labor Law. SEE NOTE.

"NOTE: Among the defects noted are the following:

"No stairway from top balcony to roof. No counter-balanced stairway from lowest balcony to ground. Openings on course not fireproof, self-closing. No steps to sills."

and

WHEREAS, the building is non-fireproof, five stories in height, 25 ft. by 100 ft. in area at first story and 25 ft. by 35 ft. in area above; OCCUPIED: 1st and 2nd stories, stores, 10 persons each story; upper stories, factories, 25 persons each story; EXITS: an interior steel stairway, extending from the first story to roof, enclosed in wood stud, 1/2-inch plaster boards covered with No. 26 gauge metal partitions with fireproof doors at openings; a fire escape on the rear of the building, having fireproof openings along the course thereof, extending from the top story down to the second story, with drop ladder to adjoining yard at south; ROOFS of adjoining buildings: same level; and

WHEREAS, the petitioner claims that the rear fire escape balconies connect with the building adjoining on the south at each story, and there are no openings between the buildings on any floor; that the present condition of the rear fire escape was accepted as a second required means of egress under Alteration Application No. 2532-26; furthermore, the petitioner contends that the exits are adequate.

Resolved, that the board of standards and appeals does hereby make a variation in the requirements of the labor law, and that the petition be and it hereby is granted, only so far as it affects the egress, on condition that the present balcony fire escape shall be brought up to standard, providing a party wall fire escape, connecting to the fire escape of the adjoining tenement house to the south, the said fire escape to be constructed to support throughout its entirety 120 pounds per square foot, with exits, as indicated on the plans filed, from the fire escape to the adjoining tenement house to the south from each balcony of the party wall fire escape, through plain glass windows; that a 60-degree connecting stairs shall be provided on the fire escape throughout on the tenement house run; that the occupancy shall not exceed fifteen persons on each floor above the second story; that the building shall not be increased in height, area or dimension and that the requirements of the labor law shall be complied with in all other respects.

Absent: Chief Kenlon..... 1

THE RESOLUTION—

(861-27-S)

WHEREAS, William F. Doyle, for Saks Realty Corp., owner, filed, July 28, 1927, a petition for a variation from the requirements of the labor law, as cited in orders of the fire commissioner, affecting premises 611-621 Fifth avenue, 1-7 East 49th street and 28 East 50th street, Borough of Manhattan; and

WHEREAS, the orders of the fire commissioner, dated April 21, 1927, read:

"Order No. 18340-LD:

"1. Remove all partitions not built of incombustible material as per Sections 263 and 270 of the Labor Law."

and

"Order No. 18341-LD:

"2. Remove all wire glass in the enclosure of both interior stairways (North and South sides of buildings) on all stories. Sec. 270 of the Labor Law."

and

WHEREAS, the building is fireproof, ten stories (120 ft.) in height, 200 ft. 10 in. by 200 ft. in area; OCCUPIED as a department store, approximately 150 employees per story; on the tenth story there are forty persons engaged on making repairs and alterations to garments sold on the premises; EQUIPPED with a sprinkler system and a fire alarm signal system; EXITS: three interior fireproof stairways, extending from the first story to roof and enclosed in fireproof partitions; the doors in the stair enclosure at the northeasterly stairway being fireproof; in the doors in the stair enclosure at the north and south sides of the building there are wire glass panels; the area of the glass in door at the cellar story being 21 in. by 27 in., on the first story being 11 in. by 12 in. and on the upper stories being 21 in. by 27 in.; and

WHEREAS, incombustible partitions have been erected in the sample and trunk room on the seventh story and, also, on the eighth and 10th stories; and

WHEREAS, petitioner contends that the sample room on the seventh story is separated from the sales floor space by a fireproof partition with fireproof doors at the openings therein and requests, in view of the premises being a department store and the factory occupancy being in connection with the department store, the acceptance of the wire glass in the doors leading to the stair enclosures and, also, the partitions on the seventh, eighth and tenth stories; petitioner contends, further, that on the various sales floors there are wood ornamental fixtures which are used for display purposes only and are not partitions within the meaning of the labor law.

Resolved, that the board of standards and appeals does hereby make a variation in the requirements of the labor law, and that the petition be and it hereby is granted, as to item 1 of Order No. 18340, only so far as it affects the incidental partitions subdividing the floor area, on condition that all corridors, stair halls and fire towers shall be enclosed in approved fireproof walls; that the partitions of open booths on the seventh story shall be separated from the main floor area by walls of approved masonry, and that the entire building shall be equipped with an approved wet sprinkler system and standpipe equipment, and that the conditions of the certificate of occupancy now in force shall be complied with in all respects, and granted, as to item 2 of Order No. 18341, on condition that the existing glass panels shall be subdivided into single glass panels by fixed metal muntins, and that these panels shall be subdivided into two separate lights, no one of which shall exceed 260 square inches.

THE RESOLUTION—

(1066-27-S)

WHEREAS, Samuel Rosenblum, for Natsam Realty Co., lessee, filed, October 3, 1927, a petition for a variation from the requirements of the labor law, as cited in decisions of the superintendent of buildings and order of the fire commissioner, affecting premises 20 East 56th street, Borough of Manhattan; and

WHEREAS, the decision of the superintendent of buildings, amended September 15, 1927, in acting on App. No. 2007-1927, reads:

"2. Fire escape must comply with Section 273 of the Labor Law.

"Provide safe fireproof passageway from termination of fire escape to street.";

and

WHEREAS, the decision of the superintendent of buildings, in acting on amendment to Application No. 2007-27, dated October 27, 1927, reads:

"4. Provide single fireproof casement door from 5th floor to proposed fire escape.";

and

WHEREAS, the order of the fire commissioner, dated October 31, 1927 (Order No. 27961-LD), reads:

"1. Arrange the fire escape at rear of building serving as a required means of exit so that same will conform to Sec. 271 of the Labor Law, and the rules of the Board of Standards and Appeals, adopted Feb. 23, 1927.

"1. No fire door provided at opening to fire escape at 5th story.

"2. No safe egress from termination of fire escape to street.";

and

WHEREAS, the building is non-fireproof, five stories in height, 20 ft. by 100 ft. 5 in. in area; OCCUPIED: 1st story, store; 2nd story, show room and office, 8 persons; 3rd story, manufacture of hats, 30 persons; 4th story, manufacture of dresses, 20 persons; 5th story, dwelling; EXITS: an interior fireproof stairway, extending from the first story to roof, enclosed in fireproof partitions with fireproof doors at openings; a 45-degree fire escape on the rear of the building, having fireproof openings along the course thereof (excepting on the fifth story), extending from the roof to an iron bridge, at the second story level, connecting with the fire escape on the premises to the rear, No. 19-21 East 55th street; there is an iron stair leading from the fire escape on the premises at the rear to the yard of No. 17 East 55th street; ROOFS of adjoining buildings are at same level; and

WHEREAS, petitioner contends that the top story of the premises in question is occupied as a dwelling; that the occupancy of the building is small and requests the acceptance of the existing means of exit.

Resolved, that the board of standards and appeals does hereby make a variation in the requirements of the labor law, and that the petition be and it hereby is granted, as to item 2 of the bureau of buildings' disapproval of September 15, 1927, only so far as it affects the egress from the termination of the fire escape, and granted, as to item 1, of the order of the fire commissioner, No. 27961-LD, on condition that the fire escape on the rear of the building shall comply with the requirements of the labor law in all respects except as to egress from the termination, which shall be provided by means of an iron bridge at the second story level, connecting with fire escape balcony of premises

directly to the rear of No. 19 East 55th street, with exit from the fire escape of the building to the rear by means of a fireproof door off second story balcony through premises and by means of stairs from the northerly end of the fire escape on No. 19 East 55th street to the yard of premises No. 17 East 55th street, and that the requirements of the labor law shall be complied with in all other respects.

THE RESOLUTION—

(1098-27-S)

WHEREAS, Samuel Rosenblum, for The West Twenty-sixth Street Corp., filed, October 10, 1927, a petition for a variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 37-43 West 26th street, Borough of Manhattan; and

WHEREAS, the order of the fire commissioner, dated April 21, 1927 (Order No. 18182-LD), reads:

"2. Reduce the area of wired glass in partitions enclosing stairway at the east and west side of building so that no single pane of glass shall exceed 360 sq. inches or not more than 720 square inches on any story as per Rule 505 of the Industrial Code.";

and

WHEREAS, the building is fireproof, twelve stories in height, 100 ft. by 98 ft. 9 in. in area at first story and 100 ft. by 90 ft. 4 in. in area above; OCCUPIED: 1st story, stores; 2nd story, vacant at present; upper stories, manufacture of garments; 3rd story, 14 persons; 4th story, 60 persons; 5th story, 25 persons; 6th story, 75 persons; 7th story, 10 persons; 8th story, 50 persons; 9th story, 50 persons; 10th story, 45 persons; 11th story, 90 persons; 12th story, 170 persons; EQUIPPED with a sprinkler system; EXITS: two interior fireproof stairways, extending from the first story to roof, enclosed in fireproof partitions with fireproof wire glass paneled doors at openings; an accommodation iron stairway, extending from the tenth to the twelfth story, enclosed in fireproof partitions, with fireproof wire glass paneled doors at openings; a fire escape on the rear of the building, having fireproof openings along the course thereof, extending from the roof to the first story, with EGRESS from the termination of the fire escape by means of fireproof hall on the first story; and

WHEREAS, in each door leading to the stair enclosure there is a wired glass panel 43 in. by 25 in. in area and a panel in the transom overhead 19 in. by 31 in.; on the southerly side of each stair enclosure on each story there are two wired glass panels each 59 in. by 22 in. which front on the elevators; on the second and third stories, in the westerly stair enclosure, there are two 20 in. by 20 in. wired glass panels which open into toilets; in the stair enclosure of the accommodation stairway on each story there are wired glass panels 21 in. by 32 in. in each door; wired glass 17 in. by 27 in. in each transom and also two wired glass panels 40 in. by 22 in. opening into toilets; and

WHEREAS, petitioner contends that the building was erected in 1908, at which time there was no requirement

to the area of the wired glass, and that the building was erected in accordance with approved plans and requests the acceptance of existing conditions; and

WHEREAS, the building is equipped throughout with an approved standpipe and sprinkler system; and

WHEREAS, the present conditions have existed since the erection of the building.

Resolved, that the board of standards and appeals does hereby make a variation in the requirements of the labor law, and that the petition be and it hereby is granted on condition that no single light of glass shall exceed an area of 360 sq. in., the existing glass panels shall be subdivided by fixed metal muntins, and granted only as long as conditions as to occupancy and use otherwise remain unchanged.

THE RESOLUTION—

(1010-27-S)

WHEREAS, Maximilian Zipkes, for Herman M. Hess, et al., owner, filed, September 14, 1927, a petition for a variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 129-133 West 20th street, Borough of Manhattan; and

WHEREAS, the order of the fire commissioner, dated June 18, 1927 (Order No. 23142-LD), reads:

"1. Provide safe and unobstructed egress from the lower termination of the exterior stairway at rear of building by constructing a fireproof passageway with an unobstructed width of at least 3 feet throughout, leading to the street, adequately lighted at all times during working hours, or by means of providing access to an open area having communication with the street, as per Section 273 of the Labor Law.";

and

WHEREAS, the building is non-fireproof, six stories in height, 67 ft. 7 in. by 85 ft. in area; OCCUPIED: 1st story, show room, 2 persons; 2nd story, manufacture of furniture, 24 persons; 3rd story, manufacture of furniture, 10 persons; 4th story, office and cutting, 5 persons; 5th story, manufacture of paper boxes, 21 persons; 6th story, manufacture of paper boxes, 12 persons; EQUIPPED with a sprinkler system and a fire alarm signal system; EXITS: an interior iron stairway, extending from the first story to roof, enclosed in four-inch terra cotta partitions with fireproof doors at openings; a fire escape on the rear of the building, having fireproof openings along the course thereof, extending from the top story down to yard level; a gooseneck ladder to roof, with EGRESS from the termination of the fire escape by means of stairs up to adjoining yard at east; ROOFS of adjoining buildings: 30 ft. lower at east; same height at west; and

WHEREAS, the petitioner claims that egress may be had from the rear yard to adjoining yards at east and west, thence through the adjoining buildings to the street; and

WHEREAS, petitioner claims that egress may be had from termination of rear fire escape by means of a new iron

stairs leading up to and connecting with platform of the outside fireproof stairs on rear of building adjoining at northwest, thence through a fireproof passageway to West 21st street; also that the owner of the 21st street building has granted permission for the use of his fire passage.

Resolved, that the board of standards and appeals does hereby make a variation in the requirements of the labor law, and that the petition be and it hereby is granted, only so far as it affects egress from the termination of the rear fire escape, on condition that an open yard shall be maintained in common between this and the adjoining premises to the west and at rear, with iron platforms and steps not less than 3 ft. in width and at an angle of 45 degrees leading to the premises directly to 132-134 West 21st street, with egress through unobstructed passageway direct to West 20th street; that an affidavit of agreement shall be filed with the fire department as to the right of exit through the adjoining premises at the rear on West 21st street; that the building shall be not increased in height, and this variation is granted so long as conditions as to operation and use remain unchanged.

THE RESOLUTION—

(1296-27-S)

WHEREAS, Hamill, Weinberg & Munro, for 122 West 45th Street Corp., lessee, filed, December 13, 1927, a petition for a variation from the requirements of the labor law, as cited in a decision of the superintendent of buildings, affecting premises 38-40 West 48th street, Borough of Manhattan; and

WHEREAS, the decision of the superintendent of buildings, dated November 30, 1927 (re certificate of occupancy), reads:

"1. Building is not provided with an exterior enclosed fireproof stair (fire tower) as provided under Sec. 270, paragraph 3 of the Labor Law.

"5. Area of glass panes in windows at front of building exceed 720 square inches.

"7. Openings to sub-divided spaces from public corridor not protected as per Labor Law Sec. 264; kalamein doors therein are provided with plane glass and plane glass transom and doors do not swing outwardly.

"8. Wooden partitions erected, and combustible floor finish (linoleum) provided on portions of various floors. Also wood doors and trim used in the incombustible partitions on 1st and mezzanine floors.";

and

WHEREAS, the order of the fire commissioner, dated January 23, 1928 (Order No. 4591-LD), reads:

"1. Discontinue the use of the above premises for factory purposes as the building does not conform to Sec. 270 of the Labor Law.

"NOTE: Among the defects noted are the following:

"1. Interior electric fire alarm system not provided.

MINUTES

"2. No fire drill conducted.

"3. Exit signs with red lights at all means of exit not provided.

"4. Doors from all rooms to corridors not arranged to swing outwardly.

"5. Exterior enclosed fireproof stairway has not been provided.";

and

WHEREAS, the building is fireproof, eleven stories (124 ft. 5 in.) in height, 32 ft. 4 in. by 100 ft. 5 in. at first story and 32 ft. 4 in. by 90 ft. 5 in. (2,923 sq. ft.) in area above, located within a business use district; OCCUPIED: cellar, storage and boiler room, 5 persons; 1st story, store, 70 persons; upper stories, offices, show rooms and 25 per cent. manufacturing, 30 persons on each story; EQUIPPED with a sprinkler system and standpipe system; EXITS: two interior iron and cement stairway, extending from the first story to roof, enclosed in fireproof partitions with fireproof doors at openings; ROOFS of adjoining buildings: 50 ft. lower at east and west; and

WHEREAS, the petitioner claims that the building was erected in 1925 to be used for stores, offices and show rooms; as to item 1, that the two interior stairways provide more than sufficient exits for the occupancy; as to item 5, that the maximum area of a pane of glass on street front at first story is 8,288 sq. in.; 2nd story, 850 sq. in.; 3rd story, 5,522 sq. in.; 4th to 8th stories, 1,054 sq. in.; 9th to 11th stories, 1,428 sq. in.; as to item 7, that the kalamein doors swing inwardly and are provided with plain glass panels of 926 sq. in. and a plain glass transom over the same of 120 sq. in.; as to item 8, that the wooden partitions were erected by the tenants to divide off the rented spaces, and the linoleum laid on floors of show rooms for decorative effect; furthermore, the petitioner contends, as to items 1 and 8, that the construction of a fire tower, the erection of new partitions and the removal of linoleum would entail a very substantial loss; as to item 5, to divide the glass panes into smaller areas would mar the architectural appearance; as to item 7, that the plain glass affords more light to the public corridors; and

WHEREAS, the manufacturing conducted in this building, as stated under sworn affidavit, is substantially confined to the rearrangement and adjustment of jewelry, precious stones and gems purchased on these premises.

Resolved, that the board of standards and appeals does hereby *make a variation* in the requirements of the labor law, and that the petition be and it hereby is *granted*, as to the decision of the superintendent of buildings, Item No. 1, *on condition* that a secondary means of egress shall be maintained by the additional fireproof enclosed stairway; as to Item No. 5, *on condition* that the openings shall be equipped with approved metal frames and sash, glazed with one-quarter-inch polished plate glass; as to Item No. 7, only so far as it affects the door openings not on the course of the required means of exit stair hall enclosure; as to Item No. 8, only so far as it affects any room other than space not used for manufacturing purposes, and *granted*, as to the order of the fire commissioner, Order No. 4591-LD, sections 1 and 2, *on condition* that the premises shall be equipped with a two-source wet sprinkler system, except in the fireproof stairs, and *granted*, as to Items 4 and 5, as per Items 1 and 7 in the decision of the superintendent of buildings, and that the order be and it hereby is *denied* in all other respects.

THE RESOLUTION—

(750-26-S)

WHEREAS, Samuel Rosenblum, for Samuel Osfer, lessee, filed, September 10, 1926, a petition for a variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 172 Sands street, Borough of Brooklyn; and

WHEREAS, the order of the fire commissioner, dated February 26, 1926 (Order No. 91706-LD), reads:

"1. Arrange the fire escape on the rear of building and the openings leading thereto and the windows opening on the course thereof so that same are in compliance with the provisions of Section 273 and 274 of the Labor Law and the rules of the Board of Standards and Appeals, or carry out a proper alternative method complying with the requirements of Section 271 of the Labor Law. SEE NOTE.

"Among the defects noted are the following:

"Not screened to a height of 4' 6".

"No stairway from top balcony to roof.

"2. Remove the sub-standard fire escape on the front of building or reconstruct same as per Sec. 274 of the Labor Law and Rule 3 of the Board of Standards and Appeals adopted May 9, 1924. Among the defects noted are the following:

"Windows on course not fireproof, self-closing.

"3. Enclose the interior stairway at the west side of building serving as a required means of exit, and the landings, platforms and passageways connecting therewith on all sides with partitions of fire-resisting material extending continuously from the cellar to 3 feet above the roof, constructed as per Section 271 of the Labor Law or carry out a proper alternative method complying with the requirements of Section 271 of the Labor Law.";

and

WHEREAS, the building is non-fireproof, six stories height, 19 ft. by 95 ft. in area; OCCUPIED by one tenant a candy factory: 1st story, 4 persons; 2nd story, 5 persons; 3rd story, 3 persons; 4th story, 5 persons; 5th story, 5 persons; 6th story, 7 persons; EXITS: an interior wood stairway, extending from the roof to the open loft on the first story, enclosed in fire-retarding partitions (except lath and plaster partitions on the first story, and accommodation opening on the third story protected by a wood door and, also, wire glass panels 28 in. by 54 in. in area in the stair enclosure) with fireproof doors at openings; sub-standard fire escape on the front of the building, having unprotected openings along the course thereof, extending from the top story to the second story balcony, with fire ladder to street; a fire escape on the rear of the building having fireproof openings along the course thereof, extending from the top story to an open court leading to street; ROOFS of adjoining buildings: to west, three stories lower to east, two stories lower; and

WHEREAS, petitioner proposes to fire retard the stair enclosure at the first story and to provide a fireproof door at the accommodation opening in the stair enclosure on the third story and requests the acceptance of the wire glass

MINUTES

els, and, also, the acceptance of the present termination of the stairway in view of the narrow width of the building, as to the fire escapes, requests their acceptance as there is no safe egress from the roof, and that the occupancy of the building is small; and

WHEREAS, this petition was granted by the board at its meeting, November 16, 1926, on certain conditions, and petitioner requested a modification of these conditions.

Resolved, that the board of standards and appeals does hereby make a variation from the requirements of the labor law, and that the petition be and it hereby is granted, as to Item 1, only so far as it affects the stairway from the top story balcony of fire escape to the roof, on condition that a oseneck ladder shall be provided from the top story balcony to the roof and that the fire escape shall comply with the requirements of the labor law in all other respects, and granted, as to Item 2, only so far as it affects the fireproofing of the windows, on condition that the fire escape shall comply with the requirements of the labor law in all other respects, and granted, as to Item 3, only so far as the egress from the termination in the first story is affected, on condition that a horizontal exit shall be provided in the party wall, first and second story, rear, said openings be equipped with approved fire doors; that a horizontal exit shall be provided within the stairhall enclosure, second story, leading into a fire-resisting stair hall enclosure in No. 170, leading direct to the street, and that the stair enclosure shall comply with the requirements of the labor law in all other respects.

area deemed affected and within which to obtain consents to permit the extension from an unrestricted district into a business district of a garage for more than five motor vehicles; premises 608-616 Union street and 569-577 President street, Borough of Brooklyn.

The following area was approved by the board:

Both sides of Union street and President street, from a point 100 ft. west of Fourth avenue to a point 400 ft. east of the premises in question and, also, both sides of Fourth avenue from a point 100 ft. south of President street to a point 100 ft. north of Union street.

MINUTES

*CORRECTION.

The minutes of the meeting of the board of standards and appeals held Tuesday morning, February 14, 1928, as they appeared in Bulletin No. 8, Vol. XIII, are hereby corrected to read as follows:

THE RESOLUTION—

(1022-27-A)

WHEREAS, Samuel Rosenblum, for 806 Broadway Corp., owner, filed, September 19, 1927, an appeal from an order of the fire commissioner, affecting premises 806-808 Broadway and 104-106 Fourth avenue, Borough of Manhattan; and

WHEREAS, the order of the fire commissioner, dated June 16, 1927 (Order No. 22947-F), reads:

"1. Install a standpipe system with risers 4 inches in diameter tested to withstand a pressure of 300 lbs. per square inch, extending from cellar to roof, with necessary check valves and 2½ inch regulation Fire Department outlets on each story (including basements, cellars and roofs), placed within main stairway en-

* Correction—Words "the occupancy not to exceed the legal capacity of the interior stairs" added in line 24.

closure. Each outlet to be provided with sufficient feet of 2½ inch standard hose attached thereto.";

and

WHEREAS, the building, facing on two street fronts, is non-fireproof, six stories (82 ft.) in height, 51 ft. 4 in. by 230 ft. 11¼ in. (approximately 11,200 sq. ft.) in area; OCCUPIED: 1st story, store; 2nd story, clothing jobbers, 10 persons; 3rd story, clothing jobbers, 13 persons; 4th story, cutting clothing, 20 persons; 5th story, manufacturing suits, 25 persons; 6th story, manufacturing suits, 8 persons; the occupancy not to exceed the legal capacity of the interior stairs; and

WHEREAS, appellant contends that the area of the building is slightly in excess of the area requiring the installation of a standpipe system; that the building is protected by an automatic sprinkler system.

Resolved, that the order of the fire commissioner be and it hereby is modified, and the appeal be and it hereby is granted on condition that there shall be maintained an approved automatic sprinkler system, with central office connection, in accordance with the requirements of the board of standards and appeals, and that the building shall not be increased in height, area or dimension, and granted only as long as conditions as to use and occupancy remain substantially unchanged.

BOARD OF STANDARDS AND APPEALS.

Administrative Applications.

- 29-27-A—39 Fifth avenue, Manhattan.
 30-27-A—13-16 Central Park West, Manhattan.
 31-27-A—20-28 West 72nd street, Manhattan.
 32-27-A—242-248 West 76th street, Manhattan.
Appliances Submitted for Approval.
 53-21-SA—Stillbech 2½ in. Bronze Angle Hose Valve, approval of.
 72-21-SA—Ford Fire Line Reducing Valve, approval of.
 47-22-SA—Howard Water Pressure Reducing Devices, approval of.
 10-22-SA—Crocker Gas Valve, approval of.
 99-22-SA—Kennell Gas Cut-Off Valve, approval of.
 73-22-SA—Anti-Syphon Valve, approval of.
 30-22-SA—Thermostats for Automatic Fire Alarm Systems, approval of.
 49-22-SA—Ccen Oil Burner, approval of.
 91-22-SA—Dempsey High & Low Pressure Fuel Oil Burner, approval of.
 57-23-SA—Collin Patent Automatic Gas Cut-Off Valve, approval of.
 24-23-SA—Master Gas Shut-Off Valve, approval of.
 25-23-SA—Packless Gas Shut-Off Valve, approval of.
 27-23-SA—S. & K. Gas Shut-Off Valve, approval of.
 32-23-SA—Manual and Thermal Gas Cut-Off Valve, approval of.
 75-23-SA—Wm. E. Toelle Manual & Automatic Gas Shut-Off Valve, approval of.
 29-23-SA—Heil Standard 200 Gal. Truck Tank, approval of.
 297-23-SA—"Automatic" Deluge Valve, approval of.
 443-23-SA—Automatic Gas Shut-Off, approval of.
 525-23-SA—Tilman-White Gas Cut-Off Valve, approval of.
 952-23-SA—Automatic Gas Cut-Off, approval of (Brooklyn Co.)
 959-23-SA—Hydro Carbon Oil Burner, approval of.
 246-23-SA—Ludlow Gas Cut-Off Valve, approval of.
 346-23-SA—Heatiator Oil Burner, approval of.
 550-23-SA—Apex Gas Cut-Off Valve, approval of.
 492-24-SA—Holtzer-Cabot Type "C" Fire Alarm Box, approval of.
 755-24-SA—Wills Automatic Gas Shut-Off Valve, approval of.
 907-24-SA—Dempsey Domestic Burner and Fuel Oil Pump, approval of.
 016-24-SA—Milnes Oil Burner, approval of.
 108-24-SA—Simplicity Fuel Oil Burner, approval of.
 142-24-SA—Decker Oxohydrogen Oil Burner, approval of.
 146-24-SA—Salvo Fire Extinguisher, approval of.
 359-24-SA—Oliver Oil Gas Burner No. 30-A, approval of.
 500-24-SA—Smolensky Check Valve, approval of.
 558-25-SA—Globe Dry Pipe Valve Accelerator, approval of.
 683-25-SA—Billow Fuel Oil Burner, approval of.
 985-25-SA—Amdyco Foam Fire Extinguisher, approval of.
 1106-25-SA—Modern Oil Burner, approval of.

- 1263-25-SA—Phister Carbon Tetrachloride Fire Extinguisher, approval of.
 1264-25-SA—Koerting Gear Pump, approval of.
 1346-25-SA—Palmer Gravity Lock, approval of.
 167-26-SA—Johnson Automatic Oil Burner, approval of.
 353-26-SA—Signal Weatherproof Bells, approval of.
 364-26-SA—Kork-n-Seal, approval of.
 397-26-SA—Worthington Triplex Vertical Power Pump, approval of.
 418-26-SA—Film Inspection Machine (approved type), approval of.
 484-26-SA—Protectoseal Cover, approval of.
 542-26-SA—Lassen Quintuple Fuel Oil Burner, approval of.
 751-26-SA—Jones Oil Burner, approval of.
 781-26-SA—Solenoid Type Single Stroke Bells, approval of.
 890-26-SA—Pyrolithic Floor and Ceiling Construction, approval of.
 929-26-SA—Seabolt Vacu-Syphon Oil Burner, approval of.
 950-26-SA—Ideal Fuel Oil Burner, approval of.
 52-27-SA—M-D Rotary Fuel Oil Pump, approval of.
 110-27-SA—Wilbur Extinguisher, approval of.
 115-27-SA—Even-Heat Oil Burner, approval of.
 128-27-SA—"GRD" Billow Fuel Oil Atomizer, approval of.
 129-27-SA—Stroud-In-The-Door Oil Burner, approval of.
 187-27-SA—Keenan Gas Shut-Off Valve, approval of.
 458-27-SA—Deming Double Acting Oscillating Force Pump, approval of.
 527-27-SA—Gas-O-Matic Oil Burner Unit, approval of.
 537-27-SA—Leader Gas Shut-Off Valve, approval of.
 618-27-SA—Stuhler Oil Burner, approval of.
 630-27-SA—Faraday Pre-Signal Fire Alarm Control Panel with 110 Volt Trouble Bell, approval of.
 810-27-SA—Bowser Fig. No. 718 Fuel Oil Pump, approval of.
 814-27-SA—Elkhart Flush Type Siamese, approval of.
 899-27-SA—Walworth 2½ in. Angle Hose Valve, 150 lb. working pressure, approval of.
 900-27-SA—Walworth 2½ in. Angle Hose Valve, 250 lb. working pressure, approval of.
 977-27-SA—Romec Rotary Pump, approval of.
 1034-27-SA—The Improved Lawrence May Oil Burner, approval of.
 1062-27-SA—Mohawk Closed Circuit Sprinkler Alarm Panel and Mohawk Water Level Tank Alarm, approval of.
 1071-27-SA—New Process Oil Burner, approval of.

Cases listed in the Reserve Calendar are cases upon which action by the board has been deferred pending committee reports, of this board, court or department actions, and will remain thereon until the aforesaid reports, court or departmental actions are consummated. Whereupon the case or cases will be restored to the regular calendar and due notice of the date set for hearing will be mailed to the appellant, applicant or petitioner of record.

WARNING

Notice is hereby given to all petitioners, appellants and applicants, and to all lawyers, architects and engineers representing owners or lessees in proceedings before the board—

First, That if they do not appear in person or by representative at the hearing on their case, dismissal for lack of prosecution is likely to result.

Second, That due and ample notice of the date set for hearing is provided in the publication in this BULLETIN of the calendars of the board, each case being set down by Calendar Number and premises under the date of the hearing.

Third, That no plea of ignorance of the date of the hearing can be entertained in view of this publication and of the posting of the calendars on the bulletin board in the

offices of the board and of the further publication of the calendars in the daily press.

Fourth, That no one is entitled to written notice of the date for the hearing in his case, and that the plea of failure to receive such notice is no excuse for neglect to appear.

Fifth, That the business of the board is to dispose of all cases promptly, for the reason that the pendency of an appeal or petition ties the hands of the administrative official in enforcing his order; therefore, no appeal or petition will be allowed to be hung up by reason of failure of the appellant or petitioner to file necessary data, or by any other method of delay.

Sixth, That no appeal, application or petition will be accepted for filing unless, at the time of filing, all papers, plans and data required by law are supplied, as specified on the blank appeal, application or petition forms.

BOARD OF STANDARDS AND APPEALS

WILLIAM E. WALSH, Chairman

HENRY L. CONNELL

JAMES P. HOLLAND

JOHN GUILFOYLE

CHIEF JOHN KENLON

WILLIAM J. O'GORMAN, Secretary

EDWARD V. BARTON, Chief Clerk

OFFICE—Municipal Building, Rooms 1001 to 1015.
TELEPHONE—WORTH 0184.

OFFICE HOURS—9 a. m. to 5 p. m. Saturdays 9 a. m. to 12 noon.

All communications should be addressed to the chairman of the board.

CONTENTS

This issue of the Bulletin contains, in the order given—

- Docket.
- Call of Clerk's Calendar.
- The Trial Calendar.
- Notices in Building Zone Cases.
- Minutes of Regular Meeting, March 13, 1928, 10 a. m.
- Minutes of Regular Meeting, March 13, 1928, 2 p. m.
- Appliances Approved.
- Reserve Calendar.
- Progress Report.

PUBLIC HEARINGS

Tuesdays, at 10 a. m. and 2 p. m.
Special meetings as published in this Bulletin.
Call of Clerk's Calendar, Tuesdays, at 2 p. m.
All hearings are held in Room 1013, Municipal Building, Manhattan.

HOURS FOR CONSULTATION

10 A. M. to 1 P. M.

Any person desiring to consult the chairman or the engineers, pertaining to the work of the board, will be seen only between the hours of ten in the morning and one in the afternoon—Saturdays excepted.

CALL OF CLERK'S CALENDAR

The *Clerk's Calendar* consists of applications under the Building Zone Resolution, and its object is to give interested property owners opportunity to file objections, if any, and will be called in Room 1013, Tuesday, March 20, 1928, at 2 o'clock. At this call each case is set for hearing on a definite day.

The next subsequent Call of the Calendar will be on Tuesday, March 27, 1928, at 2 o'clock.

The *Clerk's Calendar* is not to be confused with the calendar of cases that have been definitely set for hearing on fixed days.

NOTICE TO APPELLANTS AND PETITIONERS

No appeal, application or petition will be entertained in connection with which court proceedings are pending or in progress, nor accepted that are not filed within twenty days from the date of the action of the Administrative Official.

Any communication purporting to be an appeal, application or petition shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this board.

Upon receipt of any such communication the writer will be supplied with the official forms for presenting his appeal, application or petition, and if he fails to supply the data required thereon, within twenty days, his case may be dismissed for lack of prosecution.

At the time of filing an application, the appellant or petitioner shall forward a signed notice of appeal addressed to the administrative official (either superintendent of buildings or fire commissioner) and file with this board a duplicate of said notice.

Petitioners are advised that their plans must indicate the points of the compass so as to establish the true location and position of the property, the subject of the appeal.

Appeals, applications and petitions will be simplified and disposition of same expedited by conforming to these directions.

WILLIAM E. WALSH, Chairman,

1113-27-A—1440 Broadway, Manhattan.

Building Zone Applications.

NOTICE IS HEREBY GIVEN by the board of standards and appeals of a public hearing under the provision of the building zone resolution, *Tuesday morning, March 20, 1928, at 10 o'clock, in Room 1013, Municipal Building on the following matters:*

- CAL. NO. 913-27-BZ—Application, August 13, 1927, under section 21 of the building zone resolution, of Charles Klenk, applicant, on behalf of Arthur Bucher, owner, to permit in a business district the erection and maintenance of a gasoline service station; premises northwest corner of Fairview avenue and Forest avenue Ridgewood, Borough of Queens.

CALENDAR

CAL. NO. 938-27-BZ—Application, August 19, 1927, under section 21 of the building zone resolution, of William Shary, applicant, on behalf of Danclare Holding Corp., owner, to permit in a business district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles; premises 2388-2394 Rye avenue, The Bronx.

CAL. NO. 980-27-BZ—Application, September 7, 1927, under section 21 of the building zone resolution, of Philip J. Sinnott, applicant, on behalf of Liberty Heights Realty Co., Inc., owner, to permit in a business district the erection and maintenance of a gasoline service station; premises northeast corner of Cooper avenue and Cypress avenue, Cypress Hills, Borough of Queens.

CAL. NO. 787-27-BZ—Application, July 7, 1927, under section 21 of the building zone resolution, of Philip J. Sinnott, applicant, substituted for Louis A. Sheinart, on behalf of Edis Realty Co., owner, to permit, partly in a business district and partly in a residence district, the erection and maintenance of a gasoline service station (previously denied); premises northeast corner of Bay Ridge avenue and Shore road, Brooklyn.

CAL. NO. 1013-27-BZ—Application, September 16, 1927, under section 21 of the building zone resolution, of John F. Buchan, applicant, on behalf of Ralph Ferrara, owner, to permit in a business district the erection and maintenance of a gasoline service station; premises 8159-8167 Liberty avenue, Woodhaven, Borough of Queens.

CAL. NO. 958-27-BZ—Application, August 27, 1927, under sections 7e and 21 of the building zone resolution, of Henry J. Nurick, applicant, on behalf of Elias Burak, owner, to permit in a business district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles and also a gasoline service station; premises 509 Leonard street and 285-295 Driggs avenue, southwest corner, Brooklyn.

CAL. NO. 952-27-BZ—Application, August 26, 1927, under section 21 of the building zone resolution, of Charles Martens, applicant, on behalf of Leah K. Kosower and Rosie Glickman, owners, to permit in a business district the erection and maintenance of a gasoline service station; premises 1784-1786 81st street and 8102-8104 18th avenue, southwest corner, Brooklyn.

CAL. NO. 962-27-BZ—Application, August 30, 1927, under section 21 of the building zone resolution, of Charles E. Heydt, applicant, on behalf of 730 West End Avenue Corp., owner, to permit in a residence district the erection of a one-story extension, also the alteration and change of the cellar living apartment for store purposes; premises 739 West End avenue and 301 West 96th street, northwest corner, Manhattan.

CAL. NO. 963-27-BZ—Application, August 31, 1927, under section 7b of the building zone resolution, of W. T. McCarthy, applicant, on behalf of James McLaren, owner, to permit in a residence district, extending from a business district, the erection and maintenance of a building to be used for store purposes; premises 867 Union street, Brooklyn.

CAL. NO. 976-27-BZ—Application, September 6, 1927, under section 21 of the building zone resolution, of Philip J. Sinnott, applicant, on behalf of McMahon Brothers, owners, to permit, partly in a business district and partly in a residence district, the extension in area and height of an existing garage for the storage of more than five (5) motor vehicles; premises southwest corner of Queens boulevard and Devon place, Forest Hills, Borough of Queens.

CAL. NO. 1007-27-BZ—Application, September 13, 1927, under section 21 of the building zone resolution, of Gardiner Conroy, applicant, on behalf of Emma C. THE VOTE TO WITHDRAW—

Affirmative: Chairman Walsh, Commissioners Connell, Holland and Guilfoyle and Chief Kenlon	5
Negative	0
Absent	0

258-23-A.

APPELLANT—Bronx Paper Makers' Supply Co., lessee.
SUBJECT—Application for reopening—modification and extension of permit—re appeal from order of the fire commissioner.

MINUTES

PREMISES AFFECTED—307 Morris avenue, The Bronx.
APPEARANCES—

For Appellant: Martin Wechsler.

ACTION OF BOARD—Appeal reopened and permit extended.

THE VOTE TO REOPEN AND EXTEND PERMIT:

Affirmative: Chairman Walsh, Commissioners
Connell, Holland and Guilfoyle and Chief
Kenlon 5
Negative 0
Absent 0

THE RESOLUTION—

(258-23-A)

WHEREAS, Leonard Padula, lessee, filed, February 23, 1923, an appeal with the board of appeals from an order of the fire commissioner, affecting premises 307 Morris avenue, Borough of The Bronx; and

WHEREAS, the order of the fire commissioner reads:

"You are therefore ordered to

"1. Reduce the stock of paper and rags to one ton.";

and

WHEREAS, the premises consist of a plot of ground on which is located a one-story frame structure, 58 ft. 9 in. by 37 ft. 8 in. in area; OCCUPIED for the storage of rags and papers; and a building 31 ft. by 65 ft. in area, occupied as baling room and stock room, located in an unrestricted district; and

WHEREAS, appellant contends that the premises are located in a sparsely populated section; and

WHEREAS, this appeal was granted by the board at its meetings, April 17, 1923, May 1, 1924, April 21, 1925, July 6, 1926, and June 28, 1927, for a temporary period, and appellant requests a further extension.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted* for a period not to extend beyond December 31, 1928.

1080-27-A.

APPELLANT—H. H. Murdock, for Haggin Estate, Inc., owner.

SUBJECT—Appeal from order of the fire commissioner.

PREMISES AFFECTED—377-379 Broadway and 59-61 White street, Manhattan.

APPEARANCES—

For Appellant: H. H. Murdock.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Walsh, Commissioners
Connell, Holland and Guilfoyle and Chief
Kenlon 5
Negative 0
Absent 0

THE RESOLUTION—

(1080-27-A)

WHEREAS, H. H. Murdock, for Haggin Estate, Inc., owner, filed, October 5, 1927, an appeal from an order of the fire commissioner, affecting premises 377-379 Broadway and 59-61 White street, Borough of Manhattan; and

WHEREAS, the order of the fire commissioner, dated June 22, 1927 (Order No. 23338-F), reads:

"1. Provide iron shutters at all openings in the exterior wall above 1st story which are distant in a direct line less than 30' from any opening in any other building and not in the same plane with said openings and which are not more than 50' above a neighboring roof at west side of building, or other approved protection, as per Sec. 375, Art. 18, Ch. 5, of the Code of Ordinances.";

and

WHEREAS, the building is fireproof, 11 stories in height, 50 ft. by 150 ft. 3 in. in area; OCCUPIED for offices and sales rooms, 25 persons on each story; and

WHEREAS, the appellant has filed drawings showing six windows at each of the second to the tenth stories, inclusive, on the west side affected by the fire department order, and the distance from building to building to be 25 ft. 3 in., and contends that the building causing the exposure is equipped with a sprinkler system; and

WHEREAS, the premises constituting the exposure are across the street on a public highway, approximately 27 ft. distant and the said building is equipped throughout with an approved sprinkler system and all openings on the public highway being of fireproof construction.

Resolved, that the order of the fire commissioner be and it hereby is *granted*, only so far as it affects windows not on the course of public corridors, fire escapes or stair halls, *on condition* that the existing use and occupancy remains substantially unchanged.

1127-27-A.

APPELLANT—Alan M. E. Johnstone, for Happiness Candy Stores, Inc., lessee.

SUBJECT—Appeal from order of the fire commissioner.

PREMISES AFFECTED—135 West 42nd street, Manhattan.

APPEARANCES—

For Appellant: Alan M. E. Johnstone.

For Administration: Inspector Meyer of fire department.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Walsh, Commissioners
Connell, Holland and Guilfoyle and Chief
Kenlon 5
Negative 0
Absent 0

THE RESOLUTION—

(1127-27-A)

WHEREAS, Alan M. E. Johnstone, for Acker, Merrill & Condit, owner, filed, October 20, 1927, an appeal from an order of the fire commissioner, affecting premises 135 West 42nd street, Borough of Manhattan; and

WHEREAS, the order of the fire commissioner, dated October 3, 1927 (Order No. 29859-LC), reads:

"Inspection of your premises shows you are storing and using liquefied chlorine contrary to the provisions of Section 214-A, Chapter 10, Code of Ordinances. The building is within 50 feet of the Henry Miller Theatre and has no sprinkler system. The chlorine is not in a fireproof room on the ground floor.

"You are therefore, hereby, ordered to

"1. Remove all liquefied chlorine from the premises.";

and

WHEREAS, the building is non-fireproof, four stories in height, 60 ft. by 94 ft. 5 in. in area at first story; OCCUPIED: cellar, storage; 1st story, stores, 14 persons; 2nd story, offices, 10 persons; 3rd story, offices, 9 persons; 4th story, offices, 5 persons; and

WHEREAS, the appellant claims that not more than ten pounds of chlorine is maintained on the second story of the premises at any time; that the chlorine gas is used in minute quantities for the treatment of diseases; that the chlorine cylinders are maintained in a metal container filled with water; furthermore, the appellant contends that the chlorine equipment is safely installed so as to reduce all hazard.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that there shall be but one five-pound cylinder of liquefied chlorine maintained on these premises at any one time, located on the fourth story, as indicated in plans filed with the appeal, for use in medical practice under the supervision and direction of properly licensed medical doctors; that the five-pound cylinder of liquefied chlorine shall be maintained immersed in water in a metal

MINUTES

drum of not less than 55 gallons capacity, and that a metal duct ventilator shall be provided from the room in which the cylinder is maintained to the outer air, equipped with a mechanical blower.

1072-27-A.
APPELLANT—Springsteen & Goldhammer, for Winter & Wilkes, Inc., owner.

SUBJECT—Appeal from order of the fire commissioner.
PREMISES AFFECTED—243 West 34th street, Manhattan.

APPEARANCES—
For Appellant: Albert Goldhammer.
For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—
Affirmative: Chairman Walsh, Commissioners Connell, Holland and Guilfoyle and Chief Kenlon 5
Negative 0
Absent 0

THE RESOLUTION—
(1072-27-A)

WHEREAS, Springsteen & Goldhammer, for Winter & Wilkes, Inc., owner, filed, October 4, 1927, an appeal from an order of the fire commissioner, affecting premises 243 West 34th street, Borough of Manhattan; and

WHEREAS, the order of the fire commissioner, dated March 7, 1927 (Order No. 11633-F), reads:

"1. Provide iron shutters at all openings in the exterior wall above 1st story which are distant in a direct line less than 30' from any opening in any other building and not in the same plane with said openings and which are not more than 50' above a neighboring roof at west side of building, or other approved protection, as per sec. 375, Art. 18, Ch. 5 of the Code of Ordinances.";

and
WHEREAS, the building is non-fireproof, four stories (51 ft.) in height, 22 ft. 10 in. by 98 ft. 9 in. in area; OCCUPIED: 1st story, store; upper stories as studios and offices; 1st story, 7 persons; 2nd story, 6 persons; 3rd story, 10 persons; 4th story, 7 persons; and

WHEREAS, there are three windows in the westerly wall of the building, in each story above the first story, within 26 ft. 4 in. of openings in a neighboring two-story building to the west and two windows in the northerly wall; on each story above the first story, within 12 ft. 1 in. of openings in or within 50 ft. of the extension roof of a neighboring 17-story building to the north; and

WHEREAS, appellant contends that the building forming the exposure to the west is occupied as an office building; that the building to the north is a fireproof building, having fireproof windows, and that the windows in question are not near exits.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted*, only as far as it affects the windows not on the course of fire escapes, corridors, stair halls or public passages, *on condition* that the building shall not be increased in height, area or dimension, and granted only as long as the present use and occupancy remains unchanged.

1047-27-A.
APPELLANT—Croker Natl. Fire Prev. Eng. Co., for Miriam L. Mooney, owner.

SUBJECT—Appeal from order of the fire commissioner.
PREMISES AFFECTED—38 Pine street, Manhattan.

APPEARANCES—
For Appellant: Herman E. Horwood.
For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Walsh, Commissioners Connell, Holland and Guilfoyle and Chief Kenlon 5
Negative 0
Absent 0

THE RESOLUTION—

(1047-27-A)

WHEREAS, Croker National Fire Prevention Engineering Co., for Miriam L. Mooney, owner, filed, September 26, 1927, an appeal from an order of the fire commissioner, affecting premises 38 Pine street, Borough of Manhattan; and

WHEREAS, the order of the fire commissioner, dated May 25, 1927 (Order No. 21674-F, reads:

"1. Provide iron shutters at all openings in the exterior wall above 1st story which are distant in a direct line less than 30' from any opening in any other building and not in the same plane with said openings and which are not more than 50' above a neighboring roof at north side of building, or other approved protection, as per Sec. 375, Article 18, Chapter 5 of the Code of Ordinances.";

and

WHEREAS, the building is fireproof, five stories (70 ft. 3 in.) in height, 23 ft. 7 in. by 61 ft. 8 in. in area at first story and 23 ft. 7 ft. by 57 ft. 6 in. in area above; OCCUPIED as an office building, approximately 5 persons per story; and

WHEREAS, there is one opening, 17 ft. 6 in. wide and 8 ft. 6 in. in height, in the north wall of the building, on the second, third, fourth and fifth stories of the building; the openings are equipped with windows having wood mullions and glazed with double thick plain glass; said openings being within 50 ft. of the extension roof and within 30 ft. of openings in a neighboring 15-story building to the north and, also, within 30 ft. of openings in a 19-story office building to the north; and

WHEREAS, appellant contends that, owing to the width of the windows in question, it is impracticable to hang iron shutters to protect the openings; that the windows forming the exposures are in fireproof buildings and that the present conditions have existed since the erection of the building in 1888; and

WHEREAS, the board has granted a variation of the law, affecting the premises immediately to the rear, which forms the exposure on which the order is based; and

WHEREAS, this building is in single tenancy and operation.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted*, only so far as it affects the windows in the rear wall, *on condition* that the building shall not be increased in height, area or dimension; that the use and occupancy of the building shall remain as at present in single tenancy and occupancy as lawyers' offices throughout and that the adjoining exposures to the rear shall remain substantially unchanged.

131-28-A.
APPELLANT—H. Blumkin, for City of New York (Dept. of Correction), owner.

SUBJECT—Appeal from decision of the fire commissioner.
PREMISES AFFECTED—149 Ashland place, Brooklyn.

APPEARANCES—
For Appellant: H. Blumkin.
For Administration: Inspector Carroll of fire department.

ACTION OF BOARD—Appeal granted on condition.

MINUTES

THE RESOLUTION—

(131-28-A)

WHEREAS, H. Blumkin, for Department of Correction, City of New York, owner, filed, February 10, 1928, an appeal from a decision of the fire commissioner, affecting premises 149 Ashland place, Borough of Brooklyn; and

WHEREAS, the decision of the fire commissioner rendered February 1, 1928 (re Plan 310-1928), reads:

"1. No refrigerating system using an irritant refrigerant shall be installed or maintained in any building used as a hospital or a jail, unless the room or rooms containing the refrigerating system are cut off from the building or parts of the building by unpierced fireproof construction."

and

WHEREAS, the building is fireproof, four stories in height, 112 ft. by 60 ft. in area; OCCUPIED: 1st story, kitchen and storerooms; 2nd story, administrative offices; 3rd story, warden's apartment; 4th story, clergy and chapel; and

WHEREAS, the appellant proposes to install a refrigerating system in the southwest room on the first story consisting of a large ice box, with sulphur dioxide circulating in a system of copper tubing, the entire system requiring about twenty-six pounds; and

WHEREAS, the appellant claims that the building was erected in 1913; that the prison building adjoining was erected fifty years ago; that the refrigerating room is at least 40 ft. away from any entrance to the prison and is also provided with more than three times as much window area as required by law.

Resolved, that the decision of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted*, as to Item 1, of decision, for use in a single refrigerating unit maintained in a room on the ground floor located at the southwest corner of the premises, *on condition* that the walls of this enclosing room shall be of approved fireproof construction, ceiling and floor of same to be constructed of brick arches; that there shall be not less than four exterior windows, opening directly to the outer air from this room, with not more than one interior door opening from said room, which opening shall be equipped with a kalamein door, opening in, provided with interlocking metal strips at jambs, head and sill, and *on the further condition* that the use and operation of this refrigerating unit shall be under the supervision of a licensed engineer at all times.

(1018-27-BZ)

WHEREAS, Charles Pfeifer and Meta Frese, owners, filed, September 17, 1927, an application, under the building zone resolution, to permit in a business district the erection and maintenance of a gasoline service station; premises 2560 Coney Island avenue and 827 Gravesend Neck road, Borough of Brooklyn; and

WHEREAS, a public hearing was held on this application by the board of standards and appeals, at its regular meeting, March 13, 1928, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Coney Island avenue is in a business district, Gravesend Neck road is in a business district and East 8th street is in a residence district; and

WHEREAS, the decision of the fire commissioner, rendered August 18, 1927 (re Plan No. 2333-27), reads:

"1. A gasoline service station may not be permitted in a business district. Appeal may be taken to the Board of Standards and Appeals."

and

WHEREAS, the premises consists of a plot of ground 70 ft. 1½ in. by 80 ft., on which is located a three-story frame structure, 20 ft. by 46 ft., and store and dwelling, a one-story garage, 20 ft. by 35 ft.; it is proposed to remove the frame structure and occupy the premises as a gasoline service station; and

WHEREAS, the board deemed that applicant did not substantiate his basis of appeal brought under section 21 of the building zone resolution.

Resolved, that the decision of the fire commissioner be and it hereby is *affirmed*, and the application be and it hereby is *denied*.

THE RESOLUTION—

(885-27-BZ)

WHEREAS, William Shary, for Eugene H. McCauliff, owner, filed, August 4, 1927, an application, under the building zone resolution, to permit in a business district the erection and maintenance of a garage for the storage of more than five motor vehicles; premises 2722-2728 Bailey avenue, Borough of The Bronx; and

WHEREAS, a public hearing was held on this application by the board of standards and appeals, at its regular meeting, March 13, 1928, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Bailey avenue, east side, is in a business district, Bailey avenue, west side, is in an unrestricted district and Heath avenue is in a residence district; and

WHEREAS, the decision of the superintendent of buildings, rendered July 25, 1927 (re N. B. 1559-27), reads:

"1. Erection of proposed garage for storage of more than five motor vehicles in business district is contrary to provisions of Building Zone Resolution."; and

WHEREAS, the proposed building is to be of non-fireproof construction, two stories in height, with a frontage of 100 ft. and a depth of 100 ft.; to be occupied as a garage for the storage of more than five motor vehicles; and

WHEREAS, the board deemed that applicant was not entitled to relief under section 21 in view of the fact that the east side of Bailey avenue is as yet undeveloped and the existing surrounding conditions do not warrant the erection of a garage on the property under appeal.

Resolved, that the decision of the superintendent of buildings be and it hereby is *affirmed*, and the application be and it hereby is *denied*.

THE RESOLUTION—

(937-27-BZ)

WHEREAS, Philip J. Sinnott, for Abraham Linsky, owner, filed, August 19, 1927, an application, under the building zone resolution, to permit in a business district the erection and maintenance of a gasoline service station; premises 5338-5342 Kings Highway, northwest corner of Farragut road, Borough of Brooklyn; and

WHEREAS, a public hearing was held on this application by the board of standards and appeals, at its regular meeting, March 13, 1928, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Kings Highway is in a business district, Farragut road is in an unrestricted district and East 52nd street is in an unrestricted district; and

WHEREAS, the decision of the superintendent of buildings, rendered March 11, 1927 (re App. No. 3956-1927), reads:

"Application denied, contrary to Art. 2, Sec. 4-a-46 of Zone Resolution.

"Erection of gasoline station in business district.";

and

WHEREAS, the premises consist of a plot of ground having a frontage of 54.09 ft. on Kings Highway and 114.4 ft. on Farragut road, upon which is located a one-story frame, cement block factory; it is proposed to erect upon the plot a one-story brick office and accessory store, four gasoline storage tanks and the necessary pumps for a gasoline service station; and

WHEREAS, this plot faces on Farragut road directly in front of the railroad embankment and projects on its westerly line into an unrestricted district.

Resolved, that the board of standards and appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted on condition* that there shall be erected on the northerly property line a brick wall, not less than 12 ft. in height above grade, with return abutment on the westerly property line, said wall to be finished on both sides with light-colored face brick; that any existing non-fireproof structure shall be demolished and removed; that the premises shall be occupied by not more than one building not exceeding 15 ft. by 20 ft. in area, for the use and convenience of patrons and as an office of business conducted on the premises; that this one-story building shall be finished on the exterior with light-colored face brick or enameled brick, the roof finished

with variegated slate or vitrified tile of Spanish type; that there shall be constructed on the building line of this plot on the Kings Highway and Farragut road sides a concrete curb not less than 18 in. in height and 12 in. in width, with not more than one driveway to the Kings Highway front; that the gasoline pumps shall be installed not less than 10 ft. inside the building line on the Kings Highway front; that there shall be no portable gasoline tanks maintained or operated on these premises; any advertising display shall be restricted to the walls on the interior of the lot and the glass globes of the gasoline pumps; that all permits required shall be obtained within six months and all work involved completed within one year from the date of this action.

THE RESOLUTION—

(941-27-BZ)

WHEREAS, William F. Doyle, for Builders Garage Corp., owner, filed, August 20, 1927, an application, under the building zone resolution, to permit in a business district, extending from an unrestricted district, the erection and maintenance of a garage for the storage of more than five (5) motor vehicles; premises 1104-1112 Pacific street, Borough of Brooklyn; and

WHEREAS, a public hearing was held on this application by the board of standards and appeals, at its regular meeting, January 17, 1928, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Pacific street and Dean street are in residence and unrestricted districts and that Franklin avenue is in a business district; and

WHEREAS, the decision of the superintendent of buildings, rendered August 18, 1927 (re App. No. 14489-1927), reads:

"1. Pacific St., within 100 ft. of Franklin Ave. is zoned business and no garage for over 5 cars is permitted on that portion of the plot. Art. II, Sec. 4 (a 15), Zone Resolution.

"Above application is therefore denied.";

and

WHEREAS, the proposed building is to be of non-fireproof construction, two stories in height, with a frontage of 95 ft. and a depth of 100 ft. and 110 ft.; to be occupied as a garage for the storage of more than five motor vehicles; and

WHEREAS, the board deemed that applicant substantiated his basis of appeal under sections 7b and 7c of the building zone resolution and was entitled to relief under section 21; and

WHEREAS, this application was granted by the board at its meeting, January 17, 1928, on certain conditions, and applicant requested an amendment of these conditions as to ramps.

Resolved, that the board of standards and appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted on condition* that the building shall not exceed a height of two stories above grade; that the building shall be constructed fireproof throughout; that no vehicular opening shall be installed within the business use area of the plot; that the grade of any ascending ramp installed shall start not less than 10 ft. inside the building line and shall be located at the westerly end of the premises; that the easterly end, first story, front, within the business use area, shall be developed and maintained as an office use and occupancy in conjunction with the business conducted on the premises; that any gasoline storage equipment installed shall be located and confined to the unrestricted area of this property; that there shall be no advertising roof signs erected or maintained; that any advertising on the front of the building shall be restricted to an electric projecting sign and a flat wall sign; that the easterly gable wall shall be finished in light-colored brick or painted a light color, and that all permits shall be obtained within nine months and any work involved shall be completed within one year from the date of this action.

THE RESOLUTION—

(37-27-BZ)

WHEREAS, John J. Dunnigan, for Louis F. Mentz, owner, filed, January 12, 1927, an application, under the building zone resolution, to permit the extension, from a business district into a residence district, of a proposed business and theatre building; premises 1034-1042 Ogden avenue, Borough of The Bronx; and

WHEREAS, a public hearing was held on this application by the board of standards and appeals, at its regular meeting, May 3, 1927, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that West 165th street is in a business district, that Nelson avenue is in a residence district and that Ogden avenue is in a business district; and

WHEREAS, the decision of the superintendent of buildings, rendered January 7, 1927 (N. B. 41-27), reads:

"1. Erection of proposed business and theatre building in a business district, extending into a residence district is contrary to provisions of Building Zone Resolution.";

and

WHEREAS, the proposed building is to be of fireproof construction, theatre portion is one clere story and Ogden avenue portion is two stories in height, with a frontage of 100 ft. and a depth of 152.73 ft. (irregular); to be occupied as a theatre building; and

WHEREAS, the board deemed that the application comes within the purview of section 7c, as well as section 21, in view of the hardship and practical difficulties if not permitted to use entire plot; and

WHEREAS, this application was granted by the board at its meeting, May 3, 1927, on certain conditions, and applicant requested a modification of the time limit.

Resolved, that the board of standards and appeals does hereby *make a variation* in the application of use district regulations of the building zone resolution, and that the application be and it hereby is *granted on condition* that the theatre occupancy shall be restricted to a single auditorium plan with no balconies or galleries; that the gable walls on the property line shall be unpierced throughout their entire height and length; that a court not less than the required legal width shall be provided at the northerly and southerly gables on the Nelson avenue front; that any openings from the theatre into southerly court shall be restricted to emergency exit use and operation only; that the commercial use and operation for entrance and exit purposes in the operation of the theatre shall be restricted to the northerly court on the Nelson avenue front, part of which lies within a business use area; that the building wall on the Nelson avenue front shall be unpierced throughout its entire height and length and shall be of an attractive architectural treatment with pilaster and panel design; that all exposed surfaces of the courts and Nelson avenue front walls shall be finished with face brick and architectural terra cotta or stone trimmings; that the building shall be constructed in accordance with article 25 of the building code throughout; that no part of the Nelson avenue front, including the courts opening to the Nelson avenue front, shall be used or employed for the display of any advertising of any nature or description, and that return drawings shall be submitted

THE RESOLUTION—

(496-26-BZ)

WHEREAS, William F. Doyle, for The Debb Corp., owner, filed, June 2, 1926, an application, under the building zone resolution, to permit in a business district the erection and maintenance of a garage for the storage of more than five motor vehicles; premises southeast corner of Jerome avenue and East Van Cortlandt avenue, Borough of The Bronx; and

WHEREAS, a public hearing was held on this application by the board of standards and appeals, at its regular meeting, December 14, 1926, and November 29, 1927, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Jerome avenue and East Van Cortlandt avenue are in business districts and Villa avenue is in a residence district; and

WHEREAS, the decision of the superintendent of buildings, rendered May 21, 1926, reads:

"Erection of the proposed garage for storage of more than five motor vehicles in business district is contrary to provisions of the Building Zone Resolution.";

and
WHEREAS, the proposed building is to be of non-fireproof construction, two stories in height, with a frontage of 86.59 ft. on Jerome avenue and 118.39 ft. on East Van Cortlandt avenue; to be occupied as a garage for the storage of more than five motor vehicles; and

WHEREAS, this application was granted by the board December 14, 1926, on certain conditions, and applicant requested a reopening of the case and the inclusion in the area of an additional lot and the increase in height to two stories, and case was reopened by vote of the board; and

WHEREAS, this board under the original application did grant a variation covering the plot with the exception of the present 25-ft. lot; and

WHEREAS, this application was granted by the board at its meeting, November 29, 1927, on certain conditions, and applicant requested a modification of these conditions as to rear yard.

Resolved, that the board of standards and appeals does hereby make a variation in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is granted on condition that

the building be restricted in height to two stories above grade; that it shall be constructed fireproof throughout, with a rear yard of not less than 10 ft. established at the level of the second story beginning at a point 124.96 ft. southerly from East Van Cortlandt avenue; that the deck or the rear yard at second story level shall be provided with flat skylights glazed with wire glass; that a flat wall ventilator shall be installed running the length of the rear yard at second story level, rigidly fixed to the easterly gable wall, second story; that the easterly and southerly gable walls shall be unpierced throughout their entire height and length for the first story, and any windows installed in the easterly gable wall on the second story shall be equipped with steel frames and translucent wire glass with one ventilator to each sash of any window; that any gasoline storage equipment installed shall be restricted to the Jerome avenue front and located at the southerly end of the structure; that the elevations on Van Cortlandt avenue and Jerome avenue fronts shall be finished with face brick and architectural terra cotta or stone trimmings; that there shall be no signs erected or advertising displayed other than one electric projecting sign restricted to the Jerome avenue front; that all permits necessary for the prosecution of the work shall be obtained within nine months and any work involved completed within eighteen months from the date of this action.

212-27-BZ.

APPLICANT—William F. Doyle, for Golran Realty Corp., owner.

SUBJECT—Application for reopening—amendment of resolution—re application (decision of the superintendent of buildings under section 21 of the building zone resolution, to permit in a business district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles.

PREMISES AFFECTED—East side of Jerome avenue, 78.98 feet south of Mosholu Parkway, South, The Bronx.

APPEARANCES—

For Applicant: William F. Doyle.

For Opposition: None.

ACTION OF BOARD—Application reopened and resolution amended.

THE VOTE TO REOPEN AND AMEND RESOLUTION—

Affirmative: Chairman Walsh, Commissioners Connell, Holland and Guilfoyle and Chief Kenlon

Negative 5
Absent 0

THE RESOLUTION—

(212-27-BZ)

WHEREAS, William F. Doyle, for Golran Realty Corp., owner, filed, March 2, 1927, an application, under the building zone resolution, to permit in a business district the erection and maintenance of a garage for the storage of more than five motor vehicles; premises east side of Jerome avenue, 78.98 ft. south of Mosholu Parkway South, Borough of The Bronx; and

WHEREAS, a public hearing was held on this application by the board of standards and appeals, at its regular meeting, June 28, 1927, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Jerome avenue is in a business district, Grand Concourse is in a residence district and East Van Cortlandt avenue is in a business district; and

WHEREAS, the decision of the superintendent of buildings, rendered February 28, 1927 (N. B. 390-1927), reads:

"1. Erection of proposed garage for storage of more than five motor vehicles in business district is contrary to provisions of Building Zone Resolution.";

and

MINUTES

WHEREAS, the proposed building is to be of non-fireproof construction, two stories in height, with a frontage of 480.96 ft. and a depth of 26 ft. and 140 ft., irregular; to be occupied as a garage for the storage of more than five motor vehicles; and

WHEREAS, the property, a triangular block, is in single ownership and it is proposed to erect a six-story apartment house on the Grand Concourse and East Van Cortlandt avenue and the northerly end of the Jerome avenue for a distance 163 ft. southerly from the northerly line of this property; and

WHEREAS, it is proposed to erect this garage as an accessory use to the proposed apartment house developed on the remainder of this triangular block, the board deemed that applicant was entitled to the relief requested under section 21 of the building zone resolution; and

WHEREAS, this application was granted by the board at its meeting, June 28, 1927, and July 26, 1927, on certain conditions, and applicant requested a modification of these conditions as to the roofing of the other structure on plot before starting work on the garage and as to vehicular exits, which request was granted.

Resolved, that the board of standards and appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted on condition* that the building shall not exceed two stories in height above grade and shall be constructed fireproof throughout; that there shall be not more than one vehicular exit on the East Van Cortlandt avenue frontage, located not more than 25 ft. from the apex of the building formed by the intersection of Jerome avenue and East Van Cortlandt avenue; that there shall be no gasoline pump installed or maintained within 25 ft. of the corner formed by the intersection of East Van Cortlandt avenue and Jerome avenue; that the rear and gable walls shall be unpierced throughout their entire height and length; that the garage shall be at a point not less than 183.69 ft. southerly from the intersection of the Jerome avenue and Grand Concourse line; that there shall be no sign or advertising of any nature or description displayed on the exterior of any part of these premises, other than a flat wall sign built into the structure; that the exterior of the building on the street fronts shall be finished with face brick and architectural terra cotta or stone trimmings and shall be of attractive architectural design; that the floor area of this garage shall be subdivided into three units by walls of approved masonry, any openings therein to be equipped with automatic windows; that any skylights installed in the roof of this structure shall be set not less than 30 ft. from the rear wall and shall be of the automatic type, glazed with plain glass, protected with wire guards above and below; that the entire remainder of the plot shall be developed and restricted to conforming dwelling house occupancy and use; that the architect shall make a return of the proposed design of garage to this board for approval before submitting same to the superintendent of buildings; that all permits required shall be obtained within nine months and the work completed within eighteen months from the date of this action.

CASES DISMISSED.

Appeal from Administrative Order.

The chairman called attention to the following case, where notices of intention to appeal were offered for filing; but where, despite notices from this office, papers have not been completed, thus tying the hands of the administrative official in the performance of his duty:

(1211-27-A)

Filed November 15, 1927—Premises 2260 Andrews avenue, Borough of The Bronx. Decision of the fire commissioner. Appellant: Harry T. Clark. Dismissed for lack of prosecution.

THE VOTE TO DISMISS—

Affirmative: Chairman Walsh, Commissioners Connell, Holland and Guilfoyle and Chief Kenlon	5
Negative	0
Absent	0

THE RESOLUTION—

WHEREAS, the foregoing appellant has filed an appeal with the board of standards and appeals from a decision of the fire commissioner, affecting the premises in question; and

WHEREAS, the appellant has failed to complete his papers, though duly notified to do so.

Resolved, that the foregoing appeal be and it hereby is *dismissed* for lack of prosecution.

Under the Building Zone Resolution.

The chairman called attention to the following cases, where notices of intention to appeal were offered for filing; but where, despite notices from this office, papers have not been completed, thus tying the hands of the administrative official in the performance of his duty:

(1167-27-BZ)

Filed October 21, 1927—Premises 287-289 Pacific street, Borough of Brooklyn. Decision of superintendent of buildings. Applicant: Henry J. Nurick. Dismissed for lack of prosecution.

(1192-27-BZ)

Filed November 11, 1927—Premises 1756-1764 Bushwick avenue, Borough of Brooklyn. Decision of superintendent of buildings. Applicant: Henry J. Nurick. Dismissed for lack of prosecution.

(1215-27-BZ)

Filed November 16, 1927—Premises 342-352 Coney Island avenue, Borough of Brooklyn. Decision of superintendent of buildings. Applicant: Jacob Lubroth, Inc. Dismissed for lack of prosecution.

THE VOTE TO DISMISS—

Affirmative: Chairman Walsh, Commissioners Connell, Holland and Guilfoyle and Chief Kenlon	5
Negative	0
Absent	0

THE RESOLUTION—

WHEREAS, the foregoing applicants have filed with the board of standards and appeals, applications, under the building zone resolution, affecting the premises in question; and

WHEREAS, the applicants have failed to complete their papers, though duly notified to do so.

Resolved, that the applications be and they hereby are *dismissed* for lack of prosecution.

AREA FIXED.

(48-28-BZ)

The chairman presented and read a communication from Messrs. Schreiber, Collins, Myers & Bucher, requesting the board to fix the area deemed affected and within which to obtain consents to permit, partly in a business district and partly in a residence district, the erection and maintenance of a garage for the storage of more than five motor vehicles; premises 228-232 Nagle avenue, Borough of Manhattan.

The following area was approved by the board:

Both sides of Nagle avenue from a point 100 ft. south of Academy street to a point 400 ft. north of proposed garage; the north side of Academy street from Nagle avenue to Post avenue; also the east side of Post avenue from Academy street to a point 300 ft. north of Academy street.

BOARD OF STANDARDS AND APPEALS

REGULAR MEETING

TUESDAY AFTERNOON, MARCH 13, 1928.

Present: Acting Chairman Connell, Commissioners Holland and Guilfoyle and Deputy Chief Martin.

PETITIONS FOR VARIATIONS.

116-27-S.
PETITIONER—William F. Doyle, for Central Zone Corp., owner.

SUBJECT—Variation of the labor law as cited in orders of the fire commissioner and superintendent of buildings.

PREMISES AFFECTED—15-19 East 33rd street and 18-22 East 34th street, Manhattan.

APPEARANCES—

For Petitioner: William F. Doyle.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Laid over to April 3, 1928, at 2 p. m., on request of petitioner.

632-27-S.
PETITIONER—Joseph A. Cox, for Survey Investors, Inc., owner.

SUBJECT—Variation of the labor law as cited in order of fire commissioner.

PREMISES AFFECTED—303-305 Fifth avenue, Manhattan.

APPEARANCES—

For Petitioner: Joseph A. Arenson.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Laid over to April 10, 1928, at 2 p. m., on request of petitioner's representative.

1216-27-S.
PETITIONER—United Real Estate Owners Association, for Recht and Rosenblum, Inc., lessee.

SUBJECT—Variation of the labor law as cited in order of fire commissioner.

PREMISES AFFECTED—606-612 West 49th street, Manhattan.

APPEARANCES—None.

ACTION OF BOARD—Petition withdrawn.

THE VOTE—

Affirmative: Acting Chairman Connell, Commissioners Holland and Guilfoyle and Deputy Chief Martin..... 4

Negative 0

Absent: Chairman Walsh..... 1

APPLIANCES SUBMITTED FOR APPROVAL.

955-27-SA.

PETITIONER—John T. Cook, owner.

SUBJECT—Cook's Automatic Oil Burner, approval of.

APPEARANCES—

For Petitioner: John T. Cook.

For Administration: None.

ACTION OF BOARD—Petition placed on Reserve Calendar subject to inspection and report by committee of board.

698-27-SA.

PETITIONER—Everite Utilities Corp.

SUBJECT—Everite Oil Burner, approval of.

APPEARANCES—

For Petitioner: Nathan Arvintz.

For Administration: None.

ACTION OF BOARD—Petition withdrawn on request.

THE VOTE—

Affirmative: Acting Chairman Connell, Commissioners Holland and Guilfoyle and Deputy Chief Martin..... 4

Negative 0

Absent: Chairman Walsh..... 1

CASES DISMISSED.

Variations of the Labor Law.

The chairman called attention to the following cases, where notices of intention to petition were offered for filing; but where, despite notices from this office, papers have not been completed; thus tying the hands of the administrative official in the performance of his duty:

(1169-27-S)

Filed October 31, 1927—Premises 548-550 West 23rd street, Borough of Manhattan. Order of the fire commissioner. Petitioner: Wells & Newton Co., Inc. Dismissed for lack of prosecution.

(1209-27-S)

Filed November 15, 1927—Premises 10 West 55th street, Borough of Manhattan. Order of the fire commissioner. Petitioner: Patrick J. Murray. Dismissed for lack of prosecution.

(1210-27-S)

Filed November 15, 1927—Premises 42-46 West 38th street, Borough of Manhattan. Order of the fire commissioner. Petitioner: Realty Supervision Co. Dismissed for lack of prosecution.

THE VOTE TO DISMISS—

Affirmative: Acting Chairman Connell, Commissioners Holland and Guilfoyle and Deputy Chief Martin..... 4

Negative 0

Absent: Chairman Walsh..... 1

THE RESOLUTION—

WHEREAS, the foregoing petitioners have filed with the board of standards and appeals petitions for variations from the requirements of the labor law, affecting the premises in question; and

WHEREAS, the petitioners have failed to complete their papers, though duly notified to do so.

Resolved, that the petitions be and they hereby are dismissed for lack of prosecution.

Balance of Calendar laid over to Special Meeting, Friday morning, March 16, 1928, at 10 o'clock.

Adjourned 5.30 p. m.

WILLIAM J. O'GORMAN, Secretary.

FORMS FOR NOTICES TO PROPERTY OWNERS

If applicants, under the building zone resolution, desire copies of Form 13A, for notices to property owners, such forms are not to be supplied by this office.

The applicant is entitled only to one copy of Form 13A, properly filled out.

If he desires additional copies for his own convenience, in notifying property owners, he can obtain such copies from The O'Connell Press, 176 Park Row, Manhattan, at three cents each, postage to be added if the forms are to be supplied by mail.

WARNING

Notice is hereby given to all petitioners, appellants and applicants, and to all lawyers, architects and engineers representing owners or lessees in proceedings before the board—

First, That if they do not appear in person or by representative at the hearing on their case, dismissal for lack of prosecution is likely to result.

Second, That due and ample notice of the date set for hearing is provided in the publication in this BULLETIN of the calendars of the board, each case being set down by Calendar Number and premises under the date of the hearing.

Third, That no plea of ignorance of the date of the hearing can be entertained in view of this publication and of the posting of the calendars on the bulletin board in the

offices of the board and of the further publication of the calendars in the daily press.

Fourth, That no one is entitled to written notice of the date for the hearing in his case, and that the plea of failure to receive such notice is no excuse for neglect to appear.

Fifth, That the business of the board is to dispose of all cases promptly, for the reason that the pendency of an appeal or petition ties the hands of the administrative official in enforcing his order; therefore, no appeal or petition will be allowed to be hung up by reason of failure of the appellant or petitioner to file necessary data, or by any other method of delay.

Sixth, That no appeal, application or petition will be accepted for filing unless, at the time of filing, all papers, plans and data required by law are supplied, as specified on the blank appeal, application or petition forms.

Minutes of Regular Meeting, March 20, 1928, 2 p. m.

Corrections.

Rules for the Testing of Wood.

Reserve Calendar.

Progress Report.

PUBLIC HEARINGS

UNIVERSITY OF ILLINOIS

Tuesdays, at 10 a. m. and 2 p. m.
Special meetings as published in this Bulletin.
Call of Clerk's Calendar, Tuesdays, at 2 p. m.
All hearings are held in Room 1013, Municipal Building, Manhattan.

HOURS FOR CONSULTATION

10 A. M. to 1 P. M.

Any person desiring to consult the chairman or the engineers, pertaining to the work of the board, will be seen only between the hours of ten in the morning and one in the afternoon—Saturdays excepted.

CALL OF CLERK'S CALENDAR

The *Clerk's Calendar* consists of applications under the Building Zone Resolution, and its object is to give interested property owners opportunity to file objections, if any, and will be called in Room 1013, Tuesday, March 27, 1928, at 2 o'clock. At this call each case is set for hearing on a definite day.

The next subsequent Call of the Calendar will be on Tuesday, April 3, 1928, at 2 o'clock.

The *Clerk's Calendar* is not to be confused with the calendar of cases that have been definitely set for hearing on fixed days.

NOTICE TO APPELLANTS AND PETITIONERS

No appeal, application or petition will be entertained in connection with which court proceedings are pending or in progress, nor accepted that are not filed within twenty days from the date of the action of the Administrative Official.

Any communication purporting to be an appeal, application or petition shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this board.

Upon receipt of any such communication the writer will be supplied with the official forms for presenting his appeal, application or petition, and if he fails to supply the data required thereon, within twenty days, his case may be dismissed for lack of prosecution.

At the time of filing an application, the appellant or petitioner shall forward a signed notice of appeal addressed to the administrative official (either superintendent of buildings or fire commissioner) and file with this board a duplicate of said notice.

Petitioners are advised that their plans must indicate the points of the compass so as to establish the true location and position of the property, the subject of the appeal.

Appeals, applications and petitions will be simplified and disposition of same expedited by conforming to these directions.

WILLIAM E. WALSH, Chairman.

RULES

REPORTING STRUCTURAL ALTERATIONS, ADOPTED FEBRUARY 8, 1917, UNDER CAL. 352-16-S.

Resolved, That for the purpose of establishing uniform practice with regards to the reporting of structural alterations made under the requirements of the labor law, the following rule be and it is hereby adopted:

When plans have been filed with the proper superintendent of buildings and structural alterations have been made to comply with the requirements of the labor law relating to exits and fire protection, or with an order of the State

Labor Department relating to exits issued prior to October 1, 1916, or with an order of the fire commissioner issued subsequent to October 1, 1916, a report shall be made by the superintendent of buildings to the fire commissioner stating whether the work done complies with the order of the State Labor Department, with the order of the fire commissioner, or with the provisions of the State Labor Law, as the case may be.

MINUTES

THE RESOLUTION—

(1124-27-S)

WHEREAS, John J. Gilmartin, for W. Haitch Realty Co., owner, filed, October 20, 1927, a petition for a variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 248½-250 West 40th street, Borough of Manhattan; and

WHEREAS, the order of the fire commissioner, dated September 2, 1927 (Order No. 25783-LD), reads:

"1. Remove all partitions not built of incombustible material as per Sections 263 and 270 of the Labor Law.";

WHEREAS, the building is fireproof, 14 stories in height, 39 ft. 6 in. by 99 ft. in area at first story and 39 ft. 6 in. by 39 ft. in area above; OCCUPIED as a tenant factory, 60 persons on each story; EQUIPPED with a sprinkler system; EXITS: a fire tower; an interior fireproof stairway, extending from the first story to roof, enclosed in fireproof partitions with fireproof doors at openings; and

WHEREAS, the petitioner claims that the order affects the second, third, fifth, eighth, thirteenth and fourteenth stories; that the partitions are of wood and sheet rock construction, 8 ft. in height; that these combustible partitions are the property of the tenants; furthermore, the petitioner contends that to comply with the order would be necessary to evict the lease and vacate the tenant, which would be a great loss and hardship to the owner.

Resolved, that the order of the fire commissioner be and it hereby is affirmed, and that the petition be and it hereby is denied.

1073-27-S.

PETITIONER—Charles P. Cannella, for Giuseppe Gulotta, owner.

SUBJECT—Variation of the labor law as cited in decision of the health commissioner.

PREMISES AFFECTED—211 Himrod street, Brooklyn.

APPEARANCES—

For Petitioner: Charles P. Cannella.

ACTION OF BOARD—Petition denied.

THE VOTE TO GRANT—

Affirmative: Commissioner Guilfoyle and Chief Kenlon	2
Negative: Chairman Walsh, Commissioners Connell and Holland.....	3
Absent	0

THE RESOLUTION—

(1073-27-S)

WHEREAS, Charles P. Cannella, for Giuseppe Guletta, owner, filed, October 4, 1927, a petition for a variation from the requirements of the labor law, as cited in memorandum of inspection by the Department of Health, affecting premises 211 Himrod street, Borough of Brooklyn; and

WHEREAS, the decision by the Health Department, dated August 9, 1927, reads:

"At a meeting of the Board of Health of the Department of Health of The City of New York, held August 9, 1927, your application for a Sanitary Certificate for a cellar bakery at 211 Himrod Street, in the Borough of Brooklyn, was denied.";

WHEREAS, the building is frame, three stories and cellar, height, 25 ft. by 50 ft. in area; OCCUPIED: cellar, bakery, 3 persons; 1st story, store and dwelling; upper stories, dwellings; and

WHEREAS, the height of the cellar is 7 ft. 4 in., the ceiling being at curb level and the means of ventilation of the cellar being one window, 3 ft. by 6 ft. 6 in. in area, opening on the rear areaway, and two windows, each 2 ft. 6 in. by 4 ft. in area at the front of the building and below the show window; and

WHEREAS, the petitioner contends that the walls of the bakery are covered with one-inch plaster, the ceiling is

covered with ½-inch plaster boards and the floor is constructed of concrete; that the building was erected in 1892 and has been occupied as a cellar bakery since that time; that the present owner purchased the building in 1927 on the grounds that a bakery shop was in existence and that hardship would result if not permitted to use the premises as a cellar bakery.

Resolved, that the decision of the Health Department be and it hereby is affirmed, and that the petition be and it hereby is denied.

THE RESOLUTION—

(1001-27-S)

WHEREAS, Stephen H. Jackson, executor for owner, filed, September 12, 1927, a petition for a variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 154 East 23rd street, Borough of Manhattan; and

WHEREAS, the order of the fire commissioner, dated March 25, 1926, reads:

"Order No. 93306-LD:

"1. Provide safe and unobstructed egress from the lower termination of fire-escape at south side of building by constructing a fireproof passageway with an unobstructed width of at least 3 feet throughout, leading to the street, adequately lighted at all times during working hours, or by means of providing access to an open area having communication with the street, as per Section 273 of the Labor Law.";

and

WHEREAS, the building is non-fireproof, seven stories in height, 25 ft. by 93 ft. 9 in. in area at first story and 25 ft. by 88 ft. 9 in. in area above; OCCUPIED as a tenant factory, not more than ten persons on any story; EQUIPPED with a fire alarm signal system; EXITS: an interior wooden stairway, extending from the first story to roof, enclosed in fireproof partitions with fireproof doors at openings; a fire escape on the rear of the building, having fireproof openings along the course thereof, extending from the roof to the second story, with EGRESS from the termination of the fire escape by means of iron stairs leading to yard of adjoining premises at south; ROOFS of adjoining buildings: 8 ft. lower at west; and

WHEREAS, the petitioner claims that egress from termination of rear fire escapes may be had through unlocked gate in fence at rear, to yard adjoining at south, thence through open passageway of brick building to 22nd street; also, that there is an iron ladder connecting the main roof to roof adjoining at west.

Resolved, that the board of standards and appeals does hereby make a variation in the requirements of the labor law, and that the petition be and it hereby is granted, only so far as it affects the egress from the termination of the rear fire escape, on condition that an opening not less than 3 ft. in width, unlocked, shall be maintained from the rear

MINUTES

of the yard of these premises to the yard of the premises directly in the rear on East 22nd street, with egress through apartment house to the street; that the owner shall file with the fire department the consent of the adjoining owners at the rear for such egress; that the occupancy shall not exceed the legal capacity of the interior stairs, and this variation is granted so long as conditions as to occupancy and use remain substantially unchanged.

THE RESOLUTION—

(699-27-S)

WHEREAS, Turner Construction Co., for the Hudson Charlton Corp., owner, filed, June 17, 1927, a petition for a variation from the requirements of the labor law, as cited in a decision of the superintendent of buildings, affecting premises 333-339 Hudson street and 94-96 Charlton street, Borough of Manhattan; and

WHEREAS, the decision of the superintendent of buildings, dated May 6, 1927, reads:

"Your Building Notice of January 25, 1927, referring to premises 94-96 Charlton St., 333-9 Hudson Street, has been received. The proposed work is disapproved.

"Area of plate glass exceeds 720 sq. in. Must conform to Rule 503 of Industrial Code."

and

WHEREAS, the building is reinforced concrete fireproof construction, ten stories in height, 100.62 ft. by 99.62 ft. and 100.10 ft.; OCCUPIED: basement, storage, 3 persons; 1st story, stores and shipping, 30 persons; 2nd story, sales room for floor covering, 60 persons; 3rd to 8th stories, printers, 35 persons; 9th story, printers and radio, 35 persons; 10th story, fountain pen manufacturing, 100 persons; EQUIPPED with a sprinkler system and a fire alarm signal system and two standard means of exit; and

WHEREAS, the area of the glass in the street front show windows on Hudson street, south of the main entrance, is in excess of the requirements of the labor law; the two end units of the southerly window having an area of 2,500 sq. in. and the centre unit 2,700 sq. in.; the window to the north has two units of 2,800 sq. in. each; and

WHEREAS, this petition was denied by the board October 11, 1927, and reopened by vote of the board.

Resolved, that the board of standards and appeals does hereby make a variation in the requirements of the labor law, and that the petition be and it hereby is granted, only so far as it affects the windows on the store front, first story, south of the main entrance, on condition that the openings shall be equipped with approved metal frames and glazed with one-quarter-inch polished plate glass.

THE RESOLUTION—

(1104-27-S)

WHEREAS, Croker National Fire Prevention Engineering Co., for Estate of Samuel A. French, owner, filed a petition for a variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 7 West 31st street, Borough of Manhattan; and

WHEREAS, the order of the fire commissioner, dated May 13, 1927 (Order No. 20656-LD), reads:

"1. Arrange the fire escape at rear of building so that same will conform to Section 271 and 274 of the Labor Law.

"Defects noted are as follows:

"Windows and doors opening on course of fire escape not self-closing and in bad repair. Fire escape needs painting. No stairway from top balcony to roof. No safe egress from termination of fire escape to street."

and

WHEREAS, the building is non-fireproof, five stories in height, 25 ft. by 95 ft. 9 in. at first story, 25 ft. by 88 ft. 9 in. at second story and 25 ft. by 57 ft. in area above. OCCUPIED: 1st story, restaurant; 2nd story, vacant; 3rd story, dressmaking, 15 persons; 4th story, manufacture of cloaks, 7 persons; 5th story, vacant; EQUIPPED with a fire alarm signal system; EXITS: an interior wooden stairway, extending from the first story to top story, enclosed in wood lath and plaster partitions with wooden doors at openings; a fire escape on the rear of the building having fireproof openings along the course thereof, extending from the main roof to roof of second story, rear extension, from extension roof to balcony at rear of second story, and iron stairs to platform over rear area, with EGRESS from the termination of the fire escape by means of rear fire escape of building adjoining at east and to yard at north; ROOFS of adjoining buildings: two stories higher at west; five stories higher at east; and

WHEREAS, the petitioner claims, as to Item 1, that all defects will be complied with except the egress from termination of fire escapes to street, which may be had by means of platform over rear areaway connecting with fire escape on rear of building adjoining at east; furthermore the platform is also level with the yard adjoining at north which provides another means of egress through the open yard and premises at north.

Resolved, that the board of standards and appeals does hereby make a variation in the requirements of the labor law, and that the petition be and it hereby is granted, only so far as it affects egress from the termination of the fire escape, on condition that the lower stairs shall be connected to iron balcony of the adjoining premises to the east, first story, with egress therefrom through open yard at the rear of adjoining premises to the building directly to the rear on West 32nd street; that the occupancy shall not exceed twenty-five persons above the second story, and this variation is granted so long as conditions otherwise remain substantially unchanged.

1036-27-S.

PETITIONER—George Martin, for Buick Motor Company, lessee.

SUBJECT—Variation of the labor law as cited in order of the fire commissioner.

THE RESOLUTION—

(1036-27-S)

WHEREAS, George Martin, for Buick Motor Co., lessee, filed, September 22, 1927, a petition for a variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 208-212 West 76th street, Borough of Manhattan; and

WHEREAS, the order of the fire commissioner, dated April 14, 1927 (Order No. 16889-LD), reads:

"2. Provide an additional means of exit from the cellar preferably at front of building as per Section 271 of the Labor Law.

"3. Provide egress to the street from the interior stairway at east side of building, 1st story, by means of a passageway enclosed in fire resisting material, as per Section 271 of the Labor Law."

and WHEREAS, the building is non-fireproof, six stories in height, 70 ft. by 90 ft. in area; OCCUPIED: cellar, storage; 1st story, showroom office, 7 persons; 2nd story, automobile repair shop office, 8 persons; 3rd story, automobile repair, 4 persons; 4th story, automobile repair, 7 persons; 5th story, automobile repair shop, 4 persons; 6th story, automobile repair shop, 2 persons; the means of EGRESS consisting of an interior stairway, at the east side of building, extending from the cellar to the roof, enclosed in fire-retarding partitions with fireproof, self-closing doors at the openings; an interior stairway, at the west side of the building, extending from the first story to top story, with scuttle and ladder to the roof, enclosed in fire-retarding partitions of the box type; egress at the foot of the stairs being directly into the open loft in the first story; egress from the loft by two large doors to 76th street and a doorway at the rear leading to yard; a fire escape on the front of the building, which, it is proposed, to reconstruct in conformity with the requirements of the labor law; means of exit from the cellar consisting of a stair at the rear to the first story and two doors openings into an area at the front of the building with egress from the area by iron ladder to the street level; and

WHEREAS, petitioner requests the acceptance of the means of egress from the cellar and the acceptance of the egress in the first story contending that the erection of a passageway on the first story from the termination of the stairway would be a hardship as it would interfere with the carrying on of the business and render the east portion of the first floor useless.

Resolved, that the board of standards and appeals does hereby make a variation in the requirements of the labor law, and that the petition be and it hereby is granted, as to Item No. 2, on condition that a rigidly fixed iron ladder shall be provided at the front area to the street, and granted, as to Item No. 3, only so far as it affects the egress from the termination of the interior stairway, on condition that there shall be no other unprotected vertical opening on the first story; that an open, unobstructed passageway, not less than 10 ft. in width, shall be maintained from termination of stairway to the street.

THE RESOLUTION—

(1108-27-S)

WHEREAS, James W. Byrnes, for J. Mendelson, owner, filed, October 13, 1927, a petition for a variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 47-49-51 Pike street, Borough of Manhattan; and

WHEREAS, the order of the fire commissioner, dated June 18, 1927, reads:

"1. Enclose the interior stairway at center of building serving as a required means of exit, and the landings, platforms and passageways connecting therewith on all sides with partitions of fire resisting material extending continuously from the cellar to 3 feet above the roof, constructed as per Sec. 271 of the Labor Law or carry out a proper alternative method of complying with the requirements of Sec. 271 of the Labor Law.

"2. Arrange the fire escape at the front of building so that the same will conform to Sec. 271 of the Labor Law and the Rules of the Board of Standards and Appeals, adopted Feb. 23, 1927. Defects noted are as follows: (1) No fire door 2' x 6' at 7th story. (2) Windows and doors not self-closing and wire glass broken. (3) Fire escapes need painting. (4) No steps to sill provided.

"3. Arrange the fire escape at westerly end of rear wall of building so that same will conform to Sec. 271 of the Labor Law and the rules of the Board of Standards and Appeals adopted Feb. 23, 1927. Defects noted are as follows: (1) Windows on course not fireproof, self-closing. (2) No steps to sills. (3) Not screened to a height of 4' by 6'. (4) No fire doors 2' x 6' opening to balcony. (5) No stairway from lowest balcony. (6) No safe egress from termination of fire escape to street.

"4. Extend the interior stairway to the roof, as per Sec. 271 of the Labor Law."

and

WHEREAS, the building is non-fireproof, seven stories in height, 62 ft. 9 in. by 51 ft. 1 in. and 86 ft. 1 in. (irregular in area); OCCUPIED for sorting rags and manufacture of clothes, not more than 20 persons on any story; EQUIPPED with a sprinkler system and a fire alarm signal system; EXITS: an interior iron stairway, extending from the first story to top story, enclosed in wood stud lath covered with sheet metal partitions, with metal-covered doors at openings; two substandard fire escapes, one in south yard court and one in north yard court; a fire escape on the front of the building, having fireproof openings along the course thereof, except the top story, extending from the top story to second story and counterbalanced stairs to sidewalk; ROOFS of adjoining buildings: same level at south; 10 ft. lower at north; and

WHEREAS, the petitioner proposes, as to Item 1, to repair the defective metal covering on stair hall enclosure and paint the same; as to Item 2, to make repairs required by order affecting all stories except the top story; as to Item 3, to provide a sliding drop ladder in guides leading to yard adjoining at north where there is an open passageway 2 ft. 7 in. in width leading to Pike street; furthermore, the petitioner contends that the exits are adequate.

MINUTES

Resolved, that the board of standards and appeals does hereby *make a variation* in the requirements of the labor law, and that the petition be and it hereby is *granted*, as to Item No. 1, *on condition* that the variation as granted by the board affecting the same matter under Cal. No. 26-16-S shall be complied with and maintained; *granted*, as to Item No. 2, only so far as it affects the plain glass windows on the top story, and *granted*, as to Item No. 3, only so far as it affects the egress from the termination of the fire escape, on condition that the passageway not less than 2 ft. 7 in. in width leading directly to Pike street from the termination of the fire escape shall be maintained opened and unobstructed, and *granted*, as to Item No. 4, ratifying the action of the board of review, dated November 20, 1919, *on condition* that the stipulations of said resolution shall be complied with, and this variation is granted only so long as conditions as to occupancy and use remain unchanged.

THE RESOLUTION—

(769-27-S)

WHEREAS, Rees & Rees, owners, filed, July 1, 1927, a petition for a variation from the requirements of the labor law, as cited in orders of the fire commissioner, affecting premises 232-236 East 40th street, Borough of Manhattan; and

WHEREAS, the order of the fire commissioner, dated October 28, 1926 (Order No. 2923-LD), reads:

"1. Enclose the interior stairway at east side of building serving as a required means of exit, and the landings, platforms and passageways connecting therewith on all sides with partitions of fire resisting material extending continuously from the cellar to 3 feet above the roof, constructed as per Section 271 of the Labor Law or carry out a proper alternative method of complying with the requirements of Sec. 271 of the Labor Law.

"2. Extend the interior stairway at the east side of building to the roof, as per Sec. 271 of the Labor Law.

"3. Enclose in fire resisting material the interior stairway at west side of building from 6th story to roof and provide an enclosed passage from this stairway to the main exit stairway as per Sec. 271 of the Labor Law.

"4. Enclose the interior stairway at west side of building in cellar serving as a required means of exit in partitions of fire resisting material as per Sec. 271 of the Labor Law."

and

WHEREAS, the order of the fire commissioner, dated October 28, 1926 (Order No. 2924-LD), reads:

"3. Remove all signs and red lights from over standard fire escapes east and west sides on all stories, as per rule 3, of the Board of Standards and Appeals, adopted May 9, 1924."

and

WHEREAS, the order of the fire commissioner, dated October 28, 1926 (Order No. 2925-LD), reads:

"1. Arrange iron bars on windows on east, west and south sides of cellar and 1st story, so as to be readily movable or removable from both sides in such a manner as to afford the free and unobstructed use of such windows for purposes of egress, as per Sec. 272 of the Labor Law."

and

WHEREAS, the order of the fire commissioner, dated October 28, 1926 (Order No. 2926-LD), reads:

"1. Arrange main entrance door 1st story to be unlocked, so as to be opened from outside, as per Sec. 272 of the Labor Law."

and

WHEREAS, the building is non-fireproof, two, four and six stories in height, 56 ft. 8 in. by 139 ft. 9 in. in area at first story; OCCUPIED: cellar, engine room and dye house, 10 persons; 1st story, wet wash room, 10 persons; 2nd story office and stock room, 30 persons; 3rd story, curtain framing, 30 persons; 4th story, curtain finishing, 40 persons; 5th story, blanket finishing, 10 persons; 6th story, garment finishing, 65 persons; EQUIPPED with a fire alarm signal system; EXITS: an open interior wooden stairway at front east side, extending from first story to fourth story; two interior wooden stairways, extending from the cellar and from first story to top story, enclosed in hollow tile partitions with fireproof doors at openings; two fire escapes, one on the east side and one on the west side of the building having fireproof openings along the course thereof, extending from the ground to the roof, with EGRESS from the termination of the fire escape to adjoining yards at east and west; ROOFS of adjoining buildings: same level at east and west; and

WHEREAS, the petitioner claims, as to Order No. 2923-LD, Items 1 and 2, that the stairways were acceptable to the labor department on February 25, 1915; as to Item 3 of the same order, that a similar order was rescinded by the fire department on February 1, 1919; as to Item 4, of the same order, that this item will be complied with in manner as may be designated; as to Order No. 2924-LD, Item 3, that the two fire escapes affected, one on each side of the building, are structurally strong and may be safely used in case of fire; as to Order No. 2925-LD, that there are eight windows on the east side, nine windows on the south side, thirteen windows on the west side of the first story which are barred; that there are eight windows on the west side, nine windows on the south side and ten windows on the west side of cellar which are barred; that the goods handled on these stories are of considerable value and the windows are barred to prevent burglaries; as to Order No. 2926-LD, that the main entrance door has been provided with a wire glass panel and a panic lock; furthermore, the petitioner contends that the exits are adequate.

Resolved, that the board of standards and appeals does hereby *make a variation* in the requirements of the labor law, and that the petition be and it hereby is *granted*, as to Items No. 1 and 2, of Order No. 2923-LD, *on condition* that the stairway shall be enclosed with fire-resisting material that egress from the termination through 3 ft. open, unobstructed passageway shall be provided at the first story easterly side, through "office space" to the street; all door on line of travel to open out; as to Item 3, of Order No. 2923-LD, the petition be and it hereby is *granted on condition* that this interior stairway at west side of building shall be boxed in fire-resisting material on the top story, with a fireproof door at foot of stairs; as to Item 4, of Order No. 2923-LD, the petition be and it hereby is *denied*; as to Item 3, of Order No. 2924-LD, Item 1, of Order No. 2925-LD, and Item 1, of Order No. 2926-LD, the petition be and it hereby is *denied*.

APPEALS FROM ADMINISTRATIVE ORDERS
1089-27-A.

APPELLANT—Van Sinderen Lindsley, for Ocean Acci-
dent & Guarantee Corp., Ltd., lessee.

SUBJECT—Appeal from order of the superintendent of
buildings.

PREMISES AFFECTED—1 Park avenue, Manhattan.

APPEARANCES—

For Appellant: Van Sinderen Lindsley and Donald
A. Laird.

ACTION OF BOARD—Appeal denied.

THE VOTE TO GRANT—

Affirmative 0
Negative: Chairman Walsh, Commissioners
Connell, Holland and Guilfoyle and Chief
Kenlon 5
Absent 0

THE RESOLUTION—

(1089-27-A)

WHEREAS, Van Sinderen Lindsley, for lessee of twelfth
floor, filed, October 7, 1927, an appeal from a decision of
the superintendent of buildings, affecting premises 1 Park
avenue, Borough of Manhattan; and

WHEREAS, the decision of the superintendent of buildings,
dated September 17, 1927 (Violation Order No. 4186),
reads:

" * * * in that of covering the ceiling of portions of
the 12th floor of building with combustible material
contrary to law.

"You are hereby directed to remove all combustible
material from said ceiling in accordance with the law.

"You are hereby directed to remove the above violation
forthwith.";

and

WHEREAS, the building is fireproof, eighteen stories (231
ft.) in height, 197½ ft. by 205 ft. in area; OCCUPIED:
1st story, stores, with offices above, approximately 100 per-
sons per story; and

WHEREAS, there are two rooms on the 12th floor, 20 ft.
by 48 ft., the ceilings and walls of which have been covered
with Acoustic Celotex, the total area of the ceiling being
more than 480 sq. ft., walls, 1,360 sq. ft.; the amount of
Celotex applied being 416 sq. ft.; and

WHEREAS, appellant contends that the Acoustic Celotex
covering is attached to the finished ceiling and partition;
that the requirements of section 356 of the building code is
to prohibit only the use of non-fireproof material in the
ceiling or partition structure, and as an integral part thereof,
that the use of Celotex as a ceiling cover and partition
cover is analagous to the use of linoleum, etc., on floors;
that the use of the material is simply for comfort, resulting
from its sound-absorbing qualities; and

WHEREAS, the applicant submitted to the board at the
hearing a slat of the actual material in this case, marked
"Exhibit A," which was offered for test as to combustibility
and inflammability; and

MINUTES

WHEREAS, this sample was ignited by a match and burned freely and continued in flame and was returned to the appellant's attorney, who extinguished same, but the sample gave off a heavy pungent smoke, the odor of which still permeated the room for more than one hour after the demonstration; and

WHEREAS, the board holds that the installation of this material in buildings is a violation of section 356 of the building code and a dangerous fire and life hazard, and is specifically prohibited in section 356, subdivision 1, of the building code, to wit: "no woodwork or other combustible material shall be used in floors, ceilings, partitions, furrings, or other interior finish of fireproof buildings."

Resolved, that the decision of the superintendent of buildings be and it hereby is affirmed, and the appeal be and it hereby is denied.

1088-27-A.

APPELLANT—Van Sinderen Lindsley, for Aeolian Hall School for Music Research, lessee.

THE RESOLUTION—

(1088-27-A)

WHEREAS, Van Sinderen Lindsley, for lessee of tenth floor, filed October 7, 1927, an appeal from a decision of the superintendent of buildings, affecting premises 689-691 Fifth avenue and 1 East 54th street, Borough of Manhattan; and

WHEREAS, the decision of the superintendent of buildings, dated September 17, 1927 (re Viol. Order No. 4187), reads:

"You are hereby notified that the building situated on the whole of the lot on the east side of Fifth Ave., known as 689-691 Fifth Avenue, in the Borough of Manhattan, does not conform to Section 356 of the Building Code, in that of covering the ceiling of portions of the 10th floor of building with combustible material contrary to law;"

and

WHEREAS, the building is fireproof, fourteen stories in height, 50 ft. 6 in. by 125 ft. in area; OCCUPIED as an office building, with stores on the first floor, approximately 50 persons per story; and

WHEREAS, there are five rooms on the tenth floor, the ceilings and walls of which are covered with Acoustic Celotex applied to the finished plaster; and

WHEREAS, appellant contends that the Acoustic-Celotex covering is attached to the finished ceilings and partitions; that the requirements of section 356 of the building code is to prohibit only the use of non-fireproof material in the ceiling or partition structure and as an integral part thereof; that the use of Celotex is a ceiling cover and partition cover is analogous to the use of linoleum, etc., on floors; that the use of the material is simply for comfort resulting from its sound-absorbing qualities; and

WHEREAS, the appellant submitted to the board at the hearing a slab of the actual material in this case, marked "Exhibit A," which was offered for test as to combustibility and inflammability; and

WHEREAS, this sample was ignited by a match and burned freely and continued in flame and was returned to appellant's attorney, who extinguished same, but the sample still gave off a heavy, pungent smoke, the odor of which still

permeated the room for more than one hour after the demonstration; and

WHEREAS, the board holds that the installation of this material in buildings is a violation of section 356 of the building code and a dangerous fire and life hazard, and is specifically prohibited by section 356, subdivision 1, of the building code, to wit: "no woodwork or other combustible material shall be used on floors, ceilings, partitions, furrings, or other interior finish of fireproof buildings."

Resolved, that the decision of the superintendent of buildings be and it hereby is affirmed, and the appeal be and it hereby is denied.

THE RESOLUTION—

(1087-27-A)

WHEREAS, Van Sinderen Lindsley, for lessee of twenty-fifth floor, filed, October 7, 1927, an appeal from a decision of the superintendent of buildings, affecting premises 424-442 Lexington avenue, Borough of Manhattan; and

WHEREAS, the decision of the superintendent of buildings, dated September 17, 1927 (Violation Order No. 4184-1927), reads:

" * * * in that of covering the ceiling and walls of portion of the 25th floor of building with combustible material contrary to law.

"You are hereby directed to remove all combustible material from said walls and ceiling.

"You are hereby directed to remove the above violation forthwith;"

and

WHEREAS, the building is fireproof, thirty-two stories (362½ ft.) in height, 248 ft. 8½ in. by 275 ft. in area; OCCUPIED: 1st story, stores; 2nd to 32nd stories, offices, approximately 285 persons per story; and

WHEREAS, there is located on the twenty-fifth floor a room 20 ft. by 15 ft. in area, where Acoustic Celotex has been fastened to the walls and ceiling and to the partitions, the Celotex being attached to the finished plaster by cement at the corners and by nailing to the plaster; and

WHEREAS, appellant contends that the Acoustic-Celotex covering is attached to the finished ceilings and partitions; that the requirements of section 356 of the building code is to prohibit only the use of non-fireproof material in the ceiling or partition structure and as an integral part thereof; that the use of Celotex as a ceiling cover and partition cover is analogous to the use of linoleum, etc., on floors; that the use of the material is simply for comfort resulting from its sound-absorbing qualities; and

WHEREAS, the appellant submitted to the board at the hearing a slab of the actual material in this case, marked "Exhibit A," which was offered for tests as to combustibility and inflammability; and

THE RESOLUTION—

(1086-27-A)

WHEREAS, Van Sinderen Lindsley, for lessee of seventh floor, filed, October 7, 1927, an appeal from an order of the superintendent of buildings, affecting premises 101 Park avenue, Borough of Manhattan; and

WHEREAS, the order of the superintendent of buildings, dated September 17, 1927 (Violation Order No. 4185-1927), reads:

"You are hereby notified that the building known as Number 101 Park Ave. in the Borough of Manhattan, in The City of New York, does not conform to section 356 of the Building Code in the respects noted below:

"In that of covering the ceiling and walls of portions of the 7th floor of building with combustible material contrary to law.

"You are hereby directed to remove all combustible material from said ceiling and walls in accordance with law.";

and

WHEREAS, the building is fireproof, eighteen stories (220 ft.) in height, 98 ft. 9 in. by 151 ft. in area; OCCUPIED: 1st story, stores; upper stories, offices, approximately 90 persons per story; and

WHEREAS, there is located on the seventh story, northerly side of the building, a room 29 ft. 6 in. by 26 ft. 9½ in. in area, which has been divided into six small offices by partitions of wood stud covered with Celotex in one-half-inch and seven-sixteenth-inch thick sheets and partially covered with plaster; the ceiling of this entire room has also been covered with Celotex, and the Celotex is fastened to finished plaster by cement and brads; and

WHEREAS, appellant contends that the Acoustic-Celotex covering is attached to the finished ceilings and partitions; that the requirements of section 356 of the building code is to prohibit only the use of non-fireproof material in the ceiling or partition structure and as an integral part thereof; that the use of Celotex as a ceiling cover and partition cover is analogous to the use of linoleum, etc., on floors; that the use of the material is simply for comfort resulting

from its sound-absorbing qualities; that the room in question is used for the purpose of exhibiting several types of Celotex products to prospective customers and for exhibiting its use as a substitute for plaster walls in small frame houses; and

WHEREAS, the appellant submitted to the board at the hearing a slab of the actual material in this case, marked "Exhibit A," which was offered for test as to combustibility and inflammability; and

WHEREAS, this sample was ignited by a match and burned freely and continued in flame and was returned to the appellant's attorney, who extinguished same, but the sample still gave off a heavy, pungent smoke, the odor of which still permeated the room for more than one hour after the demonstration; and

WHEREAS, the board holds that the installation of this material in buildings is a violation of section 356 of the building code and a dangerous fire and life hazard, and is specifically prohibited by section 356 of the building code, to wit: "no woodwork or other combustible material shall be used on floors, ceilings, partitions, furrings, or other interior finish of fireproof buildings."

Resolved, that the decision of the superintendent of buildings be and it hereby is *affirmed*, and the appeal be and it hereby is *denied*.

THE RESOLUTION—

(1113-27-A)

WHEREAS, Van Sinderen Lindsley, for L. Bamberger & Co., lessee, filed, October 14, 1927, an appeal from an order of the superintendent of buildings, affecting premises 1440 Broadway, Borough of Manhattan; and

WHEREAS, the order of the superintendent of buildings, dated September 9, 1927 (Violation Order No. 4076-1927), reads:

"In that of covering the walls and ceiling of a portion of the 25th floor with combustible material contrary to law.

"You are hereby directed to remove all combustible material from the walls and ceiling of the 25th floor, in accordance with the law.";

and

WHEREAS, the building is fireproof, twenty-five stories in height, 208 ft. by 128 ft. and 200 ft., irregular, in depth; OCCUPIED for office purposes, about 200 persons on each story; and

WHEREAS, the appellant has filed drawings showing three rooms on the twenty-fifth story, the ceilings and the upper half of the side walls covered with a composition consisting of cane fibre made into a pulp, and known as Acoustic-Celotex, which is cemented on the ceilings and walls for acoustic purposes; furthermore, the appellant contends that the intention of the law prohibits non-fireproof materials in the actual construction of the ceiling and walls and does not apply to furnishings applied to the surfaces of walls and ceilings which have been constructed of incombustible materials; and

WHEREAS, the appellant submitted to the board at the hearing a slab of the actual material in this case, marked

MINUTES

"Exhibit A," which was offered for test as to combustibility and inflammability; and

WHEREAS, this sample was ignited by a match and burned freely and continued in flame and was returned to the appellant's attorney, who extinguished same, but the sample still gave off a heavy, pungent smoke, the odor of which still permeated the room for more than one hour after the demonstration; and

WHEREAS, the board holds that the installation of this material in buildings is a violation of section 356 of the building code and a dangerous fire and life hazard, and is specifically prohibited by section 356, subdivision 1, of the building code, to wit: "no woodwork or other combustible material shall be used in floors, ceilings, partitions, furrings, or other interior finish of fireproof buildings."

Resolved, that the decision of the superintendent of buildings be and it hereby is affirmed, and the appeal be and it hereby is denied.

APPELLANT—Croker Natl. Fire Prev. Eng. Co., for Sheffield Farms Co., Inc., owner.

SUBJECT—Appeal from order of the fire commissioner. PREMISES AFFECTED—1041-1053 Webster avenue, The Bronx.

APPEARANCES—

For Appellant: Herman E. Horwood.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Walsh, Commissioners

Connell, Holland and Guilfoyle..... 4

Negative 0

Absent: Chief Kenlon..... 1

THE RESOLUTION—

(1043-27-A)

WHEREAS, Croker National Fire Prevention Engineering Co., for Sheffield Farms Co., Inc., filed, September 23, 1927, an appeal from an order of the fire commissioner, affecting premises 1041-1053 Webster avenue, Borough of The Bronx; and

WHEREAS, the order of the fire commissioner, dated April 26, 1927 (Order No. 18768-F), reads:

"1. Install a standpipe system with risers 4 inches in diameter tested to withstand a pressure of 300 lbs. per square inch, extending from cellar to roof, with necessary check valves and 2½ inch regulation Fire Department outlets on each story (including basements, cellars and roofs), placed within main stairway enclosure. Each outlet to be provided with sufficient feet of 2½ inch standard hose attached thereto."

and

WHEREAS, the premises consist of two fireproof reinforced concrete buildings, the northerly building being five stories (81 ft. 4 in.) in height, 194 ft. by 100 ft. (approximately 19,400 sq. ft.) in area, and the southerly building being two stories (29 ft. 2 in.) in height, 139 ft. by 100 ft. (approximately 13,900 sq. ft.) in area; both buildings being connected by means of fireproof enclosed bridges leading from the second story of the five-story building to the second story of the two-story building and from the third story of the five-story building to the roof of the two-story building; OCCUPIED as a receiving, pasteurization and distributing station for milk, approximately 200 persons throughout the premises; and

WHEREAS, appellant contends that due to the nature of the business conducted most of the floors are continually wet; that the premises face on two street fronts and is open along the entire rear and that same is in continual operation; and

WHEREAS, the premises consist of two separate and distinct buildings of fireproof construction throughout; and

WHEREAS, the order is predicated on the area of the first and second stories of the southerly building and the first three stories of the northerly building in excess of 10,000 sq. ft.

Resolved, that the order of the fire commissioner be and it hereby is modified, and the appeal be and it hereby is granted on condition that the buildings shall not be increased in height, area or dimension, and granted only as long as the present use in single tenancy and operation and conduct of the business remains unchanged.

1059-27-A.

APPELLANT—Daniel McNamara, Jr., for the New York Quinine and Chemical Works, Inc., owner.

SUBJECT—Appeal from order of the fire commissioner.

PREMISES AFFECTED—99-117 North 11th street, 124-142 North 12th street and 36-48 Berry street, Brooklyn.

APPEARANCES—

For Appellant: Daniel McNamara, Jr.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Walsh, Commissioners

Connell, Holland and Guilfoyle..... 4

Absent: Chief Kenlon..... 1

THE RESOLUTION—

(1059-27-A)

WHEREAS, Daniel McNamara, Jr., for The New York Quinine and Chemical Works, Inc., owner, filed, September 29, 1927, an appeal from an order of the fire commissioner, affecting premises 99-117 North Eleventh street, 124-142 North Twelfth street and 36-48 Berry street, Borough of Brooklyn; and

WHEREAS, the order of the fire commissioner, dated January 29, 1927 (Order No. 7866-F), reads:

"1. Install a standpipe system with risers 4 inches in diameter tested to withstand a pressure of 300 lbs. per square inch, extending from cellar to roof, with necessary check valves and 2½ inch regulation Fire Department outlets on each story (including basements, cellars and roofs), placed within main stairway enclosure. Each outlet to be provided with sufficient feet of 2½ inch standard hose attached thereto."

and

WHEREAS, the premises consist of a plot of ground having a frontage of 225 ft. on North Eleventh street, 200 ft. on Berry street and 225 ft. on North Twelfth street, upon which is located a series of interconnected buildings as follows: a six-story (83 ft.) fireproof building (on North Eleventh street), 82 ft. 3 in. by 80 ft. 2 in. (approximately 6,500 sq. ft.) in area; a four-story (45 ft.) brick building (on North Eleventh street), 93 ft. by 58 ft. 4 in. (approximately 5,400 sq. ft.) in area; a two-story brick building (on North Eleventh Street), 49 ft. 8 in. by 40 ft. (approximately 1,900 sq. ft.) in area; a three-story brick building, 160 ft. by 29 ft. (approximately 4,600 sq. ft.) in area; a three-story brick building (on North Twelfth street), 55 ft. by 33 ft. (approximately 1,700 sq. ft.) in area; a two-story brick building (on West Twelfth street), 88 ft. 10 in. by 32 ft. (approximately 2,800 sq. ft.) in area; a three-story building (on Berry street), 39 ft. 9 in. by 32 ft. (approximately 1,200 sq. ft.) in area; a one-story brick buildings (on Berry street), 88 ft. 4 in. by 82 ft. 3 in. (approximately 7,200 sq. ft.) in area, a total area of approximately 31,300 sq. ft.; in the center of the open court there being a group of interconnected one and two-story brick buildings, 105 ft. by 56 ft. (approximately 5,800 sq. ft.) in area; OCCUPIED for the storage and manufacture of chemicals, approximately 125 persons in entire premises; and

WHEREAS, appellant contends that the entire premises are protected with a sprinkler system and proposes to subdivide

MINUTES

the outer group of buildings into six separate units, the largest of which will be approximately 7,200 sq. ft., by providing automatic, self-closing fireproof sliding doors on both sides of the openings in the division walls between buildings 5-D and 4-D, 3-D and 1-A, 1-A and 20-A, 24-B and 22-C; and

WHEREAS, the order is based on the combined area of a group of buildings composed of five interconnecting structures and one independent freestanding building in the center of the interior yard or court of these premises.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that the buildings on the street fronts shall be divided by fire walls into five sections, no single section exceeding 7,500 sq. ft. in area, and the independent structure in the center of the group making the sixth structure on the premises; that all horizontal openings between the five separate sections shall be provided with approved fire door equipment; that the entire premises shall be equipped throughout with an approved sprinkler system with central office connection; that the premises shall not be increased in height, area or dimension, and granted only as long as conditions as to occupancy and use remain substantially unchanged and the premises remain in single tenancy and operation.

BUILDING ZONE CASES

938-27-BZ.

THE RESOLUTION—

(952-27-BZ)

WHEREAS, Charles Martens, for Lena K. Kosower and Rosie Glickman, owners, filed, August 26, 1927, an application, under the building zone resolution, to permit in a business district the erection and maintenance of a gasoline service station; premises 1784-1786 81st street and 8102-8104 18th avenue, Borough of Brooklyn; and

WHEREAS, a public hearing was held on this application by the board of standards and appeals, at its regular meeting, March 20, 1928, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that 81st street is in a residence district, 18th avenue is in a business and residence district and 82nd street is in a residence district; and

WHEREAS, the decision of the fire commissioner, rendered August 4, 1927 (re Plan No. 1545-25), reads:

"1. A gasoline service station may not be permitted in a business district.";

and

WHEREAS, there is an existing one-story building 20 ft. by 35 ft. on the lot; it is proposed to bury two 550-gallon tanks and erect four pumps for the purpose of conducting a gasoline service station within a business district; and

WHEREAS, the board deemed that applicant failed to substantiate his basis of appeal under section 21 on the grounds of unnecessary hardship or practical difficulties.

Resolved, that the decision of the fire commissioner be and it hereby is *affirmed*, and that the application be and it hereby is *denied*.

963-27-BZ.

APPLICANT—W. T. McCarthy, for James McLaren, owner.

SUBJECT—Application (re decision of the superintendent of buildings) under section 7b of the building zone resolution, to permit in a residence district extending from a business district the erection and maintenance of a building to be used for store purposes.

PREMISES AFFECTED—867 Union street, Brooklyn.

APPEARANCES—

For Applicant: W. T. McCarthy.

WHEREAS, Philip J. Sinnott, for Liberty Heights Realty Co., Inc., owner, filed, September 7, 1927, an application, under the building zone resolution, to permit in a business district the erection and maintenance of a gasoline service station; premises northeast corner of Cooper avenue and Cypress avenue, Cypress Hills, Borough of Queens; and

WHEREAS, a public hearing was held on this application by the board of standards and appeals, at its regular meeting, March 20, 1928, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Cooper avenue (excepting cemetery which is in a residence district) is in a business district and Cypress avenue is in a business district; and

WHEREAS, the decision of the superintendent of buildings, rendered June 25, 1927 (re Plan No. N. B. 9321-27), reads:

"The erection of a gasoline station in a BUSINESS DISTRICT is contrary to the Zoning Resolution.";

and

WHEREAS, the premises consist of a plot of ground having a frontage of 77 ft. 3 in. on Cypress avenue and 90 ft. on Cooper avenue, upon which it is proposed to erect a small office and the necessary tanks and pumps for a gasoline service station; and

WHEREAS, applicant failed to substantiate the basis of his application under section 21, and a committee of the board visited the premises and recommended that application be denied.

Resolved, that the decision of the superintendent of buildings be and it hereby is affirmed, and that the application be and it hereby is denied.

1013-27-BZ.

APPLICANT—John F. Buchan, for Ralph Ferrara, owner.

THE RESOLUTION—

(1013-27-BZ)

WHEREAS, John F. Buchan, for Ralph Ferrara, owner, filed, September 16, 1927, an application, under the building zone resolution, to permit in a business district the erection and maintenance of a gasoline service station; premises 8159-8167 Liberty avenue, Woodhaven, Borough of Queens; and

WHEREAS, a public hearing was held on this application by the board of standards and appeals, at its regular meeting, March 20, 1928, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Liberty avenue is in a residence and business district, Water street (102nd road) is in a residence and business district and 84th street is in a business district; and

WHEREAS, the decision of the fire commissioner, rendered April 18, 1927 (re Plan No. 923-27), reads:

"1. A gasoline service station may not be permitted in a business district. Appeal may be taken to the Board of Standards and Appeals.";

and

WHEREAS, it is proposed to erect an office, bury three 550-gallon storage tanks and erect seven pumps for the purpose of conducting a gasoline service station within a business district; and

WHEREAS, applicant failed to substantiate the basis of his application under section 21, and a committee of the board visited the premises and recommended that the application be denied.

Resolved, that the decision of the fire commissioner be and it hereby is affirmed, and that the application be and it hereby is denied.

958-27-BZ.

APPLICANT—Henry J. Nurick, for Elias Burak, owner.

SUBJECT—Application (re decision of the superintendent of buildings) under sections 7e and 21 of the building zone resolution, to permit in a business district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles, and also a gasoline service station.

PREMISES AFFECTED—509 Leonard street and 285-295 Driggs avenue, southwest corner, Brooklyn.

THE RESOLUTION—

(958-27-BZ)

WHEREAS, Henry J. Nurick, for Elias Burak, owner, filed, August 27, 1927, an application, under the building zone resolution, to permit in a business district the erection and maintenance of a garage for the storage of more than five motor vehicles and also a gasoline service station; premises 509 Leonard street and 285-295 Driggs avenue, Borough of Brooklyn; and

WHEREAS, a public hearing was held on this application by the board of standards and appeals, at its regular meeting, March 20, 1928, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Leonard street is in a business, residence and unrestricted district, Driggs avenue is in a business and residence district and Manhattan avenue is in a business and residence district; and

WHEREAS, the decision of the superintendent of buildings, rendered June 15, 1927 (re Applic. No. 10617-27), reads:

"Proposition contrary to the Zone Resolution, Art. II, Sec. 4(a), subdivisions 15 and 46.

"The erection of a garage for more than five motor vehicles and the installation of a gasoline service station in a business district."

and

WHEREAS, it is proposed to erect a large structure, bury four 550-gallon tanks and erect two pumps for the purpose of conducting a garage for more than five cars and also a gasoline service station within a business district; and

WHEREAS, the board deemed that applicant substantiated his basis of appeal under section 7, subdivision e, and that this board did grant a permit for a garage on this same street front under this same rule of exception and that applicant was entitled to relief under section 21 in view of the contiguous and abutting non-conforming uses.

Resolved, that the board of standards and appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted on condition* that the building shall not exceed a height of one story above grade; that the roof shall be of flat design and construction; that the westerly and southerly gable walls shall be unpierced throughout their entire height and length; that the vehicular entrance shall be limited to the Leonard street front; that there shall be no doorway on the Driggs avenue front exceeding a width of 3 ft. 8 in.; that the elevations on the street fronts shall be finished with face brick with architectural terra cotta or stone trimmings substantially in accordance with plans and elevations filed in this application; that there shall be no advertising or signs displayed other than one projecting electric sign, indicating the name and title of business conducted on the premises, and that any permits required shall be obtained within six months and all work involved shall be completed within one year from the date of this action.

THE RESOLUTION—

(962-27-BZ)

WHEREAS, Charles E. Heydt, for 739 West End Avenue Corp., owner, filed, August 30, 1927, an application, under the building zone resolution, to permit in a residence district the erection of a one-story extension, also the alteration and change of the cellar living apartment for store purposes; premises 739 West End avenue and 301 West 96th street, Borough of Manhattan; and

WHEREAS, a public hearing was held on this application by the board of standards and appeals, at its regular meeting, March 20, 1928, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that West End avenue is in a residence district, West 96th street is in a business district and West 97th street is in a residence district; and

WHEREAS, the decision of the superintendent of buildings, rendered February 4, 1927 (re Applic. No. 112-27), reads:

"3. Proposed alteration is contrary to the provisions of Section 6 of the Zoning Resolution."

and

WHEREAS, the existing building is of non-fireproof construction, five stories in height, with a frontage of 25 ft. 2 in. and a depth of 95 ft.; occupied as store and apartments; it is proposed to alter the existing apartment house by removing the cellar living apartment and constructing three stores in its place, also to erect a one-story extension for store purposes within a residence district; and

WHEREAS, there exists on these premises prior to and continuously since the adoption of the building zone resolution, July 25, 1916, a business use in the first story in the conduct of a retail mercantile shop; and

WHEREAS, it is proposed to further extend under the rules of exception, section 7, subdivision a, the existing business use in the basement story of this building.

Resolved, that the board of standards and appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted on condition* that the area of the existing business use on the first story shall not be extended and that extension of the business use on these premises shall be restricted to that of the basement story below sidewalk grade for the use and conduct of retail mercantile shops; that any advertising signs or display shall be restricted to flat wall signs, and that all permits required shall be obtained within six months and any work involved shall be completed within one year from the date of this action.

THE RESOLUTION—

((60-25-BZ))

WHEREAS, Edward Hoffman, for Benenson Realty Co., owner, filed, January 15, 1925, an application, under the building zone resolution, to permit in a business district the erection and maintenance of a garage for the storage of more than five motor vehicles; premises 2115-2137 Webster avenue, Borough of The Bronx; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, June 9, 1925, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Webster avenue and Folin street are in business districts and Tiebout avenue is in a residence district; and

WHEREAS, the decision of the superintendent of buildings, rendered January 5, 1925, in acting on N. B. Application No. 3148-24, reads:

"Erection of proposed garage for storage of more than 5 motor vehicles in business district is contrary to provisions of the Building Zone Resolution."; and

WHEREAS, the proposed building is to be of fireproof construction, two stories in height, with a frontage of 200 ft. and a depth of 100 ft.; to be occupied as a garage for the storage of more than five motor vehicles; and

WHEREAS, there was no opposition to the granting of this application on the part of adjoining property owners and there is a letter on file from the bureau of buildings supporting the basis of appeal under section 7e of the building zone resolution; and

WHEREAS, this application was granted by the board at its meeting, June 9, 1925, on certain conditions, and applicant requested a modification of the time limit and an extension of time, which request was granted by the board at its meeting, October 19, 1926, and applicant now requests a further extension of time.

Resolved, that the board of appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted on condition* that the building shall be erected fireproof, not to exceed two (2) stories in height above grade; that the roof shall be of flat design and construction; the first story of the building to be not more than 50 ft. deep and the second story 100 ft. in depth; the rear and gable walls shall be unpierced throughout their entire height and length, other than two exits on open court within the property of the premises; that the skylights installed shall not be within 20 ft. of the gable wall, to be glazed with plain glass, equipped with wire guards above and below; the front elevation shall be finished in face brick with architectural terra cotta and stone trimmings of panel design, no roof signs to be erected or maintained, and that there shall be no advertising display on the front of the building other than one electric sign indicating the title of the garage;

Resolved, further, all permits necessary for the prosecution of the work shall be obtained within six months and the building completed within one year from March 20, 1928.

THE RESOLUTION—

(1138-27-S)

WHEREAS, Henry I. Oser, for Lafayette Walker Corp., lessee, filed, October 24, 1927, a petition for a variation from the requirements of the labor law, as cited in a decision of the superintendent of buildings, affecting premises 99-101 Walker street and 101-105 Lafayette street, Borough of Manhattan; and

WHEREAS, the decision of the superintendent of buildings, dated October 19, 1927 (N. B. App. No. 500-1926), reads:

"20. All windows in this building must comply with Labor Law, Sec. 264, and the Industrial Code."

and
WHEREAS, the building is fireproof, fourteen stories in height, having a frontage of 56 ft. 3¼ in. on Walker street and 62 ft. 10¼ in. on Lafayette street; OCCUPIED: 1st story, stores; upper stories, tenant factories, 60 persons per story; EQUIPPED with a fire alarm signal system; EXITS: two interior fireproof stairways, extending from the first story to roof, enclosed in fireproof partitions with fireproof doors at openings; and

WHEREAS, there are openings in both street walls of the building on the first, second and third stories, glazed with ¼-in. plate glass; the maximum area of the glass on the first story being 108 in. by 252 in., and on the second and third stories being 50 in. by 54 in.; and

WHEREAS, petitioner contends that a strict compliance with the labor law as to the area of the glass would destroy the intended use of the lowest three stories.

Resolved, that the decision of the superintendent of buildings be and it hereby is *affirmed*, and that the petition be and it hereby is *denied*.

964-27-S.

PETITIONER—Goldfarb & Brandes, for Delsanders, Inc., lessee.

THE RESOLUTION—

(964-27-S)

WHEREAS, Goldfarb & Brandes, for Delsanders, Inc., lessee, filed, August 31, 1927, a petition for a variation from the requirements of the labor law, as cited in an order of the superintendent of buildings, affecting premises 14-16 East 38th street, Borough of Manhattan; and

WHEREAS, the order of the superintendent of buildings, dated August 12, 1927 (Violation 1015-1927, re fifth story), reads:

"Answering your letter of July 19, 1927, we beg to state that the partitions in question are contrary to Section 264 of the Labor Law which section requires that all partitions in factory buildings of fireproof material where the building is of fireproof construction;"

and

WHEREAS, the building is fireproof, fourteen stories in height, 50 ft. by 98 ft. 9 in. in area at first story and 50 ft. by 88 ft. 9 in. in area above; OCCUPIED: 1st story, stores, 10 persons; upper stories, 25 per cent manufacturing, 70 persons on each story; EQUIPPED with a sprinkler system and a fire alarm signal system; EXITS: a fire tower; an interior fireproof stairway, extending from the first story to roof, enclosed in fireproof partitions with fireproof doors at openings; and

WHEREAS, the petitioner claims that all of the wood partitions and shelving on the fifth story have been removed and replaced with steel shelving and steel partitions; furthermore, the petitioner contends that this petition is made only for the purpose of maintaining a few wood doors and trim on the plaster partition leading to showroom on the fifth story.

Resolved, that the board of standards and appeals does hereby *make a variation* in the requirements of the labor law, and that the petition be and it hereby is *granted*, only so far as it affects the three openings in the partition at the front of the building, indicated as showroom on the fifth floor plan filed with this appeal and the two-door opening of decorative treatment opening from the showroom to shipping room, marked "D," and one door between showroom and elevator lobby, *on condition* that any other opening between this showroom shall be equipped with a door of same or similar type, and that the order shall be complied with in all other respects.

THE RESOLUTION—

(1130-27-S)

WHEREAS, John A. and Edward L. Larkin, for Edwin W. Sonner, owner, filed, October 22, 1927, a petition for a variation from the requirements of the labor law, as cited in a decision of the superintendent of buildings, affecting premises 13 and 15 West 20th street, Borough of Manhattan; and

WHEREAS, the decision of the superintendent of buildings, dated May 8, 1926 (re Viol. Order No. 4625), reads:

"In that of having erected partitions of combustible materials on the cellar, 1st, 2nd, 3rd, 4th, 5th, 6th, 7th, 8th and 9th floors of the building, contrary to the Labor Law.

"You are hereby directed to remove all partitions of combustible materials forthwith and construct any required partitions of incombustible materials.";

and

WHEREAS, the building is fireproof, nine stories in height, 56 ft. by 87 ft. in area at first story; OCCUPIED: 1st story, stores, 10 persons; 2nd and 3rd stories, vacant; 4th story, manufacture of electric fixtures, 11 persons; 5th story, winding silk on spools, 27 persons; 6th story, manufacture of pocketbooks, 15 persons; 7th story, winding silk on spools, 12 persons; 8th story, vacant; 9th story, manufacture of picture frames, 24 persons; EQUIPPED with a sprinkler system; EXITS: two interior metal and slate stairways, extending from the first story to top story (the westerly stairs extend to roof), enclosed in terra cotta partitions with metal-covered doors at openings; a fire escape on the rear of the building having fireproof openings along the course thereof, extending from the first story to the top story; and

WHEREAS, the petitioner claims that all wooden partitions have been removed from the basement, first, second, third and eighth stories; that the wooden partitions on all other stories will have upper portions glazed with thin glass not less than 18 in. below sprinkler line; that all exit doors leading from workrooms to exit halls will be not less than 36 in. in width and shall be provided with red light exit signs 8 in. in height.

Resolved, that the decision of the superintendent of buildings be and it hereby is *affirmed*, and that the petition be and it hereby is *denied*.

THE RESOLUTION—

(1035-27-S)

WHEREAS, Empire Fireproof Door Co., lessee, filed, September 21, 1927, a petition for a variation from the requirements of the labor law, as cited in an order of the

fire commissioner, affecting premises 431-433 Southern boulevard, Borough of The Bronx; and

WHEREAS, the order of the fire commissioner, dated August 31, 1927 (Order No. 75787-LD), reads:

"A search of our records indicates the following order pending against the above premises:

"Order No. 75787-LD (issued April 20, 1925):

"1. Replace present stairs located at north side of building serving as a required means of exit, with stairs built of incombustible material, as per Sec. 270 of the Labor Law.

"2. Enclose the interior stairway at north side of building serving as a required means of exit and the landings, platforms and passageways connected therewith on all sides with partitions of approved fireproof material, extending continuously from the lowest point stairway extends to three feet above the roof, constructed as per Sec. 270 of the Labor Law, or carry out a proper alternative method of complying with the requirements of Sec. 270 of the Labor Law.

"3. Provide an additional required means of exit from the 2nd story of the building, remote from the existing stairway, preferably located at the south side of the building, in accordance with the requirements of Sec. 270 of the Labor Law.";

and

WHEREAS, the building is non-fireproof, one story, basement and pent house (25 ft. above grade) in height, 50 ft. by 100 ft. in area; OCCUPIED: basement, manufacture of fireproof doors, 8 persons; 1st story, manufacture of fireproof doors, 20 persons; pent house, office, 5 persons; EXITS: an interior wooden stairway, extending from the first story to pent house story, enclosed in wire lath and cement mortar partitions with wood doors at openings; there being openings on the basement and first stories leading to the building to the north which is under the same ownership; ROOFS of adjoining buildings: to north, 1 ft. lower; to south, 5 ft. lower; and

WHEREAS, petitioner requests the acceptance of the existing means of egress.

Resolved, that the board of standards and appeals does hereby *make a variation* in the requirements of the labor law, and that the petition be and it hereby is *granted*, as to Items 1 and 2, *on condition* that the stairs from the sidewalk level to the floor level of the pent house story shall be enclosed in fireproof material; *granted*, as to Item 3, *on condition* that a doorway shall be provided, opening to the roof of the adjoining premises to the north in the same ownership, from the stair platform of pent house story, with egress from the said adjoining roof by means of stairs down through the adjoining buildings and also over adjoining roofs to the west; that the horizontal exits in the fire, dividing wall between the two buildings shall be equipped with approved fire doors, so long as the use and occupancy remain in single tenancy and operation and that the building shall be not increased in height or area.

989-27-S.

PETITIONER—Broadway and 38th Street, Inc., owner.

SUBJECT—Variation of the labor law as cited in order of fire commissioner.

THE RESOLUTION—

(989-27-S)

WHEREAS, Broadway and Thirty-eighth Street, Inc., owners, filed, September 9, 1927, a petition for a variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 1385-1391 Broadway and 132-142 West 38th street, Borough of Manhattan; and

WHEREAS, the order of the fire commissioner, dated August 16, 1927 (Order No. 24215-LF), reads:

"A recent inspection of the premises 1385-1391 Broadway and 132-142 West 38th street, Borough of Manhattan, shows that Order No. 24215-LF to provide an interior alarm system has not been complied with.;"

and

WHEREAS, the building is fireproof, twenty-three stories in height, 104 ft. by 174 ft. 6½ in. in area; OCCUPIED: 1st story, store; upper stories, offices, showrooms and 25 per cent manufacturing dresses and suits, 100 persons per story, petitioner occupying the twenty-third story as offices, 6 persons; EQUIPPED with a sprinkler system; EXITS: two interior fireproof stairways, extending from the first story to roof story, enclosed in fireproof partitions with fireproof doors at openings; and

WHEREAS, petitioner contends that the premises are equipped throughout with an automatic sprinkler system, excepting the front portion of the twenty-third story, which is used as executive offices; that the partitions forming these offices are fireproof; that the ceilings are of a furred ornamental design; that the walls are covered with marble and the floors with terrazzo, and that to provide sprinkler heads in this portion of the building would destroy the architectural finish of these rooms; and

WHEREAS, the order is issued on the omission of the sprinkler system in the front portion of the twenty-third story, occupied as executive offices; and

WHEREAS, the occupancy maintained is well within the 50 per cent legal capacity of the stairs; and

WHEREAS, the entire premises, other than the front portion of the twenty-third story, is sprinklered throughout; and

WHEREAS, the twenty-third story, front portion, is occupied for the executive offices of the owners of the building, the construction of the subdivisions being of approved fireproof construction, the interior of these offices being finished with highly decorative treatment as temporary furnishing.

Resolved, that the board of standards and appeals does hereby make a variation in the requirements of the labor law, and the petition be and it hereby is granted on condition that the occupancy of the building at no time shall exceed 50 per cent of the legal capacity of the required interior stairs; that the entire building, other than the street front portion of the twenty-third story, shall be sprinklered throughout, and that the labor law shall be complied with in all other respects.

872-27-S.

PETITIONER—Albina Cavinato, owner.

SUBJECT—Variation of the labor law as cited in order of the fire commissioner.

PREMISES AFFECTED—21 East 8th street, Manhattan.

APPEARANCES—

For Petitioner: Laurence Cavinato.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition granted on condition.

THE VOTE TO GRANT—

Affirmative: Chairman Walsh, Commissioners Connell, Holland and Guilfoyle and Deputy Chief Martin..... 5

WHEREAS, Albina Cavinato, owner, filed, August 1, 1927, a petition for a variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 21 East 8th street, Borough of Manhattan; and

WHEREAS, the order of the fire commissioner, dated June 20, 1927 (Order No. 23176-LD), reads:

"1. Provide safe and unobstructed egress from the lower termination of the fire escape at the rear of building by constructing a fireproof passageway with an unobstructed width of at least 3 feet throughout, leading to the street, adequately lighted at all times during working hours, or by means of providing access to an open area by having communication with the street, as per Section 273 of the Labor Law.;"

and

WHEREAS, the building is non-fireproof, seven stories in height, 25 ft. by 92 ft. in area at first story; OCCUPIED: cellar, kitchen, 5 persons; 1st story, restaurant, 75 persons; upper stories, manufacture of clothing, about 20 persons on each story; EQUIPPED with a fire alarm signal system; EXITS: an interior wooden stairway, extending from the first story to roof, enclosed in wire netting and plaster partitions with metal-covered doors at openings; a fire escape on the rear of the building having fireproof openings along the course thereof, extending from the roof down to the yard level, with EGRESS from the termination of the fire escape by means of gate in fence to yard adjoining at north; ROOFS of adjoining buildings: 30 ft. lower at east and west; and

WHEREAS, the petitioner claims that egress may be had from termination of rear fire escape through gate in fence to yard adjoining at north, thence by means of an unobstructed opening through building to 9th street; that consent has been obtained from owner of the adjoining building to use his premises as a means of exit in case of fire; furthermore, the petitioner contends that an additional means of egress may be had through gate in fence at west side of yard of adjoining property to a large yard 180 ft. in length.

Resolved, that the board of standards and appeals does hereby make a variation in the requirements of the labor law, and that the petition be and it hereby is granted, only so far as it affects the egress from the termination of the rear fire escape, on condition that an opening in fence, unfastened, shall be maintained to the yard of the premises immediately adjoining at the rear, also an opening, unfastened, shall be maintained in the fence on the west, embracing eight buildings, with egress through any and all of same to East 8th street and East 9th street; that written agreement of the adjoining owners for such egress from the rear yard shall be filed with the fire department, and that this variation is granted so long as conditions as to occupancy and use remain substantially unchanged.

THE RESOLUTION—

(845-27-S)

WHEREAS, C. F. Rosberg, for Edward I. Farmer, Inc., owner, filed, July 25, 1927, a petition for a variation from the requirements of the labor law, as cited in a decision of the superintendent of buildings, affecting premises 16 East 56th street, Borough of Manhattan; and

WHEREAS, the decision of the superintendent of buildings, dated July 7, 1927 (re App. No. 983-1927), reads:

"4. Show egress from basement, rear yard to street.

Provide a safe fireproof passageway from termination of fire escape to street."

and

WHEREAS, the building is non-fireproof, four stories, basement and cellar in height, 22 ft. 6 in. by 100 ft. 5 in. in area at basement story and 22 ft. 6 in. by 89 ft. in area above; OCCUPIED: basement, office and wood carving shop, 18 persons; 1st, 2nd, 3rd and 4th stories, showrooms for the display of art goods, 3 persons on each story; EXITS: an interior stairway, fireproof to third story and constructed of wood to roof, enclosed in 6-inch terra cotta block partitions with kalamein doors at openings; a proposed 45-degree party wall fire escape on the rear of the building, having fireproof openings along the course thereof, extending from the roof to a fire escape balcony between the second and first stories, with EGRESS from the termination of the fire escape by means of a proposed iron bridge connecting this fire escape balcony (on the rear of the building to the east, No. 18 East 56th street) to an existing iron bridge along the rear of buildings fronting on 55th street and from this bridge to open rear yards and also through door at yard level leading to premises No. 17 East 55th street; and

WHEREAS, this case was denied by the board at the meeting held on January 4, 1928, and reopened by the vote of the board on March 3, 1928, on condition that additional drawings showing the proposed means of egress from the rear yard be filed and also submitting the consent of the owner of the adjoining property (No. 17 East 55th street)—this has been done.

Resolved, that the board of standards and appeals does hereby *make a variation* in the requirements of the labor law, and that the petition be and it hereby is *granted on condition* that a fire escape balcony shall be erected at the rear of the first story with iron steps leading to and connecting with party wall fire escape of adjoining premises, No. 18 East 56th street, by means of iron bridge connecting with three adjoining premises directly in the rear on

East 55th street: that there shall be maintained at the yard level an open gate to yards of adjoining premises to the rear, with egress from No. 11 East 55th street, and with egress from the yard through the premises, Nos. 17-19-21 East 55th street, through plain glass openings or doorways through said premises to the street; that agreement of adjoining owner to the rear on East 55th street, for egress through said property, shall be filed with the fire department, and this variation is granted so long as conditions as to use and occupancy of these premises remain substantially unchanged.

MINUTES

*CORRECTION.

The minutes of the meeting of the board of standards and appeals held Tuesday afternoon, March 6, 1928, as they appeared in Bulletin No. 11, Vol. XIII, are hereby corrected to read as follows:

THE RESOLUTION—

(891-27-S)

WHEREAS, John J. Gilmartin, for Crompton Building Corp., owner, filed, August 5, 1927, a petition for a variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 31-37 East 31st street, Borough of Manhattan; and

WHEREAS, the order of the fire commissioner, dated April 19, 1927 (Order No. 17698-LD), reads:

"1. Remove all partitions not built of incombustible

material as per Sections 263 and 270 of the Labor Law."

and

WHEREAS, the building is fireproof, twelve stories in height, 86 ft. by 98 ft. in area at first story and 86 ft. by 83 ft. in area above; OCCUPIED: 1st story, sales room, 25 persons; 2nd story, sales room, 8 persons; 3rd story, sales room, 5 persons; upper stories, tenant factories, 50 persons per story; EQUIPPED with a sprinkler system; EXITS: three interior fireproof stairways, extending from the first story to roof, enclosed in fireproof partitions with fireproof doors at openings; and

WHEREAS, partitions constructed of combustible material have been erected on the various floors throughout the building; and

WHEREAS, petitioner contends that the order has been complied with on the second and on the fourth to twelfth (top) stories, inclusive, in view of the fact that the first and third stories are used for showroom purposes only,

* Correction—Semicolon (;) added after word *merchandise* in line 37; words "*on the first and third story*" added in line 43, and words "*fireproofed wood*" added in line 44.

MINUTES

requests that the partitions on these stories be permitted to remain; and

WHEREAS, the petitioner has submitted sworn affidavit from the testing laboratory of Columbia College as to fireproofing of the material used in this construction.

Resolved, that the board of standards and appeals does hereby make a variation in the requirements of the labor law, and that the petition be and it hereby is granted, only so far as it affects the first story, subdivided space, for

the display of merchandise; and the southwest portion and foyer of the third story, which space is to be restricted to two small offices and showroom, on condition that no portion of the partition shall extend beyond the elevator front; that the doors to stair hall shall be opened direct and unencumbered from the open loft space; that the material in these partitions on the first and 3rd story shall be constructed of incombustible material, fireproofed wood; that the requirements of the labor law, throughout the building, shall be complied with in all other respects.

THE RESOLUTION—

(1080-27-A)

WHEREAS, H. H. Murdock, for Haggin Estate, Inc., owner, filed, October 5, 1927, an appeal from an order of the fire commissioner, affecting premises 377-379 Broadway and 59-61 White street, Borough of Manhattan; and

* Correction—The words "it hereby is modified, and the appeal be and" inserted at 31st line of resolution.

WHEREAS, the order of the fire commissioner, dated June 22, 1927 (Order No. 23338-F), reads:

"1. Provide iron shutters at all openings in the exterior wall above 1st story which are distant in a direct line less than 30' from any opening in any other building and not in the same plane with said openings and which are not more than 50' above a neighboring roof at west side of building, or other approved protection, as per Sec. 375, Art. 18, Ch. 5, of the Code of Ordinances."

and

WHEREAS, the building is fireproof, 11 stories in height, 50 ft. by 150 ft. 3 in. in area; OCCUPIED for offices and sales rooms, 25 persons on each story; and

WHEREAS, the appellant has filed drawings showing six windows at each of the second to the tenth stories, inclusive, on the west side affected by the fire department order, and the distance from building to building to be 25 ft. 3 in., and contends that the building causing the exposure is equipped with a sprinkler system; and

WHEREAS, the premises constituting the exposure are across the street on a public highway, approximately 27 ft. distant and the said building is equipped throughout with an approved sprinkler system and all openings on the public highway being of fireproof construction.

Resolved, that the order of the fire commissioner be and it hereby is modified, and the appeal be and it hereby is granted, only so far as it affects windows not on the course of public corridors, fire escapes or stair halls, on condition that the existing use and occupancy remains substantially unchanged.

RULES

RULES FOR THE TESTING OF WOOD

Pursuant to the Provision of Section 356 of Chapter 5 of the Code of Ordinances (Building Code).

(639-27-SR)

Adopted by the Board of Standards and Appeals July 22, 1927. Amended March 13, 1928.

Rule 1. Before any wood may be used for flooring or interior trim where incombustible materials are required under the provisions of section 356 of the Building Code, the superintendent of buildings must be notified promptly upon the delivery at the job of a consignment of such material. One test sample for each 2,000 feet of material will then be selected by a representative of the Bureau of Buildings, marked for identification, and forwarded to the testing laboratory, where, under the supervision of the superintendent of buildings or his representative, the samples shall be subjected to the following tests:

Before making tests of all specimens for testing shall be oven dried at a temperature of 140° F. to a point where there is no further loss of weight due to evaporation of moisture content.

A. SHAVING TEST—A mass of shavings cut fairly thick from the outside and interior of sticks of the treated wood are to be tested separately. These shavings shall be placed to a depth of two inches in a metal vessel twelve inches square, the bottom of which shall consist of a wire screen of ½ inch mesh. The shavings shall be packed down moderately to reduce the air spaces. A Bunsen yellow flame shall then be placed beneath the receptacle so that the flame is in contact with the shavings. After twenty-five seconds the flame shall be removed. The flame at no time should show higher than six inches above the top of the bed of shavings and the shavings should not be consumed in less than five minutes.

B. TIMBER TEST. Two samples ¾ inch by 1½ inches in cross section and twelve inches long shall be laid side by side across the top of a gas crucible furnace with a pyrometer between them. The specimens shall be subjected to a flame at 1700 deg. Fahrenheit for two min-

RULES

utes, the test pieces shall then be removed, and the time of duration of flame and glow observed. The sticks shall then be cut through the middle at the most burned section and the area of the unburned wood measured with a planimeter. The flame must not persist longer than 15 seconds nor the glow longer than 20 seconds, and, in the case of hard woods, the unburned area should not be less than 55 per cent., nor in the case of soft woods less than 45 per cent.

C. CRIB TEST—Twenty samples are to be prepared, each $\frac{1}{2}$ inch square and 6 inches long. These shall be built up on a ring support to form a crib work five tiers high, four sticks to a tier, making the crib six inches by six inches and approximately $2\frac{1}{2}$ inches high. The crib shall be set six inches above a Bunsen burner to which the crib shall be exposed for a period of one minute at a temperature

approximating 1200 deg. Fahrenheit. The flame must not persist more than twenty seconds after the Bunsen burner is removed, nor the glow last more than thirty seconds. The tendency of the flame to spread from stick to stick must also be noted.

Rule 2. All of the above tests shall be at the expense of the owner or contractor or other interested party.

If the tests are satisfactory the entire shipment will be permitted to be taken into the building and used. If not, the entire shipment shall be condemned and must be removed from the premises.

In general, acceptance shall be predicated upon the existence of a complete plant in full working order from which the material is shipped, and each shipment, or, where possible, each piece shall be trade marked in a conspicuous manner so that there may be no doubt as to its identity.

RULES

SMOKING IN FACTORIES.

Adopted by the Board of Standards and Appeals,
August 13, 1918.

RULE 1. PERMIT.

(a) **Prohibition.** No person shall smoke, or carry a lighted cigar or cigarette in any factory as defined in Article 1, Section 2, of the State Labor Law, nor in any portion of a factory, within the City of New York, except in such protected portions or special classes of occupancies as are specified in Rule 2 of these rules, and then only after the issuance of a permit by the fire commissioner.

It shall be the joint and several duty of the owner and of the lessee or lessees of the building containing such factory or factories to cause to be posted in each and every entrance hall, stairhall or room throughout the building, as well as in every elevator-car, in English, and also in such other language or languages as the fire commissioner shall direct, a notice of such prohibition, and the penalty for its violation.

(b) **Application.** Application for such permit shall be made only by the owner of the building on suitable blank forms to be furnished by the fire commissioner.

(c) **Time Limit.** Such permit shall be for a definite period, not exceeding one year, and shall not be renewed upon expiration until a reinspection of the premises for which it is issued has been made for the purpose of determining whether existing conditions warrant a renewal.

(d) **Conditions.** The permit shall state the conditions under which, the hours between which, and the place or places in such factory where smoking may be permitted, and this permit shall be framed and kept posted in a conspicuous place in the factory.

(e) **Revocation.** Violation of any of the conditions specified in the permit, in addition to incurring such penalties as are prescribed by law, shall be full and sufficient cause for the revocation of such permit by the fire commissioner, and he shall not again issue a permit for the same premises until at least one year has elapsed.

RULE 2. PERMISSIBLE CASES.

Smoking may be permitted in:—

(a) Factories engaged in the manufacture of cigars, cigarettes, or smoking tobacco, when necessary for the efficient conduct of the business, provided that:

(1) No smoking other than that for sampling, testing and experimental purposes is carried on.

(2) Such smoking is conducted in a room provided especially for that purpose, separated from the rest of the building by fireproof or fire-resisting partitions, with all openings therein protected by self-closing fire doors, and, further, unless the building is of fireproof construction or equipped with an approved automatic sprinkler system, the floor and ceiling of such room shall be covered with fire-retarding material.

(3) Such chemical fire extinguishers as the fire commissioner may direct are installed.

(4) All waste paper and other inflammable waste materials are deposited in fireproof receptacles.

(b) Factories devoted entirely to one of the following occupancies:

Blacksmithing or horseshoeing;
Boiler making;
Brick, terra cotta or artificial stone works;
Forge shops;
Foundries;
Iron, steel, brass or copper works;
Machine shops;
Smelting;
Stone or monumental works;

provided that in any case:

(1) The building is not of wooden construction;

(2) Such chemical fire extinguishers as the fire commissioner may direct are installed;

(3) All waste paper and other inflammable waste materials are deposited in fireproof receptacles.

FORMS FOR NOTICES TO PROPERTY OWNERS

If applicants, under the building zone resolution, desire copies of Form 13A, for notices to property owners, such forms are not to be supplied by this office.

The applicant is entitled only to one copy of Form 13A, properly filled out.

If he desires additional copies for his own convenience, in notifying property owners, he can obtain such copies from The O'Connell Press, 176 Park Row, Manhattan, at three cents each, postage to be added if the forms are to be supplied by mail.

WARNING

Notice is hereby given to all petitioners, appellants and applicants, and to all lawyers, architects and engineers representing owners or lessees in proceedings before the board—

First, That if they do not appear in person or by representative at the hearing on their case, dismissal for lack of prosecution is likely to result.

Second, That due and ample notice of the date set for hearing is provided in the publication in this BULLETIN of the calendars of the board, each case being set down by Calendar Number and premises under the date of the hearing.

Third, That no plea of ignorance of the date of the hearing can be entertained in view of this publication and of the posting of the calendars on the bulletin board in the

offices of the board and of the further publication of the calendars in the daily press.

Fourth, That no one is entitled to written notice of the date for the hearing in his case, and that the plea of failure to receive such notice is no excuse for neglect to appear.

Fifth, That the business of the board is to dispose of all cases promptly, for the reason that the pendency of an appeal or petition ties the hands of the administrative official in enforcing his order; therefore, no appeal or petition will be allowed to be hung up by reason of failure of the appellant or petitioner to file necessary data, or by any other method of delay.

Sixth, That no appeal, application or petition will be accepted for filing unless, at the time of filing, all papers, plans and data required by law are supplied, as specified on the blank appeal, application or petition forms.

EDWARD V. BARTON, Chief Clerk

OFFICE—Municipal Building, Rooms 1001 to 1015.

TELEPHONE—WORTH 0184.

OFFICE HOURS—9 a. m. to 5 p. m. Saturdays 9 a. m. to 12 noon.

All communications should be addressed to the chairman of the board.

CONTENTS

This issue of the Bulletin contains, in the order given—

Docket.

Call of Clerk's Calendar.

The Trial Calendar.

Notices in Building Zone Cases.

Minutes of Regular Meeting, March 27, 1928, 10 a. m.

Minutes of Regular Meeting, March 27, 1928, 2 p. m.

Rules for the Testing of Wood.

Notice of Public Hearing on "Standpipe" — "Fire Line" Rules.

Appliances Approved.

Reserve Calendar.

Progress Report.

PUBLIC HEARINGS APR 11 1928

Tuesdays, at 10 a. m. and 2 p. m.

Special meetings as published in this Bulletin.

Call of Clerk's Calendar, Tuesdays, at 2 p. m.

All hearings are held in Room 1013, Municipal Building, Manhattan.

HOURS FOR CONSULTATION

10 A. M. to 1 P. M.

Any person desiring to consult the chairman or the engineers, pertaining to the work of the board, will be seen only between the hours of ten in the morning and one in the afternoon—Saturdays excepted.

CALL OF CLERK'S CALENDAR

The Clerk's Calendar consists of applications under the Building Zone Resolution, and its object is to give interested property owners opportunity to file objections, if any, and will be called in Room 1013, Tuesday, April 3, 1928, at 2 o'clock. At this call each case is set for hearing on a definite day.

The next subsequent Call of the Calendar will be on Tuesday, April 10, 1928, at 2 o'clock.

The Clerk's Calendar is not to be confused with the calendar of cases that have been definitely set for hearing on fixed days.

NOTICE TO APPELLANTS AND PETITIONERS

No appeal, application or petition will be entertained in connection with which court proceedings are pending or in progress, nor accepted that are not filed within twenty days from the date of the action of the Administrative Official.

Any communication purporting to be an appeal, application or petition shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this board.

Upon receipt of any such communication the writer will be supplied with the official forms for presenting his appeal, application or petition, and if he fails to supply the data required thereon, within twenty days, his case may be dismissed for lack of prosecution.

At the time of filing an application, the appellant or petitioner shall forward a signed notice of appeal addressed to the administrative official (either superintendent of buildings or fire commissioner) and file with this board a duplicate of said notice.

Petitioners are advised that their plans must indicate the points of the compass so as to establish the true location and position of the property, the subject of the appeal.

Appeals, applications and petitions will be simplified and disposition of same expedited by conforming to these directions.

WILLIAM E. WALSH, Chairman.

THE RESOLUTION—

(141-27-A)

WHEREAS, R. Beausoleil, for Fanny Farmer Candy Shops, Inc., owner, filed, February 10, 1927, an appeal from a decision of the fire commissioner, affecting premises 83-87 Clifton place, Borough of Brooklyn; and

WHEREAS, the decision of the fire commissioner, dated February 8, 1927 (Alt. No. 346-27), reads:

"3. File a certified copy of burner as approved by the Board of Standards and Appeals.";

and

WHEREAS, the premises consist of a plot of ground having a frontage of 106 ft. on Clifton place and a depth of 95 ft., upon which is located a six-story non-fireproof factory building, 50 ft. by 95 ft. in area, a one-story office building, a one-story storage building, a one-story garage and a boiler room; OCCUPIED by one concern for the manufacture of candy, 130 persons in entire premises; and

WHEREAS, a fuel oil burning system has been installed consisting of a 3,500-gallon storage tank, a Billow Type GRD burner and the necessary valves and piping for a complete installation; and

WHEREAS, appellant requests a temporary permit for the operation of the fuel oil burning system pending the approval of the burner by the board; and

WHEREAS, this appeal was granted by the board at its meeting, May 3, 1927, and December 13, 1927, for a temporary period, and appellant requested an extension of time.

Resolved, that the decision of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted*, for a temporary period of ninety days from March 27, 1928, at the owner's risk, pending determination of the board on the petition for the approval of the burner, on condition that the installation be made in accordance with the fuel oil rules in all other respects.

1178-27-A.

THE RESOLUTION—

(1178-27-A)

WHEREAS, Croker National Fire Prevention Engineering Co., for R. Hoe & Co., owner, filed, November 2, 1927, an appeal from an order of the fire commissioner, affecting premises 22-36 Sheriff street, 84-98 Broome street and 21-33 Columbia street, Buildings, I, K and L, Borough of Manhattan; and

WHEREAS, the order of the fire commissioner, dated December 2, 1927, reads:

"1. Provide a 5" cross connection between each riser in buildings I—K—L.

"4. Provide an electric closed circuit high and low alarm for tank on roof of building K.";

and

WHEREAS, the premises consist of one non-fireproof and two fireproof attached buildings (designated on drawings I, K and L), four, five and six stories (65 ft. to 103 ft.) in height, 7,500 to 13,600 sq. ft. in area, with fireproof doors at all communicating openings; OCCUPIED for the manufacture of printing presses and saws: 1st story, 113 persons; 2nd story, 117 persons; 3rd story, 148 persons; 4th story, 55 persons; 5th story, 61 persons; 6th story, storage only; EQUIPPED with a sprinkler system, a standpipe system and a fire alarm system; and

WHEREAS, the appellant proposes, as to Defect No. 1, to maintain the 4-inch standpipe cross-connection in Building K and provide all other standpipe risers with 5-inch cross-connections where required; as to Defect No. 4, to connect the fill line to the 17,000-gallon tank on Building L and also to the 3,500-gallon tank on Building K (both tanks supply the standpipe system and are fed by a 500-gallon pump through a 1¼-inch feed line); the appellant claims that there has been no change in the system for a great many years in the past; therefore, the present condition of the standpipe system complies with rule 44; and

WHEREAS, the entire premises are equipped throughout with an approved two-source wet sprinkler system.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted*, as to Item 1, on condition that not less than a 5-inch cross-connection shall be made between Buildings L and K, and as to Item 4, so long as present float tell-tale shall be maintained; that the building shall be not increased in height or area, and that the occupancy and use shall remain substantially unchanged.

1181-27-A.

APPELLANT—Croker National Fire Prevention Engineering Co., for Pennsylvania Arcade Realty Corp., owner.

SUBJECT—Appeal from orders of the fire commissioner. PREMISES AFFECTED—161-163 Madison avenue, Manhattan.

THE RESOLUTION—

(1181-27-A)

WHEREAS, Croker National Fire Prevention Engineering Co., for Pennsylvania Arcade Realty Corp., owner, filed, November 5, 1927, an appeal from orders of the fire commissioner, affecting premises 161-163 Madison avenue, Borough of Manhattan; and

WHEREAS, the orders of the fire commissioner, dated October 14, 1927, read:

"Order No. 17737-F:

"1. Raise standpipe tank to 20' over top outlet. Sec. 20, Ch. 12, Code of Ordinances.";

"Order No. 17738-F:

"1. Arrange the house water supply pipe so that same will connect with tank on the outside thereof above the 3,500 gallon mark only. Section 20, Chapter 12, Code of Ordinances.";

WHEREAS, the building is fireproof, eleven stories and rent house in height, 49 ft. 4½ in. by 100 ft. in area; OCCUPIED as a hotel: 1st story, office and restaurant; upper stories, twelve rooms on each story; EQUIPPED with a fire alarm system; there being two cross-connected water tanks on the roof, each tank of 3,700 gallons capacity, used for house supply with a reserve of 2,500 gallons in each tank for standpipes; the tanks are supplied by two automatic electric pumps in cellar; and

WHEREAS, the appellant claims, as to Order No. 17737-F, that the bottom of the roof tanks are 9 ft. 6 in. above the roof outlet and 17 ft. above the outlet in the eleventh story; as to Order No. 17738-F, that 3,500 gallons reserve will be maintained in the tanks for standpipes with the additional advantage of the entire 7,400 gallons in both tanks in case of emergency; furthermore, the appellant contends that there has been no change in the system since 1902, therefore the present condition of the standpipe system complied with rule 44.

Resolved, that the orders of the fire commissioner be and they hereby are *modified*, and the appeal be and it hereby is *granted*, as to Item 1, of Order No. 17737-F, *on condition* that there shall be no industrial use, operation or work conducted on the top story of this building; *granted*, as to Item 1, of Order No. 17738-F, *on condition* that the north-ly tank shall be disconnected from the house supply tank and service and retained solely for standpipe supply, and that the system shall comply in all other respects with the requirements of the standpipe rules.

THE RESOLUTION—

(1150-27-A)

WHEREAS, L. E. Driver, for the New York Dock Co.,

owner, filed, October 26, 1927, an appeal from an order of the fire commissioner, affecting premises 8-22 Congress street, Borough of Brooklyn; and

WHEREAS, the order of the fire commissioner, dated September 29, 1927 (Order No. 26410-F), reads:

"1. Install a standpipe system with risers 4 inches in diameter tested to withstand a pressure of 300 lbs. per square inch, extending from cellar to roof, with necessary check valves and 2½ inch regulation Fire Department outlets on each story (including basements, cellars and roofs), placed within main stairway enclosure.";

and

WHEREAS, the building is non-fireproof, five stories (61 ft. 9 in.) in height, 159 ft. by 147 ft. 2 in. and 137 ft. 6 in., irregular, about 22,500 sq. ft. in area; OCCUPIED for the storage of furniture throughout: 1st story, 21 persons; upper stories, 8 persons, intermittently; and

WHEREAS, the appellant claims that the building is of mill construction, slow-burning, and equipped with an approved sprinkler system; that the building is divided by a fire partition into 10,454 sq. ft. and 10,676 sq. ft. floor areas; furthermore, the appellant contends that the building faces three streets, is readily accessible to fire boats, and the immediate vicinity is well supplied with high and low pressure fire hydrants; and

WHEREAS, the order is based on the area in excess of the regulations; and

WHEREAS, the premises consist of two buildings divided by a fire wall with horizontal openings therein.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that the building shall be not increased in height or area; that the horizontal openings in the fire wall separating the two sections shall be equipped with approved automatic fire doors, and *granted on the further condition* that the building throughout shall be equipped with an approved sprinkler system with a gravity tank, direct water connection to city main and fire pump supply.

THE RESOLUTION—

(1177-27-A)

WHEREAS, Croker National Fire Prevention Engineering Co., for R. Hoe & Co., filed, November 2, 1927, an appeal from an order of the fire commissioner, affecting premises 504-520 Grand street, Buildings A, B, C and F, Borough of Manhattan; and

WHEREAS, the order of the fire commissioner, dated December 2, 1926 (Order No. 5021-F), reads:

"1. Remove the 4" gate valve in standpipe cross connection between buildings F. & A. on 5th story.

"4. Provide an electric closed circuit high and low alarm for gravity tank on F. building.

"3. Provide an approved double clapper 4" x 3" x 3" siamese connection on each street front situated between 18" & 24" above sidewalk in a horizontal position and in an accessible position to the Fire Department.

MINUTES

"6. Place the riser and hose outlets in building C so as to be located inside of building.

"7. Place all hose outlets in A building between 5' & 6' above floor (now 3½').";

and

WHEREAS, the premises consist of three non-fireproof and one fireproof attached buildings (designated on drawings A, B, C and F), four, six and nine stories and tower (41 ft. 9 in. to 174 ft.) in height, 4,500 to 8,140 sq. ft. in area, with fireproof doors at all communicating openings; OCCUPIED for the manufacture of printing presses and saws: 1st story, 180 persons; 2nd story, 115 persons; 3rd story, 119 persons; 4th story, 38 persons; 5th story, 100 persons, and a total of 73 persons above the 5th story; EQUIPPED with a sprinkler system, a standpipe system and a fire alarm system; and

WHEREAS, the appellant proposes, as to Defect No. 1, to seal open the 4-inch gate valve in the standpipe cross-connection between Buildings F and A; as to Defect No. 4, to feed the 5,000-gallon tank on Building A by means of an overflow line from the 3,500-gallon tank on Building F, so as to maintain a full tank on Building F at all times; as to Defect No. 5, to maintain the existing siamese connections on Grand street front and provide new siamese connections on the Broome street front; and

WHEREAS, the appellant claims, as to Defect No. 7, that the height of outlets vary from 3 ft. 3 in. to 4 ft. 10 in. above floors; that the largest floor area is less than 10,000 sq. ft.; that there has been no change in the system for a great many years in the past; therefore, the present condition of the standpipe system complies with rule 44; furthermore, the appellant contends that within the next two years the present manufacturing occupancy will be entirely discontinued; and

WHEREAS, the entire premises are equipped throughout with an approved two-source wet sprinkler system.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted*, as to Items 2, 3 and 4, and as to Item 1. *on condition* that the 4-inch gate valve shall be sealed open; as to Item 6, *on condition* that the hose outlets shall be maintained on the outside of the loft on the stair landing platforms; *granted*, as to Item 7, as to location and height of existing hose outlets in Building A, and as to Item 5, only so far as it affects the Sheriff street and Columbia street fronts; that the building shall be not increased in height or area and so long as conditions as to occupancy and use otherwise remain unchanged.

THE RESOLUTION—

(1147-27-A)

WHEREAS, James Kearney, for Viebrock Plumbing Corp., owner, filed, October 24, 1927, an appeal from an order of the fire commissioner, affecting premises 2614-2616 Myrtle avenue and 313-315 Fresh Pond road, Glendale, Borough of Queens; and

WHEREAS, the order of the fire commissioner, dated October 11, 1927, affecting premises 2614 Myrtle avenue, reads:

"Order No. 11748-LC:

"5. Brick up all openings, doors, vents and windows leading from this building to storage garage. Sec. 159, Ch. 10.

"9. Provide an approved self-closing fireproof door on one side and approved automatic fire door on the other side of opening in division wall between 2616 and 2614 Myrtle Avenue in cellar. Sec. 20, Ch. 112.";

and

"Order No. 12418-LC:

"Discontinue the storage and use of fuel oil on the above premises, until such time as plans have been filed with and approved by the fire commissioner, and the fuel-oil system installed in accordance with these plans, and the present fuel-oil rules.";

and

WHEREAS, the order of the fire commissioner, affecting premises 2616 Myrtle avenue, reads:

"Order No. 14337-LC:

"2. Brick up window opening from boiler room leading to garage, Sec. 159, Chapter 10, Code of Ordinances.

"3. Brick up door opening, and all other window openings leading from cellar to garage, Sec. 159, Chapter 10, Code of Ordinances.

"4. Brick up window openings on 1st floor leading into the garage, Sec. 159, Chapter 10, Code of Ordinances.

"5. Provide adequate means of ventilation for boiler room, Rule 20, Fuel Oil Rules.

"9. Brick up the opening in division wall in cellar between the premises 2614 Myrtle Ave. & 2616 Myrtle Ave. Plan 2839-26 shows this as separate building.";

and

WHEREAS, the premises facing on two street fronts consist of two non-fireproof buildings three stories and cellar in height on the Myrtle avenue front and one story in height on the Fresh Pond road front; the frontage on Myrtle avenue being 56.12 ft., on Fresh Pond road being 56.12 ft. and a depth of approximately 194 ft.; OCCUPIED: cellar, boiler room (having fuel oil system) and storage of plumbing stock, no persons; 1st story, Myrtle avenue, public library and plumbing shop; Fresh Pond road, garage for the storage of five automobile trucks, 5 persons; upper stories, dwellings; and

WHEREAS, appellant proposes to provide fireproof doors at the openings in the cellar between the two buildings and also at the two openings leading from the cellar to the garage on the first story of the Fresh Pond road front of the building; and

WHEREAS, these orders, Nos. 11748-LC, 12418-LC and 14337-LD affect the same premises adjoining at the side and the rear on different street fronts.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted*, as to Item 9, of Order No. 11748-LC, *on condition* that there be no more than one opening in fire wall separating Nos. 2614 and 2616, and that the said opening shall be equipped with self-closing, fireproof door opening into 2614 Myrtle avenue, and *granted*, as to Item 4, of Order No. 14337-LC, *on condition* that all openings in the rear of No. 2616 be built up with solid masonry, other than a single door hung on the garage side of the rear wall; that this opening shall be equipped with a self-closing, fireproof door with metal interlocking jambs, sill and head, and that a fireproof sill, not less than 12 inches in height above floor level, shall be provided to this same door opening, and *granted*, as to Item 9, of Order No. 14337-LC, in accordance with the requirements above stated, affecting Item 9, of Order No. 11748, which affects the same opening, and the appeal be and it hereby is *denied* in all other respects.

WHEREAS, Harry H. Holler, for Anna C. Bingler, owner, filed, July 26, 1927, an application, under the building zone resolution, to permit in a business district the erection and maintenance of a gasoline service station; premises northeast corner of Merrick road and Springfield boulevard, Springfield, Borough of Queens; and

WHEREAS, a public hearing was held on this application by the board of standards and appeals, at its regular meeting, March 27, 1928, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Merrick road is in a business district, Springfield road is in a business district and Forman avenue (133rd road) is in a residence district; and

WHEREAS, the decision of the superintendent of buildings, rendered May 28, 1927 (re N. B. 8022-27), reads:

- "1. Gasoline station prohibited in a business district.
- "2. Contrary to zone resolution."

and

WHEREAS, it is proposed to erect an office, bury four 550-gallon tanks and erect four pumps for the purpose of conducting a gasoline service station within a business district; and

WHEREAS, the board deemed that applicant failed to substantiate his basis of appeal under section 21 on the ground of hardship.

Resolved, that the decision of the superintendent of buildings be and it hereby is *affirmed*, and the application be and it hereby is *denied*.

THE RESOLUTION—

(1207-27-BZ)

WHEREAS, Henry C. Pelton, for John D. Rockefeller, Jr., owner, filed, November 15, 1927, an application, under the building zone resolution, to permit in a residence district, extending from a business district, the erection and maintenance of an extension to an existing business building; premises 680-684 Fifth avenue, Borough of Manhattan; and

WHEREAS, a public hearing was held on this application by the board of standards and appeals, at its regular meeting, March 27, 1928, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Fifth avenue is in a business district, West 54th street is in a residence district and West 53rd street is in a residence district; and

WHEREAS, the decision of the superintendent of buildings, rendered October 17, 1927 (re App. No. 2305-27), reads:

"1. Proposed enlargement of a business building by extending from a business district into a residence district is unlawful. Art. II, Building Zone Resolution."

and

WHEREAS, the existing building is of fireproof construction, six stories in height, with a frontage of 52 ft. 1½ in. and a depth of 122 ft. 6 in.; it is proposed to erect a six-story fireproof addition on the corner, 48 ft. 3½ in. fronting on Fifth avenue and 122 ft. 6 in. fronting on West 54th street, located 100 ft. within the business district and 22 ft. 6 in. within the residence district, the entire building

MINUTES

to be used for business purposes with 25 per cent. used for manufacturing; and

WHEREAS, the board deemed that it was justified to grant a variation under the rules of exception, section 7, subdivisions A, B and C.

Resolved, that the board of standards and appeals does hereby make a variation in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is granted on condition that there shall be not more than one exterior door opening in the residence use area of this plot, maintained as second means of exit for the use and occupancy under the building code; that there shall be no manufacturing industrial use or operation within the residence use area of this plot, and that all permits required shall be obtained within six months and any work involved shall be completed within one year from the date of this action.

APPROVAL OF PLANS

308-26-A.

APPELLANT—Thomas W. White, for Sinclair Refining Co., lessee.

SUBJECT—Application for approval of plans in accordance with resolution adopted by the board on January 24, 1928.

PREMISES AFFECTED—1117-1163 Grand street, Brooklyn.

APPEARANCES—None.

ACTION OF BOARD—Chairman read engineer's report. Report of engineer adopted and plans approved.

AREAS FIXED.

(976-27-BZ)

The chairman presented and read a communication from Philip J. Sinnott, requesting the board to fix the area deemed affected and within which to obtain consents to permit, partly in a business district and partly in a residence district, the extension in area and height of an existing garage for the storage of more than five motor vehicles; premises southwest corner of Queens boulevard and Devon place, Forest Hills, Borough of Queens.

The following area was approved by the board:

Both sides of Queens boulevard from a point 200 ft. south of premises in question to a point 400 ft. north of premises in question; both sides of Devon place from Queens boulevard to a point 200 ft. west of Kew Forest lane and the east side of Kew Forest lane from Devon place to a point 150 ft. southerly therefrom.

(114-28-BZ)

The chairman presented and read a communication from Byrnes & Buckley, Esqs., requesting the board to fix the area deemed affected and within which to obtain consents to permit in a business district the erection and maintenance of a garage for the storage of more than five motor vehicles; premises 4453-4459 Jerome avenue (101st avenue), Richmond Hill, Borough of Queens.

The following area was approved by the board:

Both sides of Jerome avenue (101st avenue) from 111th street (Greenwood avenue) to a point 400 ft. west of proposed garage; both sides of 109th street (Napier avenue) from Jerome avenue (101st avenue) to a point 200 ft. south of Jerome avenue (101st avenue); the west side of 110th street (Bedford avenue) and also the east side of 109th street (Napier avenue) from Jerome avenue (101st avenue) to a point 150 ft. north of Jerome avenue (101st avenue).

Adjourned 1.15 p. m.

THE RESOLUTION—

(694-27-A)

WHEREAS, H. Levenson, owner, filed, June 16, 1927, an

MINUTES

appeal from a decision of the fire commissioner, affecting premises 217-221 Main street, Tottenville, Borough of Richmond; and

WHEREAS, the decision of the fire commissioner, dated June 11, 1927 (No. 4554-26), reads:

"1. As building faces on one street and is two stories in height, provide a gravity tank with appurtenance of 3,500 gallon capacity elevated 20 feet above roof."

and
WHEREAS, the building is fireproof, the front portion being two stories (26 ft.) and the rear (theatre) portion being one clere story (40 ft. to top of roof truss) in height, 68 ft. 3 7/8 in. by 182 ft. 5 in. (approximately 11,550 sq. ft.) in area; OCCUPIED: 1st story (front), two stores and entrance lobby; (rear), motion picture theatre (stadium effect), seating 1,000 persons; 2nd story, offices, approximately 25 persons; and

WHEREAS, appellant contends that the existing standpipe is supplied from the 8-inch city main in Main street, which has a minimum pressure of 75 pounds per square inch and that the main is fed in both directions, and contends, further, that there is a siamese connection to the system at the street front of the building.

Resolved, that the decision of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted*, only so far as it affects the requirement for the installation of the gravity tank, *on condition* that the premises shall be equipped with a standpipe system, with not less than a 4-inch connection to the city water main, and so long as the occupancy and use of the premises is restricted to the display, conduct and operation of a moving picture theatre with a seating capacity limited to 1,000 seats.

1052-27-A.

APPELLANT—Edward F. Doyle, for Montauk Holding Co., Inc., owner.

SUBJECT—Appeal from order of the fire commissioner.

PREMISES AFFECTED—1672-1678 Broadway, Manhattan.

APPEARANCES—

For Appellant: Edward P. Doyle.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Walsh, Commissioners Connell, Holland and Guilfoyle..... 4

Negative 0

Absent: Chief Kenlon..... 1

THE RESOLUTION—

(1052-27-A)

WHEREAS, Edward P. Doyle, for Montauk Holding Co., Inc., filed, September 26, 1927, an appeal from an order of the fire commissioner, affecting premises 1672-1678 Broadway, Borough of Manhattan; and

WHEREAS, the order of the fire commissioner, dated May 26, 1927 (Order No. 21650), reads:

"1. Provide approved fireproof windows, with metal or kalameined frames, glazed with wired glass for all openings in the exterior wall above the 1st story, which are distant in a direct line less than 30' from any opening in any other building and not in the same plane with said openings and which are not more than 50' above a neighboring roof at east and north side of building, or other approved protection as per Sec. 375, Art. 18, Ch. 5, of the Code of Ordinances."

and

WHEREAS, the building is fireproof, nine stories in height, 75 ft. 10 1/4 in. by 61 ft. 10 in., irregular, in area; OCCUPIED: 1st story, stores; upper stories, offices, approximately 50 persons per story; and

WHEREAS, there are four windows on the sixth, seventh, eighth and ninth stories in the north wall of the building

within 50 ft. of the roof of a four-story building to the north and, also, two windows on each story above the first story in the northerly court wall within 30 ft. of openings in or within 50 ft. of the roof of a neighboring four-story building to the north; two windows on each story above the fifth story in the easterly wall within 50 ft. of the roof of a neighboring four-story building to the east and three windows on each story above the first story in the easterly court wall within 30 ft. of openings in or within 50 ft. of the roof of a neighboring four-story building to the east; and

WHEREAS, appellant requests the acceptance of the existing conditions as to windows, in so far as the building in question is occupied for office purposes and that the exposures in the court are approximately 18 ft. and 28 ft. away from the building in question; and

WHEREAS, the exposure based in this order on the easterly wall is in the four-story fireproof structure, all openings of said structure being fireproof.

Resolved, that the order of the fire commissioner be and it hereby is *granted*, only so far as it affects any openings not on the course of stair hall, corridors, shafts or public passageways, so long as conditions as to operation and use and the adjoining exposures remain substantially unchanged.

821-27-A.

APPELLANT—Raphael A. Egan, for C. P. M. Realty Corp., lessee.

SUBJECT—Application for reopening—amendment of resolution—re appeal from decision of the superintendent of buildings.

PREMISES AFFECTED—705-713 Fifth avenue and 3-5 East 55th street, Manhattan.

APPEARANCES—

For Appellant: R. A. Egan.

ACTION OF BOARD—Appeal reopened and resolution amended.

THE VOTE TO REOPEN AND AMEND RESOLUTION—

Affirmative: Chairman Walsh, Commissioners Holland and Guilfoyle and Deputy Chief

Martin 4

Negative 0

Absent: Commissioner Connell..... 1

THE RESOLUTION—

(821-27-A)

WHEREAS, Raphael A. Egan, for The C. P. M. Realty Corp., lessee, filed, July 16, 1927, an appeal from a decision of the superintendent of buildings, affecting premises 705-713 Fifth avenue and 3-5 East 55th street, Borough of Manhattan; and

WHEREAS, the decision of the superintendent of buildings dated June 2, 1927 (Elevator Application No. 348-27 of N. B. 355-1926), reads:

"1. The shaft of No. 2 elevator must be carried the full height.

"2. Encroachment in elevator pits of both elevators not permitted."

and

WHEREAS, the building in course of erection is fireproof, 15 stories in height, 120 ft. 5 in. in area; OCCUPANCY: showrooms, offices and 25 per cent. manufacturing; and

WHEREAS, the appellant proposes to install an elevator for a tenant extending from the basement to 2nd story (designated by the letter "E" on plans) with a door at 1st story opening to a private entrance hall from Fifth avenue, the elevator pit extends 4 ft. below the basement floor except at one corner the footings of an interior column extend 1 ft. 1 in. by 3 ft. by 2 ft. high into the pit; and

WHEREAS, this appeal was granted by the board at its meeting, July 26, 1927, as to Item No. 2, and appellant requested an amendment to include the original objection as to Item No. 1; and

WHEREAS, the appellant claims that the proposed elevator

MINUTES

is for one tenant using part of the 2nd story for banking purposes and the basement for vault space; furthermore, the appellant contends that the installation of the elevator is strictly a tenant change and should be guided by the rules governing alterations; and

WHEREAS, in one corner of elevator pit there is a slight encroachment of the footings of column 58 and the elevator extends at the second story to the height of the partitions only.

Resolved, that the decision of the superintendent of buildings be and it hereby is *modified*, and the appeal be and it hereby is *granted*, only so far as it affects one single elevator installed within the banking space area for the exclusive use of the bank; the run in height of elevator shall be restricted to and between the basement and second story, on condition that the said encroachment shall not exceed an area at the base of 13 in. by 36 in.; that the top of shaft 7 ft. 6 in. above the floor of second story shall be properly protected, and that the elevator installations and equipment otherwise shall comply with the rules in all respects.

BUILDING ZONE CASES

961-27-BZ.

APPLICANT—The New York Edison Company, owner.

For Applicant: John H. McCooley, Jr.

For Opposition: None.

ACTION OF BOARD—Application denied.

THE VOTE TO WITHDRAW—

Affirmative: Commissioner Holland and Deputy
Chief Martin 2

Negative: Chairman Walsh and Commissioner
Guilfoyle 2

Absent: Commissioner Connell..... 1

THE VOTE TO GRANT—

Affirmative: Commissioner Guilfoyle and Deputy
Chief Martin 2

Negative: Chairman Walsh and Commissioner
Holland 2

Absent: Commissioner Connell..... 1

THE RESOLUTION—

(510-27-BZ)

WHEREAS, McCooley & Conroy, substituted for Philip J. Sinnott, for Alden Terrace Corp., owner, filed, May 9, 1927, reopened January 31, 1928, an application, under the building zone resolution, to permit in a business district

MINUTES

the erection and maintenance of a gasoline service station (previously denied); premises southwest corner of Cypress Hills road and Cooper avenue, Ridgewood, Borough of Queens; and

WHEREAS, a public hearing was held on this application by the board of standards and appeals, at its regular meeting, March 27, 1928, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Cypress Hills road, west side, is in a business district, that Cypress Hills road, east side, is in a residence district and that Cooper avenue is in a business district; and

WHEREAS, the decision of the superintendent of buildings, rendered March 9, 1927 (re Plan No. 2167-27), reads:

"1. Creation of a gasoline station is prohibited in a business district by the Zoning Resolution of the Board of Standards and Appeals; and

and

WHEREAS, the premises consist of a plot of ground having a frontage of 101 ft. on Cypress Hills road and 152.23 ft. on Cooper avenue, upon which it is proposed to erect a small office and accessory store (15 ft. by 20 ft. in area), and to install the necessary tanks, pumps and piping for a gasoline service station; and

WHEREAS, after extensive argument for the variation under the principle of section 7, subdivision g; and

WHEREAS, after completion of argument by applicant's attorney, he requested permission to withdraw; and a motion was made to withdraw; vote taken and the request denied; and motion on question to grant the application was made; vote taken and application denied.

Resolved, that the decision of the superintendent of buildings be and it hereby is *affirmed*, and the application be and it hereby is *denied*.

Adjourned 6.00 p. m.

WILLIAM J. O'GORMAN, *Secretary*.

RULES

RULES FOR THE TESTING OF WOOD

Pursuant to the Provision of Section 356 of Chapter 5 of the Code of Ordinances (Building Code).

(639-27-SR)

Adopted by the Board of Standards and Appeals July 22, 1927. Amended March 16, 1928.

Rule 1. Before any wood may be used for flooring or interior trim where incombustible materials are required under the provisions of section 356 of the Building Code, the superintendent of buildings must be notified promptly upon the delivery at the job of a consignment of such material. One test sample for each 2,000 feet of material will then be selected by a representative of the Bureau of Buildings, marked for identification, and forwarded to the testing laboratory, where, under the supervision of the superintendent of buildings or his representative, the samples shall be subjected to the following tests:

Before making tests of all specimens for testing shall be oven dried at a temperature of 140° F. to a point where there is no further loss of weight due to evaporation of moisture content.

A. SHAVING TEST—A mass of shavings cut fairly thick from the outside and interior of sticks of the treated wood are to be tested separately. These shavings shall be placed to a depth of two inches in a metal vessel twelve inches square, the bottom of which shall consist of a wire screen of ½ inch mesh. The shavings shall be packed down moderately to reduce the air spaces. A Bunsen yellow flame shall then be placed beneath the receptacle so that the flame is in contact with the shavings. After twenty-five seconds the flame shall be removed. The flame at no time should show higher than six inches above the top of the bed of shavings and the shavings should not be consumed in less than five minutes.

B. TIMBER TEST. Two samples ¾ inch by 1½ inches in cross section and twelve inches long shall be

laid side by side across the top of a gas crucible furnace with a pyrometer between them. The specimens shall be subjected to a flame at 1700 deg. Fahrenheit for two minutes, the test pieces shall then be removed, and the time of duration of flame and glow observed. The sticks shall then be cut through the middle at the most burned section and the area of the unburned wood measured with a planimeter. The flame must not persist longer than 15 seconds nor the glow longer than 20 seconds, and, in the case of hard woods, the unburned area should not be less than 55 per cent., nor in the case of soft woods less than 45 per cent.

C. CRIB TEST—Twenty samples are to be prepared, each ½ inch square and 6 inches long. These shall be built up on a ring support to form a crib work five tiers high, four sticks to a tier, making the crib six inches by six inches and approximately 2½ inches high. The crib shall be set six inches above a Bunsen burner to which the crib shall be exposed for a period of one minute at a temperature approximating 1200 deg. Fahrenheit. The flame must not persist more than twenty seconds after the Bunsen burner is removed, nor the glow last more than thirty seconds. The tendency of the flame to spread from stick to stick must also be noted.

Rule 2. All of the above tests shall be at the expense of the owner or contractor or other interested party.

If the tests are satisfactory the entire shipment will be permitted to be taken into the building and used. If not, the entire shipment shall be condemned and must be removed from the premises.

In general, acceptance shall be predicated upon the existence of a complete plant in full working order from which the material is shipped, and each shipment, or, where possible, each piece shall be trade marked in a conspicuous manner so that there may be no doubt as to its identity.

FORMS FOR NOTICES TO PROPERTY OWNERS

If applicants, under the building zone resolution, desire copies of Form 13A, for notices to property owners, such forms are not to be supplied by this office.

The applicant is entitled only to one copy of Form 13A, properly filled out.

If he desires additional copies for his own convenience, in notifying property owners, he can obtain such copies from The O'Connell Press, 176 Park Row, Manhattan, at three cents each, postage to be added if the forms are to be supplied by mail.

PUBLIC HEARING

PROPOSED AMENDMENTS TO "STANDPIPE"- "FIRELINE" RULES

[281-22-SR]

NOTICE IS HEREBY GIVEN that a public hearing will be held by the board of standards and appeals on Friday, April 20, 1928, at 2 p. m., Room 1013, Municipal Building, on proposed amendments to "Standpipe"—"Fire Line" Rules.

Matter in *italics* is new.

Rule 1. PLANS. A preliminary set of paper plans and cross section drawn clearly and distinctly to a scale of $\frac{1}{4}$ -inch or by permission of the Fire Commissioner $\frac{1}{8}$ -inch to the foot, for each proposed standpipe (fire line) installation or alteration, shall be submitted to and approved by the Fire Commissioner before the work in connection with the installation is started. Such plans shall show the size and location of the standpipe (fire line) risers, size and location of siamese and cross-connections, valves, tanks and connections, pumps, hose stations, lengths of hose, etc.; and the location of stairways and enclosing partitions in relation to the standpipe risers and hose stations. Upon approval of preliminary plans such number of sets of clean, corrected plans on cloth as the Fire Commissioner may require, not exceeding three (3) shall be filed for final approval by the Fire Commissioner. A certified copy of approved plans shall be forwarded to the Bureau of Buildings by the Bureau of Fire Prevention. Such application and specification forms as may be prescribed by the Fire Commissioner shall accompany preliminary plans. If an automatic sprinkler system is provided throughout the building or in any portion of the building, the plans shall include a note to this effect.

Rule 2. APPROVAL. Before acceptance all standpipe (fire lines) shall be tested for at least one hour in the presence of a representative of the Bureau of Fire Prevention to a pressure of at least 300 pounds per square inch at the street siamese, and pump supply level, or such additional pressures as may be required to give 100 pounds at the highest hose outlet supplied by such pump, except that when a change is made in a source of supply, or minor changes are made in an existing equipment previously approved, the system shall be tested to a pressure sufficient to give 50 lbs. per sq. in. at a flow of 750 gallons per minute at the highest story hose outlets.

No valves, risers, or other material portions of any standpipe (fire lines) equipment shall be covered or permanently concealed until tested and approved, in writing, by the Bureau of Fire Prevention.

When entirely completed in accordance with the approved plans, and as per test herein provided for, application shall be made to the Bureau of Fire Prevention for inspection of the completed installation. When the standpipe equipment is approved, the applicant will be so advised in writing by the Bureau of Fire Prevention.

When deemed necessary by the Fire Commissioner, sectional diagrams of the standpipe (fire line) equipment in buildings of large area or height, not more than three in number and printed on cloth in size not less than $8\frac{1}{2}$ x 11 in., shall be filed by the applicant for the use of fire companies in the district in which the premises are located.

Rule 3. STANDPIPE-FIRE LINE CERTIFICATE. The engineer, superintendent or persons in charge of the standpipe-fire line system in all buildings exceeding eighty-five feet in height shall be registered, and submit to an examination in the Fire Department. Upon evidence of fitness to properly operate and maintain the standpipe system he shall be granted a Certificate to that effect. The certificate shall contain the full name and a small photograph of the holder.

Day and night service shall be maintained in all buildings exceeding 250 ft. in height in which there is a fire pump.

Theatre buildings provided with fire pumps shall have at least one certified operator on duty during every performance. Buildings of large areas, industrial plants, amusement parks, etc., shall have at least one certified operator on duty when deemed necessary by the fire commissioner.

Rule 4. MONTHLY INSPECTION. All valves, hose, tools and other auxiliary fire appliances shall be kept in perfect working order, and at least once a month the person holding certificate of fitness shall make a thorough inspection of all the fire appliances to see that they are in perfect working order and ready for immediate use by the Fire Department. *Fire pumps shall be tested every 30 days by the person holding the certificate of fitness.*

He shall also instruct all employees under his charge in the use and practice of all auxiliary fire appliances. A detailed record of each inspection shall be kept on the premises for examination by a representative of the Fire Department.

All standpipe equipment in buildings exceeding 85 ft. in height shall be subject to a flow test with a pressure of not less than 50 lbs. at the top floor outlet, at least once in every two years, test to be conducted in the presence of a representative of the Fire Department.

Rule 5. APPROVED DEVICES. All devices approved for use in new standpipe fire line equipments shall bear the manufacturer's name and the date of and the number of the approval. Certified copies of the approval, working drawings and photographs of the device approved, shall be submitted to the administrative authority having jurisdiction for preservation as records and reference data.

Rule 6. ELEVATOR IN READINESS. In every building exceeding 150 feet in height at least one passenger elevator and in buildings in course of construction a hoist or elevator shall be kept in readiness for immediate use by the Fire Department during all hours of the night and day, including holidays and Sundays, and a man competent to operate the elevator shall be present at all times.

Rule 7. AREA OF BUILDINGS. For the application of Section 581 of Chapter 5 of the Code of Ordinances the area of a building shall be taken as the area within the exterior walls, or the area between fire walls.

When the fire walls are constructed in accordance with Section 371, Chapter 5 of the Code of Ordinances, and all openings are protected on both sides of fire wall or walls with automatic fireproof self-closing doors, the area within such fire walls or exterior walls and a fire wall, shall be considered a separate building.

Rule 8. HEIGHT. The term "height" as applied to a building or structure, means the vertical distance measured in a straight line from the curb level, to the highest point of the roof beams in the case of flat roofs, and to the average height of gable in case of roofs having a pitch of more than 20 degrees with a horizontal plane.

Rule 9. STANDPIPE EQUIPMENT shall consist of a system of piping connected to one or more approved sources of water supply and provided with sufficient number of hose outlets and hose located as hereinafter set forth, to make possible the covering of every portion of each floor area with a standpipe hose stream, except that where the 1st story or basement or both are occupied as stores without connection or communication with the entrance hall or stair enclosure to upper stories the Fire Commissioner may permit the omission of standpipe protection in such stores and, if so omitted, may prescribe such portable protection as he may deem necessary. Cellars, sub-cellars, basements, etc., shall be protected in the same manner as the stories above.

PUBLIC HEARING

Every standpipe (fire line) equipment shall be a Standard Wet System, except as hereinafter provided for:

(a) In any building not exceeding 40 feet in height, and 20,000 sq. ft. in area, a four-inch street supply system having one four (4) inch direct connection to a street main fed two ways or having one 4-in. direct connection to each of the two street mains on two street fronts, each main so fed that the shutting off of one main will not interfere with the supply of the other main, may be installed, provided there is a sufficient pressure in the street main or mains to maintain a minimum of twenty-five (25) pounds per square inch static pressure at the highest hose outlet.

Evidence establishing the fact that water main conditions and pressures are as required shall be submitted to the Fire Department.

Rule 10. CLASSIFICATION OF STANDPIPE-FIRE LINE EQUIPMENTS. For the purpose of these rules standpipe equipments shall be classified as:

(a) Standard Wet System in which the pipes are of sizes as specified in Section 581 of the Building Code, and in which the system is at all times filled with water from at least one standard source of supply.

(b) Four-inch street connection system, in which the pipes are of sizes as specified in Section 581 of the Building Code and the system is at all times filled with water from one or more 4-in. diameter direct connections to public water mains in the street.

(c) Automatic dry systems, in which the pipes are of sizes as specified in Section 581 of the Building Code, and are normally dry, the system being connected to a source of water supply controlled by an automatic dry pipe valve as defined elsewhere in these rules.

Rule 11. TANKS ABOVE ROOF. Construction shall be as per Section 428 of the Building Code and tank structure and supports shall be approved by the Superintendent of Buildings. The covers of all unenclosed standpipe tanks shall be conical in shape and protected with a type of roofing approved by the Superintendent of Buildings.

Rule 12. RESERVE FOR STANDPIPE. Gravity roof tanks, except as otherwise required by Rule 83, shall contain not less than 3,500 gallons of water at all times, reserved solely for standpipe fire line purposes.

When a gravity tank is to be used for both standpipe and house supply, the connection for the latter shall be made through the side of the tank above the level of the required standpipe reserve. This type of house and standpipe supply tank is preferred and recommended.

When two gravity tanks are used, one for standpipe fire line reserve and the other for the house supply, the house supply tank may be so arranged that it can only be filled by an overflow from the tank used for standpipe fire line purposes.

Rule 13. STANDPIPE AND SPRINKLER SUPPLIES. Standpipe and sprinkler supply shall be taken from one tank unless there is available 5,000 gallons of water for the standpipe system which shall be in excess of the amount of water required for the sprinkler system. Standpipe supply may be taken through the side of the tank or through the bottom provided that portion of the pipe within the tank is of brass or other non-corroding material.

Rule 14. BUILDINGS IN GROUP UNDER THE SAME OWNERSHIP AND OPERATION:

One gravity tank of at least 5,000 gallons water capacity to supply the largest unit of a group of separate and distinct buildings operating under one ownership, and located at such elevation that the bottom of the tank will be at least 20 feet above the roof of the highest building of the group, will be accepted as an adequate tank supply for the entire standpipe equipment, provided a dead riser is carried down from the bottom of the tank to an underground header system having a Post Indicator control valve for each building unit, the P. I. valves to be located as the Fire Commissioner may direct.

Rule 15. UNDERGROUND PIPING. All underground piping shall be extra heavy cast iron installed in accordance with the standard specifications of the American Water Works Association: for 4-inch lines Class C requirements shall be used, 6-inch Class D, 8-inch Class E.

Rule 16. ADDITIONAL TANKS. When, in his opinion, the area covered is excessive or the occupancy is such that an unusual fire hazard is introduced, the Fire Commissioner may require additional protection in the nature of additional tank or tanks located remote from any other standpipe tank, or additional water supply in the main gravity tank, or a fire pump and suction tank of size and capacity to be determined by the Fire Commissioner or the Board of Standards and Appeals, or a combination of any of the foregoing supplies.

Rule 17. STANDARD SOURCE OF SUPPLY. Gravity tank located so that the bottom of same will be not less than 20 feet above the roof level and of a capacity as stated elsewhere in these rules and direct connected to the standpipe equipment by pipes of the same diameter as that of the largest riser.

Rule 18. TANK FEED. Tanks shall not be fed through the standpipe fire line, but shall be fed through a separate line at least 2 inches in diameter, discharging into the top of each tank above the overflow level through the side or through the bottom, that portion of the pipe within the tank to be of brass or bronze. An electric or steam pump of sufficient capacity to deliver at least 65 gallons of water per minute at the tank shall be provided, or if the pressure in the service line is sufficient and the plumbing is such that a minimum of 65 gallons of water per minute may be delivered to the tank, connection to the house water service main in the basement, cellar or lowest story may be used instead of pump.

The sprinkler and standpipe tanks may be fed from a common source of supply, either a pump or a direct service main connection, when a ball (float) valve is provided for each tank. Floats shall be of copper.

Rule 19. OVERFLOW. An overflow of diameter at least as large as that of the the fill line shall be provided for each standpipe tank. It may be run through the bottom of the tank, provided it is of brass or bronze and has no joint inside of the tank, otherwise it must be brought through the side of the tank, 3 inches below the top (of sides). Overflows shall terminate in a 90 degree elbow not more than 24 inches above the roof.

Rule 20. EMERGENCY DRAIN. There shall be provided for each tank an emergency drain not less than 4 inches in diameter connected directly to the bottom of the tank or to the standpipe supply line above the roof, and terminating not less than 30 inches nor more than 4 feet above the roof in a horizontal run. Emergency drain shall be provided with a 4-inch O. S. & Y. gate valve located in a readily accessible position not more than 4 feet above the roof.

Rule 21. ELEVATION OF TANK. The bottom of each gravity tank used for standpipe fire line supply shall be at least 20 feet above the level of the roof. When the area of a pent house exceeds 50% of the roof area or when it exceeds an area of 2,500 sq. ft., the bottom of the tank shall be required to be not less than 20 ft. above the level of the pent house roof. In existing standpipe equipment the bottom of the gravity standpipe tank shall not be required to be more than 20 feet above the outlet in the highest story.

Rule 22. PYRAMID OR TOWER ROOFS. Where the roof of the building is designed so as to finish in a pyramid or tower form, the gravity tank shall be elevated as high as practicable, within the pyramid or tower. Provided, however, that in all cases, the gravity tank is not less than twenty (20) feet above the hose outlet in any room or space

PUBLIC HEARING

occupied other than for tank houses, elevator machinery or machine shop for repairing elevator machinery. Fire appliances, as may be required by the Fire Commissioner, shall be provided in such tank houses, elevator machine rooms, etc.

Rule 23. ACCESS TO TANK. Access to the top of each standpipe tank shall be provided by means of an iron gooseneck ladder of substantial construction and rigidly braced. Access to the tanks on theatre building shall be by double-rung ladders at an angle of not more than 70°, with intermediate landings every 12 ft.

Rule 24. HIGH AND LOW WATER ALARM. Every gravity tank hereafter installed for standpipe fire line purposes shall be equipped with an electric closed circuit high and low alarm as provided under Rule 88, in order that it may be determined at any time whether or not the required standpipe reserve is in the tank, except when the house supply is taken from the tank, or where the house supply tank can only be filled from an overflow of the standpipe fire line reserve tank, a high and low alarm need not be provided when an automatic tank filling pump is installed.

Rule 25. CHECK VALVE. There shall be provided in a horizontal run of pipe in the top story stair enclosure or in a heated enclosure on the main roof in the line connecting the standpipe tank with the standpipe riser an approved type swing check valve opening downstream toward riser, except that where a siamese steamer connection has been omitted under these rules, no check valve shall be required. An O. S. & Y. gate valve shall be provided on each side of the check valve and shall be sealed open in an approved manner.

Rule 26. HEATING OF TANKS. All tanks used for standpipe supply purposes shall be heated by means of steam supplied through a brass coil with brass fittings and of a type and radiating surface as prescribed by the Board of Standards and Appeals. The heater shall be fed through a 1¼-inch steam line with a 1-inch return, separately trapped. The water in the tank shall be maintained at a temperature above 40° F.

Tanks in hotels, hospitals, institutes or similar buildings using the tank supply seven days a week supplying both standpipe and house service lines shall not require heating. If in an adequately heated enclosure, interior heating of tanks shall not be required.

Rule 27. LOWEST SUCTION TANKS. Tanks shall have at least 10,000 gallon effective water capacity as specified in Schedule A, reserved for the lowest fire pump use exclusively and shall be constructed of steel or reinforced concrete, located below the grade, or lowest story if there is no cellar under the building. The Fire Commissioner may permit suction tanks to be located in a separate enclosure or building provided they are accessible and in his judgment such location will be more practicable.

Rule 28. LOWEST TANK SUPPLY. The lowest suction tanks shall be fed by a connection at least 4 inches in diameter taken direct and independent from the public street main. The supply shall be not less than 750 gallons a minute, and shall enter the suction tank above the top or through the side near the top of the tank and shall be controlled by suitable bronze ball cock and copper float.

Rule 29. SUPPORT FOR TANKS. Tanks of more than 500 gallons capacity hereafter placed in or on any building shall be supported on masonry, reinforced concrete or steel construction of sufficient strength and carried to a proper foundation as provided for in section 428, Chapter 5 of the Code of Ordinances.

Rule 30. INTERMEDIATE TANKS. The location of intermediate tanks hereafter installed shall be as directed by the Fire Commissioner and as prescribed elsewhere in these rules and each such tank shall have at least

5,000 (see Schedule A) gallons of water reserved exclusively for fire line and pump purposes. The bottom of each tank shall be at least 20 feet above the highest outlet supplied therefrom. The method of water supply to tanks, the overflow, the high and low water alarm, the emergency drain, etc., shall be as prescribed for tanks above the roof except that the overflow and emergency drain shall be connected to the drainage system of the building or discharge on intermediate roof levels.

The connection of the tank to the system shall be as hereinafter set forth:

Piping of the same diameter as the riser shall connect the tank with the riser of the portion of equipment supplied from that tank and in this connecting line in a horizontal run there shall be placed an approved swing check valve opening downward, and two O. S. & Y. gate valves, one at each side of the check valve. Each tank section shall be directly connected to the tank section above by means of piping of the same diameter as that of the largest riser and in a horizontal connecting line shall be provided an approved swing check valve opening upward, with an O. S. & Y. gate valve, at each side of the check valve, in order that water pumped into the siamese connection may enter the entire equipment of the building, and that each tank will supply only its portion of the system.

Rule 31. VALVES. All valves controlling standpipe water supply except valves at hose outlets shall be iron body brass mounted, malleable iron, or cast steel designed in accordance with specifications of the American Society of Mechanical Engineers, gate valves shall be of outside Stem & Yoke type, and shall be located in an accessible position.

Rule 32. PIPING. Materials of Construction. All new piping for standpipe fire lines shall be of genuine full weight wrought iron or steel and properly tested by the manufacturer to withstand the required water working pressures. All pipes shall be lapwelded. Where working pressures are in excess of 150 lbs. to the square inch extra heavy cast iron, malleable iron or cast steel valves, and fittings constructed in accordance with the specifications of the American Society of Mechanical Engineers, able to withstand the required water working pressure shall be provided. The standard weight fittings and valves may be used where the pressure is not more than 150 lbs. per sq. in. Fittings in horizontal runs shall have long turns. All underground piping shall be of extra heavy cast iron as required by Rule 15.

The water working pressure on piping, valves and fittings shall be determined by the total head of water plus 50 pounds at the top floor hose outlet plus a factor of safety of at least 50 per cent. Specifications as to the construction and water working pressure of all piping, valves and fittings shall be marked on plans filed with fire commissioner.

Rule 33. CONSTRUCTION. Each standpipe fire line riser shall be supported at the bottom and at every other (alternate) story, and shall be properly braced. Horizontal lines shall be supported by standard heavy wrought or malleable iron hangers attached to or extending around and over floor beams at intervals of not more than 8 ft., and at more frequent intervals if deemed necessary by the Fire Commissioner and shall be securely braced to withstand vibration. Hangers may be supported by straps or bars extending over and around bars of at least 1 in. in diameter and 12 in. in length embedded in concrete floors parallel to and at least 2 in. from the undersurface or by approved malleable iron concrete inserts. The arrangement of lines must be straight and as direct as practicable. Offsets will be permitted only when unavoidable or where necessary to install horizontal check valves. Except where flange fittings and pipes are permitted elsewhere in this rule, all joints shall be screwed joints made up thoroughly water tight with red lead, litharge and glycerine, or compressed graphite lead and boiled linseed oil, or any joint compound that shall be approved by the Board of Standards and Appeals.

In horizontal runs of piping of standpipe fire line systems, if larger than 4 in. in diameter, fittings and valves

PUBLIC HEARING

may be of the flange type, provided flange faces are machined true and smooth and do not show rings, sand holes or other imperfections. All joints shall be provided with proper copper gaskets.

All standpipe (fire line) equipments shall be installed in a workmanlike manner.

Rule 34. PROTECTION OF FIRE LINES. Standpipe lines when not located within a fire protected stair enclosure shall be protected against interior fire damage by means of at least one inch asbestos covering, or a covering of expanded metal lath and three-quarters inch Portland cement plaster or by a 2 in. terra cotta block encasement.

Rule 35. FROST PROTECTION. Standpipe lines shall be properly protected from freezing in the following manner:

One wrapping of tar paper equivalent to Asphalt Saturated Wool Felt paper weighing 12 lbs. per 100 sq. ft.

Three (3) layers of standard 1 in. high grade "long cows' hair" felt interposed and covered with one (1) layer of builders' paper equivalent to red rosin sized sheathing paper weighing 40 lbs. per 500 sq. ft.

One (1) covering of 8 oz. canvas, painted with two (2) coats of waterproof paint.

All wrappings to be independently applied and securely fastened in place with heavy jute twine. Circumferential and longitudinal joints to have at least a 2 in. lap staggered with adjacent layers and opposing leakage to the hair felt.

In groups of pipes each water pipe is to be wrapped separately with the tar paper, but subsequent layers of felt and paper may be applied collectively if space does not permit of individual wrapping.

Where a heating pipe is one of the group, the wrapping should be applied so that the hot line would serve all pipes in the enclosure. The initial wrapping of tar paper around each water pipe should be applied with laps down and the whole group wrapped with tar paper with laps up. If due to the position of the hot line sufficient air space would not insulate the hair felt, then protection to be effected by suitable separators, or a wrapping of asbestos paper instead of the tar paper around the group.

On vertical pipes particular provision to be made to prevent slipping and tearing of insulation due to its weight.

To prevent slipping away of insulation at point of entrance of pipes into a tank, and to shed leakage from slip joints, a 16 oz. duck to be provided, doubled and securely fastened to bottom of the tank overlapping inside and outside the insulation of the group for a distance of 18 in. below the tank. This duck to be well coated with paint. Loose hair felt to be packed about connection at tank bottom to safeguard against settling.

Rule 36. NUMBER OF RISERS. Each building fronting on more than one street shall have at least one riser for each street front. For the application of this rule a corner building shall not be considered as facing on more than one street when it is on but one corner. In all cases regardless of area or location there shall be a sufficient number of risers, so that any portion of each floor area may be covered by the stream from a standpipe hose not exceeding 100 ft. in length.

Rule 37. FIRE TOWER RISER. Each standpipe riser shall be located within a stair enclosure and one riser must be located in main stairway or fire tower.

Where impracticable to locate a riser within the stair enclosure, the Fire Commissioner may permit it to be located immediately adjacent to a stair enclosure, public corridor or other suitable place.

Rule 38. HOSE STREAM ALLOWANCE. Not more than 10 feet will be allowed for the throw of hose stream, except where the static pressure at the hose outlet is 15 lbs. or more, when 20 ft. will be allowed.

Rule 39. SIZE OF CROSS-CONNECTION. Where there are two or more risers in a standpipe (fire line) equipment, all risers shall be cross-connected by piping of a diameter at least equal to the diameter of the largest riser, but in no case shall the cross-connection be less than five inches.

Rule 40. FIRE PUMPS. Where Required:

(a) In every building hereafter erected exceeding 250 ft. in height, as described in Schedule A, an electric centrifugal fire pump shall be kept in readiness for immediate use of the Fire Department during all hours of the night and day, including Sundays and holidays.

Rule 41. ARRANGEMENT AND SUPPLY OF FIRE PUMPS. Fire pumps shall be connected to the standpipe systems and have a capacity of 750 gallons of water per minute at a pressure of from 50 to 80 lbs. Fire pumps shall draw from steel or reinforced concrete suction tanks. For the purpose of testing fire pumps a 4 in. diameter branch shall be taken from the discharge line at the pump side of the check valve and run to the suction tank over the side or through the side above the overflow level. From this branch there shall be taken a 4 in. line with an approved type pressure relief valve, extending to the tank in a manner similar to that of the 4 in. test line. In the 4 in. test line between the 4 in. relief branch and the tank there shall be placed an O. S. & Y. gate valve, which shall be kept closed except during a test of the fire pump. In the line from the fire pump to the standpipe risers and beyond the test branch there shall be placed an approved type check valve in a horizontal position and also an O. S. & Y. gate valve, the latter to be open except when the fire pump is undergoing test. A pressure gauge shall be provided and connected to the discharge line of the pump.

The piping connecting discharge from fire pumps shall be of same diameter as the main riser.

Rule 42. NUMBER AND LOCATION OF FIRE PUMPS.

SCHEDULE A

Height from Uppermost Hose Outlet to Grade	Total No. of Pumps Required	Approximate Location of Pumps			
		1st Pump	2nd Pump	3rd Pump	4th Pump
			Above level of First Pump	Above level of First Pump	Above level of First Pump
250' to 400'	1	Below grade level			
401' to 500'	2	Below grade level	200' to 250'		
501' to 600'	2	Below grade level	250' to 300'		
601' to 700'	3	Below grade level	200' to 250'	400' to 500'	
701' to 800'	3	Below grade level	250' to 300'	500' to 600'	
801' to 900'	4	Below grade level	200' to 250'	400' to 500'	600' to 750'
901' to 1000'	4	Below grade level	250'	500'	750'

Rule 43. FIRE PUMPS IN BUILDINGS EXCEEDING 1,000 FEET. All buildings exceeding 1,000 feet from grade level to uppermost supply tank shall be provided with a fire pump for every 250 feet of elevation above the centre line of the lowest pump.

Rule 44. TANK CAPACITIES. Suction tanks supplying the first or lowest pump shall contain not less than 10,000 gallons reserved for fire pump. Intermediate tanks and uppermost supply tanks for building between 250 and 400 ft. as described in above schedule shall contain not less than 5,000 gallons reserved for fire pump. Uppermost supply tanks in buildings not exceeding 250 ft. shall contain not less than 3,500 gallons reserve for standpipe fire line.

PUBLIC HEARING

Rule 45. **TANK STRAINERS.** All supply tanks shall be provided with proper strainers at pump and riser intake lines.

Rule 46. **CENTRIFUGAL FIRE PUMPS.** Fire pumps installed under these rules shall have a capacity of 750 G. P. M. and shall be of the multi-stage motor driven Centrifugal type designed, constructed and installed to render the highest possible efficient and reliable fire service.

The pumping equipment shall be adaptable for heavy duty service having all parts of ample strength with liberal water passage and all working parts exposed to corrosion of phosphor bronze.

The pumps shall be fitted with fire fittings consisting of capacity name plate, pressure gauges, relief valves, hose manifold and three (3) approved 2½ in. hose valves with Standard Fire Department male threads. Fire pumps shall take suction supply under a head of water and in no case shall there be less than six (6) feet between water level in tank and centre line of pump.

The pump specifications shall be within the uniform requirements of "The National Standard" as adopted by the following associations:

Associated Factory Mutual Companies,
National Board of Fire Underwriters,
or as approved by the Board of Standards and Appeals.

Fire pumps to be designed to operate at not less than five (5) pre-determined speeds to give five (5) pre-determined pressures which will insure a maximum pressure of 80 lbs. and a minimum pressure of 50 lbs. throughout the building.

Fire pump equipment shall be so designed that it will operate normally at least five (5) speeds to provide a minimum of 50 lbs. pressure, and where more than one pump is required it shall be capable of pumping to the level of the next highest pump station in case of breakdown of intermediate pumping unit.

To provide for this standby service the fire pump shall run at nine (9) pre-determined speeds, namely, five (5) for continuous service and four (4) for standby service.

Rule 47. **GENERAL SPECIFICATIONS.** Pumping equipment shall be free from defects in design, workmanship and material and shall give proper and continuous operation under the conditions of service specified and shall be subject to approval of the Board of Standards and Appeals.

Materials entering into construction of this equipment shall be the best quality of their respective kinds and all parts shall be amply proportioned so as to be adaptable for heavy duty service.

CASING: Casing shall be of close grained cast iron and divided horizontally, and having suction and discharge connections in the lower half, so that the top casing can be removed without breaking water connections. Casing shall have in addition to flange bolts, additional heavy bolts inside of flange to prevent leakage between stages. Casing shall be tested and guaranteed to withstand pressure 50% in excess of working pressure.

SHAFT: Shaft shall be made of best grade nickel steel and shall be ground all over to close limits and a high finish.

IMPELLERS: Impellers shall be of the enclosed type of best grade of phosphor bronze finished all over.

WEARING RINGS: Shall be of phosphor bronze and of renewable labyrinth or other equal type. Impeller wearing rings shall be securely attached to impeller, and casing ring shall be securely locked in the casing.

SHAFT SLEEVES: Shaft sleeves shall be of bronze and extend through stuffing boxes to protect the shaft from corrosion and wear from the packing.

BEARINGS: Bearing brackets shall be of the best grade of close grained cast iron and securely bolted to the lower half of the casing.

Bearing brackets shall contain cast iron bearings lined with high grade babbitt and shall be removable. Each bearing shall be equipped with two oil rings to insure proper lubrication.

COUPLING: Coupling shall be of best grade cast iron finished all over and keyed to shaft. The two halves shall be connected by coupling pins, transmitting power through rubber bushings, vulcanized on steel sleeves.

STUFFING BOXES: Stuffing boxes shall be of sufficient depth to prevent excessive leakage and shall contain water seal rings of bronze.

PACKING: Packing shall be held in place by bronze glands horizontally split and bolted together.

BED PLATE: Bed plate shall be of cast iron of heavy box type and provided with finished pads to which the pump is bolted and doweled. Foundation bolt rings shall be drilled for foundation bolts. Jack-screw pads to be cast with bed and jack-screws furnished to assist in aligning. Bed plate shall be provided with ample drip rims, drilled and tapped for piping connections on both ends.

PAINTING: Pumps shall be painted, filled, rubbed down to an even surface and finished with a drab steel-color machine paint, and the inside of the oil reservoirs in the bearing brackets to be painted white with a special oil-resisting paint.

TESTING: Pumps shall be tested at the plant of manufacturer to prove that they can fulfill requirements of specifications and guarantees made.

Rule 48. **SPECIFICATIONS FOR ELECTRICAL CONTROL AND OPERATION OF FIRE PUMPS.**

MOTOR: (a) Direct-current motors must be of the shunt or cumulative compound wound types. The speed of the motor at no load must not exceed the speed at full load by more than 10%.

Alternating current motors shall be of a slip ring type that will surely start and attain full speed under the current supply conditions where pump is to be installed. Approval of fire pump installations will be contingent on proper attention being given to the features mentioned herein.

(b) Motor must be of such capacity and design that at rated voltage its full load ampere rating will not be exceeded when the pump it drives is delivering its rated output at specified pressure and speed, and when running under this load continuously or until no further rise in temperature occurs. The rises in temperature at its various parts above the temperature of the surrounding air must not exceed 40° C. except that the rise in temperature in the field of a D. C. motor may be as much as 50° C. as permitted by the standardization rules of the American Institute of Electrical Engineers. Motor designed for a temperature rise not exceeding 40° C. when carrying its rated full load continuously must be able to carry an overload of 25% for two hours immediately following a full load run without a temperature rise at any part exceeding 55° C. Motor must be able to withstand a momentary overload of 50% without injury. No electrical or mechanical weakness should develop during these tests.

(c) Motor and control apparatus must be protected from water coming from possible leakage, or breakage of any connection at the pump or other piping in its vicinity, including hose lines which may be connected to the pump.

(d) Motor windings should be thoroughly impregnated with waterproofing compound.

(e) Bearing shells and caps for motors shall be of the split type on at least the driving end, to permit removal and replacement without disturbing the motor or shaft after installment.

VARIABLE SPEED CONTROL OF MOTORS shall be provided. Not less than five stages of speed variation will be permitted.

PUBLIC HEARING

AUTOMATIC STARTERS will not be permitted except as provided for under Rule 86 (Theatres, etc.) of Standpipe Fire Line Rules.

CONTROLLING EQUIPMENT: The following specifications cover the construction and installation of controlling equipments of manually operated devices for the control of electric motors driving fire pumps.

In materials, details of construction, test and installation, except as modified or supplemented by these requirements, all parts of the equipment shall comply with Chapter 9 of the Code of Ordinances.

All equipments shall be specifically approved for fire pump controlling purposes.

DESIGN: (a) The design of all parts must be such as to secure simplicity, strength, durability and ease of operation.

(b) All parts must be mounted on one or more panels of slate or marble, supported in a substantial manner on an iron frame, and the entire equipment must comply with the requirements for switchboards in Chapter 9 of the Code of Ordinances.

(c) All parts, such as bearings, cams and latches, the operation of which is liable to be interfered with by corrosion, must be made of phosphor bronze or similar metal, except where magnetic qualities are essential. Springs must be of phosphor bronze or similar metal, or protected against corrosion in an approved manner.

OPERATING MECHANISM: (a) The operation shall be such that the motor is directly started by a single lever, which, except in auto starters or compensators, shall be arranged to move in one direction from the initial to the final position.

(b) Electrical actuating devices will not be approved.

(c) Where direct current is used, an auxiliary field resistance may be provided which can be used to increase the motor speed 10 per cent.

RESISTANCES: Starting resistances must be, unless inside of the motor, of the grid type, and comply with the requirements of starting duty rheostats as given in Chapter 9 of the Code of Ordinances.

AUTO STARTERS OR COMPENSATORS: These devices must comply with the requirements of these rules and also with those of Chapter 9 of the Code of Ordinances for the construction of auto starters.

OVERLOAD PROTECTION: (a) Each motor lead must be protected by a circuit-breaker. With direct current motors, leads must be protected by a single-pole circuit-breaker in each lead, or by an approved double coil, double pole circuit-breaker so designed that each pole must be closed independently of the other.

(b) Circuit-breakers to be calibrated to 400 per cent of normal motor current, and with squirrel-cage motors must be equipped with time-element devices.

(c) No fuses nor other overload release devices except circuit-breakers are permitted, except in instrument and pilot light leads.

WIRING: All wiring shall be installed in rigid iron conduit.

SWITCH: An approved knife switch for independent sources of supply must be provided, having one pole for each supply wire in circuit.

PILOT LAMP AND INSTRUMENTS: (a) A pilot lamp connected on the motor side of the circuit-breaker must be provided to indicate the presence of voltage on the line.

(b) A voltmeter and ammeter must be provided and suitably mounted and connected as a part of the control equipment.

MARKING: (a) A name plate must be provided giving the name of the manufacturer and the rating of the equipment in volts and amperes.

(b) All line and motor terminal connections must be suitably marked so that they can be readily identified.

CONTROL PANEL: The control panel shall be constructed of a high grade of electrical slate or marble or other approved material except when panel is in a fireproof room and not subject to mechanical injury an enclosing cabinet shall not be required.

The supporting frame shall be so arranged that the bottom of the panel will not be less than 24 inches above the floor.

INSTALLATION OF APPARATUS: The control panel shall be located close to and within sight of the motor. If a pump room used for no other purpose and containing no other apparatus except the fire pump, its motor and its accessory appliances, is provided, the controlling equipment shall be placed in this room.

The control panel shall be so protected that it will not be injured by water escaping from pump or connections.

Except where special permission is granted by the Fire Commissioner the controlling equipment shall be protected from mechanical injury by one of the following methods:

(a) Grille or lattice partitions so placed as to completely enclose the control panel and starter.

(b) The entire equipment of the panel and starter may be enclosed at the sides, front, back and top in a thoroughly substantial, ventilated sheet iron or steel cabinet of not less than No. 12 U. S. metal gauge in thickness with hinged doors with glass panel in front of pilot light.

TEST OF EQUIPMENT: The entire equipment shall be subject to test and inspection by representatives of the Fire Commissioner.

POWER SUPPLY: Where the power supply can be obtained from two separate street feeders, two separate and distinct services shall be installed.

Isolated Plant: Where the source of supply is an isolated plant located in the building an auxiliary service of sufficient capacity shall be obtained from some outside source.

Transmission Lines: (a) The lines between the power plants and the pump room must be of such number, so arranged and so located that there will be small chance of an interruption of service to the motor, due to accident to the lines. All wiring in the pump room must be in approved conduit.

Where the valves involved are large and the crippling of this pump service would seriously affect the protection of the property, at least two separate lines from the power plant or plants to the pump installation shall be provided. The lines must be run by separate routes or in such manner that a failure of both at the same time will be only a remote possibility.

Where current is taken from an underground Edison 3-wire system it will be considered that two independent lines have been provided if connections are brought into the pump room from two street mains or feeders not terminating directly in the same junction box.

(b) Each line between the power plant and pump room shall be of such size that its safe carrying capacity as given in Chapter 9 of the Code of Ordinances will not be exceeded by the load carried.

Where direct current motors are used, the voltage at the motors must not drop more than 5 per cent below the voltage rating of the motors when the pumps are being driven at rated output, pressure and speed, and the lines between motors and power stations are carrying their peak loads.

When alternating current motors are used, the voltage at the motors under these same conditions must not drop more than 8 per cent below the voltage rating of the motors.

(c) The overload protective devices at the power plants, and where provided at various points on the lines, must be of such rating and so set that they will open the circuit only under short circuit conditions.

Approved fuses may be used, if desired, except for the protection of the pump motor where circuit breakers are required. The fuses, however, must be of such size that an overload or short circuit at the motor or its control ap-

PUBLIC HEARING

paratus will not cause them to open the circuit, but instead, the circuit breaker protecting the motor.

TRANSFORMERS: Where it is necessary to install transformers they shall be installed in accordance with Chapter 9 of the Code of Ordinances.

Rule 49. SIGNALLING DEVICES. All buildings where variable speed control of fire pump motors is required shall be equipped with an approved coded closed circuit signalling system. The signalling stations shall be located one on each floor at main riser. This system shall be so arranged that a coded signal can be transmitted to the pump rooms. An eight-inch gong shall be provided in all pump rooms and at such other locations as the Fire Commissioner may direct. All apparatus used in connection with the signalling system shall be of an approved type and installed as outlined in rules governing the installation of interior fire alarm systems.

A card of instructions shall be placed in the pump room giving code numbers of signalling stations, the pressures obtainable at different speeds of the motor and such other information that the Fire Commissioner may direct.

Rule 50. RELAY STANDPIPE SYSTEM. All buildings hereafter erected exceeding 400 feet from grade to highest hose outlet shall be provided with an intermediate combination gravity and suction standpipe supply tank and a fire pump as required under Schedule A.

Each tank shall have at least 5,000 to 10,000 gallons of water reserved for the fire lines and shall be connected to the fire line system as described in Rule 30 for intermediate tanks except that in addition to the requirements of Rule 30, there shall be provided a long turn by-pass 8 inches in diameter around the tank check valve and the O. S. & Y. gate valves. An 8-inch O. S. & Y. gate valve SEALED CLOSED shall be provided in the by-pass line.

Each tank shall be provided with overflow and emergency drain lines as required in Rules 19 and 20, except that such lines shall drain to roof of set backs on building, or into house drain lines providing the house drain line or lines are equal in sum total to the sum total in diameter of the drain lines.

The fire pump shall have a capacity of not less than 750 gallons of water per minute and shall deliver through the standpipe main feed riser at a pressure not less than 50 lbs. to the square inch at the highest hose outlet fed by said pump.

The fire pump shall be located on a raised base at least 24 inches above the floor and on the floor below the supply tank, with the suction line as direct as practicable.

The pump discharge line shall be connected to the main feed riser feeding up, and outside the horizontal tank check valve line, and the upward swinging check valve in the main riser. An O. S. & Y. gate valve shall be provided at a point between the pump discharge connection and the upward swinging check valve SEALED OPEN.

The fire pump and motor shall be located in a watertight room as close to fire tower as practicable, properly drained by a 3-inch line to house drain or scuppers in exterior wall. The electric switch controlling the motor shall be marked on panel "FIRE PUMP SWITCH" in 1 inch white letters on a red background.

Rule 51. NUMBERING ON VALVES. All gate valves on tanks, fire lines and pumps shall be numbered by 3-inch red metal disc with white numbers 2 inches high secured to wheel of valves.

Rule 52. PUMP ROOM DIAGRAM. A white and black print drawn to a scale of one-quarter inch to the foot shall be provided in a glass frame showing the tank, fire pump, all pipe lines and valves. The number of each valve shall be shown in addition to purpose of each water line.

The blue print shall include instructions as to method of starting and operating pump, closing main line, gate valve and opening by-pass valve.

Rule 53. FIRE LINE TELEPHONE. A telephone shall be provided in each pump room and every second floor at main riser with connections from and to every fire pump and main hallway on first story. Such telephone may also be used by house engine room force.

The telephone bell in each fire pump room and telephone station shall be of approved type 6-inch vibrating bell.

Rule 54. MAIN LINE EMERGENCY CONTROL VALVES IN BUILDINGS OVER 400 FEET IN HEIGHT (per Schedule A). At the base of the main feed riser or below the hose outlet valves on the first story; at each pump room elevation, and at each approximate one-third the height above the fire pump elevations and the pump or roof tank next above, there shall be provided O. S. & Y. emergency control valves in the main feed riser properly numbered and shown on the fire pump blue print heretofore described.

Rule 55. EMERGENCY TOOL BOX. Where fire pumps are required under these rules there shall be provided in each pump room an emergency fire department tool box, painted a fire department red, with 3-inch white letters reading, "Emergency fire line tool box." The box shall be secured to the wall and be fitted with a fire department lock and contain the following:

1—3-foot Stillson wrench.

4—2½-inch plugs with pipe threads.

4—2½-inch caps with pipe threads.

2—Spanner wrenches of Fire Department pattern.

4—2½-inch double female hose connections, with Fire Department threads.

Rule 56. EMERGENCY AND TESTING HOSE. Where fire pumps are required under these rules there shall be provided in each pump room not less than two 50-foot lengths of rubber lined 2½-inch hose, of Fire Department quality, and one 1½-inch nozzle of controlling type. All couplings to be of Fire Department pattern and threads. Hose shall be supported by hooks secured to enclosure walls of pump room.

Rule 57. LOCATION OF LOWER FIRE PUMP IN RELATION TO HORIZONTAL LINE CONTROL VALVES. In a single main riser system the fire pump discharge line to riser shall be as short as practicable.

In a two (2) main riser system the pump discharge line to cross connection shall be located between the two risers. An emergency gate valve of the O. S. & Y. type, sealed open, shall be provided in the cross-connection on each side of the discharge line connection.

In a three (3) main riser system the pump discharge line shall be connected to the cross-connection on each side of the central riser. Three (3) emergency gate valves as above shall be provided as follows: One (1) at the base of the central main riser and one (1) on each side of the discharge line connection on the riser side.

In a four (4) main riser system the pump discharge line to the cross-connection shall be centrally located so as to provide two risers on each side of pump connection. An emergency gate valve shall be provided in the cross-connection on each side of the discharge connection.

In a five (5) main riser system the pump discharge line shall be connected on each side of the third, or central riser, and shall be provided with gate valves located as described in a 3 riser system.

In a six (6) main riser system the pump discharge line shall be centrally located so as to provide three risers on each side of pump connection and shall be provided with gate valves located as described in a two and four riser system.

For the purpose of this rule a main riser is any vertical riser other than a branch riser with not more than three (3) hose outlets above the cross-connection.

Rule 58. EMERGENCY SAFEGUARDS. For the purpose of prolonging the use of the standpipe fire lines in

PUBLIC HEARING

case of failure or break, it is necessary to provide and properly locate emergency gate valves of the O. S. & Y. type as follows:

Rule 59. EMERGENCY VERTICAL LINE CONTROL VALVES. All standpipe fire line systems hereafter installed in buildings over four (4) stories or 50 ft. in height shall be provided for as follows: In a single main riser system an O. S. & Y. gate valve shall be provided below the first story hose outlet. If the interior stairway extends from hallway on first story to cellar the gate valve shall be located within the stairway enclosure below the first story level.

A two-way 2½-inch hose outlet tee with two 2½-inch approved valves shall be provided in all main risers 6 ft. to 7 ft. above floor or stair landing level of first story with the O. S. & Y. control valve below the outlet tee.

Where a single main riser system or a main riser feed system is installed and the uppermost hose outlet exceeds 150 ft. above grade level there shall be provided in such riser O. S. & Y. gate valves, in addition to the gate valve below the first story hose outlet at approximately the level above grade hereafter specified.

SCHEDULE B

Height from Uppermost Hose Outlet to Grade	Total Number of Valves Required	Approximate Location of Valves Above Grade					
		1st Valve	2nd Valve	3rd Valve	4th Valve	5th Valve	6th Valve
150' to 200'	2	Below the 1 sty. outlet	75'				
200' to 250'	3	"	75'	150'			
250' to 300'	4	"	75'	150'	225'		
300' to 400'	4	"	75'	150'	225'	300'	

Rule 60. UPPER CROSS-CONNECTION EMERGENCY CONTROL VALVES. When a two (2) main riser system is installed there shall be provided O. S. & Y. emergency gate valves between the risers in each cross-section, located within the stairway enclosure when practicable, or as near the door to main stairway of fire tower as practicable, and where the uppermost hose outlet exceeds 150 ft. above grade, the risers shall be provided with O. S. & Y. gate valves as described in Schedule B.

Where a three (3) main riser system is installed there shall be provided O. S. & Y. gate valves between any two of the risers in each cross-connection and one in the central riser at each cross-connection.

Where a four (4) main riser system is installed there shall be provided O. S. & Y. gate valves in each cross-connection between the 2 central risers, so as to provide 2 risers on each side of control valves.

Where a five (5) main riser system is installed there shall be provided O. S. & Y. gate valves between the second and third central riser in each cross-connection and one in the central riser at each cross-connection as described in a 3 riser system.

Where a six (6) main riser system is installed there shall be provided O. S. & Y. gate valves centrally located in each cross-connection so as to provide 3 risers on each side of gate valve—as described in a two and four riser system.

Where the building is provided with a fire pump as required by the Rules the gate valves required in the lowest cross-connection shall be located as described under location of Fire Pumps and Horizontal Line control valves.

Rule 61. MAIN RISER CONTROL VALVES ON BUILDINGS UP TO 400 FT. IN HEIGHT. Where the uppermost hose outlet exceeds 150 ft. above grade, the riser located in the main or most central stairway shall be provided

with O. S. & Y. gate valves in said riser as described in Schedule B for buildings up to 400 ft. in height.

Rule 62. FIRE TOWER RISER. Where the building is provided with an exterior enclosed fireproof stairway or fire tower the main riser shall be installed in such stairway and properly protected from freezing in accordance with these rules unless stairway is adequately heated.

Rule 63. VALVE SEALED OPEN. All O. S. & Y. gate valves shall be located in an accessible position and be sealed open in an approved manner.

Rule 64. LADDERS TO VALVES. Where the gate valve is more than 7 ft. above any floor or stair landing a single rung iron ladder with ½-inch rungs and not less than 10 inches between strings shall be provided at each gate valve properly secured at top and bottom.

Rule 65. VALVE SIGNS. Where the gate valves on the upper cross-connections are not located in the stair-enclosure, a sign with red background and white letters not less than 3 inches high shall be painted on the face of the wall within the stairway enclosure on the story where the gate valve is located, which shall read as follows: "STANDPIPE CONTROL VALVE NO. 0 IN LOFT."

Where a standpipe riser is located in a fire tower a sign with red background and 3-inch letters as above shall be painted on the wall at fire tower exit door, which shall read: "STANDPIPE IN TOWER," except on that story on which the emergency control valve is located, there the sign shall read: "STANDPIPE CONTROL VALVE NO. 0 IN TOWER."

Rule 66. VALVES NUMBERED. All emergency control valves shall be numbered by means of a metal disc not less than 3 inches in diameter painted red with a white number not less than 2 inches high and shall be secured to wheel of valve by chain or metal clamp.

Rule 67. FIRE LINES PAINTED. All standpipe lines not located within a stairway enclosure or public corridor and including the siamese connection street riser wall collars and caps shall be painted a Fire Department red.

Rule 68. SIAMESE CONNECTIONS FOR FIRE DEPARTMENT USE. Each standpipe system shall be provided with one or more approved type 3 inch x 3 inch inlet siamese connections for use by the Fire Department as hereinafter set forth. When a building faces on but one street and has a frontage of less than 250 ft. and requires but one four (4) inch diameter standpipe riser one siamese connection shall be provided; where the street frontage exceeds 200 ft. in length and requires but two four (4) inch diameter standpipe risers two siamese connections shall be provided for each 200 ft. of street frontage or fraction thereof. Buildings exceeding 250 ft. in height shall have not less than two siamese steamer connections for each riser and buildings not more than 250 ft. in height shall have at least one siamese connection for each 6 inch riser. Buildings having frontages on more than one street shall have a siamese connection on each street front when the frontage is not continuous but in all cases where more than one siamese connection is required they shall be properly distributed as the Fire Commissioner may direct and not grouped.

Rule 69. SIAMESE HEADERS. Siamese headers shall be independent of each other and lead as direct as practicable to riser or cross-connection header. There shall be at least 2 siamese for every 8-inch riser and at least 1 siamese for every 4 or 6 inch riser. Where there is more than one riser, the siamese headers shall divide on each side of any emergency control valve in the cross-connection, and such headers shall be equal in sum total, to the sum total of all risers on either side of the emergency control valves.

No siamese header shall be larger than 6 inches. Siamese risers when extending through sidewalk shall be of bronze

PUBLIC HEARING

or fitted with a brass sleeve, packed with a waterproof compound between sleeve and riser.

Rule 70. SIAMESE OMITTED. Any building, other than theatre with stage, not over 45 feet in height shall not be required to have a siamese connection except when such building is on a water-front or when it is one of a group of buildings and has a cross-connection to the standpipe equipment in one or more of the other buildings.

Rule 71. LOCATION. Each siamese connection placed on the street front of a building shall be located not less than 18 inches and not more than 36 inches above the sidewalk level and shall be set in a horizontal position and shall be readily accessible for Fire Department use. Each siamese shall have cast in the body on top or on wall plate, in letters at least 1 inch in length and not less than $\frac{1}{8}$ inch in depth, the word "STANDPIPE."

The piping connecting the siamese with the standpipe equipment proper shall be not less than 5 in. in diameter where there are two or more 4 in. risers and not less than 6 in. in diameter for risers of 6 and 8 in. diameter. When there is but one 4 in. riser, connection from siamese may be 4 in. in diameter.

Rule 72. SIAMESE CHECK AND DRIP. In each line between the siamese connection and the standpipe system there shall be placed an approved type swing check valve located where practicable within 10 feet from the building wall. Between the siamese and its check valve there shall be placed a $\frac{3}{4}$ -inch automatic ball drip of an approved type which will close under a pressure of not more than 7 lbs. per square inch.

Rule 73. SIAMESE CONNECTIONS FOR FIRE-BOAT USE, EXCEPT WHERE THE SOURCE OF SUPPLY IS FROM THE STREET MAIN DIRECT. Siamese connection on piers or warehouses, etc., intended for fireboat use exclusively shall be $3\frac{1}{2}$ in. x $3\frac{1}{2}$ in. at inlets with Fire Department female thread. Between siamese and the system proper there shall be an approved type swing check valve, and between the check valve and the siamese either a $\frac{1}{2}$ -in. open drip without valve or cock, or a $\frac{3}{4}$ -in. automatic ball drip of approved type closing under a pressure of not more than 7 lbs. per sq. inch. Where systems have both fireboat and pumper siamese the pumper (land) siamese shall have male connections and shall be without clappers, but shall have on each inlet a 3 in. gate valve with Fire Department male thread for hose connection. Check valve shall not be provided for the land end siamese.

Rule 74. HOSE OUTLETS. When practicable all hose outlets shall be placed within a stair enclosure. They shall be $2\frac{1}{2}$ in. in diameter, set not less than 5 ft. nor more than 6 ft. above the floor or landing as the case may be. Outlets and racks shall be located above the floor or landing and shall not be over a run of stairs or in a stair well. When impracticable to place hose outlets within the stair enclosure, the Fire Commissioner may permit them to be located immediately adjacent to a stair enclosure, in a conspicuous place, in which case there shall be painted upon the stair side of the wall of the stair enclosure a conspicuous sign in letters not less than 8 in. in height and 5 in. in width indicating the location of the outlet. Where there is a 4-in. riser system its termination above roof shall be a $2\frac{1}{2}$ -in. outlet hose valve properly capped.

Rule 75. MAIN ROOF OUTLETS. All 6 and 8-inch main riser systems shall extend to the highest roof level, and be provided with not less than three $2\frac{1}{2}$ -inch hose gate valve manifolds, with male threads. Roof outlets shall be located not less than 24 ins. nor more than 5 ft. above the roof and each valve shall be provided with regulation $2\frac{1}{2}$ -in. Fire Department caps. Where roof outlets cannot be located with-

in a heated stair enclosure, the control valve shall be located below the roof and shall have a long stem extending above the roof with a wheel handle at the upper end. Between the long stem valve and the roof outlet there shall be a $\frac{1}{2}$ in. open drip extending to a sink or a $\frac{3}{4}$ in. automatic ball drip of approved type.

In buildings not exceeding 40 ft. in height hose outlets above roof shall not be required.

Each outlet other than roof outlet shall have attached thereto $2\frac{1}{2}$ in. unlined linen hose of lengths as stated elsewhere in these rules, except that in buildings or premises that do not contain occupancies storing, handling or using inflammable motion picture films or nitro cellulose products, and which are not classified as hazardous, the Fire Commissioner may permit in addition to the $2\frac{1}{2}$ -inch outlet the installation of $1\frac{1}{2}$ in. unlined linen hose and valve.

Rule 76. SPANNER WRENCH. A spanner wrench shall be provided at each hose outlet valve, which shall be of the goose-neck Fire Department pattern.

Rule 77. BRANCH LINE SIZE. No branch line may be less than 4 in. in diameter, except that any branch from a riser or cross-connection to but one hose outlet may be $2\frac{1}{2}$ in. if not over four (4) feet in length, and may be 3 in. in diameter if not more than twenty-five (25) feet in length.

Rule 78. NOZZLES. All $2\frac{1}{2}$ -in. fire hose shall be provided with approved smooth bore nozzles 15 in. in length, the outlet at the tip to be not less than 1 in. nor more than $1\frac{1}{8}$ in. in diameter.

Rule 79. HOSE. Hose shall be approved unlined linen. There shall not be more than 100 ft. of hose at any outlet, as required by Section 581, Chapter 5, Code of Ordinances. No single length of hose shall be less than 50 ft.

All hose used in connection with the standpipe fire line system shall be at least equal in material and construction to the type of hose bearing the approval label of the National Board of Fire Underwriters.

Rule 80. COUPLINGS. Hose couplings for standpipe shall be equal to hose couplings of the regular Fire Department pattern and thread.

Rule 81. RACKS. All standpipe hose shall be suspended from racks of stamped steel, malleable iron or other metal equal thereto, of approved swing type, so designed and constructed that they will permit of ready and easy release of hose for use. The racks shall be supported securely and substantially from standpipe risers or wall, except that where a cast nipple of non-corroding material is screwed into the hose outlet valve the rack may be suspended from said nipple. The minimum thickness of nipple to be $\frac{5}{16}$ in. In no case will automatic racks be permitted.

Racks shall be not more than 7 feet above the floor.

Rule 82. HOSE CABINETS. Hose racks may be installed in cabinets, provided the cabinets are conspicuously located within a stair enclosure, and are of a size sufficient to accommodate the entire equipment and permit of easy handling of hose and operation of valve.

In theatres cabinets may be permitted outside of stair enclosures, provided they are conspicuous, and that during performances the cabinets are illuminated by means of an electric lamp placed inside. Each cabinet shall have a clear glass door (one panel only) without lock and shall have the words "FIRE HOSE" painted on the glass in letters not less than $2\frac{1}{2}$ inches in height.

Rule 83. REGULATION AND REDUCTION OF PRESSURES. All buildings hereafter erected over 250 ft. in height and which do not exceed 400 ft. in height from

PUBLIC HEARING

the grade to highest hose outlet shall be provided with a roof gravity tank of not less than 5,000 gallons.

Where the above described height exceeds 400 feet, fire pump and suction tanks shall be provided as described under Schedule A.

Where the pressure on any hose outlet valve exceeds 50 lbs. either approved outlet pressure reducers set as prescribed by the Chief of the Fire Department, or the Board of Standards and Appeals, shall be provided at such outlets.

Rule 84. BUILDINGS IN COURSE OF ERECTION. In buildings in course of erection standpipe fire lines shall be carried up with each story after the structure reaches the 7th story or a height of 85 ft., and there shall be provided an outside siamese steamer connection in a proper and accessible place, and regulation hose outlets on each story [above the 2nd] shall be provided as the work progresses. *Hose outlets shall be provided with male threads of Fire Department pattern with hose and nozzle attached at least every second outlet. The top and bottom of each riser and all cross connections shall be securely capped at all times during the progress of the work except when work on the standpipe fire line is in progress at that point. Temporary standpipe risers used in construction work and not less than 3 inches in diameter, maintained to supply water at all times, may be accepted in lieu of the regulation standpipe, provided it is equipped with hose outlets, hose and siamese as required above.*

Elevators or hoists shall be provided as required in Rule 6.

Rule 85. PLACES COVERING LARGE AREAS. *Ship yards, oil storage plants, amusement or exhibition parks or other enclosures when deemed necessary by the Fire Commissioner shall have one yard hydrant and hose for each 20,000 sq. ft. of area, but in no case shall there be more than 250 ft. distance between hydrants. Hydrants and hose shall be placed in an approved hose house, painted red, with words "FIRE HOSE" in 6-inch white letters on door. Plants exceeding 40,000 sq. ft. in area shall be provided with a fire pump of not less than 1,000 gallons per minute capacity, suctioning from a tank or sump of at least 30,000 gallons capacity. The Fire Commissioner may permit suction from a river or well if in his opinion the required quantity of reasonably clean water may be obtained thereby, [except that where river suction is proposed and standpipe primary water supply is taken from street main, approval of the proposition shall be obtained also from the Department of Water Supply, Gas and Electricity.] In addition to yard hydrants, the Fire Commissioner may require one Monitor nozzle with remote control for each 40,000 sq. ft. of area or fraction thereof when in his opinion an unusual hazard exists or will exist. Monitor nozzles shall be located as ordered by the Fire Commissioner.*

Yard hydrant systems shall not be connected to City mains outside high pressure fire service area unless approved by the Board of Standards and Appeals.

Provision for steamer connections, fireboat connections, pressure reliefs and general layout of plant standpipe systems shall be made by the Fire Commissioner as his judgment may dictate for each individual case.

Fire extinguishing equipments in addition to the foregoing shall be prescribed by the Fire Commissioner for all oil storage plants, oil refineries, fire work plants and other plants when deemed by the Fire Commissioner as presenting unusual fire hazards.

Rule 86. THEATRES, ETC. In every theatre or opera house or other building used for theatrical or operatic purposes or amusement purposes as per Section 520, Chapter 5, of the Code of Ordinances, the standpipe fire line equipments in addition to the tank shall also be supplied by approved electric pump or pumps having a capacity of at least 250 gals. per minute at 100 lbs. per square inch in buildings without occupancy above the roof and at 125 lbs. per square inch pressure in buildings having any oc-

cupancy above the auditorium roof. Power for pumps shall be supplied by 25 H. P. electric motors. Pumps shall be by-passed to suction tanks as provided for elsewhere in these rules under FIRE PUMPS. Pumps shall suction from steel or reinforced concrete tanks of not less than 5,000 gallons water capacity. Pumps shall deliver initial supply of water and shall be connected to an approved electric device which upon a reduction of pressure below the allowable minimum will automatically start the pump and upon a restoration of the required pressure will automatically shut off the pump. The automatic starting device shall be set to cut in at 60 lbs. pressure and to cut out at 80 lbs. pressure. In addition to the automatic starting device there shall be provided a hand starter for emergency use and there shall also be provided on the panel board a pressure gauge.

Rule 87. STREET MAIN CONNECTIONS. Subject to the requirements of the Department of Water Supply, Gas and Electricity, the size of each standpipe connection to a street main shall be not less than 4 in. in diameter and shall have a conveniently accessible control valve in the line at or near the curb or when practicable in a more remote location. The control valve shall be fitted with a frost and waterproof box not less than 4 ft. nor more than 6 ft. below the curb with a fixed stem extending to a compartment at the level of the sidewalk. The cover shall be bolted to the casing, and shall be so marked as to be quickly located and to indicate the purpose of the valve. The valve shall be of an indicating pattern, operating by a special socket wrench approved by the Department of Water Supply, Gas and Electricity. The water meters used in standpipe fire line supplies shall be of a type allowing free flow of water and be of approved type. Supply through the meter shall be checked against the Fire Department Siamese Supply and against tank supply.

Where, due to the presence of a vault under the sidewalk and extending to within 18 in. of the curb, it is impracticable to install a control valve box at the curb, there shall be placed in the feed line from the main a control valve located not more than two ft. from the point of entry.

Rule 88. HIGH AND LOW WATER ELECTRIC ALARMS. *The high and low water electric alarm for gravity tanks shall be so constructed and arranged that a decrease in the quantity of water below the required fire line reserve shall cause an alarm to be given in either the pump room or engineer's room. An annunciator shall be provided in connection with the alarm system. The high and low tell tale electric devices for gravity tanks shall be so constructed that they will not be affected by moisture and the parts shall be heavy and rugged. The level of the water in the gravity tank shall be indicated by an approved device.*

The audible signalling device for high and low water electric alarm shall consist of vibrating gong of at least 6 inches diameter of the enclosed type and arranged for conduit installation, the same to be operated automatically. The control cabinet shall be arranged for conduit installation and shall be located in the engineer's room or pump room where it will be under supervision of the person in charge of the standpipe supply.

All wiring shall be installed in rigid conduits and the installation shall be in accordance with the provisions of Chapter 9 of the Code of Ordinances. Control panels must be approved by the Board of Standards and Appeals.

The following sources of energy may be employed and are given in their order of preference:

1. Public utility electric light and power systems.
2. Independent electric generating plants.
3. Storage batteries in duplicate.
4. Primary batteries of closed circuit type.

When the system is connected to a 110 volt lighting service a suitable cut-out is to be provided and it shall be enclosed

PUBLIC HEARING

in a locked or sealed metal cabinet. The connection to system shall be the first connection on the house side of and as near as practicable to the meter. When batteries are used to operate the system they shall be placed in an approved cabinet provided with a lock and key.

Rule 89. DRY PIPE VALVE. A dry pipe valve shall be taken to mean a valve automatically controlling the water supply of the standpipe system in such a manner that under normal conditions its piping system will be maintained dry, but in the event of a hose valve being opened, the dry pipe valve automatically releases the water into the standpipe system.

In refrigerating plants or in unheated buildings, piers or warehouses where wet lines are impracticable, dry pipe valves may be installed.

Type A, in which the valve is actuated by the release of compressed air in the standpipe system due to the opening of a hose valve; and Type B, in which the valve is actuated by an approved trip under electrical control of an approved non-coded or coded closed circuit system operated from the control station at each hose outlet. Dry pipe valve shall be located as near as practicable to the standpipe system, in an enclosed place, protected from mechanical injury and freezing.

When Type A valve is installed the air pressure in the standpipe system under such dry pipe valve control shall not exceed 40 lbs. per sq. in. nor be permitted to fall below 25 lbs. per sq. in. nor shall it be less than one-sixth of the water pressure in any case. Not more than 16 hose outlets shall be supplied through one dry pipe valve. The air compressor shall have a capacity of not less than 11 cu. ft. per minute, and the air supply for the pump shall be taken, if possible from a room containing dry air, or it shall pass through a drying chamber containing calcium chloride in order to avoid the introduction of moisture into the system.

A closed circuit alarm shall be provided in connection with each dry pipe valve installation; the electrical layout shall be approved by the Fire Commissioner.

Rule 90. MONITOR NOZZLE. Monitor nozzles shall be so constructed and designed that they may be moved in both vertical and horizontal arcs, and shall be so located that streams may be brought to bear on all portions of the plant or building within the effective radius of stream play and such other exposing properties as may be within this radius. They shall be supplied from connections to the standpipe system not less than 4 in. in diameter with remote control.

Rule 90a. ROOF SETBACK HOSE OUTLETS. A two-way hose outlet tee shall be provided in the standpipe risers on floor level of any intermediate roof setbacks on all buildings exceeding one hundred feet in height when the following conditions exist:

1. When the building has a frontage of fifty feet or over.
2. And there are adjoining roofs, window openings or other exterior exposures within fifty feet of the roof outlets.
3. And the depth of the set-back exceeds ten feet.
4. And the set-back exceeds one hundred feet above grade level.

Rule 91. EXISTING STANDPIPES. Standpipe fire line equipments which were approved by the Fire Commissioner as conforming to the rules and regulations then being enforced, shall not be required to be altered to conform to the provisions of these rules, except where substantial additions or extension in height or area is made to the building, when these rules shall apply if deemed advisable or necessary by the Fire Commissioner, and except that all such fire line systems shall have or be provided with the following:

1. Roof gravity tank shall have a reserve of approximately 3,500 gallons of water for fire line.
2. The bottom of the gravity tank shall be not less than 20 feet above the hose outlet in the highest story.
3. A 4-inch emergency drain with gate valve.

4. House lines taken from outside of tank.
5. Tank properly heated and provided with overflow line.
6. Tank shall not be fed through fire line.
7. Tank to be fed at not less than 65 gallons a minute by pump or direct city connection.
8. An iron ladder of substantial construction, properly braced, extending to top of tank.
9. At least one gate valve at the down stream side of tank check.
10. Hose valves and hose not less than 2½ inches in good serviceable condition. No automatic hose valves permitted.
11. Wheel of hose valve within 6 ft. 6 in. of stair landing or of steps within 2 ft.
12. An open or automatic ball drip between the siamese check and siamese.
13. Approved 3 in. x 3 in. siamese, with approved caps.
14. The words "STANDPIPE" cast in the body of the valve, or on metal plates secured to siamese riser, or secured to face of building behind the siamese.
15. The siamese street riser, wall collars and caps painted a Fire Department red.
16. Outlet pressure reducers on all hose outlet valves where the pressure exceeds 50 lbs. per square inch.
17. In factory or other buildings of hazardous use, where the fire lines are not within a protected stair enclosure and which may be subjected to fire exposure because of such location, shall be protected by asbestos covering, wire lath and cement, or terra cotta blocks as described in these rules.
18. Fire lines shall be protected from freezing as specified in these rules.
19. The tank shall be provided with a high and low water electric alarm as specified in these rules.
20. The bonnets or caps of all siamese or tank check valves where practical which have been in the fire lines for at least ten years shall be removed and the interior of valve cleaned of all rust or other accumulations. The body of the valve shall then be given a good coat of red lead and linseed oil.

Rule 92. HOSE OUTLET VALVE. Hose outlet valves shall be 2½ in.

All hose outlet valves hereafter installed in buildings not exceeding 150 feet in height, shall conform to the following specifications:

1. Valves shall have a clear waterway of at least 5 sq. in. in area.
2. They shall show not more than 10 lbs. friction loss for a flow of 300 gallons per minute.
3. They shall close tightly against 300 lbs. hydraulic pressure under normal working conditions.
4. They shall stand a hydrostatic pressure test of 500 lbs. per sq. in. for 30 minutes and not distort.
5. They shall stand the operation of full opening and closing 300 times under 150 lbs. pressure without leaking at stuffing box or seat.
6. They shall not be of cast or malleable iron.
7. Only angle globe valves shall be permitted.

Hose outlet valves hereafter installed in buildings exceeding 150 feet in height, shall show not more than 5 lbs. friction loss for a flow of 300 gallons per minute; they shall close tightly against 500 lbs. hydraulic pressure under normal working conditions; they shall stand a hydrostatic test of 1,500 lbs. per square inch for 30 minutes and not distort; they shall stand the operation of full opening and closing 300 times under 250 lbs. hydraulic pressure without leaking at stuffing box or seat. They shall be of brass or best grade of valve bronze.

All straightaway gate valves may be submitted for test. All hose outlet valves hereafter installed shall have cast in the body of the valve:

1. The manufacturer's name or trade-mark.
2. The working pressure of the valve.

PUBLIC HEARING

3. The approval number of the Board of Standards and Appeals.

Not less than 2 approved hose valves shall be delivered to the office of the Board of Standards and Appeals, the weight and other general matter noted, and valves certified. One of the valves shall then be delivered to the office of the Fire Commissioner, with certified specifications.

Rule 93. SPECIFICATIONS. Siamese Connections. Fire Department siamese connection shall be as herein-after stated in this rule.

1. The body of the siamese may be of cast iron, cast steel, brass or any other suitable metals of sufficient strength to comply with Item 8 of this specification. All movable parts, clappers, swivels and all bolts, washers, nuts, screws and pin bearings and all swivel bearings shall be of non-corrodible metal.

2. Clapper valve seats shall be made of non-corrodible metal and shall be machined to insure a tight seat for clapper valves.

3. Each inlet to siamese shall be provided with a clapper valve machined to a true face. Single clapper siamese connections shall not be permitted.

4. The inside diameter of valve seats shall not be less than the inside diameter of the hose couplings. The area of the waterway beyond the valve seats shall not be less than the combined areas of the waterways through the two valve seats. The area of the waterway of each inlet shall not be reduced by the clapper when in a position of maximum opening.

5. Clappers shall be so hung that when siamese connection is placed in a horizontal position the clappers will be seated.

6. Swivels, attached to the body of the siamese by means of a collar expanded cold or screwed into the body of the siamese, or with other bearing surface extending entirely around the opening and exerting uniform shear, will be approved if giving a strength sufficient to meet item 8.

7. Clapper valves must be of such design and area that a pressure of 100 lbs. per sq. in. on the standpipe side will not prevent their opening when the pressure on the steamer side is 150 lbs. They must be so hung that with a discontinuance of flow into the siamese through that inlet the valve will close, and that it will not close where there is an inward flow and the pressure on the inlet is 5 lbs. or more greater than the standpipe pressure.

8. Siamese connections must stand a pressure test of 500 lbs. for 30 minutes and not distort.

9. Clapper valves shall be tight for any pressure on standpipe side up to 300 lbs.

10. Approved caps or plugs must be provided to protect the threads of the inlets.

11. The inlet swivels to siamese connection shall be provided with threads to fit the Fire Department hose.

12. The word "STANDPIPE" shall be cast into the top of the body of the siamese in 1 in. letters not less than $\frac{1}{8}$ of an in. in depth.

13. Where there is a fire boat siamese connection in the same system with a land end siamese connection, clapper valves shall be omitted from the land end siamese.

WILLIAM E. WALSH, *Chairman.*

WILLIAM J. O'GORMAN, *Secretary.*

RULES

COMMUNITY LAUNDRIES IN BUSINESS DISTRICTS

Amended Resolution Adopted by the Board of Appeals, March 16, 1920, Under Cal. No. 549-17-BZ

WHEREAS, the board of appeals, at its regular meeting, December 16, 1919, unanimously rescinded an opinion incidentally expressed and incorporated in a resolution adopted by the board on May 28, 1917, in acting on Cal. No. 549-17-BZ. This opinion was that a laundry is not a prohibited use in a business district under the building zone resolution. The board unanimously rescinded this expression of opinion, inasmuch as a laundry is a factory within the meaning of the labor law and must be so construed

under the building zone resolution in the absence of any definition therein to the contrary.

Resolved, that this shall not be construed to include within the prohibited uses specified under Section 4 of the building zone resolution a community or neighborhood laundry located in the basement or ground floor of a building within a business district and containing not more than eight (8) rotary washing machines with inside cylinders not more than 30 in. in diameter by 30 in. in length over all nor more than two 20 in. extractors, the 20 in. measurement being the diameter of the inside basket, which machines and extractors shall be operated solely by electric power and do not require the installation of steam boiler or plant.

CONCRETE RULES

USE OF HYDRATED LIME IN CONCRETE.

Adopted by the Board of Standards and Appeals, April 19, 1920, under Cal. No. 153-20-S.

The use of hydrated lime in all classes of concrete construction shall not be prohibited when used in accordance with the conditions hereinafter set forth.

The hydrated lime shall conform with the standard specifications for this material which have been adopted by the American Society for Testing Materials.

The maximum amount of hydrated lime which may be used shall conform with the following table, all weights given being the amount of lime which may be incorporated for each ninety-five pound bag of Portland cement.

1-1½-3 Mix, 4 pounds of hydrated lime per bag of cement.

1-2-4 Mix, 5 pounds of hydrated lime per bag of cement.

1-2½-5 Mix, 6 pounds of hydrated lime per bag of cement.

For hand mixed concrete, the hydrated lime and Portland cement shall be well mixed while dry.

Hydrated lime shall not be used in concrete which is to be deposited under water.
